SAVE 15% Sale Priced 4.99 Kit

175-pc. Insulated Solderless WIRING TERMINAL KIT

- Includes terminals and splices in the most popular styles and sizes
- Trouble-free installation—cut and strip wire, then crimp on an insulated terminal
- No need to twist wires or apply insulation tape

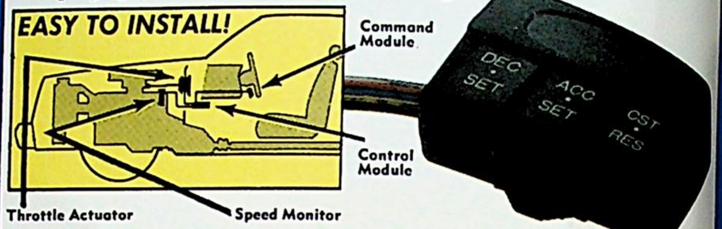

Permanent, professional electrical hook ups and insulated splices in seconds! Connections made with solder-free, crimp-on terminals have greater tensile pull-out strength and more consistent, dependable quality than solder connections. Terminals and splices are made of pure electrolyte copper, heat treated and electro-plated to OEM standards. Meet safety requirements and UL standards. Heavy plastic sleeve provides insulation all the way to the wire's insulation and also prevents wire flexing at the crimp. Insulation is NEMA color coded for instant identification. Includes: butt splices; ring and spade tongues in gauges 22-18, 16-14 (#6, #8, #10 ring sizes; #8, #10 spade sizes) and 12-10; male and female quick connectors in gauges 22-18 and 16-14; compartmented plastic storage box; instructions. Identification chart on lid.

ELECTRONIC CRUISE CONTROL

Enjoy pedal-free cruising

- **9 different functions make this one of the most sophisticated units available**
- **Simple 3-pushbutton operation—no dials to set**
- **No magnets to install**
- **High-technology microprocessor computes and updates mph quickly, accurately to assure a constant speed**
- **Solid-state electronic circuitry for long-lasting reliability**
- **Compact (3/4" high x 1-7/8" wide x 2-1/4" long) control module**
- **For American and imported gasoline vehicles**

Get better fuel economy while reducing driving fatigue! This remarkable cruise control automatically maintains a steady, pre-set speed, even on uphill or downhill grades. Eliminates fuel-guzzling speed variations caused by gas pedal operation. With your foot off the pedal, long-distance driving is more relaxed and comfortable ... and safer because you drive watching the road instead of the speedometer.

9 Different Functions

1. On/Off—slide switch control.
2. Engage at Present Speed—a tap of the "DEC" or "ACC" buttons initially engages cruise control to maintain any speed over approx. 25 mph.
3 & 4. Decel/Set—holding down "DEC" button slows vehicle to a lower speed; releasing button engages cruise control to maintain that speed. Ideal for adjusting to slower moving traffic.
5 & 6. Accel/Set—holding down "ACC" button accelerates vehicle to higher speed; releasing button engages cruise control to maintain that speed. Ideal for adjusting to faster moving traffic.
7 & 8. Coast/Resume—holding down "RES" button causes vehicle to decelerate; releasing button engages cruise control and accelerates vehicle to previous cruise speed (no resetting necessary). Ideal when passing slower traffic.
9. Tap Off—a tap of the "RES" key while cruise control is engaged shuts unit off.

Safety Features

Cruise control can be shut off by depressing brake pedal, tapping "RES" key, decelerating approximately 12 mph below cruise speed, or turning off ignition switch. Unit automatically disengages if brake fuse blows, brake lights burn out, or any of the connectors become separated.

Easy to Install

Control module mounts on steering column, dash, console or just about anywhere, using self-adhesive backing. Microprocessor mounts out of sight inside vehicle. Throttle actuator hooks up to carburetor linkage. No magnets to attach—simply wire speed sensor to coil (picks up RPM from coil impulse). Includes color-coded wiring with plug-in connectors, mounting hardware and detailed installation instructions. For American and imported gasoline cars (including fuel-injected, automatic and manual transmissions and all types of ignitions) with 12-volt negative ground systems. **Not for diesels or vehicles without vacuum source.**

81FJ1887A—Reg. ~~$49.95~~ .. 1-Kit **$39.95**

Deluxe HAND RIVET GUN KIT

INCLUDES 250 ASSORTED RIVETS IN 6 SIZES

SAVE $5

Sets 3/32", 1/8", 5/32", & 3/16" aluminum or steel rivets

- **Rivets hold securely ... especially where vibration is a problem or where the back side is inaccessible**
- **Easy-to-handle gun weighs less than 1-1/2 lbs.**

Use on copper, brass, tin, lead, steel, aluminum, pewter, zinc—virtually any material. Rivets won't easily rust or corrode or come loose. Kit includes heavy-duty rivet gun, powerful enough to do jobs fast. Easy to use. Gun has non-rust zinc alloy die-cast body with strong drop-forged handles and rubberized grips. Chain lock keeps handles closed. Durable fulcrum pin. Also included are 4 specially-hardened nose pieces for 3/32", 1/8", 5/32" and 3/16" diam. rivets. Nose pieces store in gun. Plus 250 assorted aluminum rivets in the following diameters: 1/8", 5/32" and 3/16". Grip length of 5/16" and 3/8". With hand wrench that stores in handle. See Index for a larger selection of additional rivets.

140-watt 7-band EQUALIZER/AMPLIFIER

for use with Headphones or Speaker System

- **70 watts low-distortion power per channel ... 140 watts total**
- **2 headphone jacks for private listening**
- **Ten 2-color LED power output indicators (5 per channel) allow visual channel adjustment**
- **Green lighted equalizer slide control knobs**

Gives you more control over your vehicle's sound system ... and provides full-bodied sound with exceptional fidelity! Powerful amplifier permits use of larger speakers for better sound. Equalizer lets you shape sound to your taste. Frequencies: 60Hz, 150Hz, 400Hz, 1KHz, 2.4KHz, 6.5KHz, 15KHz. Adjustment range −12dB to +12dB. Fader control lets you balance 4-speaker systems front to rear. Radio balance control adjusts side to side. Speaker on/off switch and power-off bypass. Compact size (1" high x 5-1/2" wide x 4-3/4" deep) allows easy installation. For all 12-volt negative ground systems. Instructions and mounting hardware included.

SAVE 26%-32%

200% More Light than Standard Sealed Beams!

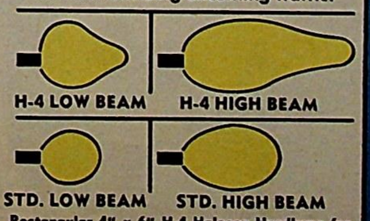

High-intensity QUARTZ-HALOGEN HEADLIGHTS

for All Vehicles

- **Increased visibility...greater safety**
- **Direct replacement for present sealed beam headlights—no modification necessary**
- **Simple plug-in installation**
- **For 2 and 4-headlamp systems on most vehicles...also great for motorcycles**
- **H-4 bulb lasts 4 times longer than ordinary sealed beams and 1-1/2 times longer than standard halogen sealed beams**
- **Unlike sealed beam headlights, the H-4 will continue to work even if the lens is broken**

More light where you need it... without blinding oncoming traffic!

The H-4 is the right light for driving safely at night! Powerful halogen dual-filament bulb, hermetically sealed from dirt and moisture, shines 55 watts of illumination on low beam, compared to 35 watts for regular halogen sealed beam headlights! Delivers twice the brilliance and visibility of traditional tungsten sealed beams! You get better night viewing for increased reaction time and less fatigue. Special "cut-off" line directs intense light down and to the left shoulder of the road without blinding oncoming traffic ... on the right side light shines up and to the right shoulder for total visibility. If the bulb burns out, it's easily replaceable (see below)—no need to replace expensive lens or reflector. D.O.T. legal in all 50 states.

STRETCH-n-SNATCH STRAP
SAVE 15% to 18%

- Works like a big rubber band...stretches out and then snatches stuck vehicle out of mud, snow, sand
- Extra-tough 30-ft. nylon strap
- Safer, stronger and more efficient than chain... weighs less and easier to handle, too
- Allows a light vehicle to snatch a heavier vehicle out of the mud—without damage to either
- Choice of 20,000 to 60,000-lb. capacities

Operates on the principle that a lighter object (your vehicle) can move a much heavier object (a big truck or 4WD vehicle) when used with forward momentum. Easy to use! The stretch and elasticity of the strap reduce any chance of damage to the drive train of towing or towed vehicle. Rot and mildew resistant—won't absorb mud or water. Can be used on any vehicle. Won't mar, scratch or dent. 30 ft. long. Stores anywhere.

Chrome-plated • Custom-fit TURNED-OUT and FLARED MUFFLER SETS for Honda & Kawasaki

- Replaces all 4 mufflers—converts your old exhaust system into new 4-into-2 style
- Choice of 2 styles—turned-out or flared
- Choice of 2 cores—fiberglass or baffled

Bright, corrosion-resistant plated 16-gauge tubular steel mufflers slip on quickly, easily. Built-in "Y" collectors fit perfectly over stock pipes and bolt into place. Welded-on mounting brackets. Turned-out style has 3" diam. body; flared style has 2-1/2" diam. body; 3-1/2" flared end. Both measure 26" long. Choice of 2 cores—fiberglass-packed core or super-quiet chamberized-baffle core which has no fiberglass to burn out, does not require rebuilding. With hardware, instructions. **NOTE:** Do not order if your make and model are not listed, as sets fit only those listed and cannot be altered to fit other models. Custom fit the following 4 cyl. cycles:
Honda—All CB350 4-cyl.; 69-76 CB500 4-cyl., CB550, CB550K1; 69-76 CB750K1 thru K5; 77-82 CB750K; 76-78 CB750A.
Kawasaki—77-80 KZ650; All 900Z1 and KZ900; 77-80 KZ1000

Custom-fit COCOA MATS
for American and Imported Cars and Trucks

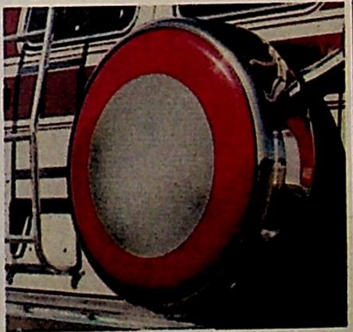

Brighten and protect your vehicle's interior with floor mats made of natural cocoa fibers. They're tough and custom-tailored for a proper fit. Also provide insulation against heat, cold and road noise. Practically indestructible. Resistant to dirt and moisture ... won't mildew. For extra durability, edges are pre-sewn before being bound with strong vinyl and driver's side comes with a custom heel pad. Easy to clean—just shake or brush out. Available in 4 popular colors to complement any interior: solid black; red/black tweed; black/rust/tan tweed; and blue/black tweed. For these vehicles.

AUTO MOLY

Contains the miracle "liquid-metal" known as Molybdenum Disulfide (MoS_2) plus amazing acid-barrier magnesium. It's an economical "one-shot" treatment—just add AUTO-MOLY to your crankcase oil. This finest of all lubricants literally plates the vital moving parts of your engine, crankshaft, cylinder walls, pistons, etc., with a microscopic coating of millions of molybdenum "roller bearings." Molecular attraction bonds the molybdenum to metal surfaces. This super-lubricant reduces friction heat and wear ... triples oil efficiency and increases power and gas mileage. Bearings, cylinder walls, pistons, lifters, etc. **STAY LUBRICATED** to prevent damaging "dry starts" caused by oil draining off after your car has been sitting, even for a few minutes. Reg. ...

High-performance CAPACITIVE DISCHARGE IGNITION SYSTEM

Powerful! Delivers up to 49,500-volt output to each spark plug!

- Strong, waterproof, vibration resistant, weatherproof ... ideal for off-road vehicles
- Increases horsepower and performance
- Improves gas mileage and acceleration
- Saves money—dramatically reduces tune ups ... increases spark plug life
- Easy to install—no need to remove any parts from existing ignition system

Designed to provide dependable, trouble-free performance under the worst conditions ... tough enough to even operate under water! Strong aluminum housing is finned for greater heat dissipation. Transistorized solid-state circuitry assures efficient operation, extra-long life. System delivers and maintains powerful 49,500-volt output (up to 10,000 RPM) to each spark plug. This extra-hot spark assures clean and complete combustion—maximum power is extracted from every drop of fuel! The result: a more efficient and more powerful engine. Mounts easily anywhere under hood—only 5 wires to hook up. No need to time motor after installation. 2-way plug allows easy switchover from CDI to your conventional system ... and back again. For all American and imported cars, trucks, campers, motorhomes, boats or any vehicle with 12-volt negative-ground system. Works on all factory electronic ignitions—not for use with conversion electronic ignitions. Works with electronic tachometers ... won't interfere with CB, radio or tape player. With instructions.

73—7080X— ... Each $59.95

TANK REPAIR KITS for Steel & Plastic Tanks

- PERMANENT repairs in just minutes!
- Fixes cracks, rust-outs and tears
- Repairs everything from a tiny pinhole up to a hole 1" in diameter
- Easy, clean—no need to remove or drain tank
- Safe—no welding, no need to apply heat

Repairs fuel tanks, radiators, crankcases, transmission covers as strong as new! Repaired areas are impervious to gasoline, water, oil. Kit includes resin, 30 sq. in. of fiberglass, sandpaper, brush, sealer, instructions.

12—4377U—For steel tanks ... 1-Kit $6.98

WINDSHIELD WIPER DELAY with WASHER FLUID MONITOR

Make your conventional wiper system more versatile and economical. Wiper delay keeps windshield clear in light rain or mist, while you're driving over wet streets, any time full wiping action is not needed. Reduces unnecessary blade wear ... prevents dry-blade squeak, smear ... saves on washer fluid. Adjustable from 2 to 20 seconds. Built-in red LED warns when washer fluid is low. Compact—installs easily on or under dash. Includes probe, wiring, instructions. For all 12-volt systems.

74—8248Y—
Each ... $14.98

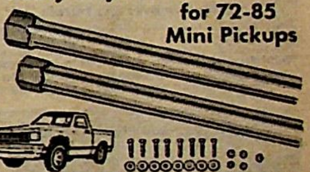

Rear Wheel Bearings & Seals for American Front-Wheel-Drive Cars

Replaces worn or damaged original rear wheel bearing perfectly ... assures safer handling and longer tire life. Alloy steel bearing includes race assembly.

Complete PAINT SPRAYER & COMPRESSOR OUTFIT

ONLY 99[88] Kit

Kit includes the following:
Spray Gun—handles most paints, varnishes . . . sprays household liquids, insecticides. Internal mix. Bleeder type spray control. Quart aluminum cup. Fan and round nozzle. 15-ft. air hose. 1/4" hose fittings.
Oilless Diaphragm Compressor—compact, lightweight—completely portable. Direct-drive 1/10-H.P. motor delivers 1 SCFM air flow at 20 psi. Maximum pressure: 45 psi. Factory sealed ball bearings never need lubrication. 1/4" pipe thread air outlet. 6-ft. cord. Operates on 115-volt, 60Hz current.
Hobby & Touch-up Gun—1-oz. paint jar. 8-ft. air hose, 1/4" hose fittings.
Inflater Adapters—football needle, air chuck for beach toys, inflating tube and tire chuck.
UL/CSA listed.
14—8604N— 1-Kit $99.88

Paints, sprays, does touch-ups, inflates!

The ULTIMATE RADAR DETECTOR detects ALL police radar including X-Band, K-Band and the new KR-11 PULSING K-BAND

Incorporates the latest electronic features you'd want in a radar detector

SUPER COMPACT—only 1-1/4" high, 3-1/4" wide and 4-1/2" long!

NOT $250
NOT $200
FOR ONLY 149[95]

- **Exclusive superheterodyne horn-microstrip circuitry—gives 10 times the range of conventional units**
- **Detects ALL police radar . . . sounds separate warning tones for X and K bands**
- **Red LED lights indicate your relative distance from radar source**
- **Radar signal discriminator switch adjusts sensitivity for city or highway driving . . . helps eliminate false alarms**

Protect yourself from radar traps and unwanted tickets. This compact detector combines advanced superheterodyne circuitry with microcomputer signal processing for maximum sensitivity and accuracy. You get all the important features contained in more expensive units . . . at a TERRIFIC LOW PRICE!

Effective over any terrain

Detector effectively searches out radar signals on flat, hilly or winding roads. Detects all types of police radar, giving you plenty of time to react and adjust your speed. Advanced horn-microstrip circuitry won't generate radar signals that can set off false alarms in other detectors—unlike many inferior models sold today.

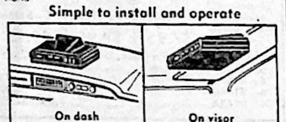

Warns you audibly and visually

When police radar is detected, the red radar signal LED lights up. Plus, an audible alarm sounds, with distinct tones for X and K bands. This "language" (not found on most detectors) is important, because there is less time to respond to K-band radar. This detector does more—it gives you a visual indication of your relative distance from radar source. As signal strength increases (radar source gets closer), the red radar distance LEDs begin to light up one after the other. When signal strength is at its strongest, all the LEDs will be lit and will flash simultaneously. Easier to read than a meter.

Eliminates false alarms

Radar signal discriminator switch has 2 positions to adjust detector's sensitivity. The "HWY" position sets unit for maximum sensitivity for highway driving. The "CITY" position adjusts sensitivity for city driving . . . screens out extraneous signals from burglar alarms, motion detectors, other radar detectors to eliminate false alarms. Amber LED pulses to indicate "HWY" and "CITY" positions.

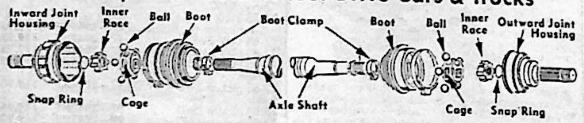

Simple to install and operate

Detector mounts to dashboard or visor—Velcro® tape, visor bracket and instructions included. Plugs into the cigarette lighter of any 12-volt negative-ground vehicle.
12—2892U— Each $149.95

AXLE SHAFT ASSEMBLIES

for Imported Front-Wheel-Drive Cars & Trucks

- **Replaces worn assembly to help eliminate poor handling and excessive drivetrain noise**
- **Install it yourself . . . avoid high dealer charges**

All parts are disassembled and inspected. All major components are remanufactured or replaced. Balls are standardized for longer service life. New neoprene boots, clamps. All components meet or exceed OEM specifications. Assemblies are inspected, then quality tested. **When Ordering, State Make, Year, Model, Right or Left Assembly & Stk. No.**

TRAILER HOOK-UP MIRROR

- **Makes trailer hook-up a one-person job!**
- **Ends the hassle and aggravation of trying to align trailer coupler and hitch ball**

Mirror attaches to all sizes of jack posts with strong clamp. Large 4" x 7" convex head with unbreakable lens gives extra-wide-angle view. Rust-free aluminum.
15—5395B— Each $9.95

Colorful AUTOMOTIVE LOGO & STRIPING KIT

- **Add a sporty flair to your vehicle**
- **8 logos available in black, gold or silver**

Apply easily with self-adhesive backing. Made of die-cut vinyl. Kits include one 3" high logo, one 3" high x 50" long matching stripe and instructions. Order 2 kits for use on both sides of vehicle. Choice of the following logos: **Camaro, Chevy, Dodge, Ford, Toyota, Trans AM, Turbo, 4 x 4. When Ordering, State Logo and Color Desired. Note: The stk. no. you ordered may carry a different identification no. on your pkg.**
55—3326P— 1-Kit $6.95

J.C. WHITNEY & CO. CAP

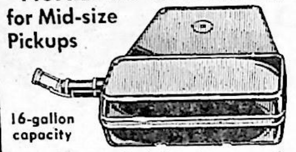

A Must for the Automotive Enthusiast!

Colorful blue baseball-style cap with polyester foam-backed yellow front panel and raised blue logo. Mesh back and sides. Shape-retaining crown has safety-locked top button. Padded knit visor with six rows of stitching. Cloth sweatband. Adjustable snap tab on back—one size fits all adults.
12—3669N— Each $4.95

AUXILIARY GAS TANKS

for Mid-size Pickups

16-gallon capacity

- **High-density polyethylene is stronger than steel—won't dent, split or rust**
- **Complete with 3-port electric valve, sending unit and all installation hardware**
- **Electric switching to/from primary tank**

Mounts under body in place of spare tire. (Spare must be relocated—see Index for tire carriers.) Fills from inside rear wheel well—gas cap included. Uses existing fuel gauge. Overall: 26" long, 24" wide, 8-1/2" deep. Will work in pickups with factory-installed optional extra-capacity primary tank. Pickups with 3 fuel lines attached to fuel pump require 6-port valve & fuel return kit sold separately below. Shipped UPS from factory. No C.O.D. orders.

For 81-85 mid-size Ford Ranger. Will not fit Bronco II.
97—2939AF— 1-Kit $189.95

For 81-85 mid-size Chevy S-10, GMC S-15. Will not fit S-10 Blazer, S-15 Jimmy.
97—2940RF— 1-Kit $189.95

6-port Valve & Fuel Return Kit. For pickups with 3 fuel lines (2 to tank, 1 to carb) attached to fuel pump. Includes valve, clamps, fuel hose, instructions. Shpd. from factory. No C.O.D. orders.
97—2298BF— 1-Kit $34.95

Complete Engine Overhaul or Top End Overhaul GASKET SETS for ATVs

Complete sets include all gaskets, seals and O-rings to completely overhaul engine and crankcase. Top end sets include all gaskets, seals and O-rings to overhaul cylinder from crankcase up (includes head and base gaskets). For the following ATVs only:

Large • Magnetic SPARE KEY HOLDERS

Hide an extra key for your car! Holders have strong, unbreakable magnet to hold fast to any metal surface.

Deluxe Key Holder (shown). 3" x 1-3/4"—holds 2 large size keys. Rustproof plastic with convenient snap cover.
12—4295Y— Each 79¢

Economy Key Holder. 3" x 1-5/8"—holds 2 long keys. Heat-resistant metal with slide cover.
14—4700N— Each 29¢

DC Power TIMING LIGHT & TACH/DWELL ANALYZER

with Inductive Pickups

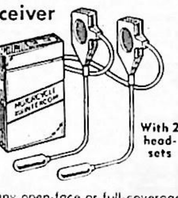

- **Fast, easy clamp-on inductive hookup**
- **For all 1 to 12-cylinder and rotary engines, all ignitions**

Keep your engine at peak performance . . . get better fuel economy. Combination instrument accurately, easily measures timing. Xenon tube's light is clearly visible even in bright sunlight. Trigger activated—flashes only when needed. Also checks timing angle, vacuum and centrifugal advance, tests for worn parts. Tachometer range: 0-4000 RPM. Dwell: 0-90° (4-cyl.); 0-72° (5-cyl.); 0-60° (6-cyl.); 0-45° (8-cyl.). High-impact plastic housing, solid-state circuitry. For 12-volt systems. With instructions.
81—1792T— Each $49.95

Helmet-adaptable FULL DUPLEX INTERCOM with FM Receiver

- **For cyclists, snowmobilers, go-kart racers, more**

Allows full duplex (simultaneous) communication between driver & passenger—just like using a telephone. Headsets can be used with or without almost any open-face or full-coverage helmet . . . no cutting or drilling required. Unidirectional microphones allow clear conversation even at highway speeds. FM radio provides on-the-road entertainment. Compact, lightweight power pack attaches to belt or clips to pocket. Set includes one power pack, 3 "AAA" batteries, two headsets (for driver and passenger) and instructions.
03—9803N— 1-Set $59.95

As above, but without FM radio.
03—9802X— 1-Set $49.95

Chrome-plated Finned DEEP TRANSMISSION PAN

for Turbo-Hydro 350 and 400

- 2-1/2" deeper than original
- Allows use of 3 additional quarts of oil
- Designed to give maximum cooling

Keeps transmission-fluid temperatures down for longer transmission life. For cars, trucks, vans and RVs. Easy to install. With gasket, filter extension and drain . . .
37—7404U—TH350
37—7000P—TH400 Each $49.[illegible]

Chrome-plated Brass WHEEL WELL TRIM

for 72-84 Mercedes-Benz

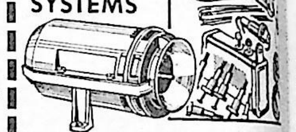

- **Protects and customizes well openings**

OEM-like quality . . . will never rust! Solid brass with triple chrome plating. 1/4" black rubber moulding protects . . . Installation requires drilling in underside of well lip . . . no unsightly exterior holes . . . hardware.

Year. Model
72-80 350SL, 450SL, 450SLC

RV ALARM SYSTEMS

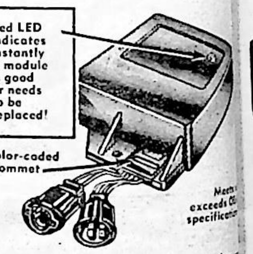

Complete 2-way system—motion detector guards against tow-away attempts . . . door and window switches guard against forced entry. Separate on/off switch allows use of one or both. 116-decibel motor-driven siren sounds when system is triggered . . . continues to blast until turned off with key. Self-tapping alarm switches install easily. Operates off existing vehicle power supply or separate 12-volt battery. Complete with installation hardware, in-line fuse, two keys, easy instructions and window decals.
12—1540P— 1-Kit $34.9[illegible]

Above for use with RV horn
12—1542W— 1-Kit $19.9[illegible]

SELF-TESTING ELECTRONIC IGNITION CONTROL MODULE

for 73-84 Ford, Lincoln, Mercury Cars & Light Trucks

- **Replaces defective module perfectly . . . or replace functional non-self-testing module and keep original in trunk as a spare**
- **One glance lets you know if module is functioning properly**

A real time-saver when diagnosing engine problems! Instantly eliminates (or confirms) the module as a possible source of trouble. So easy! Start your engine. If LED lights up, module is functioning properly. If LED fails to light, module needs to be replaced. Ends uncertainty and time wasted determining if module is or is not working right. Saves money . . . prevents replacement of unneeded parts. Ends days or months of driving with a module that may be working, but not working right. This can cause rough idling, poor acceleration, increased fuel consumption and exhaust emissions. For all 73-84 Ford, Lincoln, Mercury cars and light trucks with electronic ignition. **When Ordering, State Make, Year, Model, Engine Size, Grommet Color of Existing Module (see illus. above) & Stk. No. Note: The stock number ordered may carry a different identification number on your package.**
55—3707A— Each $24.9[illegible]

Drive your vehicle up to 50,000 miles without a tune-up! SCR ELECTRONIC IGNITION SYSTEM

- **Increases power, performance, acceleration**
- **50,000-volt spark fires hot to 10,000 RPM**
- **Spark plugs and points last up to 50,000 miles**

New Generation Silicon Controlled Rectifier-type Ignition System actually combines advantages of battery system (at low speeds) and magneto system (at high speeds) to deliver virtually the same voltage at all speeds. (Conventional systems lose up to 50% efficiency at high speeds.) Working with your standard coil and distributor, system controls up to 400 volts of primary power to deliver 50,000 volts or more to the spark plugs!

for Cars, Trucks & RVs

Like a PERMANENT Tune-up!

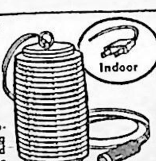

Experts agree stock ignitions can't stand up to today's engines. Plugs and points lose efficiency after only a few thousand miles, resulting in constant, costly tune-ups. This system can eliminate 9 out of 10 tune-ups by increasing plug and point life. You get 50,000 volts or more (compared to only 15,000-30,000 volts from stock ignitions) of thunderbolt power to your plugs, blasting away oil and carbon—actually cleaning them as you drive! The higher voltage and hotter spark mean spark can leap a gap 3 times as wide as with a standard ignition . . . plugs last 5 to 10 times as long. A clean engine can also mean big savings on maintenance and repairs. Performance extras: easier, battery-saving starts in coldest or hottest weather . . . faster, smoother acceleration . . . higher top speeds and increased economy. Installs in minutes with common hand tools. Just mount with 2 screws and connect wires. Easy, illustrated instructions. **Fits all American and imported vehicles with 12-volt negative-ground ignition (exc. electronic ignition) systems.**
75—4708U— Each $19.95

LIMITED (Ownership Duration) WARRANTY

Use this remarkable New Generation SCR ELECTRONIC IGNITION SYSTEM in your vehicle entirely at our risk . . . give it every test you can think of . . . POWER—ECONOMY—STARTING—SURE-FIRE SMOOTHNESS—PERFORMANCE, etc. Now, if you are not completely satisfied in every possible way at the end of 30 full days, simply return your ELECTRONIC IGNITION SYSTEM for a FULL and IMMEDIATE REFUND.
We further warrant FREE REPLACEMENT of the ELECTRONIC IGNITION SYSTEM, regardless of the reason, for as long as you own that vehicle (labor not included).

SATISFACTION GUARANTEED or MONEY BACK!

Indoor and Outdoor Electronic FLY & BUG KILLERS

- **Automatic—ultra-violet rays attract flying insects to enclosed electric grid where they're killed on contact**
- **Odorless, quiet, and completely safe**
- **Available in 12-volt and 115/120-volt models**

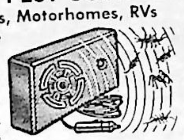

Unbreakable plastic. Easy clean-ups. 11-1/2" high, 5-1/2" diam.

Outdoor Bug Killer. Plugs into cigarette lighter socket. Also protects tent . . . up to 500 sq. ft. 15-ft. cord. 12 volt.
15—6792R— Each $24.95

Indoor Bug Killer. 115/120 volt. UL listed.
15—6791A— Each $24.95

Ultrasonic PEST CONTROL

for Campers, Motorhomes, RVs and Home Use

- **Drives bugs and rodents out with an intolerable sound only THEY can hear . . . doesn't kill**
- **25-ft. outdoor range . . . covers up to 2500 sq. ft. indoors**
- **Choice of 12-volt DC & 115/120-volt AC models**

Quiet, odorless, more effective than poisons. Just plug in. Proven effective against mice, bees, roaches, flies, spiders, mosquitoes. Safe for humans, dogs, cats, birds & farm animals. Won't affect radio or TV reception, garage door openers, microwave ovens, pacemakers or hearing aids. Draws 4 watts. 6" x 3-1/4" x 1-1/4".
14—7769X—For 115/120-V AC
14—7770N—For 12-volt DC Each $24.95

FIBERGLASS BUG SCREEN

for Cars, Vans and Trucks

- **Protect your vehicle's cooling system**
- **Attaches securely to front of vehicle with rust-proof "S" hooks—no tools required**

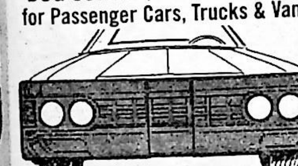

Easy-on, easy-off heavy-duty screen stops bugs before they can stop you. Won't shrink or stretch. Durable, rustproof and washable. Folds, stores in glove compartment. Charcoal color. With fixed eyelets, heavy-duty shock cords, "S" hooks, instructions.

For sub-compact to intermediate-sized cars. 20" high x 70" wide.
15—6748A— Each $3.98

For full-sized cars, vans, trucks, RVs. 26" high x 84" wide.
15—6749R— Each $4.98

Complete front-end protection! BUG SCREEN/GRAVEL GUARD

for Passenger Cars, Trucks & Vans

Full-front protection! Spring steel frame with non-corroding fiberglass screens. Screen rests on front bumpers, attaches to grille and wheel well opening with shock-absorbing springs. Easy to remove. Exposed metal parts are galvanized or cadmium plated to resist rust. Instructions included.

For cars with protruding bumpers. 15" high, extends up to 72" width.
19—5683X— Each $19.95

For trucks, vans. 22" high, extends up to 76" width.
19—5666B— Each $19.95

HEATER HOSES

Better Quality Heater Hose. High-quality synthetic hose lasts longer, performs better than ordinary rubber hoses.

I.D.	6-ft. Length	Each	50-ft. Length	Each
1/2"	38—0866P	$2.39	38—0872Y	$18.95

GARAGE DOOR WEATHER SEAL

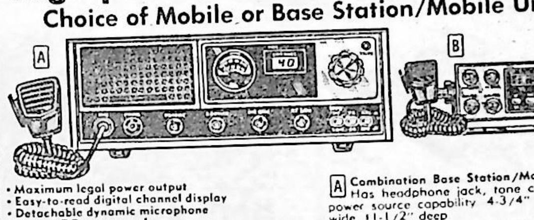

- **Choice of 3 lengths**

Pure vinyl cushion seal for wood overhead doors. Install in minutes. Keeps out snow, rain, wind, etc. Keeps heat in. Cushion silent door closing, won't crack or freeze. Not affected by oil, gas. With nails.
54—0769N—8-ft. length Each $6.49
54—0770T—9-ft. length Each 6.99
54—0771A—16-ft. length Each 11.99

High-power 40-CHANNEL CB RADIOS

Choice of Mobile or Base Station/Mobile Units

- Maximum legal power output
- Easy-to-read digital channel display
- Detachable dynamic microphone
- Plug-in DC power cord

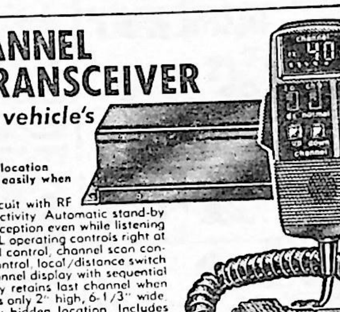

Both units have these outstanding features: Automatic modulation control, ANL switch, mike & RF gain controls, on/off/volume control, squelch control, S/RF meter, TX/RX indicator, PA/CB switch and external speaker jacks. With instructions. For 12-volt positive or negative-ground systems.

[A] **Combination Base Station/Mobile CB Radio.** Has headphone jack, tone control and AC power source capability. 4-3/4" high, 13-1/2" wide, 11-1/2" deep.
03—9775N— Each $199.95

[B] **Under-dash Mobile CB Radio.** Has instant channel 9 indicator and bright/dim illumination switch. 2-1/8" high, 6-1/4" wide, 8-5/8" deep.
03—9776T— Each $99.95

40-CHANNEL MOBILE CB TRANSCEIVER

Works through your vehicle's existing speakers!

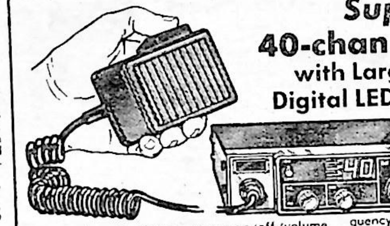

- **Remote CB module mounts in hidden location**
- **Quick plug-in microphone detaches easily when not in use to prevent theft**

Dual conversion superheterodyne circuit with RF stage for superior sensitivity and selectivity. Automatic stand-by circuit allows CB transmission and reception even while listening to radio or tape. Microphone puts ALL operating controls right at your fingertips: up-and-down channel control, channel scan control, switchable channel 9, squelch control, local/distance switch and on/off/volume control. LED channel display with sequential signal level meter. Electronic memory retains last channel when CB is turned off. Electronics module is only 2" high, 6-1/3" wide, 4-1/2" deep, mounts easily in any hidden location. Includes mounting hardware, instructions. For all 12-volt negative-ground systems.
03—9732W— Each $149.95

Super-thin 40-channel CB RADIO

with Large Easy-to-read Digital LED Channel Display

- **Sleek, attractive design—only 1-1/2" high x 4-1/2" wide x 6-1/2" deep**
- **Variable squelch control**
- **Mounts under dash in cars or overhead in vans and RVs**
- **Maximum power output allowed by law**

Rotary channel selector, power on/off/volume control. 4-LED S/RF power meter. ANL (automatic noise limiter) switch filters out static interference. External speaker jack. 40-channel frequency range: 26.965-27.405 MHz. Includes microphone, hardware and instructions. For all 12-volt positive or neg.-ground vehicles.
03—9777A— Each $59.95

Deluxe AUTO-REVERSE CASSETTE DECK & Electronically-tuned AM/FM STEREO RADIO

- **Full logic computer circuitry**
- **State-of-the-art cassette features**
- **Automatic seek and scan tuning, 10-station memory**
- **45 watts RMS of power (22.5 per channel)**

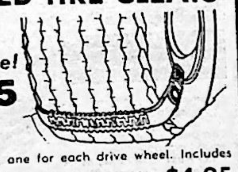

Cassette Deck features: Auto Reverse plays both sides of tape continuously. Cassette Scan lets you search for the tape track you want without fumbling with fast forward or rewind buttons. Repeat Selection lets you hear your favorite tracks more than once. Blank Skip quickly finds the beginning of any selection; also fast forwards to first song on tape and fast forwards to end of tape when last song is played. Dolby® B/C noise reduction eliminates tape hiss. Metal tape capability. Program selector switch. Locking fast forward and rewind. Electronic tape loading.
AM/FM Stereo Radio features: Precise PLL (phase-lock-loop) electronic tuning with 10-station pushbutton memory (5 AM, 5 FM). Automatic seek and scan tuning. LED frequency and time display. FM muting and stereo/mono switches.
Other features: Built-in booster for 100Hz, 200Hz, 300Hz low bass frequencies. Loudness control. Separate bass/treble and balance/fader controls. Function indicators. Frequency response: 20-20,000Hz. Housing measures only 1-7/8" high, 7" wide, 5-1/4" deep. With wiring, hardware, instructions. For all 12-volt negative-ground systems.
03—9665Y— Each $329.95

Emergency-traction STUDDED TIRE CLEATS

- **Incredible starting grip—pulls your car out of the toughest jams!**
- **LEGAL—do not violate studded snow tire bans**
- **Lightweight, easy to install and remove**

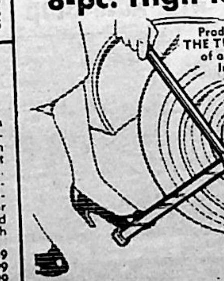

Superior alternative to old-fashioned steel chains. Unique non-metallic synthetic is lightweight and pliable; conforms to the shape of your tire. Durable—digs and grips to get you out of mud, ice and snow. Studded yet legal; they do not violate bans because they are removable. Run comfortably at highway speeds on clear roads; however, they should be removed when not needed. Fit all passenger cars with slotted or spoke wheels including front wheel drive vehicles with radials.

Great Low Price! 4[95] Set

Set of two, one for each drive wheel. Includes instructions.
54—1246T— 1-Set $4.95

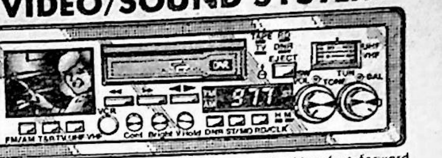

8-pc. High-leverage LUG REMOVER SET

- **ANYONE can loosen the tightest lug nuts (even those installed with an air wrench) quickly, effortlessly**
- **Includes sockets to fit all lug nuts on American & imported cars, RVs, light trucks**

A must in every trunk! Ends tire changing problems caused by over-tightened, frozen or rusted lug nuts that won't budge. Easy to assemble and use. Just snap the correct socket onto the stubborn lug nut; snap extension onto wrench and slide into wrench support. Brace the support with your foot and turn wrench. 1/2" drive ratchet wrench is extra long (approx. 18") to provide the greatest leverage for effortless turning. Support won't slip even on ice, snow or wet ground. Set includes ratchet, extension, foot support, 5 non-slip 6-pt. sockets (17mm, 19mm & 3/4", 13/16", 7/8", 15/16"), storage box. Sockets, ratchet and extension of chrome-plated heat-treated & hardened steel. Support of zinc-plated cold-rolled steel.
12—4212T— 1-Set $18.88

A 2" Black & White TV, Electronic Digital AM/FM/MPX Radio & Auto Reverse Stereo Cassette Player . . . All in ONE UNIT! In-dash CAR VIDEO/SOUND SYSTEM

- **VCR jack lets you record and play back TV programs on any video tape recorder**
- **DNR® (dynamic noise reduction) filters out hiss from radio, TV or tape**
- **50 watts peak power output (25 per channel)**
- **DIN-C snap-in installation—fits most American car, van, truck, RV & boat dashboards**

TV features: Screen has slide-on magnifier lens to double picture area. All-channel VHF/UHF vernier tuner. Contrast/brightness/vertical hold controls. Sound plays through car stereo speakers (not included—see Index). TV picture tube disarms when ignition key switch is in "on" position . . . sound can still be played if desired. Includes TV antenna adapter.
Radio features: Precision electronic tuning—smoother and more accurate. Amber LED digital frequency display changes to time display (hours and minutes) with a flick of a switch. Antenna trimmer mounted on front panel.
Cassette Player features: Locking fast forward and rewind. Tape eject control. DNR® defeat switch. Program reversing switch. LED tape direction indicators.
Other features: Full-range bass/treble tone control. Balance control. Radio/TV, FM/AM and UHF/VHF switches. Stereo/mono switch. LED tape/radio/TV indicators. Speaker impedance—4-8 ohm. Chassis dimensions: 1-3/4" high x 7-1/8" wide x 7-3/4" deep. Includes hardware, instructions. Some dash filing may be required for installation. For all 12-volt neg. ground systems.
03—9600N— Each $339.95

Compact 2-way, 40-channel EMERGENCY CB RADIO SYSTEMS

Choice of 12-volt or Combination 12-volt/Battery-powered Units

- **2-way communication for emergency situations, on-the-road information**
- **4-watt power output (maximum allowed by FCC)**
- **No installation . . . ready to use in seconds**

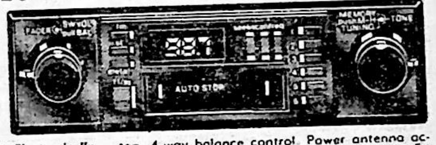

40-channel range with LED frequency display. Emergency channel 9 is highlighted for instant identification. Built-in microphone, high-performance speaker. Antenna connects to transceiver or magnetic base (for rooftop mounting). Can be used while car is stopped or in motion.

[A] **12-volt CB Radio.** Operates off 12-volt negative-ground systems only. Transmitter uses PLL (phase lock loop) circuitry for frequency accuracy. Easy-to-see LED indicators let you monitor output power and signal strength. Press-to-talk button, squelch control. Includes transceiver, telescoping antenna & cable, power cord with cigarette lighter plug-in, plastic carry case.
03—9650P— Each $69.95

[B] **12-volt/Battery-powered Portable CB Radio.** Operates off 12-volt neg.-ground systems or batteries (10 nickel cadmium or 9 dry cell "AA" batteries—not included). Built-in recharge circuitry. 2-position power switch, talk indicator light, low battery light. Receiving range and on/off/volume controls. Includes transceiver, flexible antenna, power cord with lighter plug-in, built-in battery case, vinyl carry case, plastic travel case.
03—9723N— Each $99.95

AM/FM STEREO RADIO & CASSETTE DECK

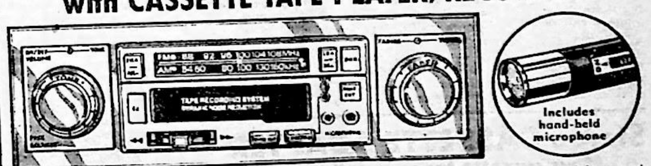

with Electronic Tuning

- **12-station pushbutton memory (6 AM and 6 FM)**
- **Scan and search button tunes in next strongest station**
- **Built-in DNR® (Dynamic Noise Reduction) eliminates tape hiss**

Expensive features at a low price! **Electronically tuned AM/FM stereo radio** has digital frequency readout that converts to a digital clock. Local/distance and stereo/mono switches. Auto stop cassette deck has permalloy head, metal tape equalization and locking fast forward/eject button. 4-way balance control. Power antenna activator. Compact chassis is 2" high, 7" wide, 5" deep. Shafts adjust from 5-3/8" to 6-1/16". Includes mounting hardware, instructions. For all 12-volt neg. ground systems.
03—9703X— Each $129.95

In-dash AM/FM STEREO RADIO with CASSETTE TAPE PLAYER/RECORDER

- **Records directly from AM broadcasts (in mono) or FM broadcasts (in stereo)**
- **Records live (in mono) using the hand-held microphone**
- **DNR® (Dynamic Noise Reduction) eliminates tape hiss**
- **Delivers 14 watts RMS (7 per channel)**

Convenient on/off switch on microphone lets you pause the recording process. Beat-cancel switch eliminates background interference while recording from AM stations. Locking fast forward and rewind. 4-way fader and balance control. AM/FM and FM stereo indicators. Includes silver and black trim plates and shaft covers for custom-design styling. With hardware, instructions. For all 12-volt neg.-ground vehicles.
03—9717X— Each $149.95

Electronically-tuned AM/FM/MPX RADIO & AUTO-REVERSE CASSETTE PLAYER

with 5-band Graphic Equalizer & DNR®

- **Microcomputer chip controlled**
- **12-station pushbutton memory (6 AM, 6 FM)**
- **Delivers 50 watts RMS (25 per channel)**

Radio features: Electronic tuning (PLL tuner) with frequency scan. Digital frequency display converts to quartz clock readout.
Cassette Player features: Auto-reverse to play both sides of tape continuously. DNR® (Dynamic Noise Reduction) eliminates tape hiss. DNR® defeat switch. Locking fast forward, rewind and eject controls. Program selector switch.
Other features: 5-band equalizer with power amplifier. Balance and fader controls. AM/FM selector switch. LED indicators for AM/FM stereo and tape direction. Adjustable shafts. DIN size. Approx. 1-7/8" high, 7-1/2" wide, 6-1/4" deep. For all 12-volt negative-ground systems.
03—9735R— Each $199.95

AM/FM/MPX RADIO & AUTO-REVERSE CASSETTE DECK

with Pushbutton Tuning

- 5 pushbuttons let you pre-set your favorite AM and FM stations
- Auto reverse feature plays both sides of tape continuously
- Delivers 12 watts RMS (6 per channel)

Full-range bass/treble tone control. Balance and fader controls. Loudness switch. Stereo/mono selector. LED indicators for radio, tape, tape direction and stereo. Cassette deck has locking fast forward and rewind controls, eject button and program selector switch. Adjustable shafts. DIN size with rubber collar (permits installation on General Motors and Ford cars). Approx. 1-3/4" high, 7-1/16" wide, 5-5/16" deep. For all 12-volt negative-ground systems.
03—9736X— Each $99.95

Electronically-tuned AUTO-REVERSE CASSETTE PLAYER & AM/FM/MPX DIGITAL CAR RADIO

with Dolby® Noise Reduction & Built-in LED Display

- 44 watts RMS output* (22 per channel)
- 10-LED light show rhythmically indicates sound level and if tape is running in fast-forward or rewind mode
- Easy-to-read digital frequency display
- Fully illuminated for easy viewing at night
- Shaftless design

Cassette features. Auto program selector lets you skip forward to beginning of next song or backwards to beginning of song being played. Key-off standby automatically disengages head when ignition is turned off to protect tape against damage. Auto reverse (with improved tape-end sensing) plays both sides of tape continuously. Dolby® NR reduces tape hiss. Locking fast forward and rewind. Fast forward, rewind muting. Tape direction and memory indicators. Tape and program selectors. Stop/eject button. Chrome/metal tape capability. Hard permalloy head for superior performance, long life.

Radio features. PLL electronic tuning locks in station for drift-free reception. Pushbuttons let you pre-program 5 AM and 5 FM stations. Auto seek tuning advances up or down to next station with strongest signal. Advanced circuitry and filters adjust to changing conditions (weak signal reception, interference, noise, etc.) to give the best FM reception possible. AM/FM selector. Tuning button. Local/distant switch.
Other features. Power-on/volume, 4-way fader/balance, bass and treble controls. Stereo/mono switch. Stereo indicator. Large aluminum heat sink for more efficient cooling. Overall size: 7" x 5-5/16" x 2-1/6" high. For all 12-V negative-ground systems.
03—9712Y— Each $299.95

Electronically-tuned AM/FM/MPX RADIO & CASSETTE PLAYER

- PLL (phase-lock loop) electronic tuning locks in stations more smoothly and precisely than mechanical tuning
- 10-station memory provides instant recall of 5 AM and 5 FM stations
- Bright green LED digital display of time or frequency

Automatic seek control searches frequency band for strongest signals. Tone and balance controls. Loudness control for full bass and treble response at low volume. FM muting. Stereo/mono switch. Cassette deck features locking fast forward and rewind, pushbutton tape eject and auto stop at end of tape. 12 watts maximum output. 7" wide x 5" deep x 2" high. Easy in-dash installation. For 12-volt negative ground systems.
03—9612P— Each $149.95

AM/FM/MPX RADIO & CASSETTE PLAYER with Built-in Equalizer/Amplifier

- 3 units in 1 — saves valuable passenger space, eliminates fumbling with separate components
- Equalizer/Amplifier has 5 frequency controls ... 40-watt output (20 watts RMS per channel)
- Mounts in dash in most American cars and trucks

Enjoy total control of audio reproduction in your vehicle! Solid-state stereo radio/cassette player has these quality features: local/distant button to improve FM reception; balance control for stereo separation; front-to-rear fader control; illuminated dial in door; manual tuning; AM/FM selector; FM muting for quiet station-to-station tuning; locking fast forward/eject button. Auto-stop protects cassette tape and motor from damage by automatically stopping at end of tape play. Built-in graphic equalizer/amplifier adds amazing depth and dimension to radio and tape player. Slide switches for 60Hz, 250Hz, 1KHz, 3.5KHz, and 10KHz. Boost/cut ±12db. Adjustable shafts for custom installation. Wiring, hardware and instructions included. For 12-volt negative ground American cars and trucks. See Index for speakers.
03—9354R—
Each $99.95

Stereo CASSETTE ADAPTER

Plays cassette tapes in full stereo through your car or home 8-track player

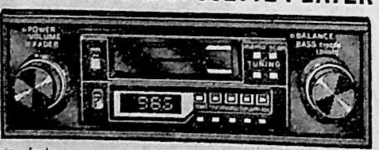

- Built-in micro motor system draws power from 8-track player—no batteries to wear out
- Locking FAST FORWARD and REWIND

Don't replace your old 8-track player ... make it more versatile! Just load cassette tape into adapter and insert adapter into 8-track player. Black plastic housing is approx. 6-3/4" long x 4-1/4" wide x 2" high—only slightly larger than an 8-track tape. Note: Requires a minimum of 7/8" clearance between bottom of car radio tape door and push-buttons or dash board.
03—9483W— Each $24.95

AM STEREO/FM STEREO RADIO & CASSETTE PLAYER

with Electronic Tuning & Dolby® Noise Reduction

- AM stereo produces the strong, clear sound of FM stereo, but is more resistant to signal fade
- Seek and scan feature tunes in next strongest station
- 10-station memory (5 AM, 5 FM)
- Delivers 12 watts RMS (6 per channel)

PLL (phase-lock-loop) electronic tuning locks in exact frequencies. Digital frequency display. Motorola C-QUAM® format AM stereo. Local/distance and stereo/mono switches. Balance and fader controls, separate bass and treble controls. Cassette player has Dolby® noise reduction (to eliminate tape hiss), locking fast forward and rewind, permalloy head and metal tape switch. Mini chassis (2" high x 6-5/8" wide x 4-7/8" deep) fits all cars, including General Motors X-body styles.
03—9724T— Each $199.95

CB/TAPE DECK CONSOLE

for All Cars

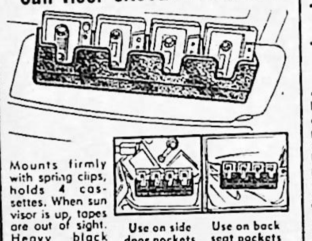

Removable mounting plate

Eliminates clutter and mess

Self-adhesive tape attaches any CB or tape deck to lift-out console mounting plate. Eliminates in-dash installation headaches ... allows quick removal and storage. Carpet-grabber nails hold console firmly to transmission hump. Looks like original equipment. Has 4 compartments for coins, keys and cigarettes, 2 compartments for hot or cold beverages plus a king-sized hidden compartment under CB or tape deck. Rich ebony color with walnut accent panels.
10—5369B— Each $8.99

Sun Visor CASSETTE HOLDER

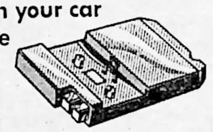

Use on side door pockets

Use on back seat pockets

Mounts firmly with spring clips, holds 4 cassettes. When sun visor is up, tapes are out of sight. Heavy black plastic, complements any color. Removes easily.
81—0702T Each $1.99

Now...play any cassette through your car or home 8-track tape player!

This cassette adapter adds versatility to your stereo 8-track ... adds to your listening enjoyment. Inserts easily into 8-track door and draws power directly from your tape player. Nothing to plug in ... no batteries needed. Direct drive to cassette eliminates wow and flutter, maintains constant, accurate speed. With fine tuning control.
03—9322W— Each $19.95

Deluxe CASSETTE DECK CLEANING SYSTEM

WITH CARRY CASE

- Cleans head, capstan, pinchroller in one quick and easy step!
- Removes residue that can jam tapes, shorten life of cassette head and impair overall sound quality

Most cassette player manufacturers recommend cleaning deck after every 10-20 hours of play to assure peak efficiency and performance. Includes cleaning solution, non-abrasive felt cleaning cartridges, tweezers, carrying case.
12—4135W— 1-Kit $14.95

Complete STEREO SYSTEM

Includes AM/FM/MPX Radio, Cassette Player, Power Booster and 2 Co-axial Speakers

- Completely pre-wired for easy installation

Includes these matched components for superior sound reproduction:

- 12-watt AM/FM/MPX Radio with Cassette Player. Stereo/tape indicator lights, local/distance switching, tone & balance controls; fast forward/eject buttons, auto stop at end of tape. 7" x 1-3/4" x 5" deep overall
- 40-watt Power Booster. 20 watts output per channel; L.E.D. "on" indicator; booster bypass button
- Two 5" Co-axial Speakers. 5-oz. magnets, 2" tweeters, air suspension cones; steel "mag" look grilles. Only 1-1/4" deep

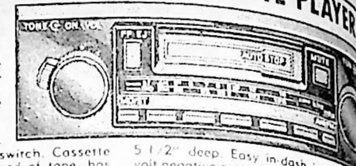

For all 12-volt negative ground sys.
03—9552Y— 1-Kit $89.95

AM/FM/MPX RADIO & CASSETTE PLAYER

with Pushbutton Pre-set Tuning

- 5 pushbuttons provide instant recall of your favorite AM or FM stations
- 16 watts RMS maximum output (8 per channel)
- Tone and balance controls

Radio has built-in AFC, FM muting switch and stereo/mono switch. Cassette player stops automatically at end of tape, has locking fast forward/tape eject button. Stereo/tape LED indicators. 1-3/4" high, 6-7/8" wide, 5-1/2" deep. Easy in-dash installation ... volt negative ground systems.
03—9664A— Each $79

High-power AM/FM STEREO RADIO & AUTO-REVERSE CASSETTE PLAYER

with Dolby® Noise Reduction

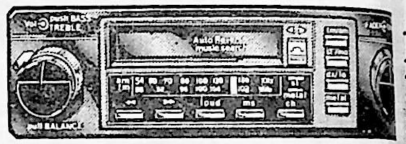

- Electronic tuning with large digital frequency display
- Dolby® noise reduction filters out tape hiss
- Key off/eject feature automatically ejects tape when ignition is turned off ... prevents damage to tape and deck
- Delivers 50 watts of power (25 per channel)

Radio features: Automatic seek and scan allows easy station selection. Electronic memory lets you pre-set 6 AM and 6 FM stations. Microprocessor-controlled PLL (phase lock loop) circuitry locks in exact frequency. Local/distance switch prevents signal overload from nearby stations. Built-in FM soft mute eliminates noise when changing stations.
Cassette features: Auto reverse plays both sides of a tape continuously. Cassette music search quickly finds the beginning of a song and automatically plays the tape from there; can also be used to repeat any previous selection. Locking fast forward and rewind. Auto load. Switchable metal/normal tape equalization. SCC (super ceramic core) tape head for the finest ... ance and longest tape head life.
Other features: Digital frequency display ... to a clock when desired. Loudness ... phasizes low and high frequencies at low ... for full-bodied sound. Built-in FM ... canceller, separate bass and treble ... Front/rear fader control. Indicator ... and FM, FM stereo, local/distance ... Dolby®, tape direction, memory and ... Pre-amp outputs allow easy hookup to ... amplifier or graphic equalizer. Fully ... faceplate for easy nighttime operation ... tenna activator. Measures 2" high, 6 ... 4-3/4" deep. Installs in dash—wiring ... instructions included. For all 12-volt ... ground vehicles
03—9833B— Each $249

Auto-reverse STEREO CASSETTE & AM/FM RADIO

with Music Search

- Music search finds beginning of a song on tape and plays from that point
- Full nighttime illumination
- Auto reverse plays both sides of your cassette continuously
- 14 watts RMS output (7 per channel)

Cassette deck has durable permalloy tape head, metal tape capability, locking fast forward and rewind. Radio has local/distance switch to prevent signal overload from nearby stations. Loudness switch emphasizes low and high frequencies for full-bodied sound at any volume. Separate bass, treble and fader controls. Pre-amp line-out high/low impedance with RCA jacks for hookup of additional components. Fully ... nated controls. Housing is 1-3/4" high, 7 ... 4-7/8" deep overall. Nose measures ... high, 4-1/8" wide. Includes wiring, hardware ... instructions. For all 12-volt negative ... systems.
03—9731Y— Each $119

In-dash AM/FM MULTIPLEX RADIO with Automatic-Reverse CASSETTE TAPE PLAYER

for American & Imported Cars & Trucks

Stylishly designed, handsome model with these top-quality features: metal tape capability; stereo indicator lights; 5-position adjustable shafts; tone and left-to-right balance controls. Cassette player automatically plays both sides of cassette without interruption. Locking fast forward and reverse, tape program changer; eject button; tape travel direction indicators. Full 25 watts per ... Measures 7-1/2" wide x 2" high x 5-7/8" ... For 12-volt negative-ground vehicles. See ... for speakers.
03—9747U— Each $79

High-power 36-watt • In-dash Auto Reverse CASSETTE TAPE PLAYER & AM/FM/MPX RADIO with Electronic Tuning

- LED digital frequency display & time readout
- LED power output display for both channels
- 18 watts RMS per channel

GREATER POWER & MORE FEATURES THAN UNITS COSTING A LOT MORE!

Auto Reverse Cassette Player plays both sides of tape without interruption. Features: locking fast forward and rewind; tape eject button; LED tape and tape direction indicators.
AM/FM/MPX Radio has electronic tuning to lock in station signal for clear, crisp sound. Features: tone, balance, tuning and loudness controls; AM/FM and stereo/mono switches; LED AM and FM stereo indicators; separate LED AM ... indicator; frequency display/time switch. Accurate Quartz Clock with easy-to-read ... readout of hours and minutes. Chassis is 1-3/4" high x 7-1/8" wide x 5 ... deep, faceplate has black finish. Includes ... hardware, instructions. For all 12-volt negative ground systems.
03—9678A— Each $159

Electronically-tuned 36-watt AM/FM/MPX Radio with Auto-Stop Cassette Player

HIGH POWER PLUS EFFORTLESS TUNING FOR ONLY 79.95

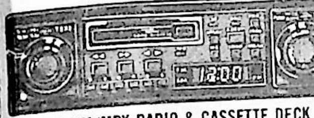

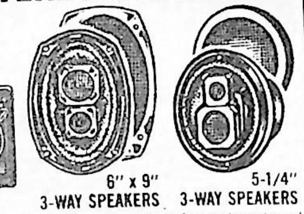

- Micro computer chip controlled
- Big 18 watts of power per channel
- Low 1% total harmonic distortion at 12 watts
- Easy-to-read LED digital frequency display and quartz clock display

Radio: fast, accurate electronic tuning; treble/bass tone control, manual tuning control; AM/FM mono/FM stereo selector; local/distance switch; AM & FM LED indicators. Cassette player: auto-stop at end of tape; fast forward and eject controls. Plus stereo balance control, stereo LED indicator. Size 7" wide, 4-3 ... deep, 1-3/4" high. For all 12-volt negative ground systems
03—9734B— Each $79

Complete CAR STEREO SYSTEM

Save $70 over separate component prices!

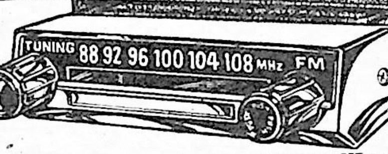

6" x 9" 3-WAY SPEAKERS   5-1/4" 3-WAY SPEAKERS

AM/FM/MPX RADIO & CASSETTE DECK

This high-powered system is expertly matched to deliver unequaled sound for the lowest possible price! Includes the following components:
50-watt In-dash AM/FM/MPX Radio & Auto-reverse Cassette Deck. Controlled by a sophisticated microcomputer chip. Radio has PLL quartz electronic tuning, electronic frequency scan, 12-station pushbutton memory (for pre-programming 6 AM and 6 FM stations). Loudness switch for concert hall effect at low volumes. Digital quartz clock readout and frequency display. Cassette deck has auto reverse feature (both sides of cassette play continuously without removing tape). DNR® (Dynamic Noise Reduction) filters out tape hiss. LED function indicator lights, soft-touch controls. Attractive black housing measures 1-3/4" high, 7" wide, 6" deep.
Deluxe 6" x 9" and 5-1/4" Bridgeless Speakers. Handle up to 75 watts RMS per speaker (150 per pair). Large 1-1/2" aluminum voice coils and heavy-duty copper windings for maximum sound reproduction and clarity at high volume. 6" x 9" speakers have 25-oz. magnet and a frequency response of 50Hz-22KHz. 5-1/4" speakers have 20-oz. magnet and a frequency response of 70Hz-22KHz.
System includes all components listed above plus all wiring, hardware, instructions. For all 12V neg. ground systems. Components sold individually below. Separately $319.85
03—9819A— 1-Set $249.85
AM/FM/MPX Radio & Auto-reverse Cassette Deck.
03—9676N— Each $199.95
6" x 9" 3-way Speaker System.
03—6695Y— 1-Pair $64.95
5-1/4" Round 3-way Speaker System.
03—6696W— 1-Pair $54.95

Enjoy FM in Your Car!

ONLY 14.98

- High-quality FM CONVERTER quickly, easily hooks up to any AM radio
- One-wire installation ... installs in minutes
- Micro-mini size (only 1-1/8"H x 4-1/2"D x 4-1/4"W) for fastest installation under dash, on consoles or in glove compartment
- All solid-state construction ... illuminated dial
- Chromed face plate and knob—black-grained steel housing to complement every interior

Add the fantastic world of FM listening by converting your existing AM radio into an AM/FM receiver. Solid-state construction and IC circuitry for long, trouble-free service. FET tuning for improved sensitivity and selectivity. For any 12-volt negative ground ignition system. Converter dial illuminates when turned on for accurate dialing of desired FM station. Push-button on-off switch and tuning knob. When in the off position your radio reverts to normal AM reception. FM tuning range of 88-108 MHZ. With mounting bracket, antenna lead, instructions.
A tremendous value at this low price! You would pay up to twice as much in stores for this high quality.
03—9295U— Each $14.98

In-dash AM/FM/MPX RADIO & CASSETTE DECK

with 5-band Equalizer/Booster, Quartz Clock, Digital Display

- Bright LED readout displays station frequency (for precise tuning) or accurate time
- Auto-reverse cassette player plays both sides of tape continuously without interruption
- Graphic equalizer lets you shape sound to your individual taste and vehicle
- 50 watts total power (25 watts per channel)
- Balance and fader to control speakers front to rear and side to side

High-power stereo loaded with outstanding features. Radio: digital electronic tuning; FM stereo LED indicator; FM muting, separate AM and FM LED indicators. Cassette player: auto-reverse, locking fast forward, rewind and tape eject controls; LED tape direction indicators. Equalizer: slide controls for 60Hz, 250Hz, 1KHz, 3.5KHz, 10KHz frequencies; ±12 db control range. Plus stereo balance controls, 4-way fader and adjustable shafts for easy installation. With black faceplate, hardware, instructions. Size: 1-3/4" high x 7" wide x 5-3/4" deep. For 12-volt negative-ground.
03—9818T— Each $159.95

AM/FM/MPX STEREO RADIO with AUTO REVERSE CASSETTE PLAYER and BUILT-IN EQUALIZER/AMPLIFIER

- 3 units in 1—save space without worrying about separate outside components!
- Auto reverse mechanism provides continuous play of cassette—no need to turn tape over
- Balance control for left-right speaker sound level adjustment, fader control for front-rear sound adjustment
- 25 watts of power per channel give you big stereo sound
- Mounts in-dash in most American cars and trucks

Turn your car into the ultimate sound studio with this totally integrated audio system. 3 intricate stereo components built into 1 compact unit give you incredible sound separation. Cassette tape player has these quality features: program selector switch, fast-forward and rewind controls, eject button, tape direction indicator lamp, illuminated dial in cassette door. AM/FM/MPX receiver has these features: AM/FM selector switch, Stereo/mono selector switch, FM muting switch and local/distant switch all with indicator lights and AM antenna trimmer. Built-in graphic equalizer has 5 adjustment controls (60Hz, 250Hz, 1KHz, 3.5KHz, 10KHz) with range from +12db through −12db to contour the sound. Position of controls shows frequency response at a glance, gives you control over high, mid-range, and low frequencies. Overall dimensions: Radio chassis—1-3/4" H. x 7" W. x 5-13/16" D. Complete with wiring, hardware and instructions. Speakers not included—see Index.
03—9778R— Each $119.95

Electronically-tuned AM/FM STEREO RADIO & AUTO-REVERSE CASSETTE PLAYER

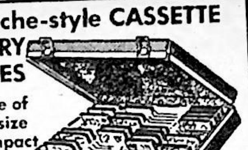

- Delivers 50 watts of power (25 watts per channel)
- Auto-reverse—plays both sides of tape continuously
- Digital LED clock/frequency display

Radio has precision electronic tuning with manual control. Cassette player has standard/metal tape selector, locking fast forward and rewind, eject button and program selector button. Separate balance, tone and volume controls. LED indicators for tape direction and stereo. Measures 1-7/8" high, 7-1/2" wide, 5" deep. With mounting hardware, instructions. For all 12-volt negative ground systems.
03—9788Y— Each $99.95

Attache-style CASSETTE CARRY CASES

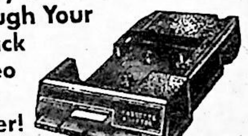

Choice of King-size or Compact

- Holds 16, 30, 60 or 120 cassettes

Individual compartments hold cassettes securely. Deluxe vinyl covers thick foam-padded fiberboard. Aluminum trim with luggage style strap and vinyl-covered handle. Velvet flocked interior. Tight-fit lid keeps out dust, moisture. Secure pushbutton closure. Cassettes not included.
King-size.
4" x 15-1/2" x 19". Holds 60 cassettes.
15—7012A—Black
15—7013R—Brown Each $19.99
6-1/4" x 13-1/2" x 19". Holds 120 cassettes.
15—7728B—Black
15—7729P—Brown Each $36.99
Compact.
4-1/2" x 12-1/8" x 15-7/8". Holds 30 cassettes.
14—5085P—Black
14—5086Y—Brown Each $14.99
3-1/2" x 9-3/8" x 10-5/8". Holds 16 cassettes.
14—5083N—Black
14—5084T—Brown Each $12.99

Play CASSETTE TAPES Through Your 8-Track Stereo Tape Player!

- Easy to install
- No batteries—draws power directly from your tape player

Slips into 8-track cartridge opening in your car or home stereo player. No plug in or batteries needed. Built-in micro motor delivers direct drive to cassette—eliminates wow and flutter. With locking fast forward/rewind & auto-stop to turn off unit at end of play.
03—9742N— Each $29.95

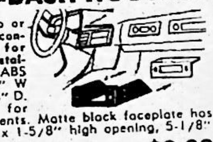

Adapt Your Stereo 8-Track Player to Cassette Tapes!

- Inserts easily in tape door—no wiring or batteries
- Locking fast rewind and auto stop
- Fits car or home 8-track players

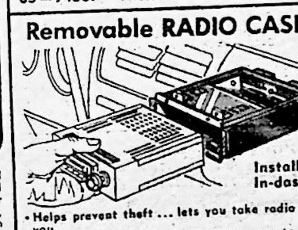

Fewer moving parts and larger flywheel maintain a constant speed to improve performance. Reduces wow and flutter to less than 0.4% WRMS. 7/8"H. x 4"W. x 6"L.—only 1" longer than a regular 8-track cartridge.
03—9480B—
Each $34.95

UNDER-DASH HOUSING

Protects radio or tape player ... conceals wires for factory-look installation. Tough ABS plastic. 7-7/8" W x 3" H x 6-1/4" D. Open back for deep components. Matte black faceplate has 4-5/8" wide x 1-5/8" high opening, 5-1/8" shaft spacing.
03—9438P— Each $9.99

Removable RADIO CASE

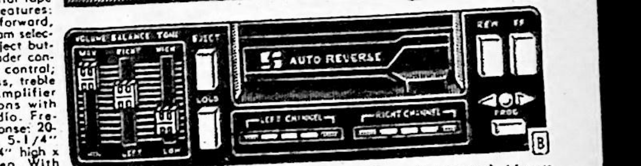

Installs In-dash

- Helps prevent theft ... lets you take radio with you
- 2-pc. design: black plastic case mounts over radio ... slides in & out of permanent-mount metal chassis
- Radio and antenna hook up automatically
- "E" din case allows in-dash mounting of new popular "shaftless" design radios

In-dash Case (shown). Built-in battery back-up for electronic tuned radios and radios with clocks. Requires 9-volt NI-CAD battery (not included). Converts your stationary in-dash radio to a removable unit ... or lets you install an in-dash unit even if you don't have an existing car radio. Requires 7-1/2" wide x 2-3/8" high x 6-7/8" deep opening. Handles radio chassis up to 7" wide x 2" high x 6-1/2" deep. Nose opening 4-3/16" wide x 1-11/16" high. Includes 1/4" connectors, hardware, instructions.
03—9616A— Each $39.95
In-dash Case without battery back-up (not shown). Same design as above for conventional universal fit radios with shafts; without battery back-up.
03—9519X— Each $34.95
In-dash Case for "E" Din Radios (not shown). Same as above except with "E" din design that accepts shaftless radios with nosepieces up to 2" H x 7" W. With battery back-up.
03—9617R— Each $39.95
Under-dash Mounting Bracket for cases above
03—9674P— Each $9.95

Under-dash Stereo Cassette Players with Auto-Reverse or Auto-Stop

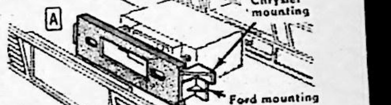

[A] Our Finest Under-dash Auto-Reverse Cassette Player with 45-watt power amplifier. Big 45 watts of total power (22.5 watts RMS per channel). Plays both sides of cassette tape continuously. With Dynamic Noise Reduction (DNR®) to cut tape hiss. Metal tape capability. Features: locking fast forward, rewind; program selector switch; eject button; 4-way fader control; volume control; separate bass, treble controls. Amplifier also functions with existing radio. Frequency response: 20-20,000 Hz. 5-1/4" wide x 1-3/4" high x 6-3/4" deep. With mounting hardware and instructions. For all 12-volt negative-ground systems.
03—9485A— Each $119.95

[B] Deluxe Auto-Reverse Cassette Player. 40-watt total output. 10 LEDs (in 3 colors) indicate power output. Automatically plays both sides of tape. Features: locking fast forward, rewind, program selector switch; eject button; tape direction indicator; sliding volume, tone and balance controls; loudness switch. Frequency response: 60-10,000 Hz. 5-1/2" W. x 1-3/4" H. x 7" D. With hardware, instructions. For all 12-volt negative-ground systems.
03—9720A— Each $69.95

Auto-Stop Cassette Players (not shown). 14-watt total output. 10 LEDs (in 3 colors) monitor power output. Features: fast forward, eject buttons, loudness switch; sliding volume, tone and balance controls. Frequency response: 50-12,000 Hz. 5-1/2" W. x 1-3/4" H. x 6-1/2" D. With hardware, instructions. For all 12-volt negative-ground systems.
03—9719T— Each $39.95

Auto-Stop Cassette Players (not shown). 14-watt total output. Features fast forward, eject buttons; sliding volume, tone and balance controls. Frequency response: 50-12,000 Hz. 4-1/2" W. x 2" H. x 7" D. With hardware, instructions. For all 12-volt negative-ground systems.
03—9718N— Each $29.95

RADIO INSTALLATION KITS for All Vehicles

Chrysler mounting

Ford mounting

[A] Installation Kits for 74-85 Chrysler & 79-85 Ford Products. Necessary for installing universal-fit or DIN size shaftless in-dash radios. Include textured black ABS plastic nosepiece adapter bracket, hardware, instructions. Fit the following cars and trucks:

Chrysler	Dodge (Cont'd.)	Ford (Cont'd.)
75-85 Cordoba	75-78 Monaco	84-85 Tempo
83-85 E Class	78-84 Omni	80-85 T'bird
79-83 Imperial	74-85 Ramcharger, Pickup	**Mercury**
77-85 Le Baron	82-85 Rampage	80-85 Cougar
75-83 Newport	79-81 St. Regis	79-85 Marquis
75-83 New Yorker	78-85 Van	84-85 Topaz
Dodge	81-85 024	**Plymouth**
81-85 Aries	82-85 400	75-78 Fury
76-80 Aspen	83-85 600ES	75-82 Gran Fury (exc. 1979)
75-78 Charger	**Ford**	78-85 Horizon
77-82 Diplomat	79-85 LTD	81-85 Reliant
78-79 Magnum XE	83-85 Ranger	81-85 TC3
80-85 Mirada		76-85 T'duster
		78-85 Van
		76-80 Volare

For Universal-fit In-dash Radios. Accepts nosepieces up to 1-3/4" high x 4-1/8" wide.
03—9628W— 1-Kit $6.95
For DIN Size In-dash Radios. Accepts nosepieces up to 2" high x 7-1/4" wide.
03—9629U— 1-Kit $6.95

[B] Installation Kits for 82-85 General Motors J & A-body cars, S-10 & S-15 pickup trucks. Includes all parts necessary to install an in-dash radio: mounting brackets, faceplate, wiring harness, hardware and instructions. Kit is necessary to install a radio regardless of whether or not car came with factory-installed radio. Fits any radio up to 5-3/4" deep. Custom fit for the following 82-85 cars & trucks: Buick Century Custom, Skyhawk; Cadillac Cimarron; Chevrolet Camaro, Cavalier, Celebrity & S-10, S-15 pickups, Blazer Jimmy; Oldsmobile Cutlass Ciera, Firenza, Toronado; Pontiac Firebird, J2000 & A6000. When Ordering, State Make, Year, Model & Stk. No. Note: The stock number you ordered may carry a different identification number on your pkg.
55—3299R— 1-Kit $11.95

Custom-fit Installation Kits (not shown). Include all parts necessary to install an in-dash radio with minimal labor and time. With hardware, instructions. HOW TO ORDER. For all kits below, State Make, Year, Model, Body Style and Stk. No. Note: The stock number you ordered may carry a different identification number on your package.

CUSTOM FIT FOR THE FOLLOWING VEHICLES

Chevrolet	Ford	Ford (Cont'd.)	Honda	Lincoln/Mercury	Toyota

55—3685R—See How To Order above 1-Kit $19.95

CUSTOM FIT FOR ALL VEHICLES NOT LISTED ABOVE

Shipped UPS from factory. No C.O.D. orders.
78—4280AF— 1-Kit $19.95

Illuminated AM STEREO CONVERTER

- Receives all AM stereo broadcasts ... delivers the same sound quality as FM stereo
- Connects to your existing FM stereo radio

Automatically decodes Motorola C-Quam, Magnavox, Harris and Kahn/Hazeltine systems. Stereo selector switch, manual tuner, power on/off switch. Only 1" high, 6-1/8" wide, 5-1/4" deep ... mounts under dash, in console or in glove compartment. Wiring, instructions included.
03—9816X— Each $79.95

Electronically-tuned AM/FM/MPX RADIO

with Auto-stop Cassette Player

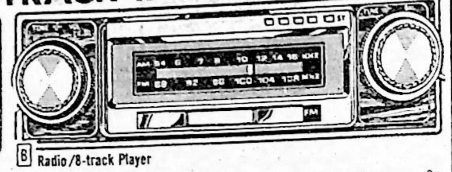

- Premium features at a low price!
- 10-station memory (5 AM, 5 FM)
- Seek feature tunes in the next strongest station

PLL (phase-lock-loop) tuning is much smoother and more accurate than mechanical tuning. LCD digital clock converts to frequency display when you use radio. Treble/bass tone control. Stereo/mono switch. LED indicators for AM, FM, FM stereo and memory. Cassette tape player stops automatically at end of tape. Fast forward/eject control. Only 2" x 7" x 5-1/2" deep. With hardware, instructions. For 12V negative-ground systems.
03—9823T— Each $99.95

In-dash AM/FM MULTIPLEX RADIOS with CASSETTE or 8-TRACK TAPE PLAYER

[A] Radio/Cassette Player

[B] Radio/8-track Player

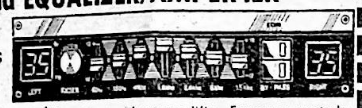

- **Balance control to adjust loudness of right and left speakers**
- **Automatic gain control for trouble-free AM reception**

Adjustable shafts allow custom in-dash installations. Stereo indicator lamp lights when stereo is received. Illuminated tuning dial for easy station identification day or night. Tuning and continuously variable tone controls. Power on/off/volume control. AM/FM selector. Solid-state circuitry for long, dependable service. Hardware and instructions included. For 12-volt negative-ground vehicles. See Index for speakers.

[A] **Radio with Cassette Player.** Separate tape and FM indicator lamps. 2" high x 7" wide x 5-1/2" deep
03—9801R— Each **$39.95**

[B] **Radio with 8-track Player.** Channel select button & indicator light. 2-1/8" high x 7-1/8" wide x 4-3/4" deep
03—9388X— Each **$39.95**

70-watt, 7-band EQUALIZER/AMPLIFIER with Digital LED Power Meters & Echo REVERB

- **35 watts RMS per channel for high-power, low-distortion listening enjoyment**
- **7 slide-bar frequency adjustment controls enhance sound quality**
- **2 digital LED meters indicate power output for each channel**
- **Reverberation echo button gives sound a rich, concert hall effect**

Built-in fader control balances 4 (or more) speakers front to rear. Bypass selector lets you use stereo without amplifier. Frequency controls: 60Hz, 150Hz, 400Hz, 1KHz, 2.4KHz, 6KHz, 15KHz. Frequency response: 20-30,000Hz. Size: 1-1/4" high x 5-1/2" wide x 6-3/8" deep. For 12V neg. ground & floating ground sys.
03—9482Y— Each **$89.95**

Similar to above, except does not have Echo Reverb.
03—9651Y— Each **$69.95**

STEREO POWER AMPLIFIER 60-WATT

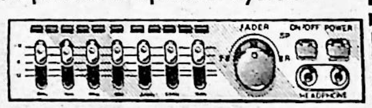

For only 19.95

- **Bypass switch lets you operate radio or tape player without amplifier**

Boosts power of any auto stereo radio or tape player by a maximum of 30 watts per channel. You'll hear crisper, clearer sounds with greatly reduced distortion. **Total audio reproduction is uniformly boosted from lowest bass to highest treble.** Mounts easily under dash, on floor or roof, hidden in the trunk or under seat. 1" high x 4-1/8" wide x 4-5/16" deep. Brushed aluminum faceplate. With hardware and instructions. See Index for speakers.
03—9566Y— Each **$19.95**

140-watt 7-band EQUALIZER/AMPLIFIER for use with Headphones or Speaker System

- **70 watts low-distortion power per channel...140 watts total**
- **2 headphone jacks for private listening**
- **Ten 2-color LED power output indicators (5 per channel) allow visual channel adjustment**
- **Green lighted equalizer slide control knobs**

Gives you more control over your vehicle's sound system ... and provides full-bodied sound with exceptional fidelity! Powerful amplifier permits use of larger speakers for better sound. Equalizer lets you shape sound to your taste. Frequencies: 60Hz, 150Hz, 400Hz, 1KHz, 2.4KHz, 6.5KHz, 15KHz. Adjustment range −12dB to +12dB. Fader control lets you balance 4-speaker systems front to rear. Radio balance control adjusts side to side. Speaker on/off switch and power-off bypass. Compact size (1" high x 5-1/2" wide x 4-3/4" deep) allows easy installation. For all 12-volt negative ground systems. Instructions and mounting hardware included.
03—6827X— Each **$49.95**

72-WATT STEREO POWER AMPLIFIER with Separate Adjustable Bass and Treble Slide Controls

Boosts output from your car stereo or tape player by a whopping 36 watts per channel. Assures a sharper, cleaner sound with greatly reduced distortion. Minimum-to-maximum bass and treble settings. Illuminated boost indicator light. Solid state. Frequency response: 20-20,000 Hz. 4-8 ohm impedance. On/off switch. 4-1/2" x 1-1/2" x 6" deep. With mounting brackets, hardware and instructions for under-dash installation. See Index for speakers.
03—9413T— Each **$29.95**

Add depth & power to your present car stereo — High-power CAR AUDIO COMPONENTS

- **Equalizer/pre-amplifier enhances music quality, lets you shape sound to your taste**
- **Power amplifiers increase volume without distortion, provide better dynamic range & bass response**

[A] **Equalizer/Pre-amplifier.** Use alone with your present stereo (compatible with all radios and tape players) or in conjunction with 2-channel amplifiers [D], [E] & [F] below. 7 slide-bar frequency controls cover 60Hz, 150Hz, 400Hz, 1KHz, 2.4KHz, 6KHz and 15KHz. Adjustment range: +12db to −12db. Ten lights (5 per channel) indicate power output. Power and defeat switches. Fader/volume control. High or low-impedance RCA input jacks. High-impedance RCA output jacks. Illuminated front panel. Size: 1-1/8" high x 4-7/8" wide x 4" deep. With hardware, instructions.
03—9509Y— Each **$59.95**

[B] **120-watt Power Amplifier with 2 or 4-channel selector switch.** 2-channel mode, 60 watts per channel; 4-channel mode, 30 watts per channel. Automatically turns on or off with radio or tape player. 4-speaker terminal connectors for easy installation. Floating or common ground input. Size: 1-1/2" high x 5-1/4" wide x 6" deep. With mounting hardware and instructions. Not compatible with equalizer/pre-amplifier [A] above.
03—9512B— Each **$59.95**

[C]-[E] **2-channel Power Amplifiers.** Choice of 350 watt, 200 watt or 150 watt amplifiers. Automatically turn on or off with radio or tape player. Gain control with variable adjustment. In-line fuse protects circuits from overload. High-impedance RCA jacks. With hardware and instructions.

[C] **350-watt Amplifier—the most powerful we've ever offered!** 175 watts of power per channel. Gold-plated RCA high level inputs. BTL or common ground inputs acceptable. Size: 2-1/2" high x 10" wide x 8-1/4" deep.
03—9773P— Each **$149.95**

[D] **200-watt Amplifier.** 100 watts of power per channel. 2 speaker terminal connectors for easy installation. Gold-plated RCA high level inputs. BTL or common ground inputs acceptable. Size: 2-3/4" H. x 8-1/4" W x 7" D.
03—9774Y— Each **$89.95**

[E] **150-watt Amplifier.** 75 watts of power per channel. 2-speaker terminal connectors for easy installation. Size: 3-1/8" high x 5-7/8" wide x 6-1/4" deep
03—9510W— Each **$69.95**

[F] **100-watt 3-way Power Amplifier.** Inverter circuit makes this the ultimate amplifier with over 100 watts audio power. Choose the power output you want: 2x50 watts (2-speaker system); 1x50 watts with 2x25 watts (2-speaker systems and sub-woofer); 4x25 watts (4 speakers or bi-amplified speaker installations). Built-in sub-woofer system connector at 1x50 watts or 2x25 watts. Less than .05% distortion. High/low impedance switch. Size: 3" high x 7" wide x 9-3/4" deep. With hardware, instructions. For all 12-volt negative-ground systems.
03—9722X— Each **$199.95**

40-WATT STEREO AMPLIFIER

Boosts power up to 20 watts per speaker for improved performance & fidelity plus cleaner and crisper sound

Solid-state

- **Only 4-5/8" x 4-1/16" x 1-5/16" high—installs in glove compartment or behind dash**
- **Heavy-duty aluminum heat sinks for operating efficiency**

Frequency response: 20-25,000 Hz. Includes hardware, connectors, instructions. Not for use with Delco® radios.
03—9655R— Each **$17.95**

Pulls in Distant Stations! AM/FM ANTENNA BOOSTER

Give your unamplified antenna three times more power! Compact booster increases signal strength so you receive more stations without signal fade. Installs easily into all antenna cables—instr. incl. For all 12-volt systems.
03-9401Y— Each **$9.99**

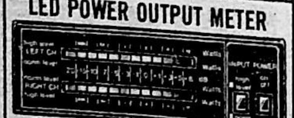

Illuminated FM SIGNAL BOOSTER

- **Increases radio range—decreases drift**

Compact, solid-state unit is only 1-1/4" high x 3-1/2" deep x 2-1/4" wide ... mounts easily in, on or under dash. Only one button to push—amplifies weak FM signals to 20 miles. May be switched off in strong signal areas. Features booster-on indicator light. Includes all mounting hardware and instructions.
03-6710N— Each **$11.95**

LED POWER OUTPUT METER

- **12 LED indicators (4 red, 4 green, 4 yellow) per channel let you monitor—at a glance—car's stereo output levels for left and right channels**

Compact unit with illuminated front panel. Switch lets you monitor low-level (0.02 to 3) or high-level (0.06 to 12) watts output on each channel. Wires easily between car radio or booster/amplifiers and speakers. Power on/off switch. 5-1/2" wide x 1-3/4" high x 1" deep. With mounting hardware and instructions.
03—9568U— Each **$24.95**

BASS BLOCKER for 4 or 8-ohm Speakers

- **Reduces bass distortion in small diameter or tweeter speakers**
- **Helps eliminate woofer rattle and distortion**

Blocks only low-response bass frequencies: 0-400 Hz (8 ohm) or 0-800 Hz (4 ohm). Splices easily into speaker input lead. **Note:** One bass blocker required for each speaker.
03—9613Y— Each **$2.95**

Complete CAR STEREO SYSTEM
SAVE $50 over separate component prices!

Cassette Player & AM/FM/MPX Radio — Equalizer/Amplifier

A complete high-power automotive sound package for less than you'd pay elsewhere for some individual components! Includes these top-quality elements, custom matched to deliver the finest stereo sound reproduction possible.

- **In-dash Auto-reverse Cassette Player & AM/FM/MPX Radio.** Automatically plays both sides of cassette without interruption. Features: locking fast forward and reverse; tape program changer; eject button; tape travel direction indicator; local/distance switch; stereo indicator lights; tone and left-to-right balance controls. 8 watts per channel. With 5-position adjustable shafts. Size: 7" x 1-3/4" x 5-1/2" deep.
- **Powerful 150-watt Equalizer/Amplifier.** Nine slide controls let you adjust 60Hz, 125Hz, 250Hz, 500Hz, 1KHz, 2KHz, 4KHz, 8KHz, 16KHz frequencies in ±12 db range. LED output indicator lights for each channel. Fader control for front/rear speaker balance. With on/off power switch and power-on indicator lamp. Size 5" x 1" x 4-3/8" deep.
- **Deluxe 6" x 9" and 5-1/4" Bridgeless Speakers.** Handle up to 75 watts RMS per speaker (150 per pair). Large 1-1/2" aluminum voice c... heavy-duty copper windings for maxim... reproduction and clarity at high volume... speakers have 25-oz. magnet and a frequ... sponse of 50Hz-22KHz. 5-1/4" speake... 20-oz. magnet and a frequency respo... 70Hz-22KHz.

Fully Electronic 7-BAND GRAPHIC EQUALIZER with Equalization Curve/Spectrum Analyzer Display

- **60 watts maximum output (30 per channel)**
- **Incredibly clean 1% THD at 24 watts**

Fully electronic—each of the 7 frequency bands has two illuminated pushbuttons to increase or decrease response in 4db increments (to ±12db). When Eq/Level button is pushed in, the **equalization curve display** lights up—shows relative response of each of the bands. When Eq/Level button is in "out" position, the **spectrum analyzer display** is activated—7 LEDs in each band light up in sequence to the music to show the instantaneous peak level for each particular band. Fader control allows front-to-rear adjustment of 4-speaker systems. Defeat pushbutton flattens output response so you judge the results of your control settings. ... on/off button, volume control. High and low stereo inputs. Frequency response: 20-20,000 ... Measures 2" high, 6-3/8" wide, 6-1/4" ... With mounting brackets, hardware, instruc... For 12V negative-ground systems.
03—9666W— Each **$129.9...**

REMOTE CONTROL 5-band Graphic Equalizer with Fader Control

- **Fits where a conventional equalizer won't**
- **Equalizer is only 2-3/4" x 4" x 3/4" deep—not much larger than a pack of cigarettes**
- **Fader control is just 2-3/4" x 1-3/4" x 3" deep for easy installation anywhere**
- **Works with all radios or may be used in conjunction with your power amplifier**

Ideal for vehicles with limited space! Equalizer/pre-amplifier (with 3-ft. detachable cable) fits in the palm of your hand and gives you total control (±10 db) over 5 frequency bands. Red line indicates frequency settings at a glance. Frequency response: 40Hz to 20KHz. Only .08% THD. Fader control has RCA-type input/output jacks for easy plug into your car stereo, allows front-to-rear speaker adjustments. Theft resistant! When not in use, equalizer unplugs easily from fader control ... can be carried with you or stored hidden away in glove compartment. With all hardware, instructions. For all 12-volt negative-ground systems.
03—9721R— Each **$79.9...**

One of our most powerful units—at a super low price! 150-watt 7-band EQUALIZER/AMPLIFIER

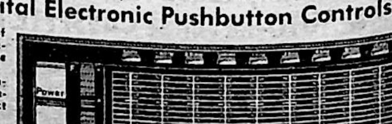

ONLY 49.95 Each

- **Giant 150 watts total (75 watts per channel) for clear, sharp sound even at high volume**
- **Powerful enough to drive high-performance speakers with remarkably low distortion**
- **Thin, compact—only 5-1/4" x 5-1/2" x 1-1/4" high for easy installation anywhere**
- **Front-to-rear fader control to balance channel outputs**
- **LED meters indicate power output for each channel**

Power plus quality at an unexpectedly low price. Seven slide bars let you shape sound exactly to your liking. Frequencies equalized: 60Hz, 150Hz, 400Hz, 1KHz, 2.5KHz, 6KHz, 15KHz. Boost ... range: ±12db. Frequency response: 60-15,0... Hz. On/off speaker bypass permits use of stereo without amplifier. Includes mounting hardware, instructions. For all 12-volt negative-ground systems.
03—6834T— Each **$49.9...**

PRE-AMP GRAPHIC EQUALIZER with Digital Electronic Pushbutton Controls

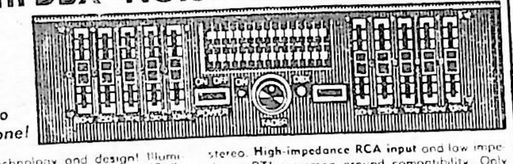

- **Improves tone quality of ALL stereo systems, especially those with separate amplifier**
- **9 digital electronic pushbutton controls adjust frequencies with near-perfect precision**
- **18 LED power indicators**
- **Pre-amp high/low impedance inputs with RCA jacks (4 output, 2 input)**

Compatible with all radios and tape players, including the new floating ground GM radios. Equalization range: ±12db. Input sensitivity adjusts from 100mV to 800mV to match any existing radio. Illuminated EQ defeat and boost/bypass switches. Fully detented illuminated fader control. Only 1-7/8" high, 6-1/4" wide, 4-1/2" deep. With wiring, hardware, instructions. For all 12-volt negative-ground systems.
03—9682T— Each **$119.95**

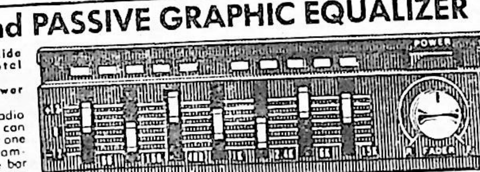

200-WATT 10-BAND EQUALIZER with DBX® NOISE REDUCTION

Separate equalization for left & right channels—it's like having two equalizers in one!

State-of-the-art technology and design! Illuminated slide controls. Equalization range ±12 db. Frequency response: 40-30,000 Hz. Twenty-eight 3-color LEDs show power output level for left and right channels. DBX® Noise Reduction circuit with defeat switch. Rotary 4-way fader control. High-impedance input gain adjusts from 300 MV to 1 V for exact pre amp matching with car stereo. High-impedance RCA input and low impedance BTL/common ground compatibility. Only 6-1/8" x 1-5/8" x 5-5/8" deep. Illuminated power-on switch. With mounting hardware, instructions. For all 12-volt negative-ground systems.
03—9800A— Each **$99.95**

7-band PASSIVE GRAPHIC EQUALIZER

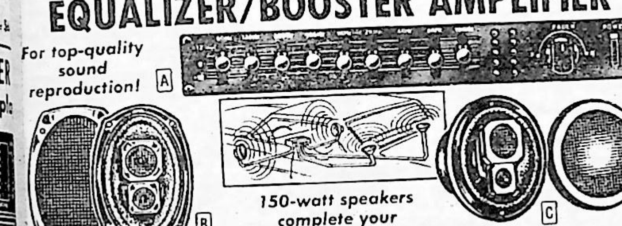

- **7 illuminated slide bars allow total sound control**
- **Dual 5-LED power output indicators**

Works with any radio or tape player ... can be hooked up with one or two remote amplifiers. Each slide bar has an LED that moves up or down with the setting ... all the bars together show the equalization curve. Center detent position on slide bars. Frequency adjustment range: ±12db. Fader control balances 4-speaker systems front to rear. Power on/off. Input impedance: low level (floating type)—27 ohms; high level (RCA jacks)—12K ohms. Approx. 1" high, 4-1/2" wide, 5-1/4" deep. With mounting brackets, hardware. For 12-volt negative-ground systems.
03—9811Y— Each **$49.95**

Powerful 150-watt, 9-band EQUALIZER/BOOSTER AMPLIFIER

For top-quality sound reproduction!

[A] [B] [C] *150-watt speakers complete your sound package*

[A] **Compact Equalizer/Booster Amplifier** delivers 150 watts of power (75 watts per channel) at remarkably low distortion! It provides the best in full-bodied sound ... with exceptional fidelity and programmed just the way you like it. Graphic equalizer has 9 slide controls that cover the entire audio band, let you adjust sound EXACTLY to your taste. Frequencies: 60Hz, 125Hz, 250Hz, 500Hz, 1KHz, 2KHz, 4KHz, 8KHz, 16KHz. Position of levers tells frequency emphasis at a glance. Boost/cut range is ±12 db. Fader control adjusts relative volume of up to 4 speakers in front and back; balance control on your radio or tape system controls right-to-left speaker volume. Solid-state circuitry. Power-on indicator lamp. Colored LED output indicator meter for each stereo channel. Size: 5-5/8" x 4-1/8" x 3/4" high. Mounts in any position. Hot lead from amplifier connects to fuse box. Frequency response: 20-20,000 Hz. 4 or 8-ohm impedance. Includes instructions. For all 12-volt negative-ground systems. Use only with speakers rated 100 watts or more—see at right.
03—6826R— Each **$49.95**

[B] & [C] **150-watt Bridgeless Speaker Systems.** Handle up to 75 watts RMS per speaker. Large 1-1/2" aluminum voice coils, heavy-duty copper windings. 6" x 9" speakers have 25-oz. magnet and frequency response of 50Hz-22KHz. 5-1/4" speakers have 20-oz. magnet and frequency response of 70Hz-22KHz.

[B] **6" x 9" Oval Speakers.**
03—6695Y— 1-Pair **$64.95**

[C] **5-1/4" Round Speakers.**
03—6696W— 1-Pair **$54.95**

SAVE $30 on Equalizer/Amplifier & 3-way Speaker System Set

Equalizer/Amplifier with 6" x 9" Oval Speakers. Separately $114.90.
03—9745Y— 1-Set **$84.90**

Equalizer/Amplifier with 5-1/4" Round Speakers. Separately $104.90.
03—9746W— 1-Set **$74.90**

SPEAKER ENCLOSURES

- **Wedge-shape — fit easily where box enclosures won't**
- **Smaller than most box enclosures accommodating similar size speakers**
- **Choice of pro-cut enclosures for 6" x 9" or 5-1/4" speakers or enclosures that can be custom cut to accommodate almost any speaker**

Molded of rigid space-age polymers that actually enhance sound reproduction. Strong, lightweight ... unaffected by high/low temperature extremes, humidity or road vibration. Tough textured lacquer finish. Include acoustically transparent grilles with Velcro® fasteners. 7-1/2" high (front), 5" high (rear), 10-1/2" wide, 6" deep.

Pre-cut Enclosures for 6" x 9" speakers.
03—9785U— 1-Pair **$29.95**

Pre-cut Enclosures for 5-1/4" round speakers.
03—9786B— 1-Pair **$29.95**

Enclosures with blank faces. Can be custom cut to accept almost any speaker.
03—9787P— 1-Pair **$29.95**

COAXIAL SPEAKERS

- **Giant 20-oz. magnets ... vinyl-padded grilles**

Deliver finest stereo sound reproduction because each speaker is actually two speakers in one. 5-1/4" round speaker and 4" x 10" oval speakers have a 2" tweeter .. 6" x 9" oval speaker has 3" tweeter ... each mounted coaxially. Each speaker has its own independent magnet for greater frequency response. Cloth-rolled air suspension cones for smooth base response. Maximum input: 25 watts per speaker. With black plastic grilles, hardware, wire.

[A] **Oval Speakers.**
03—9425X—6" x 9"
03—6599B—4" x 10" 1-Pair **$29.95**

[B] **Round Speakers.** 5-1/4"
03—9426N— 1-Pair **$24.95**

3-way • 4-component SPEAKER SYSTEM — Handles 240 watts of power

- **Flush mounts in any 6" x 9" opening**
- **4 SEPARATE speakers built into each housing (not bridged together)**

Designed for high-power car audio products ... handles up to 120 watts per channel! Speakers have 5-1/2" woofer with 20-oz. ceramic magnet, 3-1/2" midrange with 3-oz. ceramic magnet and 1" dome and super tweeters with alnico magnets. External heavy-duty voice coil. Heat-resistant ABS plastic housing with acoustically transparent wire mesh grilles. Includes 2 speakers, stereo wire and mounting instructions.
03—9534W— 1-Pair **$49.95**

200-watt 5-WAY STEREO SPEAKER SYSTEM

- **Massive 20-oz. magnets**

Five heavy-duty speakers are hermetically sealed in each compact cabinet: one 4" foam-edged woofer, one 2-1/4" midrange, three 1" dome tweeters. Each system handles up to 200 watts RMS, 100 watts RMS per channel. Assures outstanding sound separation and resolution, superior clarity plus smooth frequency response (50Hz-20,000Hz total). Light-weight, impact-resistant die-cast aluminum cabinets are 7-1/4" x 4-3/5" x 4-1/4" deep, have acoustically transparent black mesh grilles. 8-ohm impedance. Includes 2 speakers, hardware and wiring.
03—9687B— 1-Pair **$49.95**

3-way SPEAKER SYSTEMS for Cars, Vans, Boats and Homes

- **Hear hi-fi sound from 4" woofer, 2" cone tweeter and 1" dome tweeter in each system**
- **Speakers hermetically sealed in black aluminum cabinet ... super small to install anywhere**
- **10-oz. ceramic magnet on woofer ... each system handles 30 watts RMS, peaks to 50 watts**

Deliver hi-fidelity sound at surprisingly high power levels. Black aluminum case has matching black mesh grille. Quick-connect/disconnect speaker terminals. Compatible with both 4 and 8-ohm systems. Cabinet size: 7-1/8" high x 4-3/8" wide x 4-1/8" deep. Includes adjustable mounting bracket, wire, hardware, instructions.
03—6626T— 1-Pair **$39.95**

High-performance REPLACEMENT SPEAKERS for GM, Ford & Chrysler Vehicles

- **Replace original equipment in-dash speakers**
- **Specially designed for use with power boosters, equalizers and high-power stereos**

Handle more power (up to 40 watts per channel) than original equipment speakers to provide high quality sound reproduction. Compact 3-1/2" diameter speakers have high-compliance, foam-edge air-suspension woofers with high energy strontium cobalt magnets. Magnet end plates feature built-in holes to help cool the durable voice coils. Special cover protects cone material. Compatible with all 4 and 8-ohm tape players and radios.
03-6757W— 1-Pair **$19.95**

4" x 6" COAXIAL STEREO SPEAKER

- **Replaces original equipment in-dash or in-door speakers**
- **Designed to handle high-output radios & tape players—up to 25 watts per channel**

Upgrade your present stereo system with these high-power speakers. Each speaker has 8 oz magnet. Frequency range 80-18,000 Hz. 8-ohm impedance. Mounts easily using existing hardware and wiring.
03-6758U— Each **$9.95**

Flush-mount SLIM-LINE SPEAKERS

Only 1-1/4" deep

Heavy duty 5" high-compliance speakers for super sound reproduction and full range response. Fit in door, under dash ... or seat, back of seat, glove compartment, rear deck, ceiling, sun visor ... anywhere! Weatherproof. Power handling 80 watts maximum. Frequency response: 50-18,000 Hz. 4 ohm impedance. All wire, grilles, hardware and instructions included.
03—9744A— 1-Pair **$24.95**

Slim-line speakers (not shown). Similar to above, but 40-watt maximum power handling and 8 ohm impedance.
03—6588N— 1-Pair **$19.98**

REAR SPEAKER SET with ADAPTERS, GRILLES for 82-84 S-10 & S-15 Pickups, Blazer & Jimmy

Rear 4" x 10" Speakers for Chevy S-10 & GMC S-15 pickups. Speakers have coaxial-mounted 2" tweeter, independent 20-oz. magnets for greater frequency response, cloth-rolled air suspension cones for smooth base response. Maximum input 25 watts per speaker. Install behind seat. Set includes 2 speakers with grilles, adapter plates, support brackets, instructions.
03—9740R— 1-Set **$49.95**

Rear 6" x 9" Speakers for Chevy S-10 Blazer & GMC S-15 Jimmy (not shown). Speakers (described above) have coaxial-mounted 3" tweeter. Mount in rear seat panels. Includes 2 speakers with grilles, template & instructions.
03—9741X— 1-Set **$44.95**

5" DECK MOUNT SPEAKERS

Acoustically designed louvers minimize distortion. Peak 10 watt power per pair. Black leather grained cabinets have streamlined design. Complete with wiring, hardware, instructions.
03—6383A— 1-Pair **$9.98**

FM SIGNAL BOOSTER

- **Electronic amplifier improves FM reception especially on vehicles with inside windshield antennas**

Brings in more stations with stronger, clearer signals, less noise. Reduces signal drift without affecting AM reception. Power-on indicator light, on/off switch. Easy to install on or under dash. 2-1/2" x 3-1/4" x 1-3/8" high with mounting bracket. With hardware, instructions.
81—1420A— Each **$8.95**

SATISFACTION GUARANTEED or MONEY BACK

Twin Piezo TWEETER SPEAKERS

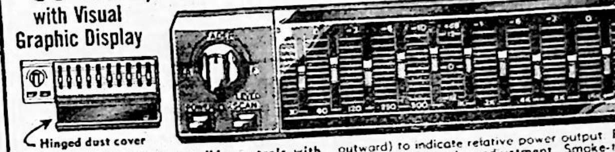

- **Surface mount—no cutouts needed**
- **Super slim—mount easily anywhere, even in tightest spots**
- **2 piezo tweeters in each housing for extra high frequency response**
- **100 watts RMS per speaker**

Only 9/16" deep

Designed to be used with your existing speaker system to enhance sound quality. Clean, pure sound with minimum distortion. Frequency response 1500-30,000 Hz. Compatible with 4 or 8-ohm auto or home stereos; no additional crossover network required. Only 3-7/8" wide x 4-3/4" high x 9/16" deep. Black ABS plastic housing, black wire mesh grilles. With mounting hardware, instructions.
03—9627Y— 1-Pair **$24.95**

60-watt, 10-band EQUALIZER/BOOSTER with Visual Graphic Display

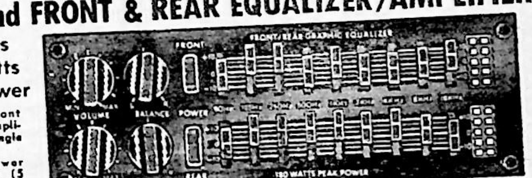

Hinged dust cover

- **10 illuminated frequency slide controls with adjustment range of ±12db**
- **Delivers 30 watts of power per channel**
- **RCA line-out jacks for easy installation**

Unique graphic display features 2 modes. In scan mode, frequency controls light up briefly in sequence for 10 seconds. Then there is a 2 second pause during which all controls light up simultaneously to display full audio response spectrum after which cycle is repeated. In level mode, controls light up (starting from center and radiating outward) to indicate relative power output. Fader control for 4-speaker adjustment. Smoke-tinted acrylic cover locks in place over controls ... prevents accidental changes to frequency settings, protects equalizer from dust and dirt. Adjustable gain control to match perfectly any car stereo. Frequency response: 20-20,000 Hz. Approx. 1-5/8" x 5-7/8" x 6". With hardware, instructions. For all 12V neg. ground common or floating-ground systems.
03—9748B— Each **$99.95**

18-band FRONT & REAR EQUALIZER/AMPLIFIER

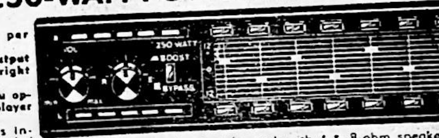

Delivers 180 watts peak power

- **Separate front and rear amplifiers in a single housing**
- **10 LED power indicators (5 per channel) for each amplifier**
- **9 separate frequency slide controls for front speakers, 9 for rear**

Rear amplifier provides 60 watts RMS for rear speakers (30 per channel), front amplifier provides 32 watts RMS for front speakers (16 per channel). Separate on/off, volume and balance controls for each amplifier. Frequencies equalized: 60Hz, 125Hz, 250Hz, 500Hz, 1KHz, 2KHz, 4KHz, 8KHz, 16KHz. Boost/cut range ±10db. Pre amp high/low impedance inputs with RCA jacks. Measures 2-1/4" high x 6-1/8" wide x 6-1/2" deep. Includes hardware, instructions. For all 12 volt negative-ground systems (common or floating ground).
03—9817N— Each **$129.95**

Pushbutton 7-band EQUALIZER BOOSTER with 250-WATT POWER AMPLIFIER

- **125 watts power per channel**
- **3-color LED power output meters for left and right channels**
- **Bypass switch lets you operate radio or tape player without amplifier**

Pushbutton controls increase or decrease decibel levels to shape sound and tone just the way you like ... lock in frequency settings ... won't drift like sliding controls. Equalization ±12db. Fader control for front-to-rear speaker adjustment. Use with 2 or 4-speaker systems. High/low impedance input jacks work with 4 & 8-ohm speakers. Approx. 6-1/2" x 1-7/8" x 6" deep ... mounts on or under dash. With hardware, brackets, instructions. For 12V neg.-ground systems.
03—9672U— Each **$79.95**

Big power plus sound-control flexibility at a great low price! 240-watt, 7-band EQUALIZER/AMPLIFIER

ONLY 39.95

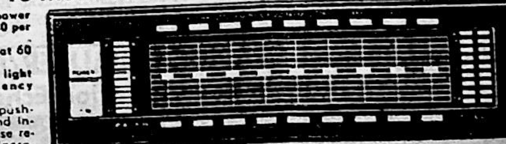

Only 7/8" high

- **Up to 120 watts of power per channel with remarkably low distortion**
- **Built-in fader control for front-to-rear speaker adjustment**
- **LED power output meters for right and left channels**

Seven frequency controls for extremely precise tone tailoring. Cut/boost range: ±12 db. Frequency response: 20-20,000 Hz. Only 6" wide, 4-1/8" deep, 7/8" high for easy on or under-dash installation. 4-8 ohm impedance. Power "on" light. Includes mounting hardware, instructions. For all 12V negative-ground systems.
03—9663T— Each **$39.95**

Electronic Pushbutton 120-WATT, 9-BAND EQUALIZER/BOOSTER with 18 Multi-colored Power Indicator Lights

- **120 watts total power for 4 channels (30 per channel)**
- **Clean 1% THD at 60 watts**
- **LED indicators light up on frequency change**

Two electronic pushbuttons per band increase or decrease response in 2db increments. Equalization range: ±12db. 3-color, 18-light array gives a visual display of power output. Fader slide control allows front-to-rear adjustment of 4-speaker systems. Lighted power bypass and defeat switch. High/low-impedance RCA jacks and gain control. Common and floating ground. Frequency response 20-20,000 Hz. Measures 1-7/8" high, 6-3/8" wide, 6" deep. With mounting hardware, instructions. For 12-volt negative-ground systems.
03—9707Y— Each **$99.95**

CHARGE YOUR ORDER ON YOUR VISA OR MASTERCARD

Acoustical • Trunk-mount SPEAKER ENCLOSURES

• Improve stereo separation and bass response, help eliminate distortion, improve sound from your speakers

Eliminate road noise through speaker cone, prevent dust and dirt clog, prevent cone blow-out. Urethane foam cradles speaker, guards against damage. Tough PVC plastic with fiberboard top and black finish. Easy to install—no tools required. 10-3/4" x 7-1/2" x 4-1/2". Fit 6 x 9 or smaller speakers.

03—9204W—1-Pair $19.95

6" x 9" SPEAKER ENCLOSURES with Adjustable Brackets

• Mount vertically or horizontally ... swivel to best listening position
• Improve the sound of all 6" x 9" speakers (not included—see index) ... better bass response & resonance
• For cars, vans, RVs, hatchbacks—even homes

[A] 11-13/16" High x 7-13/16" Wide x 5-7/8" Deep Enclosures. Scuff-resistant vinyl finish (choice of walnut-grain or black) and acoustically transparent black cloth grilles. With speaker fittings and hardware.

03—6644W—Walnut-grain
03—6645T—Black 1-Pair $39.95

Economy Enclosures (not shown). Similar to above except do not include cloth grilles or mounting brackets. Enclosures are 11" high x 8" wide x 4-3/4" deep. Walnut-grain vinyl.

03—9442B 1-Pair $24.95

[B] 8" High x 31" Wide x 16" Deep Console. Holds two 6" x 9" speakers. Matte black finish, acoustically transparent black cloth grilles. Pre-wired.

03—6841Y— Each $49.95

300-watt • Surface-mount 3-WAY SPEAKER SYSTEM

7 speakers in each unit!

• TWO 4" woofers per speaker for resounding bass
• TWO 2" piezoelectric direct-radiating midrange speakers per speaker for clean, clear middle tones
• THREE 1" super tweeters per speaker for high frequencies of unparalleled crispness

Seven speakers in each unit for the deepest, richest, most realistic sound! Compact 27" x 9" x 14" deep cabinet is made of high-heat resistant black ABS plastic to protect speakers. Easy to install on rear shelf. Frequency response: 45-30,000 Hz. With mounting hardware, wire.

03—9808U—
1-Pair $99.95

100-watt 3-WAY SPEAKERS with Piezoelectric Tweeters

• Full frequency range (35-30,000 Hz) for powerful, smooth bass and clean, transparent highs
• Matched components for distortion-free sound
• Each speaker handles up to 50 watts power
• 20-oz. magnet assembly per speaker
• Heavy-duty woofer cone, foam-edge suspension

Piezoelectric components (1) assure full, rich sound at high and low power levels, (2) withstand high power without damage to midrange or tweeters and (3) provide accurate frequency crossover at midrange and tweeter for the most natural sound reproduction possible. Vibration-free steel bridge. With grilles, wiring, hardware and instructions.

6" x 9" Speakers (shown). Solid-state piezo 1" tweeter and 3" midrange.

03—9738T— 1-Pair $39.95

5-1/4" Speakers (not shown). Solid-state piezo 3-1/4" tweeter and 2" direct-radiating midrange.

03—9739A— 1-Pair $34.95

260-watt • 4-way 6" x 9" BRIDGELESS SPEAKERS

• Handle up to 130 watts per speaker

Each speaker has extra heavy-duty 20-oz. magnet with 1-1/2" voice coil. High-compliance, rolled-edge 6" x 9" woofer and 2-5/8" midrange produce powerful bass and distortion-free middle tones. 1-1/2" tweeter and 1-1/2" super tweeter provide crisp, clear high frequencies. Frequency response: 30-20,000 Hz. 4-ohm impedance. Includes steel mesh grilles, 24 ft. of insulated speaker wire, mounting hardware and instructions.

03—9809B— 1-Pair $69.95

5-Way, 120-Watt 6" x 9" SPEAKER SYSTEM for today's high-volume car stereos

• Huge 30-oz. magnet system with 1" voice coil handles up to 120 watts—60 watts per channel
• 5 distinct speakers assure outstanding sound separation and resolution—even at high volume

Music is a combination of many individual sound elements that sometimes can lose their clarity through amplification. This 5-speaker system divides and defines the smallest variations of sound, eliminating the blending of undesirable vibration and intensifying the original tone quality. High-compliance, air-suspended woofer with flexible foam edges delivers deep, driving bass tones. 3" cone mid-range for crisp voice and mid-range frequencies. Three 1" dome tweeters provide brilliant high-range frequency response. 3/4" deep sealing rings eliminate high volume static caused by speaker vibrations. Includes two 6" x 9" speakers to fit standard mounting space, two impact-resistant black wire mesh grilles with dust protectors, two 16-ft. heavy-duty speaker cables, mounting hardware and instructions. 4-ohm impedance.

03—6817Y— 1-Pair $49.95

BI-AMPLIFIED SPEAKERS & SUB-WOOFER with Built-in Amplifiers

• Produce concert-quality sound across the entire audio spectrum
• 50 watts of power per pair

Special materials and design deliver performance comparable to high-priced factory-installed equipment. Built-in amplifiers are individually matched to speakers for maximum control and minimum loss of energy. Each speaker/amplifier unit is enclosed in a cover to prevent damage.

[A] Deck-mount Speaker Set. Each speaker has dual 4" woofers and 2" satellite tweeter. Tweeters may be mounted independently of woofers for improved high-frequency reproduction. Rotary tone control is built into tweeter frame; high-frequency tone control is built into tweeter housing. Speakers mount in standard 4" x 10" cutouts in rear deck or 6" x 9" cutouts using adapters included. Frequency response: 80-20,000Hz. Overall dimensions: 4-3/4" high x 10-1/4" wide x 2-3/4" deep.

03—9796A— 1-Pair $129.95

[B] Door-mount Speaker Set. Each speaker has 4" woofer and 2" satellite tweeter. Tweeters may be mounted independently of woofers for improved high-frequency reproduction. Sliding high-frequency tone control is built into tweeter housing. Speakers mount in standard cutouts in doors. Frequency response: 80-20,000Hz. Overall dimensions: 4-3/4" high x 5-1/2" wide x 1-7/8" deep.

03—9797R— 1-Pair $99.95

[C] Surface-mount Speaker Set. Each speaker has 4" woofer and 2" satellite tweeter. Sealed box-type housings mount with single bolt for easy speaker rotation. Built-in rotary tone controls. Frequency response: 80-20,000Hz. Overall dimensions: 4-1/2" high x 9-3/4" wide x 2-1/2" deep.

03—9798X— 1-Pair $119.95

[D] Sub-woofer. Dual 4" woofers reproduce ultra low frequencies from 50-250Hz for deep musical depth. 50-watt power output. Must be used with other bi-amplified speakers or with conventional speakers. Overall dimensions: 4-3/4" high x 10-1/4" wide x 2-3/4" deep.

03—9799N— Each $79.95

FRONT and REAR REPLACEMENT SPEAKERS

• Better than originals ... for AM, AM/FM & AM/FM stereo
• Frequency response to 14,000 Hz

Upgrade old or defective speakers! Hear all the sound your radio can deliver. Enjoy deeper bass, richer treble, more brilliant tone response. Includes dust screen for added protection. Measure your existing speaker and order corresponding style and size from table below.

Speakers with heavy-duty 6-oz. magnets and 3/4" voice cone. Clear, crisp highs. Avg. frequency response: 50-14,000 Hz. For stereo use, order 2.

Speakers with 3-oz. ceramic magnets. Full range high compliance. For stereo use, order 2 speakers.

FOUR-WAY STEREO SPEAKER SYSTEM

Two 6" x 9" speakers faithfully reproduce the full sound spectrum (brilliant highs, full mid-range, powerful distortion-free bass) and include ...

• Foam-edge, air suspension, high-compliance woofers with heat-resistant voice coils (60 watts capability per speaker)
• Wide-dispersion mid-range speakers
• Twin-dome radiating tweet-horns
• Oversize 20-oz. ceramic magnet

Hear sounds the way they were meant to be heard: clear, sharp, beautiful. Compatible with all 4-ohm tape players and radios. Easy to install in rear deck cut-outs. Two contemporary-styled heat-resistant wire mesh grilles; two 16-ft. heavy-duty speaker cables; all mounting hardware and instructions.

03—6596Y— 1-Kit $39.95

Heavy-duty SPEAKER WIRE for Auto or Home

• Assures best speaker performance

16-gauge

12-gauge

Clear insulation — one strand tinned, one clear copper. Polarized to assure speakers are installed in proper phase.

16-gauge Wire. Extra heavy-duty. Perfect for use with high-powered amplifiers.

03—6752X—50-ft. roll Each $4.95
03—6753N—100-ft. roll Each 8.95

Super-heavy-duty 12-gauge Wire. 259 strands of copper in protective vinyl jacket. Shipped via UPS from factory. No C.O.D. orders.

96—8481RF—50-ft. roll Each $29.95
96—8482XF—100-ft. roll Each 59.95

ANY car stereo can sound like a $1,000 system!

Flush-mount SPEAKERS with Built-in Bi-Amplification System

• Startling sound clarity at every volume (from whisper quiet to raise-the-roof loud) with VIRTUALLY NO DISTORTION!
• Speaker and amplifiers in ONE compact package—at less than you'd pay for some top-quality equalizer/amplifiers alone!

Bright, clean, accurate sound across the entire audio spectrum! These speakers make a good car stereo sound better than you'd have thought possible or make a top-quality car stereo sound sensational! The secret: advanced electronic circuitry that provides a changing amount of preemphasis to the input signal to the amplifiers. It automatically adjusts the frequency response of the drive signal from the amplifiers to the speaker coil. The drive signal has a frequency response virtually identical to original input signal ... maximum movement of speaker diaphragm is precisely controlled AT ALL VOLUME LEVELS without the usual performance-robbing spiders and cones. The result: speakers of unprecedented sensitivity, amazingly low distortion! FEATURES: light-weight, specially designed woofer cone for excellent transient response; polypropylene coating to protect woofer cone against heat, humidity; high-compliance foam surround for deep bass; special radiant cooling to increase heat dissipation 100% over conventional units for clearest sound at highest volumes; LED power-on light; signal to noise ratio of better than 60 dB. Super low-profile design for easy installation. For all 12V, negative-ground systems. Low power draw.

[A] & [B] 6" x 9" & 5-1/4" Coaxial Speakers. 30 watts RMS per speaker. Perfectly matched bi-amplifiers handle bass, treble separately. High-frequency control regulates dispersion from 0 to infinity. Magnetic, fluid-cooled 1-1/2" cone tweeter with adjustable output control and dished bracket for optimum, high-power performance. Exceptional midrange response and electronic tweeter-to-woofer wiring for free movement of woofer cone. Heavy-duty speaker magnet. Aluminum heat sink. 4-8 ohm impedance.

[A] 6" x 9" Speakers. Rear-deck mount. Frequency response: 35-20,000 Hz.

03—9670Y— 1-Pair $189.95

[B] 5-1/4" Speakers. Rear-deck or door mount. Frequency response: 50-20,000Hz.

03—9669P— 1-Pair $169.95

[C] 4" Speakers. 16 watts RMS per speaker. Single amplifier per speaker. Incredibly shallow—require less than 1" mounting depth for installation in doors, kick panels. Frequency response: 70-20,000 Hz. 4-8 ohm impedance.

03—9668B—
1-Pair $149.95

200-watt 10-band EQUALIZER/AMPLIFIER

• Contours your sound system to your music tastes and car's interior
• Powerful 100 watts RMS per channel for clear, crisp sound even at high volume
• 10 separate LED power level indicators (5 for each channel)
• Compact for easy mounting in or under dash

Here's the power and control you need to enhance your car's sound system. Slide bar controls for ten frequencies: 30Hz, 60Hz, 120Hz, 250Hz, 500Hz, 1KHz, 2KHz, 4KHz, 8KHz, 16KHz. Cut/boost: ±12db. Fader control balances

make front-to-rear adjustments on 4 speaker system. Bypass switch lets you operate radio or tape player without amplification. High-low impedance inputs with RCA phono cables. Operates on any 12-volt negative ground system. With instructions, wiring, hardware.

03—9585Y— Each $59.95

200-watt, 10-band GRAPHIC EQUALIZER/BOOSTER with Built-in Reverberation Echo

Only 1" high

• 100 watts of power per channel with remarkably low distortion
• Reverberation echo adjusts to create a rich concert hall sound
• LED output indicator lights per channel

10 frequency adjustments; controls equalization range of ±12db. Fader control balances sound between front and rear speakers. Equalizer can be turned on/off with switches. LED "power on" indicator. RCA high/low impedance input jacks for 6-1/2" wide x 5-1/2" deep. For 12-volt negative ground system.

03—9648U— Each $99.95

High-power 6" x 9" SPEAKER SYSTEM

Handles up to 250 watts RMS per speaker

• Extra-heavy-duty 200-oz. magnet system (100 oz. per speaker)
• 1-1/2" aluminum voice coils
• Bi-amp circuitry
• 1,000-watt peak-to-peak capacity

3-way speakers have direct radiating mid-range and solid-state piezo electric tweeter for clear, sharp highs. Foam-edged air-suspension woofer reach full efficiency at 1 watt, producing an unbelievably clean 102 db of sound at 1/2 meter. Frequency response: 20Hz-40KHz. 4-ohm impedance. Includes grilles, wiring, hardware and instructions.

03—9690W— 1-Pair $99.95

3½" COAXIAL SPEAKERS

Replace OEM speakers perfectly ... improve sound quality of any system. 40-watt capacity per pair. 3/4" heat-resistant voice coil for clear sound at higher volumes. Dual-mounted 1-3/4" tweeter for excellent reproduction at high frequencies. 8-oz. ceramic magnet. With wiring, instr.

03—9737N— 1-Pair $24.95

5" Round COAXIAL SPEAKERS

• Mount easily even in thinnest doors requires only 1-1/4" mounting depth
• 5" woofer for exceptional bass response as low as 50 Hz
• Solid-state piezo electric tweeter for outstanding high-frequency reproduction ... crisp, clear highs
• Each speaker handles up to 45 watts power

Frequency response: 50-18,000 Hz. With weather guards to protect speakers, grilles, wire, hardware.

03—9743T— 1-Pair $24.95

5" Round Coaxial Speakers (not shown). Similar to above except 25-watt maximum power each, and paper cone tweeter.

03—6835P— 1-Pair $19.95

Flexible Foam SPEAKER BAFFLES

• Form a tight seal, prevent dust, dirt and moisture damage to speakers
• Improve acoustics, increase power handling capacity
• For door-mount or rear shelf-mount full-range, coaxial or 3-way speakers
• Compress to fit most automotive applications

Help extend speaker life, especially in dusty or wet climates. Stop sound waves from back of speakers to eliminate distortion. Prevent cone blow-out from slamming trunk lid, tough protect to existing speakers or new installations.

	Stk. No.	Each
3-1/2" speakers	03—9835X	$2.95
4" speakers	03—9522A	3.95
4" & 5-1/4" speakers	03—9523N	3.95
4" x 6" speakers	03—9524Y	3.95
4" x 10" speakers	03—9524X	3.95
5" x 7" speakers	03—9525U	5.95
6" x 9" speakers	03—9836N	5.95
8" speakers	03—9837T	6.95

200-watt & 300-watt 6" x 9" BRIDGELESS 3-way SPEAKER SYSTEMS

• Post-mounted mid-range and tweeter eliminate sound-robbing bridgework for true, unobstructed stereo reproduction
• Mounts easily in rear-deck cutouts

300-watt System (shown). 30-oz. strontium magnets handle up to 300 watts peak power (150 watts per channel). With 6" x 9" woofer, 2-5/8" mid-range; 1-1/2" tweeter. Extra-large 1-1/2" fiberglass voice coil. Half-roll polyurethane suspension rim. Textured cone for deep bass response. Acoustically-transparent mesh grilles. 4-ohm impedance. With two 12-ft. speaker wires, hardware, instructions.

03—9521T— 1-Pair $69.95

200-watt System (not shown). 14-oz. magnets handle up to 200 watts peak power (100 watts per channel). With 6" x 9" woofer, 2-1/2" midrange; 1-1/2" tweeter, 1-1/4" voice coil. 50Hz-20KHz. 4-ohm impedance. With two 10-ft. speaker wire cables, hardware, instr.

03—9513P— 1-Pair $49.95

4" x 6" Stereo 3-way SPEAKER SYSTEM

• Each speaker has powerful foam-edged air suspension woofer with 8-oz. magnet, 2" mid-range and 1" cone tweeter
• Handles up to 30 watts per speaker

Fiberglass design for less distortion. Compact speakers install in dash, doors or rear deck, and are ideal for mini pickups. Frequency response: 45-19,000Hz. Black steel mesh grilles with chromed trim. 8-ohm impedance. With 2 speakers, 2 grilles, wiring, hardware.

03—6824U— 1-Pair $29.95

4 Section KEY LOCK ANTENNA

Universal top mount. Chrome plated 4-section antenna extends to 31-1/2"; 46" antenna wire lead with rubber sealing grommet extends 8". Extra-easy mounting against theft. Lock (with 2 keys) guards against theft.

04—0227N— Each $2.99

Extra-long-distance All-band BASE STATION SCANNER ANTENNA

Super sensitive. Aluminum base with 12 aluminum elements (six 18" long, six 6" long). Efficient broad band coverage with wide range to monitor police, fire, weather, aircraft, all bands. Mounts on top of any 1-1/2" diameter mast (not included—see index) with U-bolts. Includes 25-ft coaxial cable, connectors, instr.

03—9593B— Each $26.95

Deluxe 150-watt STEREO SPEAKER SYSTEMS

• Specifically engineered for use with high-powered amplifiers

Provide high-fidelity sound with unmatched power and clarity. Install easily in door, rear deck, dashboard, panel. Heavy-duty construction. Includes grilles & instructions.

[A] 6" x 9" 3-way System. Large aluminum voice coil and heavy-duty copper windings deliver up to 75 watts RMS per speaker. Pole-mounted midrange/tweeter provides additional woofer exposure. Foam roll edge assures deeper bass response. Frequency response: 30-22,000 Hz. 25-oz. magnet. With bi-amp hook-up capability.

03—6695Y— $64.95

[B] 5-1/4" 3-way System. Same as [A], but with shallow 2" mounting depth. Frequency response: 70-22,000 Hz.

03—6696W— 1-Pair $54.95

Vinyl-padded • Dual-cone Powerful SPEAKERS with Oversize Magnets

New rich sound!

• Each speaker has a 10-oz. ceramic magnet with 20-watt peak capacity!

Enjoy faithful sound reproduction and full-range response. High-quality 5-1/4" dual-cone matched speakers, deluxe leather-grain padded grilles. Mount on rear shelf, in doors, kick panels, under dash. With hardware, wiring harness. Compatible with 4 & 8-ohm systems.

03—6630N— 1-Pair $16.95

CB SPEAKER

Clear, distortion free sound, acoustically designed for voice communication. 180° adjustable mounting bracket lets you mount speaker most anywhere. 5 watt maximum power. 8 ohm impedance. 4" high x 4" wide x 3" deep high-impact black plastic housing and grille, black metal bracket. Includes 10-ft pre-wired cable and standard 3.5mm plug.

03—6661P— Each $7.98

3-way • Super Mini WEDGE SPEAKER SYSTEM

• Fits any vehicle
• Handles a powerful 30 watts of power per speaker
• Easy to install—no cutting required

Angled speaker design is ideal for rear decks with sloping rear windows; 3-3/4" H. x 6-1/4" W x 4-1/2" D speakers are small enough to fit nearly anywhere. 60-20,000 Hz frequency response. 8-ohm impedance. With tweeter, midrange and woofer provide high quality sound. Recessed quick-connect speaker terminals. Matte grey, impact-resistant ABS case. With brackets, hardware, wire, instructions.

03—6823W— 1-Pair $29.95

High-power SUB-WOOFER

• Increases bass response on conventional low-range tones and concert hall realism not available with conventional speakers
• 6" diameter air-suspension speaker with 2" voice coil and 20-oz. magnet
• Mounts easily in 6" x 9" speaker opening

Handles up to 120 watts per speaker. Delivers a big 90 decibels (1-1/2 ft.) Frequency response: 50-4000 Hz. 5-3/8" mounting depth. Includes grille, wiring, hardware, mounting adapter, instructions.

03—9728U— Each $99.95

ANTENNAS

• For all AM/FM, AM/FM/MPX and FM radios
• Broad band—receives clear, strong signals over entire FM band
• Choice of stainless steel or black stainless steel

Spring Mount Side Mount Top Mount

Calibrated length 1-pc. solid stainless steel shaft. Better reception than built-in and sectional antennas. Bounce-back shocks—eliminates replacement of broken staffs. Adjusts to any angle for top or side mounting anywhere on car. With 52" braided copper shield coaxial lead-in cable and instructions.

03—6168W—Stainless steel Each $5.95
03—9659A—Black stainless steel 6.95

Custom-fit AM/FM POWER ANTENNAS

Mount easily on front or rear fender. Use existing mounting holes. Stainless steel mast. Spring-loaded rocker switch, hardware. 12-volt.

For Datsun 240Z, 260Z & 280Z (thru '78). 5 sections. Semi-automatic. Rear fender mount.

03—9453R— Each $39.95

For Datsun 200SX hatchback and hardtop. 6 sections. OEM styled. Semi-automatic. Rear fender mount.

03—9454X— Each $39.95

For Porsche 911, 924 and 944. Fully automatic. 5-section, black stainless steel mast. Front fender mount.

03—9640A— Each $69.95

For 76-80 Jaguar XJ6 and XJ12. Semi automatic. Driving mechanism separate from mast for easy installation. 4-section mast.

03—9641R— Each $69.95

For BMW 318i, 320i, 528i, 528e, 530i. Semi automatic. 5-section mast. Front fender mount.

03—9642X— Each $49.95

AM/FM POWER ANTENNAS for All Vehicles with Limited Mounting Space

• Extra short mast housing requires only 9-3/4" under-fender clearance for mounting
• Choice of fully automatic or semi-automatic styles
• Choice of satin stainless steel or black finish mast

Helps prevent theft, vandalism or breakage in car washes, garages and drive-ins with low clearance. 5-section mast extends to full 39", retracts to 1". With 12-ft. coaxial cable, adjustable rocker-type mounting base to fit all fender contours, mounting hardware, instructions. For all 12-volt negative ground systems.

Fully Automatic Antennas. Raise & lower with flick of your radio dial. With relay.

03—9579A—Stainless steel mast Each $28.95
03—9580R—Black finish mast 33.95

Semi-automatic Antennas. With toggle switch.

03—9577N—Stainless steel mast Each $18.95
03—9578T—Black finish mast 23.95

AM/FM ANTENNAS for American & Imported Cars & Trucks

• Weather-resistant black finish
• Choice of top-mount or pillar-mount

Enjoy improved AM/FM reception! Completely shielded body and cables eliminate electric interference. Chrome-plated hardware. Gaskets included for waterproof fit.

[A] Top-mount Antenna for all Ford cars. 1-section 31" long fiberglass rod. 72" lead cable.

03—9410R— Each $5.99

[B] Top-mount Antenna for GM cars and trucks and cars with narrow fenders. 1-section 31" stainless steel rod. 72" lead cable.

03—9658T— Each $5.99

[C] Universal Top-mount Antenna for all top-mount installations exc. Ford & GM cars. 3 sections extend to 38"-48" lead cable.

03—9409X— Each $5.99

[D] Pillar-mount Antenna for 80-83 Honda Civic, Accord & Prelude. 2 sections extend to 77" 75" lead cable.

03—9413W— Each $9.99

[E] Universal Pillar-mount Antenna for all pillar-mount installations including Datsun, Mazda, Subaru and Toyota. For right or left side. 3 sections ext to 55". 61" lead cable.

03—9411X— Each $7.99

[F] Top-mount Antenna for all Chrysler cars exc. compact cars. 31" long fiberglass rod. 80" lead cable.

03—9662N— Each $6.99

Custom-fit Antennas (not shown). 1-pc. 31" long stainless steel mast. With cable. Not available in pillar-mount.

03—6764B—All AMC cars & 80-83 Volkswagen
03—6763W—77-81 Chrys cars (exc. K-cars)
03—6761Y—81-83 Chrysler & K cars
03—6760P—65-80 Ford cars (exc. 79-80 LTD)
03—6762T—81 Ford cars & 79-80 LTD
03—6765R—All General Motors cars narrow-fender cars

Above Numbers Each $4.95

FULLY AUTOMATIC AM/FM MINI POWER ANTENNA WITH SIGNAL AMPLIFIER

• 12 db gain (FM) and 10 db gain (AM) for excellent signal reception even in weak, fringe areas
• 4-section 16" stainless steel mast with black chrome finish

Includes 2 heads (flush-mount and extra-narrow) for easy installation on ALL cars. Only 9-1/2" under-fender clearance required. Replaceable mast rises, lowers automatically when radio is turned on or off. With 59" cable, hardware, instructions.

03—9807W— Each $59.95

Top or Side-mount AM/FM ANTENNA with Booster Coil

• Booster coil improves radio reception in all areas without adding extra height to antenna
• 180° adjustable mounting head allows installation at any angle

Polished stainless steel 3-section antenna extends from 21" to 45". Ideal as a replacement or new installation. Heavy-duty, rust-resistant spring steel base absorbs shocks, prevents damage to antenna mast. Mounts easily anywhere on car—requires drilling only one 1" hole. Complete with 54" lead-in cable, shielded to prevent electrical interference.

03—9451T— Each $7.95

AM/FM ANTENNAS

Rustproof AM/FM antennas are made of chrome-plated brass tubing, tapered on ends to prevent moisture and dust from entering tubes. Supplied with lo-loss cables protected by heavy shielded loom to prevent noise pick-up. Sturdy bakelite insulators. Side-cowl mounting.

4-section, extends to 88".

03—6570T— Each $9.95

3-section, extends to 53" (not shown).

03—6571A— Each $7.49

3-section Antenna (not shown). Extends to 49". Polished stainless steel mast. 96" cable. Perfect for trucks, vans and RVs.

03—9405R— Each $6.99

FM SIGNAL AMPLIFIER

• Cleans, improves sound clarity and reception
• Reduces signal drift without affecting AM reception
• Built-in on/off switch and LED "on" light

Enjoy sharp, strong FM reception even in weak signal areas! This amplifier dramatically reduces fringe FM reception problems caused by an inadequate antenna or windshield antenna. Super compact 4-1/2" x 2" x 1" high control unit mounts easily under dash. On/off switch lets you turn off amplifier when pulling in a strong signal to avoid overload. Reliable solid state. Complete with wiring, hardware and instructions. For 12 volt systems.

03—6638Y— Each $14.95

Fully Automatic • Flush-mount CB/AM/FM/MPX or AM/FM/MPX POWER ANTENNAS for Sports Cars and All Vehicles with Limited Mounting Area

• Lifting mechanism attached with flexible cable ... allows mounting where space is a problem
• Antenna automatically extends or retracts ... activate by using CB, ignition or radio switch
• Flush mounting eliminates vandalism problem

Discourage theft of your expensive electronic equipment. Electrically-powered antenna automatically rises when you turn on radio, CB or ignition ... lowers when you turn them off. Powerful drive mechanism runs extra quietly, without vibration. Antenna conceals itself to avoid attracting thieves. It retracts completely to avoid damage from car wash or other low obstacles.

CB/AM/FM/MPX Antenna. Works with any CB and/or AM/FM/MPX radio. Flexible cable allows mounting on front or rear fender (see cable below) even where space is limited. Antenna in 4 telescoping sections ... rises to 42". Chrome mast. Full quarter wave efficiency ... adjust SWR by simply rotating antenna screw tip. Mounts on any vehicle with 12-volt electrical system and at least 13" clearance for mounting. Complete with 5' coaxial cable, CB/FM splitter, relay, wiring and mounting hardware & instructions.

03—9820R— Each $69.95

13-ft. Extension Cable. For mounting antenna 03—9820R at rear of vehicle.

03—6625N— Each $7.49

AM/FM/MPX Antenna. Similar to above, but for vehicles without CB. 4-section chrome-plated mast rises to 31". Needs only 10" of clearance under fender. Coaxial cable is 48" long (see extension below).

03—6622B— Each $59.95

12-ft. Extension Cable. For mounting antenna 03—6622B at rear of vehicle.

03—6623P— Each $5.98

SATISFACTION GUARANTEED or MONEY BACK

12-volt Electric POWER ANTENNA

ONLY 19.95

• 5-section staff extends 39"—retracts to 1"

Staff has non-glare stainless steel satin finish—conforms to all safety standards. Mounts in front or rear fender in any car or truck having 13" clearance under fender. Adjustable rocker-type mounting base fits all fender contours. Heavy-duty motor and clutch. 4-ft. coaxial cable. Same type antenna as used in expensive luxury cars at a fraction of the cost. Prevent theft, breakage of antenna. Switch at dash mounted switch automatically raises or lowers staff. Color-coded wires for simple hook-up. See cable below for rear fender mount.

03—6607T— Each $19.95

Black Power Antenna. Same as above, but black anodized stainless steel mast.

03—9404B— Each $24.99

17-ft. Coaxial Cable. Required for mounting above antenna on rear fender.

03—9342U— Each $4.98

INSIDE Windshield-mount AM/FM ANTENNA for All Cars

• Eliminates outside mast ... stops theft, breakage

Adheres to INSIDE edge of windshield. Clear transparent antenna tape won't crack, yellow or dry out. With lead-in cable and cap for fender antenna cavity. Permanently joined molded flexible connections. Instructions.

03—6441X— Each $2.99

COMBINATION CB/AM/FM ANTENNAS for American & Imported Cars, Trucks

[A] [B] [C] [D] Universal Antenna for cars and trucks

Late Model Chrysler & "K" cars — GM

[E] [F] [G] Datsun — [H] Universal Antenna for Toyota, Datsun, Subaru, Mazda — [J] [K] Honda — Honda

• For all AM/FM/23 or 40-channel CB radios

[A]-[D] Antennas for American cars. Invisible top-loading coil has easy, positive SWR adjustment. One-piece 42" antenna uncoupled or base for fast removal to prevent car wash damage and theft. Stainless steel. Complete with 60" cable and antenna splitter.

Fits	Stk. No.	Each
[A] Chrysler cars	03—6607N	$19.95
[B] 82-83 Chrysler & K cars	03—9445N	19.95
[C] Ford Co. cars	03—6505R	19.95
[D] General Motors cars	03—6506X	19.95

[E] Universal Fender-mount Antenna for all cars and trucks. Ball base adjusts 0° to 90° for top and side mounting. 42" long. Stainless steel with 60" cable and antenna splitter.

03—6508T— Each $19.95

Universal Fender-mount Antenna with spring base for all cars and trucks (not shown). Same features as above plus heavy-duty spring base to prevent damage from vandalism.

03—6510B— Each $21.95

[F] & [G] Pillar-mount Antennas for Datsun. Top loaded, completely shielded to minimize signal loss. SWR adjustment. 3 sections ... extends to 57". Includes 78" cable and splitter.

Fits these Datsun	Stk. No.	Each
[F] 200SX, B-210, F10, 620	03—9447A	$22.95
[G] 510, 810	03—9448R	22.95

[H] Universal Pillar-mount Antenna for Toyota, Datsun, Subaru, Mazda. Same features as above. Fits left or right pillar. Offset angled base.

03—9406X—Black-plated Each $23.95

[J]-[K] Roof-mount Antennas for Honda. Top loaded, completely shielded. Easy SWR adjustment. 3 sections ... extends to 38". Includes 73" cable and coupler.

Fits these Honda	Stk. No.	Each
[J] Civic up to 1979	03—9449X	$22.95
Prelude, Accord up to 1981		
[K] 80-84 Civic	03—9450N	22.95
82-84 Accord	03—9653U	22.95

AM/FM Fully-Automatic POWER ANTENNA

Raises, lowers, with a flick of your radio dial!

For all cars and trucks with 12-volt negative ground systems. Install this great reception antenna as an expensive cars at a fraction of the cost! Prevent theft breakage too. Antenna mast raises a full 39" when radio is turned on ... lowers to 1" when radio is turned off. Unit incorporates 5-section telescoping staff with 4-ft. antenna-to-radio lead-in cable ... extends receiving range of hard-to-get FM stations by 50%! Antenna mounts on any front or rear fender (see cable below) having 13" clearance below fender. Easy 2-wire hook-up. All mounting hardware. Dimensions incl. 14" x 2-1/2" x 3-1/2". Stainless steel mast.

03—6774A— Each $29.95

Black Power Antenna. Same as above, but black anodized stainless steel mast.

03—9414A— Each $34.99

17-ft. Coaxial Cable. Required for mounting above antenna on rear fender.

03—9342U— Each $4.98

Triple your signal strength! ELECTRONIC AM/FM ANTENNA

• Improves reception in outlying areas

Compact—eliminates need for extra high antenna to pull in distant stations. Powerful base-mounted receiver triples the strength of all incoming reception. Eliminates fade. 6-section black anodized mast extends to 15". Folds neatly into base. Mounts anywhere on car or cycle. Includes 6-ft. cable. For all 12-volt systems.

03—9402W— Each $9.95

Fully Automatic CB/AM/FM/MPX Power ANTENNAS

Discourage theft of your expensive electronic equipment. Electrically-powered antenna automatically rises when your radio or CB transceiver is turned on ... automatically lowers when radio or CB turns off. Antenna conceals itself to avoid attracting thieves. Works with any AM, FM, MPX or 23 or 40-channel CB radio. Telescoping 6-section mast rises to 37", retracts completely into fender in 3 seconds ... prevents damage in car washes or low-clearance areas. With completely pre-wired and assembled duplexer and color-coded wiring. Center load resonator coil in second section delivers crisp, bright CB reception. Full quarter wave efficiency. Mounts on front or rear fender of any vehicle with 12 volt electrical system and 16" clearance under fender. Stainless steel. Comes with 4-ft. coaxial cable with PL-259 connectors and instructions.

03—6610X— Each $49.95

Black Power Antenna. Same as above, but 5-section black anodized stainless steel mast.

03—9416W— Each $59.99

2-in-1 Retractable CB/AM/FM/MPLX POWER ANTENNAS

Protect CB equipment and eliminate need for separate antennas. Base-loaded, 6-section stainless steel antenna raises 39" ... retracts completely to discourage theft and damage. Dash-mount switch, electronic frequency divider automatically selects proper frequencies. Mounts on fender of any 12-volt vehicle with 16" clearance under fender. With 4 ft. of coaxial cable, connectors, instructions. Order cable below for rear-fender mount.

03—6609R— Each $39.95

Black Power Antenna. Same as above, but 5-section black anodized stainless steel mast.

03—9415Y— Each $54.99

17-ft. Coaxial Cable. Required for mounting above antenna on rear fender.

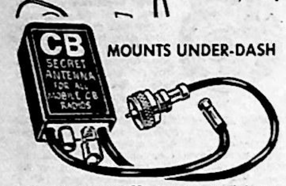

03—9342U— Each $4.98

Protects your CB set against Theft!

SECRET CB Antenna

- Fits under dash—won't attract CB Radio thieves
- Converts your cars regular or windshield antenna to CB
- Equipped with a VSWR tuning light
- Easy to install—no holes to drill

MOUNTS UNDER-DASH

An outside mounted CB antenna tips-off thieves that you have a CB Set in your vehicle. And no matter if your vehicle is locked, no matter if your CB is locked down, they can get it and do a lot of damage in the process. **And chances are, your insurance company won't pay for that expensive CB radio!**

This hidden antenna foils thieves because they look for vehicles with visible CB antennas. Easy to install under dash—converts your regular car radio antenna to a full-performance CB mobile antenna. **Fits all vehicles** with a radio antenna. Works on standard, windshield, power or telescoping antennas. Transmit and receive on all 40 channels. **Does not interfere with reception from your regular radio.**

Light emitting diode lets you tune your antenna and transmitter quickly and accurately. It's like having an SWR meter costing $30 more!

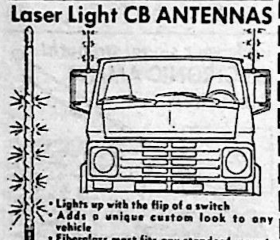

For cars, trucks, off-road and recreational vehicles with regular radio antennas. Easy do-It-yourself installation. No holes to drill. Complete with instructions.

03—9294X— .... Each **$14.95**

Economy Secret CB Antenna. Same as above but without VSWR tuning light.

03—9185X— .... Each **$12.95**

Laser Light CB ANTENNAS

- Lights up with the flip of a switch
- Adds a unique custom look to any vehicle
- Fiberglass mast fits any standard mounting bracket

Antenna gives you superb CB reception. Lights do not affect CB performance. Top-loaded, heli-wound antennas with bulbs encased in translucent fiberglass mast. 20-gauge solid copper wire, mechanically and electrically terminated to prevent breakage; long filament (5/16" I.D.), solid fiberglass rod, and extra-long ferrule with standard 3/8"-24 thread. Tunable tip for low SWR match. Switch to turn on light sold separately below.

Color	24" Length	36" Length

89—4077Y—Non-Illuminated .... Each 1.98

MOBILE TV ANTENNAS With or Without Lights

Work on both color and black & white UHF/VHF TVs and FM radio

- Provide a beautiful picture without roll or flutter—even while vehicle is moving
- Operate with 100-mile range (50-mile radius)

Sleek—only 6-1/4" high x 17" long x 22" wide. Let you enjoy the best reception from your TV, AM/FM radio or police scanner. Tough ABS plastic looks good as is or can be painted. Lighted antennas (shown) have 20 lights that can be illuminated continuously or hooked up to flash with turn signals (left-side lights flash with left signal, right-side lights with right signal).

Permanent-mount Antennas. With 9 ft. of detachable, low-loss coaxial cable, coaxial UHF/VHF antenna coupler, instructions.

03—9709U—Lighted .... Each $69.98
03—9374X—Unlighted .... Each 44.98

Trunk-mount Antennas. Complete with 15 ft. of detachable low-loss coaxial cable, connector and instructions.

03—9711P—Lighted .... Each $69.98
03—9458Y—Unlighted .... Each 49.98

Magnetic-mount Antennas. Complete with 15 ft. of interference-resistant, low-loss coaxial cable, coaxial UHF/VHF antenna coupler and instructions.

03—9713W—Lighted .... Each $69.98
03—9375U—Unlighted .... Each 49.98

TV Power Amplifier. Improves VHF, UHF color and black and white reception. Solid-state amplifier mounts flush in wall like wall outlet. Easy hook up. 300 ohm input/output. On/off switch and indicator light. With antenna connectors. For 12-volt systems.

03—9422U— .... Each $24.99

AM/FM-TV Conversion Kit. Lets you operate radio and TV set from one antenna. Includes coupler and 2 extension cables.

03—9376B— 1-Kit $9.98

TV Wall Plate. Eliminates exposed wires.

03—9377P— .... Each $1.49

UHF-VHF Coupler. For 300-ohm cable. Lets you hook up UHF and VHF simultaneously to two-wire antenna cable.

03—9378Y— .... Each $2.98

TWIN-PHASED CB ANTENNAS for Trucks, Vans, RVs

52" top-loaded tunable tempered fiberglass twin-whip antennas adjust for lowest SWR. With all necessary stainless steel mounting hardware for all mirror brackets, 520-ohm matched, co-phased 18-ft RG-59/u cable.

18—7687X— 1-Kit $29.95

Universal Twin-Phased CB Antenna. Can be mounted on truck mirror, or on side of camper. 19" long overall. With 20-ft. coaxial cable and all mounting hardware.

03—9253T— 1-Kit $29.95

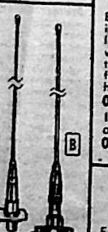

CB Broadcast INDICATOR ANTENNA LIGHT

Slips on tip of your CB antenna and **lights when you talk**—no wires to attach. Visible up to 1/2 mile. Bulb lasts up to 25,000 transmitting hours.

03—6485U— .... Each $1.98

Base-loaded CB ANTENNAS with Tunable Rings

- Tunable rings for maximum output and optimum reception on channels 1 thru 40

Flexible stainless steel mast. 5/8 wave performance. Prewired. Includes 9-ft coax cable with PL-PL connector and solid brass connector.

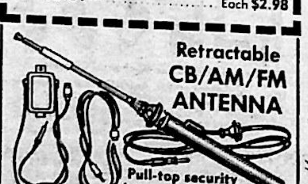

[A] **Horizontal-mount Antennas.** Mount easily on any flat or rounded surface.

18—8854B—48" mast .... Each $14.95
18—8856X—24" mast .... Each 12.95

[B] **Magnetic-mount Antennas.**

18—8855R—48" mast ..... Each $14.95
18—8857N—24" mast .... Each 12.95

Retractable CB/AM/FM ANTENNA

- Shaft retracts into trunk or fender to prevent theft, vandalism and car-wash damage
- Frequency dividing couplet provides optimum CB/AM/FM/multiplex reception

Extends up to 40-1/2" with special security keys included. Works with 23 or 40-channel CBs. Top-load 4-section mast easily tunes for lowest SWR with threaded section at tip. Weather seals protect internal elements. Easy to install on trunk, fender or cowl—requires 16" clearance. With hardware, connectors, instructions.

03—9183B— .... Each $19.95

17-ft. Coaxial Cable needed to mount antenna above on rear fender.

03—9342U— .... Each $4.98

CB HEADPHONE Fits All CB Units!

Engineered for clearer, sharper reception and response. Lightweight foam cushioned headphone for maximum comfort. Impedance-matched circuits for excellent voice clarity. Adjustable headband. With mini plug.

03—9779X— .... Each $14.95

Rabbit Ear TV/FM STEREO ANTENNA for ALL Cars

Now get perfect reception all the time. Rabbit ear design allows for the sharpest possible picture plus great FM/stereo reception. Complete with everything needed for installation, including UHF/VHF splitter. Easy instructions.

03—6578W—
Each $19.95

Gutter-mount AM/FM Antenna. Similar to above.

03—9643N— .... Each $14.95

AMPLIFIED TV ANTENNA for RVs

- Boosts TV signal gain to pull in more channels at much greater distances
- 75-mile maximum range
- Sharp color or black/white pictures on channels 2-83 even in fringe areas
- Rises up to 44" above roof
- Lowers to only 4" in travel position—won't snag on wires, branches
- Built-in splitter allows use of second TV set
- 75-ohm input/output
- Exposed parts won't stain or corrode
- Aluminum mast, stainless steel element, ABS plastic housing

Easy to install. Roof-mount antenna base is stationary—no movement, wear or leaks. Control unit mounts on ceiling. Solid-state amplifier power supply mounts on wall, has 12-volt DC outlet, on/off switch and power-on light. UHF/VHF gain: 12 db. Antenna is 68" long in flat travel position. Includes 15 ft. of coaxial lead-in wire, hardware, instructions.

03—9726Y— .... Each $149.95

Amplified TV Antenna for vans. Same as above except rises up to 21" above roof and is 45-1/2" long in travel position.

03—9727W— .... Each $149.95

Omni-directional • Mobile TV ANTENNA for VHF/UHF Black & White or Color

Long-range 50-mile reception radius

- 360° coverage ... picks up all stations up to 50 miles away without roll or flutter
- Easy to install ... choice of 4 mounts

Enjoy beautiful, crisp reception on your AC/DC television. Low-profile, 6" high base mounts securely. Sturdy stainless steel elements. Complete with mount, low-loss cable, connectors and TV adapter transformer.

Mount	Cable	Stk. No.	Each
Trunk	15 ft.	03—6677W	$17.95
Mirror	12 ft.	03—6679B	17.95
Gutter	12 ft.	03—6680P	17.95
Magnet (shown)	15 ft.	03—6678U	19.95

UHF/VHF Coupler. Allows hook-up of both UHF and VHF simultaneously.

03—9378Y— .... Each $2.98

2-way Mount CB ANTENNA

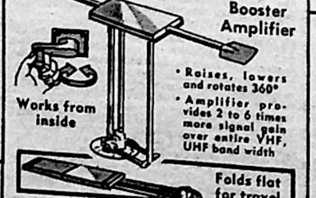

ONLY 9.95 Kit

Mounts on roof (without going through headlining) using snap-on adapter, or clamps to trunk lid. No drilling required. Antenna rod adjusts to obtain lowest SWR. Rustproof stainless steel mast; spring-loaded base. 43-1/2" overall. Cable includes pre-wired PL259 connector. With hardware, instructions.

03—9162W— 1-Kit $9.95

RV ANTENNA with Built-in Power Booster Amplifier

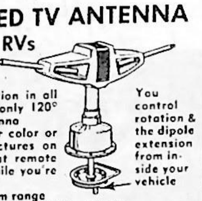

- Raises, lowers and rotates 360°
- Amplifier provides 2 to 6 times more signal gain over entire VHF, UHF band width

Antenna raises up to 35" off roof, rotates a full 360° and folds flush to roof—all with a flick of your finger. Powerful ... with a receiving range of up to 50 miles to provide clear, crisp reception for AM/FM radio, color or black-and-white TV. Excellent UHF-VHF viewing on channels 2-83. Heavy corrosion-resistant aluminum. Solid-state. Easy to install. Universal shaft adapts to all roofs. Base remains stationary—no movement, wear or leaks. 61" long. Weighs 9 lbs. With 75-ohm coaxial lead-in that feeds through mounting leg for a neat weatherproof installation. Wall jack, instructions included.

18—4759X— .... Each $109.95

AMPLIFIED TV ANTENNA for Vans & RVs

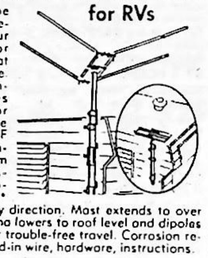

- Unique dipole design allows excellent reception in all directions with only 120° rotation of antenna
- Amazingly clear color or black/white pictures on channels 2-83 at remote campsites or while you're on the go
- 75-mile maximum range
- 12db amplifier gain on UHF and VHF
- Secondary outlet allows use of second TV set

Mounts easily on roof. 6" diam. base remains stationary—won't leak or wear. Antenna height: 12" (dipoles retracted), 16" (dipoles extended). Dipoles crank open from 23" to full 84" width to pull in fringe stations with ghost-free clarity. Weather and corrosion-resistant space-age Rovel® plastic body (in choice of 2 colors), stainless steel dipoles. Includes wall outlet with 12-volt socket, on/off switch, power-on indicator plus 15 ft. of shielded coaxial lead-in wire, coax splitter, hardware and instructions.

18—8986B—Dark gray .... Each $149.95
18—8987P—Cream .... Each 149.95

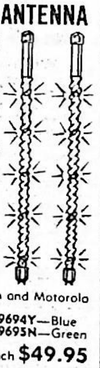

Side-mount TV ANTENNA for RVs

Enjoy the same excellent TV reception in your camper, motor home or RV that you get at home. Powerful antenna assures great color or black-and-white viewing on UHF and VHF channels ... even from distant transmissions. Rotates full 360° and locks in any direction. Mast extends to over 5-1/2 ft. Antenna lowers to roof level and dipoles fold together for trouble-free travel. Corrosion resistant. With lead-in wire, hardware, instructions.

18—5242T—
Each $27.95

Lighted • Top-loaded TV/AM/FM/CB TWIN ANTENNA

- Tunable tips ... handles up to 500 watts of power
- 100-mile TV range
- Choice of 5 colors

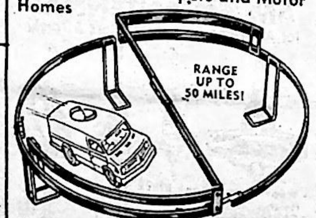

3-ft. twin antenna works with lights on or off. Long-life bulbs are encased in clear, protective plastic. Weather and shock resistant. Stainless steel springs. Includes mirror mounts, 2 cables, PL-259 CB plug, F-59 TV plug, 2-ft. patch for AM/FM and 2 ft. of wire for hookup into any 12-volt system.

03—9693P—Clear
03—9694Y—Blue
03—9695N—Green
Above Numbers .... Each $49.95

Omni-directional ANTENNA for Vans, RVs, Campers and Motor Homes

- Low 7" profile, 24" wide diameter circle—never needs adjusting when vehicle turns!
- Receives FM radio signals; VHF/UHF television signals in both black & white and color

Heavy-duty, gold anodized aluminum antenna receives clear, uninterrupted signals from 360°, up to 50 miles away! Never needs adjusting ... unaffected by winds or weather, won't rust, pit or corrode. Easy to install. Complete with 25-ft. coaxial cable, VHF/UHF/FM 75/300-ohm splitter, 3 perimeter mounts, low-profile insulated mounting brackets, hardware and instructions.

14-2090T— .... Each $39.95

Mobile CB ANTENNAS

- Provide broad-band frequency coverage, outstanding long-range reception, broadcasting
- Adjustable for optimum SWR
- Low-profile aerodynamic design for sleek, modern styling and reduced wind resistance

Only 6" high x 22" wide x 17" long. White high-impact ABS plastic wing and base look great as is or may be painted to match your vehicle.

Permanent-mount Antenna. Complete with 9-ft. detachable coaxial cable, connectors.

03—9586W— .... Each $44.95

Trunk Lip-mount Antenna. Complete with 15-ft. coaxial cable, connectors.

03—9587U— .... Each $47.95

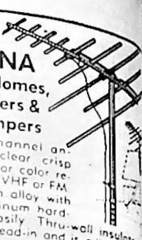

Magnet-mount Antenna. No-mar tri-pole magnet base holds antenna steady even at high speeds. With 15-ft. coaxial cable, connectors.

03—9588B— .... Each $49.95

SATISFACTION GUARANTEED or MONEY BACK

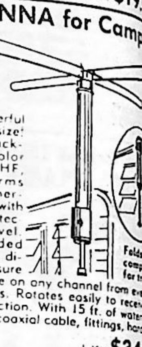

TV ANTENNA for Mobile Homes, Travel Trailers & Pickup Campers

Powerful all-channel antenna provides clear, crisp black-and-white or color reception on UHF, VHF or FM. Strong aluminum alloy with snap-lock aluminum hardware. Installs easily. Thru-wall insulator eliminates unsightly lead-in and is adjustable for different wall dimensions ... simplifies cable placement for traveling ... holds lead-in secure ... low-loss, tuned coil splitter. Folds compact for traveling. Instructions included.

18—4708U— .... 1-Kit $19.[illegible]

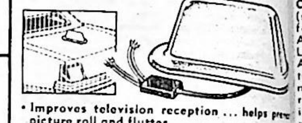

TV ANTENNA for Campers, Boats & Motor Homes

Surprisingly powerful for its compact size! Gives great black-and-white or color reception on VHF, UHF & FM. Arms fold into weather-proof 24" tube with rain cap for protection during travel. Unique 2-folded omni-directional dipole elements assure a beautiful picture on any channel from even distant transmissions. Rotates easily to receive signal from any direction. With 15 ft. of waterproof shielded 75-ohm coaxial cable, fittings, hardware. Easy to install.

18—5430U— .... 1-Kit $34.9[illegible]

Low-profile TV ANTENNA

- Improves television reception ... helps prevent picture roll and flutter
- Aerodynamically styled for minimum wind resistance
- Choice of 4" high and 2-1/2" high antennas

Weatherproof, non-corroding durable ABS plastic antenna goes through car washes safely. Fashionable white finish. Mounts permanently to flat exterior surface on any vehicle or boat. Includes ft. of prewired cable with "F" connector, UHF/VHF splitter box, hardware, instructions.

4" High Antennas.

High-performance CB ANTENNAS

- Rust and weather-resistant, chrome-plated stainless steel masts
- Easy to install—no drilling required

Includes connectors, coaxial cable, hardware. Cable is pre-wired to antenna and has PL259 connector on radio side. With SWR adjusting tool.

[A] **Clip-on Antenna with heavy-duty center-loaded coil.** Spring-loaded clip secures to rain gutter or any ridged surface. 21-1/2" long mast. With 10 ft. of coaxial cable.

03—6804W— .... Each $11.95

[B] **Magnetic-mount Antenna with heavy-duty center-loaded coil.** Magnetic mount with 180° adjustable ball base holds antenna securely even on vertical or sloped surfaces. 23-1/2" long mast (incl. spring). 16 ft. of coaxial cable.

03—6802P— .... Each $12.95

[C] **Trunk Lip-mount Antenna with heavy-duty base-loaded coil.** Tapered whip mast extends to 36-1/2" (incl. spring). 17 ft. of coaxial cable.

03—6803Y— .... Each $13.95

Bendable, Unbreakable CB/AM/FM or AM/FM ANTENNA

CB/AM/FM Antenna (shown). Eliminates need for separate CB and AM/FM radio antennas. Looks like an inexpensive AM antenna to fool potential thieves. Specially formulated 16-1/2" black rubber mast is so flexible, it can be tied in a knot without breaking! Helps prevent damage from overhead obstructions, garage doors, car washes, vandalism, etc. Contains treated metal particles for superior CB performance and crisp, clear AM/FM reception. Disguised loading coil hides the fact that you have a CB in your vehicle. Antenna splitter allows use of both CB and radio simultaneously. Adjustable ball base assures easy mounting on any surface at any angle. With coaxial cable and connectors.

03—6805T—Each $27.88

AM/FM Rubber Radio Antenna (not shown). 16" high with adjustable base bracket. 56" coaxial cable and instructions included.

03—6639W— .... Each $6.95

LINE OUTPUT CONVERTERS & AUDIO CONNECTOR CORD

[A] **Line Output Converters.** Converts your existing car stereo output leads into low-level RCA line output leads ... makes installation of equalizers and amplifiers easier. Handles up to 100 watts per channel. For all common or floating ground units.

03—9688P—With male RCA jacks .... Ea. $9.95
03—9689Y—With female RCA jacks .... Ea. 9.95

[B] **Audio Connector Cord.** 3-ft. audio cable with 2 color-coded RCA phone plugs on each end. Allows easy hook-up of all radios, equalizers, amplifiers, etc. With line-in/line-out RCA jacks.

03—9548W— .... Each $1.99

Pocket-sized MULTI-TESTER

2,000 ohms/volt sensitivity on all DC and AC volt ranges

Measures amount of AC or DC voltage, DC current or resistance in all types of electronic equipment. 11-position test range switch, zero ohm adjustment control. Test ranges: **DC Voltage**—0-10, 50, 250, 1000 volts, **AC Voltage**—0-10, 50, 250, 500 volts, **Decibels**—-10 to +22 dB; **DC Current**—1-100mA, **Ohmmeter**—0-10 kilohms, 0-1 megohms. Mirrored scale for accurate readings from all angles. Only 1-1/8" high x 2-3/8" wide x 3-5/8" long. Operates on one 1.5-volt "AA" battery (included). Includes red and black test leads & instructions.

14—9323A— .... Each $9.95

Accessory Kit for above. Includes red and black 36" test leads, a pair of red and black test probes, spade lugs, banana pins, test pins and four alligator clips.

12—4338W— .... 1 Kit $4.95

Extra-heavy-duty • 10-amp ALTERNATOR/IGNITION NOISE ELIMINATOR for Radios

- Eliminates most spark plug noise, static & alternator whine

Capacitor mounts on ignition coil ... in-line filter mounts on 12-volt radio power lead. With instructions.

03—9667U— 1-Kit $4.95

CHAIN SAW SERVICE MANUAL

Covers Allis Chalmers, Clinton, Danarm, Deere, Dolmar, Echo, Frontier, Homelite, Husqvarna, Jonsereds, Lombard, Massey-Ferguson, McCulloch, Partner, Pioneer, Paulan, Remington, Roper, Solo and Stihl. Information on electric models of Homelite, McCulloch, Paulan, Remington, Skil, and Stihl. Covers teardown and repair, reassembly, adjustments and maintenance. Includes trouble-shooting guide with symptoms of common failures and how to repair them. Illustrated. Over 300 pgs.

16—5955B— .... Each $8.99

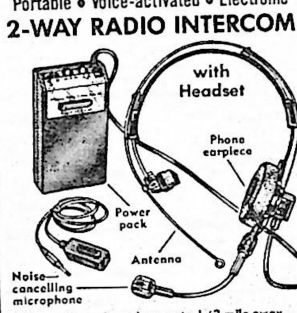

Car Interior Restoration Guide

Everything you'd want to know about upholstery, top work, carpeting, woodgraining, plastic reproduction ... all the skills vital to authentic restoration work. Covers economics of upholstery plus practicality of different types. All details on hanging a new headliner, upholstery seat springs, installing new door panels, kick panels and other soft trim plus info about convertible tops, windows, more. Over 125 pgs. w/illustrations, photos.

16—6087T— .... Each $4.99

Portable • Voice-activated • Electronic 2-WAY RADIO INTERCOM

- Transmits and receives up to 1/2 mile away
- Clearer than a CB—uses an actual FM frequency
- Just turn unit on—quartz crystal superheterodyne circuit opens for transmission when you talk, closes when you stop ... leaves hands free
- Push-to-talk button lets you transmit manually

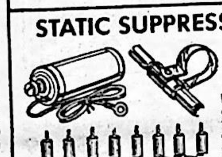

Great for communications between car and trailer, between cars on a highway trip, as a motorcycle intercom, or unlimited uses around home or work. Adjustable headset has foam-cushioned earpiece, noise-cancelling microphone (for optimum clarity and freedom from false triggering) and whip antenna. Lightweight power pack is only 4-1/2" high x 2-1/2" wide x 1-1/2" deep (including removable belt clip)—about the same size as a walking-type stereo. Uses one 9-volt battery (not included—order below). Meets all F.C.C. requirements—no special license needed. Note: 2 units required for communication. All units are on the same frequency to assure compatibility.

03—9827U— .... Each $49.95

9-volt Alkaline Battery for intercom above.

14—4742X— .... Each $2.38

STATIC SUPPRESSOR KIT for All AM-FM Radios

Everything needed to retard noise from spark plugs, distributor and alternator. Can be installed in minutes. Set includes 8 suppressors for plugs, 1 for distributor, 1 for alternator.

03—6615W— 1-Kit $7.98

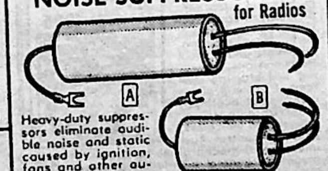

In-line IGNITION NOISE SUPPRESSOR

High-power handling capacity for use with most radios, equalizers, boosters, CBs and power amplifier systems sold today! Eliminates audible noise and static caused by alternators, generators, spark plugs, fan motors, etc. Easy installation. Fuse protected ... in-line connection protects equipment. Complete with mounting hardware & installation instructions.

03—6616U— .... Each $11.95

In-Line ALTERNATOR NOISE SUPPRESSORS for Radios

Heavy-duty suppressors eliminate audible noise and static caused by ignition, fans and other automotive equipment. Easy to install—simply splice into hot wire lead between fuse and car stereo.

[A] **Noise Suppressor** for use with high power stereo amplifiers with up to 300 watts power and 30 amps.

03—6693T— .... Each $19.95

IGNITION NOISE SUPPRESSOR for 78-85 General Motors Vehicles

Reduces ignition static on radio. Plugs into distributor wiring ... replaces original suppressor. For Buick, Chevrolet, Oldsmobile, Pontiac with 2 or 3-wire distributor harness.

	Each
73—6988B—All 79-85 w/2-wire harness	$4.49
73—6987U—All 78-85 w/3-wire harness	4.49

Deluxe 5" Indoor/Outdoor P.A. SPEAKER

Crisp sound reproduction. Ideal for P.A. function of your CB radio. Weatherproof; super-strong high-impact plastic. 8-ohm impedance. 5 watts with 8-watt maximum. Adjustable mounting bracket, 10-ft. wire, plug to fit most CB radios.

03—6562P— .... Each $8.99

MOBILE P.A. SYSTEM with Microphone and Siren with 7 Different Sounds

- It's a strong P.A. amplifier that produces 10 attention-grabbing watts of power
- It's a siren that bellows out:
  (1) standard police siren sound
  (2) slow European-style high/low police sound
  (3) fast pulsating high/low sound
  (4) high-pitched wail
  (5) yelping sounds
  (6) space ship sound
  (7) penetrating whistle

Comes in handy for emergencies, parties, parades, pep rallies, etc. On/off switch and full-range volume control let you tailor sound. Solid-state circuitry. Control module is only 1-1/2" high x 4" wide x 4-3/8" deep, installs easily. Microphone plugs into control module—jack and 3-ft. cord incl. Weather-resistant siren mounts in engine compartment. With brackets, hardware, wires & instructions. For all 12-volt systems.

81—0648Y—
Each $39.95

HOW TO BYPASS YOUR EMISSION CONTROLS

Easily remove or modify power-robbing, gas-wasting emission controls and enjoy ...

- **10% to 40% better gas mileage**
- **Increased acceleration and performance**
- **Extended engine life due to lower operating temperatures and improved combustion**
- **Easier starts and smoother idling**

Bypass your emission controls to save hundreds of dollars on gas each year! If you can change your spark plugs, you can remove your emission control system. Clear instructions and hundreds of illustrations guide you every step of the way. Information on each model/year emission system, trouble shooting procedures and more. **NOTE:** Please check your state motor vehicle department or statutes before removing emission controls. **These books are not available in California due to the Air Resources Board of California.**

SATISFACTION GUARANTEED or YOUR MONEY BACK

Outboard Motor & Inboard/Outdrive Service Manuals

Do it yourself & save. Fully illustrated manuals with detailed instructions explain repairs, maintenance, overhaul and tune-ups.

Outboard Motor Service Manual, Volume I. For the following motors (under 30-HP) manufactured from 1969 thru 1982: Chief, Chrysler, Clinton, Eska, Evinrude, Explorer, Federal, Golden Jet, Handimex, Hiawatha, Johnson, Mercury, Pathfinder, Seaco, Seacruiser-Grant, Seagull, Sea Hawk, Sea King, Sears, Sportfisher, Suzuki, Tohatsu & Wizard. Over 340 pgs.
16—6151X— Each $9.99

Outboard Motor Service Manual, Volume II. Covers the following 30-HP and larger motors manufactured from 1969 thru 1978: Chrysler, Evinrude, Johnson, Mariner, Mercury, Sea King, Suzuki & Tohatsu. Over 240 pages.
16—6152N— Each $9.99

Inboard/Outdrive Service Manual. For the following motors manufactured from the early 60's on: Chrysler, Evinrude, Johnson, Marine Drive Sys., Mercruiser, Outboard Marine Corp., Pleasurecraft, Volvo & Waukesha. Over 270 pgs.
16—5988T— Each $8.99

Pre-1969 Outboard Motor Service Manual, Volume II. For the following 30-HP and larger motors: Buccaneer, Chrysler, Commodore, Corsair, Elgin, Evinrude Fisher-Pierce, Gale, Firestone, Hiawatha, Homelite, Johnson, McCulloch, Mercury, Scott, Sea Bee, Sea King, Sears, West Bend, Wizard. Over 230 pages.
16—6873W— Each $12.95

Pre-1969 Outboard Service Manual, Volume I. For motors smaller than 30 HP. Covers all makes listed above (except Fisher-Pierce and Homelite) plus Apache, Atlas Royal, Brooklure, Chief, Clinton, Commando, Esko, Guppy, Husky, Mid-Jet, Mono, Neptune, Oliver, Outboard Jet, Seagull, Sovereign, Sprite, Startling Jet, Tecumseh. Over 250 pages.
16—6872Y— Each $12.95

MECHANICS' HANDBOOKS

Auto Body Repair. Defines steel and automobile sheet metal components, collision damage, shrinking metal, welding, filling, basic straightening procedures, tools. Body shop management section. Over 185 pages, 400 illustrations.
16—6567U Each $10.99

Automatic Transmission Repair. Diagnostic and repair procedures to overhaul 74-80 American car transmissions: AMC TorqueCommand; Chrysler Torqueflite, Torqueflite A-404 Transaxle; Ford C3, C4, C4S, C6, CW, FMX, Jatco and Overdrive; General Motors 125 Transaxle, 180, Turbo Hydra-Matic 200, 250, 350, 375, 400, 425 and Powerglide. General information section on operating principles, towing recommendations, basic test procedures. Over 275 pages, illustrations.
16—6550P— Each $10.99

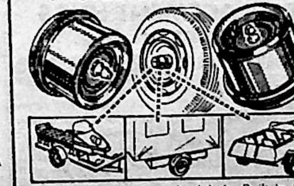

Engine Repair, Engine Rebuilding, Engine Theory. Working descriptions and repair procedures for all production engine classes. Details heavy overhaul and repair techniques, specifications for service shop work. Covers basic operation of newer class engines and functions of major components. Over 290 pages, 500 illustrations.
16—6745W— Each $10.99

Brakes, Steering & Suspension. Complete up-to-date diagnostic and service procedures for popular American and imported cars, including front wheel drive. Includes theory, trouble-shooting and specifications. Brake section covers 76-83; steering and suspension sections cover 75-82. Over 350 pages. Illustrated.
16—6781A— Each $10.99

Diagnosis and Repair for GM Cars. Step-by-step instructions for locating problems in major operating systems of 70-83 Buick, Cadillac, Chevrolet, Oldsmobile and Pontiac cars and light trucks. Covers air conditioning, body, brakes, bumpers, driveshaft, electrical, engine, heating, steering, suspension, rear axle, tires, transmissions, wheels. Over 450 pages. Illustrated.
16—6782R— Each $12.99

Emission Controls, Tune-ups, Vacuum Diagrams. Describes latest diagnostic procedures for emission control systems on 79-80 American and imported cars. Includes on-car tests, component locations and tests, troubleshooting section plus vacuum system schematics. With distributor and carburetor tune-up specifications for 79-80 American cars. Over 525 pages. Illustrated.
16—6820X— Each $10.99

Metal WHEEL BEARING PROTECTORS for Trailers

Replaces dust cap in wheel hub. Built-in fitting lets you grease hub bearings from outside. Pressure relief system keeps hubs full of grease under pressure at all times. Makes wheels safe to submerge in water. Waterproof neoprene O-ring. Easy to install on all trailers—instructions included. Measure diameter of existing dust cap for size.

Size	Replaces	Stk. No.	1-Pair
1-3/4"	1.781" dust cap	85—3382X	$7.99
2"	1.980" dust cap	85—2169R	7.99
2-1/4"	2.328" dust cap	85—3383N	7.99

Heavy-duty LEAF SPRINGS for Light and Medium-duty Trailers

- **Replace broken springs perfectly ... or can be used to increase trailer load capacity**
- **1500 to 4500-lb. capacity (per pair)**

Top-quality 3/8" x 1-3/4" spring steel leaves with 4-1/4" free arch. 26" eye center to eye center. With 9/16" I.D. bushings.

Capacity	Leaves	Stk. No.	1-Pair
1500 lbs.	2	18—9159N	$27.95
2250 lbs.	3	18—9160T	31.95
3000 lbs.	4	18—9161A	38.95
3750 lbs.	5	18—9162R	43.95
4500 lbs.	6	18—9163X	52.95

TILT-BED TRAILER PLANS

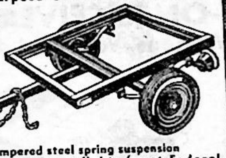

Build it yourself!

Tested, professional-design plans let you build a lightweight tandem or single-axle tilt-bed trailer easily. Include drawings, specifications, photos, material list, assembly instructions.

Tandem axle. 10,000-lb. capacity. Hauls any car with up to 160" wheel base. Overall size: 233" long x 95" wide. Runner width: 22".
16—5208W— 1-Set $8.95

Single axle. 4,000-lb. capacity. Hauls any car with up to 112" wheel base. Overall size: 158" long x 96" wide. Runner width: 18".
16—5759Y— 1-Set $7.98

General-purpose UTILITY TRAILER CHASSIS

Ready to assemble... hardware & instructions included

- **Dual leaf tempered steel spring suspension**
- **Stop/turn/clearance lights (meet Federal Standard 108), trunk-to-trailer wiring**
- **Two 4-ply rated 4.80/4.00 x 8 tubeless tires**
- **Two 5-bolt demountable steel wheels on automotive tapered roller bearings**
- **Class I coupler for 1-7/8" ball (ball not included—see Index)**
- **Class I zinc-plated dual-point safety chains**
- **Electrostatic baked black enamel finish**

Add wooden or steel floor (not included) to suit your hauling needs. Strong 12 and 14-gauge steel "C" channel construction. Capacity: 1,180 lbs. gross wt. Net payload: approx. 1,080 lbs. Bed size: 38" wide x 44" long. Carrying surface: 11.69 sq. ft. Overall length: 75". Shpg. wt. 105 lbs. Shpd. from factory. No C.O.D. orders. **Not Mailable—See How to Order Page (Truck Shipments).**
96—6973XFE— 1-Kit $199.95

Fender-mount MIRRORS for Trailer-towing Vehicles

Head and arms adjust

- **Chromed tension spring stabilizes mirror, absorbs shocks to provide safest, steadiest rear viewing even over the roughest roads**
- **Mirror extends approx. 13" from hood mounting location**

Black metal head with 4-1/2" x 7-1/2" mirror glass. Rubber seal around mirror. Black metal support arms. Adjusting knobs molded of rust-resistant black plastic. Rubberized metal feet won't mar finish.
12—4171A— 1-Pair $29.95

TRAILER BEARING KITS

Kit contains new bearings and bearing races, grease seal, dust cover, and easy-to-follow instructions. For all trailers—camping, boat, snowmobile, etc. Order 1 kit per wheel—for correct kit, measure diameter of spindle.

Straight Spindle	Stk. No.	1-Kit
3/4" diam.	85—7270P	$14.99
1" diam.	85—4109T	14.99
1-1/16" diam.	85—7269B	14.99
1-1/4" diam.	85—4110A	14.99

Baby Moon Style WHEEL COVERS for Boat Trailers

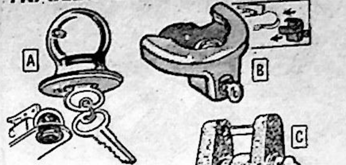

- **For Ford 15" wheels only**

Double nickel chrome plated for lasting beauty. Available for flush axle and protruding axle applications. Approx. 10-5/8" diameter.

[A] For flush axles. 2" high cone.
18—3458X— Each $8.95

[B] For protruding axles. 1-3/4" high cone.
18—3459N— Each $8.95

TRAILER COUPLER LOCKS

[A] Maximum-security Lock for your trailer when it's not in use. Slips into ball socket of coupler so hitch can't be connected. Rust-proof solid steel. 2 keys. Easy to install on all couplers.
15—6383X—For 1-7/8" couplers ... Each $19.95
15—6384N—For 2" couplers ... Each 19.95
14—1371Y—For 2-5/16" couplers ... Each 22.95

[B] Lock with solid steel housing. Covers ball socket so hitch can't be connected. Pin-tumbler locking mechanism with 2 keys. Rust-resistant baked bronze epoxy finish.
17—9984X—For 1-7/8" couplers
17—9985U—For 2" couplers ... Each $21.95

[C] Pick-resistant Hitch Lock. Solid heat-treated cast construction won't corrode, rust, clog or freeze up.
12—1650X— Each $5.99

Case-hardened Steel Lock. Similar to above except of case-hardened steel for greater protection.
17—9986B— Each $8.69

TIRE & WHEEL ASSEMBLY for Boat & Camping Trailers

Small diameter trailer tires are tough to change when you have a flat. Plus, the wheel itself is often damaged. Complete assembly allows quick, convenient changes ... avoids service calls. White-painted 13-gauge steel wheels have coined nut seats per SAE standards. Tubeless tires load range rated "B". Tires and wheels meet D.O.T. requirements for highway use.

Size	Lugs	Stk. No.	Each
4.80 x 8"	4	62—1499Y	$29.95
4.80 x 8"	5	62—1500T	29.95
5.70 x 8"	4	62—1501A	41.95
5.70 x 8"	5	62—1502R	41.95
4.80 x 12"	4	62—1503X	49.95
4.80 x 12"	5	62—1504N	49.95
5.30 x 12"	5	62—1505B	51.95
20.5 x 8.0-10"	4	62—1506P	64.95
20.5 x 8.0-10"	5	62—1507Y	64.95

Solid State Electronic BRAKE CONTROLS

for Automatic, Smooth Synchronized Stopping of Trailer with Tow Vehicle

- **For all single, double and triple axle trailers with electric brakes**
- **Help reduce danger of jackknifing, swaying**
- **Provide precise adjustment of braking over a wide range of light to heavy loads**
- **Emergency manual control immediately applies trailer brakes, regardless of car braking conditions**

Install easily—require no hydraulic connectors, pedal attachments, levels or handles. Pilot light indicates that brakes are working correctly. Meet all highway safety requirements for camping, horse, boat and other commercial or fifth wheel trailers. For all 12-volt neg. ground systems. Instructions included.

For trailers with 1 or 2 axles, gross weights up to 9000 lbs. 6-1/2" x 5" x 1-3/4" high.
12—2093R— Each $46.95

For trailers with 2 or 3 axles, gross weights up to 18,000 lbs. 6-1/2" x 5" x 1-3/4" high.
17—8951X— Each $52.95

Electronic Brake and Sway Control. Automatic proportional braking incorporates features of above plus sway control. Sway sensor with built-in leveling bubble mounts in tow vehicle trunk and prevents false signals. Installs in tow vehicle with wire hook-up. No special wiring needed. Won't interfere with sway bars. Control unit mounts under dash. **For all 1 & 2 axle trailers up to 8,000 lbs, with 12-volt negative ground electric brakes and 7" to 10" drum size.**
15—9963T— Each $94.50

TUBELESS TIRES for Boat and Camping Trailers

Enjoy carefree, trouble-free and safe driving with these high-quality tires. Designed for good cornering and flotation. Long-wearing, ozone-protected wraparound treads for maximum mileage. Nylon cord body.

"B" Rated Load Range Tires. 2-ply construction, 4-ply rating.

Size	Stk. No.	Each
4.80-8"	62—1301W	$21.98
5.70-8"	62—1302U	29.98
16.5 x 6.5-8"	62—1303B	25.98
18.5 x 8.5-8"	62—1304P	36.98
20.5 x 8.0-10"	62—1305X	44.98
4.80-12"	62—1306N	29.98
5.30-12"	62—1307T	31.98

"C" Rated Load Range Tires. 4-ply construction, 6-ply rating.

Size	Stk. No.	Each
4.80-8"	62—1469A	$26.98
5.70-8"	62—1470R	33.98
16.5 x 6.5-8"	62—1471X	31.98
18.5 x 8.5-8"	62—1472N	42.98
20.5 x 8.0-10"	62—1473T	49.98
4.80-12"	62—1474A	37.98
5.30-12"	62—1475Y	39.98

TRAILER COUPLERS

[A] **Coupler for gross loads up to 5000 lbs.** Adjusts to fit 2" to 2-1/8" trailer balls (not included). Easy coupling action, no tools required. Safety latch prevents accidental uncoupling. Weatherproofed steel. Fits up to 2-3/16" O.D. tongue.
15—0548A— Each $24.99

[B] **Couplers for gross loads up to 3500 lbs.** Like [A] except with trigger lock. Uses 2" ball (not included).
17—9236B—Fits 2-1/2" O.D. tongue Ea. $9.99
12—2835T—Fits 3" O.D. tongue Ea. 9.99

Couplers for gross loads up to 2000 lbs. Like [B] except with trigger lock. Uses 1-7/8" ball (not included).
12—2833Y—Fits 2" O.D. tongue Each $7.99
17—9237P—Fits 2-1/2" O.D. tongue Each 7.99
12—2834W—Fits 3" O.D. tongue Each 7.99

"A" Frame Coupler (not shown). Similar to [B] except for "A" frame tongue (50° dual trailer tongue). Positive trigger action, adjustable locking nut. Uses 1-7/8" ball (not included).
14—8031A— Each $8.49

[C] **Class II Double Safety Chains.** For gross tow loads up to 3500 lbs. with positive connectors. Attaches easily, quickly. Zinc plated.
17—7238Y— 1-Pair $11.98

Class I Chains. Same as above except for gross tow loads up to 2000 lbs.
12—2837P— 1-Pair $9.98

Adjustable-width TRAILER AXLE KIT

Build your own trailer!

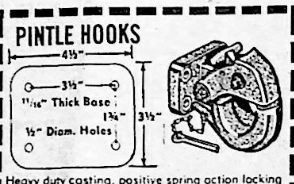

- Adjusts from 55-3/4" to 85-3/4" tread width in 3" increments
- Big 1500-lb. capacity axle
- Choice of 4 or 5-lug hubs

Narrowest position allows use of standard 4-ft. wide deck. Pre-welded and aligned 1" diam. spindles assure proper wheel alignment. Suitable for 4.80 x 8" (590-lb. capacity); 5.70 x 8" (715-lb. capacity); 4.80 x 12" (780-lb. capacity). See Index for tires and wheels. Kit includes axle, two greased and mounted high-speed hubs, two 750-lb. capacity springs and mounting hardware.

Kit with 5-bolt hubs, 4-1/2" bolt circle.
81—9264N— 1-Kit $139.95

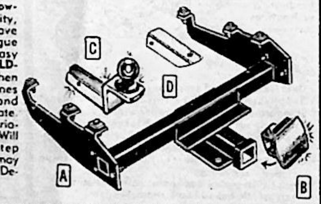

Kit with 4-bolt hubs, 4" bolt circle.
81—9265B— 1-Kit $139.95

PINTLE HOOKS

Heavy duty casting, positive spring action locking lever. 3 ton capacity.
14—6977X— Each $29.50

Custom-fit BOLT-ON RECEIVERS
for Cars, Trucks, Station Wagons, Vans and 4x4s

[A] **Custom-fit Receivers for Class II trailer towing.** All have 10,000-lb. gross load capacity, 1,000-lb. tongue weight. Vehicles with ♦ have 6,000-lb. gross load capacity, 600-lb. tongue weight. Meet or exceed S.A.E. standards. Easy bolt-on installation to vehicle frame—NO WELDING NECESSARY! Remove and store easily when not in use. Heavy steel construction combines tubing and channel parts to allow for frame variations. Structural parts concealed under car. Will work on vehicles with factory bumper, step bumper or no bumper. Vehicles with ■ may require oversize spare tire to be removed. ●Denotes ball mount with 16" shank required. RWD=Rear wheel drive.

Reversible & Straight TRAILER BALL MOUNTS

- Raise or lower hitch ball to proper level
- Fit all 2" square Class III and IV receivers and box hitches
- Available with 5000-lb. gross load (350-lb. tongue weight) or 3500-lb. gross load (300-lb. tongue weight)
- Choice of black, aluminum or chrome finish

[A] **Reversible Deep Drop Ball Mounts.** Use to drop trailer ball level when vehicle is too high (due to oversized tires or body lift kits) for proper towing ... reverse the mount to lift trailer ball level when trailer level is higher than vehicle level. 2" square tubing. Fit 3/4" or 1" ball shanks (ball not included—see Index). Choice of 3 finishes.

Mount with silver aluminum finish. 5000-lb. gross load and 350-lb. tongue weight capacities.

Tube Length	Max. Lift	Max. Drop	Stk. No.	Each
6"	2-3/8"	3-3/4"	14—5087W	$16.95

Chrome	8"	15—5348A	14.95

Box End Class III HITCHES for Vans, Pickups and 4WDs

- Compensates for oversize tires & springs that lift vehicle frame too high off ground
- Universal frame-bridging design
- Unique 2" square tubular tongue accommodates a variety of ball mounts for easy adjustment of ball height

Ball mounts that lower the ball height to level trailer require this box end hitch. A must for any vehicle that will tow different size trailers (boat trailers, large camper trailers, etc.). 5,000-lb. gross load capacity. Mounts easily, securely to frame; hardware included. **Note: will fit vehicles with factory rear bumpers, step bumpers, or no bumpers.** Shpd. from factory. No C.O.D. orders. **When Ordering, State Make, Year, Model of Vehicle, 2WD or 4WD, Long Bed or Short Bed & Stk. No. NOTE:** Hitches will be repaired or replaced only—cannot be returned for credit or refund.

[A] **Hitch for all full-size vans.**
78—3564RF— Each $94.95

Hitch for all 2 & 4WD full-size pickups, Blazer, Bronco & Ramcharger.
78—3565WF— Each $98.95

[B] **Hitch for Chevrolet S-10 Blazer and GMC S-15 Jimmy (2WD & 4WD).**
78—4090UF— Each $109.95

Hitch for Ford Bronco II (2WD & 4WD).
78—4091BF—
Each $109.95

REPLACEMENT HUBS & SPINDLES for Small Trailers

- 1,000-lb. carrying capacity

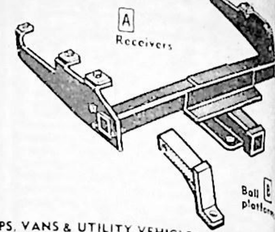

Replacement hubs with A-frame construction provide greater strength-to-weight ratio than stock hubs. 1" hub bore, 5-5/8" diam. hub flange. Nuts and replaceable bolts are standard automotive size. Kit includes one hub with pressed-in stud and bearing cup, 2 oiled bearing cones, grease seal, dust cap and lug nuts. Note: Hub must be packed with grease (see Index) before installation.

4-lug Hub with 4" bolt circle.
38—0778X— 1-Kit $24.95

5-lug Hub with 4.5" bolt circle.
38—0779N— 1-Kit $24.95

Spindles for above and all other hubs with 1" bore. Made from C-1045 steel. Complete with nut, washer and cotter pin. Welding required.
38—0903A— 1-Kit $9.99

Class II BOX END RECEIVERS
for Cars, Mini Vans, Full-size & Mini Pickups

[A] **Class II Box End Receivers.** A must when towing 4000-lb. gross load (350-lb. tongue weight) capacities or when towing different size trailers requiring different trailer ball levels. 1-5/8" square box end accepts ball mount platform [B] only. Lowers trailer ball 2", 4" or 6" below receiver level ... compensates for a pickup frame that has been raised above normal levels by oversized tires, springs or lift kits. Torsional, frame-bridging design distributes load evenly for easier, safer towing. Easy bolt-on installation. Will work with both factory bumpers or step bumpers. **Note:** Receivers will be repaired or replaced only—cannot be returned for credit or refund.

When Ordering, State Make, Year, Model, 2 or 4-door, Type of Vehicle (Car, Station Wagon, etc.) and Stk. No. Note: The stk. no. you ordered may carry a different identification number on your pkg. Trailer hitches will be repaired or replaced only—cannot be returned for credit or refund.
55—3246P— Each $42.95

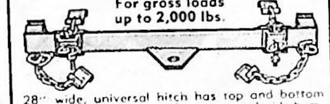

TRAILER HITCH for Vehicles with Flat-face Bumpers

3/8" thick steel plate. Class I rating—for gross loads to 2000 lbs. With bolts for easy installation using existing pintle-hook mounting holes. Accommodates any size hitch ball—not included, see Index. Fits Jeep® CJ series, Toyota Landcruiser, motor homes & other vehicles with flat-faced bumpers.
15—4873R— Each $16.95

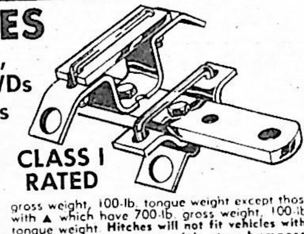

ADJUSTS TO ALL BUMPERS! CHAIN TYPE HITCH

For gross loads up to 2,000 lbs.

28" wide, universal hitch has top and bottom chain slot adjustment to fit narrow and wide bumpers. Heavy-duty steel. Padded face plates prevent scratching. Wide hook adapters eliminate hitching problems. Adjusts for proper trailer level. Easy to install—2 bolts to tighten.
19—7920A— Each $74.95

TRAILER HITCHES
for 72-85 American Cars, Wagons, Pickups, Vans, 4WDs and 73-85 Imported Cars

CLASS I RATED

- Ideal for towing most boats, utility trailers, small and medium camping trailers
- Easy to install—requires only a power drill, bit and wrench ... no access holes to drill

Durable zinc plating, chrome-plated 1/2" thick x 2" wide drawbars. Designed to eliminate unsightly exposed brackets. Won't interfere with operation of energy-absorbing bumper mechanism. Complete with safety chain brackets and instructions for custom-fit installation (ball not included—see Index). Class I hitches for American vehicles have 2000-lb. gross weight and 200-lb. tongue weight, except those with ♦ which have 1000-lb. gross weight, 100-lb. tongue weight. Class I hitches for imported cars have 1000-lb. gross weight, 100-lb. tongue weight except those with ▲ which have 700-lb. gross weight, 100-lb. tongue weight. **Hitches will not fit vehicles without rear bumpers or with step bumpers.** ■= Hitches will fit vehicles with standard factory bumpers ONLY. **NOTE:** Trailer hitches will be repaired or replaced only—cannot be returned for credit or refund. S.W.=Station Wagon, RWD=Rear wheel drive; FWD=Front wheel drive.

55—2879R— Each $19.95

Class II Step Bumper BOX HITCH and Deep Drop BALL MOUNTS

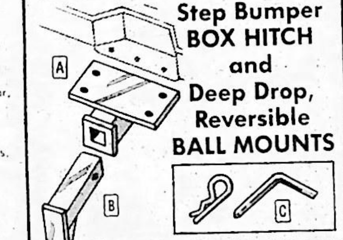

[A] **Step Bumper Box Hitch.** Allows use of deep drop ball mounts **with 1-5/8" square shaft** on vehicles with modified suspension systems—where body and frame have been raised for off-road ground clearance. Hitch lowers ball mount to normal height for trailering. Replaces Class II receiver at a fraction of the cost. Mounts easily on vehicles where, because of obstruction, a receiver can't. Bolts to existing holes in step bumper—no welding required. Accepts only drop ball mounts below. All hardware included. **Note:** load capacity is determined by rating of step bumper.
18—7808R— Each $24.95

[B] **Deep Drop Ball Mount.** Mounts in above box hitch or any Class II receiver. 1-5/8" square tubing. Mount to drop the trailer ball level when vehicle is too high for proper towing. 8" shank.
18—7017X—2" drop Each $10.95
18—7016R—4" drop Each 14.95
18—7018N—6" drop Each 23.95

[C] **Hitch Pin and Clip.** Secures ball mount to box hitch or any Class II or III receiver.
14—1692X— Each $3.49

Step Bumper BOX HITCH and Deep Drop, Reversible BALL MOUNTS

[A] **Step Bumper Box Hitch.** Allows use of deep drop ball mounts on vehicles with modified suspension systems—where body and frame have been raised for off-road ground clearance. Hitch lowers ball mount to normal height for trailering. Replaces Class III receiver at a fraction of the cost. Mounts easily on vehicles where, because of obstruction, a receiver can't. Bolts to existing holes in step bumper—no welding required. Accepts deep drop and regular ball mounts. All hardware included. **Note:** load capacity is determined by rating of step bumper.
14—1688N— Each $32.50

[B] **Deep Drop Reversible Ball Mount.** Mounts in above box hitch or any Class III receiver. 2" square tubing. Mount either to drop the trailer ball level when vehicle is too high for proper towing, or reverse ball mount and lift trailer ball level when trailer level is higher than vehicle level. Aluminum finish. 10" shank.

Max. Lift	Max. Drop	Stk. No.	Each
4-5/8"	6"	14—1689T	$23.95
6-5/8"	8"	14—1690A	23.95
8-5/8"	10"	14—1691R	29.95

[C] **Hitch Pin and Clip.** Secures ball mount to box hitch or any Class III receiver.
14—1692X— Each $3.49

Chrome-plated or Plain TRAILER HITCH BALL ASSEMBLY

Fits standard ball and socket trailer couplings. High-grade steel for maximum strength and safety. Meets or exceeds Federal V-5 standards. Choice of die-formed or solid steel, plain or chrome-plated ball and shoulder.

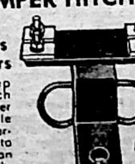

DIE FORMED STEEL BALLS.

Ball size x Bolt size	Finish	Capacity lbs.	Stk. No.	Each

Economy Class II STEP BUMPER HITCH
for Pickups, 4WDs and Vans w/Step Bumpers

Bolts onto step bumper. Lowers hitch ball 4" to level trailer when towing vehicle has high ground clearance or is too high to hook to trailer on an even plane. 3500-lb gross load capacity, 300-lb. gross tongue weight. Drawbar with safety chain rings accommodates balls with 1" or 3/4" shank. (Ball not included—see Index.)
15—9876X— Each $18.95

SATISFACTION GUARANTEED or MONEY BACK

WIRING KITS for Pickups, Campers and Trailers

[A] **Trailer Light Connector & Mounting Kit.** 4-pole connector for ground, taillight, stop light and license light. 5-pole connector adds electric brakes to comply with new laws, plus additional auxiliary lighting. Chrome-plated tension-type contacts, plastic-coated color-coded wire. Self-insulating splice connectors eliminate wire cutting and stripping. Bracket bolts to hitch on car frame; no holes to cut.
75—1096X—4-pole connector kit 1-Kit $5.99
75—2590Y—5-pole connector kit 1-Kit 6.29
75—3042R—6-pole connector kit 1-Kit 6.69

[B] **4-Pole Flat Connector Kit.** Complete 4-way wiring kit with 5 ft. of wiring and hardware. Male connector (trailer side) has 12" wire leads. Female connector (towing vehicle side) has 48" wire leads. Include 3-non-stripping splice connectors for all connections.
13—1531Y— 1-Kit $2.99

6-Pole Square Molded Kit. Same as above except connector is 6-way.
14—1981U— 1-Kit $3.99

4-Pole Square Kit. Same as above except connectors are square instead of flat.
15—9839N— 1-Kit $2.99

[C] **Trailer and Trunk Harness Wiring Kit.** 4-pole flat connectors connects trailer lights to car. Operates trailer stop lights, taillights and turn signals. Quick-connect/disconnect terminals and snap-on insulators eliminate cutting, stripping and splicing of wire. Includes connectors, neoprene thermo plastic cable, 20 ft. of trailer wire, 4 ft. of trunk wire and instructions.
75—2254A— 1-Kit $6.69

[D] **Polarized Connector Sets.** Chrome-plated die-cast housing. Split brass contacts molded in high-impact cycolac insulators. Mounting holes 1-3/4" on centers.
12—2186A—4-Pole 1-Set $3.99
15—9841A—5-Pole 1-Set 4.99
15—9842R—6-Pole 1-Set 5.99

[E] **Flat Connector Set.** 8" long wires on male and female sides.
12—2190T—2-pole 1-Set $1.29
12—2191A—3-pole 1-Set 1.49
12—2192R—4-pole 1-Set 1.59

[F] **Splice Connector Kit.** Contains non-stripping splice connectors for use on cars, trucks, boats and trailers.
14—1978P— 1-Kit of 5 $ .79
14—1979Y— 1-Kit of 10 1.39
14—1980W— 1-Kit of 25 3.19

[G] **6-Pole Square Connector.** 8" long wires on male and female sides.
12—2193X— 1-Set $1.99

4-Pole Square Connector. 12" long wires on male & female sides.
15—9840T— 1-Set $1.69

[H] **7-Pole Connector Kit.** For all taillights, brake lights, back-up lights, license light, electric brakes and auxiliary battery in trailer. Cadmium-plated steel for maximum weather resistance. Stainless steel cover spring. Large welded pistol grip. Safety latch prevents accidental pullaway damage. Vinyl inserts keep out dirt, moisture. Color coded terminals. Incl. plug, socket, bracket.
15—7980R— 1-Kit $7.99

TRAILER WIRING CABLE

Simplifies installation, replacement of trailer wiring. Multi-strand 16-gauge wire core with color-coded insulation and black vinyl jacket to resist oil, grease, gas, acids.

4-conductor Cable. Red, brown, yellow, green.
74—8069Y—50-ft. spool Each $21.95
74—8068P—100-ft. spool Each 39.95

6-conductor Cable. Red, brown, yellow, green, black, blue.
74—8071U—50-ft. spool Each $32.95
74—8070W—100-ft. spool Each 59.95

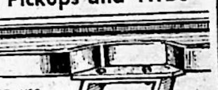

Adjustable • Bumper-mount TOW BAR

- Bolts directly to bumper of towed vehicle—no base plate required
- 5,000-lb. towing capacity
- Arms adjust up to 42" wide

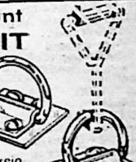

Perfect for towing vehicles with flat bumpers (such as Jeeps), equally good for use with any other type of bumper. Bolts to towed vehicle either by using existing bumper holes or drilling 2 holes in bumper. U-joints at end of both arms assure smooth towing, even over rough roads. Heavy-duty coupler fits 2" balls (see Index for balls). Quick-disconnect brackets allow easy installation. Zinc-plated steel. With hardware.
18—8936X— Each $99.95

DROP STEP HITCH for All Pickups and 4WDs with Step Bumper

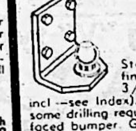

Use as low step, use as Class II trailer hitch! Step-hitch lowers hitch plate 5 inches to level your trailer; extends out from bumper approx. 3 in. for handy step. Heavy 1/2" plate steel with aluminum finish; 5-1/2" high x 14" wide x 3-1/2" deep. Easy to install—includes 3/4" bolts for easy removal or may be welded for permanent installation. Ball not included—see index.
14—1246B— Each $36.95

Permanent-mount ANCHOR KIT for Pickups, Trailers and Vans

Secure your loads for added safety. Position wherever you like and bolt down. Holds up to 800 lbs. Steel plates for reinforcement. Designed to lie flat and out of the way when not in use. Some drilling required. Contains one pair reinforcing steel back plates, 8 nuts and bolts with washers and instructions. (Straps not included)
15—8844W— 1-Pair $4.98

FLAT BUMPER TRAILER HITCH for Pickups and Vans

Steel with silver color enamel finish. Takes standard ball with 3/4" or 5/8" bolt (ball not incl.—see Index). Mounting hardware included; some drilling required. Fits any vehicle with flat-faced bumper. Gross load to 3500 lbs. tongue load to 300 lbs. **NOTE: Do not exceed bumper rating.**
19—7919T— Each $7.99

Class I Hitch. Similar to above except gross load to 2000 lbs., tongue load to 200 lbs. Installs with 2 bolts. Uses trailer balls with 3/4" or 5/8" bolt.
12—2900N—
Each $5.99

Utility TRAILER HITCHES

[A] **Fully-adjustable Hitch** securely fits any front or rear bumper (even wide or oddly shaped bumpers) except those with flat tops. Ideal for older model cars. When mounted on front bumper, it's perfect for pushing boat trailers into the water. Sturdy heavy-gauge steel construction with tough baked enamel finish. For tongue and ball-type trailers. Fits 5/8" ball shank; ball not included—see Index.
14—1453U— Each $9.95

[B] **Dual Clamp Hitch.** Same features as [A] except dual clamp-on design more evenly distributes weight across width of bumper. Designed for cars with license plate in center of bumper. Fits 3/4" ball shank; ball not incl.—see Index.
15—9492T— Each $13.95

TRAILER HITCH BALL COVERS

- Protect hitch balls ... give hitch a neat look
- Ball (not included) can be greased without damage to cover

[A] **Chromed Brass Cover.** Foam rubber gasket for secure fit. Fits 1-7/8" and 2" balls.
14—7712X— Each $4.99

[B] **Flexible Black Vinyl Cover with Light Connector Pocket.** Pocket fits all standard light connectors ... eliminates unsightly dangling wires ... keeps connector clean to assure conductivity to trailer lights. Fits 1-7/8" and 2" balls.
14—4989U— Each $1.29

[C] **Pliable Neoprene Rubber Cover.**
15—8339X—Fits 2-5/16" balls Each $1.19
10—2148T—Fits 1-7/8" & 2" balls .89

Virtually indestructible! STAINLESS STEEL TRAILER BALLS

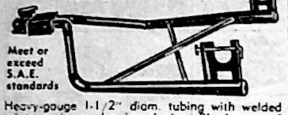

The strongest and safest! Made from incredibly tough aircraft-grade stainless steel. Rust and corrosion resistant, remain shiny even after long, hard wear. Exceed V-5 and SAE requirements. For American and imported cars.

1-7/8" Ball with 3/4" bolt.
15—5937A— Each $18.99

2" Ball with 3/4" bolt.
15—5938R— Each $19.99

2" Ball with 1" bolt.
12—2868U— Each $22.99

Custom-fit TOW BARS
for Towing American & Imported Cars and Mini Trucks

Heavy-gauge 1-1/2" diam. tubing with welded joints and case-hardened pins. Black enamel finish. Bar for Beetle clips to front torsion tube and goes on/off without tools. All other tow bars have custom-fit mounting plate for front undercarriage of vehicle being towed ... tow bar easily clips on/off. NOTE: Tow bars will be repaired or replaced; cannot be returned for refund or credit. Shpg. wt. 30 lbs. Shipped UPS. Nos. ending in "E" Not Mailable—See How to Order Page (Truck Shipments).

Class II coupler rated at 3,500 lbs. Uses 2" ball (not included—see Index). Custom fit for following vehicles with standard transmissions.

Class II TOW BAR
Swing up when not in use

For gross loads up to 3500 lbs. Heavy-duty steel tubing. Bolts to front end of Jeep®, Blazer, Bronco, Jimmy, International Scout, Toyota, Landcruiser and pickups or any other flat or semi-flat bumper. Easily attached or detached. Upright bar won't interfere with winch operation. See Index for 2" ball.
19—8361X—Each $49.95

Extra-heavy-duty Tow Bar for gross loads up to 5000 lbs. Fits all vehicles listed above and any other with 4" flat surface bumper.
19—4150R—Each $119.95

NOTE: Above tow bars will be replaced or exchanged only—cannot be returned for credit or refund.

CHARGE YOUR ORDER ON YOUR VISA OR MASTERCARD

Heavy-duty TOW HOOKS

Hold up to 10,000 lbs. Mount on front or rear bumpers, frames or grille guards of JEEP® vehicles, trucks, 4WD vehicles and RVs. Make towing, dragging and winch connections a snap! Strong forged steel.
88—9369N—Black painted ... Each $3.29
88—9370T—Chrome-plated ... Each 4.79

Chrome-plated TOW HOOK CLIP

Makes tow hooks safer, easier to use. Prevents tow rope or chain from slipping off hooks when slack is lessened from tow vehicle. No bruises ... hands and fingers are kept off tow hook. Plated steel resists rust. Bolts to tow hook.
15—6810R—Each 99¢

Emergency TOW STRAPS

• Tested strengths: 6,000 and 10,000 lbs.
• Stretch to absorb shock
• Forged slip hooks on BOTH ends attach easily to car frames

Nylon straps won't rot or shrink ... resist oil and gasoline damage. Store anywhere.

[A] Straps without safety clips on hooks. 15-ft. and 25-ft. straps have latex coating to resist abrasion, reduce wear.

Length	Width	Break Strength	Stk. No.	Each
10 ft.	1-3/4"	6,000 lbs.	15—7810Y	$8.99
15 ft.	1-3/4"	10,000 lbs.	15—7811W	16.99
25 ft.	1-3/4"	10,000 lbs.	15—7812U	26.99

[B] Straps with safety clips on hooks. Clips assure hooks stay securely attached. Straps do not have latex coating.

Length	Width	Break Strength	Stk. No.	Each
10 ft.	1-3/4"	6,000 lbs.	81—1686X	$8.99
10 ft.	2"	10,000 lbs.	81—1689A	9.99
15 ft.	1-3/4"	6,000 lbs.	81—1687N	14.99
15 ft.	2"	10,000 lbs.	81—1690R	16.99
25 ft.	1-3/4"	6,000 lbs.	81—1688T	24.99
25 ft.	2"	10,000 lbs.	81—1691X	26.99

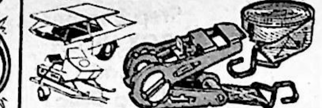

Universal TOW BAR
for All Cars, Light Trucks, Mini Trucks

• Choose Class I (2000-lb. capacity) or Class II (3500-lb. capacity)
• Meets or exceeds S.A.E. standards

Heavy-gauge 1-1/2" diam. steel tubing with welded joints and cold-rolled steel pins, black enamel finish. Cross bar creates triangular strength without depending on bumper. 3" wide x 32" long heavy-duty mounting plate attaches to front undercarriage of vehicle, below and behind bumper, by either welding or fabricating brackets required. Tow bar clips on, off mounting plate. Fits all vehicles with standard transmissions. NOTE: Tow bars will be repaired or replaced only—cannot be returned for credit or refund.
Class I Tow Bar, 2000-lb. capacity w/1-7/8" coupler. Uses 1-7/8" ball (not incl.).
18—5821U—Each $59.95
Class II Tow Bar, 3500-lb. capacity with 2" coupler. Requires 2" ball (not incl.).
18—5822B—Each $72.95

RATCHET TIE DOWNS

• The ratchet does the work—not you
• 1200 lbs. tensile strength, tightens heavy loads with ease, keeps them secured

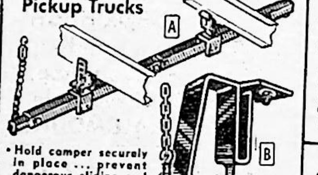

1" wide ratchet with 15 ft. of 1" wide webbing. Adjustable length from 4 ft. to 15 ft. for cars, trucks, motorcycles, boats ... some quality used by professional movers. Designed for quick and easy adjustments. Tightens, locks and releases automatically. Vinyl-coated S-hooks on each end.
81—0945Y—Each $8.99
As above without hooks.
15—9595T—Each $6.99

TIE DOWN
for Pickups

• The harder you pull, the tighter they hold!
• Fits in stake holes ... no holes to drill

Prevent cargo from shifting, sliding. Install in seconds. Insert tie down into stake hole and tighten heavy-duty 1/4" eyebolt to expand the heavy-duty polycarbonate/EPR rubber. You instantly have a strong anchor for ropes or tie down straps. Ideal for securing toppers. Looks great on truck or can be removed quickly after job is done.
15—6929X—Each $3.98

Camper TIE DOWNS
for American Pickup Trucks

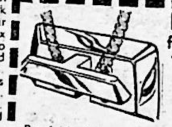

• Hold camper securely in place ... prevent dangerous sliding and swaying

[A] Clamp-on, Frame-mounted Tie Downs. Secures camper directly to pickup frame. Adjustable, may be easily disconnected. Includes one bar assembly, two 36" chain and turnbuckle assemblies and instructions. Black. Fits 81-85 Dodge pickups, 72-85 3/4 and 1-ton Chevy, GMC and Ford pickups including oversize cab and 4WD models (moving spare tire on rear end installations may be necessary).
18—7549R—1-Set $73.95

[B] Stake Pocket Tie Downs. High-quality steel—fit snugly into existing stake holes. Only one mounting hole has to be drilled on top of bed for tie down. Adjustable. Includes mounting bolts, underside pads to protect paint, black chain, eye-bolt hardware & instructions. Set of 4.

Fit following pickups	Stk. No.	1-Set
73-85 Chev., GMC & Dodge	14—7125B	$49.95
73-85 Ford incl. F-350	14—7126P	49.95

ROPE HOOK
for Pickup Trucks, Trailers, Boats, & Luggage Racks

Safety-designed hook has lift-up T-bar that holds rope securely.

Bar folds down out of the way when not in use—will not rattle, stays locked when closed. Chrome plated cast zinc alloy unit is easy to install. With instructions.
14—9519U—Each $3.98
14—9758Y—1-Set of 4 14.98
14—9759W—1-Set of 6 21.98
14—9760U—1-Set of 8 28.98

Pushbutton-release TIE-DOWN STRAPS

Each end has two 5/16" diam. plated steel hooks (with 900-lb. tensile strength) to get a secure grip on cargo. Won't loosen. Hooks on one end are plastic coated to prevent scratches. Weatherproof 1" wide webbing is cross stitched with heavy-duty nylon thread. 4000-lb. tensile strength per strap. Vinyl-coated cam-release buckle for easy release. 6 ft. long.
14—5236R—1-Pair $11.99

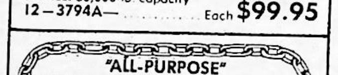

STRETCH-n-SNATCH STRAP

• Works like a big rubber band ... stretches out and then snatches stuck vehicle out of mud, snow, sand
• Extra-tough 30-ft. nylon strap
• Safer, stronger and more efficient than chain ... weighs less and easier to handle, too
• Allows a light vehicle to snatch a heavier vehicle out of the mud—without damage to either
• Choice of 20,000 to 60,000-lb. capacities

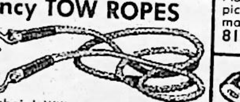

Operates on the principle that a lighter object (your vehicle) can move a much heavier object (a big truck or 4WD vehicle) when used with forward momentum. Easy to use! The stretch and elasticity of the strap reduce any chance of damage to the drive train of towing or towed vehicle. Rot and mildew resistant—won't absorb mud or water. Can be used on any vehicle. Won't mar, scratch or dent. 30 ft long. Stores anywhere.
2" wide. 20,000-lb. capacity
15—6782P—Each $32.95
3" wide. 27,000-lb. capacity
12—3793T—Each $46.95
Heavy-duty 4" wide. 36,000-lb. cap.
14—4602T—Each $54.95
6" wide. 60,000-lb. capacity
12—3794A—Each $99.95

"ALL-PURPOSE" UTILITY & TOW CHAIN

Strong, welded 15/64" steel links—12 ft. long, with drop-forged grab hooks on each end. Bright zinc plated finish, highly rust-resistant.
16—0207T—Each $12.95
HEAVY DUTY TOW CHAIN like above, but 5/16" steel links, 14 ft. long.
75—1580P—Each $21.95
EXTRA HEAVY DUTY TOW CHAIN like above, but 3/8" steel links, 14 ft. long.
17—9484Y—Each $31.95
ECONOMY CHAIN (not shown). Like above, but .225" twist steel links. 12 ft. long.
15—9012R—Each $9.95

Emergency TOW ROPES

16-strand hollow braided polypropylene has tested strength of 6500 lbs.—stronger than chain! Will not mildew, rot or shrink. Will float. Stores compactly. Slip-hooks on both ends attach easily to car frames. Grip protectors located near each end. Lengths shown are finished lengths.
75—3334P—10-1/2 ft. long—Each $8.99
15—9015B—14 ft. long—Each 9.99
Heavy-Duty Tow Rope.
Tested strength, 8,700 lbs. 13-1/2 ft. long.
15—9016P—Each $16.99
Tested strength, 10,000 lbs. 16 ft. long.
15—9017Y—Each $18.99
Extra-heavy-duty Tow Rope. Tested strength, 12,000 lbs. 17 ft. long.
15—9018W—Each $26.99

TOW ROPE

• Strong
• Light-weight
• 12 ft. long
• Choice of 2 strengths

TOUGH POLY-PROPYLENE

Rope won't rot, shrink or mildew. Attaches easily to car frame. Hooks have plastic tips to prevent scratching.
88—7346N—6,000-lb. test—Each $4.95
88—7347T—10,000-lb. test—Each 5.95

Emergency TOW ROPES

• Stronger pound for pound than chains ... designed for rugged off-roadtowing
• 42-strand twisted polypropylene rope with 2 no-rust steel hooks—won't rot, shrink or mildew
• Lightweight—floats in water

Ends are heat sealed, hand tied with full marine splice to keep hooks secure. Stores compactly.
♦ With slip hooks; others, hot hooks.

1-1/4"	17 ft.	17,500 lbs.	♦ 14—7722W	48.99

Folding "V" type TOW BARS

All tow bars meet and exceed ICC strength requirements up to 5000 lbs.

[A] 3-point Hookup Tow Bar. Adjustable reinforced 2" Malleable 1-pc. coupler with positive, safe-locking device ... can be padlocked. Yoke design for wider spread fits in or outside of grille guards. Adjustable chain jaws fit all bumpers exc. Chevette. Movable upper bumper clamp permits fast installation. Dual-grooved lower bumper clamp for ball hookup. Fits all 2" balls. Weighs only 34 lbs. See NOTE at right.
19—2221R—Each $139.95

[B] Coupler Adapter for tow bar [A]. Use on 1-7/8", 2" and 2-1/8" balls.
19—4163A—Each $54.95

[C] & [D] Heavy-duty 4-point Hookup Tow Bars. Same as [A] but heavier construction with 4-point hookup—designed for safer continuous towing. Towing vehicle does not require a trailer hitch and ball. With draw beam headers (attach on two points on any size or shape bumper). Clamp for fixed bumper. Hook on. See NOTE at right.
[C] Tow Bar with 13" Beam.
19—4039T—Each $199.95
[D] Bar with 36" Beam. Not Mailable—See How to Order Page (Truck Shipments). Shpg. wt. 72 lbs.
19—4040AE—Each $214.95

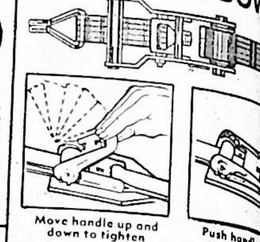

[E] Coupler Adapter for tow bars [C] and [D] only. Use on 1-7/8", 2" or 2-1/8" ball for 3-point hookup instead of 4-point.
19—4162T—Each $54.95

[F] Frame-mount Tow Bar. Bolt-to-frame hookup, non-functional or weld-to-frame hard-to-reach, link chains wrap and lock around frame (or force—without bumper damage. Equally effective on conventional bumpers. Rubber-faced pads serve as bumper braces when you slow or stop your vehicle. Bumper braces that don't have rubber and 2-1/8" balls. Easy to install in minutes. With channel arms. See NOTE at right. Shipped from factory. No C.O.D. orders.
97—2265AF—Each $218.95

4-point Frame-mount Tow Bar (not shown). Same as [E] except has 36" beam for 4-point mounting on towing vehicles that don't have trailer hitch ball. See NOTE below. Shipped from factory. No C.O.D. orders. Shpg. wt. 88 lbs. Not Mailable—See How to Order Page (Truck Shipments).
96—3112NFE—Each $259.95

IMPORTANT NOTE: Tow bars will be repaired or replaced only—cannot be returned for credit or refund.
All tow bars above listed cannot be used to tow cars with polyurethane bumpers.

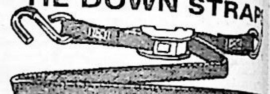

Heavy-duty RATCHET TIE DOWN

• Ratchet and super-strong polyester webbing tighten and secure loads with up to 8 ... does the work, not you!
• Locks and releases instantly
• Choice of 4,000 or 8,000-lb. test strength

Secure cars, cycles, boats firmly to ... prevent heavier loads from shifting. Adjust to desired length. Heavy-duty double "J" hooks on each end.
8,000-lb. test strength. 2" wide ratchet, 2" x 30 ft. long webbing.
81—0947U—Each $29...
4,000-lb. test strength. 1-1/2" wide ratchet, 1-1/2" wide x 15 ft. long webbing.

Submersible Boat Trailer LIGHT KIT

• Prevents broken taillamp bulbs when launching boat from trailer
• Increases trailer visibility for safety

4" diam., 12-volt stop/tail/turn signal lamps are made of sealed high-impact plastic to help prevent corrosion damage. Left lamp has clear window to illuminate license plate. Kit includes 2 lamps (each with 2 mounting studs), bulbs, 33-ft wiring harness with connector, license plate holder, hardware and instructions.
14—5645A—1-Kit $18.98

TAILLIGHT CONVERTER KIT
for Trailer-towing Cars

Converts late model American car and imported car 3-bulb taillights to properly operate standard 2-bulb trailer taillights. Eliminates the necessity of rewiring trailer.

Solid-state electronic converter redirects current to provide trailer with all 3 taillight functions, parking stop-turn signals, without adding extra lights to trailer. Assures safe, legal towing. Easy to install, mounts in trunk with 5 color-coded wire leads.
15—6042R—1-Kit $8.95
Kit for wiring a motorhome or other towing vehicle with the conventional 3-bulb system to a towed car or truck with 3-bulb system.
15—832'N—1-Kit $9.95

TAILLIGHT CONVERTER with WIRING HARNESS
for Trailer-towing Cars with 3-bulb Amber Turn Signals

• For safe, legal towing
• Provides trailer with all 3 taillight functions—stop, parking and turn signal

Solid-state trunk-mount unit converts late-model American and imported car 3-bulb taillights to properly operate standard 2-bulb trailer taillights. Converter is pre-wired to 4-ft. long wiring harness with flat 4-pole plug. Splice 20" long wire leads (from converter) into towing car's lighting harness, then plug into trailer's wiring harness plug.
14—8435U—Each $11.98

Fully Submersible • 12-volt TRAILER LIGHT KIT

• Withstands repeated boat launchings

Unique air lock system keeps bulbs dry when lamps are underwater, prevents breakage from cold water shock. Lets moisture out to prevent corrosion. Kit includes two 4" x 6-1/2" stop/tail/turn signal lamps (with built-in side marker right) and grade plug. Splice 20" long wire leads with flat 4-pole plug. Splice 20" long wire leads & illuminator, 30-ft. wiring harness (for trailers up to 80" wide), 12-volt bulbs and hardware. Meets D.O.T. requirements.
14—9575W—1-Kit $29.95

Truck-to-trailer LIGHT COUPLER
for Trailer-towing Pickups

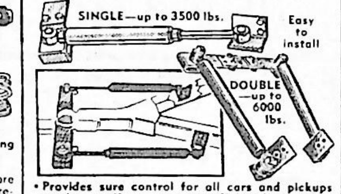

• Makes hookups between pickup's wiring system and trailer's lighting system easier than ever
• No splicing or cutting required

[A] Coupler without wiring harness. Adapter plugs into the molded connector (located behind rear bumper) that joins wiring harness on truck bed to main wire harness on frame. 3 color coded wires from adapter attach to standard light connector for trailer. Extra-long 48" wires allow light connector to mount anywhere on back of pickup.
[B] Coupler with wiring harness. Like above, but comes in 2 parts, each with 4-wire molded wiring harness with 24" wires.

Hydraulic TRAILER STABILIZERS

• Provides sure control for all cars and pickups towing trailers—prevents fishtailing, helps control jackknifing and reduces tire wear

Freon® cell inside reserve chamber compensates for fluid volume change caused by temperature variations, minimizes fluid foaming. Sealed unit never needs adjustments, stays dust free. Fits all "A" frame and straight tongue trailers with standard hitches. Won't affect ground clearance, backing or turning. Rust-resistant plating. Instructions included—no welding. Use single stabilizer for trailers up to 3500 lbs., double stabilizer for trailers up to 6000 lbs.

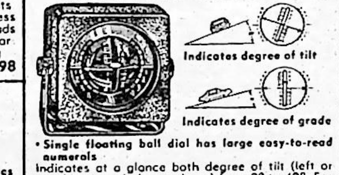

For all standard tongue-type car and pickup truck trailer hitches (except with ball recessed into bumper well).
18—7837Y—Single ... 1-Kit $59.95

Quick-lift TRAILER JACK

• No strain—just set jack, then drive vehicle forward or backward to roll jack up to lift position

Safely tested to lift 4,000 lbs. For mobile homes, camp trailers, boat, utility or farm trailers with round or square axles. Sturdy cast aluminum. For axles with 8" to 16" wheels.
75—3312W—Each $19.95

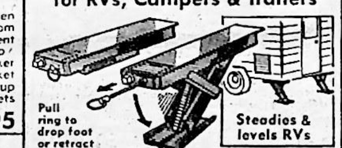

Illuminated • Aircraft-style GRADE/TILT INDICATOR

• Single floating ball dial has large easy-to-read numerals

Indicates at a glance both degree of tilt (left or right) and grade (up or down) from 0° to 40°. For all vehicles, but especially useful when towing a boat or camper trailer. Wires directly into dash lights for nighttime illumination. Compact black plastic case. 3-1/4" wide x 3-3/4" deep x 3-3/4" high.
81—0727P—Each $24.99

SPRING-LOADED STABILIZING JACKS
for RVs, Campers & Trailers

Small, strong, easy to use. Pull chain ring to lower spring-loaded foot, turn crank to steady and level vehicle. Pull ring again to retract for traveling. Low profile when retracted. Mounts permanently to vehicle. With instr., crank.
18—5175N—1-Pair $114.95

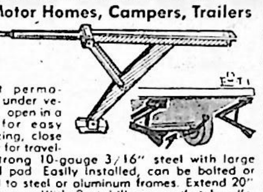

Trailer & Camper LIGHT KITS

Legal for all trailers under 80" width. For boat, snowmobile or cycle trailers, and campers. Class "A" trailer and trunk harness has color coded wiring for easy installation. Split Y trailer harness has two wires running from connector plug down each side of trailer to rear lamps. Side marker lamps easily connected. No jumper wires required. Shock-absorbing lamps have corrosion-proof bodies and rugged circuitry.
[A] Complete kit includes 7-in-1 left lamp with license window, license plate bracket, 6-in-1 right lamp, 2 amber flange-mount reflector/marker lamps, 25-ft. split trailer harness, 4-ft. trunk harness, all necessary clips and connectors and installation instructions.
82—0685R—1-Kit $19.98
[B] Complete kit includes 6-in-1 left and right wrap-around rear lamps, 2 amber flange-mount reflector/marker lamps, 16-ft. split trailer harness, 4-ft. trunk harness, all necessary clips, connectors and instructions.
82—0684B—1-Kit $19.98

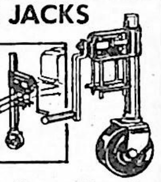

SATISFACTION GUARANTEED or MONEY BACK

STABILIZING UNITS
for Motor Homes, Campers, Trailers

Mount permanently under vehicle ... open in a snap for easy stabilizing, close quickly for traveling. Strong 10-gauge 3/16" steel with large ground pad. Easily installed, can be bolted or welded to steel or aluminum frames. Extend 20" from frame. With 2 stabilizers, socket handle, hardware.
18—7071U—1-Pair $79.95

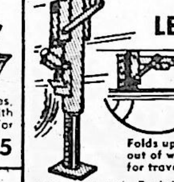

TRAILER JACKS

• Self-locking, hardened worm gears hold jack securely in selected position
• Bolt on to tongues up to 3" x 5"
• 20" to 23" total lift depending on tongue size

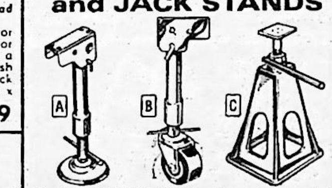

Simplify, speed-up raising or lowering your trailer. Handle placed for easy side cranking. High road clearance when wheel is drawn up to trailer frame. Black enameled steel gear housings. Zinc-plated parts and self-lubricating bearings. Easy-roll wheels.
500-lb. capacity. For Class II and III trailers up to 5000-lb. gross weight. 40:1 mechanical advantage. 6" diam. hi-impact poly wheel.
15—6632X—Each $52.88
750-lb. capacity. For Class III and larger trailers up to 7500-lb. gross wt. 45:1 mechanical advantage. 6" diam. steel wheel.
15—6633N—Each $68.98

TRAILER LEVEL SYSTEM

Jacks mount permanently under trailer, swing down fast for easy trailer leveling, swing up out of way for traveling. Quick-action lever principle lets you level entire trailer in the time it takes to crank just one screw-type jack. Each jack has 2000-lb. capacity. Can also lift trailer entirely off ground for tire changing. Trouble-free jacks require no maintenance. Bolt or weld mounting bracket to open area channel or square beam undercarriages. All steel, zinc plated for rust resistance.
4-Jack System with 2 handles.
15—0440A—1-Set of 4 $149.95
2-Jack System with 1 handle.
14—9643B—1-Set of 2 $79.95

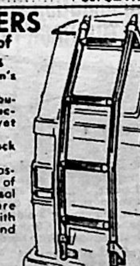

TRAILER JACKS and JACK STANDS

Trailer TONGUE JACKS. Manually operated "hide-away" jacks fold up out of the way when not in use. Provide up to 6" height adjustment. Permanent mount—must be welded.
[A] 2400-lb. Capacity Tongue Jack with Swivel Base. 3" diam. base prevents sinking into mud or soft ground.
14—5662W—11" to 17" high ... Each $13.99
14—5663U—15" to 21" high ... Each 14.99
[B] 750-lb. Capacity Tongue Jack with Wheel. Double ball-bearing, 4" diam. wheel swivels 360°. Can also be mounted to trailer corners to provide side movement for parking or storing.
75—1793R—15" to 20" high ... Each $18.99
75—1795U—19" to 24-1/2" high Ea. 19.99

TRAILER JACK STANDS
Level trailer or camper and provide a solid, stable foundation while it is parked.
[C] 20,000-lb. Capacity Jack Stands. 5,000-lb. capacity per jack, 20,000-lb. total capacity per set. Lightweight, strong rigid base of molded polystyrene with 1" diam. aluminum adjustment screw threaded full length. Adjustable from 12" to 19" high. Bases nest, adjustment screws remove for compact storage. Sold in Set of 4.
15—7517R—1-Set $24.99
16,000-lb. Capacity Jack Stands (not shown). Adjusts from 12-1/4" to 18" high. Made of rugged, heavy-duty styrene. 4-1/4" x 4-1/4" base. Complete with rust resistant, plated screws, nuts and 4 handles. Sold in Set of 4.
15—8992T—1-Set $21.99

VAN LADDERS
for Rear Door of Full-size Vans

• Provide easy-up to van's top storage area
• Heavy-duty 1" O.D. tubular aluminum construction—super-strong, yet lightweight
• Choice of silver or black anodized finish

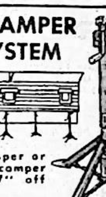

Sturdy 4-step ladders easily install on rear door of any full-size van. Universal sliding brackets assure perfect fit. Complete with mounting hardware and instructions.
Silver Anodized Finish.
18—8557P—Each $24.95
Black Anodized Finish.
18—8167R—Each $34.95

Camper & Trailer LEVELS

Large, easy-to-see tubes show level status at a glance. Help reduce tedious side jacking. Durable Cycolac® housings won't leak or crack. Unaffected by heat or cold.
[A] Large 9" Level. Mounts on front of trailer so it can be easily seen in driver's rear view mirror. Can be positioned to show side-to-side or front to rear leveling. Permanent screw-on installation (screws included). Approx. 9" x 3".
12—4123B—Each $14.95
[B] Graduated 4" Levels. Calibrated scale shows how many inches of adjustment are needed for leveling. Mounts with pressure-sensitive pad. Approx. 4" x 1-1/2".
12—4124P—1-Pair $5.95

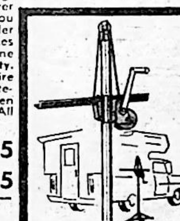

3-point CAMPER JACK SYSTEM

• 3-jack system SAE test certified 2000 lbs. capacity per jack
• Easily lift camper or truck-mounted camper body up to 57" off ground

The heart of these heavy-duty tripod jacks is a worm screw mechanism made with a machined steel rod and steel nut (not die-cast) with a certified load test in excess of 22,800 lbs. per jack. Jack body is of heavy square box tubing. Tough, properly placed ball thrust bearings and closely held tolerances make cranking easy. Sturdy stance is provided by 1-pc. steel tripod legs with steel pins. Safety chains. Boxes fold for storage. Durable plated and lacquered finish. 36" low height, 57" fully raised height. Shpd. from factory. No C.O.D. orders. Shpg. wt. 98 lbs. Not Mailable—See How to Order Page—Truck Shipments.
96—3105RFE—1-Set of 3 $159.95

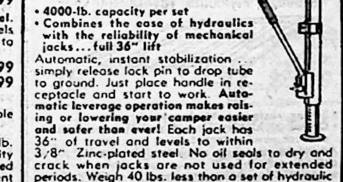

Heavy-Duty CAMPER LIFT JACKS

• Sturdy tripod base with slip-resistant base pads
• 2100-lbs. weight capacity per pair
• Load or unload camper in 5 min. or less ... without tools!

Free-standing Dunbile winches with safety ratchets lift up to 2100-lbs. per pair. Galvanized 3/16" aircraft cable assures lasting strength. Tripods have broad 38" leg width and are braced with steel bars, not chains. Base folds & unit dismantles into 3 sections for compact storage. 21-1/2" long cradle support is fitted up to 10" to prevent slipping and damage to camper sides. Camper weight prevents rocking on uneven ground. Main shaft is heavy-duty rust resistant steel. Jacks lift camper to 57", lower to 15".
18—9990T—1-Pair $139.95

Heavy-duty 4-CORNER CAMPER JACKS

• 4000-lb. capacity per set
• Combines the ease of hydraulics with the reliability of mechanical jacks ... full 36" lift

Automatic, instant stabilization ... simply place jack pin to drop tube to ground. Just place handle in receptacle and start to work. Automatic leverage operation makes raising or lowering your camper easier and safer than ever! Each jack has 36" of travel and levels to within 3/8". Zinc-plated steel. No oil seals to dry and crack when jacks are not used for extended periods. Weigh 40 lbs. less than a set of hydraulic jacks. Set includes 4 jacks and mounting brackets. Shipped from factory. No C.O.D. orders. Shpg. wt. 80 lbs. Not Mailable—See How to Order Page (Truck Shipments).
96—5191XFE—1-Set $199.95

Heavy-duty Industrial/Commercial CARRIER for All VANS

Clamps to rain gutter

• Supports the load off the roof
• Adjustable to carry large or smaller loads ... bracket slides to secure load
• Heavy-duty 12-gauge 1-1/2" diameter tubular steel ... welded at all joints for strength

Carries ladders, lumber, other heavy loads. Steel side supports have pre-drilled holes for rope or lashing straps. Crossbars extend from 50" to 72". Tough, baked-on enamel finish. Set includes 2 bars, 4 brackets, hardware and instructions. Shpd. from factory. No C.O.D. orders.
96—2469PF—1-Set $72.99

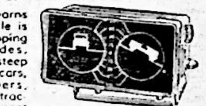

CAMPER LEVELS

Save time—level quickly when you park. Insure efficient operation of refrigerator and other appliances. High-impact case with bubble attaches permanently to camper. Add a second pair on opposite corner of vehicle to eliminate twist. Extra pair inside vehicle aids in parking.
75—3310P—1-Pair $3.50

LEVELING INDICATOR
for Motor Homes & RVs

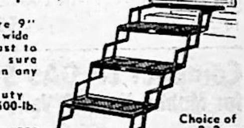

Place on any counter or floor and adjust sliding legs until bubble floats in the middle of circle. The number exposed on each leg tells you precisely how many inches to raise each wheel or corner. Takes less than a minute. Adjustable for motor homes, campers, trailers up to 30 ft long.
15—8794T—Each $10.95

GRADE & TILT INDICATOR

Safety device warns you when vehicle is in danger of tipping over on hillsides, sharp curves, steep grades. Use on cars, trucks, campers, Jeep® vehicles, tractors, road equipment and boats. Dual dial indicates degree of left or right tilt (0° to 60°) and up or down grades. Gray plastic housing with bright finish hardware. Easily installed on dash or window. Mounting bracket. Approx. 3-1/2" L x 2-1/2" W x 2-1/4" D.
17—8835B—Each $15.99

Folding STAIRS
for Campers, Trailers

• Steps are 9" deep, 20" wide
• Self-adjust to provide firm footing on any terrain
• Heavy-duty steel ... 500-lb. capacity
• Stairs are removable—can't open while your vehicle is in motion ... fold for easy storage

Easy to set up. Scissors-type action allows as much or as little extension as needed. Includes hardware, instructions. Some drilling required.
4-step (not shown). Extends from 36" to 44".
18—9067P—Each $59.95
3-step (shown). Extends from 28" to 35".
18—9066B—Each $44.95
2-step (not shown). Extends from 20" to 27".
18—9065U—Each $29.95

Custom-fit VAN LADDER

For Chevrolet/GMC, Dodge/Plymouth & Ford full-size vans and Volkswagen. Provides easy access to van's top storage area. Rails are contoured to van's lines, with ample toe space for easy climbing. 1" square aluminum tubing, heli-arc welded into a one-piece truss. Attaches easily to rear door. Hardware, instructions included.

73-85 Chevy/GMC full-size vans	19—6910T
73-85 Dodge/Plymouth full-size vans	19—6911A
73-74 Ford vans	19—6912R
75-85 Ford full-size vans	19—6913X
Numbers	Each $24.95

For All Volkswagen Vans, Transporters and Kombis. Same features as above except with 7/8" O.D. tubular aluminum.
19—8561B—Each $26.95

Stainless Steel LUGGAGE RACK & LADDER
for Hard-top Vans & 4WDs

• Highly-polished 1" diam. 18-gauge tubing is stronger than aluminum, resists corrosion

[A] Luggage Rack. 2-piece design—each side is 72" long x 54" wide x 3" high. Swivel construction for universal fit. All ends slope downward to roof to prevent snagging. With hardware, instructions. Order TV Antenna Conversion Kit below.
18—7726T—1-Set $59.95
[B] 4-step Ladder. One-piece welded design with mirror-bright finish on steps. Top hook ties on the top of door—needs only 2 screws (included) to mount. Fits full-size vans with single or double rear doors.
18—7725N—Each $59.95
TV Antenna Conversion Kit for above Luggage Rack (or other). Attaches to rack from inside van—no exposed wires on outside. With signal splitter, wall plate, 10-ft coaxial cable, mounting hardware and instructions.
18—7727A—Each $34.95

Selected Parts and Accessories for All RVs ... Vans, Campers, Trailers and Motor Homes

12-volt APPLIANCES for Campers, Vans, RVs & Cars

AT CAMP . . . ON THE GO

Hunting, fishing, picnicking, at the drive-in movie—or cruising down the highway, you can prepare hot meals or snacks just as easily as you do at home. You'll save time—and save on restaurant bills, too. Compact appliances store easily. All are complete with power cords and instructions. All operate from vehicle's 12-volt cigarette lighter. B, E and F also operate from regular 120-volt household outlet and are complete with power base and 2 cords. All appliances are almond (tan) color.

A **Fry Pan.** 6-1/2" diam. pan quickly fries bacon, sausage and eggs for a hot breakfast and makes delicious toasted sandwiches in less than 15 minutes.
14—4327X— Each **$21.95**

B **Dual-voltage Percolator.** Brews four 5-oz. cups of fresh coffee or heats water for a variety of instant foods and beverages in about 25 minutes. **Works on either 12 volts or 120 volts** for use at home or on the road. Bracket included to prevent spills.
14—4328N— Each **$26.95**

C **Broiler.** Broil a steak, hamburger, sausage or bacon ... make bite size pizza, shrimp, French fries or fish sticks. Toasts sandwiches, too. 9-7/8" x 5-1/2" x 3-1/2".
14—4324U— Each **$26.95**

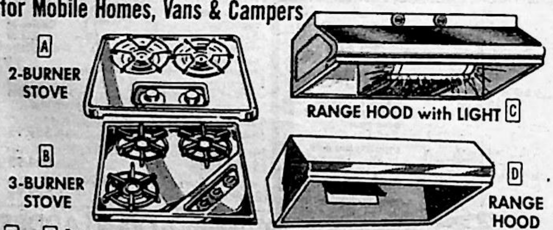

D **Multi-purpose Toaster.** Ideal for making golden brown toast, frozen waffles or French toast, delicious toasted sandwiches. 7-5/8" x 4" x 5-3/4".
14—4325A— Each **$31.95**

E **Saute/Fry Pan.** 6-1/2" diam. Quickly fries sausage, bacon and eggs for breakfast, toasted sandwiches for lunch or evening snacks. **Works on either 12 volts or 120 volts** for use at home or on the road. With cover.
14—1626N— Each **$28.95**

F **Saucepan/Corn Popper.** Double-duty 32-oz. sauce pan heats canned foods, soups, stews, steams hot dogs and warms baby bottles. Makes fluffy popcorn in less than 15 minutes. **Works on either 12 volts or 120 volts** for use at home or on the road. Cover included.
14—1625X— Each **$31.95**

Similar to F above. For 12 volt systems only.
14—4134X— Each **$19.95**

Compact LP GAS STOVES & EXHAUST HOODS
for Mobile Homes, Vans & Campers

A & B **Permanent-mount Stoves** feature heat-reflecting polished aluminum collars for fast, even cooking. Self-locking shut-off valve prevents vibration from accidentally turning on burners. Recessed burner knobs. Self-rimmed—drops into countertop without adding more trim. Hold-down clips prevent rattling. All steel with stain-resistant brushed chrome finish. Sizes are approximate.

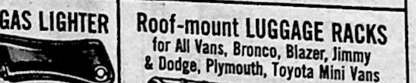

A **2-burner Stove.** Rough-in size: 16-3/8" x 11-5/8" x 2". Actual size: 18" wide x 13" deep.
14—5387P— Each **$48.95**

B **3-burner Stove.** Rough-in size: 19" x 16" x 2". Actual size: 20" wide x 17" deep.
14—5388Y— Each **$68.95**

C **Range Hood with powered exhaust and enclosed light.** Exhaust fan vents cooking grease and odors outside. Reusable metal filter cleans easily. Enclosed light has on/off switch (bulb not included). Painted aluminum body with brushed aluminum-look front. 20" wide x 5" high x 14-1/2" deep. Telescoping sheet steel duct with damper and louver included. UL listed. For 12-volt systems. With instructions.
14—1875Y— Each **$44.95**

D **Range Hood.** Non-powered, gravity exhaust. Flip-up door vent and bug screen. Brushed aluminum front with painted aluminum body. Telescoping louver fits up to 2" wall. Overall: 3" high x 20" wide x 15-1/2" deep.
14—1876W— Each **$18.95**

Cordless/Flameless GAS LIGHTER

Needs no batteries, flints or outside source of electricity. Delivers 18,000V spark with the push of a button. Lights refrigerators, grills, camping stoves, portable appliances, welding torches, space heaters, propane torches, other LPG, natural or butane gas-fired equipment. Eliminates need for dangerous open flame. Solid state. Plastic/metal construction. 12" long.
15—8868N— Each **$7.99**

Combination ANTENNA/LUGGAGE RACK
for Vans, Campers, Motor Homes and Trailers

- **It's an omni-directional ANTENNA to provide beautiful TV reception (color, black & white, UHF, VHF) and excellent AM/FM radio listening even in fringe areas**
- **It's a heavy-duty 60" x 48" LUGGAGE RACK to provide extra storage space**

Strong 7/8" thick-walled extruded aluminum tubing, bright-dipped for superior weather resistance. 3-side design allows easy installation on vehicles regardless of vent locations. PVC insulators between stanchions and tubing plus weatherproof input transformer. Includes coaxial cable, transformer, band separator, wall plate, 7 stanchions w/insulators, hardware, instructions.
18—5891X— 1-Kit **$49.95**

Roof-mount LUGGAGE RACKS
for All Vans, Bronco, Blazer, Jimmy & Dodge, Plymouth, Toyota Mini Vans

- **Strong, rustproof stainless steel tubing**
- **Choice of highly polished stainless steel finish or black powder-coated finish**

Adjustable crossbars allow easy installation. Rack extends only 3-1/2" above roof. Load bars are suspended for maximum strength . . . also prevent cargo from damaging finish. Only 8 screws needed to install. Include hardware, instructions. Shipped UPS from factory. No C.O.D. orders.

Compact Rack. 48" long. Adjusts from 34" to 39" wide. For S-10 Blazer, S-15 Jimmy, Bronco II and Dodge, Plymouth, Toyota Mini Vans.
97—1548AF—Polished finish . . Each **$99.95**
97—1549RF—Black finish . . . Each **109.95**

Large Rack. 48" long. Adjusts from 44" to 49" wide. For all full-size Bronco, Blazer, Suburban and vans with metal roofs.
97—1550XF—Polished finished Each **$104.95**
97—1551NF—Black finish **119.95**

Illuminated LADDERS
for All American Full-size Vans

- **Red light strips in each step 1" diam. tubular aluminum**
- **Available in 3 anodized finishes**

Mounts easily on rear door. Self-grounding; only one wire to connect. Can be wired into dash light switch, brake or parking, hazard or back-up lights. All wiring concealed in ladder. **For 12-volt systems.** Instructions included.

Finish	3-Step	4-Step
Bright silver	18—7845A	18—7848N
Gold tone	18—7846R	18—7849T
Bright silver finish rails w/black steps	18—7847X	18—7850A
Above Numbers . . . Each	$49.95	$59.95

BEVERAGE WARMER

- **Plugs into your 12-volt cigarette lighter**

Heats water for coffee, tea, soup, etc. in just 7 minutes. Also keeps beverages warm. For all 12-volt systems.
81—0559X— Each **$3.98**

Adjustable POT HOLDER

- **Prevents pots, pans from shifting while your camper, van or RV is moving**

Approx 3" high stainless steel band locks on range burner, adjusts to hold any 4" to 6" diam. pot. Removes easily. Notched for pot handle. For most gas or alcohol stoves.
12—4074X— Each **$6.95**

LADDER & LUGGAGE RACK COMBINATION for All Vans

Ladder. 49" high. Anodized aluminum tubing with ridged elliptical steps for no-slip footing. Ready to install on either rear door. With attached brackets.
3-sided Rack. 51-1/2" wide x 50" long. Anodized aluminum tubing. Ends slope down and attach to roof—can't get caught on wires, etc. With four 3" stanchions. Kit includes ladder, rack, all mounting screws, instructions.

Kit with 3-step ladder. Top step does not block rear window.
18—6761A— 1-Kit **$39.95**

Kit with 4-step ladder (shown). Makes it easier and safer to reach top of van.
18—6762R— 1-Kit **$49.95**

RACK and LADDER
for All Motor Homes, Campers, Trailers and 5th Wheelers

Take advantage of your top space and free-up interior space for comfortable living. Sturdy rack and ladder are made of strong, bright anodized aluminum tubing, are both adjustable to fit any size. Complete with all hardware and instructions.

RACK. 5 ft. long x 6" deep. Adjusts from 90" to 94" wide with 5" wide x 6" high reinforcing center stanchion. 6 support stanchions.
18-6137U— Each **$43.95**

LADDER. Seven 1-1/2" deep x 12-1/2" wide steps with sure-grip tread surfaces are pre-attached to simplify installation. Ladder adjusts completely to vehicle's shape and to any height up to 100". Bottom can be mounted on bumper. Complete with top brackets, center hinges and 4 support extensions—all adjustable for custom-fit installation. Reaches 20" above top of vehicle.
18-6136W— Each **$59.95**

Combination WIND DEFLECTOR & TOP RACK for Vans, 4WDs

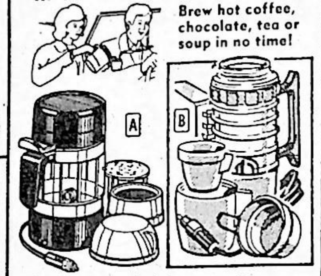

Two units in one! **Wind deflector** directs overhead air flow down rear of vehicle . . . reduces wind drag and noise, improves stability. Moving air helps prevent dust and dirt accumulation on rear. Extruded aluminum. **3-sided rack** carries extra luggage, cargo, etc. Chromed 3/4" steel tubing. 3" high stanchions. With hardware, instructions.

For all full-size vans. 54" wide x 60" long.
18—8922X— Each **$44.95**

For all full-size Chevrolet Blazer, Dodge Ramcharger, Ford Bronco, GMC Jimmy and Jeep® Cherokee, Wagoneer. 48" wide x 60" long.
18—8923N— Each **$43.95**

In-car 12V COFFEE MAKERS

Brew hot coffee, chocolate, tea or soup in no time!

- **Powered by your vehicle for use anywhere**
- **Choice of 4-cup or 2-cup coffee makers**

2-switch	2"	81—1780Y	8.9[illegible]

Goes where you go! Portable Thermoelectric REFRIGERATOR and FOOD WARMER

- Cools down or heats up food, beverages
- Use it as you drive—plug into cigarette lighter
- For cars, RVs, trucks, boats, airplanes . . . even golf carts
- Lightweight . . . easy to carry even when full

REFRESHMENTS ALWAYS READY TO ENJOY—WHEREVER YOU ARE!

Cools or heats and keeps food and beverages cold . . . or piping hot! Load it in the house, take it to the car, to the beach, to picnics, hunting, fishing, for eating along the way on trips. Use it to get fast food home, still hot. A great mother's helper, for keeping milk, formula, baby foods cold and fresh, then heating just prior to baby's feeding. Also can carry insulin, antibiotics, any medicine that must be refrigerated. Ideal for boaters, private planes. Fits in golf cart.

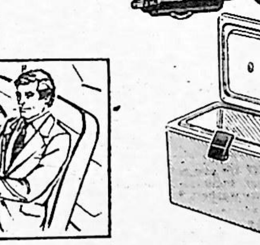

BIG CAPACITY . . . FEED THE FAMILY

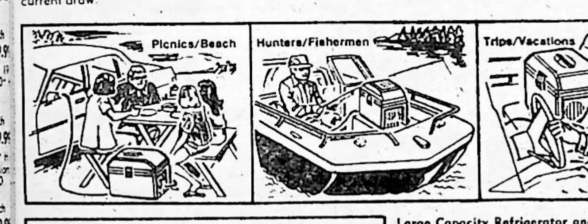

Saves traveler's time and money spent at restaurants. Helps your budget and speeds up your trip. Keeps contents hot or cold for hours after you unplug it, so it's ideal for picnics and outings, beach parties, fishing and hunting trips.

RUGGED, TROUBLE-FREE

Tens of thousands in use, in all kinds of temperatures and conditions, from Alaska to Australia. Dual thermoelectric power modules are safely encased in this tough chest, that is built to take hard usage. Shock-resistant plastic outer shell, aluminum inner shell. Non-rusting, non-corroding hinges and latches. And, the only moving part is a small 12-volt fan! Low current draw.

BIG INSIDE, SMALL OUTSIDE! Only 16" wide x 11½" deep x 11" high to fit easily in any vehicle . . . holds .43 cu. ft.

SPACE-AGE MIRACLE!

Miniature, dual thermoelectric power modules, no larger than your wristwatch, make this computer-age miracle possible! Amazing, tiny heat pumps that have gone to the moon! Used by NASA as the only practical refrigeration system for space vehicles. Completely insensitive to vibration, bumping, tilting (factors that cause conventional compressors, motors & piping to fail). Totally solid state. No moving parts to break or wear out.

Large Capacity Refrigerator and Food Warmer. Holds .43 cubic feet yet weighs only 10 lbs. (empty). Outside dimensions: 16" wide x 11-1/2" deep x 11" high. Inside dimensions: 11-1/2" wide x 8" deep x 8" high. One integrated switch selects 40°F cold or 160° hot. Polyurethane insulation. Low current draw—only 4.5 amps. Uses no more power than your taillights. Safe to operate up to 6 hours without car running. 9-ft. long cord plugs into cigarette lighter.
81—1892A— Each **$79.95**

AC Power Converter (not shown). Lets you operate 12-volt Refrigerator/Food Warmer 81—1892A above off standard house current. Makes unit more versatile . . . lets you use it in your home, office, motel room or wherever 12-volt power is not available. 5 amps. Size: 5-1/2" long x 4-1/2" wide x 3" high overall.
81—1897P— Each **$29.95**

25-ft. Extension Cord. Allows use of Refrigerator/Heater outside of vehicle, while it remains plugged into cigarette lighter.
75—0978X— Each **$4.89**

No-spill SAFETY RAILS
for RV refrigerator and freezer shelves

- **Holds jars, cans, bottles securely in place**

White metal rods adjust from 15-1/2" to 28" wide. Spring tension holds rails in place, allows easy removal. No-scratch rubber tips.
15—6397X— 1-Pkg. of 3 **$5.50**

Transistorized INTERCOM for Campers & Mobile Homes

2-station (1 master, 1 sub-station) system is ready to use—no wiring, etc. Push button to call and talk, release to listen. Desk or wall-mount station 3-3/4" long x 1-3/4" high x 3" wide. Fully transistorized. With 50-ft. cable, staples and 9-volt battery.
88—9198Y— 1-Kit **$12.95**

Heavy-duty CIGARETTE LIGHTER EXTENSION CORD

- **For 6 and 12-volt accessories**
- **15-ft. coiled extension for additional reach to accessories from your auto**
- **Fits all lighter receptacles**

Ideal for RVs, trailers, vans, etc. 18-gauge wire rated at 8 amps.
81—1870X— Each **$7.99**

12-volt RV FAN for Gas, 3-way & Electric Refrigerators

2600 RPM motor and 3" diam. blades move over 200 cubic ft. of air per minute to help your RV refrigerator run cooler, more efficiently. Fan installs at base of refrigerator coils and forces hot air away from rear of box. Blades are hi-impact ABS plastic. Compact unit is 3" x 3" x 4" overall. Includes on/off switch. Low draw—only 1/4 amp. Easy to install—adjustable mounting bracket and instructions included. 12 volt.
12—2362Y— Each **$15.99**

Fan with Thermostat. Same as above except equipped with on/off switch and thermostat. Fan goes on automatically when outside temperature reaches 85°.
15—0180T— Each **$17.99**

Convert any 12V refrigerator to 2-way 120V/12V use!

Dual-circuit Converter. Mounts easily to compressor bracket and wires directly to refrigerator's electrical system. Cord with 3-prong plug connects converter to 12V power source. Automatic switch-over from 120V to 12V or 12V to 120V—no need to plug/unplug converter when changing power sources. With **2 large-capacity circuits**—15-amp circuit for any refrigerator drawing constant 15 amps or less; 6-amp circuit allows use of other 12V accessories with any 120V or 12V power supply. Auto reset & fused to protect converter and refrigerator against power surges, overloads. Only 4-3/4" x 8" x 11-1/4". With hardware, instructions. Shipped UPS from factory. No C.O.D. orders.
97—2427XF— Each **$99.95**

Single-circuit Converter. Like above except for refrigerators drawing constant 5.5 amps or less. 3-1/4" x 6-1/4" x 7-1/4". Shipped UPS from factory. No C.O.D. orders.
97—2428NF— Each **$59.95**

Fully Insulated ICE BOX

2.5 CUBIC FEET. Unicellular foam-insulated shell. High-impact plastic interior takes rough use, resists cracking. Vinyl-coated door racks. Choice of door fronts: highly polished mirror-finish, coppertone or woodgrain. All have satin aluminum trim. Door has spring latch. Box is reversible so door opens right-handed or left-handed. Holds 35 lbs of ice. With drainage hose. For built-in application. Frame: 19" wide, 21-1/4" high, 16-1/2" deep. Cutout: 17-3/4" wide, 20" high, 14-5/8" deep.
18—5427P—Coppertone door . . . Each **$44.95**
18—5429W—Woodgrain door . . . Each **44.95**
18—5428Y—Mirror door . . . Each **44.95**

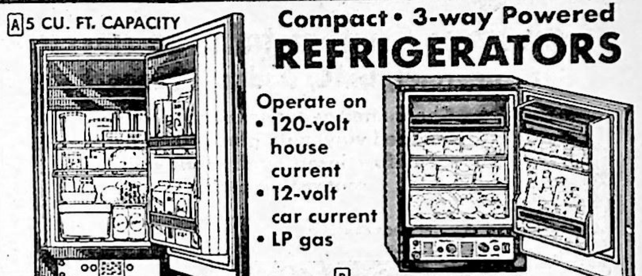

Removable SWIVEL TV TRAY for Vans, RVs

Base (A) mounts permanently to any flat surface. Top tray (B) attaches to bottom of your portable TV, locks securely onto base. **Base rotates 360°.** TV/top tray unit detaches easily from base for use in home. Paintable ABS plastic. 14-1/4" x 9-1/4" x 1" high. With mounting screws, instructions. Drilling of mounting surface and TV base required.
12—2618T— Each **$19.95**

CHARGE YOUR ORDER ON YOUR VISA OR MASTERCARD

Compact • 3-way Powered REFRIGERATORS

Operate on
- 120-volt house current
- 12-volt car current
- LP gas

Perfect for RVs, campers, vans, home or office! Lightweight aluminum refrigerators with 2 shelves plus in-door dairy keeper and in-door storage space for tall bottles, etc. Single thermostat . . . no need to readjust when switching from one power source to another. Efficient urethane insulation. Across-the-top freezer maintains temperatures low enough to keep ice cream hard. Built-in gas pressure regulator. Piezo ignition—no flints to replace, no matches. Easy-to-reach front control panel. Woodgrain-look door opens right or left handed. Easy-to-clean almond and coffee-colored interior. Include installation and operating instructions. Refrigerators require both exterior roof vent and access panel—order below. Shipped from factory. No C.O.D. orders. **Not Mailable—See How to Order Page (Truck Shipments).**

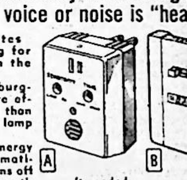

A **5 Cu. Ft. Capacity Refrigerator.** With half-width vegetable crisper. Includes one ice tray. Cut-out size: 40-1/8" high, 22" wide, 21-11/16" deep. Shpg. wt. 124 lbs.
97—0233AFE— Each **$659.95**

B **4 Cu. Ft. Capacity Refrigerator.** Compact—installs under counter. Includes one ice tray. Cut-out size: 33-1/8" high, 22" wide, 21-11/16" deep. Shpg. wt. 104 lbs.
97—0232TFE— Each **$589.95**

Exterior Roof Vent (not shown). Paintable white plastic. Cut-out size: 5-3/4" x 20-5/8".
14—8263P— Each **$9.95**

Combination Exterior Access Panel/Side Vent (not shown). Cut-out size: 15-1/2" x 22".
14—8264Y— Each **$19.95**

SOUND-ACTIVATED SWITCHES
Automatically turns on lights when voice or noise is "heard"

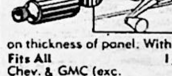

- **Eliminates fumbling for lights in the dark**
- **Deters burglars more effectively than ordinary lamp timers**
- **Saves energy . . . automatically turns off lights when they aren't needed**

Can be adjusted to be activated by anything from a whisper to a shout. Adjustable timer automatically turns off lights in 5 seconds to 10 minutes in the absence of noise. A small red light flashes each time switch "hears" sound, automatically resetting the timer for a complete interval. Noise filtering system ignores constant noises such as fans and air conditioning. UL listed. With instructions.

A **Plug-in Switch.** Plug switch into 120-volt outlet and plug lamp into switch. Handles up to three 100-watt bulbs.
14—9431B— Each **$19.95**

B **Wall-mount Switch.** Installs like ordinary light switch. Handles five 100-watt bulbs. Built-in adjustable light sensor saves energy, prevents switch from being activated during daylight hours.
12—4161B— Each **$34.95**

DOOR and WINDOW HANDLE EXTENSIONS for Vans

A "must" when using custom door panels in your van. Extensions allow you to easily attach original handle. Choice of 2 sizes, depending on thickness of panel. With attaching bolts.

Fits All	1/2" Length	1" Length

Dodge & Plymouth 76-85 (front only)	15—0317A	15—0318R
Above Numbers . . . 1-Pair	$6.99	

TV SHELVES for Vans Mobile Homes, Campers, Recreational Vehicles

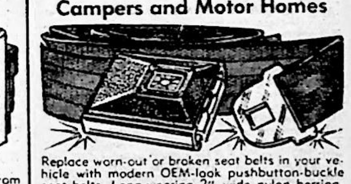

A **Double-swivel shelf has locking nut to firmly secure TV for relaxed viewing from any angle.** Sturdy steel, holds over 40 pounds! Saves valuable counter space in any RV . . . at home in "rec room" or kitchen too. Wall-mount hinge measures 10" long; swivel base 5-1/2" x 5-1/2". Arm extends 16" including base. Beige. Hardware, instructions included.
12—2546W— Each **$20.95**

B **Fold Down Model.** Same as above exc. swivel base is 5-1/2" x 5-1/2". Arm extends 15" from wall when in up position including base, folds down to save space. Cream color.
15—9096B— Each **$29.95**

C **Woodgrain Shelf.** Pre-drilled to mount on A or B above. 11-1/2" x 15-1/2" heavy hardboard shelf is covered with woodgrained finish Formica. Complete with mounting hardware.
14—3169U— Each **$11.95**

PUSHBUTTON-BUCKLE SAFETY SEAT BELTS
for All Vans, Pickup Trucks, Campers and Motor Homes

Replace worn-out or broken seat belts in your vehicle with modern OEM-look pushbutton-buckle seat belts. Long-wearing 2" wide nylon herringbone webbing with deluxe simulated leather grained buckle. Pushbutton assures effortless fastening, lightning-fast release in emergencies. Designed for vans, pickups and RVs. Meet all federal and SAE specifications. Easy to install. Includes all hardware, instructions. Available in three lengths. **Black only.**

Extra long 107" belt.
12—4562A— Each **$16.99**

90" long belt. For seat on pedestal base.
15—0995U— Each **$14.99**

74" long belt. For seat on standard base.
15—0994X— Each **$12.99**

DOOR PULLS for All Vans & Pickups

Handsome replacements for original pulls that must be removed when installing seats with arm rests. Genuine pine wood with light walnut stained finish. Brown leather straps. 8" long x 1-3/8" diam. Some drilling required. With instructions.
17—9990U— 1-Pair **$7.95**

SWIVEL PEDESTAL for All Full-size Van Seats

- **Height adjusts from 6-1/2" to 9"—higher than standard pedestals**
- **360° ball-bearing swivel — allows easy entrance and exit, seats can turn to face each other or face rear**
- **Swivel lock prevents accidental seat rotation**

Fits all van seats in this catalog, all van seats with 8" x 10" to 12" bolt pattern and all original van seats, with adapter/converter sold below. Uses existing seat mounting bolts. Won't interfere with back and forth seat adjustment. Can also be used in rear of van area (drilling required). Accepts standard slide adjusters, sold below, for mounting seat. Heavy duty 3/16" steel plate and tubing construction. All components meet or exceed D.O.T. requirements. Bolt-on seat belt bar, sold below. For the following full-size vans only.

Selected Parts and Accessories for All RVs... Vans, Campers, Trailers and Motor Homes

SLEEP ON AIR! INFLATABLE AIR COIL BEDS

Goes EVERYWHERE! For RVs, vans, station wagons, motor homes... the perfect spare bed at home!

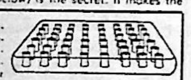

Relax totally on an 8'' thick inflated mattress

On the go | At your home | Away from home

- **Inflates easily in minutes (with any foot or electric pump) to the firmness most comfortable for YOU!**
- **Heavy-gauge PVC construction remains pliable even in temperature extremes—won't break or crack... resists fading**
- **Available in smooth camel-color suede-like velveteen finish or vinyl**
- **Available in 5 sizes**

A must when traveling, camping, sunbathing, floating ... any time you want to **relax totally!** Button-tufted bed provides the support you need and the comfort you want. The air coil construction (described below) is the secret. It makes the difference between just sleeping and sleeping deeply, awaking refreshed. Bed inflates easily (see Index for air pumps) ... fits all standard bed frames, uses standard fitted or flat sheets. (Attractive velveteen finish is pleasant enough to sleep on without sheets.) It's a perfect economical spare bed. Waterproof—cleans with soap and water, dries fast. Includes repair kit, air adaptor and carry case that doubles as an inflatable air pillow.

Air coil construction. Controlled chambers of air conform to your body's shape to provide maximum comfort and support. Stable—air coils won't sag like rigid metal springs in conventional mattresses. Built to last—all stress/pressure points heat bonded for maximum strength.

Single Bed. Size: 29" x 72". Great for kids.
81—1846X—Velveteen finish .... Each $26.99

Solid Oak or Wood-grained VAN GAME TABLES

with Chess/Checkers & Backgammon Boards

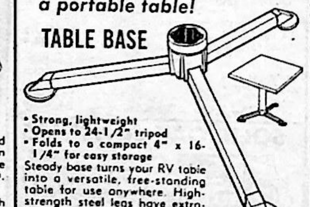

18" diam. octagon table with 4 cupholders and 4 slots to hold chips, coins, playing pieces, etc. Recessed backgammon board is covered by removable smoke-tinted acrylic chess/checkers board. Mounts on standard pedestal and base (not included—see Index). Shipped UPS from factory. No C.O.D. orders.

Wood-grained Table (shown). Pressed wood with mar-resistant laminated vinyl finish. Chrome/brown vinyl edge trim.
97—1171BF— .... Each $63.95

Genuine Oak Table (not shown). Clear sealer protects beautiful natural finish. Sculptured edges.
97—1170UF— .... Each $73.95

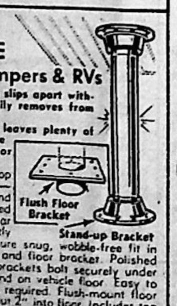

Convert your RV table into a portable table! TABLE BASE

- **Strong, lightweight**
- **Opens to 24-1/2" tripod**
- **Folds to a compact 4" x 16-1/4" for easy storage**

Steady base turns your RV table into a versatile, free-standing table for use anywhere. High-strength steel legs have extra-large die-cast aluminum feet. Die-cast aluminum column socket accepts all tables with standard 2-1/4" diameter pedestals. Base only—table not included.
14—4332X— .... Each $19.95

PEDESTAL TABLE BASE for Vans, Campers & RVs

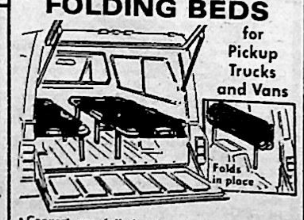

- **Stable, secure base slips apart without tools so it easily removes from vehicle in seconds**
- **Single-post design leaves plenty of leg-room under table**
- **Choose stand-up or flush floor bracket**

Build a dinette table top to suit your needs—mount it yourself and save money! Chromed 2-1/4" diam. tubular steel post has slightly tapered ends to assure snug, wobble-free fit in table/chair bracket and floor bracket. Polished die-cast aluminum brackets bolt securely under table top or chair and on vehicle floor. Easy to install; some drilling required. Flush-mount floor bracket recesses about 2" into floor. Includes top bracket, post, floor bracket.

Kit with 26-1/2" long post.
15—8033W—Stand-up floor bracket | 1-Kit
15—8034U—Flush floor bracket $9.95

Kit with 28-1/2" long post.
15—8035A—Stand-up floor bracket | 1-Kit
15—8036R—Flush floor bracket $9.95

FOLDING BEDS for Pickup Trucks and Vans

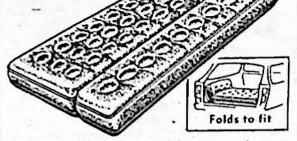

- **Convert any full-size American pickup or van into a convenient camper**
- **Ideal for hunting or fishing weekends or vacations... saves on motel costs**
- **Fold easily out of the way when not in use**

Man-sized (25-1/2" x 72-1/2") beds have metal frame with durable cover. Bolt securely to vehicle's bed wall and fold quickly into place. Take less than 6" of space when not in use. Includes instructions and hardware for installation in pickups. To install beds in van, order kit below. Not for use while vehicle is moving.
18—4376P— 1-Pair $59.95

Van Conversion Kit. Includes hardware needed to install folding beds in vans.
15—5973W— .... Each $2.49

Three bed sizes in one! TRAVEL AIR BEDS for Vans, RVs, Station Wagons & Motor Homes

- **Use as bed or sofa for travel, home, camping**
- **Twin size folds to fit in areas 28" x 59"**
- **3 sections inflate separately to best suit your sleeping & space requirements**
- **Stable, comfortable air coil construction**
- **Choice of twin or full size in camel suede-like velveteen or vinyl**

At last. Portable beds that fit your space and comfort needs. Inflate one, two or all three sections (use any hand, foot or electric pump—see Index for air pumps) to the firmness you want. Controlled chambers of air provide comfortable, even support without sagging. All points of stress heat-bonded for maximum durability. Deflate quickly for storage. Waterproof surface can be cleaned with soap and water. Velveteen finish is never slick or cold ... comfortable enough to sleep on without sheets. Includes repair kit, carry case, air adaptor.

SURFACE-MOUNT AIRCRAFT LIGHT ADAPTER

Eliminates the need to cut holes in panels in order to mount aircraft-style lights. Also allows aircraft lights to be mounted in pickup trucks and in any area where there is no room behind the panel to accommodate globes and switches. Angled design permits greater aimability of lights. Neutral black ABS plastic finish, may be painted if desired.
15—8411U—Single .... Each $2.99
15—8412B—Dual .... Each 3.50

Table or Wall-mount 12V OSCILLATING FAN

- **Defrosts, defogs windows and circulates heated air in winter**
- **Ventilates and cools air in summer**
- **Stands on table on no-slip rubber feet or mounts on wall**
- **Can be set for fixed or 90° oscillating movement**
- **Fully adjustable up and down**
- **2-speed switch**

Three 8" non-metallic blades. Chrome-plated grille guard. Ivory finish base. 3000-RPM motor draws less than 1-1/2 amps. 18-ft. power cord. Plugs into cigarette outlet. (Order adapter with 5-1/2-ft. cord below for use on house current.)
12—2935A— .... Each $24.95

Fan as above except with rustproof vinyl-coated grille guard.
14—7502B— .... Each $24.95

AC Adapter Converter. Allows use of fan above on 110-volt house current.
14—7503P— .... Each $12.99

CUSTOM INTERIOR PATTERNS for 69-85 Vans

Do-it-yourself pattern kits let you have a beautiful, custom van interior at a fraction of the price charged by professional converters! Easy to do. Cut wood paneling or cloth fabric correctly the first time. Just lay the full-scale patterns on any 4 x 8-ft. paneling or fabric, then trace, cut and install perfect pieces on roof, walls, floor, side and rear doors, corners ... even the driver's compartment. Kits are carefully laid out and printed on heavy paper. Not available for vans with windows completely around van. Includes illustrated instructions.

Selected Parts and Accessories for All RVs ... Vans, Campers, Trailers and Motor Homes

Mylar®-faced Foam SOUND/HEAT INSULATION with Stick-on Backing

Foam · Reinforced Aluminized Mylar® Facing · Van Interiors · Hood Liner · Engine Wall

1/2" or 1" thick

- Reduces noise, insulates against heat and cold
- Pressure-sensitive adhesive backing for easy, mess-free installation

Acoustical-quality polyester urethane foam is chemical resistant and fire retardant. One-mil reinforced aluminized Mylar® facing reflects heat, prevents absorption of outside materials. Trims to fit.

6 sq. ft.
12—3292W—1/2" x 27" x 32" Each $15.99
12—3293U—1" x 27" x 32" Each 19.99

12 sq. ft.
12—3294B—1/2" x 32" x 54" Each $29.99
12—3295R—1" x 32" x 54" Each 36.99

Roof-mount • 12-volt EVAPORATIVE AIR CONDITIONER for RVs

Fits ALL standard 14" x 14" roof vents

- Works when RV is moving or parked
- 200% more water capacity than comparable units

Produces 450 cu. ft. of air per minute and draws only 3.2 amps at low speed. Produces 750 cu. ft per minute on high. **Nonorganic filter** for longer life, greater resistance to bacterial growth. **Unique conical spray pump** can't wear out ... sprays entire surface of filter for maximum cooling and filtering. No moving interior parts! **Automatic water level control.** Approx. 2-gal capacity. Can also hook up to city water or draw from water tank presently in vehicle. **Dry air-cooled motor** for longer life. **Rust-resistant**—no moving parts in "wet" air. **Individually adjustable louvers.** Quiet operation. 35" long, 22" wide, 10-3/4" high, only 1-1/2" deep. Weighs only 16 lbs. Prewired for easy installation. With adjustable exhaust grille, gasket, hardware, instructions. Shpg. wt. 25 lbs. **Not Mailable—See How to Order Page (Truck Shipments).** Not returnable for refund or credit if unit has been tampered with or misused.
19—9015YE— Each $279.95

Electric Shaver Converter

Plugs into cigarette lighter ... lets you use any electric shaver in your car, trailer, truck, boat or plane. Less battery drain than one taillight. 12 volt
43—0495A— Each $21.95

Interior CLOTHES HOOK

For all cars, trucks, vans. Strong black plastic hook attaches to any roll-up or rear window that has rubber gasket. Easily installs and detaches in minutes ... no special tools needed. Won't scratch windows. Can also be mounted permanently in home.
12—3847X— Each $3.99

Our Best Insulation! MYLAR®-FACED FOAM SOUND/HEAT INSULATION with Vinyl Lining

Foam · Vinyl Lining · Reinforced Mylar® Facing · VAN INTERIORS · HOOD LINER · ENGINE WALL

1/2" or 1" thick

- Protects against noise, vibration, heat and cold
- High density vinyl lining between layers of foam blocks sound transmission, is fire resistant
- Reinforced Mylar® aluminized facing prevents absorption of dirt, fuel, oil, water, other elements
- Trims with scissors or knife for perfect fit

Permanent noise/temperature insulation is ideal for use in engine compartment, hood, trunk and fender. Great under mats, floorboards. Acoustical-quality foam reduces airborne noise and noise from engine by absorbing vibration. Vinyl lining between layers. Mylar® aluminized 1/2-mil facing is attractive and easy to clean ... also reflects heat. Easily installs with spray adhesive below. Instructions included.

Permanent-mount FLAMELESS HEATERS

- For vans, campers, trailers, mobile homes and boats
- Choice of 4000 or 6000 BTU

Provide safe, flameless heat. Infra-red rays direct heat to desired area. Hazard free—wind won't blow heaters out. Automatic safety shut-off valve. Operate on low pressure w.c. 11" and include mounting hardware, instructions for easy hookup to present L.P. gas system. Note: To operate from 1-lb. dispensable bottle, order adapter 15—3247X below. To operate remotely by itself from large LP tank, order 15—3248N below.

4000 BTU Catalytic Heater. Size: 8-1/4" high x 14-3/4" wide x 5-1/2" deep.
15—3235B— Each $129.95

6000 BTU Catalytic Heater. Size: 11-1/4" high x 15-3/4" wide x 5-1/2" deep.
15—3236P— Each $153.95

Adapter for above heaters only (not shown) for use with 1-lb. bottle
15—3247X— Each $35.95

Adapter for above heaters only (not shown) for use with large bottles
15—3248N— Each $37.95

Auxiliary SPACE HEATER with 3-speed Fan for Vans, Motorhomes and Campers

- Baked-enamel finish
- Up to 15,000 BTU
- More air flow—heavy-duty 5-blade, 7-inch fan circulates up to 450 C.F.M. of air
- Large 7-3/4" x 7-3/4" x 2" copper core

Easy to install. No complicated gas lines to hook up—simply connect to existing hot water type heater. 3-speed fan with dash-mounted control may be used to circulate cool air in warm weather. Heavy 14-ga. steel with protective grille. Compact—8" high, 8" wide, 8" deep. With hardware, clamps & instructions. Requires 5/8" heater hose (not included, see Index). 12-volt.
19—8504B— Each $124.95

BATTERY CONDITION TESTER & 12-volt POWER OUTLET for Cars, RVs, Vans & Campers

[A] **Battery Condition Tester.** Tells at a glance the condition of main or auxiliary battery. Good-Fair-Low. Precision meter movement. Black aluminum housing. Overall size: 3-1/2" x 2-1/2" x 2-3/4". With mounting screws, solderless connectors, instructions.
15—6925N— Each $14.99

[B] **12-volt Power Outlet with built-in cigarette lighter.** On/off rocker switch panel accepts standard 12-volt adapters for lights and other accessories in your vehicle. Black aluminum housing. Overall size: 3-1/2" long x 2-3/4" wide. With screws, solderless connectors, instructions.
15—6926T— Each $9.95

Compact • 12-volt PERSONAL CARE APPLIANCES

4-position flexible head

A must for people on the go! Plug into cigarette lighter receptacle of any 12-volt vehicle

[A] **Mini Iron with sprayer.** Thermostat-controlled temperature settings. Teflon®-coated warming plate and removable handle (see illus.) for easy storage. 5-ft cord.
81—1786N— Each $17.95

[B] **Shaver.** 4-position flexible head gives close, comfortable shaving. Includes protective cap, accordion-style cord, cleaning brush and vinyl carrying case. Also runs on two "AA" size batteries (not included—order below).
81—0461W— Each $12.95
88—8397X—"AA" Size Battery Each 35¢

[C] **Hair Curling Iron.** 20-watt output ... choice of high or low heat setting. Light indicates when iron is ready for use. 6-ft swivel cord prevents twisting, knotting. Plastic grip and resting foot.
81—0462U— Each $6.95

[D] **Mini Hair Dryer.** Only 4-1/2" x 4-1/2" ... fits in glove compartment, purse or brief case. Draws only 12 amps, yet delivers 156 watts of drying power. Can also be used as a window defroster. 54" long cord.
14—2009T— Each $9.95

Roof-mount INFRA-RED HEATER for Vans, RVs & Campers

Control Knob

- Heats more efficiently and economically than forced-air or catalyst heaters
- Safe ... combustion takes place outside the vehicle and is contained in a chamber sealed from the inside of the vehicle
- Spreads heat EVENLY throughout vehicle
- Easy to install ... fits in same 15" x 15" opening as most roof vents

Uses infra-red rays (just like the sun) to heat up EVERYTHING exposed to the heater. No venting required. Windows can be kept closed safely when heater is on. Operates from LP gas tanks (not included) mounted outside vehicle. Fail-safe thermo-couple. Instant start. Manual spark igniter. 9500 BTU capacity. Manual throttle adjusts to desired temperature. Aluminum heater rises only 3-1/2" above roof; chrome-plated steel interior grille drops only 1-1/2" below ceiling. Includes heater, installation kit, 12-ft. copper line with fittings, POL-bottle adapter, instructions. Shpd. from factory. No C.O.D. orders.
96—3073RF— 1-Kit $269.95

Complete AUXILIARY BATTERY KIT for Vans, RVs, Campers, Trailers, Pickups, Boats

Everything you need to install auxiliary battery except the battery box

- Keeps one battery and auxiliary battery operating at peak performance
- Prevents stronger auto battery from being discharged into weakened auxiliary battery
- High-output 95-amp isolator with 40-amp circuit breaker for complete safety

Automatic isolator allows alternator to charge both batteries while the engine is running. When car stops and engine is not running, isolator assures that current is drawn from auxiliary battery only. Built-in isolator provides total protection for 2-battery system. Solid state ... no parts or switches to wear out. With isolator, 2 battery post terminals, circuit breaker, 8 ft. of 8-ga. wire, 20 ft. of 12-ga. wire, wiring terminals, connectors, plastic straps, hardware & instructions. See Index for battery box.
14—1846B— 1-Kit $32.95

AUXILIARY BATTERY TRAYS for Vans and Pickup Trucks

- Open end design holds any size battery

Protect auxiliary battery from bumps and jars. Complete with all hardware for safe, secure, under-the-hood installation. Ideal for extra batteries in campers. Fit 67-79 Ford pickups & Broncos; 73-85 Ford vans; 73-85 Chevy/GMC pickups, full-size Blazers & Suburbans; 72-84 Dodge pickups & Ramchargers; 72-85 Plymouth Trail-Duster.
12—1765T— Each $14.95

Tray for 80-85 Ford pk'ups and full-size Broncos
14—1729A— Each $14.95

SATISFACTION GUARANTEED or MONEY BACK

STAINLESS STEEL SINKS for RVs

[A] **Compact Round Bowl Sink** with one 2" diam. strainer ... diam., 4" deep overall. Requires 11" diam. cutout. Sizes approx. Self-rimming.
12—2712U— Each $19.95

[B] **Compact Single Bowl Sink** with one 2" diam. strainer. 15-1/2" x 12-3/4" overall. Bowl size 13-1/4" x 11" x 5" deep. Requires 14-3/4" x 12" cutout. Sizes are approx. Self rimming.
15—3802R— Each $25.95

[C] **Compact Double Bowl Sink** with two 2" diam. strainers. 24-3/4" x 15-1/2" overall. Has two 13-1/4" x 11" x 5" deep bowls combined in a single unit. Requires 23-1/2" x 14-1/2" cutout. Sizes are approx. Self-rimming.
15—3803X— Each $49.95

AUXILIARY SPACE HEATER with Heavy-duty 12-volt Fan for Vans, Motor Homes, Campers

- Operates with existing heating system
- Over 144 sq. in. of heated fin area
- 5-blade fan with on/off switch circulates up to 300 C.F.M. of air ... draws only 5 amps
- Won't clutter interior—mounts on ceiling, wall or under seat

Ties into existing 1/2" to 3/4" heater hose with additional heater hose (not included—see Index). Reversible fan (with wind tunnel housing and protective steel grille) circulates heat evenly ... can be used to circulate cool air in summer. Choice of beige or gray paintable ABS plastic housing. Dual side intake openings with screens. Approx. 5" high, 18" wide, 45" long. With hardware, instructions. Shpd. UPS from factory. No C.O.D.s.
97—2730UF—Beige Each $119.95
97—2731BF—Dark Gray Each $119.95

Deluxe Mini LP GAS FURNACES for Vans, RVs

[A] SIDE DUCTS · [B] FRONT VENTS

- Compact, lightweight, high BTU output—ready to install
- Choice of solid-state electronic ignition (no pilot to go out, no fuel waste) or Piezo ignition (with pilot light)
- Wall-mount thermostat controls ignition and blower to maintain a constant temperature
- Telescoping vent allows easy installation in cabinets of different depths
- Available in 11,600 to 15,600 BTU outputs

Powerful blower draws outside air for combustion. Second blower pulls interior air into heat exchanger and forces warm air throughout vehicle. Easily accessible controls. Gold-tone baked enamel finish on interior grille. Exterior vent cutout: 2" x 5". Uses 12-volt DC. UL listed. Complete with furnace vents, chrome-plated outside vent cap, duct adapters, wall-mount thermostat, instructions. Shpd. from factory. No C.O.D. orders.

[A] **15,600 BTU Model.** Low 2.8-amp draw. 8" wide x 11" high x 20" deep. Needs 11-1/4" high x 8-1/2" wide cabinet opening. Installed and operated like a home-heating unit. Furnace has 2 side ducts (not front vents) to allow easy installation in any available cabinet location. 4" diam. hose (not incl.) can be run from ducts to deliver warm air anywhere inside vehicle. Electronic pilotless ignition. Fits the following cabinet sizes:
96—3046NF—Fits 20⅝" to 23¾" D
96—3050XF—Fits 23¾" to 28⅝" D
Above Numbers Each $349.95

Economy 15,600 BTU Model. Same as [A], but with Piezo ignition with pilot light. Fits following cabinet sizes:
96—3045XF—Fits 20¾" to 23¾" D
96—3049RF—Fits 23¾" to 28⅝" D
Above Numbers Each $299.95

[B] **11,600 BTU Model.** Low 3.2-amp draw. Size 10" wide x 7-1/2" high x 22-1/2" deep. Needs 8-1/2" high x 12" wide cabinet opening. Front hot air vents. Electronic pilotless ignition. Fits the following cabinet sizes.
99—8770BF—Fits 22½" to 26" D
99—8771PF—Fits 26" to 30" D
Above Numbers Each $279.95

13,650 BTU Model. Low 2.8 amp draw. 8" wide x 11" high x 20" deep. Needs 11-1/4" high x 8-1/2" wide cabinet opening. Front hot air vents. Electronic pilotless ignition. Fits following cabinet sizes:
96—3044PF—Fits 20⅝" to 23¾" D
96—3048AF—Fits 23¾" to 28⅝" D
Above Numbers Each $329.95

Economy 13,650 BTU Model. Same as above, but has Piezo ignition with pilot light. Fits following cabinet sizes:
96—3043BF—Fits 20⅝" to 23¾" D
96—3047TF—Fits 23¾" to 28⅝" D
Above Numbers Each $289.95

Portable SINK

Goes with you anywhere

Compact, lightweight sink fits most tables or countertops or can be recess-mounted in your RV, trailer or boat. Stores in trunk for quick clean-ups anywhere. Holds its own 5-gallon water supply, has double-acting pump with lock-down faucet to prevent spills. Built-in drain with plug and detachable plastic hose for mess-free disposal of water. High-impact polyethylene won't leak, crack or break. Easy-fill wide mouth with cap. Handle. 21" x 17" x 6-1/2" deep.
14—2572P— Each $23.95

SEWER-SYSTEM PARTS for RVs
• Hoses • Hose Carriers • Connector • Adapter

[A] **Flexible Hoses.** 3" diam. wire-reinforced lightweight vinyl. Won't crack or check. Resists sewer acid, detergents, fats or oils. When extended, interior surface is smooth, won't retain waste. 10-ft. or 20-ft. extended lengths
15—0723P—10-ft Each $4.50
19—8936W—20-ft Each 7.95

[B] **Hose Carriers.** 4-1/2" diam. white PCV plastic. Compactly stores 10-ft. or 20-ft. collapsible drain hoses and fittings. Attached mounting saddles for easy installation. Twist-on caps (one with retrieving strap) with handles securely close both ends, yet still permit evaporation

26" Long Carrier. Holds 10-ft. hoses
15—0726T— Each $12.95

46" Long Carrier. Holds 20-ft. hoses
19—8937U— Each $18.95

[C] **Sewer Hose Connector.** Mount to your flexible 3" diam. sewer hose, slip into any 3" park sewer line fitting, then flip switch for secure connection. Seals off odors. Fits inside or outside threads, nipples, clay, orangeberg, asbestos, copper or plastic ... even rusted or stripped threads. No clamps to remove. Stores in bumper.
15—0725N— Each $14.50

[D] **4" Adapter.** Use with above hose connector when adapting to 4" pipe and fittings. Not affected by gases, acids, etc.
15—0863U— Each $6.49

Self-contained PORTABLE TOILET

- Hookup to existing plumbing not needed
- Big 35-flush capacity
- 3-gal. top tank ... 2.6-gal. holding tank

2-pc. case is made of durable polyethylene and polypropylene. Top section contains seat, seat cover, bowl, flush handle and storage tank. Lower section contains **odor-tight detachable waste holding tank** with pour spout for clean, easy emptying, and **built-in storage compartment** for chemical bottle or package. Strong locking device holds sections together. Each section has carry handle. Size: 15" deep, 13" wide, 12" high. Almond color
18—8689B— Each $69.95

Self-priming WASTE GRINDING PUMP for RV/Motor Home Waste Systems

Macerator pump with built-in cutters grinds waste into particles that can be pumped out easily, without clogs through any 1" I.D. garden hose. Slip-on inlet allows use with 3" I.D. hose. (Hose not included.) Eliminates mess, saves time & money. Powered by vehicle's converter or any 12-volt battery (not included). Fast—takes only 3 to 4 minutes to pump out a 30-gal. tank.
14—4819T— Each $99.95

WASTE WATER TANKS for RVs

5 OR 10-GALLON CAPACITY

F.D.A. approved. Meet all State Health and campground regulations against draining onto ground or into an open container. Completely portable, collapsible polypropylene plastic containers have special control valve to prevent spill when hose is disconnected for emptying. 48" hose connects to any standard 3/4" male (garden hose) drain terminal. Nylon hose couplers included. Compact—store in 12" x 12" x 8" space

2 Tanks; holds 10 gallons.
15—4351W— 1-Set $17.95

1 Tank; holds 5 gallons.
14—7486Y— Each $8.95

Instant Hot Water for your van, RV or camper! TANKLESS WATER HEATER

- Get as much hot water as you need, when you need it ... no tank limitations
- Much lighter than tank models, weighs only 15 lbs.

Unit heats water as it passes through a pipe ... produces hot water as long as LP gas and water are available. Provides 40° water temperature rise at 1-1/2 gal. per minute flow rate; 120° rise at 1/2 gal. per minute. Operates only on hot water demand—saves on LP gas. Piezo electric ignition. 1/2" O.D. connections with copper and brass fittings. Aluminum housing with louvered access door. Fits any 12" x 12" x 20" opening. Approved by R.V.I.A., meets American National Standards for gas water heaters. Complete, ready to install. Shipped UPS from factory. No C.O.D. orders.
97—2420BF— Each $299.99

HOT WATER HEATER for RVs, Vans, Pickups & Buses

- Large 20,400 BTU capacity
- Extra compact—only 8-1/4" high x 8-1/8" wide x 8-1/4" deep

Small in size yet powerful enough to move up to 193 cu. ft. of warm air per minute! Uses hot water from engine to heat vehicle as you drive. Performance features: 2-1/2" thick V-cell core; big 7" diam. 3-blade fan; heavy-duty 2-speed 12-volt motor; 50.75 sq. in. face for fast heat dispersion. Rugged 20-gauge cold-rolled steel housing with baked black enamel finish bolts through floor. Complete with fittings and instructions.
54—1311N— Each $92.95

Extra Large Capacity PORTABLE TOILET

- 125-flush capacity
- Giant capacity 4-gallon fresh & waste water tanks
- Self-contained ... no hook ups or installation needed
- Compact ... only 16-1/2" x 13-1/2" x 13-1/2" high (seat down)
- Lightweight .. weighs 11 lbs.

Strong, high-density polyethylene tanks snap together securely with side latches—no screws or holes to cause leaks. Exclusive 2-way flushing spray cleans entire deep bowl quickly with minimum amount of water. No sharp corners to collect waste. Plunger-type water pump. Holds up to 35 lbs. of water and waste. Large 4-gallon fresh water tank ... always enough water for adequate flushing. Upper and lower tanks (each with handle) separate for easy emptying, filling. Odor free, hygienic. Trouble-free clean ups—lid and seat detach. Positive-seal gate valve. Brown/beige colors. Toilet chemicals, see below.
15—8353Y— Each $89.95

Chemicals for Self Contained Toilets. Biodegradable, non-pollutant deodorizing treatment destroys odor in any self-contained toilet, breaks down wastes. Will not damage metal or plastic parts. 6 pre-measured packets per box.
14—5249B— 1-Box $5.99

Automatic WATER PUMP for Vans, RVs, Campers

- Delivers a constant water flow even in vehicles with multiple fixtures
- Automatic pressure switch cuts in at 18 psi, out at 39 psi (±4 psi)
- Permanent magnet drive—fewer moving parts and quieter operation than belt-driven pumps
- Self-priming—up to 6-ft. vertical lift

Double-diaphragm, ball-bearing pump starts when faucet, toilet is turned on, stops when fixture is turned off. Pumps 2.8 GPM at open flow ... draws only 2.5 amps. Can be run dry. Mounts horizontally or vertically—even away from fresh water tank. Includes two 1/2" threaded and two 1/2" to 5/8" barbed port adapters, instructions. For 12-volt systems.
14—8698X— Each $82.95

Electric WATER PUMP for RVs

Automatically provides 3 gallons per minute (with only 5-amp draw) at full flow. Built-in check valve protects against back pressure. Freeze-proof and lifetime lubricated. Self-priming. Can dry-run indefinitely without damage. Lifts water up 12 feet—lets you mount pump above tank or in remote location. 1/2" female threads will accept barb adapters (included), elbows and nipples. Runs off 12-volt converter or battery, performs as low as 6 volts DC. 5-1/4" wide x 7-1/2" deep x 5-3/4" high. With instructions
15—0185B— Each $74.95

Completely Submersible ELECTRIC WATER PUMP for Van or RV Fresh Water Systems

- Operates from inside water tank instead of water line
- Fits into any fresh water tank or container with 1-1/2" or larger opening
- Draws less than 3 amps

Compact 4-1/2" long x 1-1/2" diam. pump operates on 6 or 12-volt lantern battery (not included) or from vehicle's existing 12-volt electrical system. Easy drop-in installation. Uses 3/8" diam. hose (not included). Pre-wired with 36" lead.
14—4805B— Ea $13.95

FREON®-TO-AIR TANK CONVERSION KIT

Convert your empty Freon tank into a usable, portable compressed air tank in minutes! You'll have pressurized air for inflating tires, painting, spraying, etc. Easy to refill from any air pump. Kit includes filler valve, air pressure gauge (measures 0-160 p.s.i. in 5-lb. increments), 4-ft. high-pressure hose assembly with tire chuck, safety valve assembly, 4-way manifold assembly and instructions.
15—5149T— 1-Kit $11.98

6-gallon Capacity LP GAS WATER HEATER for RVs, Vans, Campers and Motor Homes

- Provides over 7 gallons of 120°F water per hour
- Fully insulated with fiberglass & fiberboard jacket to minimize heat loss

Fuel-efficient—pilot light heat helps maintain tank's water temperature. Lightweight aluminum tank weighs only 19 lbs. empty, 69.2 lbs. filled. Only 16" wide x 12-1/2" high x 18-1/4" deep overall. 14-5/8" x 18" access door. Vents to outside. All necessary servicing can be done from outside. Instructions included. Shipped from factory. No C.O.D. orders.
97—0965YF— Each $169.95

Complete WATER SYSTEM for Vans & RVs

Nothing else to buy! Easy-to-clean stainless steel sink (choice of 4 or 8-quart capacity) and strainer. Chrome-plated, non-corrosive, self-priming hand pump. Includes 3-gallon fresh water & waste water odorless polyurethane tanks (both 9" x 9" x 9" deep), 2-1/2 ft., 1/2" O.D. fresh water hose and 2-ft., 5/8" O.D. drain hose. With all hardware, instructions and template.

With 4-qt. Sink. 9" diam., 3-1/2" deep sink
14—5264A— $44.95

With 8-qt. Sink. 12" diam., 4-1/2" deep sink
14—5265Y— $46.95

WATER-PRESSURE REGULATORS for RVs

Protect your RV's water system from city-water high-pressure damage.. Combination city-water entry/pressure regulator/back-flow check valve monitors water pressure 24 hours a day—will not let pressure exceed a safe 35 psi. Self-cleaning filter. Lockable water entry. Meet or exceed all check-valve code requirements. Tough ABS plastic won't rust or affect water clarity or taste.

[A] **WALL MOUNT.** Quick, easy straight-through flush mounting on any RV wall ... regardless of thickness. Leak-tight design
15—4679P— Each $14.95

[B] **IN-LINE.** Same as above except requires no installation. Just connect to city-water source, then attach your intake hose.
15—4680Y— Each $14.95

Telescoping SEWER DRAIN PIPE for RVs

4-ft. pipe extends to 10 ft.

Telescopes to store in your RV's bumper

Lightweight, high-impact 3-1/2" diam. pipe resists weather and acid; delivers sanitary positive-slant drainage. Flexible hose through entire length for fast, easy hook up
18—8405T— Each $29.95

FRESH WATER TANKS for Vans, RVs and Boats

- Inner baffles on 15 to 24-gal. tanks for added strength.

Lightweight, rustproof, leak-proof tanks of non-toxic black ABS plastic provide safe storage for fresh water. Meet strict F.D.A specifications. Inner baffles on 15-24 gal. tanks add strength, keep water from sloshing. Choice of fill fittings—see below. 8" deep x 16" high with 3/8" hose fittings. For non-pressurized systems.

15—B890R— 6 gal. 12" long Each $29.99
19—8505R— 9 gal. 18" long Each 32.99
19—8506X—12 gal. 24" long Each 36.99
19—8507N—15 gal. 30" long Each 45.99
19—8508T—18 gal. 36" long Each 49.99
19—8934A—21 gal. 42" long Each 55.99
19—8935Y—24 gal. 48" long Each 59.99

FILL KITS Choice of elbow, straight or with threaded cap.
(A) 19—8509A—Elbow 1-Kit $4.29
(B) 19—8510R—Straight 1-Kit 4.29
(C) 19—8511X—With threaded cap 1-Kit 4.99

Temporary or Permanent-mount FREON®-TO-AIR TANK CONVERSION KIT

- Lets you convert numerous empty Freon® tanks (not just one) into usable compressed air tanks

Store pressurized air for inflating tires, painting, spraying, more. Just attach swivel nut to tank valve with 9/16" wrench (not included) and fill from any air pump. Kit includes filler valve, 1 1/2" diam. air pressure gauge (measures 0-160 psi in 5-lb. increments), 4-1/2-ft. long, 1/4" I.D. rubber hose (200 psi bursting strength), steel tire chuck, safety valve, 4-way aluminum manifold and instructions.
14—8278Y— 1-Kit $15.98

HAND PUMP/WATER FAUCET for Vans & RVs

Low Profile

Works 3 ways to produce a steady, smooth stream of water anywhere: (1) Lift handle to automatically activate electric water pump (not included—see Index); (2) Move handle back and forth to start hand water pump and to produce a strong water flow ... needs no electricity; (3) Press handle down to use community water when it's available ... save water in holding tanks. Chrome-plated spout, white plastic base and T-handle. Easy to install.
14—3244N— Each $15.95

ELECTRIC WATER PUMP and FAUCET for RVs

WATER PUMP. Quiet and trouble-free pump has no wearing parts. Pumps 2 gallons per minute. Mini-size, only 4-1/4" long x 1-1/2" diam. Mounts directly to water tank or in water line. For single faucet hook-up. Can be run dry without damage or burnout. 12 volt D.C., drains only 1.5 amps. Use 16-ga. wire. IAPMO approved
12—1673R— Each $14.95

FAUCET with stainless steel swing spout, easy to clean

White plastic base, built-in 12-volt switch. Operates pump when water is turned on. Faucet size. 2-1/2" H. x 4" W. x 1-3/4" deep
15—0124A— Each $9.95

FAUCET. Same as above except base and spout are chrome plated.
14—1600P— Each $6.95

Permanent WATER HEATER BY-PASS KIT for RVs

Easy to install and use

- Makes winterizing your RV quick and easy
- Saves 2 to 3 gallons of anti-freeze each time you winterize your RV

Time and money saver! Nothing to connect or disconnect each season. Just close 2 valves to by-pass water heater (so anti-freeze won't be wasted) when winterizing your RV. Reverse the procedure to re-connect heater to water system. Fittings and tubing are made of space-age materials designed to last the life of your vehicle
15-9984R— Each $15.95

Portable WATER TANKS with WHEELS

- Handle plus large wheels make transporting fresh or waste water to and from vehicle easier
- Extra-large 3" opening for faster dumping
- Choice of 5, 10, 15 or 22-gallon capacity

Molded, high-impact polyethylene. Includes screw-on cap with spigot, 12" x 3/4" diam hose

10-gal. capacity. 30" x 15-1/8" x 6-1/4" deep
18—6197Y— Each $33.95

15-gal. capacity. 36" x 16" x 7-1/4" deep
18—6198W— Each $51.95

22-gal. capacity. 36" x 16" x 10" deep. With tow bracket that permits towing with auto hitch ball
18—6199U— Each $72.95

5-gal. capacity. 19-5/8" x 11-7/8" x 7-1/2" deep. **Does not have wheels.** Easy to carry
14—2523T— Each $21.95

ACCUMULATOR TANK for RV Demand Water Systems

- Minimizes on/off pump cycling ... extends pump life
- Assures a smooth flow of water to faucet

Connects to main water distribution line. Allows modest amounts of water to be drawn without activating pump. 1-1/2-quart capacity. Up to 125 psi operating pressure. Removable plug. Made of F.D.A. listed materials. Meets I.A.P.M.O. plumbing standards. Weighs 1-lb. empty. 4" x 5" x 14". Includes 1/2" barbed "T" fitting, instructions.
14—9721W— Each $21.95

RV PLUMBING ACCESSORIES

[A] **Anti-freeze Pump Kit.** Back-feeds anti-freeze (not included) into water system through faucet. Saves on anti-freeze—lets you winterize water lines without filling water heater or tank. No need to disconnect or blow out lines. Includes pump, faucet connector, flexible hose, suction tube and instructions.
14—7109W— 1-Kit $9.99

[B] **High-pressure Flush Wand** for RV holding tanks. Directs a powerful jet stream of water to clean all areas of holding tank. Attaches to any standard garden hose. Built-in valve controls water supply. 24" long.
14—4942T— Each $5.99

GALLEY HAND PUMP for RVs

With faucet

Corrosion-proof pump provides fast water flow for non-pressurized systems. Lock feature eliminates need to prime. Chrome-plated brass spout and lever; black plastic handle. 3/8" hose connection.
17—9350A— Each $10.95

AIR COMPRESSORS for Pressurized RV Water Systems

Designed for quiet, efficient, reliable performance. No V-belts or pulleys to wear or break. Rubber mounting grommets reduce vibration. Operate on 12-volt automotive current.

[A] **Deluxe Air Compressor.** High-performance electric motor-driven compressor automatically maintains air pressure between 20 and 40 lbs. Pressure switch adjustable from 0 to 65 lbs. Automatic start and stop. Draws only 5 amps. 6-1/4" high x 6-1/4" wide x 5-1/8" deep. Weighs only 5-3/4 lbs., incl. motor.
75—2929Y— Each $72.95

[B] **Air Compressor.** Factory pre-set for 20 p.s.i. "on" and 40 p.s.i. "off". Maintenance-free piston type—never needs lubrication. Draws only 7 to 9 amps during peak operation. Piston and cylinder made of hard anodized aluminum with Teflon® rings for reduced friction; body made of tough, heat-resistant plastic material. 6" high x 6-3/4" long x 3-1/4" wide. Weighs only 3-1/4 lbs. Includes 3-ft. tubing, fittings, in-line fuse and wire connectors.
14—4951U— Each $49.95

Selected Parts and Accessories for All RVs . . .

Frameless . . . Removable DUAL PORT SUNROOF with INTERIOR LIGHT
for Cars, Trucks and Vans

- **Open—twin ports assure both driver and passenger more comfortable air flow, cooler ride**
- **Closed—3/16" tempered glass with gray smoke-tinted mirror finish filters out sun's harmful ultra-violet rays**
- **Exclusive hinge allows glass to be removed completely to give you convertible-type, open-air luxury**
- **Convenient interior light runs full length of the middle bar separating the 2 ports**

Fits perfectly—narrow pre-contoured frame conforms to roof. Weather sealed to eliminate drafts, leaks and wind noise. Foam tape provides leak-free seal of frame to vehicle roof. Push-up locking latches. Heavy-duty aluminum with black anodized finish. With hardware, instructions. Available in 2 sizes.

For all American and imported cars and trucks except Corvette, Mazda Cosmos, Porsche Targa, Volkswagen Beetle, Fiat 131 and pre-1978 Toyota Celica and Corolla Liftbacks.
18—5125P—17" x 35" . . . Each $179.95
18—5127W—20" x 37" . . . Each 189.95

For all American vans exc. 75-85 Ford, 76-85 Chev./GMC, 84-85 Dodge/Plymouth mini vans.
18—5124T—17" x 35" . . . Each $179.95
18—5126Y—20" x 37" . . . Each 189.95

For all 76-85 Chevrolet and GMC vans.
18—5233B—17" x 35" . . . Each $179.95

For all 75-81 Ford vans.
18—5231W—17" x 35" . . . Each $179.95

For all 82-85 Ford vans.
18—6796X—17" x 35" . . . Each $179.95

Crank-open SUN ROOFS
for All American Vans and Full-size Pickups

Glass removes completely

- **Lets in fresh air to keep vehicle cooler**
- **Whisks out hot, stale air for riding comfort**
- **Brightens up interior**
- **Adds sleek, low-profile custom styling**
- **Easy to open and close from the inside**
- **Choice of 3 sizes with gray tinted or mirrorized reflective tempered safety glass**

A single, smooth-operating crank opens window as much as you want, shuts it tight to lock out drafts and weather. D.O.T. approved 3/16" tempered glass is tinted or mirrorized to help block out ultraviolet rays. Glass removes completely gives you the luxury of open-top driving. Roof-hugging heavy-duty aluminum frame has satin black finish. Seals assure a snug weatherproof, watertight fit. With interior garnish, hardware, instructions.

16" x 28" Sun Roofs.
18—6778N—Gray-tinted glass . . . Each $69.95
18—6779T—Mirrorized glass . . . Each 79.95

18" x 30" Sun Roofs.
18—6780A—Gray-tinted glass . . . Each $72.95
18—6781R—Mirrorized glass . . . Each 82.95

16-1/2" x 16-1/2" Mini Sunroof.
14—4950W—Mirrorized glass . . . Each $59.77

ROOF VENTILATORS
for RVs & Vans

Choose free-flow gravity vent or 12-volt

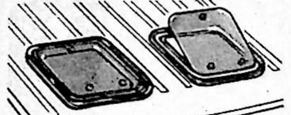

Available in: Smoke, Bronze Amber and Translucent White Lids.

Crank-operated Free-flow Gravity Vent. Opens to 12", Fits 14" x 14" opening. White plastic inside trim. Includes rust-resistant outer flange. Ventilators fit 1-1/2" to 3" roof thickness. Aluminum screen included. Weathertight closing.
17—9150N—Smoke . . . Each $16.95
17—9151T—Bronze . . . Each 16.95
15—3202B—White . . . Each 16.95

Powered Vent (not shown). Same as above but with 12-volt motor-driven 7" diam. fan. Crank to open. Adjusts from 1-1/2" to 3-3/4" roof thickness.
17—9152A—Smoke . . . Each $34.95
17—9153R—Bronze . . . Each 34.95
15—3203P—White . . . Each 34.95

Replacement Lids for above vents only.
14—2339U—Smoke . . . Each $7.95
14—2340B—Bronze . . . Each 7.95
14—2341P—White . . . Each 7.95

MINI SUNROOFS
for Cars, Vans, RVs & Pickups

- **For driver's or passenger's side . . . or to replace any 14" x 14" roof vent**
- **Flush mount . . . extends only 1/4" above roof to assure trouble-free access to any garage**
- **Custom contoured to fit all vehicles perfectly**
- **3/16" thick tempered glass is mirrorized to block out 90% of sun's heat without affecting visibility**

Heavy-duty, black anodized aluminum frame mounts anywhere on roof—and actually strengthens it! Adjustable clamp ring assures a water-tight, no-leak fit. Solar-cool 15" x 15" glass has smooth-ground edges. Snap-type latch allows easy opening, secure closing. Glass removes in seconds. Installs with interior black anodized trim ring exposed or hidden under headliner. Complete with installation sealant, all interior and exterior hardware, template and instructions. Cut-out approx. 16-1/2 x 16-1/2".

For All Cars & Pickup Trucks.
14—8982N— . . . Each **$72.95**

For All Dodge, Plymouth & 75-81 Ford Vans.
14—8983T— . . . Each **$79.95**

For 76-85 Chevrolet & GMC Vans.

For 82-85 Ford Vans.
14—8985Y— . . . Each **$79.95**

BLACK MATRIX SUNROOF
for Cars, Vans & Pickups

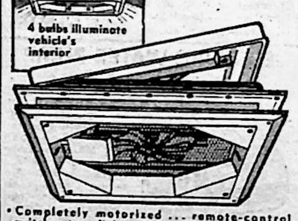

- **Filters approx. 68% of sunlight . . . cuts glare**
- **Single 2-position handle opens sunroof 1-1/2" and 3-1/2"**
- **Aluminum frame available in choice of black wrinkle or polished finish**

D.O.T.-approved 3/16" tempered glass is easily removed and replaced from inside vehicle. Baked-on matrix coating won't scratch or chip in handling. Low-profile frame rises only 1/4" above roofline. Includes template, mounting hardware and instructions. For all American and imported cars, trucks and vans except Chevrolet Corvette, Fiat 131, Mazda Cosmos, Porsche Targa, pre-1978 Toyota Celica & Corolla Liftback, and Volkswagen Beetle & Super Beetle. Shpd. UPS from factory. No C.O.D. orders. **When Ordering, State Make, Year, Model, Stk. No.**

Frame	15" x 30"	Each	17" x 35"	Each
Black	78—3899RF	$109.99	78—3900NF	$129.99

LIGHTED ROOF VENT with MOTORIZED LIFT & FAN
for Vans & RVs

4 bulbs illuminate vehicle's interior

- **Completely motorized . . . remote-control switches turn lights on or off, open and close vent, stop or start fan—all from driver's seat**
- **Fan circulates cooling air even when you're parked**
- **Vent has weathertight closing**

Vent has four 12-volt lights for super interior illumination. Lights are in vent corners so air flow is unrestricted. Powerful 12-volt intake fan has 3" long blades behind rustproof aluminum screen. When off, fan doesn't impede air flow through open vent. Separate switches for lights, fan and vent. White plastic inside trim; rust-resistant outer flange. Opens to 12". Fits 14" x 14" roof opening; 1-1/2" to 3" thick roof. Meets D.O.T. specs.
15—5418B—Translucent White lid
15—5419P—Bronze-Amber lid
15—5420Y—Smoke-color lid . . . Each **$79.95**

Same as above except without motorized lift & remote control.
15—0733R—Translucent White Lid
15—0734X—Bronze Amber Lid
15—0735U—Smoke-color Lid . . . Each **$51.95**

ROOF VENT FAN

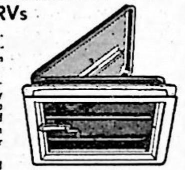

Installs easily in van or RV

- **Converts your present roof vent or scoop into a fan-powered vent**
- **Brings in cool, fresh air . . . increases circulation**

Rugged 5" diameter ABS plastic fan with 5 blades installs quickly inside your present vent. Powerful yet draws only 1/4-amp at 2600 RPM. With wire, switch, hardware and instructions. For 12-volt systems.
15—5161Y— . . . 1-Kit **$14.95**

All Aluminum ROOF VENTILATORS
for Vans & RVs

- **Rust and corrosion-proof anodized aluminum frame AND cover**
- **Low profile—extends only 1-7/8" above roof when closed . . . can't snag on low wires or branches**
- **Crank operated . . . open as little as you like or up to 12"**
- **Complete with removable aluminum screen**

Attractive natural aluminum finish—no paint to chip, peel or blister. Aluminum cover won't crack, shatter or warp in temperature extremes or during hard use. Frame and cover form a leak-proof, water-tight seal. White injection-molded plastic interior garnish. Easy to install—fit standard 14" x 14" rough opening. Detailed instructions included. Choice of 2 sizes.

Fits 1-1/4" to 2-3/8" thick roofs.
14—5081R— . . . Each **$17.99**

Fits 2-1/2" to 3-3/4" thick roofs.
14—5082X— . . . Each **$17.99**

Weather Seal GASKET
for Sunroofs, Bay Windows, Roof Vents

- **Forms a weather-tight seal between window frame and vehicle body**
- **Lasts longer than putty tape or foam tape seals**

Flexible black 1/2" diam. ethylene propylene gasket fits around corners and curves without gapping. Adhesive backing holds gasket in place while tightening down clamp rings. Neat, finished appearance—no excess to trim as with caulk sealants. Paintable. Unaffected by weather, gas, oil or other chemicals. Box includes 20 ft. of gasket (enough for the largest bay window) and instructions.
14—7389U— . . . 1-Box **$9.95**

SLIDING WINDOWS
for Windowless Vans, Campers, Motor Homes and RVs

Let in fresh air and sunlight with removable screened sliding windows. Easy to install in rear or side panels and doors 1/8" to 2" thick. D.O.T. approved smoke tint safety glass and durable screen in leakproof, rustproof frame with drain holes. Automatically locks from inside. **Includes clamp ring, putty tape and instructions.**

[A] **Rectangular Sliders** with black anodized aluminum frame. Fit driver or passenger side.

Frame Opening	Stk. No.	Each

CUSTOM-FIT Window Screens for Vans

- **Provide breezy, bug-free ventilation when you park to camp**
- **Keep out flying insects when van is in motion**

Heavy-duty van window screens are bright coated, non-tarnish aluminum with extruded aluminum frames. Side and rear window screens have built-in zippers for easy access to handles for opening and closing windows. Driver's and passenger's door-window screens slip into window track and are held in place by slightly closing window. Other screens are easy to install inside window frame. Complete with hardware and instructions. Custom-fit for factory-installed windows on the following vans **only**—71-85 Chevy/GMC full size, 74-85 Dodge/Plymouth full-size & 75-85 Ford. **When Ordering, State Make, Year, Model, Hinge-type or Slide-type Side Cargo Door and Window Position Number per illustration Above. Also for Ford, State Standard or Chateau Van; for Dodge or Plymouth, State Standard or Maxi Van; for Chevy or GMC, State whether Standard or Beauville. Note: The stock number you ordered may carry a different identification number on your pkg.**
55—3172Y— . . . Each **$18.95**

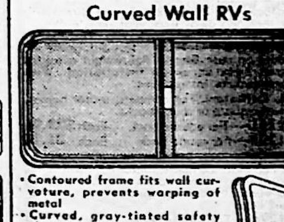

Sun Screen Window Graphics
for Full-size & Mini Vans, Trucks, Cars, Liftbacks & Hatchbacks

Not decals, but durable mylar/vinyl laminated murals that are metallized, perforated and silk screened with full-color designs. Help block sun's heat and glare, protect against sun fade, assure privacy yet won't affect outward visibility. Won't interfere with rear window defoggers. Easy to install—can be removed, reapplied. Includes transfer adhesive tape, trimming blade, instructions. Choice of 2 sizes: 18" x 64" and 27" x 64" (for hatchbacks, liftbacks and other vehicles with extra-large rear windows).

INDEX—SEE BACK PAGES

Selected Parts and Accessories for RVs

PVC FOAM WEATHER STRIP

Self-adhesive foam weather-strip with permanent mylar backing seals out water, dust and wind. Won't stretch. 30-ft. long x 3/16" thick by 1-1/2" wide.
12—2297W— $2.99

REAR STORAGE TRUNK for RVs and Travel Trailers

- Adds 11 cu. ft. of extra storage space
- Easy to reach from ground level
- Trouble-free installation—no drilling of bumper or vehicle body required

Strong, durable white molded fiberglass trunk is approx. 18" deep, 36" long, 30" high ... mounts securely on zinc-plated heavy-duty steel brackets (included). Brackets attach easily to any rectangular or 4" square tubular bumper—only 4 bolts to tighten. Trunk lid fits tightly to keep gear clean, dry ... removes completely for speedy loading/unloading. Secure—4 latches are designed to accept padlocks (not incl.). With hardware, instructions. Shpd. from factory. No C.O.D. orders. Not Mailable—See How to Order Page (Truck Shipments). Shpg. wt. 50 lbs.
97—3054YFE— Each $269.95

WIND DEFLECTORS for Campers, Motor Homes & Trailers

Without deflector, vacuum causes air turbulence at rear of vehicle.
With deflector, vacuum and turbulence are broken up ... reduces drag.

Custom-look 4-1/2" high deflector directs air over the roof and away from your vehicle. Breaks up the vacuum that can cause drag. You'll enjoy better handling and stability ... less dirt, grime will accumulate on rear. Strong, lightweight extruded aluminum. Easy screw-on installation. With mounting brackets, instructions.
72" wide Deflectors. For campers, motor homes, trailers with square or round backs.
18—9126U—For square back ... Each $29.95
18—9128P—For round back ... Each 31.95
90" wide Deflectors. Includes two 45" wide deflectors. For wider campers, motor homes, trailers with square or round backs ... can also be mounted vertically on rear corners to direct air flow along sides.
18—9127B—For square back ... 1-Set $39.95
18—9129Y—For round back ... 1-Set 41.95

Extra-large • Horizontal T-SLIDER BAY WINDOWS For All Vans with Long Wheel Base

[A] Front [B] Angled Rear

- Big 44" wide x 28" high windows add light and air to your windowless van

Heavy-duty, leak-proof 3/4" wide black aluminum exterior frame 1/8" thick tempered safety glass windows, tinted dark gray to reduce glare. Paintable black ABS plastic interior shroud adapts to any wall thickness, snaps easily and securely into window frame. Glass and frame are contoured to curvature of van wall ... meet all D.O.T. and SAE standards and specifications. Installation will not weaken van wall. Top is split bay window, bottom 7" is sliding window with inside lock and removable screen. For all windowless full-size Chevrolet, Dodge, Ford, GMC and Plymouth vans with long wheel base. REAR LIFTGATE SCREEN For All Dodge & Plymouth Mini Vans

No-snag fiberglass screen with vinyl border snaps quickly into place, lets fresh air into van yet keeps out insects, leaves, etc. Does not have to be removed to close liftgate. Unsnaps easily, folds compactly. Some drilling required to install snaps. With hardware, instructions.
12—3336A— Each $59.95

Electric Remote Control SEARCHLIGHT for RVs, Motor Homes, Vans & Marine Use

Dash Control Panel

- Adjusts right/left or up/down from the INSIDE of your vehicle
- Doubles as a floodlight or spotlight to illuminate campsites, back up motor home, read street signs, etc.
- Mounts permanently anywhere on vehicle

The same light used as standard equipment on many deluxe motor homes! Dual-filament bulb converts from 37,000 CP floodlight to powerful 100,000 CP spotlight with the flick of a switch. Another switch on dash-mount panel controls the light's dual motor system. Base mounted motor for 360° horizontal sweep and light-head mounted motor for 350° vertical sweep are permanently lubricated ... 5-1/2" wide mount. Chrome-plated brass with black stippled light housing. Maintenance free: ideal for use in all environments—even areas of high salt-water humidity. 6-1/2" wide x 7" long x 10" high. Includes control panel, mounting hardware, 15-ft. wiring, instructions. Shipped from factory. No C.O.D. orders.
97—0862XF— Each $199.95

Sliding VAN DOOR WINDOWS for Chevrolet, Dodge, Ford, GMC & Plymouth Vans

- Exact replacements for original fixed windows on side of cargo doors
- Available for hinged & sliding side doors

Slides open to allow more air circulation, locks securely when closed. Removable screens keep bugs out. Tempered 1/8" gray-tinted glass reduces glare, keeps interiors cooler ... meets or exceeds D.O.T. specifications. Black aluminum frame is contoured to fit vehicle, won't warp. With instructions.

INFLATABLE CAMPER/CAB CUSHIONS

[A] CAMPER/CAB LINK fits tightly between rear cab window and front of camper window. Does not obstruct window openings so food, beverages and conversation may pass between units ... yet forms a positive seal against rain, dust, wind. Rubber-coated fabric withstands flexing and rubbing. Permits heat and air-conditioning to flow from cab to camper. Provides a quick, safe exit from stationary windows may be removed to leave a permanent link between cab and camper. Heavy-duty PVC vinyl. For the following pickup trucks:
15—0518U—67-85 Datsun, Toyota; 72-80 LUV, Courier, Mazda
15—0519F—73-85 Ford with camper or vertical front shell
15—5471A—73-85 Ford with slanting front shell
15—0518U—82-85 Ford Ranger
15—0520P—73-85 Chevrolet, GMC
15—1864B—73-85 Chevrolet, GMC with slanting front shell less than 3"
15—0518U—82-85 Chevrolet S-10 & GMC S-15
15—0522W—67-72 Chevrolet, GMC, Ford; 72-85 Dodge, IHC if cab and camper windows align; 72-85 Dodge
Above Numbers ... Each $24.95
[B] CAMPER CANOPY/CAB CUSHION stabilizes camper without obstructions to driver's view and without drilling holes in cowling. Camper weight is more evenly distributed on truck frame. Reduces camper bounce, lift, sway. Road noise is reduced because air is prevented from rushing between camper and cab roof. Damage to cab is prevented. Heavy-duty PVC vinyl. Available for the following pickup trucks:
15—0516Y—67-85 Chevrolet, GMC; 72-85 Ford
15—0517W—67-85 Datsun, Toyota; 72-83 LUV, Courier, Mazda; 82-85 Chev. S-10, GMC S-15; 82-85 Ford Ranger
15—0521Y—62-66 Chevrolet, GMC; 67-85 Ford
Above Numbers ... Each $24.95
●Not recommended if distance between cab roof and camper canopy is more than 5 inches.

Mini • Inflatable CAMPER/CAB LINKS for All American & Imported Pickups

- Fits snugly into opening of pass-thru window between pickup truck cab and camper
- 3 tube design forms a positive air and weather-tight seal ... no need for a full-sized cushion

Now you can have your pass-thru window open without excessive noise and vibration. Heavy-gauge white PVC. Easy installation ... inflate, pop into place. To find correct size, measure perimeter of pass-thru opening in window.
Fits window openings up to 57".
14—8922A— Each $14.95
Fits window openings 58" to 66".
14—8923R— Each $14.95
Fits window openings 67" to 72".

Custom-fit • Pop-in CAMPER/CAB BOOT for American & Imported Pickups

Fits snugly in pass-through window opening

- Creates an air and weather-tight "access tunnel" between cab and camper—at a much lower cost than a full-sized cushion
- Pop-in design requires no inflation ... no air valve to puncture
- Choice of 3 colors

Flexible poly rod and hook & loop tabs hold boot securely in pass-through window opening between cab and camper. 27-oz. polyester-backed, vinyl-laminated vinyl forms the "tunnel". Objects, conversation, and heat or air-conditioning can pass freely between cab and camper ... unobstructed. Reduces dust, noise or vibration. Textured vinyl is pliable in cold weather, strong in hot weather.

Extra-wide • Custom-fit JUMBO DOOR VISORS for American & Imported Pickups

- 4" wide—blocks more sun, rain, snow than standard door visors
- Thick .6mm stainless steel won't rust
- Custom contour looks great, fits perfectly

Jumbo visors let you open windows wider, even in bad weather, to: 1) increase ventilation for more comfort, 2) prevent window fogging; 3) reduce air-conditioner use. Easy to install—no drilling or special tools needed. For the following pickups:

Make, Year, Model	Stk. No.

Custom-fit Fiberglass SUN VISORS for Pickups, Mini Pickups and 4WD Vehicles

- Extends out approx. 9" yet won't interfere with forward vision
- Makes driving easier because 50% of sun's rays are prevented from hitting windshield

Heavy-duty hand-laminated fiberglass with great-looking white gelcoat finish. Leave as is or paint to match or contrast with vehicle. Molded-in center scoop for extra strength plus wind relief. Easy pop-rivet installation. Includes heavy-duty large-head rivets, instructions. Custom fit for the following: Chevrolet—all 73-85 Blazers, Pickups and Suburbans; Datsun—all 73-83 620 Pickups; Dodge—all 72-85 Broncos, D-50 and Ramchargers; Ford—all 78-85 Broncos, 72-82 Couriers and 73-85 Pickups; GMC—all 73-85 Jimmy and Pickups; LUV—all Pickups; Mazda—all Pickups; Plymouth—all 73-83 Trailrunners and Arrows; Toyota—all 73-83 Pickups. When Ordering, State Year, Make, Model & Stk. No. Note: The stk. no. you ordered may carry a different identification number on your package.
55—3718Y— Each $69.95

BACKWALL CARPETING with STORAGE POCKETS Custom fit for 69-85 American & Imported Pickups

- Custom tailored to contour smoothly to back wall ... no cutting or trimming needed
- Insulates against heat and cold

Nylon velour carpet with latex backing is fade resistant, non-raveling. Soft, lightweight ... weighs only about 3 lbs. Easily installed with adhesive included. Storage pockets won't stretch out of shape. Two side pockets hold maps, etc. Center pocket for thermos. Long lower pocket stores rifle, fishing rods or tools. Choice of 5 colors: Black, Chestnut Brown (dark), Burgundy Red, Medium Blue and Saddle. See Index for matching floor mats and carpeting. Shpd. from factory. No C.O.D. orders. When Ordering, State Make, Model, Year, Color Desired & Stk. No.
Carpeting for all 69-85 Chev., Dodge, Ford, GMC pickups. Side pockets: 11" x 18"-ea. Lower pocket: 45"-ea. Center pocket: 10" x 12".
78—1668PF— Each $44.95
Carpeting for all Arrow, Courier, Datsun, LUV, Mazda, Toyota and Volkswagen pickups. Side pockets: 11" x 16" each. Lower pocket: 6" x 46". Center pocket: 10" x 12".
78—1669YF— Each $44.95

Fiberglass SUN VISORS Custom Fit for American & Imported Pickups & Vans

- One of the strongest visors you can buy!
- Hand-laminated, heavyweight fiberglass

Extends approx. 8" from top of windshield. Adds custom styling and helps block sun's glare yet won't impair forward viewing. Gray gelcoat finish can be left as is or painted to match. Easy to install—some drilling required. Includes hardware, instructions. Shipped freight pre-paid from factory. Price includes shipping charges. No C.O.D. orders.

Bullet-shaped DRESS-UP LIGHTS for Trucks, Vans & RVs

- **Chromed high-impact ABS plastic housing**
- **Fluted lens (choice of 3 colors) assures maximum light dispersion**

Cab-clearance-style light fits any body contour. Rubber grommet seals out water, dampens lens vibration. Rubber bulb mount absorbs shocks for longer bulb life. 7-7/8" long, 2-3/8" wide, 2-1/2" high. Includes bulb.
81—1930R—Amber lens
81—1931X—Red lens
81—1932N—Blue lens Each **$4.99**

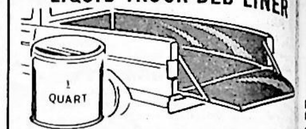

Extra-large • Portable Locking STORAGE CHEST for All Trucks

- **Safe storage anyplace — job site, garage, shop, home**
- **Strong 18 and 20-gauge welded steel throughout**
- **Big 42" long x 17" high x 18" wide**

Holds large gear, tools, etc. Strong side handles for easy transport. Sponge rubber gasket in lid seals out dust, water. Lift-out tray. Paddle handle with key lock (2 keys included). White baked enamel finish. Shipped from factory. No C.O.D. orders. Shpg. wt. 62 lbs. **Not Mailable—See How to Order Page (Truck Shipments).**
96—4111WFE— Each **$109.95**

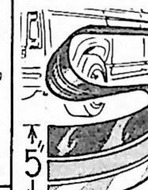

LIQUID TRUCK BED LINER

- Provides a tough, permanent, non-skid texture finish ... resists abrasion, chipping, weathering
- Protects against rust and corrosion
- Helps deaden annoying road noise
- Eliminates condensation that can occur between standard liners and truck bed

Protect your investment ... boost truck's trade-in value! Semi-gloss black coating can be sprayed or brushed on ... adheres to bare metal or painted surfaces. Dries fast with no after-tack or odor. Looks great as is or can be painted. Easy to maintain. About 8 quarts are required for an 8-ft. bed; 6 quarts for a small pickup (LUV, Toyota, Datsun).
14—7962Y— 1-Quart **$11.99**

5" Wide Tri-color STRIPING KITS for Vans, Cars, RVs and Pickups

- Adds a custom visual flair to your vehicle
- Self-adhesive, pre-cut design ... quick and easy to apply
- Choose from six tasteful notice color combinations

Go creative! Extra-wide stripes give a bold, custom look to any vehicle. Goes on easily ... and stays on. The removable clear vinyl top assures fast application and precise spacing of the stripe sections with a single pass. With 5" wide x 22-ft. long striping section, applicator, instructions.

FRONT CAB MOUNT REPAIR BRACKET for 67-74 Ford F150, F250 & F350 Pickups

- **Holds cab at original height ... restores structural integrity**

Strong 12-gauge steel bracket can be bolted or welded to front of cab where firewall and frame meet. Ideal for badly rusted pickups where repair panels won't work. Mounting holes are not pre-drilled on bracket as position may vary due to vehicle rust or damage. Some drilling required. Fits right or left side.
12—4172R— Each **$24.95**

LOWER FILLER PANEL for 73-80 Chevrolet/GMC Pickup, Suburban, Jimmy & Blazer

Replaces rusted, damaged panel between grille and bumper perfectly, easily—no holes to drill. **High-impact ABS plastic is strong yet lightweight ... resists bending and denting, won't rust.** Light sanding required before painting. Use with existing grille, turn signals. **Note:** Won't fit 1980 pickups with chrome grille.
18—8824N— Each **$44.95**

Bronco & Ram BODY SIDE ORNAMENTS

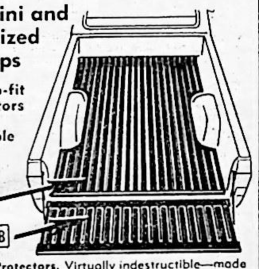

Dress up side, fenders, pillar or rear gate. Beautifully chrome-plated plastic construction has raised 3-dimensional appearance. Installs with 2 push-in fasteners—drilling required. With instructions.

[A] **Bucking Bronco.** Symbolizes unharnessed power. 4" long, 2-5/8" high, 3/8" thick.
14—9469B— Each **$4.98**

[B] **Charging Ram.** Represents tenacious brute strength. 5-1/4" long, 1-3/4" high, 3/8" thick.
14—9470P— Each **$4.98**

Custom-fit BED PROTECTORS & TAILGATE COVERS for Mini and Full-sized Pickups

Trim-to-fit Protectors also available

[A] **Bed Protectors.** Virtually indestructible—made of 3/8" thick nylon/cord blend that won't tear, crack or warp even in temperature extremes. Protect bed ... keep pickup's resale value high. Ribbed on top to keep cargo from sliding, provide sure footing ... bottom ribs permit air circulation to prevent rust formation. Install easily, roll up for compact storage. **When Ordering, State Make, Year, Model Name or Number, Bed Length (6 ft., 6-1/2 ft., 7 ft. or 8 ft.), Stepside or Fleetside & Stk. No.** Shipped from factory. No C.O.D. orders.

Custom-fit Protector for mini pickups. Covers bed area and 3" up front wall. Fits **Chevrolet** 81-85 LUV, 82-85 S-10; **Datsun** 78-83 all, 80-83 King Cab; **Dodge** 81-85 D50, 82-85 Rampage; **Ford** 78-85 Courier, 82-85 Ranger mini-pickups; **GMC** 82-85 S-15; **Isuzu** 81-85 all; **Jeep**®—1985 Comanche; **Mazda** 78-85 all; **Mitsubishi**—1985 all; **Nissan** 83½-85 all, 83½-85 King Cab; **Plymouth** 81-85 Arrow, **Toyota** 79-85 all; **Volkswagen** 80-85 all. Order matching tailgate cover [B] below.
78—3866YF— Each **$77.95**

Universal REPAIR PANELS

Affordable way to repair rusted or damaged floor pans, truck beds, trunks or cargo areas in any vehicle! Strong 20-gauge steel panels are approx. .04" thick. Easy weld-on or rivet-on installation—see Index for rivet guns.
[A] 81—9271P—25" x 28" ... Each $12.95
[B] 81—9272Y—16" x 60" ... Each 16.95

Front Cab Mount REPAIR PANELS for 61-79 Ford & 73-85 Chevy & GMC Pickups

Repair panel bolts on over rusted area in wheel well and holds cab at its original height ... helps solve these problems:
- misalignment of steering column to steering box ... causing tight spots in steering
- loss of clutch adjustment on standard shift models
- wide gaps between door and fender
- shift lever that sticks or fails to work

Strong—made from 16-gauge, cold-rolled steel with welded seams. Easy to install. Instructions.

For 61-64 Ford pickups (not shown). Fits right or left side.
14—9394B— ... Each $24.95

For 65-79 Ford pickups (shown)
18—5486W—Right (passenger) side ... Each $32.95
18—5487U—Left (driver) side ... 32.95

For 73-85 Chevy & GMC pickups (not shown). Fits right or left side.
12—2866Y— ... Each $14.95

Replacement CAB FLOOR SUPPORTS for 67-85 Chevrolet/GMC Pickups

- **Restore structural integrity to rusted floor supports ... eliminate sagging**

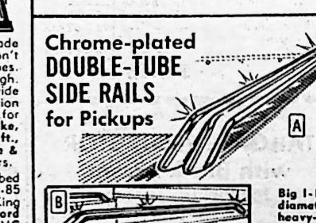

Heavy-duty 16-gauge steel supports are engineered and pre-formed to fit over original supports perfectly. Welding or riveting required. For Chevrolet/GMC 1/2, 3/4 and 1-ton full-size pickups (years indicated below).

[A] **Front Cab Floor Support.** Fits right or left side. For 73-85.
14—9184X— Each **$13.98**

[B] **Front Cab Floor Support.** Fits right or left side. For 67-72.
14—8733B— Each **$13.98**

[C] **Rear Cab Floor Supports.** For 67-72.
14—9185U—Fits passenger's side.
14—9186B—Fits driver's side.
Above Numbers Each **$13.98**

Chrome-plated DOUBLE-TUBE SIDE RAILS for Pickups

[A] **Double-tube Side Rails.** Double-strength to let you haul bigger, bulkier loads safely and securely. Also serve as extra-strong tie-down points while adding a massive custom look. Two double-tube rails plus soft gaskets to protect pickup's finish, hardware, instructions. Some drilling required. Shipped from factory. No C.O.D. orders.

4-ft. Rails for short-bed full-size American pickups with crossbed tool box.
97—3015RF— ... 1-Set $149.95

6-ft. Rails for full-size short-bed American pickups. With 2 support brackets per rail.
97—3016XF— ... 1-Set $169.95

8-ft. Rails for full-size long-bed American pickups. With 2 support brackets per rail.
97—3017NF— ... 1-Set $189.95

[B] **Single-tube Side Rails.** Two rails plus soft gaskets, hardware, instructions. Some drilling required. Shpd. from factory. No C.O.D. orders.

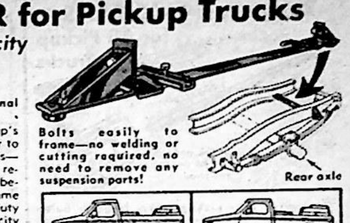

4-ft. Rails for American & imported pickups with crossbed tool box.
97—3018TF— ... 1-Set $74.95

6-ft. Rails for short-bed American pickups & imported mini-pickups. With 2 support brackets per rail.
97—3019AF— ... 1-Set $84.95

8-ft. Rails for long-bed American pickups. With 2 support brackets per rail.
97—3020RF— ... 1-Set $94.95

LOAD HANDLER for Pickup Trucks

Increases pickup's load capacity 3,000 lbs. and more!

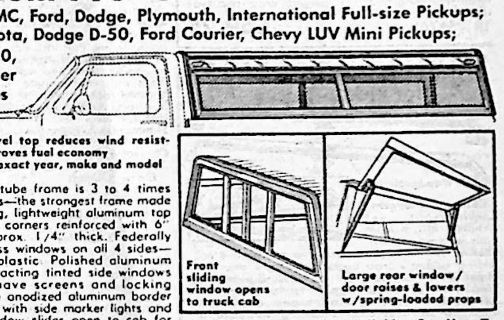

- **Raises bed 6" to 7" when pickup is loaded**
- **Provides a smoother ride than conventional springs whether pickup is loaded or empty**

Performance-tested handler increases pickup's safety and stability. Acts like an anti-sway bar to help prevent fishtailing caused by heavy loads—pickup is easier to handle, driving fatigue is reduced. Also functions as a heavy-duty wedge between the frame and springs to prevent frame from bottoming out. Use handler with heavy-duty springs (see Index) to increase payload capacity even more than 3,000 lbs. Spring steel construction. **Note:** some drilling may be required on 84-85 Ford vehicles. Shipped from factory. No C.O.D. orders.

Aluminum PICKUP TRUCK COVERS

for Chevy, GMC, Ford, Dodge, Plymouth, International Full-size Pickups; Datsun, Toyota, Dodge D-50, Ford Courier, Chevy LUV Mini Pickups; Chevy/GMC S-10, S-15, Ford Ranger Mid-size Pickups

- **Streamlined cab-level top reduces wind resistance and noise, improves fuel economy**
- **Custom fit for your exact year, make and model**
- **Choice of 10 colors**

Extruded aluminum tube frame is 3 to 4 times larger than other tops—the strongest frame made for truck kits! Strong, lightweight aluminum top and trim panels. All corners reinforced with 6" internal gussets approx. 1/4" thick. Federally approved safety glass windows on all 4 sides—won't scratch like plastic. Polished aluminum frames. Sliding, retracting tinted side windows open up to 40", have screens and locking mechanism. 4" wide anodized aluminum border above side windows with side marker lights and reflectors. Front window slides open to cab for easy pass-thru and flow-thru ventilation. Large rear picture window. Rear door raises and lowers with spring-loaded props. Internal gussets in rear main frame for added door support. Automatic locking system may be locked from outside, also has inside handle for exit. Precision sub-assembled at factory ... assembles easily in approx. 20 minutes using sheet metal screws (included). No riveting necessary. Some drilling may be required. With all hardware, liquid sealer for sheet metal screws, instructions. Available in choice of the following colors: Bright White, Off-White, Black, Silver Gray, Dark Blue, Light Blue, Brown, Tan, Red or Dark Green. **When Ordering, State Make, Year, Model of Pickup, Long or Short Bed, Widebed or Stepside, Color Desired and Stk. No.** Shipped from factory in 3 cartons.

No C.O.D. orders. **Not Mailable—See How To Order Page (Truck Shipments).**

97" Side Rails for long-bed American pickups. For long-bed pickups with cross-bed type tool boxes, order 78" rails above.
18—6570W—1-Set **$69.95**

ALUMINUM SIDE RAILS for Pickup Trucks

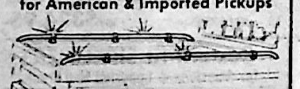

- Choice of 2 lengths
- Lightweight yet strong aluminum rails with woodgrain look vinyl inserts

Customize your truck while providing added cargo capacity. Bright anodized finish won't corrode. Set includes: 2 side rails; heavy-duty center supports for maximum strength; mounting stanchions, corrosion-resistant stainless steel mounting hardware, instructions. Some drilling required for installation. Will not fit El Camino or Ranchero.

6-ft. Rails. For all mini-pickups and short-bed American pickups. One center support per rail.
18—6174X—1-Set **$54.95**

8-ft. Rails. For all long-bed American pickups. Two center supports per rail.
18—6175U—1-Set **$64.95**

Economy SIDE RAILS for American & Imported Pickups

- Let you haul big loads easily, safely ... act as tie-bars or tie-down points ... enhance pickup looks
- Strong 7/8" anodized aluminum tubing

Mount to pickup with sturdy 2" stanchions. Includes 2 side rails, stanchions, all hardware and instructions. Drilling required.

6-ft. Rails. For all mini-pickups and short-bed American pickups.
18—7630X—1-Set $19.95

8-ft. Rails. For all long-bed American pickups.
18—7631N—1-Set $22.95

TAILGATE NETS for All Pickups

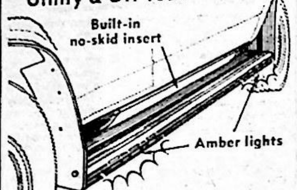

- Closes box end of pickup with minimum air resistance
- Allows truck to be driven with tailgate lowered for better fuel efficiency
- Increases visibility when backing up or hitching trailer

Tough, flexible black nylon netting attaches or detaches quickly with spring-loaded release handles. Functions as a fuel-efficient cargo barrier. Can be used with or without original tailgate—gate may be closed with net installed. Weather and sunlight resistant. Includes all hardware.

For all full-size Fleetside & Styleside pickups.
14—4990B—Each $14.99

For all imported mini pickups & American mini pickups.
14—4991P—Each $14.99

Illuminated ALUMINUM RUNNING BOARDS for Vans, Trucks, RVs and Utility & Off-road Vehicles

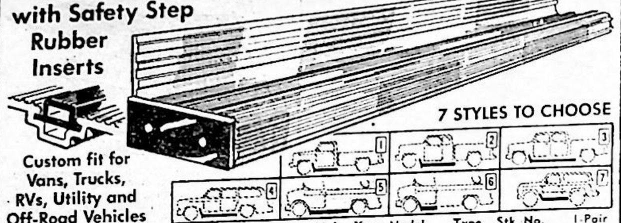

- UNIQUE FEATURE: 6 amber lights on each board light up the night for safer entry
- Massive tread grooves and 1-3/4" wide abrasive strips for safe, sure footing in any weather
- Running boards and built-in mud flaps protect body from rock chips, mud, sand, road tar, salt

Running boards are made of heavy-duty .090 thick extruded aluminum, anodized to prevent rust, pitting, peeling and polished to a brilliant chrome-like finish. Deep-ribbed 6" to 6-1/2" wide surface. Sleek round edges. Amber light clusters wire easily to running light and/or turn signal leads. Pair includes 2 boards, flaps, lights with wiring, hardware, instructions. Boards not extending from wheel well to wheel well have front flaps only and include rubber end caps for that finished look. ♦ Indicates full-length boards with front and rear mud flaps. Stk. Nos. ending in "E" Not Mailable—See How to Order Page (Truck Shipments). Avg. shpg. wt. 34 lbs. WB=Wheel Base.

ALUMINUM RUNNING BOARDS with Safety Step Rubber Inserts

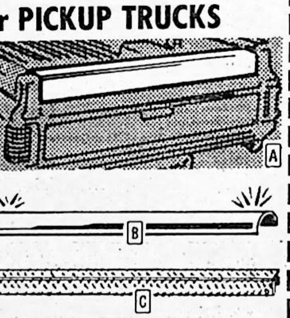

Custom fit for Vans, Trucks, RVs, Utility and Off-Road Vehicles

- Add custom looks and styling to any vehicle
- Make it easier and safer to get in and out of cab
- Deep ribbed surface and shoulders
- Built-in mud flaps protect lower body panels against corrosive salt and slush

Strong, practical, handsome. Made of 1/8" thick extruded aluminum and anodized to resist oxidation, pitting and corrosion. 6-3/4" wide. Deep ribbed surface & 2 full-length raised black rubber inserts provide sure, no-slip footing even in rain, snow or ice. Rounded shoulders are also ribbed for extra good looks. Mud flaps prevent damage from rocks and road grime. Boards that do not extend from wheel well to wheel well have front flaps only. ♦ Include rubber end caps for that totally finished look. Pair includes 2 boards, flaps, hardware and instructions. ♦ Indicates full length board with front and rear mud flaps. Stock nos. ending in "E" Not Mailable—See How to Order Page (Truck Shipments). Prevents dents... cuts road noise!
Custom-fit STEEL SIDELINERS for Mini Pickups

Easy-to-install internal walls designed to:
- protect the walls of your pickup caused by shifting, sliding cargo
- reduce road noise up to 40%
- add customized, good looks to your vehicle

Save on costly repairs! Keep your mini pickup's inside walls looking great! Sideliners are made of heavy 24-gauge steel with moulded, sound-deadening high-density polystyrene inner panel. Contoured to fit perfectly. Black enamel finish can be painted. Easy to install—just remove backing and press into place for tight, permanent protection. Kit includes 6 panels, 3 for each side. Not for pickups with double-side walls. Shipped UPS. SB=Short bed; LB=Long bed.

RUNNING BOARD LIGHTS

- White courtesy light for safer entry/exit
- Amber running lights for night-time visibility

Courtesy light goes on when door is opened, off when door is closed. Running lights operate with parking or headlights. Black high-impact thermoplastic light strips 10" long, mount on back panel of running boards; rubber gaskets seal out moisture. Kit includes 2 strips (each with one courtesy and two amber lights), wire, connectors, hardware, screws and instructions. 12 volt.
12—2875R—1-Kit **$19.9_**

Chrome-plated RUNNING BOARDS with Matching SPLASH GUARDS for Pickups, Vans, Blazer/Jimmy, Bronco, Ramcharger & Suburban

- Running boards make it easy to get in and out of cab ... provide quick access to bed
- Guards protect vehicle against damage from rock chips, tar, road splash and more

Made of 16-gauge steel with bright double nickel chrome plating. Diamond-pattern sculptured surface for safer, skid-resistant footing. Rolled ends provide strength and a totally finished look. Chrome-plated front-end splash guards. Easy install. Pair includes 2 running boards with matching splash guards, mounting hardware and instructions. Shpd. from factory. No C.O.D. orders. Avg. shpg. wt. 50 lbs. Nos. ending in "E" Not Mailable—See How to Order Page (Truck Shipments). ♦ Denotes a full-length wheel-well-to-wheel-well board. For the vehicles below: WB=wheel base.

Fiberglass SPOILER and FENDER FLARE KITS
Custom-fit Wraparound-style for Vans and Mini Pickups

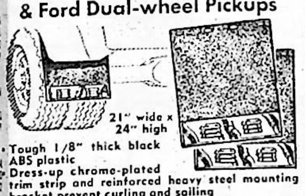

[5]-Pc. Fiberglass Kit gives your van a custom look with a big bonus ... improved handling, performance and gas mileage! Latest one-piece look! Expertly designed front fender flares and spoiler wrap around front end and meet for a clean 1-pc. look. Spoiler is aerodynamically designed to improve traction and stability for better handling and performance. Improves gas mileage by cutting wind resistance, improving air flow, and deflecting air through radiator for a cooler running engine. Van kits feature ducted front spoilers for maximum cooling of front brakes. (Mini pickups have non-ducted spoiler.) Fender flares (approx. 3" wide) add custom width to front and rear fenders, let you use larger, wider tires. All pieces are heavy-duty, hand-laminated fiberglass with white gelcoat finish. Can be used as is or painted to match. Easy to install—spoiler bolts on, flares bolt on, pop rivet or mold in. No cutting required. Shpg. wt. 18 lbs. Shipped via UPS from factory. No C.O.D. orders. **When Ordering, State Make, Year, Model. Sold as complete kits only. Note: The stock number you ordered may carry a different identification number on your package.**

Custom fit the following: **Chevrolet**—all S-10, 75-82 LUV, 70-85 Van; **Datsun**—72-83 620; **Dodge**—79-85 D-50, 70-85 Van; **Ford**—all Courier, 82-85 Ranger, 69-85 Van; **GMC**—all S-15, 70-85 Van; **Isuzu**—81-85 Pickup; **Nissan**—83-85 Pickup; **Plymouth**—79-85 Arrow pickup, 70-85 Van; **Toyota**—73-85 Pickup; **Volkswagen**—79-85 Pickup.

55–2382UF— 1-Kit $129.95

REAR SPLASH GUARDS
designed for All Chevy/GMC & Ford Dual-wheel Pickups

21" wide x 24" high

- Tough 1/8" thick black ABS plastic
- Dress-up chrome-plated trim strip and reinforced heavy steel mounting bracket prevent curling and sailing

High-style protection for dual-wheel pickups. Easy to install—no drilling required. Includes all hardware.

With LOUVERED trim strip (shown).

Custom-fit AIR DAM WITH FLEXIBLE RUBBER SKIRT
for 69-85 Vans & 73-80 Pickups

Helps improve stability, handling and gas mileage by deflecting air up over and around vehicle. Air flow under vehicle is limited, creating a low pressure area ... normal high pressure on top pushes vehicle into closer contact with the road. **Helps improve engine and brake cooling** by pulling air in through radiator and out of engine compartment. Hand-laminated fiberglass dam allows approx. 4-1/2" clearance, has high-gloss black finish that looks great or can be painted to match. 3-1/2" flexible molded black rubber skirt mounts to dam, protects against bumps from curbs, etc. Includes hardware, instructions. Custom fit for the following: **Chevy/GMC**—73-80 1/2, 3/4-ton pickups; 78-85 full-size vans; **Dodge/Plymouth**—71-85 full-size vans; all Caravan, Mini-Ram, Mini-Voyager vans; **Ford**—69-85 full-size vans. **When Ordering, State Make, Year, Model Name or Number, Stk. No. Note: The stock number you ordered may carry a different identification number on your package.**

55–3742Y— Each $74.95

Chrome-plated GRAB HANDLES
for Quarter Posts on Pickups and 4WD Vehicles

Make getting in and out of vehicles with elevated cabs safer, easier. Can also be used as interior assist bars. 12" long, 1" diam. steel tubing, chrome plated to resist rust. Triangular base plates for secure mounting. With 2 handles, 12 self-tapping screws.

15–7180W— 1-Pair $15.95

Flexible Molded Rubber FENDER EXTENSION FLARES for All Vehicles

Choose Black or White for Front and/or Rear Wheel Openings of All Cars, Vans, Pickups, Campers and 4-Wheel-Drive Vehicles.

Space-age synthetic-rubber fender flares add custom contours to any vehicle. Widen fender 3" for a neat, clean look around wide tires ... help put an end to vehicle-code citations for protruding tires too! Rugged flares deflect mud, dirt, gravel and salt to protect body finish. Created for automotive use, ethylene propylene rubber resists oxidation and will not crack or peel. Easy, concealed bolt-on installation; some drilling required. Each flare fits up to 60" wheel-opening arch. (For vehicles with more than 60" arches, see below.)

Choose standard 5/32" thick rubber (black only) or heavy-duty 1/4" thick rubber for extra strength and resiliency (available in black or non-yellowing white).

Each pair of 60" sections or set of four 60" sections of rubber comes complete with razor blade for cutting and trimming, sandpaper for smoothing, all necessary hardware, instructions.

STANDARD 5/32" THICK RUBBER.
19–8866N—Black 1-Pair $16.98
19–8867T—Black. Four 60" sections of rubber per set 1-Set 31.98

HEAVY-DUTY 1/4" THICK RUBBER.
19–6921P—Black 1-Pair $19.98
19–8868A—White 1-Pair 24.98
19–6920B—Black. Four 60" sections of rubber per set 1-Set 37.98
19–8869R—White. Four 60" sections of rubber per set 1-Set 48.98

EXTRA-WIDE—HEAVY-DUTY 1/4" THICK RUBBER. Widens fender a full 5-1/2" around wheel wells.
14–4223Y—Black 1-Pair $34.98

For vehicles with longer than 60" wheel-opening arches. Same as 3" flares above, except 25-foot roll of molded rubber instead of 60" long sections. Hardware not included.

STANDARD 5/32" THICK RUBBER.
19–8870X—Black 1-Roll $34.98

HEAVY-DUTY 1/4" THICK RUBBER.
19–8481T—Black 1-Roll $44.98
19–8871N—White 1-Roll 59.98

WHEEL WELL MOULDINGS
for Vans, RVs and Trucks

- **Choice of all black or black with glistening gold-tone or chrome-like plastic accents**

Easy-to-install 3/8" black vinyl mouldings protect against nicks, dents and rust. Self-adhesive ... weather-tested bonding. Vinyl lip prevents moulding from being damaged. Kit includes one 20-ft. length.

14–4058Y—All black 1-Kit $10.59
14–4057P—Chrome-like insert 1-Kit 11.49
14–4059W—Gold-tone insert 1-Kit 11.49

WHEEL WELL LINERS
for Chevy/GMC, Dodge and Ford Pickups

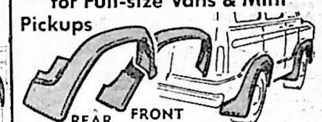

- **Cover inner wheel wells ... protect vehicle & undercoating from salt and rocks**

Durable, 1/16" thick high-density linear polyethelene plastic resists impacts, stress, corrosion—won't rust. Seamless one-pc. construction prevents mud or snow build-up. Sold in pairs for front or rear wheel wells. Some drilling required. With instructions. Available for the following full-size trucks: 73-85 Chevrolet/GMC 1/2, 3/4 & 1-ton pickup, Suburban, Blazer, Jimmy; 73-85 Ford 1/2, 3/4 & 1-ton pickup; 78-85 Bronco; 81-85 Dodge pickup. **Note:** Rear liners not available for pickups with wheel wells on outside of bed. **When Ordering, State Year, Make, Model Name or Number, Body Style & Stk. No.** Shipped FREIGHT PREPAID from factory (price shown includes shipping charges). No C.O.D. orders.

78–4293UFE—Front 1-Pair $79.95
78–4294BFE—Rear (see note) 1-Pair 79.95

Dual-purpose • Custom-fit SUPER FENDER FLARES
for Full-size Vans & Mini Pickups

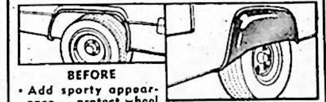

REAR FRONT

Super-wide flares add up to 3" width to front and rear to accommodate wider tires and wheels. Also act as a built-in splash guard to protect the finish of your vehicle. Front flares are approx. 5-1/2" to 9-1/2" wide; rear flares are approx. 11" to 12" wide (widths vary depending on application) measured at bottom rear of flare. Heavy-duty hand-laminated fiberglass. Fiberglass inner well protective section extends upward into well. Includes 5 ft. of fender welting per flare. Smooth white paintable gelcoat finish. Custom fit for the following full-size vans and mini pickup trucks: Chevrolet LUV all, 71-85 Chevrolet & GMC vans; 72½-79 Datsun 620 pickup, 80-83 Datsun 720 pickup, 71-85 Dodge & Plymouth vans; Dodge D-50 pickup; Ford Courier all; 69-85 Ford vans; 71-85 Mazda (exc. rotary), Plymouth Arrow pickup; 75-84 Toyota pickup. Shipped from factory. No C.O.D. orders. **When Ordering, State Make, Year, Model & Stk. No. Note: The stock number you ordered may carry a different identification number on your package.**

55–3777UF—Front 1-Pair $69.95
55–3778BF—Rear 1-Pair 69.95
55–3779PF—Front & Rear 1-Set of 4 129.95

Custom-fit • Fiberglass REAR FENDER SKIRTS
for 73-85 American Pickups, Vans

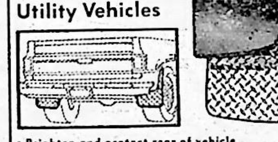

BEFORE AFTER

- **Add sporty appearance ... protect wheel wells**

Heavy-duty fiberglass skirts extend approx. 1" from body, cover rear wheels. Not necessary to remove when changing tire. Easy screw-on installation. Some drilling required. With hardware, instructions. **Note:** not available for Stepside models (wheel wells & fenders outside of bed).

Steel-reinforced RUBBER FENDER FLARES
for Vans, Campers, Pickups and Off-road Vehicles

STEEL WIRE INSERT

- **Widen fenders 2-1/2" for a smooth, custom look around wide tires**
- **Deflect dirt, gravel and salt to protect finish**

1/4" thick black rubber flares are completely weather resistant—won't peel or chip, won't crack in the coldest weather. Heavy-gauge steel wire insert on outer edge adds extra strength, prevents sagging and buckling, maintains contour of flare. Universal fit—60" long, can be trimmed. Pre-drilled holes and flexible, extra-wide outer lip for easy screw-on installation. Some drilling required. With hardware, instructions.

15–7460B— 1-Pair $29.95

SAVE $5.00 on set of 4 flares.
15–7461P— 1-Set of 4 $54.90

Rubber FENDER FLARES
for 2 & 4WD Chevy/GMC Pickups, Blazer & Jimmy

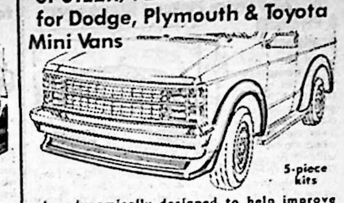

- **Pre-formed curvatures for exact fit on front or rear wheel wells ... no ugly buckles**
- **Super-tough synthetic rubber, custom formed for easy installation**

Black flares widen fenders 3" for a neat, custom look around wide tires. Deflect mud, dirt, and corrosive salt to protect finish. Heavy-duty 1/4" thick ethylene propylene rubber was created specially to withstand harsh automotive use. Resists oxidation ... won't crack or peel. With mounting hardware, instructions. Note: Some trimming of ends may be required.

15–6884U— 1-Pair $32.98

Universal-fit Flares for all vehicles not listed above. Includes two 60" sections, hardware, instructions.
19–6921P— 1-Pair $19.98

SPOILER/FENDER FLARE KITS
for Dodge, Plymouth & Toyota Mini Vans

5-piece kits

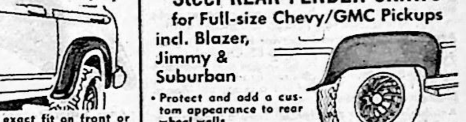

- **Aerodynamically designed to help improve performance, handling and gas mileage**

Custom fit to contours of your vehicle—no trimming necessary. Spoiler and front flares blend together for a clean, one-piece look. Heavy-duty, hand-laminated fiberglass with easy-to-paint white gelcoat finish. Recessed mounting holes on flares provide a clean flush look. Easy to install; some drilling required. Includes front spoiler, 4 fender flares, hardware, instructions. Shipped from factory. No C.O.D. orders.

For all Dodge Caravan, Mini-Ram & Plymouth Mini-Voyager.
97–2516XF— 1-Kit $129.95

For all Toyota Mini-Van Wagon.
97–2517NF— 1-Kit $129.95

Steel REAR FENDER SKIRTS
for Full-size Chevy/GMC Pickups incl. Blazer, Jimmy & Suburban

- **Protect and add a custom appearance to rear wheel wells**

18-gauge cold-rolled steel skirts are primed—some light sanding required before painting. Can be easily removed and remounted for tire changing. Welting (included) cushions skirts from wells. With mounting hardware, instructions. Some drilling required. **Note:** Not available for Stepside or Fenderside (wheel wells and fenders outside of bed).

For 81-85 Chevy/GMC full-size pickups including Blazer, Jimmy, Suburban. With trim strip (not shown).
18–8932W— 1-Pair $109.95

For 74-80 Chevy/GMC full-size pickups including Blazer, Jimmy, Suburban. Without trim strip.
18–8931Y— 1-Pair $99.95

Custom-fit WHEEL WELL FLARE KITS
for 70-85 Full-size Vans

The True Custom Look!

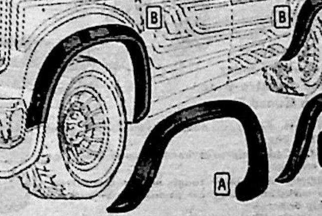

- **Allows use of wider wheels**
- **Protects body from thrown-up rocks, mud and debris**
- **Aerodynamically designed to help improve handling and gas mileage**
- **Heavy-duty hand-layed fiberglass with a tough, gray gelcoat finish—some light sanding required before painting**

Professional-quality Flare Kits are complete with flares for all 4 wheels, plus 2 fender flare extensions. Each unit constructed of hand-layed fiberglass. Flares extend approx. 1-1/2" at top and 4-1/2" at bottom. Conform to and extend body lines. Separate piece for right rear cargo door included for Dodge/Plymouth vans. **NOTE:** These flares are designed as custom-fit mold-on units for the applications shown ... may also be used as bolt-on units using screws or rivets & fender welting. (See Index for screws, rivets, rivet guns, welting.) This is a difficult installation requiring experience in body work to achieve professional looking results. Cannot be returned if modified or altered in any way. Mounting hardware not included. Shpg. wt. 35 lbs. Shipped from factory. No C.O.D. orders. **Not Mailable—see How to Order Page (Truck Shipments).** 1-Kit

97–1898PFE—75-85 Ford Vans 279.95

Mold-on Units only for late model vans. Some trimming required. Front wheel well radius reduced approx. 1-1/2". 1-Kit
97–1896UFE—78-85 Chevrolet/GMC $279.95
97–1897BFE—79-85 Dodge/Plymouth 279.95

Custom-fit URETHANE FENDER FLARES
for Vans & Trucks

- **Protects vehicle's finish against rocks, gravel, dirt and mud**
- **Keeps van or truck looking new**
- **Extend 3" beyond fenders to allow use of wider tires**
- **Set of 4 for complete front and rear protection**
- **Injection-molded urethane is super impact resistant yet amazingly elastic—won't crack, chip or break**
- **Only urethane meets auto makers' specifications for exterior flares**
- **Custom designed for a perfect fit**
- **Available with and without molded-in splash guards**

Dress up and protect your van or truck against kicked-up rocks and road debris. Help prevent rust from starting ... keep vehicle's resale value high. Flares are made of structurally stable urethane that actually flexes under stress—won't crack, break or become brittle even in the coldest temperatures. Reinforced at all stress points and specially tapered for unsurpassed strength ... unaffected by road vibrations. Looks great as is or can be painted to match. Easy bolt-on, pop rivet or screw-on installation—some drilling required. Set of 4 flares for front and rear plus complete instructions. Shipped via UPS from factory. No C.O.D. orders. **When Ordering, State Make, Year, Model and Stk. No. Note: The stk. no. you ordered may carry a different identification number on your package.**

[A] **Fender Flares with splash guards.** Molded-in guards extend inside and 3" below rear of fender wells. Protect vulnerable rocker and quarter panels against salt, mud, sludge, etc ... keep underside of vehicle cleaner to help prevent rust.

Custom fit these vans, pickups and mini-pickups.

[B] **Fender Flares without built-in splash guards.** Custom fit the following: 71-85 Chevrolet vans, 71-85 Dodge vans and 75-85 Ford vans.
55–3316AF— 1-Set $139.[...]

FENDER REPAIR PANEL
for 72-80 Dodge Pickups, Ramcharger, & Plymouth Trailduster

Save the cost of a complete fender or quarter panel! 20 gauge steel repair panel fits over damaged area and is welded or pop riveted into place. Apply body filler (not included—see index) around edges for a "good-as-new" appearance. Fits left or right side, front or rear (must be trimmed to fit front) of 72-80 Dodge Pickups, Ramcharger, and Plymouth Trailduster.

18—6201Y— Each **$34.95**

Custom-fit FENDER FLARES for Vans & Pickups

Heavy-duty hand-laminated fiberglass flares add custom width to front and rear fenders, let you use larger, wider tires. Smooth, white gel-coat finish is ready to install or paint if desired. Easy to install—bolt-on, pop-rivet, or mold in. No cutting required. Add up to 3 inches width.

Available for front and rear for the following: all Chevrolet LUV thru 1979, 70-85 Chevrolet van, 73-83 Datsun pickup; 70-85 Dodge and Plymouth van, 70-85 GMC van, all Ford Bronco & Courier, 69-85 Ford van, 73-79 Ford pickup; all Mazda pickups except rotary.

Available for rear only for: all Toyota Landcruiser and 66-72 pickup; all Volkswagen Bus. **When Ordering, State Year, Make, Model and Stk. No. Note: The stock number you ordered may carry a different identification number on your package.** Shipped via UPS—Not Mailable

55—2030R—Front
55—2031X—Rear 1-Pair **$39.95**

CAB SPOILER
for Chevrolet/GMC & Ford Pickups

- **Acts as a sun visor for back of cab . . . can also be used as a light bar**

Blends into and extends cab lines for a stylish appearance. Hand-laminated fiberglass with paintable white gelcoat finish. Mounts on bed rail behind cab—some drilling required. Hardware, instructions included. Shipped from factory. No C.O.D. orders. **Not Mailable—See How to Order Page (Truck Shipments).** Avg. shpg. wt. 20 lbs.

For the following pickups:
97—2429TFE—73-85 Chevy/GMC 1/2, 3/4-ton
97—2430AFE—All Chevy/GMC S-10, S-15
97—2431RFE—80-85 Ford 1/2, 3/4-ton
97—2432XFE—82-85 Ford Ranger
Above Numbers Each **$149.95**

CAB SPOILERS
for All Chevy/GMC S-10, S-15 and Ford Bronco II, Ranger Pickups

- **Adds distinctive aerodynamic styling**

Sporty roof-mount spoilers direct air up and over vehicle or camper shell. Paintable black ABS plastic. Includes mounting hardware and instructions.

For Chevy/GMC S-10, S-15 (incl. Blazer, Jimmy).
18—8749U— Each **$39.95**
For Ford Bronco II, Ranger Pickups.
18—8750B— Each **$39.95**

Weatherproof • Vertical Illuminated BUMPER GUIDES

- **21" markers with pedestal bases**
- **Add extra lighting to show instantly how far bumper extends on large vehicles**
- **Increase visibility of cycles and snowmobiles**
- **Low current draw**

Waterproof, rustproof guides mount on fenders, bumpers, trailers, snow plow blades, almost anywhere. Fit 1/4" threaded hole or mount thru sheet metal up to 3/16" thick. Each guide has 6 bright long-life (15,000 hour) bulbs in a tough, flexible amber plastic housing. Wire directly into any 12V system. With nut, washer.

14—7423A— 1-Pair **$29.95**

Strong, Lightweight REAR STEP BUMPERS
for Mini Pickup Trucks

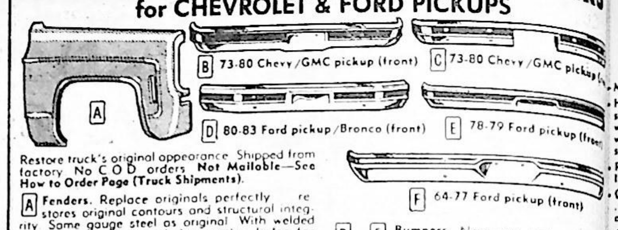

- **Modern design—lightweight for fuel efficiency, yet tough enough for a 400-lb. tongue weight, 4,000-lb. gross vehicle weight towing**
- **Fully welded bumper has 6" platform with ridged top surface for sure, no-slip footing**
- **Meets Class II trailer hitch requirements**
- **Choice of triple-chrome-plated or electrostatically painted non-flaking black satin finish**

Made of strong 16-gauge steel. Reinforced hitch area with single mounting hole. (Hitch balls not included—see Index.) Easy bolt-on installation using existing holes in frame. Uses truck's existing license plate lights. Custom fit for the following mini pickups:

RUNNING BOARDS/FENDER FLARES & SPOILERS
for 71-85 Full-size & Mini Vans, Ford Bronco & Bronco II

Customize and beautify your van! Approx. 7-1/2" deep running boards are made of strong heavy gauge aluminum with milled finish—no-skid tape is included. Fender flares and spoilers are made of tough black urethane that resists cracking, chipping. Not affected by road vibration. Running boards, flares and spoilers look great as is or can be painted to match (some surface preparation required before painting). Mounting hardware, instructions included. Some drilling required. Shipped from factory. No C.O.D. orders. **Not Mailable—See How to Order Page (Truck Shipments).** WB=wheelbase.

A **Running Boards with Full Fender Flares.** Set includes 2 running boards and 4 fender flares that blend together for a smooth, factory-installed look. Order matching spoiler B at right. Avg. shpg. wt. 60 lbs. Chevy, GMC & Ford vans require door extenders (see Index).

55—3263NF— Each **$49.95**

Custom-fit impact-resistant urethane Wraparound SPOILER & FENDER FLARE KIT for 71-85 Vans

Choice of Regular Fender Flares or Extra-wide Splash Guard Flares

- **STYLISH.** Enhances and customizes the good looks of any van
- **PRACTICAL.** Improves handling and increases gas mileage
- **STRONG.** Amazingly tough urethane construction withstands roughest punishments—without a chip or break

Dress up the front and rear of your van while giving it a custom, lowered-suspension look!

SPOILER. Aerodynamically designed to improve gas mileage and performance by cutting wind resistance, increasing traction and deflecting air through radiator for a cooler running engine. Built-in air ducts allow maximum cooling of front brakes. 2-pc. spoiler bolts together securely at middle.

CONSTRUCTION. Spoilers and flares are made of heavy-duty, injection-molded urethane. Remarkably impact resistant yet remarkably elastic. Actually flexes under stress rather than crack, rip or break. Won't become brittle in the coldest temperatures. Continues to look great even after hard off-road use, bumped curbs or any rough treatment that would normally make a spoiler or flare unusable. Can be used as is or paint to match.

SOLD IN COMPLETE KIT ONLY. Custom fit for 71-85 Chevrolet, Dodge, GMC and Plymouth vans and 75-85 Ford vans. Includes spoiler, front and rear flares with molded-in mud guards, installation, painting instructions. Installation hardware not included. Shpd. via UPS from factory.—Not Mailable. No C.O.D. orders. **When Ordering, State Year, Make and Model. Note: The stock number you ordered may carry a different identification number on your package.**

A **Kit with Regular Fender Flares.** Handsome protection for your front and rear fenders. Extend 3" at top and 3" at bottom so you can use wider tires and wheels. Front flares and spoiler wrap around and meet for a continuous 1-piece look. Molded-in, extra-thick mud guards protect finish against mud, gravel, rocks, corrosive salt, any punishment. Guards extend 4" below van at rear and 2" below at front. Rear guards are 10" wide, front are 8" wide.
55—2602NF— 1-Kit **$199.95**

B **Kit with Extra-wide Splash Guard Flares.** Some features as A above, except flares extend approx. 3". Built-in splash guards extend 6" on the front set and 10" on the rear set. Special tapered design protects van's body from rocks, ice, mud, kicked-up road debris, corrosive salt.
55—2873BF— 1-Kit **$219.95**

Wraparound FRONT SPOILER
Custom Fit for Chevrolet, GMC & Ford 1/2, 3/4 & 1-ton Pickups

- **Sleek aerodynamic design adds sporty styling plus reduces wind resistance around your pickup to help improve gas mileage and handling**
- **Super-tough yet flexible ABS plastic**

Easy-to-install 3-pc. spoiler wraps around front end up to the wheel wells, fits your pickup's contours EXACTLY. Great-looking white finish can be painted to match. With hardware, instructions. Shpd. from factory. No C.O.D. orders.

For 73-85 Chevy/GMC 1/2 & 3/4-ton pickups.
97—2387TF— Each **$99.95**
For 81-85 Ford 1/2 & 3/4-ton pickups.
97—2388AF— Each **$99.95**

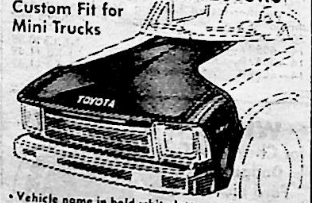

CAB SPOILER
for Chevrolet, Ford and GMC Full-size Pickup Trucks

- **Reduces air drag . . . increases gas mileage**

Tough white ABS plastic spoiler can be used as is or painted. With hardware and instructions.

THE MOST COMPLETE LINE OF GRILLE GUARDS/PUSH BARS & BRUSH GUARDS
for Pickups, Mini Pickups & Jeep® Vehicles

A **Heavy-duty Grille Guard/Push Bar.** Custom accents and blends smoothly with the overall look of your vehicle, yet is rugged enough to protect your vulnerable grille, radiator, lights and front end parts. One-piece welded steel for extra strength—3/8" thick side plates, 2" diam crossbars, .120 wall tubing. Two auxiliary light mounting tabs welded to lower crossbar. Choice of black semi-gloss powder coat finish (electrostatically applied and baked on for maximum durability) or lustrous nickel chrome-plated finish. Installs easily using frame holes and/or bumper mounting bolts, depending on application. Some drilling may be required. Hardware included where necessary. For the following vehicles:

B **Combination Push Bar/Brush Guard Set.** Maximum front end protection from brush and low-hanging branches. Push bar is one-piece welded steel for superior strength—5/16" thick side plates, 2" diam. crossbars. Two auxiliary light mounting tabs welded to lower crossbar. Matching brush guard is made of 1" O.D. steel tube with 5/16" thick side members ... bolts to sides of push bar. Choice of black painted or chrome-plated finish. Installs easily using frame holes and/or bumper mounting bolts, depending on application. Some drilling may be required. Hardware included where necessary. For the following vehicles:

Super Heavyweight Vinyl Custom-fit SPARE TIRE COVER for All Cars, Vans, Pickups and RVs

Brighten any vehicle that has an exterior-mounted tire! Add a rich-looking leather-grained vinyl tire cover. 27-oz. vinyl resists cracking, peeling and freezing. Heavy polyester backing adds tough reinforcement to resist tears and punctures. Seams are chain-stitched with no-rot dacron thread. Elastic hem maintains smooth, snug fit. Rain and condensation drain away ... helps prevent mold and mildew. Easy to clean. Choose solid **White, Black, Brown or Gold-color** ... each with attractive contrast piping. **When Ordering, State Diameter and Tread Width of inflated spare tire (see diagram above), Color of Cover Desired and Stock Number. Note: The stock number you ordered may carry a different identification number on your package.**
55—2572P— .... Each **$11.95**

Low-mount TIRE CARRIERS for Full-size Vans

- **Clamps easily over door hinges—no drilling into hardened steel**
- **Mounts on left (driver's side) door—won't block access to handle on right door**
- **Tire mounts below eye level in center of door—won't impair rear vision ... easy to reach**

Ready-to-install 1-pc. tubular steel carrier has baked-on black enamel finish. Designed for use with continental kits with built-in license holders. (Dodge and Ford vans require relocation of license plate and light.) Includes hinge-mounting plate (with welded-on nut for easiest installation), hardware, instructions. Some drilling into door panel required. For the following full-size vans:
18—9020R—70-85 Chevrolet/GMC
18—9021X—70-85 Dodge, Plymouth (exc. single rear door)
18—9022N—75-85 Ford
Above Numbers .... Each **$19.95**

Universal • In-bed SPARE TIRE CARRIER for All Fleetside and Styleside Pickups including Mini and Mid-size Pickups

- **Carries tire within easy reach**
- **No need to crawl under truck**
- **No need to struggle with rusted nuts**
- **Locks to prevent theft**

Carrier bolts securely to inside of truck bed wall. Lever-action latch with padlocking provision (lock not included) allows easy mounting and removal of tire. Sturdy steel and aluminum construction. Hardware included.
14—4988W— .... Each **$20.95**

Pleated TIRE COVERS for All Vans, Pickups & RVs

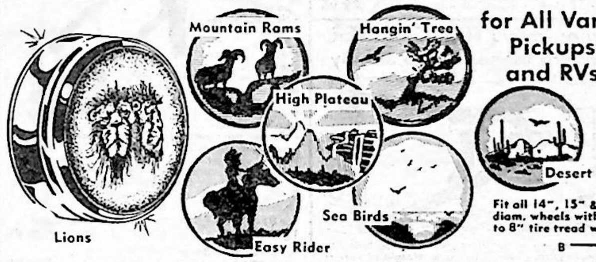

Heavy-duty 27-oz. vinyl, backed with polyester to resist punctures, cracking, tears, peeling. Seams are chain stitched with no-rot Dacron thread. Heavy draw-string for perfect fit. Easy to clean.

Each **$69.95**

FULL COLOR SCENIC TIRE COVERS for All Vans, Pickups and RVs

Cover your tires with class

Beautiful scenic designs are hand air brushed or silk screened on heavy vinyl. Pleated construction with heavy draw-string or a heavy elastic band for a smooth, perfect fit. Specially formulated 27-oz. vinyl with heavy polyester backing resists tears, punctures, cracking, peeling or freezing to give years of original beauty. Seams are chain stitched with no-rot Dacron thread. Rain and condensation simply drain away to prevent mold and mildew. Soap and water washable. Paintings A thru J on white background are framed with rich brown border; paintings A thru J on black are framed with black accented with white welt. Pictures K thru V cover the entire face of tire cover ... no frame. W thru X framed with brown border. For vans, pickups & RVs with exterior-mounted tire. Available in 2 sizes.

INDEX AND ORDER BLANKS—SEE BACK PAGES

FRONT FRAME MOUNT TIRE CARRIER

For Pickup Trucks

Weight of tire and wheel rests on both frame and bumper for a vibration-free ride. Mounts away from grille to permit air flow to cooling system. Includes license holder. Can use stud lock. Heavy-duty steel with rust resistant, plastic-based aluminum finish. Easy to install, clamps to top of bumper, bolts to frame. With hardware, instructions. See Index for tire covers and locks.

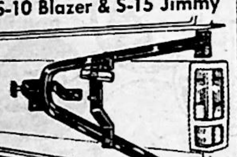

For 65-85 Chevrolet, GMC and 65-82 Ford 1/2, 3/4 & 1-ton pickup trucks. No drilling or welding.

14—7006U—2-bolt tire mount .. Each $26.95
14—7008P—3-bolt tire mount ... Each 28.95

For 65-85 Dodge, 83-85 Ford 1/2, 3/4, 1-ton pickup trucks. Same as above. No welding. Requires drilling 1 hole.

14—7005W—2-bolt tire mount . Each $26.95
14—7010W—3-bolt tire mount .. Each 28.95

Swing-away TIRE CARRIER for S-10 Blazer & S-15 Jimmy

Heavy 14-gauge tubular steel carrier bolts to bumper and rear corner of truck. **Weight of carrier and tire is on the bumper, not the vehicle** ... carrier won't pull away from sheet metal. Swings open to right to allow full use of tailgate. Easy-open/easy-close spring-loaded latch holds carrier in place. Low mounting means (1) tire won't impair rear vision and (2) rear window can be opened without removing tire. Won't block taillight. Includes hardware, instructions. Shipped UPS from factory. No C.O.D. orders.

97—2370RF— .... Each $69.99

Heavy-Duty Aluminum LOCKING TIRE CARRIER for Vans

- **Fits all vans with double rear doors**
- **Strong, lightweight aircraft-quality aluminum**
- **Carries any tire ... even large radial tire!**
- **Chrome-plated all-metal lock is theftproof**

Add interior space to any van. Mount spare tire outside on rear door. Carrier mounts to door hinges and door center lip. Door handle remains accessible; door opens easily. Spare is secured to carrier through 3 stud holes for solid, vibration-free mounting. Durable keylock is secure, weather-resistant. Meets California LRVC. Fits all Chevrolet, GMC, Ford, Dodge and Plymouth vans with double rear doors. See index for spare tire covers.

15-4795U— 1-Kit $32.95

Bumper/Frame-mount SWING-DOWN TIRE CARRIER

POWER ASSISTED

- **Gas strut lets you raise or lower carrier and tire easily with one hand!**

Mounts securely to bumper and frame—not to door. Won't damage vehicle's finish ... won't block rear visibility ... won't interfere with use of rear window. Heavy-gauge steel with baked-on black powder finish. Can be padlocked—lock not included. Easy to install—some drilling required. With hardware, instructions.

Custom fits the following. **Chevrolet**—83-85 S-10 Blazer, 73-85 full-size Blazer, Suburban; **Dodge**—73-85 Ramcharger; **Ford**—80-85 full-size Bronco, 83-85 Bronco II; **GMC**—83-85 S-15 Jimmy, 73-85 full-size Jimmy; **Jeep®**—84-85 Cherokee (XJ Series). **When Ordering, State Make, Year, Model & Stk. No. Note: The stock number you ordered may carry a different identification number on your package.**

55—3497R— .... Each $119.95

TIRE LOCKS for OUTSIDE-MOUNTED SPARE WHEELS & AUTO SPARE TIRES

Fit All RVs, Trucks, Vans and Cars

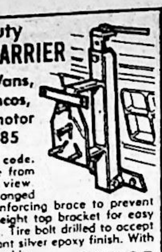

Locks wherever spare wheel is mounted with stud and nut. With 2 keys. **Chrome Plated.**

14—7937P— .... Each $4.98

Heavy-duty FRONT TIRE CARRIER

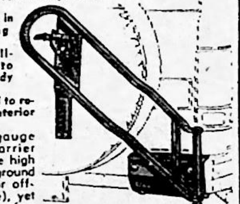

for All Pickups, Vans, Suburbans, Broncos, Blazers & Mini-motor Homes thru 1985

Meets Calif. vehicle code. Low profile keeps tire from obstructing driver's view. Heavy-duty 3-1/2" flanged steel channel and reinforcing brace to prevent twisting. Adjustable height top bracket for easy 3-bolt wheel mounting. Tire bolt drilled to accept a padlock. Rust-resistant silver epoxy finish. With separate license plate holder.

15—5598A— .... Each $32.95

Frame/Bumper-mount SWING-AWAY TIRE CARRIER for S-10 Blazer, S-15 Jimmy & Bronco II

- **Mounts in existing holes**
- **No drilling into side body panels**
- **No need to remove interior panels**

Heavy-gauge steel carrier holds tire high off the ground (ideal for off-road use), yet won't interfere with normal operation of rear window (except when some oversized tires are used). Spring latch prevents carrier from swinging out accidentally ... built-in stop prevents tire from swinging into side of vehicle. Won't block taillights or license plate. Baked-on black enamel finish. Can be padlocked—lock not included.

For 83-85 Chevy S-10 Blazer, GMC S-15 Jimmy.
18—8992P— .... Each $89.95

For 83-85 Ford Bronco II.
18—8993Y— .... Each $89.95

Fold-down REAR TIRE CARRIERS

for All Mini Motorhomes, Travel Trailers & Other Vehicles with 4" Square Bumpers

Quick-change tire carrier keeps your spare tire out of the luggage area ... lets you remove spare in seconds for fast tire changing. Drops down for easy access to trunk. Self-locking latch. Easily installed with hand tools. Zinc plated to resist rust, corrosion. Fits up to 4-1/4" square bumpers.

For all 5 and 6-lug wheels with up to 5" center hole.
15—3095P— .... Each $26.95

For 4-lug Fayette and Dexter wheels with 9-7/16" bolt pattern.
15—3096Y— .... Each $26.95

For 8-lug deep dish with 6-1/2" bolt pattern.
15—3691W— Each $31.95

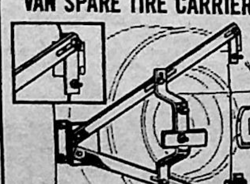

FRONT TIRE CARRIER for All Pickups, Vans & 4WDs

Weight of tire rests on bumper—mounts away from grille to allow air to flow thru radiator. Heavy-duty steel with rust-resistant, aluminum plastic-base finish. Easy bolt-on installation—no drilling or welding. License plate holder, hardware and instructions included. See Index for tire cover and wheel lock. Fits 65-85 Chevrolet, GMC, Ford, Dodge 1/2, 3/4 & 1-ton pickups, 69-85 full-size Chevrolet Blazer and Ford Bronco, 74-85 Dodge Ramcharger, 70-85 full-size GMC Jimmy, 63-85 Jeep® Cherokee, Commando and Wagoneer, 74-85 Plymouth Trailduster and Toyota Landcruiser (exc. Station Wagon).

14—7007B—2-bolt mount ..... Each $17.95
14—7009Y—3-bolt mount ..... Each 19.95

Clamp-on VAN SPARE TIRE CARRIERS

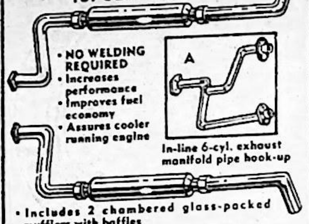

- **Increases interior cargo space ... adds styling to van's rear**
- **Choice of chrome-plated or silver epoxy finish**

Clamps over hinges—no drilling into hardened metal. Tire mounts 6-1/2" away from door for easy access to handle. Fits right or left doors. Weld-free construction eliminates potential safety problems due to bad welds. Similar to carrier offered by factory as option. Only drilling required is into sheet metal. See Index for spare tire locks and covers. Fits 70-85 Ford, GMC, Chevrolet and Dodge vans with double-doors.

17—9700X—Silver epoxy .... Each $18.95
18—5067U—Chrome-plated .... Each 26.95

DUAL EXHAUST SYSTEM for JEEP® Vehicles

- **NO WELDING REQUIRED**
- **Increases performance**
- **Improves fuel economy**
- **Assures cooler running engine**
- **Includes 2 chambered glass-packed mufflers with baffles**
- **Bolts on to stock exhaust manifolds**

Replaces single exhaust system. Reduces back pressure—engine breathes more efficiently, delivers top power and uses less gas. Oversized exhaust pipes (2" diam. for 232 & 258 6-cyl., 2-1/4" diam. for V6 & V8) for smooth, unrestricted exhaust flow. Easy bolt-on installation. Kit includes exhaust pipes, 2 mufflers with baffles and mounting hardware. ♦ See inset A above.

Extra-heavy-duty SHOCK ABSORBERS for 2 & 4-Wheel Drive Pickups, Vans, RVs and Off-road Vehicles

- **Extra control, comfort and performance for your vehicle ... extra safety for you**
- **Big 1-3/8" piston—90% more working area than standard 1" shocks**

Specially designed to meet the constant and severe performance and stress tests put to your pickup, van or RV. Check these features:

- ✓ Big 1-3/8" piston—90% more working area than standard 1" shocks, 1/3 more working area than most heavy-duty shocks.
- ✓ This bigger working area gives you a longer lasting shock that does a bigger and better job of controlling vehicle motion, with far less internal working pressure.
- ✓ 60% more shock fluid than even heavy-duty shock absorbers ... runs cooler, provides better handling, more vehicle stability.
- ✓ Designed to provide more consistent control, more fade resistance, more constant shock action/reaction, better handling and firmer roadability under the toughest driving conditions, while providing a smooth, comfortable ride under all driving conditions.

Note: Always replace shocks in pairs.

For these 2 WHEEL DRIVE vehicles only:

Polyurethane BUSHINGS for 2WD & 4WD Trucks, Mini Trucks & Jeep® Vehicles

- **Outlast, outperform stock rubber bushings**

Eliminate the "play" common to rubber bushings—vehicle handles better, responds faster. Tough, brightly colored polyurethane withstands rough off-road use, prevents suspension damage caused by bushing failure. Nos. ending in "F" shipped from factory; no C.O.D. orders.

[A] Leaf Spring Bushing Set. Provides greater spring stability off-road, reduces vibration on the street. Includes 8 polyurethane bushing and inner sleeves (where required)

Heavy-duty LEAF SPRING ASSEMBLIES for 4WD & JEEP®

LEAF SPRINGS for 4WDs

- **Heavy-duty springs have either more leaves or are made of thicker gauge steel than original springs**

Replace springs to correct leaning, bottoming and rear end sag. Install in pairs to distribute weight equally for a more level ride. Steering is easier, safer and you have complete control. Tough SAE alloy steel is oil tempered and heat treated to assure uniform strength and spring action. Feathered edges and proper-silencing inserts for smooth, quick action. Shipped from factory. No C.O.D. orders.

Stop wheel hop! COIL SPRING TRACTION BARS for 65-70 General Motors Cars

- **Eliminate wheel hop for improved traction during hard acceleration, better handling, cornering**
- **Align driveshaft for a safer, easier ride**

Heavy-duty ductile iron bars for cars with rear coil springs. Control spring action. With all hardware and instructions.
85—9036T— ... 1-Pair **$46.95**

Complete SUSPENSION LIFT KITS for Pickups, Mini Trucks, Jeep® Vehicles, 2 & 4WDs

The Complete Suspension Lift Kits on these 2 pages are computer designed and tuned to improve every aspect of on and off-road suspension performance ... and to hold up under conditions that cause stock and other systems to fail. High lift increases ground clearance, gives more wheel travel, space for big tires.

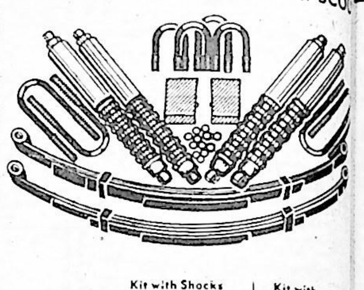

✓ **The Ultimate Off-road/On-road Gas Shock Absorber.** This light truck shock has the industry's largest displacement and fluid volume! Over 5/8" diam. piston shaft, 1-5/8" hardened piston. Over 200 psi gas pressure assures smooth on or off-road operation, eliminates foaming caused by temperature extremes. 10-stage valving **automatically** adjusts to changing road conditions. Seals and mud scrapers lock out dirt so internal components can continue to work efficiently. Extra-thick cylinder walls; zinc-chromate coated to prevent corrosion; double arc-welded mounts; polyurethane bushings for your specific vehicle; over 30" extended length (for some applications). With polyurethane dust boots.

✓ **Computer-designed Coil & Leaf Springs.** Spring steel. Leaf springs hand-fitted, dampened with built-in neoprene pads. Leaves tapered laterally & cross-sectionally to "give" on the road but stiffen-up when needed.

✓ **Heavy-duty U-Bolts.** 5/8" thick 1541 hardened steel with roll-cut fine threads.

✓ **Cast T6 Aluminum Billet Lift Blocks.** Hardened steel pins. 40,000 psi test.

3" & 4" LIFT SUSPENSION KITS FOR JEEP® & SCOUT

Gives maximum fender well clearance for large tires. 4" lift kits for Jeep® pickups, Wagoneer and Cherokee consist of 4-leaf positive arched front springs to replace negative arched stock springs, 4" Tenzaloy® billet aluminum lift blocks for rear, hardened U-bolts with heavy-duty deep nuts, washers, and all hardware. 3" lift kits for Jeep® CJ Series and Scout (not shown) consist of 4 replacement positive arched springs and alignment wedges only (hardware not necessary). With instructions. Order with or without 4 special gas shocks. See Tire Clearance Guide and Shipping Note on opposite page.

TIRE CLEARANCE GUIDE

The following is a guide to tire sizes allowed by various lifts of the vehicles listed. Further modifications required to accommodate maximum tire sizes are indicated. If a larger tire size is not listed, it will not fit or would necessitate extensive body modifications. **Note:** actual tire sizes may vary from brand to brand. To avoid damage, never put new tires into service without thoroughly checking for adequate clearances.

General Motors Vehicles. 4" lift: up to 15.36 tires without modification, 15.38 with minor fender modifications, 17.40 with sheet metal modification/cut-outs. **2-1/2" lift:** up to 14.32 tires without modification, 14.35 with sheet metal modification/cut-outs.

Ford Vehicles with coil or leaf springs. **4" lift:** up to 15.36 tires without modification, 15.38 with minor fender modifications, 17.40 with sheet metal modifications/cut-outs. **2-1/2" lift:** up to 14.32 tires without modification, 14.35 or 15.36 tires with coil spring (14.35 only with leaf springs) with minor fender modifications.

Ford E Bronco 4" lift: up to 14.32 tires without modification, 14.35, 15.36 or 15.38 tires with sheet metal modification/cut-outs.

Dodge 4" lift: up to 14.35 tires without modification, 15.36 with minor fender modifications, 15.38 with sheet metal modification/cut-outs. **2-1/2" lift:** up to 13.50 tires without modification, 14.32 with minor fender modifications.

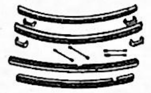

International Scout II 3" lift: up to 14.32 tires without modification, 14.35 with sheet metal modification/cut-outs.

Jeep® Vehicles. CJ 3" lift, TK 4" lift: up to 14.32 tires without modification, 14.35 or 15.36 with minor fender modifications. **TK 2-1/2" lift:** up to 13.50 tires without modification, 14.32 with minor fender modifications.

SHIPPING NOTE

Nos. ending in "F" or "FE" shipped from factory. No C.O.D. orders. Nos. ending in "E"—Not Mailable—See How to Order Page (Truck Shipments).

ADD-A-LEAF 2½" LIFT KITS

Kit consists of 2 leaf springs for front or rear, spring clamps where necessary and center bolts. Recommended for sagging front end, snow plow, or overall 2-1/2" lift.
Either add-a-leafs or lift kit may be used on rear. Add-a-leafs not intended for use with other devices to lift vehicle. Longer shocks recommended but not required. See Shipping Note below.

5" TO 6" LIFT SUSPENSION KITS FOR CHEVROLET, GMC & FORD PICKUPS

Ride tall for extra off-road safety and more highway comfort! Include two 6-leaf positive arched springs, two 4" cast iron blocks (tapered and offset to compensate for driveshaft angle), two 2" rear helpers, 8 heavy-duty U-bolts, brake line extenders, steering arm modification (to compensate for height). Order kits with or without 4 heavy-duty 1-5/8" bore extra-long gas shock absorbers. Longer shocks must be used with these lift kits. **Note:** Height of lift varies by vehicle. Some 81-84 models may need shims to get driveshaft angle back closer to stock position. See Shipping Note below.

REAR END LIFT or LOWERING KITS for Vans & Pickups

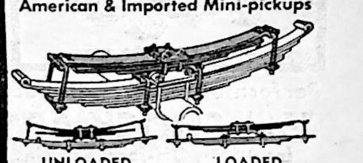

- **For ALL vans and pickups (up to and including 3/4-ton) with rear leaf springs**
- **Raises rear of vehicle if rear leaf springs are mounted above rear axle**
- **Lowers rear of vehicle if rear leaf springs are mounted below rear axle**

Kits raise or lower rear end of vehicle 1-1/2" or 2". To raise or lower rear end even more (up to 4-1/2"), order additional lift blocks sold below. Gives additional tire clearance ... reduces rear wheel hop. Kit includes one pair of heavy ductile iron or aluminum lift blocks, 4 U-bolts and all hardware and instructions.

Kit with 1-1/2" iron blocks.
87—9781B— ... 1-Kit $33.98
Kit with 1-1/2" aluminum blocks.
85—6870Y— ... 1-Kit $27.98
Kit with 2" aluminum blocks.
85—6871W— ... 1-Kit $29.98
Extra 1-1/2" Lift Blocks for kits above. Each pair will raise or lower van or pickup an additional 1-1/2". Maximum lift: 4-1/2".
87—9782P—Iron ... 1-Pair $19.98
85—6873B—Aluminum ... 1-Pair 16.98
Extra 2" Lift Blocks for kits above. Each pair will raise or lower van or pickup an additional 2". Maximum lift: 4-1/2". Aluminum.
85—6874P— ... 1-Pair $17.98
U-bolt Kit. Includes four 10-1/2" U-bolts, nuts.
85—6872U— ... 1-Kit $13.98

Progressive Rate REAR HELPER SPRINGS for Pickups, Vans, Motor Homes and American & Imported Mini-pickups

- **Unique design provides support for loads up to 3,000 lbs. yet gives a factory-smooth ride when your vehicle is not loaded**
- **Control rear end drag and bottoming**
- **Easy bolt-on installation—no special tools required, no welding or drilling**

You won't know these springs are installed until you need their back-up support for heavy loads. Here's why:
Unloaded vehicle (see illustration above). There's space between the kit's main spring and the secondary (or support) leaves, yet the **normal arch of the OEM spring is virtually unchanged.** Suspension is not affected. No stiffening up of ride.
Loaded vehicle (see illustration). The arch of the OEM spring decreases to the point where the kit's lower support leaves (the area of maximum spring strength) support the kit's main spring. You'll be able to carry loads up to 3,000 lbs., yet never experience a harsh ride.
Kit needs adjustment only at time of installation. Includes 2 progressive rate helper springs, all mounting brackets, hardware, instructions.

For the following American full-size pickups, vans, motor homes:

The strongest shocks we sell! SHOCK ABSORBERS for 4WD Vehicles with 2" to 4" LIFT KITS

- **Massive off-road shocks stand up to rough, tough abuse**
- **Outer cylinder wall is 40% thicker than normal to fend off gravel, debris**
- **Huge 1-5/8" sintered-iron piston**
- **Chromed and hardened piston rod ... nearly 3/4" in diameter!**
- **Enormous fluid reservoir dissipates heat fast to prevent fade, maintain control under constant stress**

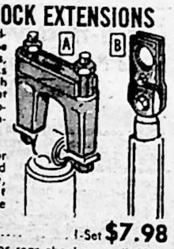

Performance-engineered to deliver sure on-road/off-road stability on 4WD vehicles with vertical lift kits. Giant piston rod is hardened for strength, chromed for rust resistance ... and double-welded—first projection welded, then arc welded for long-lasting durability at the joint. Coil-spring 9-stage valving prevents fluid frothing ... shocks provide control under severest punishment. Inner cylinder head "O" ring helps keep fluid from bypassing valving for added fade resistance. **For 4WDs with lift kit only.**

BODY LIFT KITS for Mini Trucks

Give your mini truck that "Baja look", by raising it a full 2" or 3" without altering the stock suspension! These lift kits provide the extra clearance you need for rough terrain yet won't affect your truck's handling or maneuverability. Allow use of large tires without any changes to fender wells. Kits complete with cab and bed bolts, extended heater hose, attaching hardware, instructions and special column spacers to compensate for increased vehicle height.
Note: This is a difficult installation requiring two people and approximately one half day. All 3" kits require tack welding to truck bed. On all kits some modification of the firewall for the steering column and floor pan for the shifter is required. On Ford Courier welding is required on the front bumper. WILL NOT FIT ANY VEHICLE WITH AIR CONDITIONING.

ONE-PIECE TIE ROD for 46-71 Jeep® CJ Series

Eliminates "camming" or toe-in of wheels while driving. Gives a more stable, controlled ride. Use existing original tie rods.
19—6583Y— ... Each **$16.49**

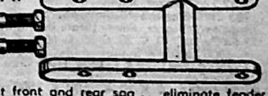

3" BODY LIFT KITS for Full-size Pickups, 4x4s, JEEPS®, Chev. S-10/GMC S-15, Ford Ranger, Bronco II

Raise your truck a full 3" ... give it that "Baja look". Designed and tested to withstand the toughest off-road punishment. These lift kits provide the extra clearance you need for travel over rough, rocky terrain plus allow use of big tires (up to 15.36) or wheels without fender well modifications. Large 3" x 3" graphite and glass-impregnated nylon body blocks provide maximum support with minimum weight increase. Include all necessary blocks, bolts, spacers, adapters, instructions. A body lift kit can alter your truck's center of gravity, putting unusual stress on the stock suspension; it is strongly recommended that this kit be used with a suspension lift kit (sold separately in this section) to help smooth out your ride. **Note: Installation requires 2 people and approximately one half day.**

Performance! Strength! Superior handling!

1⅝" SHOCK ABSORBERS
for 4WDs, Off-road Vehicles, Vans and RVs

- **MASSIVE 1-5/8" PISTON**
- **Engineered for strength, stability and handling control over rugged terrain and back roads**

Built to take the hardest jolts ... and still leave you in full, safe control of your vehicle. The secret is in the huge 1-5/8" bore. It provides anywhere from 38% to 160% more working area than Regular (1-3/8", 1-3/16", 1") bores. With work loads spread over a greater area, your shocks control the ride better with less effort and with lower internal temperature and pressure. Chromed hardened 11/16" piston rod adds strength. Super firm to provide maximum impact and bounce resistance over the worst possible terrain.

- O-ring piston seal prevents wasted shock compression, reduces foaming and friction
- 10% larger oil capacity than 1-3/8" bore shocks reduces fading, assures greater ride control
- Multi-lip rod seal prevents fluid leakage

LIMITED (OWNERSHIP DURATION) WARRANTY An exchange of shock absorbers will be made (not including installation costs) if our Super Firm Heavy-Duty Shock Absorbers wear out while the original purchaser owns the vehicle on which the shocks were originally installed. This warranty applies only to vehicles for personal use. Warranty does not apply to vehicles used for commercial purposes.

55—2695R—Front
55—2696X—Rear ... Each $19.98

Extra-heavy-duty GAS SHOCK ABSORBERS
for 2WD & 4WD Trucks, Vans and RVs

- **Huge 1-3/8" bore (with 4-stage valving) has 1/3 more working area than gas shocks for passenger cars**
- **60% more fluid and gas capacity than heavy-duty shocks for better cooling, improved handling, increased stability**
- **Cold-drawn hardened and chromed steel rod for added strength**

More comfort on the highway! Greater control and safety on the back roads! These rugged 1-3/8" piston shocks combine the exceptional performance of a gas shock with the extra-large capacity of a big-bore shock. They're pressurized with nitrogen gas to:
...assure a quiet, controlled and safer ride at all times
...provide faster response, greater stability under all conditions
...reduce bottoming out on severe impact to save wear and tear on your suspension and to help you avoid costly repairs
...act like a booster spring (when gas is compressed) to minimize sway
...keep tires on the road to cut down on tire wear.
Features: O-ring piston seal, multi-lip rod seal and all-weather fluid.
Important note if you are buying shocks for BOTH front and rear: Before installing shocks, check identification numbers on the packages against the numbers on the shipping papers to determine which shocks are for front and which are for rear.

4-WHEEL to 2-WHEEL SELECT-O-DRIVE HUBS
for ALL Makes of 4-Wheel Drive Vehicles

49.95 1-Set of 2

Have Advantages of Both 4-Wheel Drive and 2-Wheel Drive

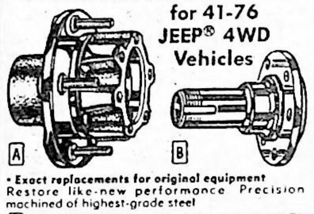

- **More useful engine power!**
- **More miles per gallon!**
- **Less tire and bearing wear!**
- **Makes steering easier and safer!**
- **Reduces costly repairs to front end drive!**
- **100% performance—even in mud or snow!**

With these hubs installed on front end drive you can quickly change (by merely hand turning dial) from 4 wheel drive to 2 wheel drive or from 2 wheel to 4 wheel drive. Use 2 wheel drive for easier, faster going on highway—for ordinary use. With Select-O-Drive in 2 wheel drive position, front end becomes a free wheeling unit ... eliminates unnecessary drag. Gears are constructed of heat treated high tensile alloy steel. Sold in sets of 2, complete with instructions for easy installation.

Custom-fit • Heavy-duty Dual HYDRAULIC STEERING STABILIZER KITS for 54-85 4WD Trucks

- **Designed specifically for off-road use**
- **Completely eliminates front end shimmy and steering wheel "kick" caused by ruts, potholes**
- **Improves handling especially on lifted trucks or when traveling over rough terrain**
- **Easy to install—no special tools required**

Engineered for safety! These built-to-last stabilizers keep you in total control when you've upset the steering balance by replacing your original tires with larger, wider ones. Chrome-plated induction-hardened 9/16" piston rod 2-3/8" outside diameter. Complete with 2 stabilizers, heavy-duty brackets, all hardware, instructions. See Index for stabilizer boots. Note: All stabilizers are mounted exactly as shown above, except stabilizers for Toyota which are stacked on top of each other.

4-to-2 WHEEL DRIVE CONVERSION KITS for Full-time 4WD Vehicles

Disengages front drive line for economical 2-wheel driving

- **Reduces power loss due to front drive line**
- **Saves fuel ... you'll go farther on a tankful**
- **Front tires wear better and last longer**
- **Saves wear and tear on front drive line parts**

Easy to install using common hand tools. Transfer case is not removed. Premium-quality stainless steel gear replaces rear output differential assembly. Your stock floor-mounted lever will let you select 2 or 4-wheel drive ... no extra lever necessary. Normal high and low range selection not affected. Includes gear, 2 locking front hubs, seals, bolts and thrust washers, instructions. For the following full-time 4WD vehicles with New Process 203 transfer case.

Save gas! Convert full-time 4WD to 2WD any time you want!

4-to-2 WHEEL DRIVE CONVERSION KITS
for JEEP® Wagoneer, Cherokee, Pickup & CJ7 Quadratrac®

- **Dramatically improves mileage**
- **Built-in 16% overdrive assures most economical highway driving for even greater gas savings**
- **Front axles and tires wear better, last longer**
- **Saves on costly front end drive repairs**
- **Helps reduce power loss due to front drive line**
- **Allows use of regular ATF fluid instead of more expensive Quadratrac® fluid**

Enjoy the best of both 2 and 4 wheel drive! Part-time 2WD conversion is a snap ... just set the vacuum switch (mounted in glove compartment) on 2WD and unlock hubs; set switch on 4WD and lock hubs to get full lock-out 4WD. Installs easily in approx. 2-1/2 hours. Includes 2 locking hubs, 41-tooth sprocket, chain, sprocket plate and bolts, coupling slider, rear output shaft, coupling hub, thrust washer, seal and instructions.

Fits 73-79 Jeep® Wagoneer, Cherokee and pickup trucks.
37—9498U— ... 1-Kit $384.9[illegible]

Fits all Jeep® CJ7 with automatic transmission. Hubs not included—order below.
37—9499B— ... 1-Kit $339.9[illegible]

Locking Hubs for Jeep® CJ7.
87—9017A— ... 1-Set of 2 $4[illegible]

CUSTOM-FIT • HEAVY-DUTY HYDRAULIC STEERING STABILIZERS
for 2 & 4WD Vans, Trucks, JEEP® Vehicles

- **Completely eliminates front end shimmy**
- **Prevents steering wheel "kick" caused by ruts, poor road shoulders, potholes**
- **Reduces wear on tires and front end parts**
- **Makes your vehicle easier and safer to handle at all times ... over all roads**
- **Easy to install ... no special tools required ... no welding or modifications**

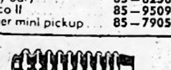

Stabilizers act like powerful shock absorbers to protect steering system against excessive side-to-side motion. Tires and front end parts last longer, perform better. No need to worry about front wheels suddenly, and dangerously, turning out. You won't be constantly fighting the steering wheel. Stabilizers keep you in total control when you're carrying unbalanced loads or when you've upset the steering balance by replacing your original tires with larger, wider ones. With heavy-duty brackets, instructions.

Heavy-duty ROLL BAR PADDING & COVER KIT
for Pick-ups, 4WDs, Mini Trucks and Cars

- **Added protection for you and your passengers when driving over rough terrain**
- **Easy lace-on installation ... covers roll bar completely—no exposed gaps**

Put a soft cushion of 3/8" thick, high-density foam padding between yourself and your steel roll bar. You'll feel safer, more secure—especially during bouncy, off-road trips. With heavy-duty fire-retardant black vinyl cover to add a final customizing touch to your vehicle. Fits all 2" to 3" O.D. roll bars. Easily trimmed to fit hard-to-reach places. Kit includes 15 ft. of padding and cover plus easy-to-follow instructions.
15—6785T— ... 1-Kit $39.95

Rugged ABS Plastic FENDER EXTENSIONS for JEEP® CJ Vehicles

Black 2" flared fender extensions can't crack or tear. Gas and chemical resistant. Tough enough for off-road use! Easy to paint. With all fasteners, instructions.

For Jeep® CJ5, CJ6 & CJ7.

Chrome-plated BUMPERS
Custom-fit for JEEP® CJ5 & CJ7

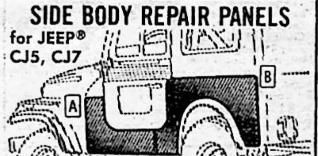

- **Beautiful custom touch that protects vulnerable front end over rough, rocky terrain**
- **Available with holes (shown) for a sporty showroom look or without holes**

Heavy-duty steel, plated to resist rust. 4-1/8" high x 2" deep. Fits front with no modification. Installation on rear requires mounting brackets sold below. Include hardware and instructions.

Length	Bumper with holes Stk. No.	Each	Solid bumper Stk. No.	Each
42"	18—5473U	$59.95	18—5475R	$59.95
54"	18—5474B	69.95	18—5476X	69.95

Rear Bumper Mounting Kit. Required for rear installation.
18—6340U— ... 1-Kit $15.95

SIDE BODY REPAIR PANELS for JEEP® CJ5, CJ7

Affordable way to repair rusted or damaged areas. 18-gauge cold-rolled steel panels fit over existing panels ... can be welded or riveted securely in place. (See Index for rivet guns.) Shpd from factory. No C.O.D. orders.

[A] **Front Panels.** Approx. 40" long, 6" high at back, 17" high at front. With holes to mount doors.
97—2829UF—For 76-83 CJ5 (Driver's side)
97—2828WF—For 76-83 CJ5 (Passenger's side)
97—2827YF—For all CJ7 (Driver's side)
97—2826PF—For all CJ7 (Passenger's side)
Above Numbers ... Each $32.95

[B] **Rear Panels.** Approx. 41" long, 19" high at back, 6" high at front. For all CJ7.
97—2831PF—Driver's side
97—2830BF—Passenger's side ... Each $59.95

Heavy-duty Steel FLOOR SUPPORT CHANNELS for JEEP® CJ5 (also fits most cars & pickups)

- **Restores structural integrity to rusted floor supports ... eliminates body sag**

Flanged 16-gauge steel supports fit over original floor channels on Jeep® CJ5. Can also be used to repair rusted floor and trunk supports on most cars and pickups (check dimensions for fit). 36" long—cut to desired length and weld or rivet to underside of floor.
18—8169N— ... Each $9.98

Custom-fit • Chrome-plated ROCKER PANEL GUARDS for All JEEP® CJ5 & CJ7

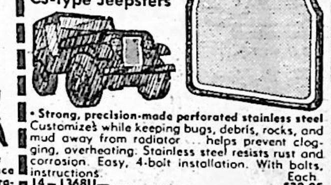

- **Protect vehicle and improve its appearance**
- **Designed for street or off-road use**

Heavy-gauge steel. Bolt easily, quickly to body. Bolts included.

[A] **Side Panel Guards** cover from front edge of door to rear wheel well. For these Jeep®:
18—4338P—CJ5 series
18—4339Y—CJ7 series ... 1-Pair $29.95

[B] **Rear Rocker Panel Guards** for all CJ5 and CJ7 Jeep® vehicles.
18—4340W— ... 1-Pair $28.95

Deluxe Stainless Steel Grille Screen
for ALL JEEP® CJ5, CJ6, CJ7 & CJ-type Jeepsters

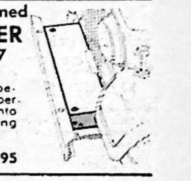

- **Strong, precision-made perforated stainless steel**

Customizes while keeping bugs, debris, rocks, and mud away from radiator ... helps prevent clogging, overheating. Stainless steel resists rust and corrosion. Easy, 4-bolt installation. With bolts, instructions.
14—1368U— ... Each $32.95

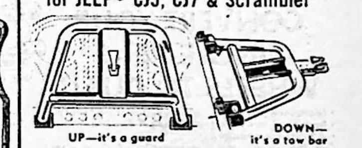

See Index for Other Items

Custom-fit • Chromed FRAME COVER
for JEEP® CJ5, 7 & Scrambler

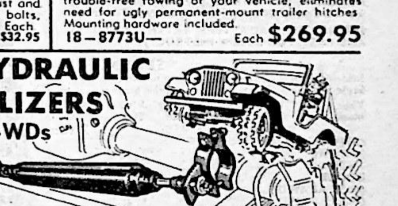

Fills the ugly space between your front bumper and grille. Bolts easily into place with existing hardware. Steel.
18—8917X—
Each ... $59.95

Chrome-plated FRONT END GUARD/TOW BAR
for JEEP® CJ5, CJ7 & Scrambler

TWO UNITS IN ONE! 2-1/2" diam. (.090 thick) tubular steel unit bolts easily to frame—no drilling. Locks into upright position to protect front end over rough terrain ... won't impair driver's vision. Lowers quickly to become a Class II rated tow bar for gross loads up to 3500 lbs. Accepts 1-7/8" coupler ball (not included—see Index). Allows trouble-free towing of your vehicle, eliminates need for ugly permanent-mount trailer hitches. Mounting hardware included.
18—8773U— ... Each $269.95

Heavy-duty HYDRAULIC STEERING STABILIZERS
Custom Fit for JEEP® 4WDs

Easy bolt-on installation—no drilling or welding required—super-strong axle-to-tie-rod mounting

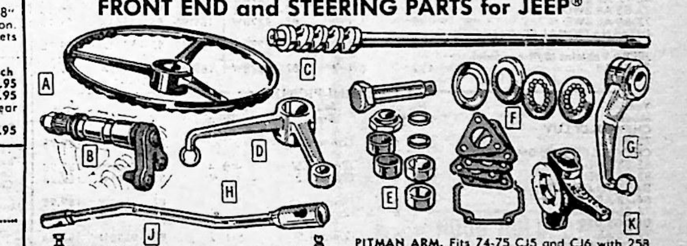

- **Available with 5/8" or 1/2" diameter chrome-plated piston rod**
- **Helps keep vehicle under control for safer, more comfortable driving on the street or off-road**
- **Absorbs shocks to steering system, minimizes impacts and helps eliminate shimmy**
- **Reduces tire wear, doubles the life of steering system parts**
- **Zinc-plated, heavy-gauge steel mounting brackets and grade 5 fasteners for lasting strength**

Rugged hydraulic construction prevents steering wheel "kickback" or "spinning" caused by bad roads, chuck holes or off-road hazards. Prevents sudden dangerous turns of front wheels ... eliminates need to fight the steering wheel. Includes all hardware, instructions.

For all 41-85 Jeep® 4WD vehicles (exc. pickups, station wagons & Cherokee). Each
85—9889N—5/8" diam. piston rod ... $29.95
85—9887R—1/2" diam. piston rod ... 24.98

For 74-85 Jeep® pickups, station wagons & Cherokee. Each
85—9888X—5/8" diam. piston rod ... $29.95
85—9040N—1/2" diam. piston rod ... 24.98

96—3530YFE— 1-Kit $65.95

CUSTOM-FIT MOLDED RUBBER FENDER EXTENSION KITS for 4WDs & Pickups

Extensions widen fender by 3"—give neater appearance when using extra wide tires, help deflect mud, dirt and gravel. Long-life black synthetic rubber won't crack or peel, resists oxidation. Custom-fit length—some trimming of ends required. Kit consists of 4 fender extensions, screws and instructions. Choice of thicknesses:
- Standard thickness—designed for normal street use and easy-going off-road use.
- Deluxe heavy-duty 1/4" thickness—where extra strength and resiliency are needed. Reinforced to reduce buckling, sagging and loss of shape. Full-length finishing lip wraps around fender for a smooth custom finished appearance.

Strong! Lightweight! Good Looking! FIBERGLASS FULL TOPS for 55-85 JEEP® CJ5, CJ7 and CJ8 Scrambler

- Designed to fit YOUR vehicle perfectly
- Molded double-wall fiberglass with vinylized finish outside . . . luxurious as it is tough
- Lighter in weight than metal tops . . . reduces overall body weight for improved gas mileage
- Available in black, white, tan or nutmeg
- All windows are made of tempered safety glass . . . won't shatter upon impact

Don't sacrifice style for strength and safety! These fiberglass tops are constructed with unique features to give you both.

DOORS. Extra-strong, double-wall fiberglass construction with maxi-view windows. Upper windows slide open. Doors are easily removable.

TOP. Tough fiberglass, reinforced across the roof and down the door jambs for maximum strength and protection. Built-in rain gutter drains off water. Strong enough and roomy enough to install a sunroof. Double-wall construction air pocket adds warmth and quiet. Removes quickly for comfortable summer driving.

TAILGATE. Hinged design and stay-open latch allow easy access to cargo. Easily removed.

WINDOWS. Made of tempered safety glass. Rustproof aluminum frames. Sliding windows detach by lifting them out of hinges.

BONUS FEATURES. Doors and tailgate have recessed, key-locking handles. Black anodized aluminum hardware. Bolt-on installation . . . some drilling required. Tops complete with mounting hardware, keys and detailed instructions. Shipped from factory. No C.O.D. orders. Shpg. wt. 250 lbs. Not Mailable—See How to Order Page (Truck Shipments). For CJ5 Models, State Year, Make, Body Style (i.e. Renegade, Standard) & Stk. No.

Fits all CJ5.

Heavy-duty Vinyl-coated DELUXE CONVERTIBLE TOPS

for JEEP® Vehicles, Jeepster, Blazer, Jimmy, Bronco, Ramcharger, Trailduster, Scout, Brute & Landcruiser

USE TOP 4 WAYS FOR EXTRA RIDING COMFORT

1 Use with top, sides down (see at left) for protection against rain, snow, cold, wind.

2 Exclusive! Side windows roll back & inside (not up) for summer comfort. Clean exterior lines—no bulky rolls outside vehicle ... protects windows & flaps, provides easy access to cargo. (Note: This feature is on Jeep® & Toyota only. Jeepster and all other vehicles have roll-up side windows.)

3 On hot, sunny days, roll sides & back out of the way for best ventilation. Top blocks sun's rays.

4 Ride free & breezy with top down ... and you don't lose any space in back with top folded down.

THE FINEST TOPS OF THEIR KIND ON THE MARKET TODAY, CUSTOM TAILORED FOR YOUR VEHICLE!
- Pre-shrunk extra-heavy-duty fabric with flexible vinyl coating for long life and good looks
- Durable .040 vinyl windows approved in all states for perfect visibility
- Electronically-sealed windows and 1-pc. single seams for tight 'round weather-tight protection and comfort
- Extra-wide removable doors with curved zippered windows that roll out of the way and store neatly
- Rear window has covered zipper to keep cold air out, heat in ... rolls up and stores neatly inside
- Panoramic wraparound side windows
- Choice of black, white, denim blue, denim tan or nutmeg

The easiest of all tops to handle! Adjustable bow release bracket lets you raise or lower top in minutes. Secures easily to the windshield. Front hooks into the groove on windshield and forms a weather-tight seal—no pushing, no threading, no snapping. (Tops for Chevrolet Blazer and Dodge Ramcharger snap to windshield frame.) Complete with doors (except those indicated with ♦), bow, all hardware and instructions for trouble-free installation. See How to Order below.

HOW TO ORDER

(1) Determine whether or not the tops and boots shown here are for your vehicle. (If in doubt as to year or model, see HOW TO IDENTIFY YOUR JEEP VEHICLE in this section.)
(2) State year and model.
(3) State color desired.
(4) State stock number and style.
Convertible tops are shipped from factory. No C.O.D. orders.

LIMITED (24-month) WARRANTY
If, within 24 months from the date of purchase the top fails due to a defect in workmanship or material, we will replace the top charging you 1/24 of the price of the top for each month from the date of purchase, based on original purchase price. This warranty does not cover fading of the top, discoloration, scratching or cracking of the plastic windows or labor charges.

CONVERTIBLE TOP BOOTS

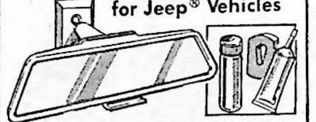

Heavy-duty, flexible, vinyl-coated pre-shrunk fabric completely protects folded top. Resists water and mildew. With built-in storage pocket to hold top bows. Choice of white or black—see denim colors below. Shipped from factory. No C.O.D. orders.

Heavy-duty WINDSHIELD LATCHES for JEEP® Vehicles

Replace your worn latches with these heavy-duty latches. Bolt to existing windshield and dash mounting holes. Provide the extra support needed for rough off-road use, yet won't interfere with normal raising or lowering of windshield ... and they don't need the constant adjustments stock latches do. Cast aluminum brackets with ball-burnished finish. Black high-impact hold-down knobs (with attached stud) screw into dash brackets. Include mounting bolts, hardware.
For Jeep vehicles with rounded fenders, including MD/M38A1, CJ5, CJ6.
12—3936Y—Shown 1-Pair **$36.95**
For Jeep vehicles with squared fenders, including MB, MC/M38, CJ2A, CJ3A.
12—3937W—Not shown 1-Pair **$36.95**

HEAVY DUTY SINGLE SPEED Electric Wiper Motor for Jeep® VEHICLES

Replaces vacuum motors. Quickly and easily convert your vacuum controlled wipers to an electric wiper motor. When in operation, electrically controlled wipers maintain a constant, even sweep of windshield which offers greater safety during acceleration and through all types of driving conditions. Silent motor has full 90° swing, 1-3/4" from center of shaft to side mounting hole, 3-1/4" long in-line center shaft. Adaptable to all top and cowl installations. With built-in switch, shaft stem seals, washers, nut and instructions. Fits either passenger or driver's side. For all 41-64 Jeep® MB, CJ models.
Must use with wiper arm and blade below.
89-9918Y—6 volt ... Each $17.95
89-9919W—12 volt ... Each 17.95
89-9920U—24 volt ... Each 17.95
WIPER ARM & BLADE FOR ABOVE. Stainless steel — rustproof. Adjustable swivel connector for proper blade angle.
89-2873B— ... Each 4.98

4-WAY CONVERTIBLE TOPS for JEEP® Vehicles and Toyota Landcruiser

1/2" thick foam sewn in door for snug fit

Velcro® strips [illegible] top tightly to [illegible]

Tops with sunroof available for 55-85 CJ5 & 76-85 CJ7

- **All around Velcro® runners bond top securely to body ... virtually eliminate snaps**
- **Completely seal out weather, wind, insects; eliminate windflap and irritating noise**
- **Doors have 1/2" foam weatherstripping sewn into top, bottom and sides**

Tops are made of extra heavy-duty, pre-shrunk fabric with flexible vinyl coating for long life, good looks—the same as original-equipment material. Durable .040 vinyl windows are approved in all states for perfect visibility. Wraparound side windows for full vision. Rear window rolls up to store inside. Covered zipper keeps cold air out, heat in. Extra-wide removable doors have curved-zip roll-up windows. Electronically-sealed windows and 1-pc. seams add extra protection against weather. Adjustable bow release bracket lets you raise or lower top in minutes. Front of top hooks and locks into windshield groove for a tight fit without threading or snapping. Includes doors, bows, hardware, instr. Choice of **Black, White, Denim Blue, Denim Tan** or **Nutmeg.** See Index for matching accessories. Shipped from factory. No C.O.D. orders. **When Ordering, State Year, Model, Style, Color Desired and Stk. No.**

1 Use with the top and sides down for snug protection from rain, snow or cold. Wards off wind and dust, too!

2 **Exclusive! Windows roll back (not up)!** Side windows roll back and inside for greater summer comfort. Gives clean exterior lines—no bulky rolls outside vehicle. Protects windows and flaps, allows access to cargo.

3 On hot days, roll both sides and back out of the way for maximum ventilation. Heavy-duty fabric top wards off sun.

4 Ride free and breezy with top completely down ... and you don't lose any space in back with the top folded down.

LIMITED (24-month) WARRANTY
If, within 24 months from the date of purchase the top fails due to a defect in workmanship or material, we will replace the top charging you 1/24 of the price of the top for each month from the date of purchase, based on original purchase price. This warranty does not cover fading of the top, discoloration, scratching or cracking of the plastic windows or labor charges.

HOW TO IDENTIFY YOUR JEEP® VEHICLE TO DETERMINE THE CORRECT MODEL AND YEAR

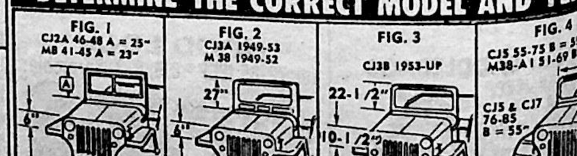

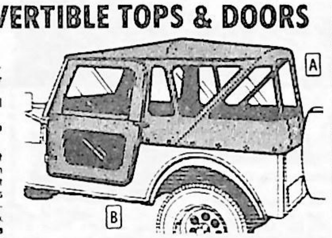

FIG. 1 CJ2A 46-48 A = 25" MB 41-45 A = 23"
FIG. 2 CJ3A 1949-53 M 38 1949-52
FIG. 3 CJ3B 1953-UP
FIG. 4 CJ5 55-75 B = 59" M38-A1 51-69 B = [illegible]; CJ5 & CJ7 76-85 B = 55"

Fig. 1 & 2. These models have interchangeable windshields. Regardless of Jeep® model number, style of windshield determines which top will fit vehicle.
CJ2A and MB models have windshield frame made of round tubular steel. Frame corners are square ... glass is in two pieces.
CJ3A and M38 models have a frame made of rectangular steel tubing with rounded corners and a 1-pc. windshield glass.
Fig. 3. CJ3B has a higher hood than older models. Windshield is made of rectangular steel tubing with 1-pc. glass.
Fig. 4. CJ5 and M38-A1 models have rounded hood and fenders instead of the square look of older models. From 1955-75 all windshields are the same. CJ5 windshield was changed in 1976 and newer models need a different top than those made in 1975 or before. The 76-85 CJ5 and CJ7 differ in wheelbase length: CJ5 is 84" long, CJ7 is 94" long.

Custom-tailored CONVERTIBLE TOPS & DOORS for 76-85 JEEP® CJ7

- Tops and doors are made of pre-shrunk, extra-heavy-duty fabric with flexible vinyl coating for long life and continued good looks
- Durable .040 vinyl windows are approved in all states for perfect visibility
- Electronically-sealed windows and 1-pc. single seams for snug fit, weather-tight protection

[A] **Convertible Tops**—the finest on the market today! Tops can be used 4 ways: (1) with sides and back down for total protection against rain, snow, cold, wind, dust; (2) with side windows rolled back and inside vehicle (not up) for comfortable summer driving; (3) with sides and back rolled out of the way for maximum ventilation plus maximum protection against sun's rays; (4) with top completely down. **The easiest of all tops to handle!** Adjustable bow release bracket lets your raise, lower top in minutes. Top secures to windshield—front hooks into groove on windshield without pushing, threading or snapping and forms a weather-tight seal. Rear window has covered zipper to keep cold air out, heat in. Panoramic wraparound side windows. Includes bow, hardware, instructions. See warranty and How to Order at right. Order matching doors below or use with any original equipment steel doors.
78—4299AF—Black ... 1-Kit $259.95

78—4302TF—Nutmeg ... 1-Pair 136.95

LIMITED (24-month) WARRANTY
If, within 24 months from the date of purchase, the top or doors fail due to a defect in workmanship or material, we will replace the top or doors charging you 1/24 of the price of the top or doors for each month from the date of purchase, based on original purchase price. This warranty does not cover fading of the top or doors, discoloration, scratching or cracking of the plastic windows or labor charges.

HOW TO ORDER
(1) Make sure the vehicle you own is a 76-85 CJ7. (If in doubt as to year or model, see HOW TO IDENTIFY YOUR JEEP VEHICLE in Jeep section—see Index for page number.)
(2) State year, model, color desired, stk. no.
Tops and doors shipped from factory. No C.O.D. orders.

Convert your Jeep® into a Year 'Round Vehicle ...Add Comfort & Warmth

Insulated Deluxe Aluminum FULL TOPS for JEEP® CJ5 & CJ7

1946-75 CJ5

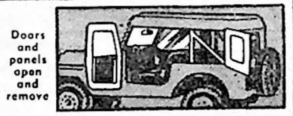

1976-85 CJ7 and CJ5

Side door windows roll up on CJ7, slide back on CJ5

Both side door and rear doors have key locks

Durable enamel finish inside and out

Doors and panels open and remove

LOOK AT THESE GREAT FEATURES!

- Constructed of lightweight, yet rugged .050" aluminum for years of service
- All seams are spot welded
- Fully insulated with 1/8" ENSO® FOAM for warmth ... shuts out road noise too
- Watertight ... rust and corrosion resistant
- Door and side panels (exc. on early CJ5) remove or open for easy loading
- All windows are made of tempered safety glass ... won't shatter upon impact
- Windows in doors slide back or roll up
- All doors are key-locking ... 2 keys included
- Painted inside and out with 2 coats of durable birch white enamel
- Automotive drip-type channel runs around roof to drain off water
- Clears all factory-installed roll bars

MUFFLERS & EXHAUST PIPES for 55-77 CORVETTE

EXACT ORIGINAL EQUIPMENT REPLACEMENTS

- Restore original sound quality and original performance

Heavy-duty Mufflers. Double-wrapped body with aluminized outer wrap and end caps for long life. Reverse-locked body seams and rolled and spun end caps for leak-free sealing and strength against blowouts. Internal flow tubes (with specially designed inverted conical perforations and sound-dissipating baffles) dampen sound without sacrificing power or acceleration.

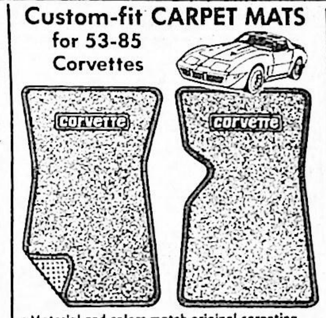

Heavy-duty Tubular Steel Exhaust Pipes. Install easily without cutting or modifications. Installation clamps and hangers not included—see Index.

Abbreviations. AT=automatic transmission; ST=standard transmission; Ext.=extension; L=left side; R=right side; L/R=left or right side.

Accessories for MERCEDES-BENZ CARS

Additional items for Mercedes-Benz throughout this Catalog—See Index

Duplicate of Original LEATHER SEAT REUPHOLSTERY for MERCEDES-BENZ CARS

- Custom fit to exact factory specifications
- Ready to Install—no alterations needed

Replace worn-out upholstery ... restore interior to like-new condition. Seat reupholstery kits contain everything needed to recover BOTH front bucket seats, including rear backrest panels and headrest covers (where applicable). Upholstery is made of finest-grade cowhide leather (or vinyl where standard) which duplicates original material in graining, weight and texture. Seat inserts have the same raised double stitch, basket-weave, rosette or pinpoint embossing as original (depending on model). Fiber padding, thread, pleating, mounting strips and wire hold-downs are same as original. Instructions included. To complete your restoration, door panel recovering kits, boot covers, leather hides and matching rear seats are also available. NOTE: If you are restoring the entire interior, we suggest that you order all leather accessories at the same time. Dye lot variations can cause color-matching problems if items are purchased at different times.

FOR MERCEDES 190SL

Front Bucket Seat Leather Reupholstery Kit. Colors: Black, Dark Blue, Bamboo, Beige, Parchment or Red. See How to Order below.
For 190SL with ch. nos. thru 121.040.6501937.

Make permanent, undetectable repairs on vinyl, leather and carpeting in minutes!

Professional-type REPAIR KIT with MICRO-HEAT BEAM CURING TOOL

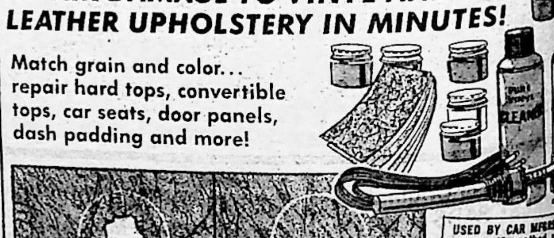

- **Micro-heat Beam Tool pinpoints heat EXACTLY where you want it . . . makes invisible, professional-looking repairs every time**
- **Repairs and restores anything made of vinyl, leather, fabric or carpeting**
- **Complete with everything needed to match both texture and color of damaged area**
- **Hundreds of automotive and home uses**

Make your own repairs and save! Mend cuts, tears, scuffs, open seams . . . repair holes, cigarette burns . . . restore abused upholstery to like-new color, graining, strength. It's easier than ever with this professional kit. And the results are truly amazing! The repairs are so undetectable, you won't be able to tell where they've been made. The uses for this kit are endless. AUTOMOTIVE REPAIRS. Car seats . . . hard tops . . . convertible tops . . . door panels . . . headliners . . . dash padding . . . van furniture . . . carpeting . . . padded steering wheels. HOME REPAIRS. Vinyl upholstery . . . bar stools and tops . . . carpeting . . . furniture . . . clothing. **Space-age Micro-heat Beam Curing Tool—the secret of successful vinyl repairs.** Used by major auto companies on their production lines! Designed for fast, precise, professional repairs. Tool produces a super-fine beam of hot air that instantly cures the vinyl repair compound—without overheating the surrounding material! Re-grains repairs, too, for the best possible match of original texture. Unlike ordinary heating irons, this easy-to-handle tool even lets you re-heat the repaired area, assuring perfect, invisible repairs every time.
Plus all this. 16 jars of colored liquid vinyl with color guide to mix over 100 different shades for exact color match; 9 containers to hold custom-mixed colors; 10 graining papers plus graining compound to duplicate existing grain; backing fabric and special adhesive compound that are bonded into a strong, permanent repair by the curing tool; 2-oz. vinyl finish to seal and protect the repaired area and renewed color; 2-oz. cleaner; spatula; rugged carrying case with tray; illustrated instructions.
15-8148B— 1-Kit **$34.98**
Micro-heat Beam Curing Tool only.
15-8149P— Each **$17.98**

REPAIR DAMAGE TO VINYL AND LEATHER UPHOLSTERY IN MINUTES!

Match grain and color . . . repair hard tops, convertible tops, car seats, door panels, dash padding and more!

PAT. PEND.

Permanently restores, regrains, resurfaces vinyl—and you can't tell it was ever repaired. The repair is invisible! Both surface grain and fabric color can be matched in minutes. Not a patch or glue—but a permanent weld. Anyone can do it. Just refer to the easy color chart included to determine the shade you want—yellow, red and blue are the three primary colors, and from these, all colors are made. Then follow the step-by-step, illustrated instruction manual included for a professional job. Simply apply heat from the special 110-volt heating iron (included in kit) and you have a completed repair. Hundreds of uses—repairs anything made of vinyl or leather.
Deluxe Kit. Contains enough material for approximately 40-50 repairs on an ordinary burn, hole, rip or tear. Includes 8 automotive matched colors: White, Black, Dk. Brown, Red, Blue, Gold, Silver and Yellow. Includes heating iron, backing material, 1/2 pint of cleaner, 1/2 pint of clear, graining, package of graining paper, color chart, spatula and instructions 1-Kit $1[illegible]

Lifetime Convertible Tops for American & Imported Cars

- Stay New-Looking Longer. Easy To Clean, Keep Clean.
- Choice of Window Styles:—Large, Triple or Regular.

CHOICE OF TWO WEAR-LIKE-IRON PATTERN GRAINS

FINE WEAVE GRAIN TOPS. Looks like latest luxury car tops. Choice of colors. Save more by installing it yourself.

LEATHER-LOOK GRAIN TOPS. Super strong-built to take it. Stay new-looking longer. Easy to clean and keep clean.

STANDS UP TO ALL THE PUNISHMENT YOU CAN GIVE IT

FINE WEAVE GRAIN TOPS stay new looking indefinitely. Leave your car out in the rain, snow and sleet month after month. Let the desert sun broil down day after day. Even if you live near salt water (your top's worst enemy) the top still remains fresh and new looking. We can warrant this wonderful top FOR AS LONG AS YOU OWN YOUR CAR because of its rugged construction and long wearing qualities. You can wash this top every day of the week if you wish—its colors will continue to sparkle and look like new. Rinses clean and jewel-like with clear water or detergents. Adds greatly to the value of your car.
COLORS: Oyster White, Satin Black, Evening Blue, or Spring Green—all with Velvet Black inside. Also Satin Black with Tan inside.

LEATHER LOOK GRAIN TOPS are similar to those used on the most expensive imported convertibles and each top is fashion-styled for your particular make and model of car. These vinyl tops are grained to look like leather and are a duplicate of the style of the original equipment.
COLORS: Sicilian Flat Black (no-sheen) outside—Black inside; Venetian White (no-sheen) outside—Black inside.

These great looking convertible tops are made with heavy-duty fabrics that are so strong we warrant them for as long as you own your car. They stay bright and new looking longer than any other top we sell. They will not shrink, no matter how long they are on the car. They are treated with Miracle "S" Silicon for longer service. They are as easy to wash as the rest of the car and are super-colorfast in any climate, under any weather conditions. Deck seams are electronically welded in the same style and appearance as tops on the most expensive convertibles. Rear curtain is equipped with heavy-duty easy-to-operate zipper construction, where supplied as original equipment. Crystal clear plastic window. For all American cars. "Imported cars supplied wherever original." **NOTE:** All Chrysler tops prior to 1966, all Ford tops prior to 1964 and all GM tops prior to 1965 are supplied with plastic rear window assembly. On 65-75 convertibles with original glass windows, you have the option of leaving original glass window assembly in place and installing only top, or you may order top complete with plastic window assembly.

INDEX—SEE BACK PAGES

Tailored-to-Fit CONVERTIBLE TOPS for IMPORTED and AMERICAN SPORTS CARS

SMALL WINDOW—Style 1

Top has fabric back curtain. If car manufacturer supplied sewn-in plastic window, new top will be supplied this way. If your car has glass and frame, use glass and frame from old top. (Glass and frame not supplied.) Example: Rear window not supplied on 54-81 Volkswagen and 70-74 Karmann Ghia.

LARGE WINDOW—Style 2

Complete with single, crystal-clear, flexible plastic window, which is as large as entire rear curtain area. Folds down with top. Fully tested and approved for use in all 50 states. Sturdily constructed for years of service.

TRIPLE WINDOW—Style 3

Three windows same size and shape as original, electronically welded for all-weather protection. Made of heavy duty, clear, flexible plastic — folds down with top. Zipper included only wherever original. Tested and approved for use in all states.

REPLACEMENT SUN ROOF TOPS FOR VOLKSWAGEN

Perfect-fitting replacement sun roof covers for 4 passenger sedans only. Available in Black or White. Top quality. Can be installed easily, quickly. NOTE: When ordering for 1957 Volkswagen Beetle (only) state whether all 4 sunroof edges are rounded or if 2 are round and 2 are square.

Precision Tailored CONVERTIBLE TOPS

Order style number shown and listed for your car, see style illustrations above. No. 1 Small Window Style, No. 2 Large Window Style, No. 3 Triple Window Style. See How to Order at right below. NOTE: You must order the corresponding stock no. for the same window style as originally on your vehicle.

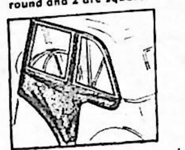

Vinyl tops have electronically welded, exterior deck seams and heavy duty interior sewing for weather protection

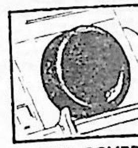

Protected by the new Crazy Clean FINISH! It's TOUGH! Easy to clean with any household cleaner.

Side Curtains

Available for 48-53 MG TD, TC and 48-55 MG TF only.

TIRE COVER

Available for 48-53 MG TD, TC and 48-55 MF TF only in quantities & colors listed at left below.

DO IT YOURSELF AND SAVE MONEY

Shop and compare—see for yourself what a new convertible top and installation costs you elsewhere—then check our sensational low prices. Combine your savings on the top and the savings on installation by doing it yourself with our easy-to-follow instructions. You'll be amazed at the difference!

HOW-TO-DO-IT INSTRUCTIONS

Specialized instructions are included with every top. They are easy to follow, show step-by-step procedure for installing top on your car. Makes it easy to do the job yourself—saves the cost of outside installation. No special tools or knowledge required.

HOW TO ORDER TOPS AND ACCESSORIES

See Index For Tonneau Covers and Additional Side Curtains.

These tops are designed for installation using original frames and attaching bars. All Tops, Sun Roofs and Tire Covers are supplied complete, ready to install. Headlinings on Volkswagen and Jaguar cars do not have to be removed to install new tops. Headliner not included. State on your order the following information:

1. Specify car make, year, model or series.
2. Specify style and stock number of item.
3. Specify color, both outside and inside.
4. Specify body style, passenger capacity, and whether door glass rolls up or if side curtain is used.
5. For MG model TD only—specify if your car has a 2 or 3 bow top frame.
6. Austin Healey Sprite, MG Midget, MGB—specify if fold-down or removable top.
7. Important: Specify if car has headlining. This is part of the car and is not supplied with new top (except on 1960 Alfa-Romeo Giulietta Spyder and Super Spyder).
8. When ordering Side Curtains or Tire Cover—supply same information requested on items 1 through 4. For Tire Covers, specify tire size.

SHIPPING NOTE

All convertible tops and accessories are shipped from factory. No C.O.D. orders.

Choice of 3 Qualities—All Shrinkproof... Each Warranted in Writing

VINYL LIMITED (36 MONTH) WARRANTY

Pinpoint vinyl with a beautiful, lustrous appearance. This material is absolutely waterproof, because two layers are bonded together with high-tenacity live rubber in the center. Then, both outside and inside layers are treated with Miracle "S" for complete water repellency. Carefully tailored, heavily double stitched at points of stress and strain with weather-resistant thread. Choice of **Black or White with Black inside.**

Convertible Tops available for the American and imported sports cars listed above. Be sure to order the corresponding stock number for the same window style as originally on your vehicle. See How to Order at right.

Accessories for convertible tops. Available in the same material and colors as above. (Replacement sun roofs available in Black or White only.) See above right for illustrations and specific applications. See How to Order at right.

Accessory	Stk. No.	Price
Side Curtains (Per Set)	78—0717WF	$63.95
Replacement Sun Roof	78—0162NF	34.95
Tire Cover	78—0720PF	19.95

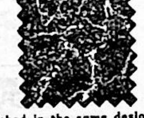

FINE WEAVE VINYL LIMITED (60 MONTH) WARRANTY

Lustrous pinpoint vinyl coated surface has an attractive fine grain. Equal in quality and weight to tops used on most expensive imported cars. Electronically welded seams won't open, make these tops duplicate in appearance to original equipment. Colors stay bright, resist spotting, easily washed with ordinary household cleaners or soap. Complete with scientifically developed Miracle "Y" permanent water repellency that keeps underside of top new looking indefinitely. Lighter in weight than our Best Vinyl tops, but are an outstanding value at these low prices. Colors: **White, Black, Blue or Green with Black inside; Black or Tan with Tan inside.** Tops available for American and imported sports cars listed above. Be sure to order the corresponding stock number for the same window style as originally on vehicle. See How to Order at right.

BEST SUPER VINYL LIMITED (66 MONTH) WARRANTY

This top will be furnished in the same design (leather grain or pinpoint grain) as the original top from manufacturer. Tough, extra heavy duty vinyl-coated surface makes the super vinyl top the finest available anywhere at this fantastic low price. Lustrous grained vinyl finish looks like original equipment. Heavy duty original-type zippers, where original equipment. Felt seals, fasteners and snaps match original perfectly. Available in your choice of "locked-in colors" and color combinations. Combinations: **White, Black, Blue, Green with Black inside; Black or Tan with Tan inside.** Be sure to specify colors desired, inside and out. Locked-in colors stay bright, new looking longer—resist dirt and spotting, can be made to look like new again with any ordinary household cleaner or soap. New, improved electronically welded, seam construction eliminates thread rotting and opening of seams. Scientifically constructed with miracle "Y", a permanent water repellent, which keeps interior always looking new. Tops available for American and imported sports cars listed above. Be sure to order the corresponding stock number for the same window style as originally on your vehicle. See How to Order at right.

LIMITED WARRANTY

If, within the duration of the Warranty, the top fails due to shrinking or a defect in workmanship or material, we will replace the top charging you a prorated price of a new convertible top for each full month from the date of purchase based on the original purchase price and the length of the Warranty period. This Warranty does not cover fading of the top, discoloration, scratching or cracking of the plastic windows or labor charges.

Deluxe DASHBOARD REPAIR KIT

- **Repairs holes, tears, rips, cracks and burns in dashboards, door panels, consoles or any other hard plastic surface**
- **Saves big dollars over costly shop prices**

Invaluable repair kit uses the same materials and processes used by professionals ... at a fraction of the price! Makes permanent, good-as-new repairs that match original grain and colors. So easy to use. Just apply compound into damaged area and cover with pattern from grain paper or to match surface texture exactly use special grain mold compound. Air dries ... no heat iron needed. Finished repair is extremely strong, flexible, long lasting. Works on any hard vinyl plastic material (not for soft upholstery). Includes everything you need for up to 10 medium-size or 5 large repairs: seven 1/2-oz. tubes colored compound; grain mold compound; vinyl cleaner; clear vinyl finish; clear hard plastic repair compound; grain papers; spatula; color guide and instructions.

14—5659B— 1-Kit **$11.99**

Pushbutton FABRIC SPRAY

Brightens and freshens faded, soiled surfaces

For seats, backs, headlining

For floor mats, convertible tops

- **For all leatherette, plastic, rubber, vinyl**
- **Ideal for two-toning, restoring and preserving**

Penetrates as it covers, bonds permanently to all rubber surfaces. Will not rub off or fade, impair texture, or make upholstery stiff or brittle. Will not crack, chip or peel off rubber. Weather, water and salt resistant. Easy to use. Requires no masking unless other fabrics are close. Semi-gloss finish. 12-oz. spray can covers approx. 25 sq. ft. State Stk. No. and Color.

Custom-fit 2-pc. Breathable VINYL NOSE PROTECTORS for American & Imported Cars and Mini Trucks

- **Protects vehicle's front end from damage caused by flying gravel, bugs, road debris**
- **"Breathes" to allow some moisture to escape ... resists mildew formation**
- **Separate pieces for hood and front end permit hood to be raised WITHOUT removing protector**
- **Models with ♦ include silver-color self-adhesive decal (approx. 1-1/2" high) with vehicle's name or logo**
- **Easy to install and remove**

Custom tailored for a smooth, snug fit. With cut-outs for headlights, driving lights and turn signals. No alterations necessary. Separate headlight cover sections allow normal use of pop-up headlights (if your car is so equipped). Black Vinyl. Soft cotton/polyester backing won't mar finish. Back edge of hood piece has a built-in spoiler to prevent flapping at high speeds. Cleans easily. Secures with bendable plates, straps/hooks and grommeted edges. Instructions included. **When Ordering, State Make, Year, Model Name or Number, Optional Accessories (fog lights, bumper guards, spoilers, etc.) and Stk. No.** Shpd. from factory. No C.O.D. orders.

Tailored-to-fit CONVERTIBLE TOPS

DO-IT-YOURSELF & SAVE $$$

Don't pay fantastic prices elsewhere for a replacement top AND installation! Save big dollars! Order your convertible top from our complete, priced-right selection and install it yourself. The easy-to-follow instructions included with each top give you the specialized, step-by-step procedures for the installation of YOUR car's top. No special skills are needed. Only ordinary household tools are required!

- Scientifically designed and engineered for perfect fit and years of dependable service
- Heavy-duty construction—mildewproof, waterproof and shrinkproof
- Crystal-clear windows are tested and approved in ALL states ... won't crack or cloud
- Best Super Vinyl Tops and Supreme Vinyl Tops look like original equipment tops on Cadillac and other luxury convertibles ... feature heavy-duty electronically welded seam decks to eliminate thread rot and opening of seams

All tops have easy-to-operate, heavy-duty zipper on rear curtain (if original top was so equipped). Tops include all fasteners and trim as required. Trim has long lasting weatherproof thread. Windows fill entire back curtain area, fold down with top. **NOTE:** All Chrysler tops prior to 1966, all Ford tops prior to 1964 and all GM tops prior to 1965 are supplied with plastic rear window assembly. On 65-75 convertibles with original glass windows, you have the option of leaving original glass window in place and installing only top or you may order top complete with plastic window assembly. Order top pads and hold-down cables separately below.

3 GREAT QUALITIES—PRICED TO SAVE YOU MONEY!

BEST SUPER VINYL — LIMITED 60-MONTH WARRANTY

...ur best buy in a convertible top! The lustrous ...npoint grained vinyl finish is just like the most ...pensive tops on Cadillac and Lincoln Continental convertibles. Tough, heavy-duty vinyl-coated ...rface is 20% heavier than our Supreme Vinyl ...p. Colors stay fresh and bright, resist dirt and ...otting, can be easily washed to look like new ...ain with ordinary household cleanser or soap. ...proved heavy-duty DH-909 electronically ...lded deck seams eliminate thread rot and opening of seams ... it's similar to seams used on ...dillac and Lincoln Continental convertible tops. ...racle "Y"—a PERMANENT water repellent—is ...ded to keep interior looking new. Warranted not ...shrink. Colors: **White, Black, Blue, Green or Maroon with Black inside, Black or Tan with Tan in...e.** See Note above and How to Order at right.

...nvertible Top with complete window. For all ...rs listed below.

...—0278RF— Each **$109.95**

...nvertible Top without window. Use present ...ass window assembly. For all cars listed below.

...—0279XF— Each **$94.95**

SUPREME VINYL — LIMITED 48-MONTH WARRANTY

Vinyl surface tops duplicate original equipment in grain, luster and appearance—equal in quality and weight to tops found on the most expensive convertibles. Heavy-duty DH-909 electronically welded deck seams prevent thread rot and opening of seams—just like the seams on Cadillac convertibles. Colors stay bright and new looking. Tops resist spotting ... clean easily with ordinary household cleansers or soaps. Scientifically developed Miracle "Y" assures PERMANENT water repellency to keep interior looking great indefinitely. Warranted not to shrink. Lighter in weight than our Best Super Vinyl Tops, but outstanding values at these low prices! See Note above and How to Order at right.

Convertible Top with complete window. For all cars listed below. Colors: **White, Black, Blue, Green or Maroon with Black inside.**

78—0273PF— Each **$99.95**

Convertible Top without window. Use present window assembly. For all cars listed below. Colors: **White with Black inside or Black with Black inside.**

78—0274YF— Each **$84.95**

ECONOMY — LIMITED 36-MONTH WARRANTY

Designed to give satisfactory service at minimum cost! Outside vinyl surface has a grained look similar to tops on current convertibles. Easy to install. For 49-75 Buick, Cadillac, Chevrolet, Ford, Mercury, Oldsmobile or Pontiac and 49-72 Plymouth and Dodge. Colors: **White or Black with Black inside.** See Note above and How to Order below.

Convertible Top with complete window.

12—3135X—

CUSTOM-FIT HEADLINERS for 28-76 American Cars & 36-77 Imported Cars & Pickups

- **Custom tailored to fit YOUR vehicle**
- **Complete ... ready to install**
- **Choice of napped cloth material, or smooth or perforated leatherette**
- **Trim kits and matching material available below for a complete custom appearance**

Renew your interior! Headliners install easily without special tools—complete instructions included. Centering on reverse side of material assures proper alignment. "Listings" or loops vary to accommodate size of individual bows. Can be used with old trim, but for a complete new look order a new trim kit below. Custom tailored for 28-76 Chevrolet, 28-76 Ford (including 28-34 "A", "B" & V8), 33-76 Dodge, 35-76 General Motors (except Corvair) and all other 35-76 American passenger cars, station wagons and sedan deliveries. Also fits 36-77 imported cars, station wagons and pickups. Not available for convertibles or vehicles with molded cardboard headliners.

HOW TO ORDER: State Make, Year, Model (Standard, Deluxe, Fleetline, Victoria, etc.), Body Style (coupe, 2 or 4-door sedan, station wagon, etc.), Number of Windows (exc. windshield), Color Desired and Stk. No. **For 28-34 Chevrolet,** also state job number on Chevrolet metal plate on driver's door. **For 33-34 Dodge,** also state number of wood bows, with or without trunk. **For 1929 Ford** (exc. coupe), send a sketch of headlining bow spacing. State distance from windshield to front of first wood bow, from front of first wood bow to front of second wood bow and continue giving measurements between bow fronts from front to rear of car (note: portion directly overhead has installed loops of cloth for tacking to wood bows in roof section. Extra material is included for each of the extra sections—panels above door, headboard above windshield, above and below back glass, etc.) **For all solid metal cars,** send a sketch of present headliner. Indicate measurements between seams, measuring from windshield to shelf behind rear seat at center of car. Shipped from factory. No C.O.D. orders.

Napped Cloth Headliner. Choice of 8 colors: Aqua, Beige, Black, Blue, Gray, Green, Ivory or Taupe.

78—0179RF— Each $57.95

Smooth Leatherette Headliner. Choice of 7 colors: Black, Blue, Green, Maroon, Light Tan, White or Off-white.

78—0180XF— Each $52.95

WHY THIS RADAR DETECTOR IS SUCH A UNIQUE VALUE

You get true long-range protection against ALL police radar . . . at an incredibly low price.

Police radar is restricted to 2 frequencies: X-band (10.525 GHz) and K-band (24.150 GHz). This radar detector alerts you to both. Plus, police radar patrols currently use at least 4 types of radar guns. Some give off a continuous strong signal and are easy to pick up. Others are extremely difficult to detect with old-fashioned non-superheterodyne radar detectors. These new hand-held radar guns are turned on only when police are trying to clock a vehicle. With this radar detector, you will detect these radar signals in use long before you get too close.

Two Alarms!

Warning buzzer and LED alert light give you 2-way warning . . . long before police radar can detect your vehicle. 3-way switch—"OFF," "ON" for both buzzer and light warning, and "AUDIO OFF" for warning by light only.

Compact Size!

Only 1⅝" high x 3⅜" wide x 4⅝" deep.

Specially Designed Receiver!

Horn-shaped antenna is tuned to police radar frequencies . . . helps "pull in" radar signals. Superheterodyne circuits focus and amplify true radar signals, and reject "false alarm" signals.

Easy to Install!

Three simple mounting options for "clear view" radar detecting—adjustable dash-mount steel bracket, quick-mount Velcro® strips, or visor clip, all included. Any way you mount your radar detector, you can quickly and easily remove it for theft protection. High-impact resistant housing is strong, yet lightweight. Complete installation and operating instructions are included.

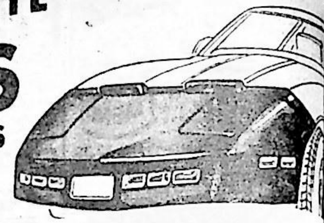

Just Plug Into Cigarette Lighter!

Comes with cigarette lighter plug and generous cord. Operates in any vehicle with 12-volt negative ground system. Detachable power cord easily tucks into headliner for concealed visor-mount installation.

Price Breakthrough

$99.95 POLICE RADAR DETECTOR CHALLENGES HIGH-PRICED BRANDS

Why pay $300 . . . $250 . . . or even $200 ?

Now get TOTAL Protection against ALL radar in use for an amazing low price

Superheterodyne circuitry delivers extreme sensitivity . . . excellent long-range detection

High-Technology Detector Proves You Don't Have To Pay More!

Deluxe Long-Range Superheterodyne Radar Detector...at a down-to-earth price

More Sensitive!

Superheterodyne radar detection circuitry is far superior to non-superhet systems in sensing and alerting you to police radar in use...from up to 5 miles, over hills and around curves, too. You'll even detect reflected radar waves from behind. Most important, you will enjoy increased effective range, and that means you will have more time to react.

More Selective!

Variable sensitivity control tunes out interference signals around urban areas...filters out false signals from burglar alarms, automatic door openers, aircraft and other X-band frequency interference. Away from town, you get desired long-range detection.

WHY THIS RADAR DETECTOR IS SUCH A UNIQUE VALUE

You get true long-range protection against ALL police radar...at an incredibly low price.

Police radar is restricted to 2 frequencies: X-band (10.525 GHz) and K-band (24.150 GHz). This radar detector alerts you to both. Plus, police radar patrols currently use at least 4 types of radar guns. Some give off a continuous strong signal and are easy to pick up. Others are extremely difficult to detect with old-fashioned non-superheterodyne radar detectors. These new hand-held radar guns are turned on only when police are trying to clock a vehicle. With this radar detector, you will detect these radar signals in use long before you get too close.

Two Alarms!

Warning buzzer and LED alert light give you 2-way warning...long before police radar can detect your vehicle. 3-way switch—"OFF," "ON" for both buzzer and light warning, and "AUDIO OFF" for warning by light only.

Compact Size!

Only 1⅝" high x 3⅜" wide x 4⅝" deep.

Specially Designed Receiver!

Horn-shaped antenna is tuned to police radar frequencies ...helps "pull in" radar signals. Superheterodyne circuits focus and amplify true radar signals, and reject "false alarm" signals.

Easy to Install!

Three simple mounting options for "clear view" radar detecting—adjustable dash-mount steel bracket, quick-mount Velcro® strips, or visor clip, all included. Any way you mount your radar detector, you can quickly and easily remove it for theft protection. High-impact resistant housing is strong, yet lightweight. Complete installation and operating instructions are included.

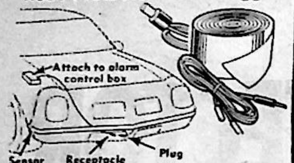

Just Plug Into Cigarette Lighter!

Comes with cigarette lighter plug and generous cord. Operates in any vehicle with 12-volt negative ground system. Detachable power cord easily tucks into headliner for concealed visor-mount installation.

Nose Protector Alarm Trigger

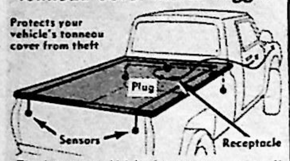

- **Guards nose protector & vehicle from theft**

Ties into your vehicle's alarm system ... sets off alarm if your nose protector is disturbed. Easy to install—sensor harness attaches to nose protector with pressure-sensitive tape ... receptacle harness attaches to alarm system with two wires. Once system is armed, any attempt to move nose protector will activate alarm. Dummy plug permits use of alarm system without nose protector. Includes 6-1/2 ft. of pressure-sensitive tape, 2 sensors, wiring and instructions. Works with any alarm system having accessory capability and/or hood & trunk pin switches. Mechanical sirens require a horn relay (see Index).

12—3805N— .... Each **$22.95**

Tonneau Cover Alarm Trigger

Protects your vehicle's tonneau cover from theft

- **Ties into your vehicle's alarm system ... sets off alarm if tonneau cover is disturbed**
- **Works with any system with accessory capability**

Easy to install—sensor harness attaches to tonneau cover with pressure-sensitive tape; receptacle harness hooks up to alarm system with 2 wires. Once system is armed, any attempt to remove cover will activate alarm. Dummy plug permits use of alarm system without cover on. Includes 4 sensors, 22 ft. of self-adhesive tape, wiring, instructions. Mechanical sirens require a horn relay (see Index).

12—3804Y— .... Each **$29.95**

Custom TONNEAU COVERS for 72-83 Chevy LUV, Datsun, Ford Courier, Mazda & 70-81 Toyota Mini Trucks

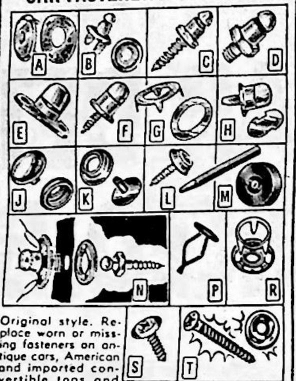

- **Easily installed—no snap fasteners needed**

Heavy-duty, waterproof leather-grained vinyl with strong nylon backing, completely finished on all sides. Polyester stitching for lifetime wear. Installs using existing rope hooks on truck and aluminum extrusion (included). **Choice of black or white cover.** With ropes, straps, instructions. **Note: Rope hooks required on truck bed for installation of this tonneau cover. State Year, Make, Model, Color Desired, Long or Short Bed and Stk. No.** Shipped from factory. No C.O.D. orders.

13—1992B— 1-Set $7.99

PLASTIC CAR COVERS

- For all American and imported cars
- Like a portable garage!

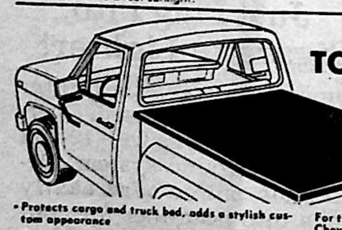

Protects your car completely from snow, rain, ice, salt, sun, tree sap, bird droppings, pollution and rust! **Waterproof, greaseproof, flame-resistant covers** are easy-on, easy-off. Fold into compact package for easy, convenient storage, too! Choose from 3 qualities: **Lightweight** 2-gauge polyethylene; **Heavyweight** 4-gauge polyethylene; **Reinforced** polyethylene. **Reinforced** material is a combination of strong polyester mesh between 2 layers of polyethylene. All covers won't crack or harden even at −50°F. Covers are fitted with elastic edges all around plus loops sewn in sides, tie down rope and antenna reinforcement. To determine the correct size to order, measure the car's length from bumper to bumper.

Fits these cars	LIGHTWEIGHT Stk. No.	Each	HEAVYWEIGHT Stk. No.	Each	REINFORCED Stk. No.	Each
Up to 14 ft. long	17—8872N	$19.95	17—8871X	$22.50	17—3347T	$34.95
14 ft. to 16 ft. 8 in. long	17—8873T	21.95	17—8875Y	23.95	17—3348A	36.50

IMPORTANT NOTE REGARDING WATERPROOF CAR COVERS: Never cover a wet car or put a wet cover on a car. Moisture trapped beneath a waterproof car cover can cause paint blemishes if covered car is exposed to direct sunlight.

Custom-fit TONNEAU COVERS for Full-size & Mini Pickups

Attaches with hidden wire & button fastening system

- **Protects cargo and truck bed, adds a stylish custom appearance**
- **Cuts wind resistance for improved fuel economy**
- **Choice of black or white**

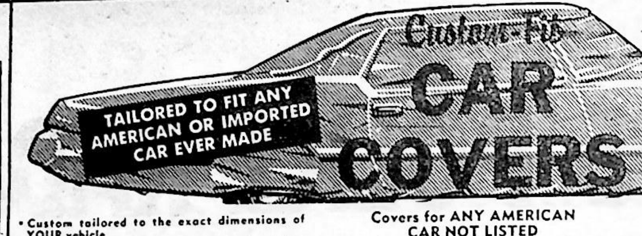

Heavy-gauge 18-oz./sq. yd. vinyl cover is waterproof, weather resistant and easy to clean. Unique wire and button fastening system is one of the most efficient anchoring techniques available—steel wire enclosed in seam of cover attaches easily, securely to rust-resistant Lexan® plastic buttons on side of truck bed (some drilling required). Assures a snug, sag-free fit. Installs in half the time of conventional snap systems ... no need to worry about tedious snaps, tie-downs, or exact placement of mount hardware. Buttons, instructions included. Shipped from factory. No C.O.D. orders. **When Ordering, State Make, Year, Model Name & Number, Bed Length, Whether Stepside or Fleetside, Color Desired (Black or White) and Stk. No.**

Give your car interior that NEW CAR SMELL!

Unique auto air freshener eliminates undesirable odors ... leaves your car smelling as fresh as the day you bought it. Net wt. 8-oz. aerosol—enough for many applications.
14—3036N— .... Each **$1.49**

Leather-scented Air Freshener (not shown). Net wt. 5/8-oz. aerosol.
14—9522Y—
Each **$1.49**

STORAGE BAG for Vehicle Covers

- **Water-repellent, mildew-resistant, washable**

Strong cotton/polyester bag with nylon draw-string closure protects your car, truck, camper, motorcycle or RV cover when it's not in use ... keeps it neat and compact. Green wrinkle-resistant fabric. Size: 11" diam. across top, 33" deep.
14-2486T— .... Each **$4.99**

WATER-REPELLENT, BREATHABLE CUSTOM FIT CAR COVERS

TOTAL PROTECTION

- **The most water-repellent, breathable car cover available ... keeps rain out (except for the heaviest of storms), yet lets trapped moisture evaporate easily**
- **Can be left on car when wet without damaging finish (unlike other covers) ... dries fast because it doesn't absorb moisture**
- **Stops sun from oxidizing and fading paint surface ... prevents deterioration of dashboard and upholstery**
- **Won't mildew or rot even when stored wet ... odor-free**
- **Custom tailored to the exact dimensions of your vehicle ... no alterations necessary**

Protect your vehicle from rain, dew, ocean spray, sun exposure, tree sap, bird droppings, battery acid and harmful pollutants! Durable, non-abrasive fabric is actually 3 bonded layers of polypropylene olefin filaments ... resists punctures, rips and tears. Won't scratch or mar vehicle's finish. Lightweight and easy to handle. Double-stitched seams. Elasticized front and rear assure a snug fit. Retains its shape—stays taut and neat whether wet or dry. Can be washed down with hose and left to dry while still on car. **Not machine washable.** Locking feature available—order at right.

Custom-fit Covers for American and imported cars listed below. Find size in table below and then order here. See How to Order at right.

Size	For 60-85 Cars Stk. No.	Each	For Cars Prior to 1960 Stk. No.	Each

Custom-fit Covers for pickup trucks with camper shells and modified vans not listed at left. ♦. See How to Order below.
78—3558AF—60-85 vehicles ...... Each **$139.95**
78—3563AF—Prior to 1960 .... Each **159.95**

♦**Note:** Because we have more than 9000 patterns, we cannot list all vehicles. While we use a common stock number for all vehicles not listed, we do not use a common pattern. The cover you receive will be the exact size of your vehicle.

HOW TO ORDER: State Make, Year, Model Name or Number, Body Style (2 door, sedan, convertible, hatchback, etc.), Optional Factory Exterior Accessories (mirrors, spoilers, etc.), Bed Length for Trucks, Wheel Base Length for Vans & Stk. No. When ordering for a station wagon, order next higher size (example: size "C" car is a size "D" wagon). When ordering for a pickup truck with camper shell, converted or modified van, include a diagram or picture of vehicle with all measurements. Shipped from factory. No C.O.D. orders.

Optional LOCKING FEATURE

Sold ONLY with Covers At Left

- **Protects cover against theft**
- **Incorporated into cover at factory**

Plastic-covered flexible steel cable goes under vehicle and through reinforced grommets in cover. Padlock included. Stores easily. **When Ordering, State Make, Year, Model, Stk. No. below & Stk. No. of cover ordered.**
78—3493AF— .... Each **$9.95**

It's Fast & Easy to Order by Phone

A Custom-tailored CAR COVER for Every Car!

Also available for PICKUP TRUCKS & VANS

Exclusive Enduralite® is stronger, lighter, easier to handle, longer lasting

Exclusive **Enduralite®** fabric combines the best features of cotton and polyester for superior strength, durability and lightness. Soft and gentle—safe for even the most delicate lacquer finishes. More resistant to sun fade than all-cotton fabrics. Water repellent, yet fabric breathes to prevent moisture condensation under the cover. Mildew resistant. Protects car's paint, vinyl top, metal trim, rubber and interior trim from the fade, oxidation and damage caused by the sun's ultraviolet rays, by smog, pollutants, by wind-blown dust, by snow and ice and by tree sap and bird droppings. Helps discourage vandalism.

Lightweight—average cover weighs only 8 lbs. Light weight and custom fit make fast, single-handed installation and removal easy for anyone! Can be washed and dried in your home laundry. Water repellency won't wash out. Resists wrinkles, fading ... retains shape after long use. Double-sewn seams for extra strength. Elastic sewn into front and back for perfect fit.

American made—not imported. Enduralite® covers are quality custom tailored in our U.S. plant to fit the exact dimensions of your particular make, year and body style. These are not universal-type covers with only 2 or 3 available sizes. We have 9000 patterns—including the pattern for your vehicle, no matter how new, old or rare ... and your cover is cut and tailored from your specific, custom pattern. Stores compactly in its own storage bag.

Custom-fit Covers for ALL AMERICAN & IMPORTED CARS LISTED BELOW. See How to Order below at right.

Size	For 60-85 Cars Stk. No.	Each	For Cars Prior to 1960 Stk. No.	Each

Options for your Car Cover
Sold ONLY with Car Covers at left

PERSONALIZATION KIT

Black 2" letters are rich, deep-flocked iron-on material. Instructions. **State letters desired—up to 15 maximum—and Stock Number.**
78–4117NF— .... 1-Kit $1[illegible]

STEEL SECURITY CABLE with Lock

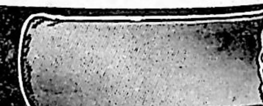

Incorporated in cover at factory. Plastic-covered flexible steel cable goes under vehicle and through reinforced grommets near bottom of both sides of cover. Locks with padlock included. Coils up for easy storage.
78–3493AF— .... Each $[illegible]

FREE Custom Insignia

Your car's own custom insignia is included with your car cover. ♦ Custom insignia not available.

FREE STORAGE BAG for your custom car cover

Cloth bag matches car cover, has drawstring closure for compact, protected storage of your car cover when it's not in use. Yours FREE with your custom car cover.

HOW TO ORDER

State Make, Year, Model Name or Number, Body Style (2-door, sedan, convertible, hatchback, etc.), Optional Factory Exterior Accessories (mirrors, spoilers, etc.), Bed Length for Trucks, Wheel Base Length for Vans & Stk. No. When ordering for a station wagon, order next higher size (example: size "C" car is a size "D" wagon). When ordering for a pickup truck with camper shell, convertible or modified van, include a diagram or picture of vehicle with all measurements. Shipped from factory. No C.O.D. orders.

LIMITED 2-YEAR WARRANTY

Your custom car cover is warranted for 2 full years against tearing, fraying, or losing its shape or water repellency. Warranty does not include vandalism and is limited to the purchase price of the car cover.

Custom-fit Snapless TONNEAU COVER with VELCRO® STRIP

For Full-size and Mini Pickup Trucks & Jeep® CJ8 Scrambler

- **Attaches quickly with Velcro strip around the back and side of bed ... tubular steel bow holds tonneau cover taut**
- **No holes to drill in truck bed ... no unsightly holes or fasteners to look at when cover is off ... no bare metal or raw edges for rust to start**
- **Can be easily drawn back to any position**
- **Tough, long-lasting, 13-oz. vinyl-coated black reinforced polyester**

Snapless design assures easy installation. You drill only 6 holes in front of pickup bed. To fit around roll bars and other obstructions, you simply cut the material. It won't tear or fray ... actually creates its own finished edge. Resale value of your old truck remains high. **Includes instructions and bows (one for minis and short bed trucks, 2 for all long bed full-size trucks).** Shipped from factory. No C.O.D. orders. **When Ordering State Year, Make, Model, Long or Short Bed & Stock Number.**

Cover for the following short-bed American trucks (6-1/2-ft. bed).
73-85 Chevrolet (incl. Stepside); 73-85 Ford; 73-85 GMC (incl. Stepside); 72-85 Dodge
78–1610BF— .... Each **$114.95**

Cover for the following long-bed American trucks (8-ft. bed).

SEAT REBUILDING and PADDING KIT for All Bucket & Bench Seats and Backrests

Great when installing new seat covers or using reupholstery kits. Smooth out seat sags, lumps ... eliminate torn, shifting padding ... correct broken springs. Kit includes: 1" thick x 24" wide x 60" long foam padding; 19-1/2" wide x 60" long carpet inner layer (acts as a cushion between springs and padding); 120 U-shaped, OEM-type steel hog ring clips; hog ring pliers; two 16" long steel spring reinforcing rods; instructions. Padding & inner layer trim to fit any seat.
14–3064X— 1-Kit **$12.95**

Heavy-duty Air-Cooled Cushion

Allows air to flow freely between you and your vehicle's seat ... prevents uncomfortable moisture build-up. Extra-large, approx. 19" wide x 36" high. Resilient thick steel springs are covered with woven space-age plastic fibers. Edges bound and double-stitched for extra strength. Buy 2—keep one in your vehicle at all times, the other in your home or office.
12–3853N—Blue/white .... Each $14.95
12–3854T—Black/white .... Each 14.95
12–3855P—Brown/white .... Each 14.95

Our Finest HEAVYWEIGHT TERRY CLOTH SEAT COVERS

Custom-tailored for Bucket, Bench & High Back Seats on all 1929-85 American and Imported Cars, Trucks, Vans and 4WD Vehicles

- **Covers entire front seat—front and back**
- **Cooler in summer and warmer in winter**
- **The perfect combination of comfort and easy care!**

Attractive. Practical! Economical! These cotton terry cloth covers are the low-cost way to protect your new vehicle's seats or to renew older, worn upholstery. Unlike the thin, skimpy 3-oz. fabric used for most terry cloth seat covers, this cotton terry weighs a heavy 9 ounces. So heavy, it requires no backing. The thick, dense weave looks, feels and wears much better than the lightweight, loose-weave fabric. Much more absorbent too ... making it one of the most comfortable covers to sit on any time of year. It's like a soft, luxurious towel. Refreshingly cool in summer, because air is allowed to circulate between you and your vehicle's seat ... pleasantly warm in winter. Fits beautifully. Each seat cover is custom tailored for your individual car, truck, van or 4 wheeler. Also, the knitted fabric stretches for the smoothest, most wrinkle-free fit possible. The perfect seat cover for anyone, but especially for families with small kids or pets. The inevitable spills and messes are quickly absorbed. And the heavy cotton terry is so strong and durable, it can withstand repeated machine washings (it's as easy to wash as a towel) and still look great. Color remains vivid. Elastic straps and hooks hold cover securely in place ... provide for quick and easy installation or removal. Choice of 7 colors: **Blue, Black, White, Red, Brown, Green or Charcoal Gray.** Shipped from factory. No C.O.D. orders. Custom tailored for all 1929-85 American & imported cars, trucks, vans, 4WDs. **When Ordering, State Year, Make, Model, Seat Style No., Color and Stock Number. (For 29-54 vehicles, also include illustration and measurement of seats.)** To determine your seat style number, see Seat Cover Ordering Information; check Index for page number. **Note:** Front set consists of 2 front bucket seats or front bench seat.

Custom-tailored • Completely Finished Foam Padded SEAT REUPHOLSTERY KITS for American & Imported Sports Cars

- **Channel pleated designs ... construction and quality comparable to original equipment**
- **5/16" thick polyfoam padding for comfort**
- **Custom-made to fit perfectly ... no alterations, cutting or sewing**
- **Choice of 5 popular colors**

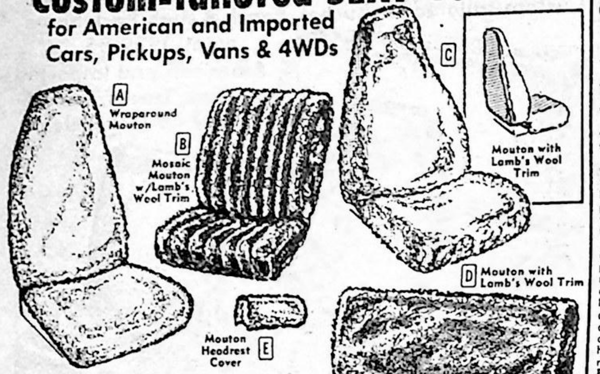

Ripped or worn out car seats are unsightly—and they're uncomfortable! Replace that upholstery and restore your car's interior to its original beauty. This top-quality upholstery looks and fits like factory-installed material. Backrest and seating areas are covered with heavy-duty 27-oz. reinforced vinyl ... electronically channel pleated over foam padding. Vertical channels are 1-1/2" wide, horizontal are 2-3/4" wide. Surrounding areas (bottom, side skirts and back of seats) are made of upholstery-quality fabric-backed simulated leather. Edges are either bound or hemmed for strength. All seams fully welted with original-style cording covered with simulated leather. Easy to install—remove old upholstery or fit over. Instructions, fasteners and pliers (if required) included. Colors: **Black, Medium Brown, Red, Off-white or Dark Blue. For front seats only on all vehicles listed below except where otherwise specified as front & rear. Note:** When ordering bucket seat covers, each kit includes 2 covers for full front seat coverage. Shipped from factory. No C.O.D. orders. **When Ordering, State Year, Make, Model, Seat Style Number, Color and Stk. No.** To determine your seat style number, see Seat Cover Ordering Information—check Index for page number.

INDEX AND ORDER BLANKS—SEE BACK PAGES

Genuine Mouton Sheepskin
Custom-tailored SEAT COVERS
for American and Imported Cars, Pickups, Vans & 4WDs

- Plush 3/4" pile is chrome-tanned and electrified for softness and lasting beauty
- Comfortable all year 'round—warm in winter, cool in summer
- Choice of one bench and 3 bucket seat covers... available in 6 complementary colors

Premium-quality non-shedding skins, meticulously tailored for a smooth, wrinkle-free fit. Soft, resilient fibers (thick nap won't mat down) and deep-sheared pile add a cushiony layer of insulation between you and your car seat. Cool air is allowed to circulate freely. Fleece can absorb moisture without feeling damp—clothes stay neat even on hot days or during long trips. All seat covers in these colors: **Champagne, Charcoal Gray, Gobi (Desert Sand), Honey Beige, Midnight Blue or Silver.** Installation and care instructions included. Before ordering, see HOW TO ORDER below.

A Wraparound Mouton Cover for bucket seats. Fits exact contours of each seat. Covers entire front of seat & caps rear seat back & seat front cushion for a snug fit. Straps secure cover in place.

78—3256BF— 1-Pair $174.95
78—3257PF— .... Each 89.95

B - D Full-coverage Mouton Covers with lamb's wool trim. Front of backrest and seat cushion are covered with mouton sheepskin described above. Sides of seat and back of backrest are covered with dyed-to-match lamb's wool. Lamb's wool has stretch knit backing for a snug fit. Straps are hidden between cushion.

B Mosaic Design Mouton Cover for bucket seats. Rich tones and textures form a distinctive mosaic pattern.

78—4127UF— 1-Pair $112.95
78—4126WF— .... Each 58.95

Mosaic Design Mouton Cover for bench seats (not shown). Lamb's wool covers half-way down back of backrest.

78—4200RF— .... Each $129.95

C Mouton Cover for bucket seats.

78—3911BF— 1-Pair $144.95
78—3912PF— .... Each 74.95

D Mouton Cover for bench seats. Lamb's wool covers half way down back of backrest.

78—4125YF— .... Each $184.95

E Mouton Headrest Cover. Covers entire headrest area. For bucket seats with adjustable or removable headrests only. **Note:** Sold only with seat covers above; must be ordered with seat covers for correct color match.

78—2597PF— 1-Pair $64.95
78—2587AF— .... Each 34.95

HOW TO ORDER: When Ordering, State Make, Year, Model, Color Desired, Seat Style No. (see diagrams below) & Stk. No. All items shipped from factory. No C.O.D. orders.

Velvet Velour Seat Covers
Custom Tailored for All 55-85 American and Imported Cars, Trucks, Vans and 4 Wheel Drive Vehicles

FIT FRONT or REAR SEATS

Shimmering crushed velour texture for incomparable beauty and richness

One of the most elegant and most comfortable seat covers you can buy! Add a luxurious touch to any interior. But only the look is expensive! Rich and soft like the upholstery in prestige cars, these covers are priced within easy reach of anyone. Thick crushed velvet velour nap on the seat area is textured to cause an unusual interplay of light and dark, of shadow and sheen. Remarkably lavish yet incredibly strong and durable. The velour fabric is specially treated to resist soil and repel stains ... and continue to look beautiful. Side panels, back (of front seats) and trim are made of tough double-knit polyester in a matching color for stretchability and to take lots of scuffs and kicks with hardly a sign of abuse. Custom-tailored covers fit perfectly, snugly and wrinkle free. No need to worry about bunching or slipping. Easy on ... easy off. Install, remove in minutes. Loops, hooks and snaps assure quick installation and hold covers tightly in place. Choice of 5 colors. **Black, Red, Gold, Blue or Brown.** Shipped from factory. No C.O.D. orders. **When Ordering, State Year, Make, Model Name or Number, Seat Style No., Color, Stk. No.** To determine your seat style number, see Seat Cover Ordering Information ... check Index for page number. **Note:** Front set covers 2 front bucket seats or front bench seat.

Front only.
78—1455BF— 1-Set $34.95

Complete Front and Rear Set.
78—1456PF— 1-Set $64.95

Matching VELVET VELOUR ...by the yard

The classy way to customize your vehicle's interior and to match and complement your new seat covers. Great for door panels, walls, headliner, rear shelf, sun visor. 58" wide. Sold in continuous lengths by the yard in same colors above. Sold only with covers above in complete yards only. Shpd. from factory. No C.O.D. orders. **State Color, Stk. No. & No. of Yards.**

78—1457YF— 1-Yard $11.95

CHARGE YOUR ORDER ON YOUR VISA OR MASTERCARD

Customize and Restore with
SEAT REUPHOLSTERY KITS
Custom Fit...Ready to Install for American and Imported Sports Cars, Pickups, Mini-Trucks & Jeep® Vehicles

- NOT A SEAT COVER ... but attractive, deluxe reupholstery custom tailored to fit your vehicle perfectly
- Renews your interior—at a fraction of the cost charged at a trim shop
- 5/16" thick polyurethane foam padding restores riding comfort
- Easy, do-it-yourself, professional-looking installation
- Fits over or replaces your old upholstery ... no cutting or sewing necessary
- Choice of 2 reinforced vinyl kits and 1 plush velour kit

Backrest and seat area of Kits A and B are covered with heavy-duty 27-oz. reinforced vinyl, electronically channel pleated over polyurethane foam. Kit A has 2-3/4" wide vertical pleats; Kit B has 1-1/2" wide vertical pleats. Backrest and seat area of Kit C is covered with plush 100% polyester suede-like velour similar to original interiors on many late-model cars. Alternating 1" and 2" (approx.) pleats are quilted over polyurethane foam. Surrounding material (bottom, side skirts, backs of seats) of all kits is made of heavy-duty, fabric-backed simulated leather. Seams are fully welted with original-style thick cord covered with simulated leather. All edges are bound or hemmed. Instructions and all necessary fasteners included. If your vehicle requires steel hog ring fasteners, hog ring pliers are included ... no other special tools needed. Kits A and B available in 5 colors: **Black, Medium Brown, Red, Off-white** or **Dark Blue.** Kit C available in 5 colors: **Black, Brown, Dark Blue, Lt. Silver Gray** or **Red.** See How to Order below. For the following cars (see below for full-size Chevy, Ford & Plymouth cars, pickups, mini trucks & Jeep® vehicles).

A VINYL Vertical Pleats (2-3/4" wide)
B VINYL Vertical Pleats (1-1/2" wide)
C VELOUR Vertical Pleats (approx. 1" & 2" wide)

Sheepskin-look SEAT COVERS for High & Low Back

The look and feel of genuine sheepskin. Heavyweight 38 oz. polyester covers have thick, dense pile that allows air to circulate freely—are warmer in winter and cooler in summer. Brushes up to keep its fluff. Natural cream color (the color of real sheepskin) goes with any interior. Fully contoured to fit front cushion and backrest. Entire back of backrest is also pile-covered. Straps and hooks assure a snug fit. 100% polyester backing. Machine washable. Instructions included. For front bucket seats only.

A 14—3428U—For low-back seats .. Each $19.95
B 14—3429B—For high-back seats . Each 19.95

Custom-fit PLUSH HOUNDSTOOTH SEAT COVERS for 40-85 American & Imported Cars & Trucks

- Large houndstooth check center insert trimmed with matching solid color panels

Custom-tailored SEAT COVERS

for All 40-85 American and Imported Cars, Pickups & Mini-trucks

- The latest styles in heavy-duty, care-free fabrics with strong reinforced seams
- Glove tailored to fit your individual vehicle smoothly and without wrinkles
- Complete coverage of the entire cushion and backrest area
- Includes EVERYTHING you'll need for a new-car, factory-installed look

Vinyl-trimmed Plaid HERCULON®

Colorful plaid Herculon® olefin fiber insert covers the entire seat. Sides and back are trimmed with a solid color, leather-grained vinyl for unusual contrast. Don't let the great looks of the olefin fiber fool you. It's as tough as nails—long wearing, rugged and amazingly stain resistant. Takes all the abuse you can give it and still bounces back beautifully. Cleanups are a snap with just a damp cloth. Ideal for families with children or pets. Woven construction allows air space around each fiber to keep you riding cool in summer, warm in winter. Contoured seams are offset from corners—away from the points of greatest stress. Choice of 3 colors: **Blue plaid, Black plaid or Brown plaid. IMPORTANT:** Before ordering, see Seat Cover Ordering Information; check Index for page number. Shipped from factory. No C.O.D. orders.

Leather-grained, Heavy-duty VINYL with PLUSH CORDUROY CUSHIONS

As comfortable as your favorite easy chair—but a lot sportier! Extra-thick raised cushions seem to "float" above seat and back areas. 2" deep rebonded foam padding provides firm back and leg support. Cushions are covered with soft, elegant 60% polyester/40% nylon corduroy that's comfortable to sit on all year 'round. Never cold or stiff in winter, never sticky or tacky in summer. Button tufting adds a custom-upholstered look you'd expect to find only in the most expensive sports cars. Leather-grained, heavy-duty vinyl trim panels, back and sides with reinforced beading edge in a matching color to further enhance the overall look. Easy cleanups with a damp cloth. Choice of 4 colors: **Blue, Black, Brown or Red. IMPORTANT:** Before ordering, see Seat Cover Ordering Information; check Index for page number. Shipped from factory. No C.O.D. orders.

78—2945AF— 1-Set **$94.95**

Channel-quilted VINYL

A colorful and durable addition to the interior of any vehicle! Deep embossed vertical channels form an elegant ribbed effect. 15-gauge vinyl (in up-to-the-minute metallic colors) is as good looking as it is easy to care for. Dirt, spills wipe clean with a damp cloth ...colors stay fresh and new looking. Sides, back and center panel are trimmed with grained vinyl in an attractive complementary color. Polyester fiberfill backing assures easy riding and a smooth, wrinkle-free fit. Choice of 4 colors: **Black, Blue, Brown, or Red. IMPORTANT** Before ordering, see Seat Cover Ordering Information; check Index for page number. Shipped from factory. No C.O.D. orders.

CUSTOM-FIT WESTERN STYLE SEAT COVERS

for Cars, Pickups, Mini Trucks, Vans & 4WD Vehicles

- **Authentic Western styling ... the same design and material used in Western saddle blankets**
- **Tightly-woven multi-color synthetic yarn ... extra thick for extra comfort, extra wear**
- **Bench and split backrest covers trimmed with heavy-duty 32-oz. vinyl in a complementary solid color**
- **Storage pockets for maps, coffee cup, books**
- **Bench seat covers have handy rifle holster**
- **Sewn-in loops lace up for a smooth fit**

Rugged and ruggedly handsome! The thick, tight weave and heavy vinyl trim are designed to stand up to lots of abuse and still look great. Covers are remarkably stain resistant. For added strength, seams are double stitched. Yarn allows air to circulate between you and vehicle's seat ... covers are cooler in summer and warmer in winter. Easy to install and remove. Machine washable. Choice of 10 attractive colors: **Red, Maroon, Lt. Blue, Navy Blue, Dark Brown, Tan, Black, Dark Green, Burnt Orange or Gold.** Shipped from factory. No C.O.D. orders. **When Ordering, State Make, Year, Model Name or Number, Color Desired, Seat Style No. and Stk. No.** To determine your seat style number, see Seat Cover Ordering Information ... check Index for page number. Not available in seat style 55 (unevenly split seats).

Covers for vehicles with solid bench seats. Extra heavy ... weigh approx. 8 lbs. Built-in holster is lined with soft 100% cotton to hold rifle, fishing rods or other sports equipment without damage.

Custom-tailored SISAL or COCOA MATS

for 68-85 American and Imported Cars, Pickups, Vans and 4WD Vehicles

Beautiful, completely contoured protection for the carpeted areas in your vehicle—front, rear, trunk, deck, cargo area and engine cover

Custom-fit SISAL MATS

- **Sisal is the world's strongest natural fiber ... more durable for longer lasting protection**
- **Super-tight yet breathable weave looks great and stays that way because it won't ravel or shred ... assures good air flow to aid evaporation, prevents mildew and rust**
- **Natural sisal fiber is vat dyed for permanent color retention ... won't bleed or stain carpet even when wet**

Protection for your vehicle's carpeting that's rugged, stylish and much more elegant than dealer-installed vinyl or rubber mats. Fit better, too. Not a universal fit, but mats that are custom tailored for YOUR vehicle. Install flat and smooth—and stay that way. No curling at edges. Dirt resistant and mildewproof, mats retain their appearance even after years of hard wear. Freezeproof and flame resistant ... a lighted cigarette won't ignite mat or burn through. Tight weave captures dirt, sand and grit ... keeps it off your carpeting. Thick, dense texture feels great underfoot and so will the extra insulating layer of comfort between you and road noise and vibration. To clean, simply shake out mat or brush off. Frequent washings won't fade the deep, rich colors ... nor will exposure to the sun. All edges are bound with strong, color-coordinated vinyl binding. All front mats have color-coordinated vinyl heel pad on the driver's side. **Choice of these 4 COLORS FOR SISAL MATS ONLY: Black, Medium Brown, Red or Royal Blue.** See How to Order below. For all the vehicles listed below.

Custom-fit COCOA MATS

- **Natural cocoa fiber ... allows air to circulate freely and moisture to evaporate quickly**
- **Designed to lie flat and to stay that way ... won't curl up at the edges**

Add to your driving and riding comfort as you add good-looking protection for your carpeting. A natural cocoa fiber mat feels good underfoot and insulates you against heat, cold and road noises. Trouble-free cleanups ... just brush the dirt off. All edges are bound with color-coordinated vinyl for durability and for that final custom touch. All front mats have color-coordinated vinyl heel pad on the driver's side ... guards against extra wear around gas pedal. **Available in these 4 COLORS FOR COCOA MATS ONLY: Solid Black, Red/Black Tweed, Black/Rust/Tan Tweed or Blue/Black Tweed.** See How to Order below. For all the vehicles listed below.

EXTRA-POWERFUL HAND VACUUM CLEANER

Whisks up dirt from hard-to-reach spots in a jiffy!

- **Full-size suction power to pick up dirt, pebbles, sticks and lots more**
- **Super hi-torque 22,000-RPM motor**
- **Plugs into 12-volt cigarette lighter**

Our best vac combines the compact convenience of a smaller unit with the clean-up efficiency of a bigger vacuum. Rugged 22,000-RPM motor develops suction to spare. Extra-long 15-ft. cord lets you reach easily into the back seat and trunk areas. Built to take it day after day. Tough black plastic housing with molded-in handle and on/off switch. Bag is easy to remove and clean. Easy to store: 16" long x 4-3/4" diam. Attachments include crevice tool, wide-mouth nozzle to whisk up more debris in less time, detachable brush & 17" flexible hose to get into tight spots.
88—7845W— Each **$19.95**

CARPET UNDERPADDING

[A] **Deluxe Foam Carpet Padding.** Extra deep 1/2" thick polyurethane padding is super resilient. Placed under new or old carpeting it gives a deep plushy feel. Insulates against heat and cold. 36" wide x 72" long.
19—9018B— Each **$6.49**

[B] **STANDARD** 3/16" thick jute padding. 36" wide x 72" long.
19—3827B— Each **$5.49**

Hand VACUUM CLEANER

Durable plastic housing. On/off switch built into handle. With crevice tool, wide-mouth brush attachment, 12-1/2-ft. cord.
88—7201B— Each **$4.98**

Custom-fit CARPETS for Mini Trucks

Custom tailored throughout for a perfect fit. **Carpets cover entire FRONT SECTION up to seats**—no exposed front floor space. All edges are fully protected with reinforced binding. Thick, sound-deadening 1/4" polyfoam underpadding is laminated to the carpets—not packed loose—for added resiliency and insulation. With driver's heel pad in matching color. **When Ordering, State Make, Year, Model Name or Number, Bench or Bucket Seat, 2WD or 4WD, Automatic or Standard Transmission, 3-speed, 4-speed Trans., Floor or Column Shift, Color Desired & Stk. No.** Shipped from factory. No C.O.D. orders. Available in these 3 quality carpeting materials.

[A] **100% polyester deep shag carpeting.** 20% deeper than our nylon or polypropylene carpets. Superior durability and soil resistance add long-wearing beauty to your truck's interior. Choice of **Red, Black, Brown or Blue.**

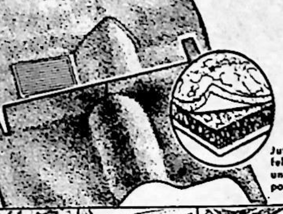

[B] **100% nylon plush cut pile.** Soft and luxurious. Resists matting for long wear. Easy to clean. Choice of **Red, Black, Brown or Blue.**

[C] **Polypropylene deep loop pile.** Dense weave repels dirt, resists stains, is easy to care for. Choice of **Maroon, Black, Brown or Blue.**

Custom-tailored AUTO CARPETS
for American Cars, Station Wagons & Trucks thru 3/4-ton

Easy-clean, High-pile POLYPROPYLENE LOOP WEAVE CARPETS

High pile twist weave is the same as carpeting in the home. Gives long, long wear — easily cleaned.

Completely bound on all exposed edges with supported leatherette in attractive matching or contrasting colors.

Large color selection permits matching color scheme of car interior or creating smart contrasting effect.

Deluxe custom-styled high-pile twist weave replacement carpets for front and rear. Quality made of 100% polypropylene fabric with all the fine features described at left. Custom tailored and detailed with sewn-in contours for perfect fit on floor curves and center hump. With matching vinyl heel plate and dimmer switch grommet. **Luxurious, long-lasting extra-thick 36" wide jute underpadding is cemented to cover entire carpet from top to bottom, side to side for a more comfortable feel underfoot.** For the vehicles listed below.

CARPETS FOR IMPORTED CARS, SEE INDEX

PLUSH-CUT PILE or TUFTED-CUT PILE VELOUR CUSTOM-FIT CARPET MATS
for 68-85 American and Imported Cars, Pickups, Vans and 4WDs

• **Choice of super-thick nylon plush-cut pile or extra-durable nylon tufted-cut pile velour**
• **Protect every carpeted area in your vehicle—front, rear, trunk and engine cover**
• **Keep your new carpeting looking new ... revitalize old interiors**
• **Dirt, stain and static resistant, mildew proof, color fast**
• **Fit vehicle's individual contours without lumps or curled edges**
• **Tough, urethane-coated backing prevents mats from slipping yet won't damage original carpeting**

Carpet mats look great ... also insulate against road noise, vibration. Edges bound with strong, color-coordinated vinyl binding. Easy to clean—just vacuum, shake out or hose off. All front carpet mats have color-coordinated vinyl heel pad on driver's side. Unique sewn-in hooks/loops secure driver's side carpet mat to floor, prevents slippage caused by O.E. heel pad. With instructions. Choice of 2 quality piles:

• **SUPER-THICK 100% NYLON PLUSH-CUT PILE.** Feels great underfoot ... wears beautifully ... retains its velvety texture and lustrous appearance. Continuous-filament carpeting is dense, luxuriant—and it won't shed. Nylon fibers are heat set to lock the twist in the yarn and assure high-density yarn bulk. Colors: **Black, Brown, Dark Blue, Burgundy or Tan.**

• **EXTRA-DURABLE 100% NYLON TUFTED-CUT PILE VELOUR.** Densely woven pile with plush velour finish is long lasting, expensive-looking. Colors: **Black, Dark Brown or Medium ...**

Custom-fit PLUSH VELOUR CARPET KITS for American & Imported Pickup Trucks

Custom-tailored for YOUR pickup truck
Long-lasting carpet adds handsome, deluxe "feel" to interior of any truck—old or new
Insulates against heat, cold and road noise
Choice of 5 no-fade colors
Kits cover left and right front floor, left and right lower door trim, left and right front cowl, back wall, front tunnel and under seat

Luxurious yet durable non-raveling nylon velour is heavy weight so there's no curling at edges. Sewn-in contour on center hump. Right and left floor carpeting has color-coordinated binding and moisture-proof high-density foam padding. Driver's side has color-coordinated heel pad. Unique hook/sewn-in loop combination secures driver's side mat to floor, prevents slippage caused by original heel pad. Dimmer switch grommet. Hose off to clean. With instructions. Available in **Black, Chestnut Brown, Burgundy Red, Medium Blue or Saddle Tan. Note: Kits also fit 4WD vehicles; make cut-out yourself for best fit.** Shipped from factory. No C.O.D. orders. **When Ordering, State Make, Year, Model Name or Number, Type of Transmission, Color Desired, and Stock Number.**

Custom-fit Extra-heavy-duty FRONT FLOOR MATS for 41-85 Trucks & Vans

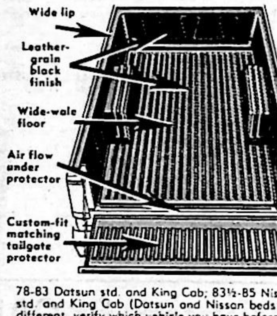

Rugged, extra thick molded black rubber mats withstand severe service, last longer than ordinary mats. Extra-heavy design minimizes heel or puncture damage, reduces maintenance and floorboard slipping and helps insulate, deaden noise. Custom fit. (Note: Not for cab-over engine trucks.) 2-pc. sets do not cover drive tunnel (center hump).

½" Thick Molded Rubber/Cord TRUCK BED MATS & TAIL GATE COVER[S] for Full-size & Mini Pickups

- **Provides year 'round protection, increases life of your truck bed and tailgate ... keeps resale value high**
- **1/2" thick blend of rubber and cord is virtually indestructible —won't rust, crack or break, even in extreme weather conditions**

[A] **Tough 1-pc. Truck Bed Mat.** Thick enough to absorb shocks and muffle road noise. Withstands rain, snow, harsh sunlight, heavy weights and extreme abuse. Not affected by most chemicals. Top side has smooth, raised ribs running lengthwise to permit easy loading of cargo. Underside has knobby design to permit aeration and drainage—prevents mildew and rust. Lifts out easily to restore truck bed to original appearance. Cleans quickly with soap and water. **Designed for all 8-ft. Styleside truck beds;** trim to fit shorter bed lengths. Shipped from factory. No C.O.D. orders. **When Ordering, State Make, Year, Model Name & Number and Stk. No.**

Truck Bed Mats for these pickups (6 to 7-ft.): Chevrolet—67-85 standard, 78-85 El Camino, Caballero, 81-85 LUV, 82-85 S-10; Datsun—78-83; Dodge—68-85 standard, 78-85 D-50, 82-85 Rampage; Ford—74-85 standard, 76-85 Courier, 82-85 Ranger; GMC—67-85 standard, 82-85 S-15; Isuzu—81-85; Mazda—76-85; Mitsubishi—78-85; Nissan—83½-85; Plymouth—78-85 [illegible]; Toyota—75-85; Volkswagen—80-84
78—3194NF— ... Each $79[illegible]

Truck Bed Mats for these full-size pick[ups] [illegible] beds): 67-85 Chevrolet/GMC, 68-85 D[illegible] 74-85 Ford.
78—3195BF— ... Each $94[illegible]

[B] **1-pc. Tailgate Covers.** Same material as bed mats above. Includes mounting hardware to hold cover in place. Shipped from factory. No C.O.D. orders. **When Ordering, State Make, Model Name & Number and Stk. No.**

Tailgate Covers for these pickups: 78-85 Chevrolet El Camino, Caballero; 82-85 Chevrolet S-10, S-15; 78-85 Datsun/Nissan, 82-85 Ranger; 75-85 Toyota.

Replacement WINDSHIELD WASHER PUMP

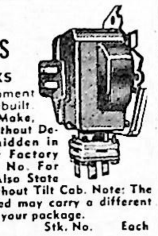

- **For all American and imported cars & trucks with electric windshield washers**
- **Positive gear drive assures constant spray delivery at all times**
- **Self-priming—instant response**

Enjoy safe, clear vision year-round! Easy-to-install kit replaces any inoperative 12-volt electric washer pump in minutes ... without removing the old pump. Powerful electric pump operates from existing washer control, giving instant water delivery that meets or exceeds original equipment output. Maintains original coordinated wiper and washer action. Includes new pump, all necessary parts and easy instructions.

75—3025U— ... 1-Kit $6.95

WINDSHIELD WASHER PUMPS for Cars & Trucks

Replace original equipment perfectly. New—not rebuilt. **When Ordering, State Make, Year, Model, With or Without Depressed Wiper Arms hidden in cowl, With or Without Factory Wiper Delay and Stk. No. For Chev. & GMC Trucks, Also State Series No. & With or Without Tilt Cab. Note: The stock number you ordered may carry a different identification number on your package.**

Jet-action Headlight Washer

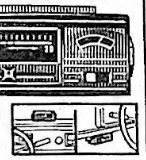

- **Washer jets shoot high-pressure streams to remove dirt, grime, salt from headlights**
- **Restores up to 80% of illumination in less than 3 seconds to assure better nighttime visibility and safer driving**

Kit includes powerful self-priming pump, 2 bumper-mount adjustable washer jets, dash-mount control switch, 3-way non-return valve, tubing, hardware, instructions. Use existing washer fluid reservoir ... or see Index. For all 12-volt vehicles.

81—1827X— ... 1-Kit $14.95

WINDSHIELD WIPER DELAY

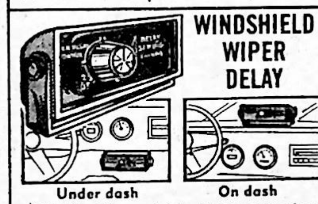

Mounts on or under dash

- **Operates windshield wipers at preset 2 to 20-second intervals**
- **LED indicator light shows exact interval setting**
- **Slide control allows precise interval selection ... no need to re-set when unit is turned off**

Ideal for light drizzle, fog, snow, sleet or slushy road conditions! Keeps windshield clean yet reduces unnecessary blade wear and eliminates dry wipe squeak. Heavy-duty circuitry and transformer. Won't interfere with regular wiper switch. Only 3-7/8" wide x 1-3/4" high. With universal mounting bracket, instructions. For all American & imported vehicles with 12V systems (except those with 3-speed wipers and Chrysler products with hidden wipers).

74—8287W— ... Each $12.98

WINDSHIELD WIPER DELAY

Under dash / On dash

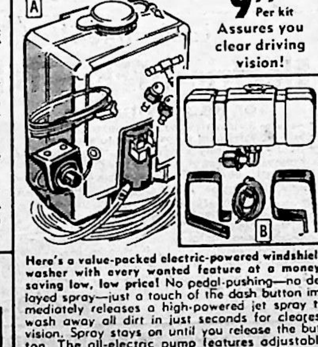

- **Adds 2 to 20-second delay to any conventional wiper system**
- **Lets you adjust wipe to meet the weather and road conditions**

A light rain or mist or a wet, slushy road doesn't require the same kind of windshield wiper action as a driving downpour or heavy snow. With this handy device, you can delay the wipe from 2 to 20 seconds for the best possible viewing under existing conditions. Keeps windshield clean yet reduces unnecessary blade wear and eliminates annoying dry wipe squeak. Won't interfere with wiper control ... control overrides interval system. Compact unit mounts on or under dash. Installs easily in minutes using household tools. Instructions included. For all 12-volt systems except those with 3-speed wipers.

12—2370A— ... Each $9.98

Electric-powered WINDSHIELD WASHER for All Cars, Trucks & Buses

9.99 Per kit — Assures you clear driving vision!

Here's a value-packed electric-powered windshield washer with every wanted feature at a money-saving low, low price! No pedal-pushing—no delayed spray—just a touch of the dash button immediately releases a high-powered jet spray to wash away all dirt in just seconds for clearest vision. Spray stays on until you release the button. The all-electric pump features adjustable ball-type nozzles with a sturdy motor mounted on an extra large 1-1/2 qt. capacity unbreakable polyethylene tank. With push button dash switch, wiring, nozzles, tubing, mounting bracket and easy-to-follow instructions.

[A] **Vertical Tank** for full-size vehicles.
17—9164W—6 Volt
17—9165T—12 Volt ... 1-Kit $9.99

WIPER DELAY and HEADLIGHT REMINDER

Mounts anywhere.

WIPER DELAY is ideal for mist, light rain or wet road conditions; reduces wiper blade wear and eliminates dry-wipe smearing. Saves windshield washer fluid, too!

HEADLIGHT REMINDER alerts driver with buzzer when ignition is off and headlights are on—no more battery run-down.

Two-function unit mounts on or under dash. Easy to install, adjustable for easy viewing. For all 12-volt cars, trucks & vans with electric wipers (exc. 3-speed wipers). With instructions.

81—0296W— ... Each $11.95

Windshield WIPER DELAY with MIST ACTION for Cars, Vans and Light Trucks

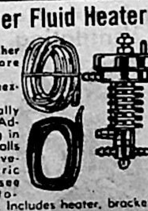

- **Adds a 2 to 20-second delay on any conventional wiper system**
- **Mist switch for one sweep of wipers**

Keeps windshield clean for best viewing, yet reduces unnecessary blade wear and eliminates dry wipe squeak. For added safety, regular wiper control will override system. Automatically returns blades to park position. Easily installed—no special tools necessary. With instructions. For all 12-volt systems except those with 3-speed wipers.

81—1784P— Each ... $14.95

Electric Washer Fluid Heater

- **Heats windshield washer fluid for faster, more effective cleaning**
- **Prevents fluid from freezing on windshield**

Activates automatically when washer is used. Adjusts for extra heating in very cold weather. Installs easily on all 12-volt vehicles with electric windshield washer (see Index for manual-to-electric conversion kit). Includes heater, bracket, tubing, wiring, instructions.

81—1798P ... Each $8.98

WIPER AIDS for Maximum Wiper Performance

No more rain-blurred vision! 3 aerodynamically designed wind scoops hold wiper down tightly onto windshield—reduces streaking, improves visibility, increases blade life and performance. Black molded scoops slip easily onto wiper arm. Strong rust and corrosion-proof plastic. Not for cars with hidden wipers.

81—9177R— ... 1-Pair $1.98

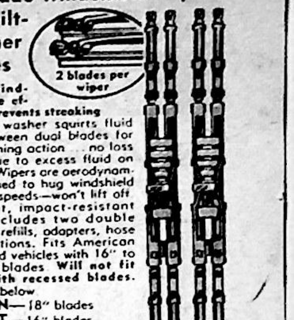

WINDSHIELD WIPER ARM REMOVER

Removes wiper arm easily without damaging vehicle's finish. Steel with vinyl grip.

15—8464T— ... Each $2.99

Dual-blade Windshield Wipers with Built-in Washer Nozzles

- **Clears windshield more effectively, prevents streaking**

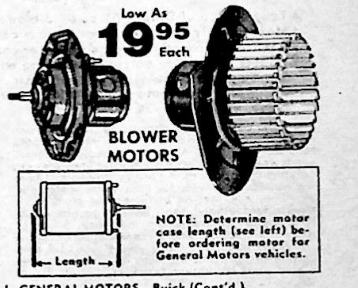

Multi-spray washer squirts fluid directly between dual blades for instant cleaning action ... no loss of vision due to excess fluid on windshield. Wipers are aerodynamically designed to hug windshield at highway speeds—won't lift off. Lightweight, impact-resistant plastic. Includes two double blades with refills, adapters, hose and instructions. Fits American and imported vehicles with 16" to 18" wiper blades. **Will not fit vehicles with recessed blades.** Order refills below.

81—1866N—18" blades
81—1867T—16" blades

INDEX AND ORDER BLANKS — SEE BACK PAGES

Powerful Oscillating or Fixed COOLING-DEFOGGING-DEFROSTING FANS

- Your choice of Deluxe 6" or 8" 3-blade fans
- Mount easily in front or rear of your car, van, truck or RV
- Assure increased safety and greater comfort all year 'round
- Winter . . . quickly defrost and defog windows to let you drive with clear vision; also improve circulation of heated air
- Summer . . . ventilate the air within your vehicle and circulate cool air for more pleasant driving

Enjoy the convenience and safety of clear vision regardless of weather. These multi-purpose fans do away with frosted, fogged or steamed windows that can cause accidents. They also circulate the air for cool summer driving and keep the heated air moving for cozy-warm winter driving. They even get rid of fumes and stale odors. Ruggedly-designed fans have hi-torque 2500-RPM motors for maximum efficiency. 6" or 8" diam. non-metallic blades housed in an attractive chrome-plated steel blade guard. Low 1.4-amp. current draw. Complete with instructions, mounting brackets, on/off switch with mounting bracket and wire. For all 12-volt systems.

[A] **Oscillating Fans** with control switch for fixed or oscillating movement
88—9300P—6" . . . . . Each $15.98
88—9609U—8" 19.98

[B] **Fixed Fans** with bracket that adjusts horizontally or vertically to let you direct the air flow.
88—9305R—6" . . . . . Each $11.98
88—9610B—8" 15.98

ELECTRIC DEFROSTER/DEMISTER PANEL for REAR WINDOW

- PRINTED CIRCUIT adheres to window—no plastic backing to obstruct your view
- Heat is instantly conducted through printed circuit to keep window free of mist and frost

Enjoy safe, clear vision year-round. Easy-to-install electric rear window defroster is complete with printed circuit, cable, toggle switch, indicator light and instructions. 12" x 33" wide grid. For all 12-volt systems.
88—6131B— . . . . . Each $12.95

DEFROSTER & FRESH AIR INTAKE HOSE

- Original equipment-type for all cars, trucks

Bendable and non-collapsible, heavy-duty hose of tough rubber, reinforced with spiral wire insertion. Easily cut and shaped without kinking. Covered inside and out—withstands high temperatures . . . resistant to oil, grease and water. Unobstructed air flow through all bends.

Powerful JET AIR FAN

- Defrosts and defogs windows for clear vision
- Increases circulation of heated air in winter and cool air in summer for more comfort
- Mounts under dash or on top of front or rear deck

Powerful 3000 RPM motor draws only 2 amps. Fan can be tilted and louvers moved to direct air flow in any direction. Black heavy-duty metal housing is 4-3/8" high x 11-1/2" wide x 5-1/2" deep. Black plastic grille face. Easy to install in all 12-volt vehicles. Includes mounting brackets & hardware, 15-ft. power cord, on/off switch, wire and instructions.
81—1552A— . . . . . Each $24.99

Deluxe Electric DEFROSTER/DEFOGGER for Rear Windows

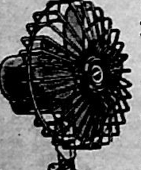

- Our best—looks & works like original equipment
- Timing switch shuts off automatically after 12 minutes, or can be shut off manually

Keep your rear window free of frost, ice and fog for safer driving. Copper nickel heating elements fit windows up to 60" wide, can be cut to fit. Self-adhesive elements are on full sheets for easy application. Brass side mounting bars with black plastic moulding strips. Touch-activated timing switch mounts in or under dash, lights up when on. Includes wiring, hardware, instructions. For all 12-volt systems.

18-line Grid. For windows to 26" high, 60" wide.
12—3790R— . . . . . Each $38.99

• Adds 2" to accelerator, clutch or brake pedals
• Designed for short drivers and women wearing high heeled shoes

Eliminates need to stretch legs each time you apply clutch or brake—helps relieve leg pressure on gas pedal. Aluminum with black nonslip treads adds 2" height to pedal. Easy clamp-on installation. For all American cars except sub-compacts.

[A] **Clutch or Brake Extension.** Fits all pedals up to 4" wide with existing pad thickness 1/2" or less.
12—1200A— Each

[B] **Gas Pedal Extension.** Fits all pedals 1-3/4 to 2-3/4" wide, 3" long.
12—1201R— Each

Barefoot Accelerator Pedal

For all cars. Unusual, attention-getting foot that clamps over existing accelerator pedal. Chromed die-cast with contrasting black rubber. 9" long x 3-1/4" wide.
10—2140P— Each

Barefoot Dimmer Switch Pedal. Novel pedal makes it easy to locate dimmer switch—complements accelerator pedal. Contrasting black rubber. Fits all cars. Easy screw mounting.
10—2139B— Each

Universal SHIFT BOOTS For American & Imported Cars with Floor Shifts

Replace worn, cracked or split shift boots. Stretch-type boots made of leather grained vinyl. Strong nylon drawstring top for tight fit around shift lever. Choice of 2 styles and 2 colors.

Color	Style A	Style B
Black	14-3421R	14-3423X
Brown	14-3422X	14-3424T

Console DRINK TRAY for 84-85 Pontiac Fiero

• Fiberboard in choice of wood-grained vinyl laminate or black leather-grained vinyl finish

Double-tiered tray holds 2 cups or cans. Allows use of existing switches and gauges. Water and stain resistant. Chromed vinyl edge inserts. Fits over existing console or conventional transmission hump. Can be mounted permanently. Fits automatic & standard transmission.
12—3763W—Woodgrain
12—3764U—Black

Deluxe • Upholstered Locking CENTER CONSOLE STORAGE COMPARTMENT for ALL Cars

• Ideal for sport cars with bucket seats

Roomy console fits over floor hump in front of gearshift or behind parking brake—adds sport car styling. Metal frame, richly upholstered in vinyl. Padded, hinged cover with lock, 2 keys. Easy to install. Fastens with spring clamps. Size: 12" x 5" x 5-1/4".
89—3594T—Red
89—3595P—Black

Overhead Accessory Console for All Cars, Trucks, Vans

• Lets you mount radios, gauges and switches overhead, out of the way
• Built-in reading light has on/off switch

A must when adding accessories to already crowded dashboards. Features 2-1/4" x 2-3/4" etc. up to 7" wide x 2" high opening. Reversible black grained ABS plastic. Can be used in different tones. Rear-view mirror and sun visor may be used. Positioning. No drilling or tools. Mounting bracket, hardware, instructions. From factory. No C.O.D. orders.
97—2766YF—

GLASS ETCHING KIT

• Chemical process permanently etches any glass surface—easily and safely

Use one of the designs provided or create your own frosty etched patterns on windows, doors, mirrors, etc. Chemical compound activates on glass in minutes ... is neutralized by rinsing with tap water. Kit includes 25 ft. of self-adhesive masking, 2 designer templates, knife, gloves, applicator, 2 oz. etching compound and instructions.
15—6778Y— 1-Kit $9.99

Electronic Pushbutton COMBINATION LOCK for Automatic Garage Door Openers

• 3-digit code will activate garage door opener ... no keys to lose, transmitter to carry
• Installs easily on existing opener
• Choice of changeable or fixed-code locks

Provides a theft-proof way of opening garage door from the outside when you're on foot. Just press the private 3-digit combination. Touching the wrong digits or sequence prevents door from opening and activates a 15-second security delay. Wiring is inaccessible to prevent tampering and unauthorized entry. 5" x 3-1/4" x 3/4". Weatherproof and maintenance-free construction with protective wiring, hardware, instructions. Not adaptable for Genie Tru Drive.

Lock with changeable code.
93—9661X— Each $21.95

Lock with pre-set fixed code.
93—6692N— Each $16.95

INDEX—SEE BACK PAGES

Illuminated TACHOMETER

- Extra-wide 270° sweep dial
- For all 4, 6, and 8-cyl. cars
- **Highly precise transistorized movement.** Factory-calibrated gauge and transmitter are combined in one quality-engineered unit. No need to install and wire separate transmitter
- **Extra-wide 270° full-sweep linear scale dial.** 0-8000 RPM readings. 200 RPM graduations are evenly spaced over the entire scale to give you accurate reading at a glance
- **Large 3" diam. face in 3-5/8" diam. housing.** Illuminated for trouble-free night viewing
- **Easy to install.** Mounts on or under dash or console. Simple wiring necessary

Designed to give year after year of dependable service. Withstands strong vibrations, eliminates irritating bounce and flutter to assure accuracy. Attractive high-impact black grained housing is 3-1/2" deep. Black face with white numbers and red shift indicator. Fits all 4, 6 or 8-cylinder vehicles with 12-volt negative-ground systems. With instructions. Not for diesels.
88—8576W— Each $24.95

Chrome-plated Racing Tachometer. Similar in style and design to above, but with attractive chrome-plated housing
14—9451P— Each $39.95

Racing Tachometer. Same as above except has black grained housing and reads 0-12,000 RPM in 500 RPM increments
81—1508T— Each $29.95

DIGITAL TACHOMETER/CLOCK

- **Flip a switch and it's a tachometer; flip it back and it's a clock!**
- **Bright green digital vacuum fluorescent display is highly visible... even in direct sunlight**

4-digit tachometer display shows highly accurate readings from 0-9900 RPM to let you monitor engine speed. Cylinder selection switch allows use with 4, 6 and 8-cylinder engines. Precise quartz clock shows time in hours and minutes, has pulsating seconds indicator. Display lights up only when vehicle ignition switch is in "ON" or "ACCESSORY" position, but clock runs continuously. Compact unit is only 2-1/2" high x 4-1/2" wide x 2" deep... mounts on or under dash, or on console. Easy, color-coded, 5-wire hook-up—instructions included. For all 12-volt negative ground systems. **Not for diesels.**
81—0776X— Each $24.99

Digital • Fluorescent DIESEL TACHOMETER

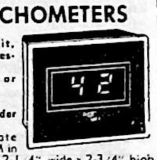

- Bright 1/3" high blue fluorescent numerals are easy to read day or night
- Black ABS plastic housing with chromed trim
- Dependable solid-state circuitry
- Choice of on-dash or in-dash mounting

Adjustable 2-digit display reads to 9900 RPM in 100-RPM increments. Helps you drive at most efficient RPM to save fuel, money ... helps you avoid lugging or over-revving to extend engine life. Sensor mounts on alternator with adjustable bracket. For all 12-volt diesel engines with 4, 6 or 8 cylinders. **Note:** 1983 and newer GM vehicles require a metal alternator fan blade.

On-dash Tachometer. 2-1/8" high, 2-5/8" wide, 3/4" deep. With self-stick tape
14—8365T— Each $49.95

In-dash Tachometer. 2-1/4" high, 2-3/4" wide, 1-3/8" deep. With mounting bezel
14—8367R— Each $49.95

Digital TACHOMETERS

- Easy-to-read 2-digit, 1/3" high blue fluorescent display
- Choice of in-dash or on-dash mounting
- Easy 3-wire hook-up
- For 4, 6 and 8-cylinder vehicles

Constant, accurate readouts to 9900 RPM in 100-RPM increments. 2-1/4" wide x 2-3/4" high x 1-1/4" deep black ABS plastic case. Solid-state circuitry and internal voltage transient protection. With instructions. For all 12-volt negative-ground systems except diesels.

In-dash mount (shown). With mounting template
14—1407P—4-cylinder
14—1408Y—6-cylinder
14—1409W—8-cylinder Each $44.95

On-dash mount (not shown). Also mounts on steering column or anywhere with self-adhesive tape
14—1805N—4-cylinder
14—1806T—6-cylinder
14—1807A—8-cylinder Each $44.95

Hood-mount • Illuminated TACHOMETER

- **Instant RPM readings as your eyes stay on road or track**
- **Gives vehicle that custom, performance look**

Completely weatherproof and shockproof for safe exterior mount. Extra-wide 200° sweep, recessed dial reads from 0-8000 RPM. Adjustable red line pointer for transmission shift or maximum RPM indication. Accurate jeweled D'Arsonval meter, dependable solid-state circuitry. 8-5/8" x 5-1/4" x 3-1/4" high gloss black plastic housing can be painted to match car finish. Requires drilling 3/4" hole in hood. Special lock protects against theft. For all 4, 6 & 8-cylinder vehicles with standard or electronic ignition systems. Includes template, hardware, instructions.
12—2696R— Each $59.95

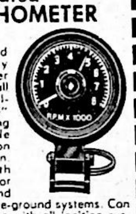

Digital Quartz TACHOMETER with Big Red LED Readout

- Reads 0-9900 RPM in 100-RPM increments
- Accurate crystal oscillation mechanism not affected by normal heat, cold, humidity, vibration
- Easy 3-wire hook-up for speedy installation

Adjustable peel-off adhesive swivel base mounts on dash or console. For 4, 6 or 8-cyl. cars with 12V neg.-ground or electronic ign. systems. Black high-impact plastic housing 3-1/2" W. x 2-1/2" D. x 1-5/16" H. Instructions.
15—9507Y— Each $39.95

Illuminated 2" MINI TACHOMETER

- Reads 0-8000 RPM

Compact transistorized tachometer with quality jeweled D'Arsonval meter accurate within ±3% at full scale. Full 250° sweep. Illuminated 2" face. Only 3" high overall. Black housing and trim with adjustable mounting base. Installs on dash or on steering column. Easy 3-wire hookup. With hardware, instructions. For all 4, 6 or 8-cyl. cars and trucks with 12-volt negative-ground systems. Can be used on cars and trucks with all ignition systems including electronic ignitions (exc. diesels).
88—9233T—
Each $29.98

Illuminated TACHOMETER for Ford 6.9-liter and GM 6.2-liter DIESEL Engines

- Reads 0 to 5000 RPM
- Large 3" diam. face with easy-to-read 270° sweep
- D'Arsonval meter for accuracy within ±2%
- Adjustable red shift/RPM pointer
- Helps prevent engine damage caused by over-revving or lugging

Compact 3-3/4" x 4-1/2" x 3" deep tach has wide pedestal for easy mounting on or under dash or on steering column. Special connectors (included) allow quick, easy hook up to stator winding terminal inside alternator—some disassembly of alternator required. **Works on diesels with steel or plastic alternator fan blades.** Black plastic housing, stainless steel bezel. Includes high-temperature-resistant lead wire, hardware, instructions.
12—3455R— Each $69.95

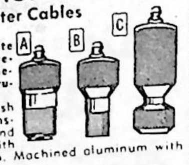

Illuminated TACHOMETER for DIESEL Cars & Trucks

- Reads 0-5000 RPM
- 2-5/8" diam. face illuminated for easy nighttime viewing
- Mounts easily in dash or on dash with bracket included

Probe attaches to outside of alternator and is triggered by steel fan blade. For all diesel cars and light trucks except 1983 GM vehicles and vehicles with plastic alternator fan blades. Black satin housing. Includes wiring, hardware, instructions.
14—8020U— Each $89.95

LUBRICATION ADAPTERS for Speedometer Cables

- Let you lubricate cable without removing speedometer head or instrument panel

Just screw or push adapter onto transmission cable end and lubricate with your grease gun. Machined aluminum with knurled grip.

[A] **Adapter for all cables with 7/8-18 screw-on connector.** For AMC Prod. with manual transmission, all thru 1976 Chrysler Products and all GM Prod. with & without cruise control
12—3469P— Each $8.95

[B] **Adapter for all cables with 5/8-18 screw-on connector.** For all Chrysler Prod., all Ford Prod. with under-hood transducer & 64-85 Ford trucks.
12—3470Y— Each $8.95

[C] **Adapter for all cables with unthreaded push-on connector.** For 68-85 AMC Prod. with automatic transmission, 77-85 Chrysler Prod. & 64-85 Ford Prod.
12—3471W— Each $8.95

3-pc. Kit. Includes one each of above adapters.
12—3472U— 1-Kit $24.95

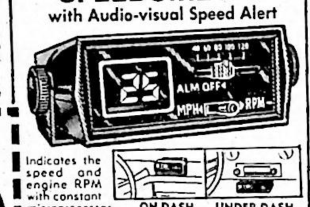

Digital SPEEDOMETER & OVERSPEED ALERT with Red LED Readout

- **Two bright, easy-to-read 3/8" high numerals accurately indicate speed from 0 to 99 MPH**
- **Speed alert warns you both audibly (with buzzer) and visually (with a light) when you exceed a pre-set speed limit**
- **Solid-state integrated circuits for maintenance-free operation and uncommon accuracy**

Two instruments in one! Compact 3-7/8" x 1-1/2" x 3-1/4" deep unit mounts easily on or under dash or on steering column. Bracket tilts to let you position unit at angle best for you. LED display automatically turns on with ignition. Rugged black case with alarm-off switch. Includes hardware, installation and operating instructions. For all American and imported vehicles except those with front wheel drive.
81—1302A— Each $34.95

Digital TACHOMETER SPEEDOMETER with Audio-visual Speed Alert

Indicates the speed and engine RPM with constant microprocessor accuracy—warns you when you exceed the preset speed. Flick switch for speedometer or tachometer function. Slide control sets speed-alert. Easy-to-read 3/8" red LED digital readout, electronic sensor operation, solid-state accuracy.

AUTORANGING TACHOMETER FUNCTION. Reads up to 9900 RPM. Monitors transmission shift points for better gas economy and longer engine life.

SPEEDOMETER FUNCTION. Reads up to 99 MPH. Easily recalibrated for accuracy if you change tire size. Operates independently of speedometer cable. Not necessary to disconnect original speedometer.

OVERSPEED ALERT FUNCTION. Signals with flashing light and audible beep, when you exceed pre-set speed limit. 4-3/4" x 1-7/8" x 3" black ABS plastic case. With light, sensors, installation hardware, instructions. For all 4, 6, 8-cylinder, 12-volt vehicles (except diesel or front wheel drive models).
81—0690P— Each $39.95

Digital Quartz TACHOMETER

- Super-accurate CMOS, LSI solid-state circuitry—nothing to burn or wear out
- Green vacuum fluorescent display is visible day or night
- Easy 3-wire hookup

Helps you drive at most fuel-efficient RPM. Displays up to 9900 RPM in 100-RPM increments. Unaffected by normal heat, cold, humidity, vibration ... eliminates needle bounce and flutter. Hood helps reduce reflection. Swivel base mounts on top of dash or console. Black high-impact plastic housing, chromed bezel. Overall size with base: 2-5/8" wide, 4" long, 3-1/2" high. With instructions. For all 4, 6 or 8-cyl. vehicles with 12-volt negative-ground systems. Works in vehicles with conventional or electronic ignitions.
81—1466U—
Each $29.95

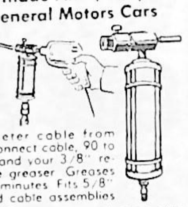

Compact • 2-1/16" diam. In-dash TACHOMETER

- Reads 0-8000 RPM
- Easy-to-read illuminated green face

Accurate solid-state Zener-stabilized circuitry controls needle bounce. Mounts easily in 2" diam. hole in dash with bracket (included). For on or under-dash mounting, order gauge panels—see Index. For all 12-volt 4, 6, or 8-cyl gasoline vehicles.
81—1446W— Each $19.95

Speedometer Cable Greaser for American-made AMC, Chrysler, Ford and General Motors Cars

- Lets you grease cable from transmission end—no need to remove or work under the dashboard

Easy to use—just remove speedometer cable from transmission and connect cable, 90 to 180 psi air supply and your 3/8" reversible drill to the greaser. Greases cable in only 4 to 6 minutes. Fits 5/8" and 7/8" threaded cable assemblies and all slip-in adapters.
12—3507X— Each $27.95

Mechanical SPEEDOMETER with ODOMETER & TRIP ODOMETER

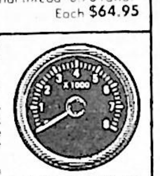

- Speedometer records up to 120 MPH, odometer up to 99,999 miles, trip odometer up to 999.9 miles

Illuminated 3" diam. matte black face with easy-to-read white numerals. Chromed bezel. Requires 3-3/8" diam. mounting hole, 3-3/4" depth clearance. Includes in-dash mounting bracket.

For all American vehicles. Standard .105 sq. drive and 5/8-18 internal thread. 1.0 ratio.
12—4152A— Each $64.95

For Volkswagen and dune buggies. Standard .105 sq. drive and M18x1.5 internal thread. 0.78 ratio.
12—4153R— Each $64.95

Internally Backlighted TACHOMETER

- Backlighting plus luminous indicator and black face with bold white numerals assure easiest viewing at night

Accurate readings from 0-8000 RPM. Solid state. Includes bracket, instructions. Requires 2-1/16" diam. mounting hole, 3" depth clearance. For all 12-volt 4, 6 or 8-cylinder gasoline vehicles.
81—1950X— Each $19.95

Sidewinder TACHOMETER

- 0-8000 RPM
- Illuminated 2-3/4" face
- For all 4, 6 & 8-cyl. cars and trucks with 12-volt neg. ground systems

Dual-jeweled D'Arsonval meter is accurate within ±2.5%. Zener diode regulated. Solid state. Unbreakable black cycolac case is sealed against dust, moisture. Recessed non-glare dial aids visibility. 4, 6 & 8-cylinder selector switch. Hardware and instructions included. Can be used with all ignition systems. **Not for diesels.**
81—1087Y— Each $14.95

STEWART-WARNER Mechanical TACHOMETER SPEEDOMETER with ODOME[TER]

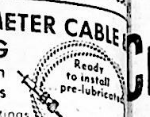

With indirect lighting windows, panel mo[unting] brackets. Use with standard tach and [speed]ometer cables, both units have standard [...] drive 5/8"-18" internal thread. 3" diam. [...] Not for use on diesel engines.

Mechanical Tachometer. Reads 0-9,000 RPM
12—3134P— Each $[...]

Mechanical Speedometer. Speedometer re[ads] up to 160 MPH, odometer up to 99,999 miles
16—0013N— Each $[...]

SPEEDOMETER CABLE [&] HOUSING for American Cars & Trucks

Complete with fittings, ready to install. Fit perfectly—no cutting or fitting necessary.

HOW TO ORDER: State Make, Year, [...] Automatic or Manual Transmission and S[...] Also State Engine Size and With or Without [Fac]tory Cruise Control. If two-piece cable, [state] Upper or Lower. Note: the stock number [or]dered may carry a different identification [...] on your package.

For the following vehicles:

50-81 American Motors	49-82 GMC Truck
42-81 Buick	51-56 Hudson
41-81 Cadillac	50-68 IHC Truck
64-66 Checker	49-79 Jeep
39-81 Chevrolet (exc. Corvair—see below)	46-54 Kaiser-Fraz[er]
38-81 Chevrolet Truck	49-82 Lincoln
46-81 Chrysler (exc. 77-79—see below)	41-82 Mercury (exc. Bobcat, Capri—see below)
49-61 DeSoto	42-57 Nash
49-81 Dodge (exc. Omni, 77-79 Dodge—see below)	41-82 Oldsmobile
48-78 Dodge Truck	55-58 Packard
58-60 Edsel	40-81 Plymouth (exc. Horizon, 77-79 Plymouth—see below)
41-81 Ford (exc. Pinto—see below)	41-81 Pontiac
48-72 Ford Truck (73-81—see below)	50-70 Rambler
	47-64 Studebaker
	49-63 Studebaker

55—3350P— Each $[...]

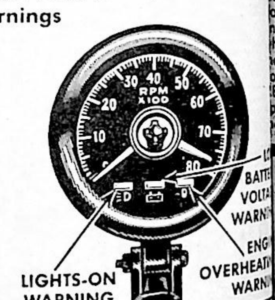

For the following cars and trucks:

Fits	Stk. No.
60-64 Corvair	74—5513Y
65-69 Corvair	75—2790U
77-79 Chrysler, Dodge, Plymouth	55—3351Y
78-81 Omni, Horizon	55—3351Y
71-81 Pinto, Bobcat, Capri	55—3352W
73-81 Ford Truck	55—3353U

UNIVERSAL CABLE for 34-82 Cars. 80" [...] can be cut to any length. Crimping tool incl[uded]
75—4605B— Each [...]

UNIVERSAL CABLE. Same as above but [...] of speedometer lubricant
73—4383Y— Each [...]

Combination TACHOMETER & 3-FUNCTION HEADLIGHT/BATTERY/ENGINE MONITOR with BOTH LED and buzzer warnings

The TACHOMETER (with precise D'Arsonval meter movement) accurately measures 0 to 8000 RPM across the extra-wide 250° sweep dial. Dial is illuminated for easy readouts day or night. The 3-FUNCTION MONITORING SYSTEM features LED lights and buzzer alarm that warn when (1) headlights are left on after ignition is turned off, (2) battery output drops below 10.8 volts or (3) water temperature reaches 203°F (95°C) and engine is overheating. Alarm buzzer stops automatically when the problem is corrected or can be turned off manually. Dependable solid-state circuitry. Impact-resistant ABS housing is 3-1/2" high, 2-7/8" wide, 3-1/2" deep, mounts securely on dash. 2" diam. face swivels 360° for trouble-free viewing in any direction. Matte black finish. Instructions included. For 12-volt, negative-ground gasoline engines with 4, 6 or 8 cylinders or rotary engines. Works with OEM electronic, breakerless (BEI), high-energy (HEI) & conventional breaker point ignitions.
12—3371Y— Each $29.95

MINI SIZE...MAXI PRECISION QUARTZ LED DIGITAL CLOC[K] for Cars, Boats, Vans, 4WDs... even Motorcycle Fairings

14.98 Each

Accurate to within 1 second variance per day!

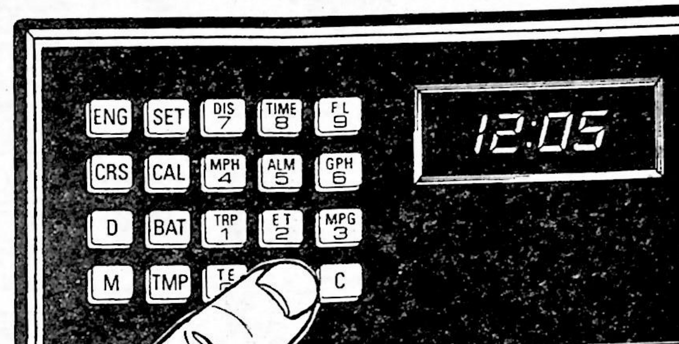

Displays hours and minutes in boldly illuminated red digital numerals. Display light goes out when ignition is turned off, but clock runs continuously. Flashing indicator shows clock is operational. Minimum power draw. Easy to reset—one button fast-sets the hour, another slow-sets the minutes. Solid-state technology eliminates all moving parts ... assures accuracy and reliability. Mounting hardware included for a variety of installations. Side-mounting brackets let you position clock on any part of dash ... permit tilting for easiest viewing. Decorative snap-in frame allows factory-look in-dash installation (outside bezel dimensions: 1-5/8" high x 3-1/4" wide). Or use double-face adhesive tape to mount unit anywhere else on the dashboard ... including face of dash. Instructions included. For all 12-volt negative ground systems.
88—9594Y— Each $14.98

Now... the Co-Pilots:

True COMPUTERS Including Cruise Control with Memory!

For your Car, Van, Truck or RV

Size: 3" x 6" x 1-3/16"

[Im]agine how great it would be to just push a button [an]d know exactly what's going on under the hood of [yo]ur car, at any time, under any condition! Imagine [th]e CONTROL such knowledge could give you. Im[a]gine the money and inconvenience such knowledge [co]uld SAVE you. And now you can make that dream reality.

Now! TRUE AUTOMOTIVE COMPUTERS so easy to use a child can do it

[T]hese small, dash-mounted wonders are not just [dis]guised calculators. They are **true computers**—time and [m]oney-saving navigational co-pilots similar to those [u]sed on airliners. They'll give you **Complete Trip [Co]mputing... An Efficient Fuel Management Sys[te]m... An Ultra-Accurate Quartz Time System** and [o]ne also offers you the most advanced **Cruise Control** [y]et! Both give you English and metric display read[o]uts.

There's a Co-Pilot exactly right for your needs!

[A] **44-Function COMPUTER plus CRUISE CONTROL with a Memory!** Here's the ultimate in Automotive Computers [p]lus the most effective, functional Cruise Control on the mar[k]et. More than a simple speed-maintaining device, this Cruise [C]ontrol has a Memory. You set it for the desired speed **before** [y]ou reach the highway. When you are ready to turn it on, just [p]ush a button. The Computer then seeks and maintains your [d]esired speed until you override or shut it off. Electronic decel [s]witch automatically deactivates cruise by sensing an abrupt [c]hange in RPM. Also, a slight tap on the brake pedal will [d]isengage cruise function, yet does not require the installa[ti]on of a brake disengage switch or cutting into a hydraulic [li]ne. Uses your existing brake light switch to disengage cruise [w]hile braking. Overreving is prevented on automatic and [m]anual transmissions by sensing voltage from the ignition [c]oil... no need to install a transmission or clutch switch. To [R]ESUME last-set speed, press button again. To ADJUST [s]peed to traffic flow, press another button and it will auto[m]atically adjust speed setting to current rate.

JUST PUSH A BUTTON and...

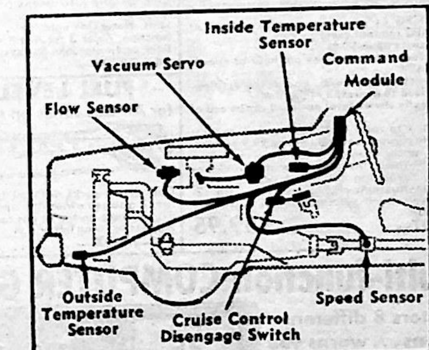

- ✔ DISCOVER the exact speed at which your particular vehicle is most fuel-efficient—under various conditions
- ✔ WORKS equally well on front-wheel-drive cars
- ✔ KNOW when your car needs a tune-up... then be able to evaluate a tune-up's effectiveness
- ✔ GET INSTANT mpg, cost-per-mile, average speed, time of arrival and much more to make driving more economical, relaxing and more FUN
- ✔ NEVER AGAIN worry about running out of gas—because you'll know exactly how long and how far you can drive on the fuel you have left
- ✔ BE FOREWARNED of impending electrical problems *before* they become costly emergency problems
- ✔ KNOW which brand and grade of gas is most economical for your vehicle—and how different tire brands and tire-pressure affect your fuel economy
- ✔ DOES EVERYTHING CADILLAC'S $895.00 Computer does... and MORE!

On-off switch shuts off cruise control when not in use, allowing computer to function separately.

And to give you an idea of the type of data that's as close as your fingertips when you have this remarkable Computer on board, here are some of its 44 functions: Current fuel efficiency (mpg)... Average fuel efficiency on trip (mpg)... Current fuel consumption (gph)... Average fuel consumption on trip (gph)... Fuel to empty... Fuel to arrival... Fuel used since fill up... Fuel used on trip... Distance to empty... Distance to arrival... Distance traveled on trip... Distance traveled since fill up... Time to empty... Time to arrival... Trip driving time... Stop watch, Lap Timer... Elapsed time... Time of day... Battery Voltage... Alarm: Wakeup or Reminder... Cruise Control: Input speed... Cruise Control: Adjust to current speed... Cruise Control: Resume at last set speed ... Night-time display dimming... and more. And, should you accidentally push the wrong button it will tell you so by displaying "ERROR"! Order below.

[B] **41-Function COMPUTER!** This is the exact same Computer as "A" except it does not have Cruise Control, so the three Cruise Control functions have been deleted. If your vehicle already has Cruise Control, it's an ideal choice. Order below.

EASY TO INSTALL

You can install either of these Computers yourself if you are car knowledgeable. A new variable gain kit (included) makes this unit adaptable to virtually all cars, including imports. An illustrated step-by-step installation manual is included and only basic tools are required. If you have it installed shop time should run about 3 hours. Extra sensor mounts are included for front-wheel-drive cars. Mounts on any vehicle (manual or automatic transmission) except DIESEL or FUEL INJECTED ENGINES.

Computerize your driving and save!

Similar to instruments used in airplanes, these computers put valuable information about time, distance, fuel and performance of your vehicle right at your fingertips. Not calculators operating on fixed information provided by the driver but true computers operating from automatic data sensors that constantly react to changing conditions... automatically recomputing vital data every second. Each function operates independently with data displayed and updated constantly until you change your request of the computer.

COMPUTERIZED CRUISE CONTROL (on 44-function computer). More than a simple speed maintaining device, this cruise control has a memory with a unique seek-and-hold capability. Select your desired cruising speed **before** reaching the highway. When you press a button, the electronic computer seeks and maintains that speed until you override or shut off the system. You can resume cruise control again at any time by pressing the same button. Accurate to ±2 MPH. The fool-proof way to maintain safe, legal speeds and to reduce those speed-ups and slow downs that decrease gas mileage and increase fuel bills.

EFFICIENT FUEL MANAGEMENT. More important today than ever before! This amazing instrument is programmed to answer any question about fuel usage: your most fuel-efficient driving speed; the brand and grade of fuel most economical for your vehicle; the effects of different types of tires, tire pressures and road conditions; when tune-ups and repairs are needed; whether or not tune-ups have been done properly.

TRIP COMPUTER. Unit continually displays time, distance or fuel to arrival at destination (or to empty)... computed and updated once a second and based on current vehicle speed and fuel consumption.

DIGITAL QUARTZ CRYSTAL TIME SYSTEM. Displays time of day, stop watch and lap timer functions (hours, minutes, seconds) and elapsed trip time. It even acts as a wake-up or reminder alarm. Time system operates continuously whether your vehicle is running or not. Accurate to 30 seconds per month.

TEMPERATURE. Displays inside or outside temperature in Fahrenheit or Celsius reading.

BATTERY/GENERATOR VOLTAGE CHECK. Warns of possible electrical failure by displaying battery and charging voltage. Prevents minor problems from becoming major, costly repairs. These multi-function computers are remarkably sophisticated yet easy to install and operate. Smart too—if you push the wrong button they let you know by displaying "error." Calibrate function lets you automatically compensate for changes in wheel and tire size and climatize fuel sensor for inaccuracy due to temperature and altitude. High-impact, heat-resistant ABS control module mounts in, on or below dash... measures 3" x 6" x 1-3/16" and has backlighted control buttons. Bright 5-digit blue fluorescent display (English or metric). Low current draw. Includes command module, throttle servo, speed, flow and temperature sensors, brake/clutch disengagement switch, mounting hardware, adapter for front-wheel-drive-vehicles, installation and use manual.

Take your pick and order today!

Experience the economy, convenience and down-right EXCITEMENT of driving a vehicle with a true automotive computer co-pilot. With the already-high cost of fuel soaring higher every day, it could show you how to recapture its cost in fuel-savings alone!

[A] **44-function Computer with Cruise Control.**
15—1480W— Each $129.95

[B] **41-Function Computer without Cruise Control.**
15—1481U— Each $99.95

Electronic Fuel Injection Adapter Kit. Allows computers to be used on vehicles equipped with throttle body injection or Electronic Fuel Injection. Adapter cannot be used on continuous or mechanical fuel injection systems or on diesel systems.
14—1723P— 1-Kit $14.95

GAUGE HOUSING for All 2" Gauges

• Gives your gauge a custom look

Mounts on or under dash with screws or double-sided tape. Black PVC plastic 2-3/4" high, 3" deep. Hardware, instructions.

81—1095A— Each $1.99

Deluxe ALTIMETER

Mounts on or under dash. Accurate from 0-15,000 ft. altitude. Red indicator hand is quick and easy to read against dark gray face. Tough molded plastic case has non-glare black finish. Sports-style aluminum bracket has self-adhesive mounting pad. Altimeter removes easily from bracket to go with you on hikes or backpacking trips. Size: 3-3/8" diameter.

14-4603A— Each $16.95

GAUGE MOUNTING PANELS

Choice of All Chromed or Chromed with Black & Walnut Inserts

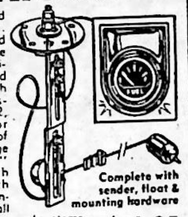

Smartly designed, 3 dimensional panels for one, two or three 2" and 2-1/16" diameter gauges. Formed steel, easily bolted under dash.

All Chrome-plated.
74—6897U—1-hole panel Each $ .79
74—6898B—2-hole panel Each 1.09
74—6899F—3-hole panel Each 1.19

Chromed with Interchangeable Black & Walnut Inserts.
74—6902B—1-hole panel Each $ .99
74—6906T—2-hole panel Each 1.39
74—6910N—3-hole panel Each 1.59

Complete Electronic FUEL LEVEL GAUGE SET

The easy-to-read 1-3/4" diam. black illuminated face has white numerals and indicator. Chromed bezel for in-dash mounting. Registers F, 3/4, 1/2, 1/4 & E. For tanks with depth of 5" to 27". Gauge requires 2-1/8" diam. hole with 2-1/2" depth clearance. With instructions. For all 12-volt negative-ground systems.

Complete with sender, float & mounting hardware

12—4229X— Each $19.95

Electronic OIL LEVEL MONITOR

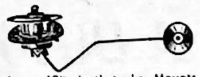

• Dash-mounted light warns of low oil
• Adjustable probe replaces dipstick
• Checks oil level—not just pressure

Works at all temperatures in all oil including synthetics. Won't interfere with oil pressure gauges or lights. Installs easily. Includes light, high-heat-resistant probe, wiring, instructions. For 12-volt negative-ground systems.

14—8705P— Each $9.95

GAS TANK FLOATS

Arm float for 6" to 12" depth tanks. Mounts using 1-1/2" hole on top of gas tank. To determine swing of float: The direction of the float arm is governed by the position of the flange mounting holes. Two of the holes have a greater distance between them than the others. Hold the bracket with these two holes toward you and note which way the float swings—right or left.

		Each
75—3079A—Swings left. 6 volt		$16.99
75—3080R—Swings right. 6 volt		16.99
75—3081X—Swings left. 12 volt		14.99
75—3082N—Swings right. 12 volt		14.99

Self-adhesive Mount ALTIMETER

Provides fast, accurate altitude readings from 0-15,000 feet. Dial graduated in 200 ft. markings. Mounts almost anywhere. With bracket removed it's a portable altimeter for hikers or campers. Black ABS plastic case, black dial, contrasting white markings, and red pointer. Case diameter: 2-3/8".

90—3494T— Each $14.95

ILLUMINATED ELECTRONIC FUEL GAUGE

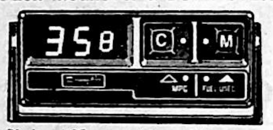

For All 12 Volt Systems

Easy-to-read fuel gauge features 1-3/4" diam. black face with white numerals and indicator, chromed bezel and indirect lighting slot. Use 2-1/16" inside diam. panels (see Index). Electric fuel level gauge registers E, 1/4, 1/2, 3/4, F. (Requires gas tank float—see Index.) For 12 volt negative-ground systems.

88—7217Y— Each $6.98

Dash-mount MPG COMPUTER

• Displays MPG as you drive ... microcomputer updates MPG readout every second
• Cuts fuel costs up to 30%
• Indicates fuel flow in gallons per hour at speeds below 15 MPH
• At pushbutton command, computer displays total gas used to nearest 1/10 gallon
• Automatically shows total gas used at the end of each trip
• Press button to reset fuel used to zero or let it accumulate through several trips to 99.9 gallons

Mounts on, under or in dash. Measures 1-3/4" x 4-1/2" x 4" deep. Includes computer, fuel-flow transducer, revolution counter, bracket, wiring, hardware, instructions. For all vehicles with 12 volt negative-ground systems (except diesel and fuel-injected).

14—9020T— Each $59.95

Low Fluid Level Indicator Light

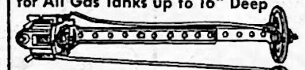

• Monitors engine coolant, windshield washer, or water injection system fluid levels
• Red L.E.D. indicator light comes on when fluid drops below a preset level

Easy to install. Compact indicator (1" x 2" x 1/2") mounts easily with double-face tape on any instrument panel. Complete with hardware and instructions. For all 12-volt systems. Note: One light is required to monitor each function; order 3 for monitoring coolant, washer fluid, and water injection system.

14—4430R— Each $3.99

FUEL LEVEL FLOAT for All Gas Tanks up to 16" Deep

Cork float works with all fuel level gauges. Mounts using 1-1/2" hole on top of gas tank. Adjusts to swing left or right.

14—7420X— Each $5.95

Multi-function COMPUTER GAUGE

Monitors 8 different functions ... warns you when trouble occurs!

Scan button gives 3-sec. cyclical display of water temp., voltage, outside temp. & oil pressure

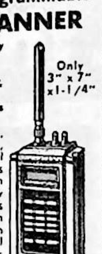

A tiny single-chip microprocessor constantly monitors 8 functions at once. When you press the keyboard button for a particular function, a digital LCD readout appears along with a digital indicator of the function being displayed. Keyboard and LCD readout are backlighted for easy night-time operation. If the reading of a function goes past a pre-set warning point, a bright red LED and the function's symbol will flash. Some warning points are pre-set at factory; others can be programmed by you. System monitors the functions at right:

Function	Reads	Warning Point
Oil pressure	0 to 100 psi	6 psi
Water temp	32° to 300°F	Programmable
RPM	0 to 9900 RPM	Programmable
Volts	0 to 18 volts	11 & 15.5V
Inside temp	-22° to 194°F	
Outside temp	-22° to 194°F	36°F
Clock	0 to 12:59	
Stopwatch	0 to 99:59	

Size: 1-1/2" high x 5-7/8" wide x 3-3/4" deep (excluding pedestal). With senders, adapters, hardware, instructions.

12—2880R— Each $79.95

8-band • 16-channel Programmable HAND-HELD SCANNER

Only 3" x 7" x 1-1/4"

• More scanning power than many base and mobile scanners
• Crystal-free solid-state circuitry
• Automatic or manual search & scan
• Highly visible LCD display shows channel and frequency

Covers 8 bands: Low, High, UHF, "T", 2-meter Ham, 70cm Ham, Military Land Mobile, Federal Government Land Mobile. Search 15 channels per second. Touch button automatically seeks new frequencies. Limit button sets upper and lower limits of search range ... also lets you step down through frequencies in manual search mode. Hold button stops on any frequency while searching. Automatic lockout permits bypassing channels for faster scanning cycle. Manual button allows direct channel access. Track tuning locks in on each transmission for best reception. Operates on 6 rechargeable "AA" batteries (not included). LED indicator shows when batteries need recharging. Includes flexible antenna, earphone, battery charger/AC adapter and carry case with belt loop.

03—9789W— Each $299.95

MILEAGE REMINDERS

Accurately "logs" your trip and gas mileage. Also use as reminder for checking oil and grease changes, switching tires etc.

[A] Mileage Reminder and Trip Timer. Perfect for odometer and time readings. Pressure-sensitive dash mount.
04—0302W— Each $1.98

[B] Mileage Reminder. Clips on visor.
16—0101Y— Each 39¢

PERFORMANCE TIMER

• Measures the time it takes to go from 0-30 mph, 0-60 mph and 1/4 mile ... shows top speed after 1/4 mile
• Accurately displays current speed regardless of tire size or axle ratio

Timer "beeps" after 30 mph has been reached, after 60 mph has been reached and after 1/4 mile has been reached. Each beep indicates that the data has been recorded by the microcomputer and is available for display by pressing the corresponding function button. Quartz clock and magnetic sensors on driveshaft provide accuracy to within 1/10 of a second. Mounts on or under dash (with adjustable pedestal included) or in dash. Micro computer measures 2-1/2" high, 4-3/4" wide, 1-1/4" deep. Pedestal measures 3/4" high. With instructions. For all front or rear-wheel-drive 12-volt vehicles.

12—3476N— Each $99.95

Illuminated • Electronic Mini Water Temperature, Oil Pressure & Voltmeter Gauges

• 1-1/2" diam. illuminated dial with black face and bezel and white numerals

Easy-to-read gauges monitor vehicle's systems to warn of trouble before it occurs. Includes bracket and hardware for custom-look in-dash mounting. For all 12-volt vehicles.

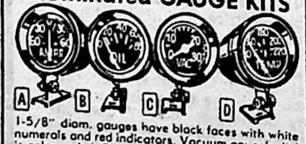

[A] Water Temperature Gauge with sender. Reads 100° to 250°F (40° to 120°C). Order adapter kit below to install in imported cars.
81—1558Y— Each $11.95

[B] Oil Pressure Gauge with sender. Reads 0 to 100 psi (0 to 7 kg/cm²). Order adapter kit below to install on imported cars.
81—1559W— Each $14.95

Voltmeter (not shown). Reads 8 to 16 volts.
81—1560U— Each $7.95

Adapter Kit (not shown). Includes metric engine block fittings to install [A] and [B] in imported cars.
14—3189B— 1-Kit $3.95

Illuminated GAUGE KITS

1-5/8" diam. gauges have black face with white numerals and red indicators. Vacuum gauge's dial is color coded. Black housings can be adjusted to desired angle; mount on dash or center console. Instructions included.

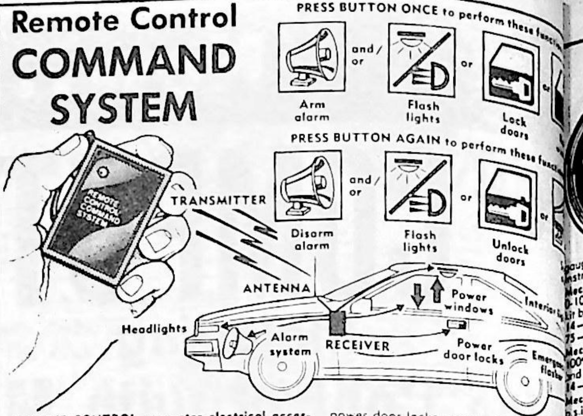

[A] Ammeter. Reads -60 to +60.
88—7381B— Each $4.98

[B] Oil Pressure. Mechanical. Reads 0-80 lbs.
88—7382P— Each $6.98

[C] Vacuum. Mechanical. Reads 0-30 in. Color-coded dial. With installation kit.
88—7384W— Each $7.98

[D] Water Temperature. Mechanical. Reads 100°-220°F. With installation kit.
88—7383Y— Each $8.98

Remote Control COMMAND SYSTEM

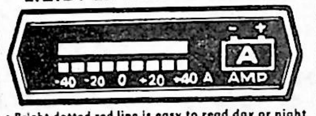

• REMOTE CONTROL—operates electrical accessories from outside car with a push of a button
• Works with ANY alarm system ... lets you override entry/exit delays
• Flashes exterior lights so you can find your car easily in dark or crowded parking lots
• Lets you turn on interior lights before getting into car at night

Pocket transmitter sends a coded radio signal through your vehicle's window to a remote receiver that controls your alarm system and one other electrical accessory: standard headlights (not retractable), power door locks, power windows, etc. Transmitter works up to 300 ft. away from vehicle with standard antenna systems, or up to 500 ft. (depending on terrain) Thousands of codes eliminate the possibility of someone using a duplicate code. Chirper (installed under hood) indicates if command system is operated. Kit includes pocket transmitter, receiver, wiring, connectors, wiring and instructions. For 12-volt negative-ground systems only.

12—3505A— 1-Kit $124...

L.E.D. LINEAR GAUGES

• Bright dotted red line is easy to read day or night
• Choice of ammeter, voltmeter, water temperature and oil pressure gauges

Accurate readouts at a glance! 1" high x 3" wide x 2-1/2" deep black plastic gauges can be stacked ... mount compactly on, in or under dash. With clips, wiring, hardware, instructions.

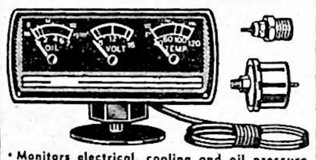

Ammeter (shown). Reads -40 to +40.
81—1112U— Each $19.95

Voltmeter (not shown). Reads 11-15 volts
81—1111W— Each $19.95

Water Temperature Gauge (not shown). Reads 104°-248°F or 40°-120°C. Fits water jacket hole sizes 1/8" and 1/4" NPT and 1/2" NPT Includes electrical sending unit with adapters.
81—1113B— Each $24.95

Oil Pressure Gauge (not shown) Reads 14.2-71 psi or 1-5 kg/cm². Fits hole sizes 1/8", 3/8" NPT and 10mm. Includes electrical sending unit with adapters.
81—1114P— Each $24.95

Mini 3-GAUGE ENGINE MONITORING SYSTEM

• Monitors electrical, cooling and oil pressure systems ... warns of trouble before it starts
• Compact instrument panel ... only 4-5/8" x 2" x 2-1/4" deep
• Solid state, illuminated, fully electronic

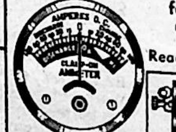

Color-coded gauges are easy to read day or night. Oil gauge reads 0-100 psi and 0-7 kg/cm², temperature gauge reads 100°F-250°F and 40°C-120°C; voltmeter reads 8-16 volts. Only 3 electrical connections required. Panel has self-adhesive backing for secure mounting anywhere ... won't obstruct view. Handsome, high-impact Cycolac case with black finish ... no exposed parts. Includes gauge panel, oil sensors, wiring and instructions. Easy-to-read color-coded gauges. Fits all American 12-volt vehicles. Accessories below required for some imported vehicles.

14—1629R— 1-Kit $39.95

Metric Temperature Sender for cars with 10mm, 14mm, 16mm and 18mm threads.
74—7106R— Each $15.98

Oil Pressure Adapter Nut to fit Japanese vehicles. 1/8"
74—7109T— Each $5.98

CLAMP-ON AMMETER for ALL Trucks, Cars & Boats

Reads by induction ... no connections—just clamp on cable or wire

Shows full charge rate up to 100 amps, tapering of charge, normal charge rate of 10 amps, opening of regular cutout, and current drain of ignition and accessories. Compact 2" diameter case with chromed trim ring. Easy-to-read color-coded scale. Clamps easily to battery or generator cable.

75—1984U— Each $8.99

TEMPERATURE AND HUMIDITY INDICATOR

Mounts on dash to indicate temperature (Fahrenheit) and humidity. Black plastic housing, vertical adjustment. Includes magnetic base and self-adhesive mounting pad.

04—0234A— Each $2.99

Remote-controlled AUTO STARTER

• Lets you start or stop engine from inside office or wherever you happen to be
• Activates any pre-set accessory in your heater, air conditioner, lights, radio, etc.
• Saves gas, reduces wear by pre-warming and cutting down on high-idle time
• Programmable—select your own frequency from thousands of combinations

Hand-held transmitter (smaller than a cigarette pack) sends coded signal to a computer/receiver located in your vehicle. Computer activates solenoid in the engine compartment that automatically primes carburetor, starts car and activates accessory systems you previously programmed. Safety features: 1) Theft-proof—steering wheel and gear selector are locked; you start car ... no keys left in ignition ... automatically deactivates if car doesn't start ... seconds; 3) Engine shuts off automatically ... 10 minutes if owner forgets or is detained; 4) state—no moving parts to wear out. Installs with color-coded 6-wire connection. For all automatic transmissions. Not for diesels ... from factory. No C.O.D. orders.

96—8176NF— Each $24...

LED BATTERY TESTER

• Indicates condition of main and auxiliary batteries

Eight multi-colored LEDs give a progressive readout of battery condition—good, fair or poor. Dual rocker switch lets you test 2 batteries. Solid-state circuitry. Brushed black aluminum housing is approx. 2-7/8" x 4-1/4" wide. Includes mounting screws, connectors, instructions.

12—4075U— Each $1...

Illuminated MINI GAUGE KITS with INTERNATIONAL SYMBOLS

• Choice of complete 1, 2 or 3-gauge kits
• Super compact to install easily even in the tightest spots in or under your dash
• 1-3/8" diam. black faces with white numerals ... red indicators ... international symbols
• Gauges give both English and metric readings

Illuminated for trouble-free night viewing. Matte black panels and bezels.

[A] Ammeter—reads -60 to +60 amps and indicates exact generator/alternator output to detect weak battery, electrical shorts, etc.
[B] Water Temperature Gauge—registers 100° to 280°F (40° to 138°C)
[C] Oil Pressure Gauge—measures 0 to 100 lbs. (0 to 7 kg/cm²); indicates oil leaks, bad oil pump, etc. Gauge panels mount under dash (some cutting included) or in dash (some cutting required). Ready-to-install kits include sending units, mounting brackets, instructions. Size: 2" high x 2-1/4" wide.

Triple Gauge Kit (shown). Includes ammeter, water temperature gauge and oil pressure gauge. Size: 2" deep x 2-3/8" high x 6" long.
81—0567P— 1-Kit ...

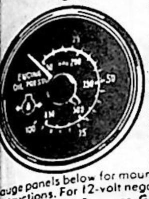

Dual Gauge Kits (not shown). Size: 2" deep x 2-3/8" high x 4-1/4" long.
81—0564X—Ammeter/Oil Pressure
81—0565U—Ammeter/Water Temp.
81—0566B—Oil Pressure/Water Temp.

Single Gauge Kits (not shown). Size: 2" deep x 2-3/8" high x 2-1/4" long.
81—0561T—Ammeter
81—0562A—Oil Pressure
81—0563R—Water Temperature

CHARGE YOUR ORDER ON YOUR VISA OR MASTERCARD

Stewart-Warner WORLD GAUGES with International Symbols

Choice of Mechanical Gauges or Electric Gauges

• Internally illuminated for easy night viewing
• Multi-colored faces for easy day viewing

2-1/16" diam. gauges with chrome-plated bezels provide accurate information about vital engine functions at any given moment in both SAE and metric readings. Mount in dash, order gauge panels below for mounting on or under dash. Instructions. For 12-volt systems except where noted.

Mechanical Oil Pressure Gauge (shown). Reads 0-100 p.s.i. and 50-650 kPa. Requires installation kit below.
14—3205W— Each $29.98
74—3145P—Installation Kit 1-Kit 5.69

Mechanical Water Temperature Gauge. Reads 100°-265°F and 40°-130°C. Complete with tubing and fittings.
14—3210W— Each $42.98

Mechanical Air Pressure Gauge. Reads 10-150 psi and 100-1000 kPa. Requires installation kit below.
14—3200X— Each $29.98
74—3145P—Installation Kit 1-Kit 5.69

Electric Water Temperature Gauge. Reads 100°-280°F and 40°-130°C. Requires sending units below.
14—3209T— Each $26.98

Sending units for Water Temperature Gauge.
74—3215N—For American cars Each $14.98
74—7106R—For imported cars Each 15.98

Electric Oil Pressure Gauge. Reads 0-100 p.s.i. and 0-700 kPa. Requires sending unit below; imported cars require metric adapter nut below.
14—3206U— Each $26.98
14—3214Y—Sending Unit Each 22.98
74—7109T—Metric Adapter Nut Each 5.98

Electric Ammeter Gauge. Reads -60 to +60 amps.
14—3199A— Each $18.98

Electric Fuel Level Gauge. Requires sending unit (float) below.
14—3203A— Each $26.98
75—3081X—Float (swings left) Each 14.99
75—3082N—Float (swings right) Each 14.99

Electric Transmission Oil Temperature Gauge. Reads 150°-350°F and 80°-170°C. Requires sending unit below.
14—3207B— Each $27.98
74—7131X—Sending Unit Each 13.98

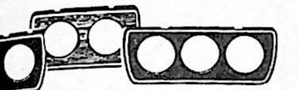

Electric Engine Oil Temperature Gauge. Reads 150°-350°F and 80°-170°C. Requires sending unit below.
14—3202T— Each $28.98
74—7131X—Sending Unit Each 13.98

Electric Air Pressure Gauge. Reads 0-150 p.s.i. and 0-1000 kPa. Requires sending unit below.
14—3201N— Each $28.98
14—3212B—Sending Unit Each 20.98

Electric Hydraulic Oil Temperature Gauge. Reads 100°-220°F and 40°-100°C. Requires sending unit below.
14—3204R— Each $27.98
74—3213P—Sending Unit Each 12.98

Electric Voltmeter. 12 volt neg. ground only. Reads 10-16 volts.
14—3208P— Each $28.98

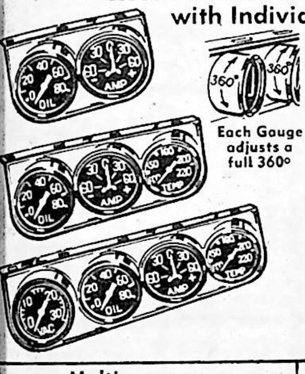

Single, Double or Triple-hole GAUGE PANELS

Fit gauges above or ANY 2-1/16" diam. gauge. Die-cast metal with black suede-look finish can be covered with adhesive woodgrain overlay (included). Mount on or under dash—hardware included.

14—3216T—1-hole Panel Each $11.98
14—3217A—2-hole Panel Each 12.98
14—3218R—3-hole Panel Each 14.98

Illuminated GAUGE KITS with Individually Adjustable Gauges

Each Gauge adjusts a full 360°

• Complete kits include panels, gauges, fittings and instructions.

Take the guesswork out of engine protection! 2" diam. gauges let you know your exact oil pressure, water temperature and generator/alternator output at all times. Black faces with white numerals and red indicator needles for at-a-glance readings. Highly chromed panel and tilt tubes. Choice of chromed or black bezels. Pressure-sensitive black leather grain and walnut woodgrain overlays (included) give you a choice of custom luxury looks.

Twin Gauge Kit. -60 to +60 ammeter and 0-80 lbs. mechanical pressure gauge.
88—6249B—Chromed bezel
88—7419P—Black bezel 1-Kit $9.98

Triple Gauge Kit Above gauges plus 100°-220° mechanical water temperature gauge
88—6250P—Chromed bezel
88—7420Y—Black bezel 1-Kit $18.95

4-Gauge Kit. Above, plus 0-30 in. mechanical vacuum gauge.
88—6251Y—Chromed bezel
88—7421W—Black bezel 1-Kit $24.95

Multi-purpose Dual TEMPERATURE GAUGE with Fluorescent Digital Display

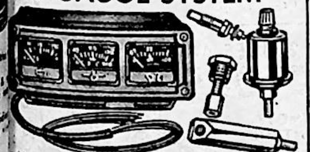

• Accurately indicates temperatures of any TWO locations on vehicle!
• Reads from -40° to 225°F or -4°C to 160°C
• Warns of dangerous overheating (of oil, transmission, engine coolant, differential, etc.) or registers inside/outside temperatures
• 5/16" high blue fluorescent display is easy to read day or night

Compact 3-1/2" x 2-1/2" x 1-1/4" deep gauge mounts easily in, on or under dash. Two small probes (each with 14-1/2 ft. of wire) surface mount with epoxy glue (not included) in the locations of your choice—no special adapters required. A flick of the switch gives instant temperature readout. With hardware, instructions. For all 12-V negative-ground systems.

14—9360T— Each $49.95

Illuminated Mini Electronic 3-GAUGE SYSTEM

• Monitors voltage, water temperature and oil pressure
• Fits all American vehicles—order adapters below for imported vehicles

Keep track of vital engine functions ... stop problems before they occur! Water temperature and oil pressure gauges give both SAE and metric readings. Voltmeter reads 11-17 volts; water temp. gauge reads 100°F-280°F or 38°C to 138°C and 120°F ... oil pressure gauge reads 10-100 psi and 0.7-7 kg/cm². Each gauge is 3/4" high x 1" wide ... overall size is only 2" high x 4" wide x 1-3/4" deep. Installs easily—only 5 electrical connections required. Mounting hardware, wiring and instructions included. Impact-resistant case mounts with self-stick adhesive tape.

14—4699R— 1-Kit $29.95

Metric Temperature Sender. Required for Japanese and European vehicles with 14mm and 16mm threads.
74—7106R— Each $15.98

Oil Pressure Adapter Nut. Required for Japanese vehicles 1/8"-28 threads.
74—7109T— Each $5.98

GRAVITY FORCE METER & VOLTMETER

• Multi-colored LED lines indicate "G" force upon acceleration or deceleration
• Checks battery and charging voltage

Gravity force scale: 0 to 0.5G. Voltage scale: 11 to 15 volts. Backlighting works in conjunction with your parking lights. Display unit measures 1" high, 6-1/4" long, 1-5/8" deep. Sensor measures 2-1/8" high, 2" long, 1-1/2" deep. Both units mount with double-sided tape (included). 12V negative-ground systems only.

81—1821P— Each $49.95

LIQUID-FILLED MECHANICAL GAUGES

Liquid in case

Sophisticated technology developed for professional racers—now available to you! Quality-tested gauges are filled with a special liquid (see diagram above) to: (1) dampen vibration to assure the smoothest, most accurate readings (without needle flutter) even over the worst off-road terrain; (2) add life of gauge; (3) assure peak performance at all times. All gauges are 2-5/8" diam. and require 2-3/4" depth clearance. Illuminated dial for night driving or racing. 12 volt. All gauges (except fuel pressure gauge) include nylon or capillary tubing and NPT fitting(s). Order mounting cup below.

Water Temperature Gauge (shown). 100°-280°F.
12—4140W— Each $54.95

Water Temp. Gauge (not shown). 100°-240°F.
12—4141U— Each $59.95

Water Temperature Gauge (not shown). 100°-340°F.
12—4142B— Each $59.95

Oil Pressure Gauge (not shown). 0-100 psi.
12—4138P— Each $39.95

Oil Pressure Gauge (not shown). 12-200 psi.
12—4139Y— Each $39.95

Blower Pressure Gauge (not shown). 4-60 psi.
12—4136U— Each $49.95

Fuel Pressure Gauge (not shown). 1-15 psi. Requires copper or stainless steel tubing—see Index.
12—4137B— Each $39.95

Mounting Cups for liquid-filled gauges above.
12—4142P—Chrome-plated Each $14.95
12—4144Y—Black finished Each 12.95

Extra-heavy-duty Illuminated TRANSMISSION & OIL TEMPERATURE GAUGES

Complete with sender, fittings, wiring

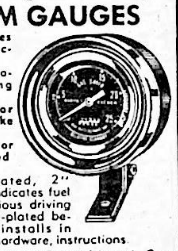

• Designed and built tough for high-stress and/or high-speed engines and transmissions
• Great for racing, towing or hauling vehicles

Good-looking electric gauges have easy-to-read 2-1/4" diam. multi-colored faces, stainless steel bezels. Mount in dash ... or can be mounted on or under dash with matching stainless steel panels (included). With mounting hardware, instructions. For 12-volt systems.

[A] Transmission Temperature Gauge. Reads 100°-350°F. Sender mounts in any external transmission fluid line or can be adapted to drain plug (drain plug fitting not included).
14—9279T— 1-Kit $19.95

[B] Oil Temperature Gauge. Reads 100°-325°F. Sender mounts in original sender location or with T-fitting (included), allowing OEM warning light and gauge to function.
14—9280T— 1-Kit $19.95

Illuminated Engine Economy VACUUM GAUGES

• Accurately measures engine manifold vacuum
• Indicates most economical operating speeds
• Warns of leaks or restrictions in intake or exhaust system
• Choice of in-dash or pedestal-mounted gauges

Internally-illuminated, 2" multi-colored face indicates fuel economy under various driving conditions. Chrome-plated bezel. Compact ... installs in limited space. With hardware, instructions.

Pedestal-mounted Vacuum Gauge (shown). Case measures 2-3/4" diameter x 3" deep. Mounts on dash or console.
14—3610X— Each $14.95

In-dash-mounted Vacuum Gauge.
14—3609R— Each $12.95

Complete! Illuminated 1, 2, 3 or 4 GAUGE KITS

LOW AS $2.59

Don't guess about your oil pressure, water temperature or generator or alternator output! Flashing indicator lights show only that systems are working—these 2" diam. illuminated gauges give actual readings. Black dials, white numerals, chromed or black bezels. Chromed mounting panels come with simulated wood and black vinyl self-adhesive overlays for optional custom look. Incl. all fittings & instructions for 6 or 12 volt.

Dual Gauge Kit. Ammeter reads -60 to +60, mechanical oil gauge 0 to 80 lbs.
88—6740P—Chromed Bezel
88—7410R—Black Bezel 1-Kit $6.98

Triple Gauge Kit. As above, plus mechanical water temperature gauge with 100°F to 220°F reading.
88—6741Y—Chromed Bezel
88—7409A—Black Bezel 1-Kit $14.98

4-gauge Kit. As above, plus 0-30 in. mechanical vacuum gauge.
88—7407N—Chromed Bezel
88—7408T—Black Bezel 1-Kit $19.98

Single Gauge Kits. Same as above, but sold individually

Gauge	Chromed Bezel	Black Bezel	Each
Ammeter: reads -60 to +60	88—7411X	88—7412N	$2.59
Oil Pressure: reads 0 to 80 lbs.	88—7413X	88—7414A	5.29
Water Temperature: reads 100 to 220°F	88—7415Y	88—7416W	7.89
Vacuum: reads 0 to 30 in.	88—7417U	88—7418B	4.98

SENDING UNITS

For electrical gauges listed in this catalog.

Sending unit for electronic water or oil temperature gauges. 12 volt.

For Domestic Cars.
74—7131X—For gauges reading 140° to 320° only. Each $13.98
74—7105A—For all other electric temperature gauges. Each $13.98

For Imported Cars.
74—7106R— Each $15.98

Sending unit for electronic oil pressure gauge for domestic cars. 0-80 lbs.
74—7108N—12 volt Each $19.98

Sending unit and adapters for electronic oil pressure gauge for imported cars. Range 0-80 lbs.
74—7111R—12 volt Each $21.98

Metric adapter nut to use mechanical pressure or vacuum gauges on imported cars.
74—7109T— Each $5.98

TROUBLE CODE ACCESS TOOL for Computer-controlled Engines

• Allows fast, easy access to trouble codes
• Simplifies vehicle servicing ... speeds up diagnosis of engine problems

Plugs easily into the adapter from computer. Trouble codes are indicated by the number of times LED flashes. For the following computer-controlled engines: General Motors CCC and C-4, Ford MCU and EEC-IV and AMC Alliance CEC. With instructions. Will not damage computer. See Index for repair manuals that include diagnostic specs and trouble codes.

12—3357X— Each $16.98

Illuminated GAUGES with Black Cockpit-style Panels

• 2" diam. face plate with easy-to-read 270° sweep
• All gauges in English with metric equivalents and international symbols
• Choice of triple panel gauge or single gauges

Accurate gauges are illuminated for easier readouts in the dark, can be connected to dash light for brightness control. Mount on, in or under dash. Instructions, hardware, sending units and metric adapters included. For all 12-volt systems.

Triple Panel Gauge. Ammeter reads (reads -60 to +60), mechanical oil pressure (reads 0-100 psi) and mechanical water temperature (reads 130-280°F).
14—7940U— Each $19.95

MECHANICAL GAUGES

Vacuum Gauge. Reads 0-30 Hg.
14—7941B— Each $9.95

Ammeter. Reads -60 to +60.
14—7942P— Each $4.95

Voltmeter. Reads 0-18 volts.
14—7943Y— Each $18.95

Tachometer. Reads 0-8000 RPM.
14—7944W— Each $9.95

Water Temperature Gauge. Reads 130° to 280°F.
14—7945T— Each $9.95

Oil Pressure Gauge. Reads 0-100 psi.
14—7946A— Each $7.95

ELECTRIC GAUGES

Water Temperature Gauge. Reads 100° to 300°F.
14—7947R— Each $22.95

Oil Pressure Gauge. Reads 0-100 psi.
14—7948X— Each $25.95

Illuminated ELECTRONIC SIDEWINDER GAUGES with International Symbols

• Large easy-to-read 2-1/16" diam. face plates
• English readouts with metric equivalents
• Choice of individual gauges & 2-gauge panel or 3-gauge panel (shown)

Moisture and dust-proof black housing (with chromed trim) mounts easily on or under dash. Gauges have soft white faces with red accent bars and needle. Internal illumination and slight tilt of gauge to left improve readability. Black leather-grained front panel with walnut veneer inserts. Include adjustable mounting arms, oil necessary sending units, tubing, brass fitting and instructions.

Individual Gauges (not shown).

Oil Pressure Gauge. Reads 0 to 100 psi
12—2513W— Each $7.95

Water Temperature Gauge. Reads 130° to 290°F.
12—2514U— Each $12.95

Voltmeter. Reads 8-16 volts
12—2515A— Each $11.95

Ammeter. Reads +60 to -60 amps
12—2516R— Each $6.95

Dual Gauges (not shown). Same readings as above.
12—2517X—Oil Press./Water Temp Each $19.95
12—2518N—Oil Pressure/Ammeter 12.95

Triple Gauge (shown) Oil Pressure Water Temperature/Ammeter. Same readings as above.
12—2519T— Each $24.95

Keep an accurate engine maintenance schedule!

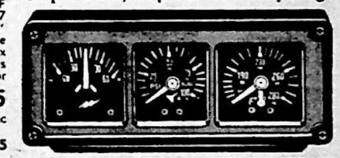

HOUR METER keeps track of the number of hours your engine has run 10,000-hour readout recycles at 9,999.9 hours. Sealed—can't be tampered with or re-set. Non-illuminated dial in high-impact plastic case. Polished stainless steel bezel. 2-5/16" diam. (including bezel). Mounts in dash—requires 2-1/16 diam. hole and 1-1/2" depth. With bracket and instructions. For all gasoline or diesel 8 to 50-volt negative or positive-ground vehicles.

12—3475X— Each $27.95

CHARGE YOUR ORDER ON YOUR VISA OR MASTERCARD

Mini • Illuminated MECHANICAL 3-GAUGE KIT

Accurately indicates water temperature, oil pressure & amperage

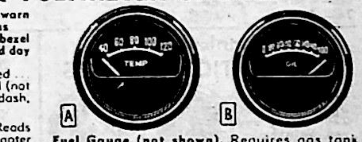

• For all American vehicles—for imported vehicles order adapter kit listed below

Water temperature gauge reads 130°-280°F (54°-138°C); oil pressure reads 0-100 psi (0-7 kg/cm²); ammeter reads ±60 amps. 1-3/8" square dials illuminated for easy nighttime readings. Compact 5" wide x 2-1/2" deep x 2-3/4" high impact-resistant black case mounts easily on or under dash. With tubing, fittings (for American cars), instructions.

81—1356X— 1-Kit $19.95

Adapter Kit for imported cars. Includes metric engine block fittings to install gauge kit above.
14—3189B— 1-Kit $3.95

Illuminated Electronic WATER TEMPERATURE, OIL PRESSURE & VOLTMETER GAUGES

• Constantly monitor vehicle's systems to warn you of problems BEFORE they become serious
• Large 2" diam. illuminated dial has black bezel and face with white numerals ... easy to read day or night

Mount easily in dash using brackets included or can be mounted in attractive gauge panel (not included—See Index). To mount on or under dash, order housing below. For all 12 volt systems.

[A] Water Temperature Gauge with sender. Reads 100°F to 250°F (40° to 120°C). Order adapter kit at right to install on imports.
81—1092Y— Each $14.95

[B] Oil Pressure Gauge with sender. Reads 0 to 100 p.s.i. (0-7KG/CM²). Order adapter kit at right to install on imported cars.
81—1093W— Each $19.95

Voltmeter (not shown). Reads 8 to 16 volts. Graded red, yellow, green, red scale.
81—1094U— Each $9.95

Fuel Gauge (not shown). Requires gas tank float—see Index.
81—1369P— Each $7.95

Black On or Under-dash Housing (not shown). For all 2" diam. gauges. Attaches with screws or double-sided tape (included).
81—1095A— Each $1.99

Adapter Kit (not shown). Includes metric engine block fittings to install [A] & [B] in imported cars.
14—3189B— 1-Kit $3.95

Mechanical THROTTLE and SPEED CONTROL

for American & Imported Front-engine Cars, Light Trucks & Vans with Automatic or Manual Transmissions

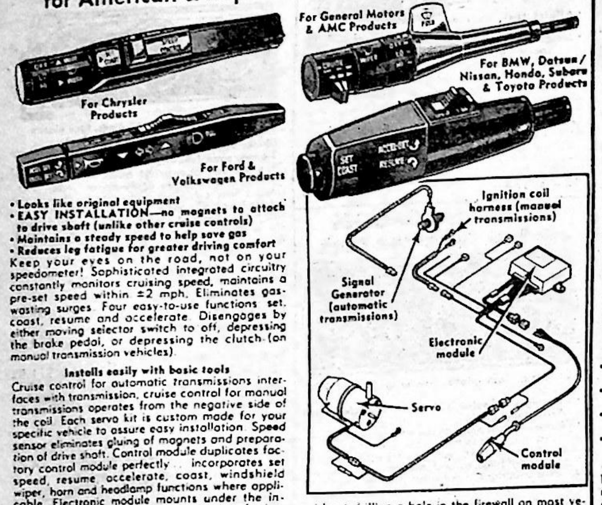

• Foolproof, trouble-free, easy to operate
• Frees your foot from gas pedal—adds new comfort to driving
• Complete, easy-to-install unit ... at a low, low price you can't match anywhere!

Cruise down any level highway at any speed—without having your foot on the accelerator, without constantly checking your speedometer. Even after long trips, your right leg will not be stiff or cramped. Because you're more comfortable, you'll enjoy the trip more, and reach your destination fresh! Speed control can be used as a quick-set idle control for warm-up engine and to reduce fuel consumption. Prevents drain on battery, for operating air conditioning blowers when vehicle is not in motion, or for tuning and testing the engine. Easy to use. Works automatically. Set speed control at cruising speed you want to maintain on a level road, then turn knob on control module. Speed control will hold desired speed until you release it by a touch of the brake pedal or a touch of the button on the control module. Includes all hardware and instructions.

12—3202N— $19.95

Custom designed for your exact make, year & model!

OEM-look ELECTRONIC CRUISE CONTROL for American & Imported Cars, Vans, Light Trucks

- Looks like original equipment
- EASY INSTALLATION—no magnets to attach to drive shaft (unlike other cruise controls)
- Maintains a steady speed to help save gas
- Reduces leg fatigue for greater driving comfort

Keep your eyes on the road, not on your speedometer! Sophisticated integrated circuitry constantly monitors cruising speed, maintains a pre-set speed within ±2 mph. Eliminates gas-wasting surges. Four easy-to-use functions: set, coast, resume and accelerate. Disengages by either moving selector switch to off, depressing the brake pedal, or depressing the clutch (on manual transmission vehicles).

Installs easily with basic tools

Cruise control for automatic transmissions interfaces with transmission, cruise control for manual transmissions operates from the negative side of the coil. Each servo kit is custom made for your specific vehicle to assure easy installation. Speed sensor eliminates gluing of magnets and preparation of drive shaft. Control module duplicates factory control module perfectly ... incorporates set speed, resume, accelerate, coast, windshield wiper, horn and headlamp functions where applicable. Electronic module mounts under the instrument panel, is pre-set at factory so no further adjustments are necessary. Wiring harness has small connector plugs which permit installation without drilling a hole in the firewall on most vehicles. Kits include all brackets, hardware and illustrated instructions.

CUSTOM FIT FOR THESE AMERICAN & IMPORTED CARS, VANS & LIGHT TRUCKS

AMC 82-85 Alliance, 82-85 Eagle, 82-85 Encore. BMW 84-85 318i, 1985 325e. BUICK 78-85 Century, 78-85 Electra, 78-85 LeSabre, 78-85 Regal, 78-85 Riviera, 82-85 Skyhawk, 81-85 Skylark. When Ordering, State Make, Year, Model, Manual or Automatic Transmission, 2 or 4-wheel Drive, Gasoline or Diesel Engine, Whether or not Vehicle has Windshield Wiper Delay & Stk. No. For GM and Ford, state if OEM Vehicle control handle includes wiper delay or horn function. NOTE: All diesel-powered vehicles require a vacuum pump. Shipped from factory. No C.O.D. orders.

78—4187Y—For gasoline vehicles above ... 1-Kit $129.95
78—4188W—For diesel vehicles above ... 1-Kit 135.95

Mechanical 2-5/8" COMPETITION GAUGES

- Illuminated 2-5/8" diam. face with 270° sweep and red pointer ... brushed aluminum bezels

Mount easily in dash. With tubing, brass fittings, firewall grommets, in-dash mounting hardware, instructions. Order panels below.

Oil Pressure Gauge (shown). Reads 0-200 psi. 14—4045N— Each $29.95
Oil Pressure Gauge. Reads 0-100 psi. 14—4044Y— Each $29.95
Water Temperature Gauge. Reads 100°-240° F. 6-ft. of tubing. Low temperature range for drag racing only. 14—4047A— Each $46.95
Water Temperature Gauge. Reads 100°-280° F. 14—4046T— Each $42.95
Transmission Temp. Gauge. Reads 100°-280° F. 14—4049X— Each $49.95
Turbo Boost Gauge (shown). Measures both vacuum (0-30 Hg) & pressure (0-20 psi). 14—4042B— Each $37.95
Fuel Pressure Gauge. Reads 1-15 psi. Mounts outside of engine compartment. 14—4043P— Each $32.95
Oil Temperature Gauge. Reads 100°-340° F. 6-ft. of tubing. 14—4048R— Each $46.95
Ammeter. Reads -60 to +60 amps. 14—4050N— Each $22.95
Voltmeter. Reads 10-16 volts. 14—4051T— Each $26.95
Vacuum Gauge. Reads 0-30 Hg. 14—4060U— Each $30.95
Gauge Panels. For mounting gauges (above) on or under dash. Aluminum/black wrinkle finish.
14—4052A—1-hole Panel ... Each $3.49
14—4053R—2-hole Panel ... Each 4.49
14—4054X—3-hole Panel ... Each 8.49

STEWART-WARNER AUTOMOTIVE GAUGES with CHROMED BEZEL

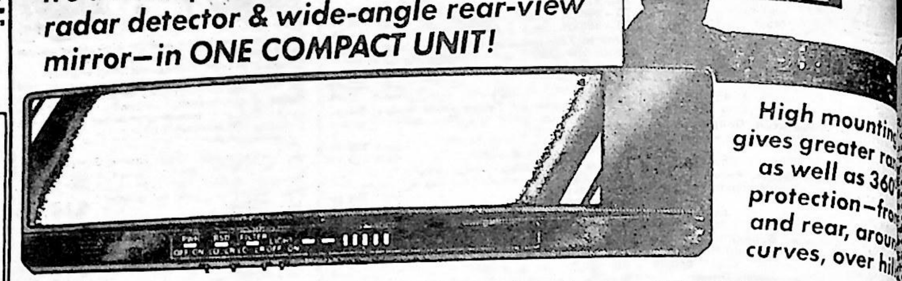

Heavy-duty precision gauges have jeweled mechanisms and indirect lighting slots. 2-1/16" diam. cases with chromed, step cut bezels. Black face with white markings. All electric gauges except ammeter require sending units or floats (see Index). All illuminated except where indicated.

ELECTRIC GAUGES 6 and 12 Volt
AMMETER. Reads -30 to +30 amps. 16—0032X— Each $17.98
AMMETER. Reads -60 to +60 amps. 18—0123T— Each $17.98
OIL PRESSURE GAUGE. Register 0 to 80 lbs. 74—1992Y—12 volt ... Each $29.98
OIL TEMPERATURE GAUGE. 140° to 320° F. 43—0119X—12 volt ... Each $27.98
WATER TEMPERATURE GAUGE. 100° to 240° F. 74—1996R—12 volt ... Each $26.98
FUEL LEVEL GAUGE. Registers E-1/2-F. 74—7104U—12 volt ... Each $26.98

MECHANICAL GAUGES
Same as above, except mechanically operated.
OIL PRESSURE GAUGE. 5-100 lbs. pressure. 43—0117A— Each $28.98
FUEL PRESSURE GAUGE. Registers 2 to 30 lbs. Not illuminated. Order lighting kit below. 74—5537T— Each $34.98
WATER TEMPERATURE GAUGE. With 60" tubing. Reads 100° to 265° F. 43—0119X— Each $39.98
OIL TEMPERATURE GAUGE. With 60" tubing. Reads 140° to 325° F. 43—0121F— Each $41.98
VACUUM GAUGE. Reads 2-30 inches vacuum. 43—0121T— Each $32.98
Lighting Kit for above Gauge marked ♦. 74—7796U— 1-Kit $2.98
Installation Kit for Mechanical Pressure or Vacuum Gauges. 75—3145P— 1-Kit $1.69

Detect ALL police radar long BEFORE it detects you!

It's a microprocessor-controlled radar detector & wide-angle rear-view mirror—in ONE COMPACT UNIT!

High mounting gives greater range as well as 360° protection—front and rear, around curves, over hills

- Inconspicuous design fools thieves ... no bulky dash-mounted control box
- Extra-sensitive superheterodyne circuitry for long-range detection
- Built-in microprocessor analyzes signals ... helps eliminate false alarms
- Warns you both audibly and visually ... gives you a visual indication of relative distance to radar source

Incredibly versatile ... just clip it to your existing rear-view mirror! Microstrip antenna permits the extraordinarily thin design. Sophisticated superheterodyne detector gives you ample warning of all police radar, including X, K and pulsing K bands. Serves as a constant reminder to watch your speed ... helps you avoid expensive speeding tickets and possible loss of license. Wide-angle mirror provides a much wider field of vision than original rear-view mirror.

Alerts you quickly and accurately

Detector actively searches for radar signals and analyzes them. If unit is in the LR (highway) mode and a police radar signal is found, an immediate alert goes off. The "radar alert" LED flashes and an audio warning sounds (with separate tones for X and K bands). The "signal strength" LEDs begin to flash one by one as signal strength increases, indicating that you are getting closer to the radar source. In the LQ (city) mode, the alert sequence occurs only if signal continues to increase. Selective alerts help to reduce false alarms caused by burglar alarms, motion detectors, etc.

Convenient controls and LED indicators

All switches and LED indicators are conveniently located on lower part of faceplate. Unit includes 4 operational controls: (1) Power on/off switch; (2) RSD (radar signal discriminator) switch—can be set to eliminate extraneous signals in the LR and LQ modes; (3) Filter switch—varies the computerized analysis of incoming signals for the LR and LQ modes; (4) LED on/off switch. In the LEDs for visual alert so detector can be used as unobtrusive as possible.

Easy to install and use

Spring-loaded clips expand to 2-1/4" to fit any rear-view mirror. Rubber insulation prevents damage to mirror. To operate, plug into cigarette lighter of any 12-volt, neg. ground vehicle and flick power switch. Unit will go through an automatic test sequence to show that it is ready for use. Approx. 2-1/4" x 3-1/8" high x 1-3/4" deep (1-3/4" excluding clips). With instruction manual. 12—3198N— Each $299

SAVE GAS WITH MILES-PER-GALLON GAUGE

Slash your fuel costs with this easy-to-read economy-performance gauge. Color coded zones tell you when your engine is producing the most power for the least gas. Miles-per-gallon scale shows actual gas mileage as you drive. Also reads in manifold vacuum inches. Charts, included, convert vacuum-inch readings to tell you the condition of your engine. Lets you check 31 engine conditions and make 16 minor adjustments. Easy to install, on or under dash. Complete with Operating/Installation Manual. For all cars, trucks, vans, RVs.
88—7303W— Each $12.95

ILLUMINATED GAUGES

Choice of Chrome or Black Bezel — LOW AS $1.98

Compare these prices anywhere! Dependable gauges are safer and more accurate than standard indicator lights. Choose your own combinations for a custom-matched look! 2-1/16" diameter. Illuminated black faces have white numerals, red pointers. Tubing and fittings included. See Index for mounting panels.

OIL PRESSURE GAUGE—Mechanical 0-80 lbs.
88—6912N—Chrome bezel.
88—7432T—Black bezel. ... Each $3.98
WATER TEMPERATURE GAUGE—Mechanical 100°-220° Fahrenheit.
88—6911Y—Chrome bezel.
88—7433A—Black bezel. ... Each $6.98
AMMETER—Reads -30 to +30 amps.
88—6918R—Chrome bezel.
88—7430X—Black bezel. ... Each $1.98
AMMETER—Reads -60 to +60 amps.
88—6911X—Chrome bezel.
88—7431N—Black bezel. ... Each $1.98

OUR LOWEST PRICED RADAR DETECTOR

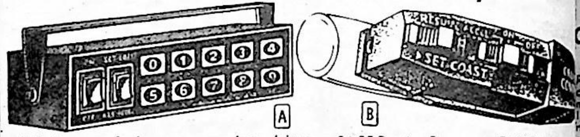

ONLY $59.95

- Microwave circuitry detects police X-band and K-band
- Signals at 2 to 3 times the distance radar begins to track you
- Warns with both audible and visual signals
- Beeps and flashes faster as you get closer to radar source
- Fully electronic for maximum sensitivity
- Filters virtually eliminate false alarms
- Plugs into your cigarette lighter

Performs like many multi-hundred detectors costing 2 or 3 times more! Only 3-1/4" x 4-3/4" x 1". Mounts easily on dash or windshield. Non-glare, black case. Power-on light. Reliable solid-state circuits. With power cord. For all 12-volt negative-ground systems.
12—3503W— Each $59.95

Universal ELECTRONIC CRUISE CONTROLS With or Without Anti-theft System

- Help improve fuel economy, reduce driver fatigue
- Sophisticated electronics and fewer parts for greater accuracy, reliability
- Install in half the time of many other cruise controls ... removal of steering wheel not required
- Unit with anti-theft system disables starter circuit, flashes lights and sounds horn upon unauthorized entry

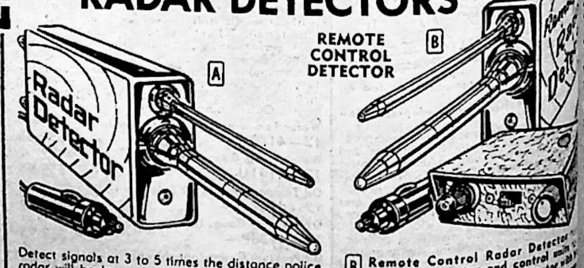

Both units have these controls (buttons on unit [A], slide switches on unit [B]): 1. On/Off; 2. Set Speed—maintains cruising speed at desired level. 3. Coast—reduces speed when button is held in ... maintains new speed when button is released. 4. Resume—returns vehicle to previously set speed after braking. 5. Accel—increases speed when button is held in ... returns to previously set speed when button is released. Cruise controls disengage by either depressing brake/clutch pedals, turning cruise control off or turning engine off. Built-in on-board vacuum pump provides top performance, even on cars with smaller engines. Solid-state reliability protects against overrevving. For the following vehicles (including diesels and turbocharged vehicles):

75-85 AMC; 76-80 Audi Fox w/fuel injection; 75-85 Buick; 75-85 Cadillac; 75-85 Chevrolet cars; 75-85 Chevrolet pickups & vans; 75-85 Chrysler; 75-85 Datsun/Nissan; 75-85 Dodge cars (exc. 77-85 Challenger, Colt, Conquest, Vista); 75-85 Dodge pickups & vans (American-made); 74-85 Ford cars (exc. Fiesta); 72-85 Ford pickups & vans (exc. Courier); 75-85 GMC pickups & vans; ♦73-85 Honda; 71-81 IHC; 75-85 Jeep®; 78-85 Mazda (exc. rotary engines & B2000 pickup); 74-85 Mercury; 69-85 Oldsmobile; 77-85 Plymouth cars (exc. Arrow, Colt, Conquest, Sapporo, Vista); 75-85 Plymouth pickups & vans (American-made); 75-85 Pontiac (exc. Fiero); ■84-85 Pontiac Fiero; 77-85 Subaru; 75-85 Toyota cars; ●83-85 Toyota pickups (exc. vans); 75-85 Volkswagen (exc. Quantum & rear-engine models); ■83-85 Volkswagen Vanagon.

ORDERING NOTES: Diesel vehicles with manual transmission require adapter kit below. ♦ Honda vehicles require adapter kit below. ■ Pontiac Fiero and Volkswagen Vanagon require wiring harness extender below. ● Toyota pickups require throttle loop connector below. Turbocharged vehicles do not require a vacuum servo. Vehicles with factory pump do not require a vacuum regulator.

[A] Cruise Control with anti-theft system. Voltage-sensing anti-theft system sounds alarm upon unauthorized vehicle entry and disables starter, flashes lights and sounds horn. Optional siren can be added (see Index). 17-second entry delay. System arms automatically after 5-second exit delay (only after last door is closed). To unload vehicle, system deactivates when you enter your own 4-digit code on the programmable keyboard. "Valet" feature lets you leave your car with valet without revealing code. Control unit (1-3/8" high x 5" wide x 3-1/8" deep) mounts under dash or on console. 12—3522W— Each $154
[B] Cruise Control without anti-theft system. Control unit mounts on turn signal lever or console. 12—3250U— Each $109
Adapter Kit for diesel vehicles with manual transmission. 12—3520P—
♦Adapter Kit for 83-85 Honda vehicles. 12—3521Y—
■Wiring Harness Extender for Fiero & Vanagon. 12—3461X—
●Throttle Loop Connector for Toyota pickups. 12—4076B—

Detect all radar bands UP TO 2 MILES AWAY! RADAR DETECTORS

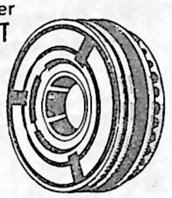

Detect signals at 3 to 5 times the distance police radar will begin tracking you, even when signals bounce off cars, around hills or from buildings. Buzzer and light alert you simultaneously. Microwave antennas assure extra long-range detection of X and K-band frequencies. Sensitivity control reduces false alarms. Plug into cigarette lighter.

[A] X-K Band Detector. Self-contained 1" x 2" base or to visor with clip. Mounts via Velcro® strips in glove compartment. With mounting pads, lighter plug, cord, instructions.
15—7067N— Each $109.95

[B] Remote Control Radar Detector. Has separate detector and control units for concealment. Weatherproof detector unit mounts in grille work under your vehicle's hood or trunk area. Control unit ... switch lets you select Highway ... combination ... Steel case reduces virtually all false alarms ... mounting bracket, fasteners, instructions.
15—7215P— Each $139

Complete Line of AIR CONDITIONING PARTS and ACCESSORIES

Air Conditioner REPLACEMENT CLUTCHES

Replaces clutches on factory installed units only. Factory rebuilt. State Make, Year, Model, CID of Engine, No. of Cylinders and Stk. No. The stk. nos. you ordered may carry a different identification number on your package.

Single-groove Clutch (with Axial Compressor). For the following: 62-84 Buick, 62-67, 77-84 Cadillac, 62-84 Chevrolet, 65-84 Oldsmobile, 62-84 Pontiac; 73-77 Chevrolet Pickups, 71-77 GMC Pickups.
55—2882T— Each $26.99
Single-groove Clutch with York & Tecumseh Compressor. For the following: 69-84 Ford, 77-83 LTD II, 69-70 Fairlane, 72-76 Torino, 68-70 Falcon, 69-78 Mustang, 63-67, 77-83 Thunderbird, 69-74 Mercury, 69-78 Comet, 70-83 Cougar, 1975 Monarch, 69-77 Montego, 78-79 Zephyr; 65-78 Ford "F" & "E" series trucks (state series).
55—2884R— Each $29.99
Single-groove Clutch for 71-84 Lincoln Continental Compressor.
55—8862Y— Each $26.99
Double-groove Clutch. For the following: 62-69 Buick, 67-73 Cadillac, 62-64 Oldsmobile.
55—2883A— Each $29.99
Double-groove Clutch. For the following: 61-78 Chrysler, 69-78 Dodge and Plymouth 8 cyl., 69-78 Dodge trucks.
55—3302A— Each $39.99

AUTO AIR CONDITIONING SERVICE KIT

Recharge your auto air conditioning system in minutes and save $$$. Includes everything needed for do-it-yourself servicing of factory-installed or add-on air conditioning unit: 14-oz. can of refrigerant, metal safety tap valve, charging hose, and leak detector. Easy-to-follow instructions.
10—3215R— Each $6.99
Metal Can Top Valve and Clamp (not shown). Dispenses Refrigerant-12 from clip-top or screw-top cans. Inner ball check component prevents refrigerant backup. Clamp adjusts to any size can.
14—1327A— Each $2.59

Insulation Tape

Petroleum-base compound on wax paper 1-7/8" wide for sealing air conditioning ducts, or molds to any shape ... adheres to all metal and rubber surfaces. 15-ft roll.
37—9818T— Each $7.95

Air Conditioning Thermal Limiter Fuse For all 71-76 GM Cars with Air Conditioning

Replaces original #6551258, Delco 15-2109.
12—2375P— Each 99¢

P.O.A. & EPR VALVES

P.O.A. (Pilot Operated Absolute) and EPR (Evaporator Pressure Regulator) Valves replace suction throttling valves on late model General Motors, Chrysler and Ford cars. P.O.A. and EPR valves should be checked each time the air conditioning system is evacuated and should be replaced if any interior corrosion or crystallization is visible. When Ordering, State Make, Year, Model and Stock No. Note: The stk. nos. you ordered may carry a different identification number on your pkg.

EPR VALVES
Chrysler Corporation Cars: Chrysler, Dodge, Plymouth. 61-79 cars w/factory air ... 15—5462P $23.99
All trucks w/RV-2 compressor ... 15—5462P 23.99

P.O.A. VALVES
Ford Motor Company Cars: 72-81 Ford and Mercury; 72-78 Lincoln all makes and models ... 55—2478P $32.95
General Motors Cars: Buick, Cadillac, Chevrolet, Oldsmobile, Pontiac.
66-73 All (exc. V.I.R. system) 55—2479Y 29.95
74-77 All w/V.I.R. system ... 12—5468X 23.99

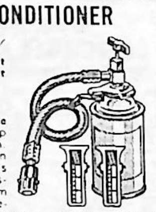

Air Conditioner Compressor Clutch Tool with Adjustable Tip

- Securely grips clutch plate so it won't turn when taking off shaft nut

Unique tip design adjusts to fit GM, Ford, Chrysler and Volkswagen compressors ... no need for a separate holder for each type. Heat-treated steel with zinc-plated fasteners and vinyl-covered handle. 9" long x 6" wide.
14—2668W— Each $18.98

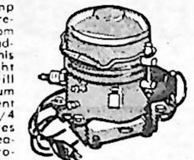

Auto AIR CONDITIONER RECHARGE KIT

- Measures refrigerant level and replaces lost refrigerant
- Checks for leaks
- Lubricates system

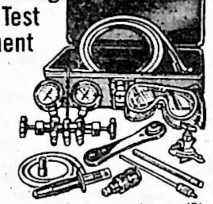

Flexible charging hose has cam-action clamp for any refrigerant can. 2-way safety valve in hose prevents gas back-up from compressor, prevents gas from flowing out of hose before compressor connection is made. Can of Refrigerant-12 (Freon®) contains red leak detector dye and an oil lubricant. Refrigerant charge indicator consists of 2 strips with color-coded heat sensors that hook on inlet and outlet tubes of evaporator, indicates temperatures from 26° to 40°F. If both tubes balance, system is properly charged.
14-4698A— 1-Kit $11.49

Electric VACUUM PUMP for CAR AIR CONDITIONERS

A vacuum pump must be used to remove moisture from a system before adding refrigerant. This rugged lightweight (28-lb.) pump will pull 29" of vacuum in 5 minutes. Silent and powerful 1/4 HP motor assures fast pull down. Features overload protector, 6-ft., 3 prong power cord and fold-away handle.
14—4734U— Each $229.95
Compressed Air Vacuum Pump for Car Air Conditioners (not shown). Venturi-type vacuum pump powered by compressed air. Connect air line to input fitting and adjust line pressure to about 75 p.s.i. Produces 29.7" vacuum with air flow rate of 1.3CFM. No moving parts. Metal case with handle.
14—4735A— Each $149.95

Air Conditioning System Test Equipment

Includes all the necessary test equipment and service tools to diagnose, test and charge any air conditioning system (automotive or building). Kit contains: (1) Manifold gauge set with 3 charging hoses; (2) Safety goggles; (3) Pocket thermometer; (4) Mini butane leak detector; (5) Air conditioning service manual; (6) Safety-type refrigerant dispensing valve; (7) Anti-blowback quick disconnect; (8) 4-in-1 ratchet wrench. In plastic case with snap lock. Shpd. from factory. No C.O.D. orders.
96—4110YF— Each $159.95

Universal-fit AIR CONDITIONER CONDENSERS

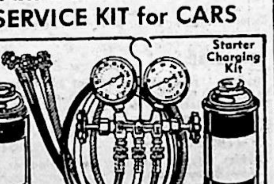

Low As $39.95

- Replace most aftermarket units
- Can be adapted to replace original equipment condensers ... cost a lot less!
- Choice of 3 widths

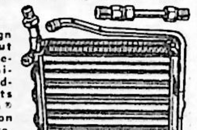

Condenser is 1-1/4" thick, 14" high, has a double row of copper tubes, aluminum fins. Uses original mounting brackets—some alterations may be required. Mounting fittings not included. Measure the width of existing condenser and order the closest size below.
54—1351A—18" wide ... Each $39.95
54—1352R—20" wide ... Each 49.95
54—1353X—24" wide ... Each 54.95

AIR CONDITIONING SERVICE KIT for CARS

Test and recharge any auto air conditioning system. Kit consists of manifold and gauge set, three 36" long color coded charging hoses, dispensing valve, one can of freon and one can of combination freon and leak detector (in new safety cans) for recharging cylinder, and service manual.
17—9608B— 1-Kit $49.99

AIR CONDITIONER EVAPORATOR for American and Imported Cars & Trucks

- Improved design works without condensation reservoir, eliminates acid build-up ... prevents harmful Freon® leaks, corrosion

These new (not rebuilt) evaporators have all copper tubing with brass fittings. Aluminum cooling fins, steel headers. With orifice tube. Replaces original equipment perfectly. Shipped from factory. No C.O.D. orders. When Ordering, State Make, Year, Model and Stk. No. Note: The stock number you ordered may carry a different identification number on your pkg.

FOR CHRYSLER PRODUCTS
Chrysler: 75-83 Cordoba, 77-84 LeBaron, 72-84 Newport, New Yorker, St. Regis. Dodge: 76-80 Aspen, 81-84 Aries, 75-83 Charger, Coronet, Magnum, Mirada, 72-74 Challenger, 74-76 Dart, 80-83 Diplomat, 78-84 Omni. Dodge (Cont'd.): 82-84 pickup, Ramcharger, 72-83 Polara, Monaco, Royal Monaco, St. Regis, 79-83 van. Plymouth: 72-83 Fury, Gran Fury, 78-84 Horizon, 81-84 Reliant, 75-78 Satellite, 82-84 Trailduster, 74-76 Valiant, Duster, 79-83 van, 76-80 Volare.
55—3538PF— Each $159.98

FOR GENERAL MOTORS PRODUCTS
Buick: 77-79 Apollo, Skylark, 77-84 Century, Regal, 77-84 Electra, Le Sabre, 77-79 Riviera, 77-80 Skyhawk. Cadillac: 77-84 De Ville, Fleetwood, 1979 Eldorado, 77-79 Seville. Chevrolet: 77-79 Camaro, 77-83 Caprice, Impala, 77-84 Chevelle, Malibu, Monte Carlo, 80-82 Corvette, 77-80 Monza, 77-79 Nova, 76-84 C10, C20, C30 pickup, 76-83 Suburban (front air only). Chevrolet (Cont'd.): 78-84 van (front unit only). GMC: 76-84 C15, C25, C35 pickup, 76-84 Suburban (front air cond. only), 78-84 van (front unit only). Oldsmobile: 77-84 Cutlass, 88, 98, 77-79 Omega, 77-80 Starfire, 1979 Toronado. Pontiac: 77-84 Bonneville, Catalina, 77-79 Firebird, Phoenix, 77-84 Grand Prix, 77-80 Sunbird.
55—3539YF— Each $109.98

FOR IMPORTED VEHICLES
Datsun Products: 77-79 200SX, 74-78 260Z, 280Z, (not for ZX), 81-82 310, 77-80 710, 810, 80-82 720 pickup (exc. diesel). Honda Products: 76-81 Accord. Isuzu Products: 82-83 I-Mark. Toyota Products: 79-81 Celica, 79-82 Corona, 81-82 Supra.
55—3743WF— Each $139.98

Air-conditioning IDLER PULLEY For Ford & Chrysler Products with Factory-installed Air-conditioning

Fits the following vehicles equipped with factory installed air-conditioning. Fits 69-83 V8 Ford products exc. 78-80 351m & 400 CID eng.
37—6641B Each $11.99
As above, exc. fits 78-82 351m & 400 CID eng. and all 75-83 V-6 eng.
37—7894W— Each $9.99
As above, exc. fits 74-83 4 cyl. Ford Motor Co. products.
14—1117N— Each $11.99
As above, exc. fits 69-74 Chrysler Products with 318 CID eng.
37—9310A— Each $17.99
As above, exc. fits 74-82 Chrysler Products with 360 and 400 CID eng.
37—9311R— Each $16.99

Air Conditioner Compressor Conversion Kit for 75-84 Chevy, Oldsmobile & Pontiac

Converts your costly R-4 radial type air conditioner compressor ... allows use of less expensive A-6 axial-type compressor (not included—see Index). Rugged steel construction. Easy to install. All mounting hardware included. Not for diesel engines.

Make, Year	Stk. No.
Chevrolet 75-84 with 267, 305, 350 C.I.D. (exc. Camaro & Corvette)	54—1343Y
Oldsmobile 75-83 with 260, 350 C.I.D.	54—1344W
Pontiac 75-83 with 301, 350 C.I.D.	54—1345T

Above Numbers ... Each $39.95

Oil Your Air Conditioner When You Add Refrigerant

OIL CHARGE for automotive air conditioner compressor adds oil without removing the compressor. When refrigerant leaks from your air conditioning system, oil is lost also. Avoid compressor damage and save costly repairs—replace oil when you recharge refrigerant. OIL CHARGE contains 2 oz. of 500-525 nominal viscosity oil and 2 oz. refrigerant. Use with regular charging equipment.
17—8954A— Each $1.49

REFRIGERANT-12 CHARGE INDICATOR KIT for All Auto Air Conditioners

- A must for vehicles without a sight glass in air conditioning system

Monitoring system indicates at a glance an over or undercharged condition that can cause improper cooling. Instructions with diagrams.
14—4598T— 1-Kit $4.95

SAVES FUEL! Verified by D.O.T.

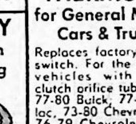

AIR CONDITIONER CUT-OFF

Passing power for air-conditioned vehicles

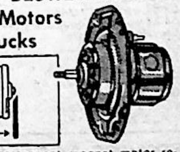

Vacuum-sensing micro switch temporarily shuts off air conditioner compressor when you accelerate, removes drag on engine. Allows maximum power for passing or climbing hills. Saves fuel because engine doesn't have to work so hard during increased demand periods. Switch is pre-set at factory but can be adjusted for earlier or later cut-off. Easy installation—no special tools required. Wiring, tubing, hardware and instructions included. For all 6, 12, and 24-volt cars and trucks with air conditioning and a manifold vacuum source. Not for diesels.
73—6481Y— 1-Kit $9.95

AIR CONDITIONER THERMOSTATIC SWITCH for General Motors Cars & Trucks

Replaces factory-installed switch. For the following vehicles with cycling clutch orifice tube system: 77-80 Buick; 77-80 Cadillac; 73-80 Chevrolet cars; 76-79 Chevrolet & GMC trucks; 77-80 Oldsmobile; 76-80 Pontiac.
12—2374T— Each $12.98

Heavy-duty BLOWER MOTOR for General Motors Cars & Trucks

New (not rebuilt) permanent magnet motor replaces original blower motor to assure proper heater, defroster and air conditioner operation. For the following General Motors vehicles with factory-installed air conditioning: 77-84 Buick Products (exc. Skyhawk)♦; 77-84 Cadillac Products (exc. Seville); 77-84 Chevrolet Products (exc. Monza, Vega)♦; 79-84 Chevrolet/GMC Products C/K 10-35 trucks; 77-79 Oldsmobile Omega♦; 77-84 Oldsmobile 88, 98, Toronado; 77-84 Pontiac Products (exc. Astre, Sunbird)♦. ♦Fits motors with 3-13/16" long case—to determine your case length, see drawing above. For additional blower motors, see Index.
81—8997A— Each $19.95

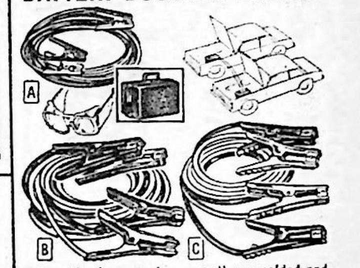

Universal-type AIR CONDITIONING IDLER PULLEY

- Fits independent auto air conditioning units

Aluminum pulley has replaceable bearing. Fits ARA, FrigiKing, Frigette (AMC), Clarcy, Mark IV.
37—7893Y— Each $6.99

Twist-proof BATTERY BOOSTER CABLES

- All cables (except where noted) are molded and clipped together to form a single, tangle-proof unit ... won't twist or separate
- Work on top-mount or side-terminal batteries

[A] Heavy-duty 4-gauge Cables with carry case and safety glasses. Fast, sure booster starts in any weather. 406-strand copper wire. Permit back-to-front hook up on most cars. PVC plastic insulation keeps cables flexible to -48°F. Color-coded, vinyl-coated 400-amp clamps with copper-plated jaw inserts. 16 ft. long.
74—7799A— 1-Set $27.95
[B] Heavy-duty 4-gauge Cables for professional use. Assure maximum current flow for trouble-free booster starts. 500" O.D. 100% copper stranded wire. Flexible, weather-resistant insulation resists oil, grease, and moisture. Heavy-duty, color-coded, vinyl-coated 400-amp steel clamps with copper-plated jaws.
74—7407A—12 ft. long ... 1-Set $18.99
74—7408R—16 ft. long ... 1-Set 22.99
74—7409X—20 ft. long ... 1-Set 25.89
74—7410N—25 ft. long ... 1-Set 29.99
[C] Top-quality 6-gauge Cables. .450" O.D. 100% copper stranded wire. Weather-resistant insulation. Vinyl-coated 400-amp steel clamps.
74—7411T—12 ft. long ... 1-Set $16.99
74—7412A—16 ft. long ... 1-Set 19.99
Standard-type 8-gauge Cables (not shown). 100% copper stranded wire. 150-amp steel clamps.
74—7413R—12 ft. long ... 1-Set $11.98
74—7414X—16 ft. long ... 1-Set 13.98
Economy Single-lead 10-gauge Cables (not shown). Not twist-proof. Copper stranded wire.
74—7416B—8 ft. long ... 1-Set $4.98
74—7415U—12 ft. long ... 1-Set 6.98

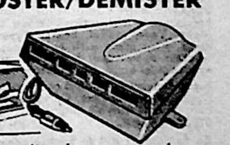

Electronic LEAK DETECTOR for Air Conditioning Systems Using Freon® Refrigerant 12

- Detects leaks as small as 1/2 oz. per year

Single knob adjusts unit easily. Audio alarm sounds when leak is detected. 6-ft. coiled cord and flexible probe allow access to hard-to-reach areas. Operates on standard 9-volt battery (included). Red LED indicates battery condition. Includes leather-look carrying case and instructions. Order replacement probe tips and maintenance kit below. Shipped from factory. No C.O.D. orders.
97—0938NF— Each $199.95
Replacement Probe Tips for leak detector above. 54—1381Y— 1-Pair $15.95
Maintenance Kit for leak detector above. Includes two probe tips, filters for probe, and Freon® 12 testing container.
54—1382W— 1-Kit $17.95

Hot Air Blower DEFROSTER/DEMISTER for Rear Windows

Defogs and melts snow and ice fast for safe driving!

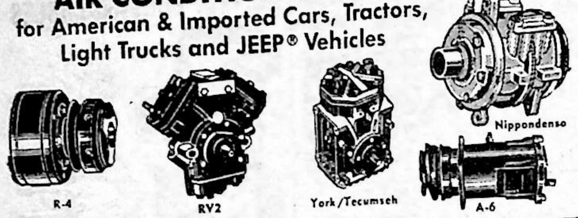

- Five angled air ducts blow HOT AIR to all areas of your rear window
- Assures perfect visibility in all weather
- Built-in, thermostatically-controlled circuit breaker prevents overheating
- Choice of units with cigarette lighter plug or on/off toggle switch

Compact (8" wide x 6-3/4" deep x 3/4" high) unit mounts easily to rear deck with self-adhesive pads or screws. Molded plastic housing. Includes hardware, wire and instructions.
Defroster/Demister with cigarette lighter plug. Includes 6-ft. power cord.
15—7993B— Each $16.88
Defroster/Demister with under-dash on/off toggle switch. Includes 20-ft. power cord, wiring and plug.
15—7994P— Each $18.88

INDEX AND ORDER BLANKS—SEE BACK PAGES

Complete Line of AIR CONDITIONING PARTS and ACCESSORIES

AIR CONDITIONER COMPRESSORS
for American & Imported Cars, Tractors, Light Trucks and JEEP® Vehicles

- Factory remanufactured
- Compressor supplied is same type as original equipment

Order the same type of compressor currently on your vehicle. Special tools and Freon® charging equipment are required when changing compressor—see Index.
R-4 Compressor is radial type. To convert from R-4 to A-6, order conversion kit—see Index.
Chrysler RV2 Compressor replaces (and is interchangeable with) RV.
York and Tecumseh Compressors are interchangeable, as are Types I and II York/Tecumseh. Made with Rotalock and Tube "O" suction inlet tubes. Adapter provided to make these flanges interchangeable.
Nippondenso and Sankyo Compressors. Replace original equipment perfectly. Will not replace Frigidaire or York/Tecumseh. All are new except 96—8117RF, which is rebuilt. Sankyo SD508 has 5-1/4" double-groove clutch.
A-6 Compressor is axial type and includes clutch. Before ordering, determine the type of compressor on your vehicle by comparing the rear head of your compressor to illustrations above. Standard and low compression Frigidaire-type compressors (found on 62-71 GM vehicles) were superceded by super heat switch type. All 62-77 GM compressors can be replaced by super heat switch type. High-side pressure switch type compressors are found on 77-85 GM vehicles; these compressors **cannot** be replaced by super heat switch types. **NOTE:** LH=left hand suction. RH=right hand suction. Compressors with left and right hand suction are not interchangeable. To determine your type, check serial number plate; nos. ending in "R" are right hand, "L" are left hand. Nos. ending in "F" shpd. from factory; no C.O.D. orders. ♦ York compressor provided. No pop-off valve

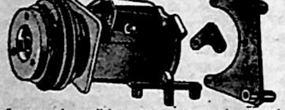

TYPES OF A-6 COMPRESSORS
Standard/Low Compression — Large hole Super Heat Switch — Small hole High-Side Pressure Switch

■**EPR Valve for all 61-81 Chrysler Products.** It is recommended that this valve be replaced when replacing compressor to help prevent interior corrosion.
15—5462P— Each $23.99

AIR CONDITIONER COMPRESSOR CONVERSION
Kits to convert your compressor to less expensive A-6 or Sankyo

Save on air conditioner compressor replacement! If your expensive R-4 radial-type compressor is worn out, convert to a rebuilt axial-type A-6 or new Sankyo compressor. Kits also available to convert Hitachi and Nippondenso compressors to Sankyo. With compressor, clutch, mounting hardware & instructions. **When Ordering, State Make, Year, Model, Engine Type and Displacement. Also state with or without air pump and whether compressor is located on driver or passenger side.** Shpd. from factory. No C.O.D. orders.

Kit to convert R-4 to A-6 compressor. For all 75-84 Buick, Chevrolet (exc. Corvette), Oldsmobile and Pontiac cars with V8 engine.
78—4067BF— 1-Kit $154.95

Kit to convert R-4 to Sankyo compressor. For all Buick and Chevrolet with 6-cyl. 250 cu. in. engine; all General Motors V6 231 cu. in. engine **(State if alternator is above or below compressor)**; all General Motors cars with 4-cyl. 140 & 151 cu. in. or 173 cu. in. V6 engines; all General Motors 4-cyl. front wheel drive X-Cars
78—3088RF— 1-Kit $219.95

Kit to convert Hitachi to Sankyo compressor. For all Datsun 4 & 6-cyl. cars.
96—7107AF— 1-Kit $219.95

Kit to convert Nippondenso to Sankyo compressor. For all Toyota with 2C90 side or bottom-mount compressor and 2C90A, B, C compressor. **State side or bottom-mount & compressor model no. (located on compressor label).**
78—3089XF— 1-Kit $219.95

Kit to convert rotary Nippondenso compressor to Sankyo. For all Toyota with rotary compressor.
96—7108RF— 1-Kit $219.95

Replacement CLUTCH BEARINGS for Air Conditioners

For factory-installed air conditioners only. Eliminates need to replace entire clutch.

Cycling Clutch Orifice Tube (CCOT) Repair Kit. For all 77-83 General Motors cars listed above.
14—3607T— Each $22.98

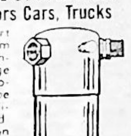

FREON® LEAK DETECTOR

- **Super-sensitive to detect and pinpoint the smallest leaks in refrigeration and air conditioning systems**

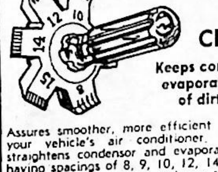

Easy to use. Draws leaking refrigerant through the heavy-duty, non-kinking search hose causing the propane flame to change color and increase in intensity. Standard 14-oz. charged propane cylinder has easy-to-light and easy-to-adjust stable flame. For use with non-combustible gases only. With propane cylinder, 3-ft. search hose & instructions.
14—8216U— Ea. $24.99

Replacement AIR CONDITIONER ACCUMULATOR
for 75-84 General Motors Cars, Trucks

Removes moisture and dirt from air conditioning system ... prevents build up of contaminants that can damage compressor and other components. Accumulator should be replaced whenever air conditioning system is evacuated. Replaces **OEM** accumulator on these General Motors cars and trucks: 77-84 Buick, Cadillac, Oldsmobile; 77-84 Chevrolet/GMC trucks, 76-84 Chevrolet cars; 75-84 Pontiac. **When Ordering, State Make, Year, Model, Engine Size & Stk. No. Note: The stock number you ordered may carry a different identification number on your pkg.**
55—3602U— Each $29.95

AIR CONDITIONING FIN STRAIGHTENER and CLEANER
Keeps condenser and evaporator fins free of dirt and debris

Assures smoother, more efficient operation of your vehicle's air conditioner. Cleans and straightens condensor and evaporator coil fins having spacings of 8, 9, 10, 12, 14 and 15 fins per inch. Small, compact and easy to use in confined areas. Fluted plastic handle.
15-4649T— Each $8.99

RECEIVER DRIERS

- **Highly-efficient desiccant**
- **Full-vision, pressure-tested sight glass**
- **Positive size filtration**
- **Corrosion resistant**

Receiver driers should be replaced whenever air conditioning system has been opened (for example, when system is evacuated and recharged with new refrigerant.) **State Make, Year, Model & Stk. No. ♦For 79-83, Also State With or Without Bracket. Note: The stock number you ordered may carry a different identification number on your package.**

V.I.R. Assembly for 73-77 General Motors cars. New complete valve in receiver assembly.
15—5457P— Each $59.95

AIR CONDITIONING TOOLS and TESTER

[A] Thermal Limiter Tester for General Motors cars. Quickly checks entire electrical circuit. Determines: (1) if thermal limiter is defective; (2) if clutch is receiving current; (3) if superheat switch is functioning. Instructions included.
15—7455B— Each $14.95

[B] 4-in-1 Reversible Ratchet Wrench. Small enough to fit in the tightest spots. Contains 4 different sizes: 3/16" for stem-type fittings; 1/4" for compressor service valves; 1/2" for clutch bolts; 9/16" for cap fittings.
15—7452R— Each $14.95

[C] Flex Adapter with Schrader Fitting for 76-79 GM compressors. 76-79 GM compressors use a 3/16" flare connection on the high side to prevent incorrect hook up. Adapter permits use of existing charging hose. Has 45° angle bend and 3" red hose to facilitate connection. With 1/4" male and 3/16" female flare.
15—7453X— Each $6.95

[D] High-side Fitting Adapter. For use on 77-80 Ford compressors that have new high-side compressor fitting. Permits use of existing charging hoses.
15—7454N— Each $9.49

[E] Air Conditioning Pressure Gauge. Q... checks high/low pressures of air cond... system. Accurate within 2 lbs.
15—7456P— Each $10.9...

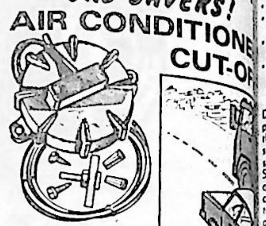

[F] Dial-type Bimetal Thermometer. Accu... within ±1/2°. Rugged, shock-resistant ... plastic case, holder. For the following tempera... ture ranges:
12—4501R—(+25° to +125°F) $12...
12—4502X—(−40° to +160°F) 13...
15—7457Y—(0° to +220°) 14...

[G] Clutch Remover for any car with a Delco Frigidaire compressor. With pointed ... end. Lets you remove clutch without removing retainer ring.
15—7458W— Each $8.4...

[H] Clutch Installer for any car with a Delco Frigidaire compressor.
15—7459U— Each $10.4...

[I] Valve Core Remover/Installer Tool. For ... core type access valves. Fits all 1/4", 3/... 1/8" fittings.
15—9927Y— Each $29.9...

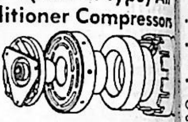

EPA Proved Positive GAS SAVERS! AIR CONDITIONER CUT-OFF

- Removes air conditioner drag on engine ... quick, responsive passing and acceleration
- Helps save fuel, because engine doesn't ... work so hard during increased demand periods

Vacuum-operated switch monitors engine ... manifold vacuum. When extra power is re... (for passing, climbing hills, etc.), switch inter... voltage to compressor clutch. Interruption is momentary so fan keeps running and loss of cool... ing is minimal. For all engine-driven vehicles with air conditioning and an intake manifold vacuum source. For 6, 12 and 24-volt systems (will not work on diesels). Easy installation—no special tools needed. Mounts in engine compartment ... switch mounts on wheel well. With vacuum-operated switch, hardware, wiring, tubing and illustrated instructions.
15—6793X—4-cyl.
15—6794N—6-cyl.
15—6795B—8-cyl. 1-Kit $13.9...

CLUTCH ASSEMBLY for R-4 (Radial-type) Air Conditioner Compressors

- Replaces original equipment perfectly

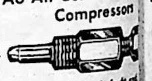

Remanufactured to quality standards. Includes clutch, coil and 5" diam. pulley. For the following vehicles with R-4 compressors: 81-83 American Motors; 75-83 Buick; 7... Cadillac; 75-83 Chevrolet; all Mercedes-Benz; 75-83 Oldsmobile, 75-83 Pontiac; all Triumph ...
54—1348X— Each $4...

Air Conditioning Compressor OIL INJECTOR

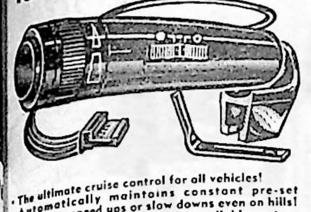

Adds compressor oil to the air conditioning system when refrigerant is added. Use with charging station or a manifold gauge set to dispense oil by means of pressure or vacuum. 9" long ... has aluminum chamber, 1/4" flare brass ... and brass valve. Holds up to 2 oz. of oil ... detailed instructions.
14—2986B— Each $42.9...

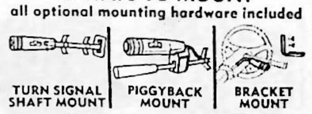

CLUTCH HUB REMOVERS for Frigidaire R-4 Radial-type and Delco A6 Air Conditioner Compressors

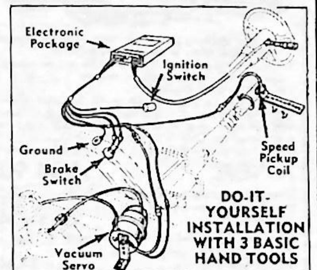

A must for replacing clutch assembly. Metal. Note: Be sure to check shaft end before ordering.
For R-4 & A6 compressors w/pointed shaft end.
54—1349N— Each $7...
For R-4 compressors with concave shaft end.
54—1350T— Each $7...

Turn Signal-mount ELECTRONIC CRUISE CONTROL
3 WAYS TO MOUNT
all optional mounting hardware included

- The ultimate cruise control for all vehicles!
- Automatically maintains constant pre-set speed—no speed ups or slow downs even on hills!
- One of the easiest-to-use units available—a turn of the dial controls operation
- Advanced resume picks up pre-set speed where you left off ... no need to reset cruise control every time you brake—just tap engage button to return to original speed

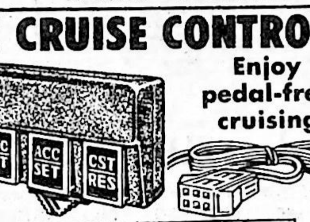

Drive more comfortably with your foot off the gas pedal! Drive more safely and relaxed, watching the road instead of the speedometer. Constant speed control eliminates gas waste caused by subtle speed changes of gas pedal operation. Sophisticated integrated circuitry (I.C.) technology monitors cruising speed. Smoother, more efficient than old-fashioned cruise controls. Maintains pre-set speed so exactly (± 2MPH), overand under-corrections and gas-waste surges are completely eliminated! Incredibly easy to use. Turn dial to set desired cruising speed and tap button to engage. Re-adjust cruising speed to changing traffic conditions by turning the dial. Disengage by tapping engage/disengage button. Tap the button again and your vehicle will accelerate to original pre-set cruising speed. On/off switch turns off system when not in use. Mounts like original equipment cruise controls. Compact throttle servo and cable fit into even the tightest engine compartment. With illustrated instructions, operating manual and all parts and hardware. For American and imported cars, vans, light trucks and motor homes. Fits front and rear wheel drive vehicles.

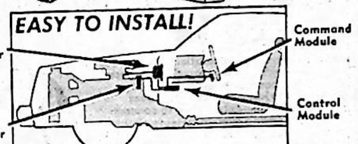

For all gas and diesel-powered vehicles with automatic transmissions. All diesel-powered vehicles with manual transmissions require adapter kit sold below. Operates using magnets mounted on drive shaft. (See diagram above)
14—7085Y— Each $79.95

For all gas-powered vehicles with manual transmissions. Operates using electrical impulse from ignition coil.
14—4697T— Each $79.95

Clutch Switch Adapter Kit. Allows use of 14—7085Y on diesel-powered vehicles with manual transmissions.
14—7086W— 1-Kit $5.95

ELECTRONIC CRUISE CONTROL
Enjoy pedal-free cruising

- **9 different functions make this one of the most sophisticated units available**
- **Simple 3-pushbutton operation—no dials to set**
- **No magnets to install**
- **High-technology microprocessor computes and updates mph quickly, accurately to assure a constant speed**
- **Solid-state electronic circuitry for long-lasting reliability**
- **Compact (3/4" high x 1-7/8" wide x 2-1/4" long) control module**
- **For American and imported gasoline vehicles**

Get better fuel economy while reducing driving fatigue! This remarkable cruise control automatically maintains a steady, pre-set speed, even on uphill or downhill grades. Eliminates fuel-guzzling speed variations caused by gas pedal operation. With your foot off the pedal, long-distance driving is more relaxed and comfortable ... and safer because you drive watching the road instead of the speedometer.

9 Different Functions
1. **On/Off**—slide switch control.
2. **Engage at Present Speed**—a tap of the "DEC" or "ACC" buttons initially engages cruise control to maintain any speed over approx. 25 mph.
3 & 4. **Decel/Set**—holding down "DEC" button slows vehicle to a lower speed; releasing button engages cruise control to maintain that speed. Ideal for adjusting to slower moving traffic.
5 & 6. **Accel/Set**—holding down "ACC" button accelerates vehicle to higher speed; releasing button engages cruise control to maintain that speed. Ideal for adjusting to faster moving traffic.
7 & 8. **Coast/Resume**—holding down "RES" button causes vehicle to decelerate; releasing button engages cruise control and accelerates vehicle to previous cruise speed (no resetting necessary). Ideal when passing slower traffic.
9. **Tap Off**—a tap of the "RES" key while cruise control is engaged shuts unit off.

Safety Features
Cruise control can be shut off by depressing brake pedal, tapping "RES" key, decelerating approximately 12 mph below cruise speed, or turning off ignition switch. Unit automatically disengages if brake fuse blows, brake lights burn out, or any of the connectors become separated.

Easy to Install
Control module mounts on steering column, dash, console or just about anywhere, using self-adhesive backing. Microprocessor mounts out of sight inside vehicle. Throttle actuator hooks up to carburetor linkage. No magnets to attach—simply wire speed sensor to coil (picks up RPM from coil impulse). Includes color-coded wiring with plug-in connectors, mounting hardware and detailed installation instructions. For American and Imported gasoline cars (including fuel-injection, automatic and manual transmissions and all types of ignitions) with 12-volt negative ground systems. **Not for diesels or vehicles without vacuum source.**
81—1887A— 1-Kit $49.95

AUTO BURGLAR ALARM KIT
fits All 6 and 12-volt Systems

Automatically blows horn intermittently when vehicle is disturbed. Sensitivity is adjustable from high (hub cap tampering or door, hood or trunk being opened) to low (car being moved). Simply set on-off switch when you leave vehicle. Switch installs under dash, in glove box, under grille or bumper. Complete with wiring and instructions for easy installation. Note: If vehicle does not have a horn relay, one must be added. See index.
88-7196U— 1-Kit $2.98

Our Most Compact Keyless Self-contained Alarm System

- **Only 6-1/4" long x 3-7/8" high x 3-3/4" wide**
- **With current and motion/vibration sensors**
- **Built-in ignition cut-off**

Built-in siren sounds 7 seconds after door, hood or trunk is opened OR when glass is broken or any attempt is made to jack up or tow away vehicle. **Automatic**—alarm sounds for 1-1/2 minutes, then resets for continued protection. 50-second exit delay. Mini control switch mounts hidden anywhere in vehicle. Includes pin switches, wiring, connectors, instructions. For all 12-volt negative-ground systems.
12—3666A— Each $79.95

Lowest Prices Anywhere!

Avoid accidents with wildlife! ULTRASONIC WARNING DEVICE

- **Emits an ultrasonic signal as you drive ... warns animals of your approach, keeps them off the highway**
- **Inaudible to humans—won't disturb vehicle occupants or roadside residents**
- **Mounts easily—no drilling or wiring**

Twin cylinders with self-stick bases attach to any flat surface on front of vehicle. When vehicle attains speeds above 30 mph, air rushing through the cylinders produces an ultrasonic signal of 16,000 to 20,000Hz. Although this sound is inaudible to humans, it can be heard by deer, dogs, cats and most other animals up to 1/4-mile away. Special key lets you detach warning devices from bases to prevent theft. Durable chrome-plated plastic. Approx. 1-3/4" long, 3/4" wide, 1-5/8" high.
12—3419N— 1-Pair $28.95

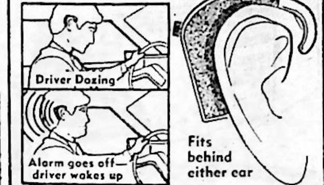

MOTION/IMPACT SENSOR
for All 12V Vehicles

- **Protects vehicle and contents from theft**
- **Compatible with all types of alarm systems**
- **Adjustable sensitivity**

Detects impact or motion, not just sound ... sets off alarm system (not included—see Index) before a break-in or other impact damage occurs. Won't trigger false alarms from accidental surface contact or pressure waves from nearby traffic. Solid-state ... eliminates metal fatigue that can occur with mechanical units. Installs in engine compartment with easy 5-wire hookup. No switches required. With instructions.
12—4050X— Each $39.95

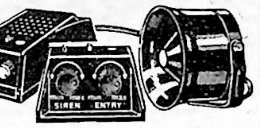

DOZE ALARM
Alarm sounds the moment you start to doze!

- **A safety must for long distance or late night drivers, security guards, nurses, police ... anyone who must stay awake under stressful conditions**
- **Comfortable, compact ... weighs less than 1 oz.**
- **Alarm sensitivity adjusts**

Forward nodding motion of head triggers 86 dB alarm. As soon as head is raised to upright position, alarm automaticlly shuts off. If you nod off again, alarm cycle repeats. Contoured plastic housing with mercury switch & 1.5-volt battery. Can be worn with glasses.
14—9338R— Each $9.95

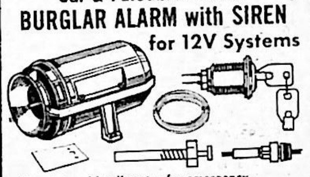

Passive • Automatic SONIC ALARM SYSTEM

- **Total protection for vehicle, hood, trunk**
- **Never forgets! AUTOMATICALLY disarms/arms when you turn ignition on or off**
- **No keys to lose ... no codes to remember**

Sensor "listens" for attempted break-in noises and sets off siren. Adjustable sensitivity prevents false alarms. Adjustable 0 to 60-second entrance delay and 45-second exit delay. Siren shuts off after 2-3 minutes, then system automatically rearms. LED light indicates alarm is armed. Wires into ignition circuit (for automatic arming/disarming) or plugs into cigarette lighter with adapter included (for temporary use only). Hood, trunk protected by pin switches. 4-1/4" x 1-1/2" x 2-1/2" deep control mounts under dash. 4-1/8" diam. x 2-1/4" deep siren mounts easily in tightest engine compartments. With wiring, hardware, pin switches, warning decals. Meets legal requirements in all 50 states. For all 12-volt negative-ground systems.
14—7318T— Each $59.95

STOP THIEVES! Protect Your Car & Valuables with a BURGLAR ALARM with SIREN for 12V Systems

- **Siren is legal in all states for emergency**
- **Pick-proof round keylock mounts on outside of car**
- **Easy do-it-yourself instructions**

Completely burglar-proofs your car or truck. Siren sounds when any door, trunk, or hood is opened. May also be wired to emergency brake to protect convertibles with top down. Pick-proof lock mounts on outside of body, sets or silences alarm with turn of key. Complete system—includes siren, relay, tubular key-lock, 2 security keys, 6 switches, 2 switch brackets, wire, terminals, in-line fuse, screws, security window decals, instructions. 12 volt.
15—3097W— 1-Kit $39.95

Siren Alarm Unit. Similar to above but with standard flat key lock and without in-line fuse holder. 12 volt.
15—2745A— 1-Kit $29.95

Bell-type Burglar Alarm (not shown). Loud 85 db bell carries over 100 yards. Pick-proof outside lock switch. Includes bell, fuse, lock, 2 keys, 4 door/hood/trunk switches, wire, terminals, instructions. For 12V systems.
82—0672X— 1-Kit $27.95

Passive, Computerized ANTI-THEFT SYSTEM

Stops auto theft 2 ways:
1. **Prevents thieves from starting ignition ... even if they have your key!**
2. **Sounds alarm or horn within seconds of break in**

- **Vehicle won't start until 4-digit code is entered**
- **Passive system arms automatically when engine is turned off—incorporates entry and exit delays**
- **Available with or without yelping siren**

Ignition key must be on and code must be entered within 15 seconds or alarm sounds. Foolproof—your secret code is pre-selected from 11,880 combinations. Extremely sensitive—detects minor drops in voltage, such as when interior lights come on. Hidden override switch for attendant parking. 15-second entry delay and 60-second exit time. Alarm shuts off after 3 minutes to prevent battery drain, then resets itself. 2" x 2-3/4" x 3/4" keyboard mounts on dash with adhesive backing. Control module installs under hood. With 2 pin switches for hood and trunk, instructions. For all 12-volt systems except diesel.
Anti-Theft System with yelping electronic siren (shown). 5" long, 5-1/2" high.
88—9631Y— 1-Kit $69.95
Anti-Theft System. Attaches to your existing horn or siren.
88—9630P— 1-Kit $59.95

Hidden • Magnetically Controlled ANTI-THEFT SYSTEM

- **Passive system automatically disables starter until you place magnetic control over the hidden sensor**
- **Less conspicuous than kill switches ... more effective than sirens**

Miniature electronic control module mounts under dash ... connects to the wire between ignition switch and starter. Hidden sensor mounts behind dashboard or any non-metallic surface less than 1/4" thick. Vehicle can be started only by placing special magnetic control over sensor. Easy to install. Includes control module, sensor, 2 magnetic controls and wiring. For any vehicle with an electric starting system.
12—4070N— 1-Kit $39.95

Help STOP CAR THEFT!

Looks just like a real alarm system control keyboard! 2-3/4" x 2" x 3/4" black panel attaches to dash or console with double-faced tape. Red LED stays lit at all times to fool potential thieves that your vehicle is always protected. Easy 2-wire hook up. Warning decal included. For 12-volt negative-ground systems.
12—3588X— Each $5.95

Simulated AUTO ALARM LOCK

Discourage auto theft! Inexpensive device looks like the switch lock of an elaborate auto alarm system. Self-adhering. With 2 warning decals.
14—2743X— Each $2.99

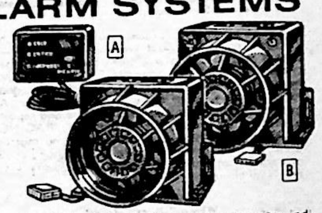

T-TOP SECURITY LOCKS
for Non-factory-installed T-Tops

- **Restrict access to roof release handle**
- **Prevent removal of roof without a key**
- **Sleek—look like original equipment**

Protect your vulnerable T-roof! Strong all-steel locks have tough electroplated black enamel finish. Install easily—some trimming of moulding may be required. Set of 2 locks, 2 keys and warning decals indicating that your top is protected. For the following cars with non-factory-installed aftermarket tops.
12—3954A—79-84 Capri, Mustang (shown)-also will fit factory-installed tops
12—3956W—73-81 Camaro, Firebird
12—3955Y—82-85 Camaro, Firebird
12—3957U—73-85 Cutlass, Grand Prix, Monte Carlo, Regal
Above Numbers 1-Set $29.95

Integrated • Battery Back-up ELECTRONIC ALARM SYSTEMS

- **Systems include a digital microcomputer, motion sensor, electronic siren and battery backup ... all in a single, easy-to-install unit**
- **Arms automatically when ignition is turned off—no extra keys to carry or switches to hide**
- **Battery backup provides power to system if wires are cut or battery cables disconnected**

Both systems include these features: **current-sensing dome light circuit** protects interior ... no need to install door switches; **pin switches** protect against unauthorized opening of hood or trunk; **adjustable motion sensor** detects attempted towing or jacking; **super-loud high/low siren** sounds after vehicle has been tampered with, then resets itself; **exit delay** assures that system arms itself only after last door is closed—no need to rush out of vehicle as with fixed exit delays; **adjustable entry delay** allows time to start vehicle before alarm goes off; **disable switch** deactivates system only when ignition is on ... allows valet parking; **built-in test system** verifies proper installation, helps determine corrective procedures if operating difficulties occur. Systems include window decals, all wiring, hardware and instructions. Two 9-volt batteries required for battery backup (order at right). For 12-volt negative ground vehicles.

[A] Deluxe Alarm System with status monitor. Sets off a 12-watt, 115-db siren and flashes emergency lights for 4 minutes before resetting itself. Ignition kill circuit prevents thief from starting vehicle. Three LEDs on status monitor indicate what made alarm is in ... let you know if vehicle was tampered with while you were away. Chirping sound after exit delay indicates system is armed. Accessory guard (ground loop) wire can be utilized to protect your fog lights, ski racks, trailers, etc.
12—4038B— Each $89.95

[B] Standard Alarm System. Sets off an 8-watt, 115-db siren for 2-1/2 minutes before resetting itself.
12—4037U— Each $59.95

9-volt Alkaline Battery.
14—4742X— Each $2.38

Our Lowest Priced TURN SIGNAL-MOUNT ELECTRONIC CRUISE CONTROL

ONLY 59.95 Each

3-3/4" long x 3/4" wide x 1" high

- **Improves fuel economy, reduces driver fatigue**
- **5 different functions for easy operation**
- **Advanced microprocessor continuously monitors mph to assure a constant speed**
- **Solid-state electronic circuitry for long-lasting reliability**
- **Control module attaches to turn signal lever for convenient access**
- **No troublesome magnets to install**

Enjoy easier, safer, more relaxed long-distance driving! This compact cruise control maintains a steady pre-set speed, even on hills. Eliminates the gas-wasting speed variations that occur with manual gas pedal operation. You'll drive more comfortably with your foot off the gas pedal ... and more safely with your eyes on the road instead of the speedometer.

Five Convenient Functions
1. **On/Off;** 2. **Set Speed**—maintains any speed over 30 mph; 3. **Accel**—increases speed when button is held in ... returns to original set speed when button is released; 4. **Resume**—returns vehicle to previously set speed after braking (you must accelerate to at least 30 mph for this function to work); 5. **Coast**—reduces speed when switch is held in ... maintains that speed when switch is released. Cruise control disengages by either depressing brake pedal, switching cruise control to "off" position or turning ignition off.

Easy Installation
Compact control module conveniently attaches to turn signal lever. Microprocessor mounts out of sight inside vehicle. Throttle actuator hooks up to carburetor linkage. No magnets to attach—just wire speed sensor to coil (picks up RPM from coil impulse). Includes color-coded wiring with plug-in connectors, hardware and instructions. For American and imported 12-volt negative ground gasoline vehicles with automatic or manual transmission (including fuel injection and all types of ignition systems). **Note:** Not for diesels or vehicles without a vacuum source.
81—1913N— Each $59.95

Original Equipment Style CRUISE CONTROL
for American & Imported Cars, Vans & Light Trucks

- **Lever looks and fits like original equipment**
- **Original equipment FEATURES and QUALITY**
- **Fits manual or automatic transmissions**

Maintains a constant speed for maximum fuel economy ... lets you drive more comfortably with your foot off the accelerator. Functions: **On/Off**—slide switch control. **Set Speed**—accelerate to any speed over 32 mph, then press and release end button to set speed. **Acceleration**—hold switch in "accel" position to increase speed; release switch to return to previous pre-set speed. **Coast**—hold end button to reduce speed; release button to reset speed at new level. **Resume**—after braking, move switch to "resume" position to return to previous pre-set speed. **Disengage**—depress brake or turn switch to "off". 5-1/2" long x 13/16" wide lever installs by removing turn signal knob or sawing off end of turn signal lever. Does not require removal of steering wheel for installation (unlike many other custom-fit units). ♦ Diesel engines with factory-installed vacuum pump require vacuum regulator at right. • Requires installation with mounting stud (included). ■ Requires wiring harness extender at right.

For the following vehicles:
75-85 AMC
76-80 Audi Fox w/fuel injection
♦ • 75-85 Buick
♦ • 67-85 Cadillac
♦ • 76-85 Chevy cars
♦ 75-85 Chevy pickups & vans
• 75-85 Chrysler
♦ 75-82 Datsun
• 75-85 Dodge cars, pickups & vans
74-85 Ford cars (exc. 78-81 Fiesta)
75-85 Ford pickups & vans (exc. 72-82 Courier)
♦ 75-85 GMC pickups & vans
• 73-85 Honda (exc. w/auto. overdrive)
71-82 IHC
75-85 Jeep®
75-79 Lincoln
78-85 Mazda
74-85 Mercury
♦ • 69-85 Oldsmobile
77-85 Plymouth cars
75-81 Plymouth pickups & vans
♦ • 75-85 Pontiac
■ 84-85 Pontiac Fiero
77-85 Subaru
• 75-82 Toyota
• 75-85 Volkswagen
■ 83-85 Volkswagen Vanagon

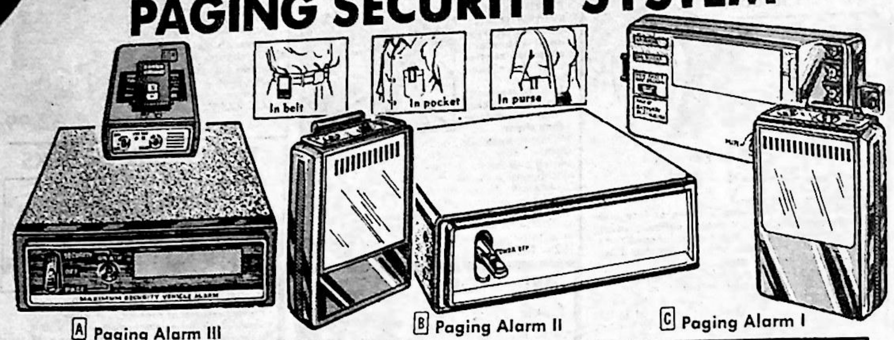

14—9517Y— Each $89.95

Vacuum Regulator. Required for diesel vehicles with factory-installed vacuum pump.
12—2536X— Each $7.95

Wiring Harness Extender. Required for Fiero and Vanagon.
12—3461X— Each $10.95

'Round-the-Clock PROTECTION for YOUR VEHICLE and VALUABLES

PAGING SECURITY SYSTEM

A Paging Alarm III — B Paging Alarm II — C Paging Alarm I

PAGING ALARM warns YOU—and only you—the moment a theft occurs!

It's your own personal page communicator

- Dependable, low-cost protection for your vehicle, office or home 24 hours a day... easy to install yourself in no time
- Long-distance protection—choose a system with 1-mile or super powerful 5-mile range
- Thousands of tone codes virtually eliminate false alarms and annoying interference
- Built-in on-off switch turns alarm into your own personal pocket communicator/pager

Someone's trying to break into your car! With PAGING ALARM, you'll know it immediately—even if you're a long way from the scene of the crime. The small yet powerful PAGING ALARM transmitter sends out a silent, individually-coded radio signal to your compact pocket pager. A shrill "beep" alerts you to call police and report a theft in progress. Depend on the PAGING ALARM for 24-hour-a-day protection no matter where you are or what you're doing. Your peace of mind—that's what this personal security system is all about.

Why a "silent" alarm?

First of all, the PAGING ALARM is silent because today even the clumsiest car thief finds it a cinch to turn off, or simply ignore, a siren alarm. Next, a silent alarm doesn't let the thief know you've been warned—and that the cops are on the way. This gives the police an opportunity to catch him red-handed. [illegible] for your car in minutes—greatly increasing chances of recovery. Finally, a silent radio signal provides the long-distance type of protection no siren alarm can give.

How it works

This amazing new security system is made up of an individually self-coded radio frequency transmitter and receiver. The transmitter mounts easily under your dash, on the firewall or in your luggage compartment. It's triggered by two highly sensitive piezo-electric micro-sensors (extra sensors available—order below). These tiny sensors, which can be quickly glued to door posts or windows, actually "hear" a thief jimmy or open your car door. They even detect attempted tow-aways, smashed windows, picked locks or when your vehicle has been jacked up so the wheels can be stolen. When triggered, the transmitter sends a signal to your personal pocket receiver. Weighing less than 6 ounces, this good-looking pager is only 4" x 2-1/8" x 1-1/4"—about the size of a cigarette pack. It clips almost unnoticed to a pocket, dress or belt. Also fits easily in a purse. A continuous "beeping" tone alerts you instantly to any trouble. Transmitter control lets you adjust sensitivity of micro-sensors. Your own chosen pre-set tone codes coupled with the special dual-coded transmitting system virtually eliminate annoying false alarms and possible interference from other paging units, CBs, etc. even in small areas.

Convenient electronic pager

PAGING ALARM III is more than just a vehicle alarm. It's a low-cost personal communications system. With the paging switch on transmitter, you can call the kids back for dinner. A "beep" on your receiver can be a signal that there's an emergency at home—or simply that your family wants to reach you. A "must" for RV and van owners. The uses are limitless! PAGING ALARM provides round-the-clock security anywhere you've got something worth stealing. Great when you're away on vacation. The pager can be left with neighbors to constantly monitor your home or vehicle.

Installation is a cinch

Everything's included for trouble-free operation and installation: transmitter with 2 mounting screws, receiver with on/off switch, 2 "AA" batteries, 2 micro-sensors, coaxial cable, illustrated instructions and FCC license application. PAGING ALARM uses existing car radio antenna or CB antenna for extended range (order below). For 12-volt systems.

[A] **PAGING ALARM III.** 4 watts of power—the most sending power allowed by the FCC. Super power assures super protection and super penetration. Normal range: 2 miles. Effective range: 2 to 5 miles (depending on correctly tuned CB antenna, terrain, atmospheric and weather conditions). Also great in densely populated urban areas. Handsome walnut wood-grained 5-1/2" x 1-1/4" x 4-3/4" transmitter with bracket—attractive in your vehicle, home, office, anywhere. **Added convenience feature:** 2 separate L.E.D. readouts on pocket pager distinguish between a theft in progress and a personal call.
15—9503X— Each **$134.95**

[B] **PAGING ALARM II.** Same power and protective range as [A] above, but does not include the 2 separate L.E.D. readouts or personal communications pager. Wood-grained 5-1/2" x 1-1/4" x 4-3/4" transmitter with bracket.
14—1219R— Each **$119.95**

[C] **PAGING ALARM I.** Range up to 1 mile. 500mW of output power. Inconspicuous 4-3/4" x 1-3/16" x 2-3/4" black transmitter. Does not include LED readouts or personal communications pager.
14—1218A— Each **$79.95**

Additional Piezo-Electric Sensors. For use with above paging alarms (2 are included in each alarm above). Expand your coverage in large cars, vans, RV's, etc.
14—9642U— 1-Set of 2 **$6.95**

Paging/CB Antenna. Maximizes range and performance of your pager. 2-way mounting system—permanent or clamp-on. 43-1/2" long overall. Stainless steel mast, spring-loaded base. With cable and connector.
03—6837W— Each **$9.95**

Vehicle Security Light/Horn System. Turn your silent alarm system alone into a complete vehicle protection system. Unique control module flashes your lights and honks your horn when vehicle is tampered with. 45-second automatic shut-off and reset timer. With built-in entrance and exit delays. Includes all wiring and instructions.
15—9324Y— Each **$39.95**

Vehicle Motion Detector. Alerts you when vehicle is jacked up or towed away. System automatically adjusts. Easy to install... can be used with any alarm system. Installation instructions included.
15—9322B— Each **$5.49**

Although no special skills or knowledge are needed to operate a Paging Alarm, a free FCC license is required (application included). No test is needed but you must be a U.S. citizen over 18 years of age. Members of the licensee's immediate family who live in the same household may also operate the Paging Alarm.

Passive ELECTRONIC SECURITY SYSTEM

Complete with sound sensor, pocket pager & high/low siren

Detects noise of forcible entry, alerts you 2 ways: transmitter sends signal (up to 8 miles) to activate pocket pager; vehicle siren sounds to scare off thief. System automatically arms itself each time ignition is turned off. Approx. 10-second entrance delay, 90-second exit delay. Sound sensor discriminates between break-in noises and natural sounds (rain, traffic, etc.) ... helps prevent false alarms. Current sensor detects changes in voltage (dome lights, headlights, etc). System includes control module, sound sensor, transmitter, pager, siren, 2 door jamb switches, 2 plug connectors, in-line fuse, wiring, hardware and instructions. **Note:** This security system may qualify you for an insurance premium discount (dependent upon state laws and policy of your insurance company)
12—2721N— 1-Kit **$169.95**

KEY CARD SECURITY SYSTEM

- **Disables starter AND ignition circuits ... car starts only when pre-coded key card is inserted in control box**
- **Virtually impossible to hot wire**
- **Over 10,000 codes—card can't be duplicated**

No keys to lose, no codes to enter, no sirens to accidentally go off! Wires are protected by an armored cable ... in case of tampering, all circuits are grounded so car won't start. System can also be used as an arming device for alarm systems. Easy 5-wire installation. Includes 2 cards, wiring, hardware, instructions. For all 12-volt vehicles including HEI and diesels.
14—9229P— Each **$29.95**

GLASS TAMPERING DETECTOR

Detects glass being struck or broken before thief enters car!

Add to any alarm system. Sound-discriminating microphone "listens" for sound of glass being tapped, shattered, or otherwise tampered with ... activates siren or alarm (not included—see Index) **before** thief can enter vehicle. Will not react to extraneous sounds such as passing cars, airplanes, etc. Only 1" high x 4-1/4" long x 2-3/4" deep ... mounts anywhere in vehicle interior. Easy 3-wire installation—instructions included. For 12-volt current and voltage sensing and door switch (hardware) systems.
14—5266W— Each **$29.95**

Passive • Self-arming

VOLTAGE-SENSING ALARM SYSTEM with Motion Detector

- **Arms and disarms automatically with your ignition switch ... no locks, keys or codes**
- **INTERIOR PROTECTION—senses changes in voltage (dome light, generator lights, etc.)**
- **EXTERIOR PROTECTION—motion detector with adjustable sensitivity detects jarring, towing**
- **HOOD & TRUNK PROTECTION—pin switches set off alarm upon unauthorized entry**
- **Separate circuit hooks directly to stereo or CB, sounds alarm if unit is tampered with**
- **Ear-piercing 110-db high-low siren**

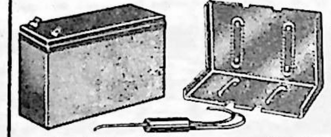

12-second entry and 60-second exit delays let you enter and leave car without setting off alarm. Siren automatically shuts off and resets itself after 3 minutes to prevent battery drain. "Panic switch" lets you trigger siren while inside car in an emergency. Hidden override switch disengages system for valet parking, maintenance, etc. Easy 6-wire hookup. No control box to mount—electronic circuitry is mounted in siren. Includes 6" long siren with 5" bell, motion detector, switches, wiring, hardware and instructions. For 12-volt neg ground systems only
14—7124N— Each **$39.95**

AUTO ALARM TIMER

Solid State. Works in conjunction with all burglar alarm systems. One minute timer allows siren, bell or horn mechanism to operate for approximately one minute and then automatically resets alarm system within the vehicle in case of re-entry. Stops battery drain or dead battery. With instructions. Easy to install. For 12 volt only.
15—9323P— Each **$9.95**

Rechargeable BACK-UP BATTERY for Auto Alarm Systems

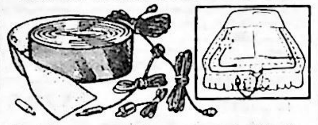

- Provides back-up power for your security system if primary battery is disabled by thief
- Completely sealed ABS plastic case—never needs liquid, won't overflow or leak
- 12-volt, 6-amp capacity

Extra protection against car theft! Supplies power for over 3 hours of continuous use to electronic siren or horn, even if main battery cable is cut or disconnected. Only 4" high x 6" wide x 2-1/2" deep. To insure full capacity at all times, use with charging module sold below.
14—9426B— Each **$34.95**

Charging Module for above. Simple 3-wire installation. Instructions included.
14—9427P— Each **$15.95**

Metal Shelf Bracket for battery above. 4" high x 6" wide x 2-1/2" deep
14—9428Y— Each **$8.49**

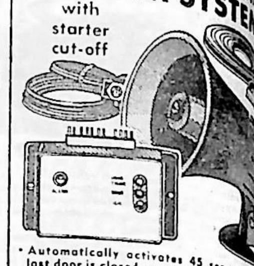

CAR COVER ALARM TRIGGER

- Protects your car AND car cover against theft

Ties into your vehicle's alarm system ... sets off alarm when car cover is disturbed. Sensor harness attaches to cover with pressure-sensitive tape (included). Receptacle harness attaches to alarm system with 2-wire hookup. Dummy plug permits use of alarm system without cover on. Works with any alarm system having accessory capability and/or hood and trunk pin switches. Mechanical sirens require a horn relay (see Index). With instructions.
12—3671A— Each **$29.95**

Passive • Electronic ALARM SYSTEM with starter cut-off

- Automatically activates 45 seconds after last door is closed—can't be forgotten
- Fully automatic protection for all [illegible] entry—doors, hood and trunk
- Motion/vibration sensor detects any [illegible] jacking or towing of vehicle
- Starter disable feature for added protection
- No extra keys or exterior locks required
- Time delay lets you enter or leave vehicle without triggering the alarm
- System can be tailored to suit your individual security needs
- Easy and foolproof installation

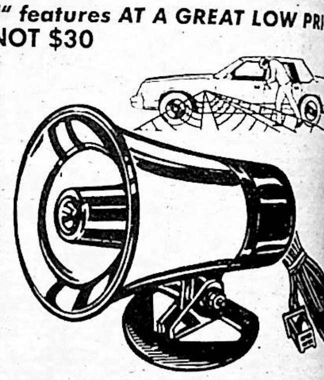

A brief "chirp" lets you know that system is armed. Small solid state control module (the size of a pocket calculator) is easy to [illegible] anywhere in your vehicle. Built-in motion/vibration sensor compensates for angle [illegible] vehicle is parked before arming itself. [illegible] sensitivity levels (low and high) ... or sensor can be disconnected completely. Any attempted entry at doors, hood or trunk OR any tilting or [illegible] will set off an extra-loud 115 db siren for [illegible] onds. System automatically resets itself. [illegible] disabling switch shuts off power while [illegible] away and must be switched on while ignition is turned for starting. L.E.D. lights on [illegible] module light up when proper connection [illegible] made to trunk, doors, hood or siren. Instructions included for installation and to adapt [illegible] features for your individual needs. Some [illegible] required. Kit includes: electronic control [illegible] siren (mounts under hood), wiring, hardware and instructions. For all 12-volt systems.
15—9890Y— 1-Kit **$88**[illegible]

Keyless ELECTRONIC ALARM SYSTEM

All the "most wanted" features AT A GREAT LOW PRICE

NOT $80 ... NOT $50 ... NOT $30

ONLY **19.95**

- **Passive system automatically arms and disarms with normal operation of ignition switch ... can't be forgotten**
- **No keys to lose ... no locks to mount**
- **Easy to install—only 4 wires to connect**

Current sensing system detects slightest drop in voltage (dome, courtesy, trunk, hood lights) ... triggers an ear-piercing "yelp" alarm. Eliminates wiring of doors. Approx. 60-second exit and 12-second entry delays allow you to leave and enter vehicle without setting off alarm. System automatically resets itself after 3 minutes to prevent battery drain. Low current draw—safe for use when vehicle is left unattended for long periods of time. Includes hood and trunk switches (for vehicles without hood and trunk lights), hardware, wire harness, instructions. For 12-volt negative ground systems only.
81—1711T— Each **$19.95**

VEHICLE ALARM SYSTEM ACCESSORIES

[A] & [B] **Alarm System Key Locks.** Arm and disarm system from outside vehicle. Mount through fender.

[A] **1" Diam. Round (barrel-type) Key Lock.** Same style & size used on many OEM and replacement security systems. Chrome-plated solid brass. With leads, hardware, 2 keys.
14—3416R— Each **$5.95**

1/2" Diam. Mini Lock (not shown). Like above but smaller and less conspicuous.
14—7878W— Each **$7.95**

[B] **1" Diam. Double-bitted Key Lock.** Flat style key goes in either way. Stainless steel housing with weatherproof shutter. 2 keys.
14—9153B— Each **$3.95**

[C] **Shock Sensor.** Detects vibrations from attempted break-ins. More selective than shakers. Provides 360° protection. Adjustable sensitivity with LED test indicator. Use with any alarm system. With instructions. For 12-volt systems.
14—9425U— Each **$29.95**

Floor Mat Sensor (not shown). Fits under floor mat. Senses pressure and triggers alarm upon unauthorized entry. Great for added interior protection. Waterproof.
14—8858X— Each **$18.95**

[D] **Current Sensor.** Mounts easily to battery cable and triggers alarm (not included—see Index) if any changes in vehicle's electrical system are detected.
15—8898B— Each **$9.95**

[E] **Headlight Flasher/Horn Activator.** Installs with any alarm system to automatically flash vehicle's headlights or pulse horn when [illegible] triggered. For door switch (hard wire) or [illegible] sensing alarm systems.
12—3958B— Each **$9.**[illegible]

[F] **Alarm Timer.** One-minute timer allows [illegible] bell or horn mechanism to operate for [illegible] one minute and then automatically resets [illegible] system within vehicle in case of re-entry [illegible] battery drain. Solid state. Easy to install—[illegible] tions included.
15—9323P— Each **$9.**[illegible]

[G] **Heavy-duty Siren Relay.** (Siren [illegible] included—see Index.) 12 volt
10—3696P— Each **$3.**[illegible]

[H] **Door Alarm Switches.** Activate siren [illegible] included—see Index) when doors, [illegible] hood are opened. With self-tapping threads.

Switch with 3/8" plunger.
14—3418N— 1-Box of 4 **$2.**[illegible]

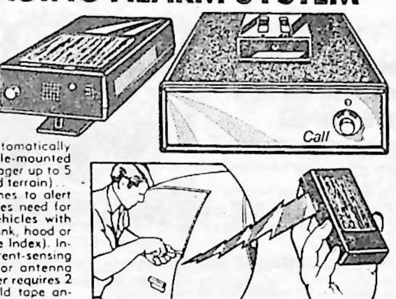

Switch with 7/8" plunger.
14—3419T— 1-Box of 4 **$4.**[illegible]

[J] **Ultrasonic Detector.** Fills car's interior [illegible] invisible harmless ultrasonic waves. [illegible] ment within vehicle or a change in position [illegible] window or door alters wave pattern and [illegible] alarm system. Compatible with alarm systems which are triggered by voltage drop or [illegible] door and pin switch-activated.
81—1676Y— Each **$49.**[illegible]

ORDER BY PHONE 312-431-6102
CHARGE YOUR ORDER ON YOUR VISA OR MASTERCARD

Automatic PAGING ALARM SYSTEM

- Sounds vehicle horn upon attempted break-in
- Activates pocket pager to alert you up to 5 miles away
- Passive system arms automatically with programmed exit and entry timing

Current-sensing module sets off alarm when it detects voltage drop in electrical system. Sounds vehicle horn (or optional siren—see Index) for approx. 1-1/2 minutes, then automatically shuts it off and resets timer. Vehicle-mounted transmitter sends a signal to pocket pager up to 5 miles away (depending on weather and terrain) ... [illegible]-watt pocket pager beeps and flashes to alert you. Current-sensing module eliminates need for door and compartment wiring in vehicles with interior lights (for vehicles without trunk, hood or interior lights, order pin switches—see Index). Includes transmitter, pocket pager, current-sensing module, horn relay, coaxial cable for antenna hookup, installation instructions. Pager requires 2 "AA" batteries (included). Windshield tape antenna available below.
12—2776R— Each **$99.95**

WINDSHIELD TAPE ANTENNA for All Paging Alarm Systems

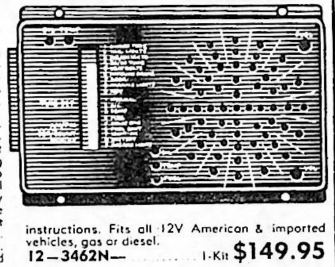

Restores the effective range of your paging alarm system on vehicles with retracting power antennas or broken standard antennas. Can also be used with vehicle's radio when original antenna is broken. Installs easily.
12—3297N— Each **$8.95**

Let your car tell you when a malfunction occurs!

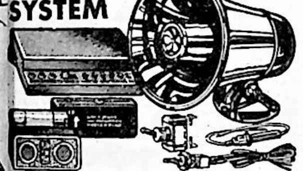

"TALKING" WARNING SYSTEM

- **Monitors up to 14 functions ... warns you of trouble with a pleasant female voice**
- **More noticeable than warning lights ... less annoying than buzzers**

Microcomputerized system wires into existing sensors and switches ... constantly checks functions for problems. State-of-the-art voice synthesizer warns you of any of the following: 1. Keys in ignition. 2. Headlights left on. 3. Door open. 4. Seatbelt unbuckled. 5. Fuel level too low (programmable). 6. Oil pressure too low (programmable). 7. Water temperature too high (programmable). 8. Battery voltage too low. 9. Taillight burned out. 10. Hazard lights on. 11. Parking brake set. 12. Time (AM/PM). 13. Engine ready to start (diesel only). 14. Fuel contaminated (diesel only). Built-in clock tells you the time immediately after you start vehicle—can be set to announce time every half-hour or hour. Power-down circuit reduces battery drain when vehicle is not in use. Approx. 4-3/8" high, 6-3/4" wide, 1-1/4" deep. Includes all wiring, connectors, hardware and instructions. Fits all 12V American & imported vehicles, gas or diesel.
12—3462N— 1-Kit **$149.95**

Ultrasonic 5-in-1 ALARM SYSTEM

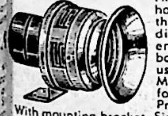

5-WAY PROTECTION FOR YOUR VEHICLE:

- **Ultrasonic sensor detects interior movement and breaking of glass**
- **Motion sensor detects wheel removal or towing**
- **2 plunger switches guard hood & trunk or hatch**
- **Ignition kill prevents hot wiring**
- **High/low siren with adjustable time setting**

System adjusts to sound siren from 15 seconds to 8 minutes before automatically shutting off and re-arming. Exit delay and adjustable (3 to 45-second) entry delay. Test mode allows sensitivity adjustment of ultrasonic and motion sensors. Passive system arms itself automatically when ignition is turned off or can be armed with internal switch. External key switch can be added (not included—see Index). Remote sensor wire lets you protect accessories such as fog lights, car covers, trailers, etc. Kit includes ultrasonic interior sensor, control module, siren, pin switches, activation switch, motion sensor, connectors, hardware and instructions. For all 12-volt negative-ground vehicles. Can also be adapted to protect homes, offices, any small enclosed area with an adequate 12-volt DC source.
12—3504U— Each **$89.95**

EXTRA LOUD SIREN

High speed electric siren has a penetrating sound that is audible for long distance. For use on emergency vehicles, boats, etc. Can also be used as a burglar alarm. Motor-run siren is sealed for trouble free service. Precision balanced rotor. With mounting bracket. Size: 8" long x 6" high x 5-1/4" wide. 12V.
10—3208U— Each **$24.95**

110-volt AC High-speed siren (not shown). Compact size: 6" long x 4" high x 4-3/4" wide at mounting bracket. Same features as above, exc. works on 110V AC. Use as burglar or emergency alarm in home, garage, etc.
10—3209B— Each **$29.95**

128db ELECTRONIC SIREN

The loudest siren we sell!

Produces an ear-shattering, high-pitched, oscillating sound. Only 4" x 4-3/4" x 4-3/4". Easy 2-wire installation even in tightest spots. Weather and corrosion-proof high-impact ABS housing with adjustable mounting bracket. 40-watt output ... low battery drain. For all 12V systems.
12—2827P— Each **$29.95**

MANY NEW ITEMS—CHECK EVERY PAGE!

Keyless • Current-sensing TALKING Alarm System

- **Loud "Burglar! Burglar! Burglar!" yell alternates with super-powerful yelping siren ... both 120 dB**
- **Self-contained system warns of unauthorized opening of doors, trunk, hood or theft of CB, radio, stereo, any accessory**

Automatically arms itself approx. 1 minute after ignition is turned off, then beeps to let you know vehicle is protected. Integrated solid-state circuit detects any change in current flow and yells/yelps for 2 minutes, then resets itself. Compatible with motion detectors, glass-tampering detectors—see Index. Easy to install. Weather-resistant ABS plastic siren is 5" long with 4-1/8" diam. bell. Includes 2 pin switches, by-pass switch, instructions. For all 12-volt systems.
12—3483A— Each **$99.95**

TALKING Siren

- **Replaces any siren**
- **Alternates "Burglar! Burglar!" yell with 110dB yelping siren to increase effectiveness**
- **Draws more attention than regular siren**

Easy 2-wire hook up to any alarm system. Weatherproof plastic/metal siren is 6-1/8" deep, has 5" diameter bell. Swivel base. For all 12-volt systems.
12—3482T— Each **$39.95**

Passive • Computerized IGNITION/STARTER DISABLER SECURITY SYSTEM

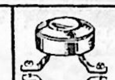

- **Silent vehicle protection—no blaring sirens**
- **AUTOMATICALLY disables ignition or starter when vehicle is turned off**
- **Only YOU know the secret 4-digit code that will start your ignition**
- **Tamper-proof—ignition won't start if system's wires are cut or keyboard is fooled with**

Electronic ABS plastic digital keyboard is only 2-3/8" x 1-3/4" x 5/8" deep. Mounts on dash with self-adhesive tape—no holes to drill. Red LED warns that secret code must be entered before vehicle will start; green LED indicates that system is temporarily deactivated to allow valet parking, etc. Solid-state. Easy 5-wire installation. For all 12-volt ignitions including diesels. Includes instructions, hardware. **Note:** System could qualify you for an insurance premium discount (dependent upon state laws & policy of your insurance company).
12—3959P— Each **$29.95**

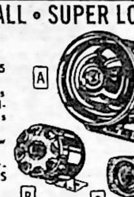

Ignition Cut-off with built-in time delay. Stalls engine 10 seconds after thief starts it up. Compact control unit can be easily hidden out of sight so only you can shut it off. For all 12-volt systems.
14—8997T— Each **$14.95**

UNIVERSAL HORN BUTTON

Clamps on steering column. Large plastic button for finger-tip control.
16—0097Y— Ea. **$1.98**

SUPER SMALL • SUPER LOUD SIRENS

- **Choice of 110, 115 or 120db**
- **Piezoelectric sirens are louder than sirens many times their size!**
- **Exceptionally low current draw**
- **Tough, weather-resistant black ABS housing**
- **Adjustable mounting bracket**
- **Powerful enough for use as primary or back-up siren even on industrial or farm equipment**
- **For all 6 and 12-volt systems**

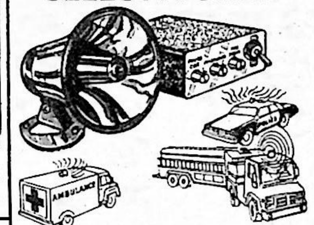

[A] **120db High-pitched Warbling Siren.** 3-5/8" wide, 3-1/4" deep, 3-5/8" high.
12—3890X— Each **$20.95**

[B] **115db European High/Low Siren.** 2" wide, 1-9/16" deep, 2" high.
12—3889R— Each **$16.95**

[C] **110db High-pitched Chirping Siren.** 1-5/8" wide, 2-1/4" deep, 1-1/2" high.
12—3888A— Each **$14.95**

Reproduce Police Car, Fire Engine, Ambulance Sounds!

Emergency-type SELECT-A-SIREN

- **Push a button to select the siren you want**
- **Sounds just like the real things**
- **Horn speaker installs quickly in engine compartment, between radiator and grille or on body of any car, van, truck, motor home, boat**

Puts the choice of 3 emergency-vehicle sounds right at your fingertips. The shrill shriek of the ambulance, the whooping sounds of the police car or the wail of a fire engine won't go unnoticed! System easily hooks up to horn button or any other auxiliary switch. Selector unit measures only 3-3/4" x 5" deep and 1-7/8" high. Rustproof aluminum megaphone speaker. Solid state. Includes brackets, wires and instructions. For all 12-volt electrical systems.
88—9311X— 1-Kit **$29.95**

Heavy-duty • Extra-loud ELECTRONIC SIRENS

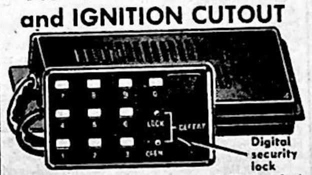

[A] **120db Repetitive Whooping Siren.** Use with any indoor or outdoor security, alarm or warning system. Weather-proof, corrosion-resistant ABS housing. 5" diam. x 6-1/2" deep. Swivel mounting bracket. 20 watts maximum input power. For 12-volt systems.
14—2658X— Each **$14.95**

[B] **High-pitched 113db Whooping Siren.** Timer automatically shuts off siren after 3 to 5 minutes and resets, preventing battery drain. 6"L, 5"W, 5"H. Weather-resistant gold-tone anodized aluminum housing with bracket. Solid state. 2-wire installation. For 12V systems.
14—5200N— Each **$17.95**

Electronic Siren (not shown) like above, but without shut-off timer.
88—9792Y— Each **$14.95**

AUTO ALARM SYSTEM and IGNITION CUTOUT

- **Vehicle will not start unless 4-digit code is punched on keyboard**
- **System automatically sounds vehicle horn if unauthorized entry is attempted**
- **Alarm by-pass allows valet parking**

Computerized system stops ignition circuit from being completed until the proper access code is punched on the digital keyboard. In addition, sensors on doors and hood detect unauthorized vehicle entry. If proper access code is not punched within 30 seconds of opening door or hood, vehicle's horn will sound intermittently for 5 minutes before the system re-sets itself. Alarm can be hooked up with an electronic siren (not included—see Index). Selective override disengages system for valet parking, car wash, etc. Keyboard mounts on dash; control module measures 4" x 2-1/4" x 5/8" and installs easily under dash and is powered by vehicle battery. Includes all necessary mounting components and instructions. For 12-volt negative ground systems. Not for diesels.
14—3487P— Each **$24.99**

Compact • Chrome-plated SUPER-LOUD HORN

- **3 to 4 times louder than most original equipment horns!**
- **Produces a forceful 117 db blast**

A high-frequency sound that can't be ignored! Gleaming horn looks great on the outside of your vehicle ... or is small enough to fit in tight engine compartments. Weather resistant, chrome-plated brass bell with corrosion-resistant chrome-plated plastic motor cover and stainless steel diaphragm. Only 3-3/4" long x 4" wide x 4-1/2" high. Instructions included. For all 12-volt systems.
14-4220U— Each **$24.95**

Dual-tone ELECTRONIC SIREN for All 6 and 12-volt Vehicles

Can be wired to deliver a loud, steady wail or a sharp, yelping sound ... install a toggle switch (order below) and you have your choice of either sound with the flick of a finger. Powerful 115 db output. 8-ohm impedance. Heavy-duty ABS plastic. Weather and waterproof, corrosion resistant. 5-1/2" high, 9" long, 8" bell.
14—2742R— Each **$24.95**

Single-pole, Double-throw Switch for above.
89—1334W— Each **$2.89**

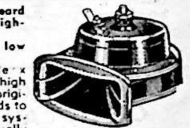

ELECTRIC "Ding-Dong" BERMUDA BELL fits all Cars

- **Two-tone chimes with the sounds of Bermuda**
- **Just a touch of the finger for that well known "ding-dong" sound**
- **Easy to install**

Polished aluminum bell mounts under hood, on firewall, between grille and radiator, or on outside of vehicle. Remote operation from dash-mounted push button. For 6 or 12 volts. With mounting bracket, pushbutton switch and instr.
15—9141W— Each **$19.95**

Electric 132/137 db HIGHWAY BLASTER HORNS

- **Extra loud to be heard easily on noisy, high-speed highway**
- **Choice of high or low frequency horn**

Compact 4" wide x 4-1/2" long x 3" high horn replaces your original equipment or adds to your current horn system. Install individually ... or mount in pairs to produce a commanding yet harmonious high/low blast. Horn relay (sold below) is required when installing 2 horns together. All-metal motor housing and ABS thermoplastic trumpet. With 360° installation bracket, hardware, instructions. For all 12V systems.
14—5672N—High frequency (137 db)
14—5673T—Low frequency (132 db)
Above Numbers Each **$14.95**

Horn Relay. Required when wiring above horns in pairs. 12 volt.
17—8274U— Each **$3.49**

Multi-sound HORN SYSTEM for All Cars, Vans, Trucks, Boats and Campers

- **"Sound off" with whooping horns, patrol and ambulance siren sounds from around the world ... plus animal wails, screams ... and much more!**
- **Create your own sounds with electronic mode selector/synthesizer**
- **Compact sound mixer is easy to install under dash or on console**
- **Button activates sound ... intermittent pushing produces hundreds of other sound effects**
- **Volume adjusts for full range—from soft to loud**
- **Horn speaker installs easily in engine compartment, between radiator and grille, or on body**

Make yourself heard ... and noticed! Four 3-position side switches on sound selector/synthesizer let you mix tone, bass, treble and frequency. Use "on" button or easily hook up selector/synthesizer to your horn button or any other auxiliary switch you desire. Selector unit is only 5-1/2" wide, 3-1/4" deep and 1-3/8" high. Steel housing has durable black finish and clearly labeled controls. 5 watts normal, 10 watts maximum output power. 2-transistor, 3-diode. Speaker 5 watts normal, 12 watts maximum output power; 8-ohms impedance. Rustproof aluminum megaphone speaker. With brackets, instructions. For all 6-volt or 12-volt systems.
88—8044N— 1-Kit **$29.95**

Programmable • Pushbutton-operated Deluxe ELECTRONIC SONG HORN

Plays 102 Pre-programmed Songs!

- **A touch of a button plays the familiar melody of any of the tunes below**
- **3 user channels let you program even more songs from the song book (included) or make up your own tunes**

Tunes can be played by individual selection, automatic sequence or memory button. Or, you can play the keyboard like a piano. Reliable solid-state keyboard mounts on dash, console or upright wall. Powerful P.A. horn. Volume control. Includes song list, song book, wiring, hardware & instructions. For 12-volt negative ground systems.

ELECTRIC SONG HORN PLAYS THESE 102 FAMILIAR MELODIES

I'm in the Mood for Love; When the Saints Come Marching In; Hello, Dolly; Star Spangled Banner; Do You Know the Way to San Jose; Mrs. Robinson; Red Flag of Tannenbaum; Raindrops Keep Falling on My Head; Alfie; It's a Small World; Roll Out the Barrel; Strangers in the Night; California, Here I Come; Caissons Go Rolling Along; This Land is Your Land; I Left My Heart in San Francisco; Yankee Doodle; For He's a Jolly Good Fellow; Hava Nagela; When Irish Eyes Are Smiling; Scarborough Fair; Five Foot Two; Deep in the Heart of Texas;

12—1206T—6-volt ... 1-Pair $19.95
12—1207W—12-volt ... 1-Pair 17.95

Unique "echo chamber" sound! Dual-tone ELECTRONIC HORNS

• Choice of 2 sounds: a long push on the horn button produces an attention-getting blast ... a short tap gives a polite "gong"

Powerful 107db rating. Easy to install—no horn relay required. Can be mounted horizontally or vertically. Set includes 2 horns (3-1/2" high, 4" wide, 4-1/2" deep), mounting brackets, instructions.
12—3895W— ... 1-Set $59.95

125db ADD-A-HORN

• Wires directly to existing horn terminal to produce a more powerful sound ... no other wires or relays needed
• Can also be used alone as a replacement horn
• Only 3-1/2" high x 4" long x 2-1/2" deep—mounts in the tightest engine compartments
• Choice of high or low-frequency horns

Compact Add-A-Horn produces a 125db sound. Fiberglass-reinforced polypropylene trumpet, rugged steel housing with black acrylic finish. Adjustable 360° swivel bracket. With hardware, instructions. For 12-volt systems. Single terminal.
14—5596W—High Frequency ... Each $5.95
14—5597U—Low Frequency ... Each 5.95

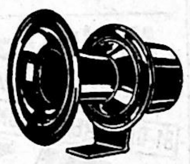

BULL HORN and CATTLE CALLER HORN

BELLOWS LIKE A BULL! MOOS LIKE A COW!

New sound sensation that is LOUDER than most twin horns. Steering column lever controls tone from moo of cow to full bellow of bull. Sounds loud or soft as desired. So realistic farmers and ranchers have used this horn for years to call cattle. Red enamel finish. Size: 8"x5"x6-1/2". Easily mounted—control, mounting hardware, and instructions included. Also use as fog horn. Universal lever control can be easily mounted for operation by hand or foot. For all 12-volt systems.
14—2568Y— ... Each $34.95

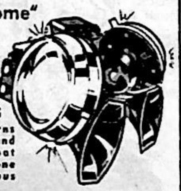

Electric Motor-driven KLAXON-TYPE HORN

• Most popular horn of all time
• Looks, sounds like original 1920's horn

Big, attention-getting sound. Compact—only 9-3/8" long x 5" diameter, fits under hood of the smallest car. Connects to vehicle's existing horn button and relay. Steel with black enamel finish. Includes bracket, hardware. For all 12-volt systems.
81—0608B— ... Each $14.95

"Chrome Dome" TWIN ELECTRIC HORNS for 12V Vehicles

• Twin shell horns produce high and low tones that combine into one loud, harmonious blast

Compact ... only 8" wide x 6" deep x 4" high. Easy to install in engine compartment or behind grille. Durable black die-cast shell horns with dress-up 4-1/4" diam. chrome-plated steel domes. Horns are mounted to universal steel bracket and pre-wired to included horn relay. Low current draw.
88—8357A— ... Each $14.95

Hollywood WOLF WHISTLE

• Choice of chrome plated and enameled finish

Precision-made intake manifold whistle gives the wolf call, imitates a barking dog, produces all kinds of sounds. Reliable signal is distinctive, unusual, attracts attention. Easily installed on cars, trucks, motorcycles, motor boats and outboard motors. With wire and instructions.
Each
14—9638B—Chrome finish ... $13.95
14—9639P—Enameled finish ... 11.95

Extra-loud • Pushbutton-operated ELECTRONIC SONG HORN

DON'T JUST BEEP—PLAY YOUR HORN!
• Plays the familiar melody of any of the 80 favorites listed below—at the touch of a button!
• Reliable solid-state keyboard
• LED power and play indicators
• Automatic song replay for encores

One tiny computer chip, the size of a postage stamp, holds the entire memory system that turns this horn into a musical medley. No need for bulky tapes or removable discs that can get lost or misplaced. Automatic replay feature lets you play song again and again; song stop button halts tune at any desired time. Pre-programmed keyboard is adhesive backed—mounts easily to dash. Includes keyboard, P.A. horn, wiring, mounting hardware and instructions. For all 12-volt negative-ground systems.

ELECTRONIC SONG HORN PLAYS EVERY ONE OF THESE 80 MELODIES!

• Current-sensing alarm with siren protects all doors, hood and trunk
• Automatically plays one song when you back up

Musical horn and alarm systems use the same control box and horn/siren. Control box is 2-1/2" high, 5-1/4" wide, 1-3/8" deep. Horn/siren is 5" long with 5-1/4" diam. bell. For 12-volt negative ground systems.

Musical Horn System. Plays the familiar melody of the following songs: Raindrops Keep Falling On My Head, Happy Birthday, Dixie, Halleluja, La Marseillaise, Auld Lang Syne, Edelweiss, When the Saints Go Marching In, Colonel Bogie, You Are My Sunshine, Westminster Chimes, Yellow Rose of Texas, Mozart Sonata, La Cucaracha, Ode to Joy, William Tell Overture, Oh What A Beautiful Morning, plus an automatic medley of 4 Christmas songs (Noel, Jingle Bells, Hark the Herald Angels Sing, O Come All Ye Faithful). Includes random or specific song selection, or can be played like a piano keyboard. Volume control.

Alarm System. Current sensor allows a 12 to 15-second entry and exit delay before setting off alarm. Mercury switches included to protect hood and trunk. 6-digit electronic code arms and disarms system ... no hidden switch required. Ignition cutoff prevents car from being started until proper code is entered.
81—1803Y— ... Each $34.95

ELECTRIC COMPRESSOR for Air Horns

Has surge up to 50 lbs. per square inch. 6 volt has 15 to 20 lbs. PSI continuous and 12 volt has 22 to 25 lbs. PSI continuous air pressure. Provides instant pressure—air storage tank is not required. Note: when horn is held for long blast, pressure will drop. Bolts to fire wall or fender well. Power supplied from battery. Size: 4-3/4" high x 3" wide. Ideal for any car, light truck or boat. Easy to install. **NOT RETURNABLE FOR REFUND OR CREDIT.** Will be repaired or replaced only.
89—0605P—6 volt
89—0606Y—12 volt ... Each $15.95

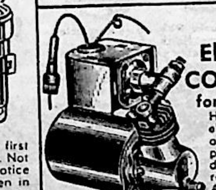

VACUUM AIR HORN COMPRESSOR

Work On All Air Horns

Fully automatic in operation. Builds up 90 to 100-lbs. pressure to tank. Easily installed. Compressor is driven by engine vacuum ... operates only when pressure drops in tank. With rubber bushing mounting bracket. Will not operate off diesel engines.
17—8272Y
Each ... $49.95
COMPRESSOR REPAIR KIT for above. Includes replacement "O" rings, gaskets, fittings, springs, cams, filter, lubricant and instructions.
14—8109N— ... Each $7.95
AIR STORAGE TANK. 140 cu. in. capacity. Size: 5" x 7". With mounting studs.
10—3452Y— ... Each $19.95

12-VOLT Electric AIR COMPRESSOR for All Air Horns

High performance electric motor driven air compressor. Compact, lightweight, designed for quiet reliable performance. Adjustable switch. Factory set at 80-110 lbs. pressure. Pumps 400 cubic inches of air per minutes. Operates off vehicle's battery—draws only 5 amps. Easy to install. With rubber mounting grommets for vibration-free installation. 14 amp fuse and holder. 6-1/4" high, 6-1/4" wide, 5-1/8" deep. Weighs only 5-1/2 lbs. For 12 volt only.
75—0905P—
Each ... $69.95

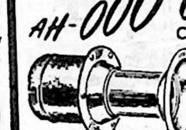

COMPACT SIZE AH-OOO-GAH! HORN

• For imports, compacts and ALL CARS with limited space

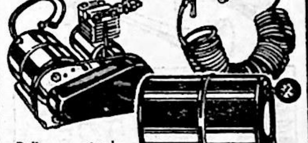

Not a vibrator or other substitute, but a genuine motor driven horn with the sound of the roaring 20's. Only 6-3/4" long—fits in closest quarters. Chrome plated bell, red wrinkle painted housing. With horn button, bracket and instructions.
10—1964U— 6 Volt
10—1965A—12 Volt ... Each $32.95

REMEMBER THAT AH-OOO-GAH CHROME-PLATED HORN

Here it is, for all cars and trucks. Not a vibrator or other substitute but a genuine motor-driven horn. Includes horn button. Requires minimum of 15 amps.
Chromed Bell, Painted Housing.
17—8263X— 6 Volt.
17—8262R—12 Volt. ... Each $32.95
All Chrome-Plated Bell and Housing. Weather-proofed for outside mounting.
17—1337W— 6 Volt
17—1338U—12 Volt. ... Each $32.95

High-output • 12-volt 150-psi AIR COMPRESSOR with STORAGE TANK

• Delivers a steady air supply for all air horns
• Inflates tires, air mattresses, air shocks, etc.

Kit includes 6" x 4-1/2" x 5" steel compressor (with valve to automatically shut off unit when tank is filled) and 7" x 5" diam. steel tank (with air gauge to monitor pressure). Compact components mount easily in engine compartment or trunk or storage compartment. Plus 25-ft. coiled hose with valve, tubing, brass fittings, mounting hardware, wiring with in-line fuse, instructions. For 12-volt systems.
14—8930U— ... 1-Kit $124.95

133db • Big Rig Sound Dual Trumpet AIR BLASTERS for Vans, Pickups, RVs and Off-road Vehicles

• Everything you need for the "Big Truck Air System" sound and look on any vehicle
• No "pump up" waiting time—blast is instantaneous
• More than just a horn system—doubles as auxiliary air system for inflating tires, air mattresses, or cleaning with air

Two gleaming chrome-plated die-cast trumpets (13-3/8" and 10-7/8" long with 3-3/4" diam. bells) are mounted side by side. 15-3/4" overall. Compact (6" x 4-1/2" x 5") 150 psi compressor delivers super-powerful 133-decibel blast. Heavy-duty air tank (with gauge) stores up compressed air so horn is ready when you are. Lanyard operated just like the big trucks. Kit includes trumpets, air tank, compressor, lanyard, tubing with brass fittings, wiring, hardware, gaskets, 25-ft. auxiliary air hose (with air valve) and instructions. For 12-volt systems only. **Note:** Check local noise abatement laws to avoid legal violations.
14—9032Y— ... 1-Kit $169.95
Same as above but operated with electric solenoid switch rather than lanyard.
14—9033W— ... 1-Kit $174.95
Roll Bar Mounting Kit for above. Mounts air horns to any roll bar. With chrome-plated U-bolts, mounting bracket, extra tubing, hardware and instructions.
14—9034U— ... Each $16.95
Snap-on Chrome-plated Weather Shield. Protects interior mechanism without deadening blast.
15—9795R— ... Each $5.49

Programmable MUSICAL HORN

• Plays one of 17 popular songs or a 4-song Christmas medley at pushbutton command
• Easily programmed to play any melody from the 100-tune song book (included) or a song of your own composition
• Microprocessor keyboard has 1-1/2 octave range and can be played like a piano
• Musical memory system stores any new song programmed into it ... can be erased and reprogrammed with another song over and over
• Fast/slow switch lets you control musical tempo

One of the most versatile musical horns you can buy! Automatically plays these 17 favorites: **Dixie • La Cucaracha • William Tell Overture • O, What a Beautiful Morning • Happy Birthday • Auld Lang Syne • Yellow Rose of Texas • When the Saints Go Marching In • Colonel Bogie • You Are My Sunshine • Alleluia • Edelweiss • Raindrops Keep Falling On My Head • La Marseillaise • Mozart Sonata • Westminster Chimes • Ode to Joy.** Play them individually or enjoy 16 songs in succession. Press 2 buttons and listen to a medley of 4 Christmas songs: **Noel • Jingle Bells • O Come All Ye Faithful • Hark the Herald Angels Sing.** With the 100-tune song book, you can select any melody and program it into the musical memory system. Using the keyboard like a piano, you can even program any song of your own (up to 23 notes) into the memory. Or, play the keyboard independently from the horn system for your own personal enjoyment ... won't affect the musical memory system. Easy 3-wire installation. Self-adhesive black control module. Gold-tone speaker. Includes song book, hardware, wiring, instructions. For all 12V systems.
81—1305U— ... Each $27.95

POWERFUL 2-IN-1 DOUBLE-BLAST

AIR-ELECTRIC DIESEL HORN

for All 12-volt Cars, Trucks or Vans

Get that extra-loud diesel sound

ONLY $9.95 Each

Commanding, extra-loud double-blast makes you king-of-the-road! 105db dual horns blow simultaneously, give that unmistakable diesel train and truck sound that can't help but be noticed. Compact 6" x 6-1/2" x 10-3/4" size, mounts under hood using your present horn relay and button. Or, order horn installation kit below if you want a separate button for this horn to maintain your present horn system. Easy to install. Complete with mounting bracket, hardware and instructions. For 12-volt systems only.
88—7605U— Each $9.95

Horn Installation Kit. Chromed button housing with black button center, wire with terminals.
88—8315R— 1-Kit $2.98

Chrome AIR HORN KITS
with COMPRESSOR & TANK
FOR CARS, TRUCKS, VANS & RVs

16 to 32 times louder than average electric horn. Chrome plated trumpets mounted on flat black metal base with chrome plated top cover. Permanently adjusted lifetime mylar diaphragms for continuous service. Compressor is entirely automatic, mounted on shock-proof bracket and develops 106 lbs pressure PSI. Compressor will not operate off diesel engines.

12-1/2" and 10" TWIN HORNS with 3-1/2" BELLS. Complete with compressor, fittings, hose storage tank, mounting brackets, electric solenoid, switch and instructions.
15—0861Y— Each $119.95

AS ABOVE, except with manual control valve and lanyard instead of solenoid switch.
15—0862W— Each $104.95

SNAP-ON CHROME-PLATED WEATHER SHIELD FOR ABOVE HORNS ONLY. Will not deaden blast.
15—9794B— Each $4.99

REPLACEMENT CONTROL VALVE WITH LANYARD.
15—2898Y— Each $7.49

CHROME PLATED AIR HORNS ONLY. For use on vehicles already equipped with necessary tanks, compressors and control valves or as a replacement unit for inside or outside mounting. **TWIN HORNS.** 13-1/2" and 11" overall with 2-1/2" bell.
17—8270B— 1-Pair $36.95

TRUCK AIR HORN—largest and loudest, 22" long horn mounts on top of cab. Large 5" bell blasts 135 decibels! Chrome plating over brass. With valve, tubing, fittings, instructions. For all trucks with air brakes.
10—5378T— 1-Kit $56.95

INSTALLATION KIT for trucks equipped with air brakes or storage tanks. For use with horns listed above. Kit consists of manual valve, 8-ft. of tubing, fittings and instructions.
17—8271P— 1-Kit $14.95

COMPRESSOR ONLY. Includes rubber cushioned mounting bracket. Not for diesel engines.
17—8272Y— Each $52.95

COMPRESSOR REPAIR KIT for above. Includes replacement "O" rings, gaskets, fittings, springs, cams, filter lubricant and instructions.
14—8109N— Each $8.95

STEEL STORAGE TANK WITH MOUNTING STUDS. Size 5" x 7", 140 cu. in. capacity.
10—3452Y— Each $21.95

ELECTRIC SOLENOID VALVE
17—1924A—6 Volt
17—1925Y—12 Volt Each $21.95

Chrome-plated Dual-trumpet AIR HORNS
for Cars, Trucks, Vans, Pickups and RVs

- **Rated at 110 db... lets any 12-volt vehicle sound like the biggest rig on the road!**
- **Powerful, direct-drive electric air compressor installs under hood**
- **Mounting bracket cast into sturdy horn base**

Dual horns with impressive 3-3/4" bell diameter can be mounted under hood; or on hood top or fender for that "big rig" look. Sleek 13-1/2" and 16-1/2" chromed brass trumpets resist corrosion and rust. Includes tubing, wire, horn button, aluminum base with sponge-rubber spacer gasket, mounting pad, hardware, instructions.
14—2441Y— 1-Kit $69.95

Weather-resistant • Outside-mount Electric TRUMPET HORNS
for All 12-volt Vehicles

CHROME-PLATED — Easy to install

Mount on roof, fenders, hood, anywhere space permits. Lightweight chrome-plated brass. Sealed motor. Operate from vehicle's battery—no compressors or air tanks.

[A] **Low-pitch Single Trumpet Horn.** 14" long x 4-1/2" wide x 5-3/8" high.
88—8528X— Each $29.95

High-pitch Single Trumpet Horn. 14" long x 4-1/2" wide x 5-3/8" high.
88—8527R— Each $29.95

[B] **Dual Trumpets.** Low & high pitch.
88—8619U— 1-Set $54.95

Chrome-plated Solid Brass Big Rig AIR TRUMPET

7" diam. bell — 30" long

- **Super-loud 120 db blast**
- **Classic styling—stunning appearance**

Double-chrome-plated solid brass trumpets. Chrome-plated front and rear mounting pedestals have sponge rubber gaskets. Replaces or can be added to existing air horn on any vehicle with compressed air system. Or can be used with air compressor below for mounting on any other vehicle. Order operating kit & weather shield below.
18—6231N— Each $49.95

24-3/4" Long Air Trumpet. Same features as above only for smaller areas. Also with big 7" diameter bell.
14—5244T— Each $44.95

Operating Kit. Includes brass valve and lanyard, tubing, fittings to operate air trumpets above.
14—3088W— 1-Kit $9.95

12-volt Electric Compressor and Air Tank. For vehicles without compressed air. 150 psi compressor fills the 7" x 5" diam. tank for instant air blast. Automatically shuts off when tank is filled. Fittings, tubing, instructions included.
14—9157T— 1-Kit $99.95

Snap-on Weather Shield. Protects inner workings of horns above against corrosion. Will not muffle sound. Chrome-plated steel.
15—9843X— Each $7.49

Space-saver Twin ELECTRIC AIR HORNS

- **Dual trumpets are mounted directly on compressor to produce a powerful, extra-loud blast**
- **Just one unit to install**

Unbreakable red plastic trumpets, compressor and 12V relay form a compact unit that needs only 4-1/2" x 5-1/2" x 5-3/4" mounting area ... fits in engine compartment of the smallest car. Direct coupling system eliminates hoses, tubing—saves extra space. With hardware, instructions. For all 12-volt systems.
12—2763X— Each $24.95

HEADLIGHT FOG FILTERS & PROTECTOR SHIELDS

Amber colored Fog Filters turn headlights into fog lights. You see twice as far in fog than with normal low beams, get increased visibility with high beams and your vehicle is more visible to oncoming traffic. Easy to install or remove—no special tools needed. Retention clips hold fog lenses tightly in place. **Note:** For nos. with ◆ order 2 pair for complete lens coverage.
12—2906B—For 7" round headlamps
12—2907P—For 6" x 8" rectangular headlamps
◆12—2908Y—For 4" x 6-1/2" rect. headlamps
◆12—2909W—For 5-3/4" round headlamps
Above Numbers 1-Pair $6.95

Clear Lens Protectors prevent costly replacement of broken headlights. Protect headlights from rocks and debris without reducing light output.
12—2910U—For 7" round headlamps
12—2911B—For 6" x 8" rectangular headlamps
◆12—2912P—For 4" x 6-1/2" rect. headlamps
◆12—2913Y—For 5-3/4" round headlamps
Above Numbers 1-Pair $6.95

Smoke-tint Lens Protectors add a custom look.
12—2914W—For 7" round headlamps
12—2915T—For 6" x 8" rectangular headlamps

White Enamel Dual Air Trumpets only.
14—8387X— Each $26.95

Roll Bar Mounting Kit (not shown). Mounts horns above to any roll bar. Includes U-bolts, bracket, tubing, hardware, instructions.
14—9034U— 1-Kit $16.95

Chrome-plated Weather Shield (not shown). Snaps on to protect internal horn mechanism without diminishing blast.
15—9795R— Each $5.49

High Performance • 100-watt QUARTZ-HALOGEN LIGHT KITS
with Lead Crystal Lenses

- Choice of driving, cornering or fog lights
- **Optic lead crystal lenses are faceted to focus maximum light in precise pattern**
- **Mirrored parabolic reflectors**

High-Intensity, H3 quartz-halogen bulbs burn 3 times brighter, last 5 times longer than standard sealed beams. 3-3/4" H x 7" W x 3" D. rust proof, high-impact black plastic housing. Low profile, two-plane mount fits close to surface for better aim, less chance of damage and misalignment due to vibration. Kits include 2 internally grounded lights, wire, connectors, illuminated switch, relay, zinc-plated hardware, instructions.

[A] **Driving Light Kit.** Clear lead crystal lenses. Powerful conical beams with up to 9000-ft reflective range.
14—9739Y— 1-Kit $49.95

[B] **Cornering Light Kit.** Clear lead crystal lenses. Extra-wide 70° beam illuminates curves that regular headlights can't reach. Low beam won't annoy oncoming drivers. Also effective as clear fog lights.
14—9740W— 1-Kit $49.95

Fog Light Kit (not shown). Amber lead crystal lenses minimize glare from fog reflection, reduce eyestrain. Produce light pattern similar to cornering lights above.
14—9741U— 1-Kit $49.95

Replacement Lenses & Element for above.
14—9742B—Driving Lens Each $12.95
14—9743P—Cornering Lens Each 12.95
14—9744Y—Fog Lens Each 12.95
88—8155R—100-watt Element Each 5.98

Replacement H1, H2, H3 & H4 QUARTZ-HALOGEN BULBS

Quality made to industry standards. Replace original halogen bulbs perfectly ... great as spares. **Note:** Order the same type and wattage of bulb currently being used.

[A] **H1 High-beam Bulbs.** For 4-headlight systems and auxiliary lamps. 12 volt.
14—8273R—55 watt Each $2.98
14—8274X—100 watt Each 5.98

[B] **H2 Bulbs.** For European-made auxiliary lamps. 12 volt.
14—8275U—55 watt Each $3.98
14—8276B—100 watt Each 5.98

[C] **H3 Bulbs.** For auxiliary lamps.
88—6043R—55 watt (12 volt) Each $3.98
14—8277P—55 watt (6 volt) Each 6.98
88—8155R—100 watt (12 volt) Each 5.98
12—3254W—130 watt (12 volt) Each 7.95

[D] **H4 High/Low Bulbs.** For off-road use. 80/100-watt. For headlights. 12 volt.
14—2879R— Each $8.95

55/60-watt. For motorcycles, off-road vehicles. Vibration resistant.
02—3244R—12 volt Each $7.98
14—8280U—6 volt Each 10.98

HEADLIGHT BEZ…
for 73-78 Chevy/GMC Trucks

- Exact duplicate of original

Bolts on easily using original mounting screws. Polystyrene. Fits 73-78 Chevrolet GMC 1/2, 3/4 & 1 ton pickups, Blazer, Jimmy.

Dual Heavy-duty Headlight Relay. Each … has 20-amp capacity and separate fuse …
42—0002W— Each …

80/100-WATT H-4 QUARTZ HALOGEN …

- **Produces up to 40% more candlepower … beam than ordinary H-4 headlight bulb**

Combines the low beam/high beam … of an H-4 halogen light with the road … power of a 100-watt halogen bulb. Replaces standard 55/60-watt H-4 bulb. Fits all H-4 lights. Great for cars, trucks and motorcycles.
14—2879R— Ea. …

High-power 130-WATT H-3 QUARTZ-HALOGEN BU…

Super-bright element replaces any H-3 quartz-halogen bulb. Produces much more illumination (even with older lights) for greater driving safety. Draws 11 amps. For off-road use only.
12—3254W— Ea. $7.95

Two powerful trumpets INSIDE a single compact housing

SUPER LOUD Mini 2-trumpet Air-blast H…
with AIR COMPRESSOR

- **Compact—fits in tight engine compartments**
- **High and low trumpets produce a massive 117 db blast—3 to 4 times louder than most original equipment horns**
- **Complete, ready to install—nothing else to buy**

A must for the driver who wants the BIG SOUND of twin trumpets but doesn't have the space for traditional straight trumpets! Rust and heat-resistant black ABS thermoplastic housing (with 2 powerful trumpets rolled up inside) is only 5" high x 4-1/2" wide x 3-1/2" deep. Air compressor is only 4" high x 2-1/2" diameter. Universal 120° swing mounting brackets assure trouble-free installation anywhere. Chrome-plated grid protects the sound chamber without affecting the loud, resonant blast. Complete with horn, air compressor, tubing, relay, mounting hardware & instructions. For all 12V systems.
14—5175R— Each $22.00

Powerful 5-TRUMPET

MUSICAL AIR-BLAST HOR…

Automatically plays the first 11 notes of "DIXIE"

Announce your arrival or departure tunefully with this exciting horn. Five air trumpets play the first 11 notes (the most familiar melody) of "Dixie" at the touch of a single button. Durable black plastic trumpets are graduated in length from 5-1/2" to 10-1/2". Easy to install ... no tanks or valves needed. Set includes trumpets, tubing, compressor, relay, [illegible] mounting hardware and instructions.

FOR ALL 12-VOLT VEHICLES

- …ple plug-in installation
- …r 2 and 4-headlamp systems on most vehicles...also great for motorcycles
- …4 bulb lasts 4 times longer than ordinary sealed beams and 1-1/2 times longer than standard halogen sealed beams
- …like sealed beam headlights, the H-4 will continue to work even if the lens is broken

…H-4 is the right light for driving safely at night! Powerful halogen dual-filament bulb, hermetically sealed from dirt and moisture, shines 55 watts of illumination on low beam, compared to … watts for regular halogen sealed beam headlights! Delivers twice the brilliance and visibility of conventional tungsten sealed beams! You get better night viewing for increased reaction time and less fatigue. Special "cut-off" line directs intense light down and to the left shoulder of the road without blinding oncoming traffic ... on the right side light goes up and to the right shoulder for total visibility. If the bulb burns out, it's easily replaceable (see below)—no need to replace expensive lens or reflector. D.O.T. legal in all 50 states.

…ound 7" H-4 Halogen Headlamp for 2-light system. High/low beam.
…-9061W— Each $21.95

…ound 5-3/4" H-4 Halogen Headlamp for 4-light system. High/low beam. Replaces low beam lamp.
…-9062U— Each $19.95

…ctangular 4" x 6" H-4 Halogen Headlamp for 4-light system. High/low beam. Replaces low beam lamp.
…-9063B— Each $24.95

More light where you need it... without blinding oncoming traffic!

H-4 LOW BEAM — H-4 HIGH BEAM — STD. LOW BEAM — STD. HIGH BEAM

Rectangular 6" x 8" H-4 Halogen Headlamp for 2-light system. High/low beam.
15—9064P— Each $24.95

H-4 Replacement Bulb for lights listed above.
15—9065X— Each $5.98

Twice as bright as standard sealed beams!

H-4 QUARTZ-HALOGEN HEADLIGHTS
for 2 & 4-headlight Vehicles plus Motorcycles

Choice of round or rectangular headlights with high/low beams

- **200% more light than standard tungsten sealed beams for increased visibility, greater safety**
- **Directly replace existing sealed beam headlights—no modifications necessary**
- **Easy plug-in installation**
- **H-4 bulb lasts 4 times longer than ordinary sealed beams and 1-1/2 times longer than standard halogen sealed beams**
- **Unlike sealed beam headlights, this H-4 works even if the lens is broken**

A safety must for nighttime driving! Powerful dual-filament halogen bulb delivers 55 watts of illumination on low beam, versus the 35 watts for standard sealed beam headlights. You get more light to increase reaction time, reduce driving fatigue. Bulb is easy to replace—no need to replace expensive lens or reflector. For off-road use. We recommend replacing lights in pairs for uniform brightness.

H-4 Halogen Headlamps for 2-light systems. High/low beam.
…1—0717A—7" round Ea. $19.95
…1—0720N—6" x 8" rectangular Ea. 22.95

H-4 Halogen Headlamps for 4-light systems. High/low beam. Replace low beam lamps.
…1—0718R—5-3/4" round Ea. $17.95
…1—0719X—4" x 6" rectangular Ea. 22.95

Replacement H-4 Bulb for lights above.
…5—9065X— Each $5.98

More light where you need it... without blinding oncoming traffic!

LOW BEAM: H-4, Std. — HIGH BEAM: H-4, Std.

Custom-fit Clear or Tinted HEADLIGHT COVERS
for American and Imported Cars

Give your car a sporty European look while protecting expensive headlights

Pre-cut to your car's exact specifications

Covers effectively shield headlights from damage and corrosion. Aerodynamically designed to reduce wind resistance. All covers are flat except those indicated by ◆, which are molded. Flat covers are made of tough Lexan® polycarbonate (clear covers indicated with • have white horizontal accent stripes); molded covers are made of durable 1/16" acrylic. Install easily (see diagrams at right and installation codes below)—drilling of headlight bezel/assembly required. Can be quickly removed for cleaning. Kit includes 2 headlight covers, mounting screws and instructions. **Note:** For daytime driving or show use only. Not legal for night driving when lights are on. May be illegal in certain states—check local laws before ordering. INSTALLATION CODES: "S" = screw-on installation; "L" = screw-on installation with L-brackets (included).

INSTALLATION METHODS: Screw-on (without brackets) — Screw-on with L-brackets

HALOGEN SEALED BEAM HEADLAMPS

Hardened glass lenses

- **Brighter, whiter light for visibility & safety!**
- **150,000 CP ... twice the candlepower of ordinary sealed beams, yet require no more voltage**
- **Sharp horizontal cutoff in low-beam mode helps reduce glare for oncoming drivers**
- **Last much longer than ordinary sealed beams**
- **For 4 and 2-headlamp systems on most cars**
- **Available with case-hardened glass lenses (shown) on break-resistant plastic lenses**

Halogen high beams provide greater "seeing distance" than standard high beams. Quartz bulb is fitted with halogen gas to prolong filament life. Lamps keep working even with outer lens broken. Replaces original equipment ... no adapters or additional wiring required. For all 12-volt systems. **Note:** We recommend that all lamps be replaced for uniform brightness.

WITH HARDENED GLASS LENSES

Rectangular Halogen Headlamps for 4-light systems. Size: 4" x 6-1/2".
Low beam replaces OEM lamp # 4652
14—1588X— Each $7.95
High beam replaces OEM lamp # 4651
14—1589N— Each $7.95

Rectangular Halogen Headlamps for 2-lamp systems. High-low beam. Size: 5-7/8" x 7-7/8". Replaces OEM lamp # 6052
14—1590T— Each $12.95

Round 5-3/4" Halogen Headlamps for 4-light systems.
Low Beam replaces OEM lamp # 4000
14—9587A— Each $8.95
High Beam replaces OEM lamps # 4001, 5001
14—8929W— Each $9.95

Round 7" Halogen Headlamps for 2-light systems. High-low beam. Replaces OEM lamps # 6012, # 6014, # 6015, # 6016
14—4221B— Each $14.95

WITH PLASTIC LENSES

More crack and shatter resistant than standard glass halogen sealed beams ... weigh 2/3 less too.

Rectangular Halogen Headlamps for 4-light systems. Size: 4" x 6-1/2".
Low Beam replaces OEM lamp # 4652
14—9477N— 1-Pair $21.95
High Beam replaces OEM lamp # 4651
14—9476X— 1-Pair $21.95

Rectangular Halogen Headlamps for 2-light systems. High-low beam. Size: 5-7/8" x 7-7/8". Replaces OEM lamp # 6052
14—9478T— 1-Pair $41.95

Improve Visibility & Safety!

Vertical Headlight Adjusters
for All Rectangular or Round Headlights

- **Eliminates inaccurate methods of headlight adjustment**
- **Easy to use—adjusts for all headlight sizes**
- **Lets you re-adjust headlights for trailer towing**

Vertical adjuster makes your headlights safer in minutes. Tells you when vertical adjustment is needed. Durable, lightweight ABS plastic. SAE tolerance of ±2 inches at 25 feet. With instructions. Each
[A] 14—5364R—For round headlights $8.98
[B] 14—5363A—For rect. headlights 8.98

DRIVING LIGHT COVERS

- **Protects lights when they're not in use**

Heavy-duty leather-grained black vinyl covers with 1/4" thick foam padding help protect lenses, keep out dust and moisture. Elastic band around edge for a snug fit.

[A] **Fit 3-3/4" x 6" driving lights.**
14—4826Y— 1-Pair $2.99

[B] **Fit 6" diam. driving lights.**
14—4827W— 1-Pair $2.99

HALOGEN OFF-ROAD LIGHTS

Choice of 130-watt, 100-watt & 55-watt

See 3 times farther

- Built rugged to withstand off-road punishment
- Sturdy steel housing with rubber shock-absorbing lens rim and rubber mounting bracket
- Lens mounted in shock-absorbing rubber ring

Perfect auxiliary source of light for hard night driving. Powerful H3 halogen bulb lets you see 3 times farther than standard sealed beams, lasts 2-1/2 times longer too. Easy-to-replace quartz element. Clear lens. In chrome-plated or matte black painted steel housing. Steel-jacketed electrical lead wires.

Light with 6-1/8" diam. lens. 5" deep.

MOUNTING BRACKET for Fog & Driving Lights

- No drilling!
- Fits all bumpers

Adjustable bracket allows lamp to be mounted on lip of bumper. Installs in minutes—no drilling required. Size 1-3/4" x 2".
88—7340Y— Each $1.98

55-watt Quartz-Halogen DRIVING & FOG LIGHT KITS with AUTOMATIC LOUVERS

Louvers open / Louvers closed

- Louvers automatically open when lights are turned on, automatically close when lights are turned off to protect lenses against road debris
- Activated by heat from lights—no motors to burn out or wear out
- Approved in all states and Canada
- Meet SAE and CAC specifications

H3 quartz-halogen bulbs burn brighter and last longer than ordinary sealed beams. Weather-resistant matte black ABS plastic louvers and 6" x 3-1/4" x 3" deep housing. Includes 2 lights, adjustable steel mounting brackets, switch, instructions. For all 12-volt systems.

Driving Light Kit. Produces intense illumination for safer nighttime driving. Clear lenses project a 10° horizontal beam with reflective range of approximately 2600 ft.
12—3517W— 1-Kit $49.95

Fog Light Kits. Penetrate fog, rain, snow and eliminate reflected glare. Fluted lenses project a 10° vertical x 130° horizontal beam with reflective range of approximately 525 ft.
12—3518U—Amber lenses
12—3519B—Clear lenses 1-Kit $49.95

Replacement Element for above.
88—6043R— Each $3.98

Theft-resistant BRACKET for Fog and Driving Lights

- Mounting bolts require special wrench (incl.) to discourage would-be thieves
- Fits all bumpers — no drilling required

Heavy duty, triple-chrome-plated bracket mounts on rear lip of bumper and can be adjusted from 2-1/4" to 3-1/4". Ideal for mounting large auxiliary fog and driving lights.
14—4680R— Each $2.98

Utility, Driving & Fog Lights with RUBBER HOUSINGS

Virtually indestructible, shatterproof rubber housings resist water and corrosion. Great for street or off road. Easy-to-replace snap-in sealed beams are recessed for maximum protection. Easy to install on ALL 12-volt systems. Universal bracket included.

6-1/2" diam. x 4" deep UTILITY DRIVING LIGHT. Clear fluted lens delivers 1,600 CP of dispersed light.
14—2049R— Each $16.95
14—2050X—Replacement Sealed Beam. 5.95

4-3/4" diam. x 3" deep UTILITY DRIVING LIGHT. Clear fluted lens delivers 3,000 CP of dispersed light.
14—2047T— Each $9.95
14—2048A—Replacement Sealed Beam. 4.95

6-1/2" diam. x 4" deep LONG-RANGE DRIVING LIGHT. Clear lens delivers 200,000 CP for increased nighttime visibility
14—2053A— Each $21.95
14—2054R—Replacement Sealed Beam. 9.95

4-3/4" diam. x 3" deep LONG-RANGE DRIVING LIGHT. Clear lens delivers 110,000 CP.
14—2051N— Each $17.95
14—2052T—Replacement Sealed Beam. 8.95

6-1/2" diam. x 4" deep FOG LIGHT. Fluted amber lens pierces fog, rain, sleet, haze
14—2221U— Each $17.95
14—2222B—Replacement Sealed Beam. 6.95

4-3/4" diam. x 3" deep FOG LIGHT. Fluted amber lens.
14—2219Y— Each $11.95
14—2220W—Replacement Sealed Beam. 5.95

WIRING KIT for lights above. Includes extra wiring, relay, wire connectors, terminals, 2 in-line fuses, toggle switch with on/off light, under-dash mounting bracket and instructions.
88—9350N— 1-Kit $6.49

55-watt Quartz-Halogen DRIVING, FOG or DRIVING/FOG LIGHT KITS

With Protective Lens Guard [A] — Without [B] Lens Guard

- Bulbs burn 3 times brighter, last 2-1/2 times longer than ordinary tungsten bulbs
- Brilliant chrome-plated steel housing

Driving lights have clear lenses to produce extremely bright, extremely long-range beams. Fog lights have amber fluted lenses to pierce the rain, snow, fog and to improve side vision. Mount easily on bumper ... adjustable brackets for positioning versatility. Kit includes 2 driving or 2 fog lights or one driving and one fog light plus brackets, rocker switch (2 switches in combination kit), all wiring, instructions. For all 12V systems.

[A] **Lights with lens guards.** Tough black plastic guards protect against kicked-up road debris. 6-1/2" wide x 3-1/2" high x 3-1/4" deep.
88—8578B—Driving Light Kit
88—8579P—Fog Light Kit (shown)
88—8580Y—Combination Driving/Fog Light Kit
Above Numbers ... 1-Kit $14.95

[B] **Lights without protective lens guards.** 6-1/2" wide x 3-1/2" high x 2-1/2" deep.
81—1449P—Driving Light Kit
81—1450Y—Fog Light Kit
81—1451W—Combination Driving/Fog Light Kit (shown)

Sleek, Designer-look Quartz-Halogen FOG and DRIVING LIGHT KITS with PROTECTIVE COVERS

FOR ON OR OFF-ROAD

Halogen fog lights improve front & side vision—with less glare

Halogen driving lights illuminate far ahead of standard high-beams

- 55-watt H3 quartz-halogen bulbs produce 3 times the light of ordinary sealed beams, last up to 2-1/2 times longer
- Tough plastic cover protects lens against rock damage when light is not in use

Sleek black steel case is 2-1/2" deep x 3-1/2" wide x 6-1/2" high. Plastic lens cover is white with black accent stripes ... flips up and locks when lights are in use. Easy to install. Adjustable mounting bracket is protected by a black rubber boot that keeps out dust, water. For all 12-volt sys. Include 2 rectangular lights with covers, on/off switch, wiring kit, hardware & instructions.

Fog Light Kit. Dramatically increases visibility in fog, rain or snow ... extends viewing range onto road shoulder. Amber fluted lenses.
88—9797X— 1-Kit $34.95

Driving Light Kit. Produces a super-bright light that extends far beyond range of high-beams ... gives you plenty of time to react. Clear fluted lenses.
88—9796R— 1-Kit $34.95

Replacement Element for above. 12 volt.
88—6043R— 1-Kit $3.98

Super-slim • Halogen DRIVING & FOG LIGHT KITS

Only 1-3/4" deep

Lens cover

- Mount easily in small, tight areas
- Improve vision at night or in bad weather

Compact design is ideal for mounting between radiator and grille, below bumpers or where air dams or spoilers are used. Powerful 35-watt H3 quartz-halogen bulbs. Shock and corrosion-resistant plastic housings, lenses. Plastic snap-on lens covers. Draws less than 6 amps per pair. Kits include 2 lights (4-1/2" high, 6" wide, 1-3/4" deep), lens covers, wiring, plated mounting hardware, instructions. For all 12-volt systems. For off-road use only.

Driving Light Kit. Clear lenses extend beam for safer nighttime driving.
12—3523U— 1-Kit $39.95

Fog Light Kit. Amber fluted lenses spread beam for safer driving in fog, rain, snow.

Ultrasonic BACK-UP ALERT helps prevent backing into kids or low, unseen obstacles

Display Unit — Sensor

A must for any vehicle with limited rear visibility! Warns both audibly and visually of unseen obstacles. LED lights light up and beeper sounds when rear of vehicle comes within 6-1/2 ft. of any object. More LEDs light up and beeping intensifies as you get closer to the object. (LEDs are calibrated in feet, meters ... beeper has 3 different warning signals.) ABS plastic display unit is 3-3/8" x 1-3/4" x 1/2", mounts on dash or rear deck. Weatherproof sensor is 9-1/2" x 2-1/2" x 1-1/2", mounts above or below rear bumper and is activated by back-up light terminals. Easy 2-wire hook-up. With wiring, hardware, 22-ft. sensor cable, instructions. For 12-volt, negative-ground systems.
81—1863B— ... Each $69.95

BACK-UP ALARM for 12-volt Vehicles with Back-up Lights

Helps prevent accidents! Automatically sounds loud, intermittent beep when vehicle is shifted into reverse—warns children and pedestrians of impending danger. Durable, vibration-proof, weatherproof. Easy to install in trunk or under rear of vehicle.
17—9168X— ... Each $9.98

Chrome-plated BACK-UP LIGHT

With universal bracket. For all car installations. Streamlined and compact, designed in modern trend. 3" diameter. Specially designed lens produces a bright beam. 12 volt.
16—0020P— Each ... $10.88

AUXILIARY BACK-UP LIGHT KITS

Deluxe High-Intensity 50-watt Light Kit — 35-watt Mini Light Kit

- Greatly extend nighttime viewing
- More powerful than standard back-up lights
- Fluted lenses produce a bright, wide beam of light with minimum glare
- Easily mount above or beneath rear bumper

Streamlined, chrome-plated lights. Kits include 2 lights, mounting bracket, wiring, hardware, and mounting instructions. For all 12-volt systems.

Deluxe Kit with 50-watt high-intensity lights. 2" deep x 3-1/2" x 5-1/2".
88—8587T— ... 1-Kit $14.95

Mini Light Kit with 35-watt high-intensity lights.
88—8586N— 1-Kit ... $9.95

Auxiliary BRAKE & TURN SIGNAL FLASHER with 8 Sequential Flashing Lights

- Provides additional warning to following drivers when braking or turning
- Helps prevent rear-end collisions

Mounts on rear deck ... works in conjunction with your brake lights and turn signals. When braking, 8 lights flash in outward sequence. When turning, 4 lights flash continuously left or right in outward sequence. Flashing speed adjusts to match your car's turn signals. Red lenses are highly visible, even in heavy fog. Easy 5-wire hookup. 4-1/2" high x 34-1/2" wide when assembled. For all 12-volt systems. Note: For auxiliary use only; not intended as a replacement for vehicle's stop or turn signals.
81—1414U— ... Each $24.95

Universal BRAKE LIGHT *Adjusts to any angle!*

Pivoting lens can be positioned for maximum visibility. Mounts anywhere with doubled-faced adhesive tape (included). Connects easily to brake lights in trunk ... built-in logic circuit discriminates between brake lights and turn signals. Lightweight, durable high-impact plastic housing measures 6-1/4" wide, 2" high, 1-3/4" deep.
81—1898Y— Each ... $9.95

BACK-UP ALARMS for 12V Vehicles with Back-up Lights

[A] Audible/visual alarm — [B] Audible alarm

Help prevent accidents! Both alarms automatically sound loud, intermittent beep when vehicle is shifted into reverse—warn children and pedestrians of impending danger. Durable, vibration-proof, weatherproof. Easy to install. With instructions.

[A] **Audible/Visual Alarm.** Warning light flashes in conjunction with audible alert. Installs on rear of vehicle.
12—3837Y— ... Each $12.98

[B] **Audible Alarm only.** Installs in trunk or under rear of vehicle.
17—9168X— ... Each $9.98

Low-profile • Streamlined TURN SIGNAL INDICATORS & Rear Deck WARNING LIGHTS

Choice of chrome or gold-plated housing

Turn Signal Indicators — Rear Deck Warning Lights

- Provide additional warning to drivers in the rear that you are turning or braking

Tough polystyrene housing is 4" L x 1-3/8" W x 11/16" H. 3-section lens. With replaceable bulbs, sockets, 4-ft. lead wire, quick-connect terminals, gasket and hardware. Drilling required. For 12-volt negative-ground systems.

Turn Signal Indicators. Mount on front fenders and flash with turn signals. Bright amber light is easily visible to you (to warn when turn signals have been left on) and to drivers in your blind spot (to signal when you are turning or changing lanes). Also connect to parking lights for use as a fender guide.
14—8718T—Chrome plated ... 1-Pair $9.98
14—8719A—Gold plated ... 1-Pair 11.98

Rear Deck Warning Lights. Goverment tests indicate that auxiliary warning lights help reduce rear-end collisions. Mount on rear deck lid or fenders and light up with turn signals and brake lights.
14—8720R—Chrome plated ... 1-Pair $9.98
14—8721X—Gold plated ... 1-Pair 11.98

BACK-UP/TURNING ALARM

chirp-chirp

- Wire to turn signals and back-up lights
- Produces loud, continuous chirping sound

Impact-resistant, black plastic case with chrome-plated front cover. Transistorized solid-state circuitry. Includes adjustable bracket, wiring, instructions. For all 12-volt systems.
88—7401Y— ... Each $9.95

BRAKE LIGHT FLASHER *Improves brake light visibility!*

- Pulses brake lights for 2 seconds when you apply brakes, then returns them to constant red
- Attracts attention of following drivers ... reduces chance of rear-end collisions

Ideal for cars, trucks, snowmobiles ... especially motorcycles! Installs easily between brake switch and brake light wiring. Includes wiring, mounting tape, instructions. Only 2" x 2" x 3" long. Operates on any 12-volt system.
81—0715N— ... Each $14.95

12V Powerful Flashing STROBE BRAKE LIGHT

- Helps prevent rear-end collisions
- Can be seen for nearly a mile

Red light activates instantly when brakes are applied ... flashes at rate of 120 times per minute. Easy 2-wire hookup to brake light switch under dash. Mounts under bumper or frame with metal bracket (included). Waterproof black plastic housing. Low 0.4A electricity consumption—same as car radio. 3" wide x 3-1/2" deep x 1-7/8" high overall. With instructions. For 12-volt neg. ground systems. Note: For use only as auxiliary brake light with vehicle's existing brake lights.
81—1501Y— ... Each $14.95

Eye-level-mount Auxiliary BRAKE LIGHTS

Make sure drivers following you know when you're braking. Easy-to-see lights mount securely in rear window with suction cups—no screws, brackets required. Lights are shielded to prevent reflections off rear window. 5-3/4" x 4-1/2" high x 2-1/4" deep. Includes bulbs, wire, instructions.
81—0775R— 1-Pair ... $12.88

Rear Collision Avoidance BRAKE LIGHT for American & Imported Sedans, Hatchbacks and Station Wagons

Helps stop accidents before they happen!

- Government tests prove this light dramatically reduces rear-end collisions
- Lights up ONLY when you apply your brakes
- Mounts on trunk lid at eye level so drivers behind you INSTANTLY see you are stopping

Connects easily to brake wires in trunk. Black high-impact polycarbonate plastic housing can be painted. Size of sedan unit: 1-3/4"H x 7-5/8"W x 3-3/4"D; hatchback unit: 1-3/4"H x 7-5/8"W x 2-3/4"D; station wagon unit: 1-3/4"H x 7-5/8"W x 2-1/2"D. Installation of this unit may qualify you for an insurance discount.
14—7775U—Sedans
14—7776B—Hatchbacks
14—7777P—Station Wagon ... Each $14.95

Replacement Element for above.
12—2901T— ... Each $1.99

Use your OEM front & rear turn signals as blinking Emergency Warning Flashers

Heavy-duty control mounts easily under dash. On/off switch light blinks when flashers are on. With fuse, wiring harness, hardware and instructions. For all 12-volt systems.
81—1359A— ... 1-Kit $9.95

Auxiliary BRAKE LIGHTS

Mount Eye-level in Rear Window

- Increases safety...less chance of rear end collisions

Following vehicles see your brake signal easily, allowing longer reaction time. Black plastic. Adjustable bracket mounts to rear deck using screws included. Each light: 3-1/2" wide, 2" deep, 6" high. With 2 lights, wiring kit, instructions.
15—9261B— 1-Kit $17.95

BRAKE LIGHT MONITOR for 2 or 4-light Systems

Avoid rear end collisions or costly tickets due to faulty brake lights! LED indicators automatically show if brake lights are functioning when brakes are applied. Approx. 2-1/4" wide, 1-3/8" high, 1" deep. Mounts easily almost anywhere inside vehicle.
12—3838W—For 2-light systems ... Each $5.95
12—3839U—For 4-light systems ... Each 5.95

Directional Signal Switches with Hazard Warning

Completely assembled, ready to install. Fit any size steering column. **Manually - operated switch.** Lever must be returned to neutral by hand. Green pilot lights for turns, red for hazard warning.

Directional Signals with 4-Wire Turn Signal Systems.
42—1191W—6-volt
42—1192U—12-volt ... Each $24.95

Directional Signals with 7 Wires for Combination Stop, Tail and Turn Signal Systems.
42—1197T—6-volt
42—1198A—12-volt ... Each $29.95

Extra-heavy-duty REPLACEMENT FLASHERS

- Better than original equipment
- Handles multiple warning lamps, lights; up to 5 turn signals, 8 hazard lamps

Electro-mechanical flashers deliver constant, controlled timing of flashes under all conditions. Longer lasting, more reliable, use only 1/50 of the power used by thermal flashers. For all cars, trucks, buses, RVs. 12 volt.
75—4534U—2-prong type ... Each $8.98
75—4535A—3-prong type ... Each 9.98

Standard-duty Replacement Flashers. Replaces weak or burned-out flashers.
42—1195X—2-prong, 12 volt ... Each $1.39
42—1199R—3-prong, 12 volt ... Each 1.49
42—1194P—2-prong, 6 volt ... Each 2.49

Thunderbird-style Turn Signal INDICATOR LIGHTS for ALL Vehicles

- Remind you to turn off signal after lane change
- Alert drivers alongside that you are signaling

Mount on front fenders, flash with your turn signals. Illuminated amber lenses face driver. Can be illuminated fender guides by connecting to parking lights instead of turn signals. Chromed. 4" long x 1-1/4" high. 4-ft. lead wiring, studs, instructions.
75—2896R—6 volt
75—2897X—12 volt ... 1-Pair $9.98

Convert your high-beam headlights into emergency alternating flashers!

HI-BEAM FLASHER OFF ON

Easy-to-install kit lets you use your high-beams (or warning lights) as attention-getting alternating flashers similar to those on police, fire, rescue and other emergency vehicles. Handles up to 12 amps total (6 amps per side). Solid-state circuitry maintains constant flash pattern. Includes flasher, terminals, wiring, switch, instructions. For all 12-volt systems.
14—9546X— ... 1-Kit $39.95

55-watt Quartz-Halogen FOG & DRIVING LIGHTS with Built-in High-intensity PARKING LIGHT

Lens Cover — TURBO — Dust Boot

FOG LIGHTS — Improve front, side vision thru fog, rain, snow

DRIVING LIGHTS — Shine far ahead of standard high-beams

- Assure safer highway or bad-weather driving
- Built-in parking lights provide extra illumination for safer driving in the city
- Sleek black impact-resistant plastic housing is only 7-1/2" wide, 2-1/2" high, 2-1/4" deep
- Black impact-resistant plastic cover (with bold "TURBO" lettering) protects lens

Mount easily on or under bumper. Adjustable bracket for variable mounting positions. Black rubber boot covers bracket. Replaceable quartz-halogen bulb illuminates better, lasts longer than conventional sealed beams. Includes 2 lights with covers, toggle switch, wiring, hardware, instructions. For all 12-volt systems.

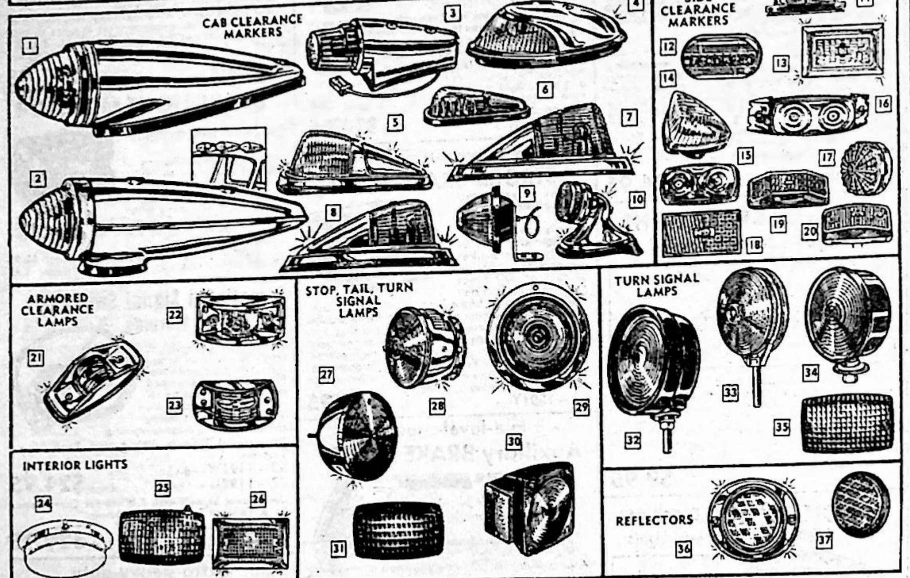

Fog Light Kit. Amber glass lenses.
81—1759B— ... 1-Kit $34.95

Driving Light Kit. Clear glass lenses.
81—1760P— ... 1-Kit $34.95

Replacement Quartz-Halogen Bulb. 12-volt
88—6043R— ... Each $3.98

Super-powerful...Magnetic-mount Quartz-Halogen WARNING LIGHT with ROTATING REFLECTOR

[R]eflector produces 90 flashes per minute... [ro]tates 360°
[Q]uartz-halogen bulb delivers an incredible [10]0,000 candle power
[P]owerful magnets let you mount light securely anywhere on your vehicle
[On]e of the brightest, most powerful revolving [lam]ps you can buy! Ideal for police and fire ve[hic]les, highway trucks or any emergency vehicle [th]at must be seen clearly and at long distances. [Sle]ek, low-profile teardrop design minimizes wind [re]sistance. Extra-strong magnets mean light stays [on] even at high speeds. Designed also for per[ma]nent installation. 10-ft. cord with cigarette [lig]hter plug permits use at back window or on rear [of] vehicle. When unit is mounted on dash, slip-on [co]ver shields vehicle occupants from flashes. [Pe]rmanently-lubricated motor for long, quiet op[era]tion. Shatter-resistant dome and highly [pol]ished nickel-plated aluminum reflector. Works [in] extreme temperatures. Easy to relamp.

Size: 7-7/8" L x 5-1/2" W x 5" H. For 12-volt DC systems. Choice of 3 dome colors.

Bracket for reflectors at left. Lets you mount reflectors anywhere in vehicle. Zinc-plated steel.
12—3501P— ... Each $8.95

Decorative STRIP LIGHTS for All Vehicles

• **All-weather decorative/safety lighting adds custom styling to cars, trucks, vans, cycles, boats**
Easy-to-attach flexible or rigid light strips let you add new beauty and individuality to your vehicle, while you make it safer for night and bad weather driving. Strip lights operate on 12-volt AC or DC current. Long-lasting, non-replaceable bulbs will last for approximately 15,000 hours, or about 6 years of normal driving. Low current drain (.03 amps per light) lets you operate 30 strip lights with the same power required for only one regular side marker. Easily connects to existing light switch or use with an auxiliary switch (not included).

Rigid Strip Lights. Mount on flat or slightly curved surfaces. Light strip with aluminum channel hardware. 3" and 6" strips sold in PAIRS ... all other strips sold in EACHES

Halogen & Sealed Beam SPOTLIGHTS

Custom Fit for ALL 29-85 6 and 12-volt American and Imported Cars, Vans, Pickups, Trucks & Big Rigs

- **The same spotlights used nationwide on police cars, ambulances, fire trucks and other emergency and delivery vehicles!**
- **All exposed brass and cast zinc parts are copper-nickel-chrome plated for beauty, rust resistance**
- **Available for driver's & passenger's sides**

Spotlight mounts through the windshield pillar on cars, vans, pickups, trucks or through the upper side of cab on big rigs. **Fully operational from inside!** Pistol-grip handle lets you rotate light a full 360° horizontally and 120° vertically to put the light exactly where you want it. On/off switch on handle. Available with standard sealed beam bulb or halogen bulb. Halogen bulb is twice as bright as sealed beam—see chart at right. Complete with spotlight, bulb, inner and outer mounting brackets, locating templates, hardware and easy instructions. Installation requires drilling 1/2" diam. hole through windshield pillar.

Size	Bulb	Candlepower
6"	Halogen	160,000
6"	Sealed Beam	75,000
5"	Halogen	100,000
5"	Sealed Beam	50,000

For ALL 79-85 12-volt vehicles made by manufacturers below

American Motors, Autocar, Buick, Cadillac, Checker, Chevrolet, Chrysler, Datsun, Dodge, Ford, Freightliner, GMC, International Harvester, Kenworth, Lincoln, Mercury, Mack, Mazda, Oldsmobile, Peterbilt, Plymouth, Pontiac, Renault, Subaru, Toyota, Volkswagen, Volvo, Volvo White, Western Star

Rechargeable CAR SPOTLIGHT

- **Cordless spotlight goes anywhere—no wires to get in the way**
- **Pivoting magnetic base adheres to any metal surface . . . frees your hands for work**
- **Storage bracket wires into your 12-volt system . . . spotlight inserts into bracket for recharging when not in use**

Unlimited uses for the nighttime traveler! Use as a hand-held spotlight for reading addresses or street signs. Attach to the side of your car when changing a tire. Stick under your hood when making engine repairs. Use as an auxiliary interior light for reading. Can be switched to flasher mode to provide emergency warning (red and white bulbs included). Magnetic base pivots to allow easy positioning of beam. Storage/recharging bracket mounts anywhere in vehicle—won't drain battery, can't overcharge spotlight. With hardware, instructions.
81—1896B— . . . Each **$14.95**

World's Most Powerful Portable! QUARTZ-IODINE HAND SPOTLIGHT

- For brighter than sealed beams
- Plug into 12-volt cigarette lighter
- Produce concentrated long-range beams of over 1 mile or over 3/4 mile
- Great for roadside emergencies, lighting campsites, rallies, trails, spotting addresses quickly at night

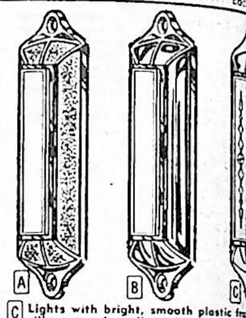

Trim, lightweight spotlights combine extra-powerful quartz-iodine bulbs and highly polished reflectors to produce extremely brilliant, long-range beams. H3 bulbs are much brighter than sealed beams, last 2-1/2 times longer. Reflectors are vented for proper cooling. Easy-to-handle pistol grip with thumb switch. Triple-chrome-plated housing resists salt water damage.

[A] **360,000 Candlepower Dual-element Spotlight.** Large 7-1/4" x 5-1/2" head features TWO **H3 bulbs** to produce a light that can be seen over a mile away! It's the world's most powerful portable. With 10-ft. recoiling cord, hanger [illegible]. Draws only 5 amps.
88—9237U— Each **$29**[illegible]

[B] **200,000 Candlepower Single-element light.** Delivers a beam more than 3/4 [illegible] away. 6" diam. head. With 15-ft. recoiling [illegible]. Draws less than 3 amps.
75—2893W— Each **$14**[illegible]

Replacement Element. Light [A] requires two.
88—6043R— . . . Each [illegible]

Classic-style OPERA LIGHTS

- **Similar to opera lights used as standard equipment on expensive luxury cars**
- **Available with chrome-plated or 14K gold-plated finish**
- **[A] & [B] available with choice of white, amber, blue or red translucent lenses**

Add elegance, functional lighting and a rich classic look. Easy to install inside or outside vehicle. 7" high x 1-3/4" wide x 3/4" deep. Includes 2 lights with replaceable bulbs, quick-connect electrical connectors, wiring, hardware, instructions. For all 12-volt negative-ground systems.

[A] **Lights with leather-grained, chrome-plated die-cast metal frame.**

1 or 2-tube FLUORESCENT LIGHTS for All 12-volt Vehicles

Bright yet soft lighting. Mounts horizontally or vertically anywhere. White base with white translucent pebble-grain cover to gently diffuse light. 15" x 2-1/2" x 1-1/2" high. Wires into 12-volt battery system or hooks directly to 12-volt battery.
Single-tube Light. On-off switch. One 8-watt [illegible] included.
81—0318Y— . . . Each **$11.**[illegible]
Double-tube Light. 3-way switch lets you turn one or both tubes on or off. Two 8-watt bulbs included.
81—0319W— . . . Each **$13.**[illegible]

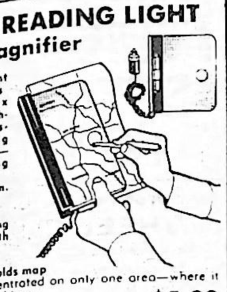

Door-mount • Combination COURTESY LIGHTS/REFLECTORS for all Vehicles

- **Light works in conjunction with interior lights, goes on when door is opened for safer exit and entry**
- **Red reflector warns traffic that door is open**

Luxury car styling, convenience! Slim 9-1/4" wide x 1-5/8" high chromed plastic bezel extends 1/2", requires only 1-1/4" clearance behind door panel to install. Light and reflector each measure 3-1/4" wide x 3/4" high. Pre-wired for easy installation. With bolts, replaceable automotive bulbs. For all 12-volt systems.
14—8185N— . . . 1-Pair **$12.95**

MAP READING LIGHT with Magnifier

- **Built-in light illuminates the 4-3/4" x 8" clear high-impact plastic reading area only—no annoying glare**
- **1-1/4" diam. magnified area**
- **4-1/2 ft. long coil cord with cigarette lighter plug**
- **Metal clip holds map**

Light is concentrated on only one area—where it won't disturb driver.
81—1861W— . . . Each **$5.99**

DASH INDICATOR LIGHTS with Legends in Color

- **Customizes dash**
- **Easy to read day and night**
- **Light measures only 5/8" x 1-1/4"**

Easy to install

Indicates warning or "in operation". Easy to install . . . some drilling necessary. (Wiring not incl.—see Index.) Pressure-fit mounting won't twist or turn. Black plastic housing w/male blade connectors, replaceable bulb. For all 12-volt systems. ♦ Indicates symbol only—no lettering.

4-lug to 5-lug WHEEL ADAPTERS for 60-75 Maverick, Mustang, Comet & Falcon 6-cyl.

- **Adapts your 4-lug hubs to 5-lug 4-1/2" bolt circle wheels**

Allows use of 14" or 15" steel, mag or chromed reverse wheels. Heat-treated aluminum alloy with precision-ground smooth finish. Easy to install—no special tools needed. Allows installation of 5-lug 4-1/2" bolt circle wheels from American Motors, Chrysler, Dodge, Ford, Lincoln, Mercury & Plymouth vehicles on the 4-lug hubs of these 6-cylinder cars: 60-70 Ford Falcon, 70-75 Ford Maverick, 64-73 Ford Mustang, 60-75 Mercury Comet. To determine if your wheel has 4-1/2" bolt circle, **measure the 5-lug wheel to be mounted from the center of one bolt hole to the center of the next bolt hole (see A at right).** If A=2-9/16", the actual wheel bolt circle is 4-1/2". Any other measurement indicates that the wheel will not fit on these adapters. **Note:** When using wider wheels and tires, allow 7/8" for adapter width plus the height and width of tires to assure proper fender clearance. Order additional lug nuts below.
12—2865P— 1-Pair . . . **$23.95**
Chromed Acorn-style Lug Nuts for above adapters.
12—9999P— . . . 1-Set of 5 **$3.49**

ELECTRONIC Curb Feelers for All Cars & Trucks

- **Dash-mounted buzzer warns when feeler touches curb**
- **Lets you park with stereo on and/or windows closed**

Prevent damage to car's finish, tires, wheel covers, flares . . . protect front end alignments. 17-3/4" long feelers adjust to correct height and length. Easy to install—no special tools required. Includes hardware. For all 12-volt systems.
14—9330W— . . . 1-Pair **$10.95**

WHEEL ADAPTERS for 37-70 Chevrolet & GMC Pickups & 37-48 Chevrolet Pass. Cars with 6-lug Hubs

- **Adapts your 6-lug hubs to 5-lug wheels**
- **Lets you use 15" steel, mag or chromed reverse 5-lug wheels**

Heat-treated, precision-ground steel adapters are easy to install—no special tools needed. Lug nuts included. Available for wheels with 4-1/2" and 4-3/4" wheel bolt circle. To determine size of your wheel's bolt circle, measure the wheel to be mounted from center of one bolt hole to center of next bolt hole (see A at right). If A=2-9/16", your wheel bolt circle is 4-1/2"; if A=2-3/4", your wheel bolt circle is 4-3/4". **Note:** When using wider wheels and tires, allow 1" for adapter width plus the height and width of tires to assure proper fender clearance.

Adapters to fit 15" wheels with 5-lug 4-1/2" bolt circle onto 6-lug hubs. Allow installation of wheels from American Motors, Chrysler, Dodge, Ford, Lincoln, Mercury, Plym. vehicles.
81—1733X— . . . 1-Pair **$29.95**
Adapters to fit 15" wheels with 5-lug 4-3/4" bolt circle onto 6-lug hubs. Allows installation of wheels from Buick, Chevrolet, Oldsmobile and Pontiac vehicles.
81—1734N— . . . 1-Pair **$29.95**

WHEEL ADAPTERS for American Cars with 5-lug Hubs

- **Let you mount wheels from another vehicle onto your car**

Keep your mounted snow tires or custom wheels when you change cars. Precision die-cast aluminum alloy adapters with heat-treated studs. Mount on car's hubs using existing lug nuts . . . install with lug wrench. All adapters fitted with 1/2" right-hand studs except those with ■ which have 7/16" right-hand studs. Order additional lug nuts below. **For passenger cars only;** not for station wagons, vans, pickups, competition or off-road vehicles.

HOW TO ORDER. Measure **BOTH** the **wheel** to be mounted and the **car hub** it will be mounted on. **WHEELS:** Measure across center of one bolt hole to center of next bolt hole (see A in diagram at right). To determine **wheel's bolt circle:** A=2-9/16", circle is 4-1/2"; A=2-3/4", circle is 4-3/4"; A=2-15/16", circle is 5"; A=3-3/16", circle is 5-1/2".
CAR HUB: Measure across center of one lug to center of next lug (see A above). To determine **car hub's bolt circle:** A=2-9/16", circle is 4-1/2"; A=2-3/4", circle is 4-3/4", A=2-15/16", circle is 5"; A=3-3/16", circle is 5-1/2".
Note: When using wider wheels and tires, allow 1" for adapter width plus the height and width of tires to assure proper fender clearance.

Adapts this 5-lug WHEEL BOLT CIRCLE	TO THIS 5-lug CAR HUB BOLT CIRCLE	Stk. No.

55—3650T— . . . . 1-Set of 4 $159.95

72-spoke • Chrome-plated Steel Locking WIRE SPOKE WHEEL COVERS

- For 13", 14" and 15" wheels
- 72 chrome-plated spokes are arranged in an OEM-style, double-tiered cross-wire pattern
- Bolt-to-wheel locking system and full-circumference fasteners prevent theft or fly-offs

Flat black backing plate contrasts beautifully with chromed spokes, has slots to allow proper brake cooling. Double-tiered design and center hex nut give the appearance of a genuine wire wheel. Not for front wheel drive vehicles.

Double-tiered design

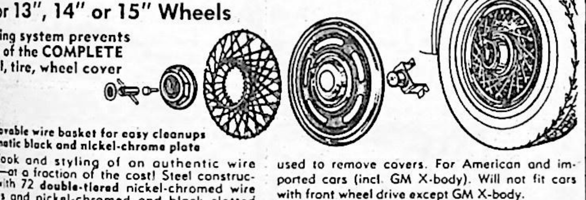

Removable basket for easy cleanups

81—9282X—For 13" wheels
81—9283N—For 14" wheels 1-Set of 4
81—9284T—For 15" wheels $99.95

Wheel Covers like above, but without locking system.
81—9279T—For 13" wheels
81—9280A—For 14" wheels 1-Set of 4
81—9281R—For 15" wheels $89.95

Locking WIRE SPOKE WHEEL COVERS
for 13", 14" or 15" Wheels

Locking system prevents theft of the COMPLETE wheel, tire, wheel cover

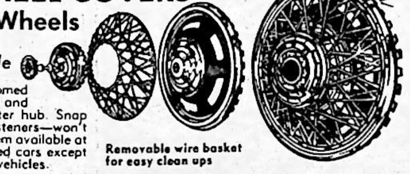

- Removable wire basket for easy cleanups
- Dramatic black and nickel-chrome plate

The look and styling of an authentic wire wheel—at a fraction of the cost! Steel construction with 72 double-tiered nickel-chromed wire spokes and nickel-chromed and black slotted back cover. Bold crest highlights hub center. Snap securely to wheel with sure-grip fasteners. Lock is concealed by a top cap. Key, included, must be used to remove covers. For American and imported cars (incl. GM X-body). Will not fit cars with front wheel drive except GM X-body.

18—2979T—13" | 18—2978N—15"
18—2977X—14"
1-Set of 4 . . . . $89.99

Wire Spoke WHEEL COVERS
for 13", 14" & 15" Wheels

Original Equipment Style

Sixty-four double-tiered nickel-chromed wire spokes with nickel-chromed and black slotted back cover. 5" center hub. Snap securely to wheel with sure-grip fasteners—won't slip, squeak. (Optional locking system available at right). Fit all American and imported cars except front wheel drives and Volkswagen vehicles.

Chrome-plated OVER-CAB CAMPER MIRROR

Enjoy full, wide rear vision for safer driving. Large 5-1/2" x 8-1/2" mirror mounts easily on front overhang of pickup campers. 3-point brackets for vibration-free mounting. Chrome-plated mirror head and 3/4" tubular brackets. Brackets swing in or out for side clearance. Mounts on driver or passenger side. With mounting hardware, instructions.

88—9411N— . . . . Each $9.95

Aerodynamically-designed Truck and Van MIRRORS

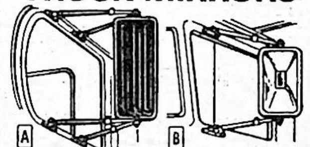

- Available with chrome-plated, white or black head

Secure 2-point below-eye-level mounting for unobstructed forward vision. Bottom swivel allows head to rotate 180° for perfect visibility on right or left side. Head pivots out of the way on impact to lessen or prevent damage. Wide-view low-mount design provides mirror surface 6-1/2" across at top, 9-1/2" across at bottom for more road-level vision. Rustproof solid bar aluminum arm. Chrome-plated mounting brackets included. Black and white heads may be painted to match vehicle. Fit right or left side.

15—9802T—Chrome-plated head Ea. $13.95
15—9803A—Satin black head . . Ea. 12.95
15—9801N—White enamel head Ea. 12.95

Chrome-plated Replacement Head for above. 5/16" x 1" long mounting stud allows use on most mirror brackets.
12—3106Y— . . . . Each $8.95

WEST COAST TRUCK MIRRORS

Lifetime construction! Rustproof mirror head has no screws or rivets. Heavy-gauge seamless steel tubing extension arms are reinforced at all stress points. All steel parts are rustproof bonderized. Easy to install on left or right side.

[A] West Coast Mirror for large trucks and tractors. 7" x 16" mirror head with 4 extension arms. Extends from 15" to 24" to fit cabs pulling new longer and wider trailers. Long-lasting baked enamel finish.
15—3980T— . . . . . . Each $14.98

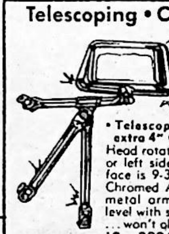

Ribbed, Heavy-duty Steel Replacement Head for above. With 1/2" mounting studs.
12—3338X— . . . . . . Each $9.98

[B] Jr. West Coast Mirrors for small trucks. 7" x 12" mirror head with 2 extension arms. Extends from 10" to 14". Choice of baked enamel finish or anodized aluminum.

Baked Enamel Mirror Head & zinc-plated mounting arms.
15—3981A— . . . . . . Each $8.98

Anodized Aluminum Mirror Head and chrome-plated mounting arms.
15—3982R— . . . . . . Each $9.98

Telescoping • Chrome-plated TRUCK & CAMPER MIRROR

- Telescopic arm can extend an extra 4" for wider rear viewing

Head rotates 180° for use on right or left side. Flat glass mirror surface is 9-3/8" x 5-7/8" at base. Chromed ABS head and chromed metal arms. Mounts below eye level with solid 3-point attachment . . . won't obstruct forward view.

12—3894R—
Each $16.95

Nickel-chrome-plated Wire-spoke WHEEL COVERS with Continental-style Spinners

- Contemporary cross-spoke styling at an affordable price!
- Brighten up any vehicle
- For 13", 14" & 15" wheels

Removable wire baskets for fast, easy clean ups

Thirty-six brilliant spokes highlighted against slotted flat black back plate. Careful detailing includes, simulated spoke-adjusting nuts, chromed ABS plastic knock-off style spinner and multi-color center emblem. Full-circumference no-throw grippers. Not for front-wheel-drive vehicles

81—9252P—For 13" wheels

81—9254W—For 15" wheels $59.95

Electric Remote-controlled TRUCK MIRRORS with BUILT-IN WASHER/WIPER & DEFROSTER

At pushbutton command from inside your truck, you can automatically:
(1) turn mirror up to 30° from side to side
(2) return mirror to original pre-set position
(3) activate wiper blade to clean mirror surface
(4) spray liquid detergent and activate wiper at the same time
(5) heat up the defroster strip to clear glass of frost, ice, etc.

Aerodynamically-designed black ABS plastic mirror mounts easily on existing vertical bracket support, complements any truck. Mirror glass is 7-1/2" wide, 12-1/2" high. Overall: 8-3/4" wide, 14-5/8" high, 7" deep. Hand-held or dash-mounted 2-1/2" x 5-1/2" x 1-3/4" deep remote unit has pushbutton controls for easiest, fastest, safest operation. Extra features: rugged built-in motor; mirror can be tilted manually up or down 10° thru internal adjustment; blade operates at 60 wipes per minute, returns to horizontal position when "on" button is released; built-in detergent reservoir; separate defroster "off" button. Includes pair of replacement wiper blades, remote control mounting bracket, mounting hardware, wiring, instructions. For all 12-volt systems.

12—4027N—
1-Pair $449.95

Sleek European-style SWING-AWAY MIRROR

- Swivels between head and base to swing away on impact . . . prevents damage

Large 3-3/4" x 6" distortion-free, glare-free flat glass. High-impact polypropylene housing with paintable black finish. Base fits contours of any car. Adjusts vertically and horizontally, mounts on right or left side. With gaskets, hardware

WIDE ANGLE DASH MIRROR
Helps eliminate blind spots

Mounts easily on dashboard with pressure-sensitive tape (included). 2-3/16" high x 5-1/4" wide convex mirror head with black ABS plastic housing and base. Approx. 3-1/2" high overall. Ball joint lets you fold down mirror for storage when not in use.
12—4021Y— Each $4.95

Sports Car WIDE OVAL MIRRORS
WITH READY-TO-PAINT PRIMED PLASTIC BODY

Also available with all chromed finish

Match your mirrors to your car color! Mirrors have spray paintable finish. Mirror size: 3-3/4" x 5-1/4" x 6" high overall. Adjustable heads. Easy to install—no new holes to drill. Sold in pairs for left and right sides.
11—2649N— 1-Pair $11.95

Deluxe All Chromed Mirror (not shown).
14—3123A— 1-Pair $14.95

Dual-head MIRROR
for Vans, Pickups, Trucks and RVs

- Polished stainless steel brackets and mirror heads

Two independently-mounted steel mirror heads (one 9-1/2" x 6-1/2" flat, one 6-1/2" x 4" convex) offer unequaled rear viewing by eliminating blind spots. Mirrors are mounted in soft rubber channels for a vibration-free fit. Mounts up ball mount lets you adjust each head to any position. Bracket extends 15" from vehicle, has supporting crossbar for secure mounting. Hardware included. 1 pair consists of entire assemblies for right and left side.
14—3500P— 1-Pair $49.95

Replacement MIRROR HEADS and Heated MIRROR HEADS
for West Coast, Jr. West Coast and Ball & Screw Adjustable Mirrors

- Tough, weather-resistant anodized aluminum construction with attractive satin finish
- Mount on existing mirror brackets—no need to remove brackets or drill more holes

Mirror glass cushioned in rugged vinyl channels to resist vibration. Rain and corrosion-resistant housing. All necessary mounting studs and nuts included. Note: Mirror heads may not exactly match your original mirrors. To assure uniformity of style on both driver's and passenger's sides, it's recommended to replace both mirror heads.

(A) West Coast Replacement Head. 16" high, 6-3/8" wide, 1-1/4" mounting studs. Stud measure 18-1/2" tip to tip.
15—9994Y— Each $6.95

(B) West Coast Replacement Head with Convex Bottom. Eliminates blind spots. Same dimensions as above.
14—5229U— Each $12.95

(C) Jr. West Coast Replacement Head. 10" high, 6-1/2" wide, 1-1/4" mounting studs. Studs measure 12" tip to tip.
15—9995N— Each $6.95

(D) Ball and Screw Replacement Head. Popular size 5-1/2" x 7-1/2". Size fits existing brackets requiring swivel-ball type mounting. Includes 1/4" stud and ball.
15—9996T— Each $6.95

(E) 8" Diameter Panoramic Dome Mirror. Provides full 180° field of vision. Swivel-ball adjustment with 3/8" threaded stud.
14—9574R— Each $14.95

Heated Replacement Mirror Heads (not shown). Built-in full surface electric heating element ... rocker switch, 12-volt systems.
Heated West Coast Head.
14—5226P— Each $24.95

Jr. West Coast Style REAR VIEW MIRROR
for Campers, Vans, Wagons and Trucks

Stainless steel 5" x 10" mirror head swivels full 360°. Compression fittings assure tight, vibration-free installation. Chrome-plated arms extend 10" to 15" horizontally and 14" to 29" vertically. Brackets telescope for trouble-free clearance in tight areas. Complete with all mounting hardware for easy installation.
88—9410X— Each $14.95

Keep your West Coast mirrors clean and dry!

Stainless steel wind deflectors mount easily to tops of mirrors, dramatically reduce the amount of road debris that will adhere to mirror surface. 6" wide x 3-5/8" deep. With mounting brackets.
12—3573R— 1-Pair $16.95

OEM Style • Pillar-mount Outside REAR VIEW MIRRORS

Fully adjustable ... clamps securely to window pillar of any car. Flexible black rubber boot hides clamps and ball adjustments. High-impact ABS plastic housing with paintable matte black finish. Distortion and glare-free front surface glass. Passenger's side mirror is slightly convexed to eliminate blind spot. 8-1/2" long, 4-3/4" high, 1-1/2" wide overall.
14—9303T—Driver's side Each
14—9304A—Passenger's side $9.95

SPLIT IMAGE SPORT MIRROR

- Large flat mirror (4-1/8" x 3-1/2") provides normal rear viewing
- Small angled mirror (1-3/4" x 3-1/2") lets you see blind spot

Base, head rotate and pivot to permit mounting on left or right side. Non-glare glass. Matte black ABS plastic housing. Includes gasket, hardware, instructions.

HOOD & IGNITION LOCK SYSTEM for All Cars

Protect your valuable auto investment!

Foolproof—locks both the hood and ignition system for double-barreled protection!

LOCKS HOOD POSITIVELY. It takes a cutting torch to get at the locking mechanism—a chain cutter to cut through the cable. And still hood will not release!
SHORTS OUT IGNITION SYSTEM. Stays shorted out even if wires are cut. Cannot be "hot wired"!
EASY TO LOCK. Simple pushbutton engages a foolproof lock system. Unlocks with keys supplied. Thousands of key combinations prevent thieves from unlocking this system.
EASY TO INSTALL. Anyone can install this system with a small drill and screwdriver. Hardware included. **There is nothing else like this lock system on the market at any price!**
75—2962R— .... Each $14.95

Dash-controlled HOOD LOCK

INSIDE CONTROL

Tamper-proof ... fool-proof ... no keys needed Locks and unlocks hood from inside of car. Easily installed. With inner control cable, knob, dash mounting bracket, cable clips, instructions. For the following cars.

1961 Buick	63-67 Ford	62-66 Rambler exc. Classic
1964 Cadillac	63-67 Mercury	63-67 Tempest
1968 Camaro	64-65 Mustang	1964 T'bird

DRIP WELL MOULDING for Cars without Drip Rails

- Prevents water from entering vehicle

Durable, rustproof vinyl extrusion with attractive chromed exterior finish. Flexible—conforms to body contours. Installs instantly with self-stick backing. Kit Includes two 90" long pieces.

18—8776X—
1-Pair $12.99

MOULDING & EMBLEM TAPE with Extra-strong Acrylic Adhesive

Great for installing metal moulding, nameplates and emblems without drilling ... prevents future rust. Reinstalls loose vinyl side moulding, eliminates replacing impossible-to-find moulding clips. Waterproof, cross-linked, closed-cell polyethylene with super-strong acrylic adhesive. Can be applied in temperatures as low as 45°F...holds tight from −20° to +150°F. 72-yard roll.

12—3704P—1/2" wide 1-Roll $12.99
12—3705X—1" wide 1-Roll 25.99

Reflective BUMPER IMPACT MOULDING

- Adds a layer of protection to bumpers, makes rear of vehicle more visible

Flexible, textured PVC extrusion is 9 ft. long, 1-7/8" wide, 5/16" thick. 5/8" wide red insert with clear vinyl overlay adds reflective appearance. Self-adhesive aluminum backing. Cuts easily to fit your vehicle. Conforms to wraparound bumpers.

12—3285P— ..... Each $12.99

WHEEL ARCH and BODY SIDE MOULDING for All Cars and Trucks

Flexible—fits any contour. Durable vinyl with self-stick backing for easy, secure application. 3/8" wide. Kit includes 20-ft. strip (enough for 4 wheel wells) and instructions.

15—9867W—Chrome | 15—9868U—Gold
15—9869B—Black 1-Kit $9.49

FENDER WELL MOULDING for All American & Imported Cars

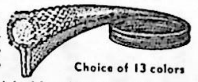

Flexible chrome-like plastic moulding protects fenders from nicks and chipping—prevents rust and expensive repainting. Attractive looking, weather and tarnish proof. Self-adhesive, easy to install. Pkg. contains 10 ft. of moulding, enough to cover 2 fender wells on any car.

15—2665A— 1-Pkg. $6.49

DO-IT-YOURSELF & SAVE

Cloth-covered WINDLACE

Choice of 13 colors

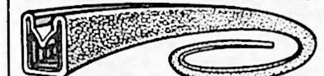

- Replaces worn or damaged windlace ... or can be used to trim door posts, etc.
- Same style as original found in many cars

Soft woven poly/cotton cover with flexible 1/2" diam. sponge rubber core for easy, secure installation. 15-yard roll—enough coverage for any 2 or 4-door car.

12—3672R—Black | 12—3674N—Navy Blue

European-Look, Black BODY SIDE MOULDINGS

• High-style protection for your car! Thick, durable vinyl trim mouldings resist deterioration, protect your car from nicks and dents that mar the finish and allow rust and corrosion to start, and resale value. Cut to size for custom fit on any compact, sub-compact or full-size car. Self-adhesive backing for secure installation.

A Wide, smooth and solid body side moulding. 7/8" wide x 1/4" thick. Square ends.
14—5401R—Two 9-ft. lengths . 1-Kit $13.49
15—9981N—Two 13-ft. lengths . 1-Kit 17.49

B 1" wide body side moulding—with two 1/8" wide recessed silver-gray pinstripes, can be used as is or add your own pinstriping tape for a custom look (pinstripe tape not incl.). 3/8" thick.
14—5402X—Two 9-ft. lengths . 1-Kit $16.79
15—9982T—Two 13-ft. lengths . 1-Kit 19.98

C 3" wide rocker panel moulding. For the latest new car look. 5/16" thick. Features a wide 1/2" silver-gray recessed pinstripe area. Sporty just as it is—or add a coordinating pinstripe tape for a customized look (pinstripe tape not included). One 18-ft. section, easily cut to custom fit any car.
15—9983A— . 1-Kit $34.98

D 1/2" wide body side moulding. Half-round profile for trim, sleek appearance. 1/4" thick. Choose 16-ft. kit for compact cars, 26-ft. kit for intermediate and full-size models. To create a sportier look buy two kits of the same size and apply to your car 1/2" to 2" apart, leaving a strip of your car's natural finish showing between.
14—2223P—Two 8-ft. lengths . 1-Kit $10.98
14—2224Y—Two 13-ft. lengths . 1-Kit 15.98

E 5/8" wide body side moulding—with 2 finished ends per moulding.
14—7030U—Two 8-ft. lengths . 1-Kit $8.98
14—7031B—Two 13-ft. lengths . 1-Kit 12.98

F 7/8" wide body side moulding—with 2 finished ends per moulding.
14—7028Y—Two 8-ft. lengths . 1-Kit $9.98
14—7029W—Two 13-ft. lengths . 1-Kit 15.98

G 1-1/4" wide body side moulding—with 1 finished end per moulding.
14—7032P—Two 9-ft. lengths . 1-Kit $13.98
14—7033Y—Two 13-ft. lengths . 1-Kit 18.98

European-look • Low-profile BODY SIDE MOULDING

Laminated grained finish

Adhesive backing · Solid vinyl extrusion

• Only 1/4" thick . . . sleek, elegant, the newest look on today's cars and trucks
• Adhesive backing for easy, secure installation

Prevents nicks, dents and scratches . . . helps keep car's resale value high. Durable 1/2" wide vinyl moulding resists deterioration, has grained matte finish laminated for lasting good looks. RUBBER WEATHERSTRIPPING

Flexible, durable, easy to install. Replaces worn weatherstripping on roll-down rear quarter windows on early model cars and top bow weatherstripping on most Ford, Lincoln, Mercury and GM hardtops and convertibles. 18-ft. length. Note: not fabric covered.
18—4337B— . Each $13.98

OEM-STYLE SUNROOF with Removable Sun Shade

• Paintable ABS sun shade completely blocks sun to reduce unwanted heat . . . removes easily to let in light and fresh air
• Weathertight silicone sponge seal is impervious to smog, ultraviolet rays
• Single-handle latch for easy one-hand operation

Front edge of sunroof is curved to match curved roof at windshield. Low-profile black extruded aluminum frame with removable, smoke-tinted tempered safety glass (D.O.T. approved). All hardware stays on glass when glass is removed . . . no dangling pieces to lose. Measures 17" x 33"—fits all American & imported cars & pickups except Chevrolet Corvette, Fiat 131, Mazda Cosmos, Porsche Targa, pre-1978 Toyota Celica & Corolla Liftback, Volkswagen Beetle & Super Beetle, or any vehicle with roof ribs. Shipped UPS from factory. No C.O.D. orders. When Ordering, State Make, Year, Model & Stk. No.
78—4347YF— . Each $149.95

Trim-line SUNROOF

Narrow Style for Smaller Cars

• Tinted glass with ceramic dot matrix—reflects heat, diffuses light
• Spring-lock latch handle for improved security

Sunroof can be used 3 ways: completely closed, open 3" (for ventilation) or completely removed. D.O.T.-approved tempered safety glass is surrounded by a metal frame for greater strength. All hardware is attached to frame—eliminates loose or dangling pieces when glass is removed. Aluminum mounting frame (14" x 35") protrudes only 1/4" above roof line for OEM appearance. 6-1/2" wide single handle for easy one-hand operation. With instructions. For all American and imported cars & pickups except Chevrolet Corvette, Mazda Cosmos, Porsche Targa, pre-1978 Toyota Celica & Corolla Liftback, Volkswagen Beetle or vehicles with raised ribs on roof. Shipped UPS from factory. No C.O.D. orders. State Make, Year, Model & Stk. No.
78—4363NF— . Each $189.95

Steel Core WINDOW CHANNEL

UNBEADED FLEXIBLE CHANNEL (1–6) · UNBEADED RIGID (7–9) · BEADED FLEXIBLE CHANNEL (10–14) · BEADED RIGID CHANNEL (15–19)

1 - 19 Window Channel for use as division bar or channel. Duplicate of original. U shaped material guides glass. Seals out weather, eliminates window rattles and breakage, enables window regulators and lifts to function properly. Flexible steel core (perforated or corrugated) provides strength, forms easily and quickly for perfect fit to any contour—no pulling or stretching. Inside lining (wool, polypropylene pile, felt or special fabric) is tightly woven for maximum glass cushioning. All rubber covered except ♦ cloth covered, ■ uncovered. Rubber covering assures long-lasting protection against corrosion, noise, rattles. Colors won't fade. Available in unbeaded type (1 thru 9) or beaded type (10 thru 19). Stainless or galvanized steel bead provides extra trim, increases side wall rigidity.

C = Used as channel; D = Used as division; C/D = Used as channel or division; C/D▲ = Used as channel or division (for automotive, marine, aviation or general use or wherever a deluxe stainless steel channel is required)

All Rubber WINDOW CHANNEL

1 & 2 Unbeaded Channel with flocked or coated linings. Millions of fibers are electrostatically positioned and driven into polyurethane adhesive on a section made of live rubber and are then cured in place. The result: a channel with a soft, dense lining for greatest flexibility, low friction and long life. Duplicate of original. Type 1 channel will look slightly different from illustration; measure the dimension of your channel and order the correct stock number.

Save the cost of replacing chipped windshields with this

Do-it-yourself SAFETY GLASS REPAIR KIT

Repairs: Bullseyes · Chips — BEFORE · AFTER

• Amazing—glass will look like new!
• Visibility in repaired area is substantially restored!

Don't replace your entire windshield just because of a break, chip or star in the glass! And don't shell out big bucks to a garage or service station to fix the break. Repair the glass yourself. It's easier than you'd have ever thought possible with this handy kit. Kit includes a simplified vacuum pressure applicator that actually penetrates under the glass surface and fills the break cavity with a transparent resin cure that hardens and bonds chip crevices to prevent radial cracks. Tough, weather-resistant bond lasts for years. And the results are astounding! Glass looks like new and visibility in the repaired area is substantially restored. Complete with instructions.
15—7404P— . 1-Kit $9.95

Tint Windshields, Side and Rear Windows with

Spray-On Glass Tint Kit

Without Tinted Window · With Tinted Window

DON'T SQUINT—KEEP OUT HOT SUN RAYS!

Easy do-it-yourself kit keeps glare, hot sun from coming through windows. Keeps car 15° to 20° cooler inside, reduces load on air conditioner. Gives the appearance and comfort of expensive tinted windows, at small cost. Does not interfere with vision, but helps eliminate eye fatigue. Can be used in any climate. Easy to spray on, easy to remove, lasts for life of glass without discoloration or fading. Kit does all windows of any car or station wagon. Includes 14-oz. spray-on tint, masking tape, window cleaner and instructions. Specify stk. no. & color.

Aluminum AERO-LOUVER

Combines the advantages of a rear window louver with aerodynamic design of a rear air wing

Improves air flow to reduce aerodynamic lift

Protects interior from damaging sun rays and heat buildup, helps keep snow and frost off window, yet won't impair rear visibility. Upper louver slat (designed like air wings found on latest cars) helps air flow more easily over louver to reduce aerodynamic lift. Aircraft aluminum with electrostatic black satin finish. 2-pc. design for easy installation—no drilling. Tamper-proof locking system. Hinged to lift up for easy window cleanups. Fits cars with rear wipers ONLY where indicated.

Roll-up SUN SCREEN for Side Windows on All Vehicles

Aluminum roller clips on to headliner moulding or top of window glass. 15" wide x 20" high perforated vinyl shade rolls down easily and is held in place by suction cup. Blocks out sun's heat and glare yet won't impair vision. Shade rolls up when not in use. Tan outside/steel gray inside. Can be transferred from vehicle to vehicle.
14—8444W— .... Each $7.99

Automatic Electric-powered INTERIOR BLINDS for American & Imported Cars

- Automatically opens when ignition is turned on, closes 15 seconds after ignition is turned off
- Dashboard override switch lets you adjust blinds without stopping car

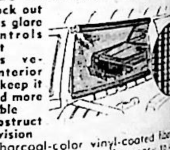

Black molded plastic ladder assemblies adapt to fit windows up to 25-1/2" high; can be shortened for smaller rear windows. Black enameled aluminum slats adjust to fit windows from 32" to 62" wide (windows over 45" wide require extension ladder kit—order below). Easy assembly and installation ... no drilling required. Entire unit unclips for cleaning. Kit includes 40 slats, 2 ladder assemblies, electronic open/close unit, toggle switch, hardware, instructions. 12V.
81—0698T— 1-Kit $69.99

Extension Ladder Assembly Kit. Needed to install kit above in cars with 45" to 62" wide windows.
81—0699A— 1-Kit $14.99

Insulating • Reflective ROLL-UP SUN SCREEN for side windows on all vehicles

- Helps block out dangerous glare and controls sun's heat
- Protects vehicle's interior ... helps keep it cooler and more comfortable
- Won't obstruct outward vision

Durable charcoal-color vinyl-coated fiberglass. Mounted on retractable roller, easy to install. Rolls up when not in use. 26" top to bottom. Mounts permanently with brackets and screws included.
14—5230B—18" wide .... Each [illegible]
14—5231P—20" wide .... Each [illegible]
14—5232Y—24" wide .... Each [illegible]
14—5233W—28" wide .... Each [illegible]

Clip-on Sun Screens install in seconds. Charcoal-color vinyl-coated fiberglass.
14—5234U—18" wide .... Each [illegible]
14—5235A—24" wide .... Each [illegible]

Suction Cup Sun Screen. Similar to above. Colored fiberglass. Attaches to window. x 18" long.
15—7722N— .... Each [illegible]

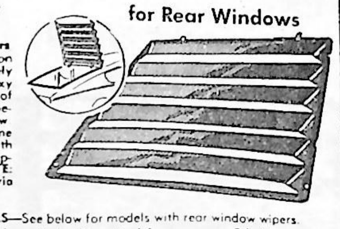

CUSTOMIZING SUNSHIELD KIT for Cars, Trucks, Vans

- Transparent shield reduces sun glare and eyestrain without interfering with driver's vision
- Contains complete alphabet with 48 letters and numerals
- Easily trimmed to fit all applications

Add a sporty look ... reduce sun glare. Apply pressure-sensitive kit in minutes. No special tools required. Big 2" letters and numbers let you create your name, car make, almost anything across top of windshield. Won't obstruct vision. With instructions.
15—6866A— .... 1-Kit $9[illegible]

Custom-fit ALUMINUM SUN SHIELDS for Rear Windows

- Hinged to lift easily for window cleaning
- Block sun's rays ... keep interior to 20% cooler
- Help prevent upholstery and carpeting fade
- Won't interfere with rear window visibility
- Available for vehicles with & without rear wipers

A cooler car means more comfort, less strain on air conditioner. Tough aluminum, completely weather-proofed with powdered black epoxy finish. Looks good even after many seasons of harsh weather. Easy to install—no drilling or special tools. Custom-fit for cars listed below. These shields are not lift-up type: they come unassembled and must be assembled on car, with each shade attached to center bracket and slipped under window moulding. Instructions. **NOTE: Stk. nos. ending in "E" shpd. freight PREPAID via truck. PRICE INCLUDES SHPG. CHARGES.**

Colorful, Custom-designed SUNSHIELDS for Cars, Trucks, Vans, RVs

Customize or personalize your car, truck or van with your vehicle's name or a favorite slogan! Lettering is silk screened in multi-colored or bold white letters. Sunshields cut down on glare and eyestrain without impairing your vision. Just trim to fit and apply—no adhesives or special tools required. Can be removed and reapplied when cleaning windows. 4" high. Instructions included. For the following vehicles—names listed below only.

When Ordering, State Model Name or Slogan Desired and Stock Number above.
Multi-colored .... Each $6.95
Bold White .... Each 4.99

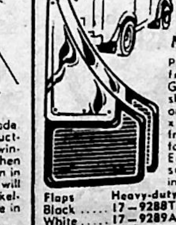

SIDE WINDOW SUN SHADE

Rolls up and down like a home window shade. Reduces solar heat and glare ... without obstructing vision. Easily hooks to top of either side window—no drilling. Rolls neatly out of the way when not in use. Suction cup holds shade down when in use. 3-1/2 mil transparent polyester sheeting will not tear or burn. Will not mar car finish. Nickel-plated hardware. 20" top to bottom. Available in two widths.
15—4653N—17" wide .... Each $7.50
12—4558R—13" wide .... Each 6.99

Economy Sun Shades. Same features as above. Attach to window with 2 suction cups. 15" wide, 20" top to bottom.
15—7268R— .... Each $6.49

Stainless Steel & Vinyl SPLASH GUARDS for Pickups, Trailers, Campers, Mobile Homes, Vans

Protect body and fenders from mud, stones, tar. Gleaming stainless steel shields with choice of black or white vinyl flaps. 20" long x 10" wide at bottom. Fit front or rear fenders. Ideal for 600 and 700 series tires. Easy to install; mounting screws and instructions included.

Flaps	Heavy-duty	1-Pair	Standard	1-Pair
Black	17—9288T	$6.98	15—5407N	$4.98
White	17—9289A	6.98	15—5408T	4.98

VINYL SPLASH GUARDS for Pickups, Vans & Campers

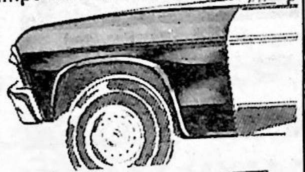

- Accommodate wide wheels & tires
- Choice of black or white

Protect vehicle's finish from rocks, salt, gravel, etc. Ideal for vehicles hauling boats or trailers. Fit front and rear fenders. Easy to install. With mounting screws.
10—4226N—Black
17—8586A—White 1-Pair $4.98

SATISFACTION GUARANTEED or YOUR MONEY BACK

Replacement FIBERGLASS FENDERS

for 28-79 American & 57-79 Imported Cars, 35-80 American & Imported Pickup Trucks

- Duplicate original fenders ... fit perfectly
- Restore original look to older cars

Strong, lightweight, rustproof. Fenders are molded of 3 layers of hand-laid fiberglass matting. Outer layer has smooth, easy-to-paint gelcoat finish. All fenders are for FRONT, LEFT or RIGHT except where otherwise indicated. **When Ordering, State Make, Year, Model, Body Style, for Driver's or Passenger's Side, Stk. No.** Avg. shpg. wt. 25 lbs. Shpd. from factory. No C.O.D. orders. **Fenders Not Mailable—See How to Order Page (Truck Shipments).**

Custom-fit Fiberglass FENDER FLARES

Add classy custom body accents! Heavy-duty fiberglass wheel-opening flares add a full 3" to width of front and rear fenders ... a "must" for cars with super-wide tires. Fender flares protect against body damage by deflecting down tar, mud, gravel, salt and stones. Large mounting lip blends into fender for a finished look. Smooth, gelcoat finish. Easy to install—simply bond in, bolt on or pop rivet. Some cutting may be required depending on tire size and width. Avg. shpg. wt. 18 lbs. **Not mailable—shipped UPS. Nos. ending in "E" shipped PRE-PAID via truck; price includes shipping charges.** Custom-fit for the following cars only:

Customized FENDER FLARE/SPLASH GUARDS

for Vans, Pickups, 4WD, Sport Cars

Choice of black or white

Protect and personalize vehicle at the same time! Combination mud flaps and partial fender flares contour over wide tires to deflect mud, rocks and tar away from your vehicle. Molded 1/8" thick copolymer (polyurethane and vinyl) keeps its shape, even in extreme temperatures. Designs are heat-embossed into the surface ... won't wash, wear or peel off. 12" wide x 54" long. Includes hardware, instructions.

Flexible Rubber FENDER FLARES

- For use on fender wells that have been cut out to make room for oversized tires

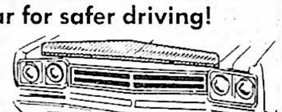

Universal-mount black flares widen fenders 2" to add a cleaner look around wider tires. Also help protect your vehicle's finish against dirt, mud, gravel and salt damage. Built to last. Tough 1/4" thick rubber resists cracking and peeling. Each flare is 60" long and can be easily trimmed to assure a smooth, custom-look installation. With all hardware & instructions.

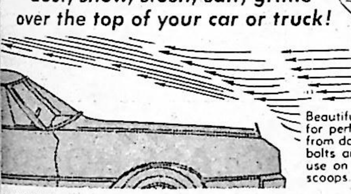

14-1414W— ... 1-Pair $24.95

Keep your windshield clear for safer driving!

DEFLECTOR SHIELD

Deflects bugs, gravel, dirt, dust, snow, slush, salt, grime over the top of your car or truck!

- Sparkling-clear 1/8" Plexiglass shield is strong, durable, practically invisible
- Custom made for each car or truck
- Solid, quiet, secure fit
- Quickly and easily installed

Beautifully designed shield keeps windshield clean for perfect vision. Protects windshield and hood from damage. With rustproof, polished aluminum bolts and screws. NOTE: Not recommended for use on convertibles or cars equipped with hood scoops. For the following cars or trucks.

Convert your decorative hood scoop into a functional air intake system

HOOD SCOOP CONVERSION KIT for 77-81 Pontiac Trans Am

Scoop can be opened or closed from the driver's seat!

Motorized unit installs easily inside the hood scoop and is controlled by a dash-mount switch. **Increases horsepower, gas mileage, acceleration and overall performance by using the built-up air pressure at the base of the windshield to force cooler, denser air into your carburetor.** Includes control panel, all wiring, hardware, instructions. Some drilling, cutting required. For all 77-81 Trans Am except Turbo.

84-0843B— ... 1-Kit $59.95

Universal-fit WINDSPLIT SET

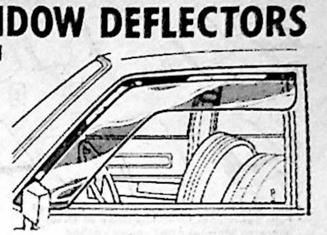

- Wind tunnel tested to help reduce aerodynamic drag and lift

Directs more air over the roof, less around sides, to reduce turbulence and vacuum in front of the windshield. Self-adhesive backing for secure installation to hood or fender—no drilling. Tough black polyurethane. Set of 2.

18-8066T—Approx. 34" long
18-8085T—Approx. 40" long ... 1-Set $29.95

Euro-style • Custom-fit Acrylic SIDE WINDOW DEFLECTORS

for 78-85 American & Imported Passenger Cars and Trucks

- Covers both the front AND the top of side window opening—not just the top
- Flexible, splinterproof 3/32" thick acrylic
- Custom molded to fit your vehicle perfectly

Used for years in Europe on cars without vent windows. Now you can enjoy the same travel comfort and sleek, modern look! These full deflectors are longer than ordinary door visors. They let you open your side windows wider for more fresh air ventilation while providing greater protection against rain, snow, sleet, wind gusts. Aerodynamically designed to direct air flow away from the open windows to help reduce wind resistance and turbulence. See-through for unimpaired vision yet smoke tinted to reduce sun glare. Install easily without drilling or modifications. Include weatherstripping, hardware, instructions. **In pairs for front doors only.**

78-4197XF— ... 1-Pair $49.95

Fully-adjustable or Stationary WIND DEFLECTORS for All Cars, Trucks and RVs

Folds flat when not in use

- Ideal for towing, hauling or carrying luggage
- Aerodynamic design cuts wind resistance ... improves stability, increases gas mileage
- Reduces wear on drive train & cooling system
- Helps keep campers, trailers, luggage bug-free

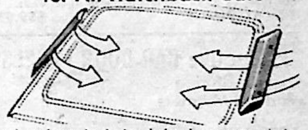

24-position Variable-pitch Deflector. A single adjustment moves deflector up or down for best air flow. Strong, lightweight fiberglass with paintable white finish. Mounts and removes quickly, easily. No-rust anodized aluminum bolts and supports, no-mar rubber feet. Weather-resistant black polypropylene straps with vinyl-covered rain gutter hooks. Completely assembled.

18-5028W—15" x 48" ... Each $74.98
18-5029U—17" x 60" ... Each 109.98

Stationary Deflector. Similar to above except with triangular aluminum supports instead of variable-adjustable mechanism. Unassembled. With hardware and instructions.

18-5030B—15" x 48" ... Each $59.98
18-5031P—17" x 60" ... Each 84.98

Rear Window-mount AIR DEFLECTORS for All Hatchback Cars

- Aerodynamic design helps keep rear window clean for improved visibility, safer driving

Non-corroding molded black plastic deflectors snap on easily—no drilling necessary. Can be painted to match vehicle. 3-1/2" wide, 18" long.

81-1810T— ... 1-Pair $9.99

European-style • Roof-mount REAR AIR DEFLECTORS for Hatchbacks, Vans, RVs & Pickup Toppers

- Black anodized aluminum complements the black trim on many of today's newer vehicles

Deflects air down over rear window to reduce tail vacuum, keeps exhaust fumes from entering vehicle, helps keep windows clean and clear. Mounting bracket adjusts for most efficient angle of air flow. Weather-resistant, rustproof. Hardware, instructions included for easy installation on roof or swing-up door. Some drilling required.

18-8330T—36" wide ... Each $31.95
18-8331A—48" wide ... Each 31.95
18-8332R—56" wide ... Each 34.95

Brushed Stainless Steel ADJUSTABLE AIR DEFLECTORS

- For station wagons, vans, off-road vehicles
- Help keep rear window clean for safer driving—even in bad weather conditions
- Adjustable mounting brackets and end caps to assure the best possible air flow

Directs a surging flow of air to rear window to reduce vacuum drag. Mounting brackets permit correct alignment of blade for maximum deflection of dirt, rain, snow and exhaust gases. Chromed ABS plastic end caps make sure that the air flow goes to the window—not the sides of vehicle. Easy to install. With chrome-plated roof supports, all hardware.

41" long x 4-3/4" high. Fits all American and imported station wagons except models with rear windows that roll up into roof (71-76 GM full-size).
18-4752B— ... Each $44.95

51" long x 4-3/4" high. Fits all Chevrolet and GMC Suburbans, Blazers and Jimmy.
18-4753P— ... Each $54.95

51" long x 4-3/4" high. Fits all Chevrolet, GMC, Ford, Dodge and Plymouth vans.
18-4754Y— ... Each $54.95

WING SHIELDS for Side Windows

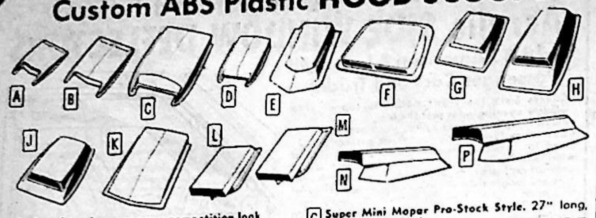

Fit all cars with metal window frames

- Block irritating wind, reduce noise and help keep side windows clear of road debris
- Available in 2 colors

Enjoy fresh air driving without annoying or chilling drafts! Easy-to-install 16" x 4" shields deflect air away from your face ... let you ride comfortably with your windows open. Strong, transparent acrylic with brite-dipped anodized aluminum channels. Adjustable tension hinges allow easy installation to metal window frames. With mounting hardware, instructions.

14-1968A—Clear ... 1-Pair $19.98
14-1970X—Smoke Tint ... 1-Pair 23.98

Custom ABS Plastic HOOD SCOOPS

- Designed to give your car a competition look
- Fully functional for competition or street use ... improves air intake and engine cooling
- 14 sizes and styles to fit all cars

Eye-catching hood scoops combine light weight with super toughness. Made of shatter-resistant ABS plastic with white satin finish that looks great as is or can be painted to match your car. Easy and secure screw-on or bolt-on installation, some drilling required. Instructions. Nos. ending in "F" shpd. from factory; no C.O.D. orders.

REAR TURBO SPOILER

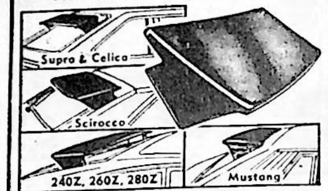

for American & Imported Cars

- Unique mounting brackets let you position spoiler at desired angle
- Molded ridges add a sleek, performance look
- Won't interfere with rear wiper

Expanded black urethane plastic has flexibility necessary to conform to deck or trunk lids. Mounts on any flat or angled rear deck—requires minimum 4" wide surface. Some drilling required. Fastening devices can be moved from approx. 4" to 32" apart to accommodate lid surface. Optional mounting brackets (included) let you position spoiler at desired angle (from approx. 1-1/4" to 3" above lid). Measures 56" long x 9-1/2" wide. With mounting hardware and installation instructions.
18—9153Y— Each $149.95

Custom-fit REAR WING SPOILER

Supra & Celica — Scirocco — 240Z, 260Z, 280Z — Mustang

Conforms to car's contours. Deflects air to improve stability, traction ... acts as rear sunshield. Strong, lightweight hand-layed fiberglass with high-gloss black finish. Won't interfere with rear hatch door or rear wiper. With hardware, instructions. Some drilling required. Shipped from factory. No C.O.D. orders.
97—2115YF—For all 76-78 Capri (not shown)
97—2113TF—For all Datsun 240Z, 260Z, 280Z
97—2114AF—For all Datsun 280ZX
97—2421PF—For all 74-78 Ford Mustang II
97—2224YF—For all 79-84 Ford Mustang
97—2109AF—For all 82-84 Toyota Celica & Supra Liftbacks
97—2116WF—For all 75-81 Volkswagen Scirocco
Above Numbers Each $149.95

Hand-laminated Fiberglass REAR SPOILER

for All Cars, Vans & Pickups

- Adds sporty custom styling
- Improves stability, increases gas mileage

Unique fluted spoiler deflects air upward, thereby pushing rear of vehicle down into closer contact with the road. Assures greater traction, easier handling, reduced wind drag for better fuel economy. 54" wide x 16" long spoiler has legs set 31" apart, mounts on trunk of car, roof of vans or pickups. Black gelcoat finish looks great as is or can be painted. Shipped from factory. No C.O.D. orders.
97—1546NF— Each $89.95

Rear Deck SPOILER for All Cars

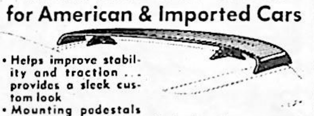

- Made of tough, rigid polyurethane foam

Adds a handsome custom touch ... improves stability and traction for safer handling and maximum performance. Sleek black finish—use as is or paint any desired color. Easy to install. Instructions and mounting hardware included. 52" long x 6" wide x 3" high. Mounting legs are 33" apart.
18—5889A— Each $99.95

Trans Am Style REAR WING SPOILER

for American & Imported Cars

- Helps improve stability and traction ... provides a sleek custom look
- Mounting pedestals let you adjust spoiler to desired angle
- Choice of 2 widths to fit any car

Black extruded aluminum with ABS molded end caps. Installs on any flat or sloped rear lid with minimum 4" wide surface. Two mounting pedestals let you adjust spoiler angle from approx. 1-1/4" to 3" above lid. Pedestals can be positioned from approx. 24" to 48" apart. Some drilling required. Hardware, instructions included.
18—8946W—50" wide Each $99.95
18—8947U—57" wide Each 99.95

Whale-tail SPOILER

for Cars & Vans

Aerodynamic styling—attractive & functional

Directs air flow upward creating a downward thrust for maximum stability and traction. Glass black ABS plastic is rugged, lightweight. Can be painted. 52" long tip to tip, 16" wide with mounting legs set 33" apart. Leading edge sits 2" off trunk; trailing edge 8" off trunk. (Trailing edge may vary on hatchbacks and liftbacks due to slope of mounting area.) Screw-on installation, some drilling required. With hardware, instructions. Shpd. from factory. No C.O.D. orders.

For cars with flat trunks & all vans.
97—3052BF— Each $99.95

For all hatchbacks & liftbacks.
97—3053PF— Each $99.95

Custom-styled REAR SPOILERS

for American & Imported Cars

Adds an attractive custom appearance

- Aerodynamically designed to help improve handling and traction

Foam-filled, injection-molded PVC. Impact resistant. Rain channels and moisture-tight seals reduce water build-up to help prevent corrosion. Durable matte black finish. 3/16" deep. Mounts with adhesive or metal studs (both included). Includes all hardware and instructions. Drilling required only if metal studs are used. Choice of 4 widths—measure across trunk or deck lid and order the width that best suits your needs.
18—8597X—43" wide Each $59.95
18—8598N—48-1/2" wide Each 59.95
18—8599T—50-1/2" wide Each 59.95
18—8600R—52-3/4" wide Each 59.95

Chrome-plated RAIL GUARDS

for Front & Rear of All Vehicles

14" & 18" lengths

Add a custom look ... help save on repairs. Protect taillights, headlights, grille and trunk lid. 5" high guards are 1" diam. bumper-gauge steel tubing with dual nickel-chrome plating for rust resistance and lasting good looks. Easy to install—drilling required. Hardware, instructions. Fit any front or rear bumper with 1" wide flat area on top and easy-to-reach underside.
13—3180A—14" long 1-Pair $14.95
13—3181R—18" long 1-Pair 16.95

Flexible Rubber SIDE SKIRTS

for American & Imported Cars, Trucks

Sporty black EPDM rubber skirts extend down approx. 4" ... can be used alone or with air dams and spoilers (see Index) to help improve stability, handling, fuel economy. Unique black cadmium-anodized mounting brackets allow easy installation on ANY car or truck. Some drilling, trimming required. Include hardware, instructions.

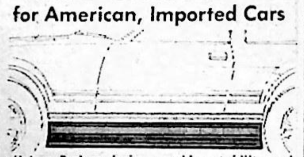

For vehicles w/65" or less between wheel wells.
12—4115Y— 1-Pair $49.95

For vehicles w/76" or less between wheel wells.
12—4116W— 1-Pair $54.95

For vehicles w/95" or less between wheel wells.
12—4117U— 1-Pair $59.95

Custom-look SIDE SKIRT KITS

for American, Imported Cars

- Unique 2-piece design provides stability and flexibility upon contact
- Protects car's underside from gravel, salt, etc.

Kits include two 6" wide rigid ABS plastic top sections, two 3" wide flexible PVC rubber bottom sections and two bold, contrasting trim strips. Designed to fit from wheel well to wheel well. Extend approx. 7" down, depending on vehicle. Black finish. Install easily to rocker panels—drilling and trimming required. With mounting hardware, instructions.

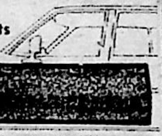

For compact cars. 68" long x 9" wide.
18—8918N— 1-Kit $99.95

For mid-size cars. 75" long x 9" wide.
18—8919T— 1-Kit $109.95

For full-size cars. 82" long x 9" wide.
18—8920A— 1-Kit $119.95

Protective CAR DOOR PANELS

with Hidden Padded Magnets

- Protect sides of car from dents, scratches
- Attach magnetically ... store under seat when not in use

Ideal for crowded parking lots! Heavyweight vinyl panels (with bound edges) have 3 hidden magnets across the top. Fleece backing prevents scratching of paint. Two cloth security straps close inside door to prevent theft. Includes two 21" x 51" long panels—one for each side. Note: Not for use on fiberglass, aluminum or stainless steel cars.
12—3968A— 1-Pair $29.95

Non-corrosive • Rear Window WIND DEFLECTORS

for Cars, Wagons, Trucks & Vans

- Reduces air drag
- Deflects road dirt & exhaust fumes from rear window

Strong, lightweight anodized aluminum. Can be used with or without attractive 1-1/2" woodgrain inlay (included). Easy to install—some drilling required. With mounting hardware.

[A] Fits hatchbacks, liftbacks, squarebacks and station wagons. 38" x 3-3/8"
18—7626N— Each $19.95

[B] Extra-wide Deflector for trucks and vans. 51" x 5"
18—7628A— Each $34.95

Colorful DEFLECTOR SHIELDS

for 72-85 American & Imported Full-size and Mini Pickups incl. 4WDs & JEEP® CJ

- Strong, sparkling 1/8" Plexiglass shields keep windshield clear for safer driving, help prevent hood & windshield damage ... choice of 7 colors
- Deflect bugs, dirt, snow, slush, grime, salt over the top of your vehicle

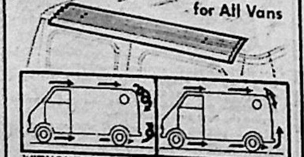

Attractive, custom-designed shields install quickly, easily. With tamperproof, plated aluminum bolts & screws for a quiet, secure fit. Colors: Blue, Light Blue, Green, Amber, Red, Dark Smoke or Light Smoke. Shpd. from factory. No C.O.D.s.

CHEVROLET/GMC 73-85 full-size pickups, S-10/15, T-10/15, LUV, Blazer, Jimmy, Suburban
DATSUN/NISSAN 72-85 pickups
DODGE/PLYMOUTH 72-85 full-size pickups, D-50, Arrow, Ramcharger, Trailduster
FORD 73-85 full-size pickups, mid-size Ranger, Courier, Bronco, Bronco II
ISUZU 82-85 pickup
JEEP 79-85 CJ Series
MAZDA 78-85 pickup, B2000 (Sundowner)
TOYOTA 79-85 pickup
VOLKSWAGEN 79-85

When Ordering, State Make, Year, Model, Color Desired and Stk. No. Note: The stock number you ordered may carry a different identification number on your package.
55—2591PF— Each $39.95

WIND DEFLECTOR

for All Vans

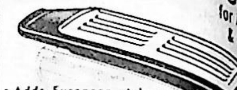

WITHOUT DEFLECTOR — Vacuum drag impairs performance, lets dust and dirt stick to rear of van

WITH DEFLECTOR — Vacuum is broken for better stability and gas mileage ... cleaner back end

Deflector directs overhead air flow to immediate rear of van to break the vacuum and reduce drag ... you get more stability and increased gas mileage. Air flow also helps prevent dust and dirt from accumulating, so the back of your van stays cleaner. Made of strong, lightweight extruded aluminum. Size 54" long x 4-1/4" deep. Easy screw-on installation. Includes two 2-1/2" high brackets with screws and lock washers, putty tape and instructions.
18—6189N— Each $24.95

Urethane TURBO SPOILER

- Adds European styling, improves stability at high speeds for better handling

Paintable black impact-resistant urethane. Molded ridges add a racy, performance look. With mounting template, hardware, instructions.

For the following cars with sloped deck or other sloped-deck car with minimum 8" wide trunk lid:

Datsun 73-82 510; All 240/260/280Z (exterior trunk lock will not work); All 280ZX (requires rear wiper extension—see below)	Ford/Mercury 65-73 Mustang; 74-78 Mustang II; 79-85 Mustang Fastback; GM All Vega Fastback; All Monza Fastback; 74-81 Camaro & Firebird

Custom-fit FRONT & REAR SPOILERS

for AMERICAN & IMPORTED CARS & PICKUPS

Air flow without front & rear spoilers — Air flow with front & rear spoilers

Designed and tested in a wind tunnel to match perfectly the car they're built for. Match the contours of YOUR car exactly, assuring a smooth, factory-installed look. Vacuum-formed, super-tough ABS plastic is lighter, stronger, more flexible, more impact resistant than fiberglass. Add a sporty look ... assure better traction for improved handling, reduced cross wind buffeting, quieter operation.

Aerodynamically designed to help improve gas mileage and operating efficiency by cutting wind resistance around your car. Also directs air through radiator toward brakes and oil pan for cooler, smoother running. Matte black finish looks great or can be painted. With hardware, instructions for easy bolt-on installation. Nos. ending in "E" are shipped from factory & are not mailable—see How to Order Page (Truck Shipments); no C.O.D. orders. Average shpg. wt. 7 lbs.

[D] Standard Flat Hood. Scoop not included—see Index. For the following cars. Chevrolet—67-85 Camaro, 66-67 Corvair, 75-77 Monza, 71-77 Vega; Dodge—70-73 Challenger, 80-84 Mirada; Ford—69-70 & 78-81 Mustang; Plymouth—67-69 Barracuda, 77-80 Volare (Volare pin-type only); Pontiac—77-85 Firebird, Trans Am, All J2000 (J2000 pin-type only).
78—4387UFE—Hinge-type Each $219.95
78—4388BFE—Pin-type Each 199.95

Custom-fit • Reinforced Fiberglass FRONT and REAR SPOILERS

IMPROVE PERFORMANCE • ADD AERODYNAMIC STYLING

- Designed to improve traction and stability for safer handling and maximum performance on street, highway or drag-strip
- Cut wind resistance—get better gas mileage
- Easy bolt-on installation

Aerodynamic spoilers exert an effective downforce to keep your car stable in crosswinds and at higher speeds. Improved air flow improves performance and saves gas. Constructed of high-strength fiberglass with a smooth, high-gloss black finish that's ready to paint or use as is. Sleek, racing style front spoilers are available with air ducts for maximum cooling of front brakes, or without ducts. With hardware and instructions for easy installation. When Ordering, State Make, Model & Stk. No. Note: The stock number you ordered may carry a different identification number on your package. Shipped UPS (except ♦, which is shipped by truck—see How to Order Page—Truck Shipments. Shpg. wt. 8 lbs.)

URETHANE PERFORMANCE ACCESSORIES

Custom fit for Camaro, Capri, Mustang, Cougar, Thunderbird & Firebird

Rear Deck Spoiler · Wraparound Spoiler with stone guards · Side Rocker Panels · Wraparound Spoiler with front duct · Stone Guard · Splash Guards · Rear Filler Panel

• All accessories made of tough, heavy-duty urethane—resist impacts, chipping, cracking even in extreme cold

Give your car professional stylized sport look. Handsome matte black finish. Easy to install. With hardware and instructions. Shipped from factory. No C.O.D. orders.

Wraparound Front Spoilers. Cut wind resistance for improved handling, better gas mileage. Mount under front bumper with metal screws—drilling required. Custom-molded to fit beautifully, maintain manufacturer's design.

Rear Deck Spoilers. Reduce drag, maintain stability. Mount on trunk lid—will not obstruct access to trunk.

Splash Guards. Protect car finish from mud, salt, stones, slush, etc. Mount on rear of front and rear wheel wells, extend slightly below and outside of fender well. ♦Cannot be used with Side Rocker Panels or Rear Body Filler Panels.

Side Rocker Panels. Mount on front side of rear wheels to provide additional protection from rocks, dirt, etc. and improve aerodynamics and styling. (For Camaro & Firebird only.) ♦Cannot be used with Side Rocker Panels or Rear Body Filler Panels.

Side Rocker Panels. Designed to push air around car to improve handling. Custom fit to contours of car to add a sleek, functional look. Fits from wheel well to wheel well.

Rear Body Filler Panel. Wraps around bottom of rear from wheel well to wheel well. Cut out for exhaust. Custom fit to exact contours of car.

For 79-85 Capri & Mustang

Custom-fit FIBERGLASS AIR DAMS with Flexible Rubber Skirt

for American & Imported Cars, Mini Pickups, Vans

Embossed with vehicle's name!

• Improves handling and stability. Dam reduces air flow and turbulence under vehicle to create a low pressure area. The normal high pressure on top pushes vehicle into closer contact with the road for better cornering, increased stability in cross winds.
• Maximizes engine performance and cooling. Low pressure area pulls air in through radiator and out of engine compartment ... also cools front brakes.
• Reduces drag and improves fuel economy.

Pushes air off to sides of vehicle. Flow across irregular undersurface is reduced. Reduced drag means high top speeds, increased gas mileage. Super-tough fiberglass dams with black gelcoat finish. Raised stripes on each end (Stripes and lettering can be used as is or painted.) Flexible 4" rubber skirt allows dam to travel closer to ground without breaking. Dams can be used with or without skirts. With all hardware, instructions. Some drilling required. NOTE: Air dams are embossed with vehicle's make or name and/or number; ex. a Datsun dam reads Datsun. Shipped from factory. No C.O.D. orders.

Custom-fit STREET AIR DAMS with Flexible Rubber Skirts

for American and Imported Cars, Pickups & Vans

Improved handling. Limits flow of air under vehicle, creating a low pressure area. Higher pressure on top pushes vehicle into closer contact with the road for improved stability, faster cornering. Better engine cooling. Low pressure area pulls air in through radiator and out of engine compartment. Higher top speeds ... increased mileage. Deflects air off to sides of vehicle. Air flow across irregular under-surface, less drag. Dams allow approx. 4" clearance; are effective at high speeds. 3 1/2" black molded rubber skirt protects against bumps, curbs, etc. Made of hand-laminated, high-gloss black fiberglass. Cross section. Fiberglass can be painted. With all hardware, instructions. Shpg. wt. 10 lbs. Shipped UPS—Not Mailable. When Ordering, State Year, Make, Model Name or Number and Stk. No. NOTE: The stk. no. you ordered may carry a different identification no. on your pkg.

CUSTOM FIT FOR THE FOLLOWING AMERICAN & IMPORTED CARS & MINI PICKUP TRUCKS

55—2641T—See how to order above. $74.95

Aerodynamically Designed Rubber AIR DAMS & SIDE SKIRTS

for All Cars, Trucks and Vans

• Seal off bottom of chassis to reduce air flow and turbulence ... improve engine performance, stability and overall handling of vehicle
• Give vehicle a sporty, streamlined look
• Performance proven on professional racetracks
• Extruded EPDM rubber ... rugged, durable, flexible and weather-resistant to -40° F
• Quick and easy bolt-on installation

Now you can use the aerodynamic principles that help race cars get the best performance! Dam and skirts are flexible air barriers designed to push air over and around the sides of your vehicle, sealing off the bottom of the chassis and reducing air flow and turbulence. The suction created beneath the car reduces drag and that means better mileage. Provides greater stability, higher cornering speed and improves handling. Brakes, engine run cooler because lowered air pressure beneath the vehicle draws air in through your radiator and out of engine compartment. With all hardware, instructions. Some drilling required.

A Front Air Dam.
For compact and medium size cars and pickups. 6 ft. long. Choice of 2 widths.

MASSIVE CUSTOM-FIT RUBBER-FACED BUMPER GUARDS

for All 68-85 American Cars

Low As $22.95 Pair

A Car with rubber strip in bumper · B Car without rubber strip in bumper · 3/4" THICK BLACK RUBBER FACE

Pay for themselves many times over!
Prevent dents, nicks—save on costly front & rear repair bills ... increase car's trade-in value
Strong—built to outlast the life of your car
Glistening chrome-plated heavy bumper stock steel
Heavier and 3" to 4" higher than other guards ...
protect above and below bumper
3/4" thick impact-absorbing rubber face

Give your car complete front and rear protection. Car rental companies have found that these guards keep their cars looking better longer ... and they get better prices for their cars when they trade them in! Guards project above and below the bumper to prevent over-riding and under-riding. Thick impact-absorbing rubber face prevents metal-to-metal contact between bumpers when parking or backing up—extends 3" out in front of bumper to prevent over-riding and under-riding. Easy clamp-on installation, except ▲ which bolt on (some drilling required).

w/=Fits vehicles with rubber impact strip in bumper (see A above)
w/o=Fits vehicles without rubber impact strip in bumper (see B above)
NOTE: Available for station wagons only where stated.
FOR BUMPER GUARDS FOR VANS, PICKUP TRUCKS & RVs—SEE VAN SECTION; FOR IMPORT CARS & TRUCKS—SEE IMPORT SECTION.

AMERICAN MOTORS · CHEVROLET (Cont'd.) · CHRYSLER · DODGE · FORD · FORD (Cont'd.) · LINCOLN · MERCURY · OLDSMOBILE · OLDSMOBILE (Cont'd.) · PLYMOUTH · PONTIAC — vehicle application listings by year and model, marked w/ & w/o.

FOR ALL CARS LISTED ABOVE. When Ordering, State Make, Year, Model, 2 dr., 4 dr., or Station Wagon, whether or not your Bumper has Rubber Impact Strip and Stock Number. Note: The stock number you ordered may carry a different identification number on your package.

Stk. No.		Price
18—1331B—Front Bumper Guards	1-Pair	$22.95
18—3166P—Rear Bumper Guards	1-Pair	22.95

BUMPER GUARDS for the following CADILLAC CARS: 69-85 Calais, DeVille, Fleetwood w/s & w/o; 82-85 Cimarron w/s; 71-85 Eldorado w/s; 75-85 Seville w/s. When Ordering, State Make, Year, Model, Front or Rear, Stock Number and whether or not your bumper has a rubber impact strip. For 1985 DeVille & Fleetwood, also state whether front or rear wheel drive. Note: The stock number you ordered may carry a different identification number on your package.
18—2814W— 1-Pair $25.95

Rubber-faced BUMPER AND GRILLE GUARDS

Durable rubber adapter on back of guard is self-centering for tight fit on any bumper ridge. Guards adjust to any angle of arc, can be installed on short end up, 9-1/2" high. Heavy steel, 1" thick ribbed rubber face. One hole to drill for front or rear of bumper.

Fits: Buick, Cadillac, Chevrolet, Ford, Mercury, Oldsmobile, Plymouth, Pontiac, and more (by year).
18—3834B—Black rubber face 1-Pr. $14.98
14—3706N—White rubber face 1-Pr. $14.98

LOW-GLOSS BLACK COATINGS

Updates vehicle to "California look" ... protects & restores luster to tires, bumpers and accessories.

A Hard metal surfaces—bumpers, grilles, mounting trim, wheel covers, mirrors, etc. Not for flexible bumpers or plastic. Net wt. 11.8 oz. aerosol.
14—2518T— Each $3.49

B Hard or soft urethane, rubber or vinyl. Net wt. 11.8 oz. aerosol.
15—7744P— Each $2.99

C Rubber or vinyl. Restores original black color to bumpers, trim, vinyl tops, floor mats, tires, etc. 8-oz. Applicator top.
15—9246U— Each $2.99

UNDERCOATING & SOUND DEADENER

• Eliminates squeaks, rattles, reduces noise
• Protects frame and underside of body and fenders against rust, corrosion, salt
• Non-toxic mastic

Can be sprayed or brushed on. 2 to 2.5 gallons of undercoating covers average car.
17—8305W—1-gallon can Each $9.99
17—8306U—5-gallon can Each 34.99

Spray-on UNDERCOATING & SOUND DEADENER

• Helps prevent rust and salt corrosion
• Sound deadens and undercoats fenders, quarter panels, etc.
• Covers weld joints, dust holes

Dries in 15-20 minutes. Covers water leaks and cracks in hard-to-reach places. 20-oz. net wt. aerosol. (Approx. 3 cans needed to fully protect average car.)
17—7507Y— 1-Can $2.99

PAINT STRAINERS

Total filtration for true color matching. Superfine white paper with reinforced filter tip to strain particles from lacquer, enamel, varnish, solvents, oils, etc. Reinforced filter prevents tearing and pinhole openings. Adaptable to paint cups or other containers. Bag of 100.
14—2487A— 1-Bag $6.99

BLACK HIGH-GLOSS HI-TEMPERATURE PAINT

• Customize your car's "hot spots"—exhaust pipes, manifolds, headers, mufflers, etc.
• Super-tough paint withstands temperatures to 1200°F without flaking, chalking or discoloring

Weatherproof, fuel-proof high-gloss coating resists abrasion, rust, corrosion and carbonization. Net wt. 12-oz. aerosol.
14—4741R— Each $4.99

Self-priming MULTI-PUMP

• Pumps liquids—rapidly transfers incl. gas, motor oil, gear lube, anti-freeze, water
• Inflates tires, sporting & camping gear

Includes polypropylene pump, liquid & air hoses, connectors, screw-on tire chuck, inflation needle, 30" oil dipstick. Instructions.
15—9498P— Each $9.99

Over 50 tons per sq. inch tensile strength! STAINLESS STEEL TAPE

for Customizing and Repairs

• Choice of 9 widths

So strong and indestructible, this tape can do repair jobs that last forever! Can't corrode because it's pure stainless steel. Acrylic adhesive actually grows stronger with age. Waterproof and grease resistant. Withstands temperatures from -30° to +250° F. Accepts paint and patching compounds ... or use as is for bright trim that stays shiny and sparkling forever—as only stainless steel can!

HERE ARE JUST A FEW USES FOR THIS MIRACLE TAPE ... YOU'LL THINK OF MANY MORE!
• Repair rusted, corroded car bodies and trim
• Add as custom trim on cars, trucks, motorcycles ... any vehicle
• Seal mufflers and pipes
• Seal heating and air conditioning ducts
• Repair eaves, gutters, etc.
• Thousands of other uses

Stainless Steel Finish Spray. Makes car wheels and hub caps gleam. Use on running boards, luggage racks, etc. 13-oz.
15—8796Y— Each $2.99

EPOXY SUPER CHROME

• Brilliant finish looks like chrome
• Resists abrasion and wear

Restore old, worn bumpers, hub caps and trim. Special epoxy resins produce a rock-hard non-yellowing coating that's far superior to ordinary paint. Excels in adhesion, durability and color retention ... unaffected by grease, water, oil or detergents. Sprays on any non-porous surface, dries in minutes. For interior or exterior use. Net wt. 13 oz.
14—2897A— Each $3.49

PAINT STRIPING TOOLS

Make your own custom pinstripes ... any design, any shape!

Paints single line or two parallel lines at once! Paints straight, curved or circular lines on any smooth surface. Adjustable guide helps you follow any design. Interchangeable wheels and spacers permit numerous patterns. Kit includes six striping wheels—two 1/16", two 1/32", one 3/32" and one 1/4"; four spacers—two 1/16", one 1/32" and one 3/32"; extra washer, storage tray, instructions and idea booklet.
15—5343B— 1-Kit $6.99

Single-Stripe Kit. Same as above except paints single 1/16" stripe only.
15—5344P— 1-Kit $4.69

High Gloss Enamel STRIPING PAINT

For brilliant, rock hard, ceramic-look stripes on metal, glass, almost any surface. Mix and apply with brush or paint striping tool. Cures in about 30 minutes using spotlights or infrared bulbs or overnight at room temperature. Safe, easier than epoxies and many paints. Kit contains 4-oz catalyst and 2-oz. color.

AIR BRUSH KITS
for Customizing Cars, RVs & Vans

- **Sprays enamels, lacquers, inks, other liquids**
- **Operates on 15 to 50 p.s.i. pressure**

Professional Dual-action, Internal-mix Air Brush. Dual-action trigger gives one-finger control of air flow and pattern width. Internal mixing assures smoother, more uniform coverage. Pattern adjusts from 1/16" to 1-1/4". Can be used with compressor or carbon dioxide tank. Includes: air brush, 1/4-oz. color cup, one 2-oz. jar and two 3/4-oz. jars with covers, one paint tip for detail work, head assembly and needle for heavy viscosity materials and faster, wider coverage, heavy-duty 8-ft. braided air hose, 1/4" compressor adapter, instructions, case.
15—7445T— 1-Kit $64.95

Single-action, External-mix Air Brush (not shown). Single-action trigger controls air flow; fluid cap controls width of spray pattern. Pattern adjusts from 1/8" to 1-1/2". Use with air compressor, carbon dioxide tank or aerosol propellant. Includes: air brush, 1/4-oz. color cup, 3/4-oz. and 2-oz. jars with covers, 6-ft. vinyl air hose, 1/4" compressor adapter, propellant regulator (can be used to adapt spare tires as an air source), propellant spray, instr.
15—5106T— 1-Kit $29.95

Propellant Spray. For use with external-mix air brush above. 11-oz. can
14—4368A— .... Each $3.49

Professional-quality HEAVY-DUTY SPRAY GUN with 1-quart Anti-drip Siphon Cup

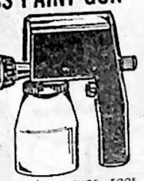

- Handles a wide range of viscosities—everything from fine surface finishes to heavy body undercoatings
- Fan pattern adjusts easily from 1" diam. to over 2 ft. long

Professional, high-production delivery. Non-bleeder type gun with external-mix power nozzle works off pressure or siphon feed and paint tanks. Uses 6 to 12 CFM air at 30 to 40 psi. Forged detachable head, aluminum comfort-grip handle, 3-pc. needle valve. Conforms to government specifications.
15—9488A— 1-Kit $99.95

Spare Parts Kit for above. Includes packing kit and needle.
15—9480Y— 1-Kit $8.49

Electric AIRLESS PAINT GUN
Designed for Automotive Painting

- Gives the results of an air-powered gun ... without the need for a compressor

Powerful 30-watt motor handles metallics, lacquers, enamels, primers and undersealers (not for use with latex paints). Low 2-oz. per minute output for ultra-thin coats—reduces runs, sags due to over-application ... virtually eliminates overspray. Weighs only 15 oz. empty. 110V AC. UL listed. Includes sprayer, paint strainer/funnel, viscosity tester, extra 12-oz. paint cup & lid and 10" (approx.) cord
12—3316T— .... Each $59.95

Professional-quality SPRAY GUN with Aluminum Quart Cup

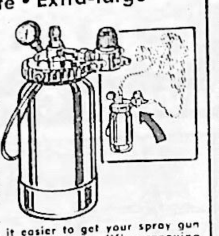

- Sprays urethanes, lacquers, enamels, varnishes, primers, zinc chromates, stains, epoxies—provides a consistent, uniform finish every time!
- External-mix, siphon-feed gun
- Finely atomized spray adjusts from small round pattern to broad fan pattern

Knurled controls in back let you adjust pattern and amount of material. Gun has forged brass air cap and spray head, cast aluminum body, and stainless steel fluid nozzle, needle valve and spring. Long-life leather gasket seals cup tightly, resists solvents and cleaners. Aluminum yoke firmly anchors lid to cup. Brass siphon tube has zinc plating to protect against corrosion. Air inlet—1/4" NPT; Fluid inlet—3/8" NPS; Average air consumption—7.8 to 11.5 CFM at 30 to 50 psi; Nozzle size—.072", Maximum spray pattern—10"
81—1072P— .... Each $44.95

Rebuilding Kit for above. Includes packing kit, needle valve assembly
81—1825A— 1-Kit $8.49

Spray Gun Strainers. Bag of 3 w/attaching clips.
14—2234X— 1-Bag $1.79

Remote • Extra-large 2-QUART PRESSURE CUP for Paint Guns

- Holds twice the capacity of standard 1-qt. paint cups
- Speeds up work ... helps eliminate frequent refills
- Remote pressure cup makes it easier to get your spray gun into hard-to-reach areas, simplifies spraying horizontal surfaces, lightens the weight you have to hold
- Handles all fluids, including high-viscosity

Aluminum cup, die-cast cap with 60 psi pressure gauge and fluid/air control assembly. Operates on approx. 10 psi for enamels, 5 psi for lacquers. Fluid/air inlet: 3/8" NPS. Use with 1 HP or larger compressor. Order hose set below.
81—1725T— .... Each $69.95

Hose Set. Includes one fluid hose and one air hose with fittings.
81—1795W—With 5-ft. hoses 1-Set $9.95
81—1799Y—With 12-ft. hoses 1-Set 17.95

Air-powered • Heavy-duty UNDERCOAT SPRAY GUN

- Applies undercoats of all viscosities quickly, easily

Aluminum housing is balanced and lightweight (less than 2 lbs.) for easy handling. Removable stem and nozzle for trouble-free clean ups. Minimum air consumption: 6-12 CFM at 30-40 psi. Air inlet: 1/4" N.P.T. Uses standard undercoat cartridge—order below. Recommend use with air volume control regulator (see Air Tools in Index).
14—8441B— .... Each $17.95

Black Rubberized Undercoat. Use with gun above. Flexible, tough, weather-resistant coating adheres to painted or unpainted trunk interiors, underbodies, exterior areas. Paintable. 30.4 oz.
14—8428R— .... Each $6.99

Anti-drip • 1-Quart SIPHON CUP fits All Spray Guns

- Buy a spare ... saves time when changing from primer to colors

Cup will not drip even when tipped forward as much as 90°. Prevents mess, accidental spills and damaged work. Large 1-qt. capacity aluminum cup can be completely immersed in any solvent for best possible cleanups. 3/8" NPS attachment thread.
14—9610A— .... Each $9[illegible]

Replacement Gasket for Cup above.
15—9486N— .... Each $[illegible]

Continuous Mix Dripless SIPHON CUP fits ANY Spray Gun

Built-in air driven agitator keeps metallic particles suspended to provide smooth, even coverage. Aluminum cup can be completely immersed in any solvent for thorough cleanups. With adaptor/valve, 3/8" NPS fitting and tube.
15—9475Y— Each $49.95

Replacement Gasket.
15—9483B— .... Each $1.19

Fine Finish SPRAY GUN

- Sprays all fine automotive finishes
- Fan pattern adjustment from 1" diam. to over 2 ft. long
- Anti-drip 1-qt. aluminum siphon cup

Non-bleeder type gun has external-mix nozzle that works off pressure or siphon feed and paint tanks. Use with 1-HP or larger compressor. Forged brass air cap and spray head with chrome-plated cast aluminum housing. Air inlet 1/4" NPS; fluid inlet 3/8" NPS; air consumption 8-11 CFM at 30-50 p.s.i. Nozzle size .070".
81—1713R— .... Each $44[illegible]

15—8449U— 1-Set $9.95

Keep your car showroom bright and never wax it again!

Dura-Glo your car!

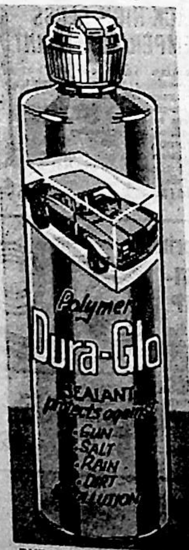

New miracle Polymer "Glass" Sealant completely protects your car's exterior finish—it even restores original luster to used models!

Available only as a service by new car dealers for $100 to $200.
Now do it yourself in less than an hour for only $19.95

The elements vs. your once beautiful car. You've probably experienced it. Your treasured, shiny new automobile gradually fades and dulls. The once brilliant finish turns chalky and washed out. Even hours of waxing and buffing can't recapture that new car look . . . until this new chemical science discovery.

Never wax your car again! DURA-GLO is not anything like a simple wax or polish. It is actually a miracle polymer glass formulation serving as a powerful sealant and a beautiful exterior finish. When applied lightly to your car's finish, its **exclusive Electromolecular Action literally fuses it to the surface,** locking in luster and a brilliant shine, almost laminating itself to your car for years . . . shutting out harmful sun, rain, pollution, salt, detergents and other elements that normally ruin the appearance and value of your car.

Prevents oxidation from starting on new cars . . . and actually removes it from used models! DURA-GLO is literally a **Glass Shield** that becomes part of your car's finish. Your new car's paint is simply not allowed to oxidize . . . for 3 years! Then DURA-GLO it again for years more of protection. If your car is not new, DURA-GLO will actually remove the oxidation, add gloss and stop further oxidation for 1 year before you need to apply again. It is similar to covering your car with a non-penetrable coat of polyurethane.

DURA-GLO makes standard waxes and polishes obsolete!

Enamel spray paint can't even get through the clear glass shield. When this new professional automotive product is demonstrated to car dealers, the "spray paint test" is used. DURA-GLO is applied to a car's hood. After it dries it is wiped off and a can of enamel spray paint is sprayed directly on it, along with Magic Marker and other solvents. Then the observers are astonished as all of these are wiped off the hood with a mere cloth. Nothing, not even dirt and dust, can adhere to the surface!

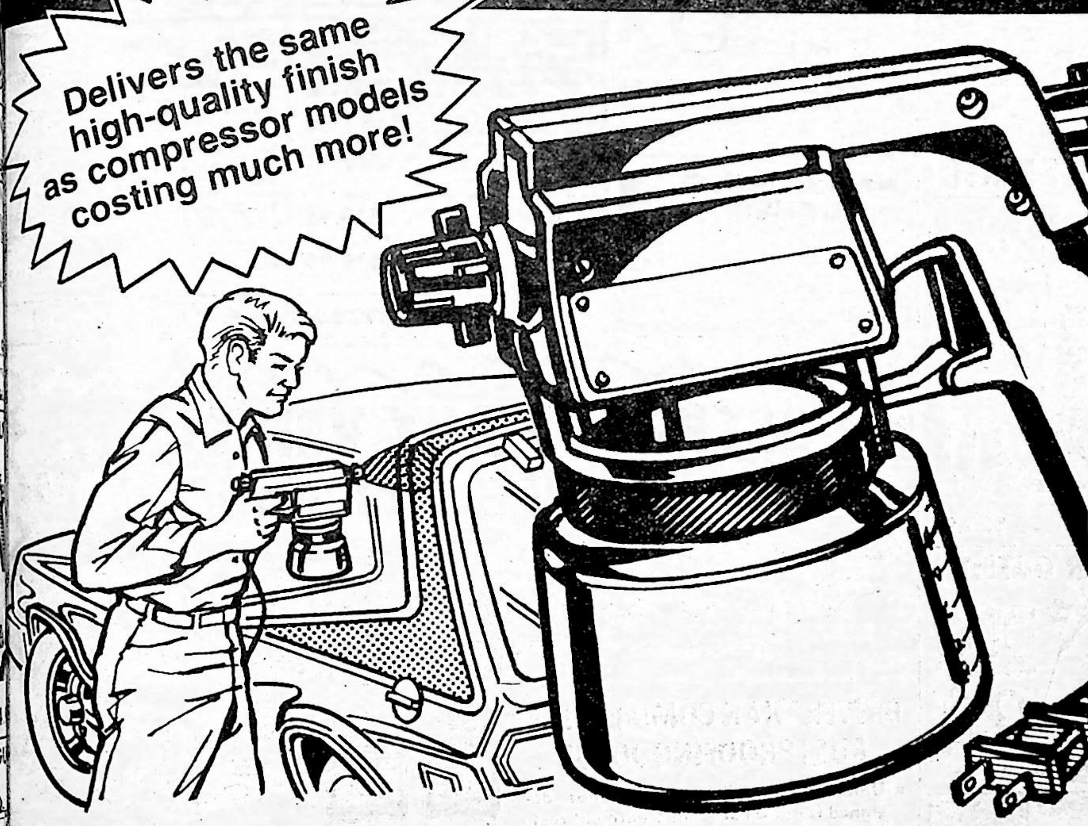

No rubbing, labor or buffing equipment needed. DURA-GLO goes on easily and quickly. You wipe it on with a cloth, let it dry and then wipe it off. It takes only a few minutes—less than an hour. The main ingredients are a polymer sealant, another substance similar to Teflon® and a minimal amount of silicone for ease in wiping it on. Between washes you need only wipe your car with a damp cloth to reactivate its brilliant dirt and dust-repelling shine.

The incredible DURA-GLO "Brilliance Guarantee". If after using it, you are not pleased for any reason, return the unused portion within 3 weeks of receipt for a prompt refund of the entire purchase price. Further, if DURA-GLO does not protect your new car for 3 years or your used car (90 days old or more) for 1 year, write and enclose your order papers for this item, and we will pro-rate your purchase price and refund the difference. However, due to the extraordinary quality of this fully-tested product, we are confident that this would not be likely.

One 16-oz. bottle. Enough for 2 cars. Also highly recommended for boats and airplanes. DURA-GLO is 100% safe to use—it can be removed with mineral spirits.
15-7482W— .... Each $19.95

Fast, easy, professional results . . . even if you've never painted before!

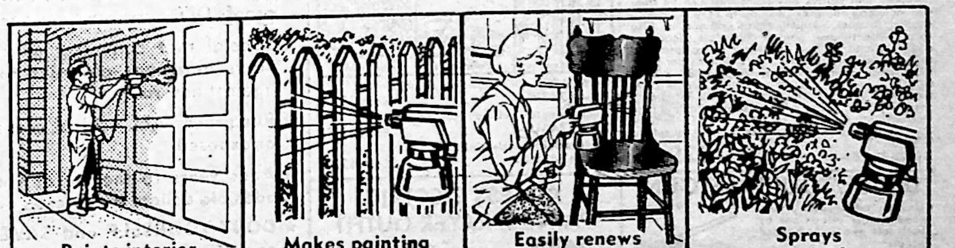

AIRLESS ELECTRIC SPRAYER

Includes 3 plastic cups, lids and viscosity testing cup

- Sprays virtually ANY paint on almost ANY surface
- Much faster than brushes & rollers
- Easy to use—requires no compressor
- Spray rate adjustment knob
- Instant action trigger

Paints interior or exterior walls | Makes painting fences a snap | Easily renews furniture | Sprays insecticides

Sprays almost anything, anywhere

[In]doors or out . . . in your garage, shop, home, factory [or] on your farm, you can paint like a true professional [wi]th this amazingly low-priced spray gun. Compact [...]it sprays any paint that can be thinned, including oil, [lat]ex (with up to 21% pigment), enamel, lacquer, var[ni]sh, stains and acrylic. Also sprays insecticides, gar[de]n chemicals, deodorizers and disinfectants. Ad[ju]stment knob changes rate of spray to accommodate [fl]uid being used. Instant-action trigger provides excel[len]t control. Delivers beautiful results on most sur[fa]ces: wood, metal, plaster, screening . . . even brick [an]d stucco.

Fast and effortless

[It's] simple to use. Just fill the paint jar, plug in the [sp]rayer and you're ready to paint. Built-In electric pump sprays up to 3 oz. per minute, over 1-1/2 gallons per hour. Filter screen prevents clogging. In just minutes you can cover much more surface area than with a brush or a roller—without working up a sweat. Sprayer makes painting tight corners, nooks and crannies a snap. And, unlike compressor-type sprayers, you don't have to worry about heavy fogging, misting or overspraying. Reduces the need for time-consuming masking. Nozzle cap/orifice removes for easy cleanups when you're done painting.

Lightweight yet rugged

Approx. 8" x 8" x 5-1/2" ... weighs less than 3 lbs. Double-insulated, high-impact housing protects internal mechanisms. Direct-action reciprocating motor prevents power loss ... is spark-free for added safety.

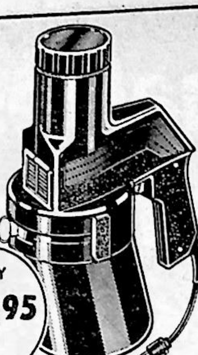

Operates on 115-volt, AC. Kit includes sprayer, unbreakable 32-oz. paint jar, UL listed 6-ft. cord, 3 plastic cups, 2 lids, viscosity testing cup and instructions. For painting ceilings or tops of walls, order angle and swivel adapters at right. **Note:** Returnable for exchange only—not returnable for refund or credit.

Angle Adapter. Lets you paint ceilings, etc.
81—1744U— .... Each $2.95

Replacement Nozzle/Orifice.
81—1745A— .... Each $2.49

Factory-reconditioned Professional AIRLESS PAINT GUN

- A professional tool ... paints an even line from 1/2" to 18" wide in one stroke!
- Flows most any paint on any surface
- Uses paint, varnish, acrylics right out of the can—no thinning necessary!
- 4 times as fast as a brush ... over twice as fast as a roller
- Snap-apart design for fast, simple clean-ups
- Reconditioned by a leader in painting equipment for the professional painter

This reconditioned rotary airless paint sprayer gives you smooth, uniform, professional results with ease and speed. Because rotary action and gate control flow the paint on, instead of spraying, you paint cleaner, quicker, easier.

Solid-state electronic on/off switch—one touch of the trigger is all that's needed. Your hand is relaxed—no tight finger fatigue. Smooth pistol-grip handle is comfort engineered, feels "right" in your hand.

Variable sliding gate adjusts paint pattern from 1/2" to 18" wide. Horizontal pattern eliminates most masking. Centrifugal force paint atomization eliminates danger of paint injection. Nozzle-less design eliminates clogging or extra care in cleaning.

Flow control valve adjusts from fine to heavy flow to regulate the exact amount of paint needed. Adjusts the gun to the paint ... not the paint to the gun! No thinning is necessary—even with heavy latex paint.

Full quart container eliminates frequent filling. Wide-mouth, snap-on container has no threads to clog or fill with paint, is quick to remove or replace, easy to fill from a gallon paint pail. Unique base (container) design brings the weight of the paint back under your hand for better balance. Fully enclosed motor is super-safe, won't spark, is vibration-free, runs smooth and quiet. These professional-quality paint sprayers, having been used on the average of less than one hour, have been reconditioned and tested by the original manufacturer to meet the new product performance specifications. 110 volt. **Note: Not for use with lacquer or high volatile liquids, not recommended for horizontal surfaces.**

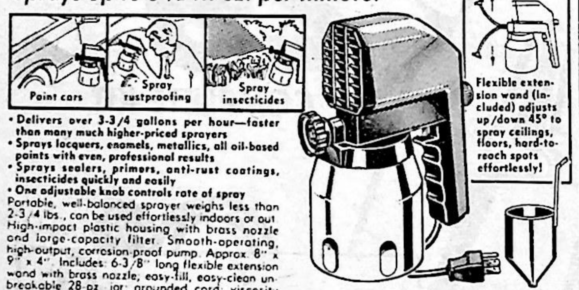

ONLY 49.95

14—2279B— Each $49.95

NOTE: Paint Gun can be exchanged only—cannot be returned for credit or refund.

DELUXE • HIGH-CAPACITY AIRLESS ELECTRIC SPRAYER KIT

Sprays up to 8 1/2 fl. oz. per minute!

- Delivers over 3-3/4 gallons per hour—faster than many much higher-priced sprayers
- Sprays lacquers, enamels, metallics, all oil-based paints with even, professional results
- Sprays sealers, primers, anti-rust coatings, insecticides quickly and easily
- One adjustable knob controls rate of spray

Portable, well-balanced sprayer weighs less than 2-3/4 lbs., can be used effortlessly indoors or out. High-impact plastic housing with brass nozzle and large-capacity filter. Smooth-operating, high-output, corrosion-proof pump. Approx. 8" x 9" x 4". Includes: 6-3/8" long flexible extension wand with brass nozzle; easy-fill, easy-clean unbreakable 28-oz. jar; grounded cord, viscosity cup, instructions. Operates on 115-volt AC—no compressor required. Returnable for exchange only—not for refund or credit.

81—1756Y— 1-Kit $39.95

Airless Electric PAINT SPRAYER OUTFIT

Better results and more top-quality features than sprayers costing a lot more!

ONLY 29.95 Kit

Coats parts, tools, etc. with a non-sticky, transparent amber film for long-term protection against rust. Effective even against salt water corrosion. Can be removed by using a light petroleum solvent. 13-oz. net wt. aerosol.

12—3969R— Each $2.49

Now! Make your own aerosol spray paints, cleaners, lubricants ... and save a small fortune!

Rechargeable AEROSOL SPRAY CAN

- Fast, easy to use ... fits comfortably in hand
- Environmentally safe—no fluorocarbons
- Tough, lasting 1-pc. aluminum canister
- Includes 4 interchangeable spray heads
- Choice of 28-oz. and 20-oz. cans

When you buy spray paint or any other aerosol spray, you usually pay more for the canister (plus the cost of filling and pressurizing it) than for the contents. Pushbutton convenience is expensive. This aerosol can offers a money saving alternative—and it can be used again and again!

We believe this aerosol can is the finest of its kind for home, garden and industrial use. It's a quality instrument that delivers professional results without the mess and hassles of a cumbersome and expensive compressor.

Refillable, rechargeable, easy to use. Just fill the can 2/3 full with the liquid to be sprayed, thinning according to instructions. Screw on valve top and pressurize to 50 psi with any bicycle pump, air hose, portable air compressor or other air source. Pressure valve prevents overcharging. When can is empty, refill and pressurize. Can cleans easily.

Complete. Includes seamless 1-pc. solid aluminum canister; knurled solid aluminum valve body, wide-angle spray head for flawless application of paints, other liquids requiring an even coating; spray head with extension tube to apply lubricants, etc. in hard-to-reach places; medium spray head to apply liquid wax, fine spray head to apply insecticides; instructions. Order spray can accessories at right.

Large 28-oz. Aerosol Can. 2-1/2" diam. 12" high. Working capacity: 18 oz.
81—1728X— Each $19.95

20-oz. Aerosol Can. 2-1/2" diam., 8" high. Working capacity: 13 oz.
81—1729N— Each $16.95

HUNDREDS OF USES! Paints • Solvents • Lubricants • De-icers • Rust Inhibitors • Photo Equipment • Insecticides • Engine Degreasers • Disinfectants • Household Cleaners • Electrical Contact Cleaners • Much More!

UNLIMITED (2-YEAR) WARRANTY
Should your rechargeable Aerosol ever malfunction due to a manufacturing defect within 2 years, you may return for repair or replacement.

[A] Handle. Converts aerosol can into a trigger-type spray gun.
81—1731A—

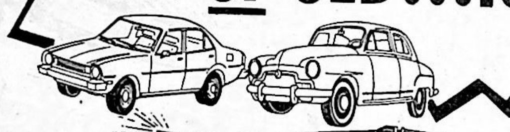

5-pc. Spray Head Kit (not shown). Includes interchangeable heads for fine, medium and wide spraying and 2 heads with extension tubes for spraying and coarse spraying in hard-to-reach spots.

PROFESSIONAL RUSTPROOFING KIT

ONLY 39.95 Kit

- The same high-quality equipment used by professionals
- Do it yourself and SAVE BIG MONEY over the cost of dealer or shop-applied rustproofing
- Do it yourself and know the job is done RIGHT
- Includes wands and tips to get at all critical areas—hidden or exposed
- Easy to use—complete instructions included

Professional rustproofing jobs are now done with simple aerosol sprays or plastic sprayers. To do the job right you need equipment that can reach all metal surfaces. That's why the pros use THIS high-quality equipment. When used with the special rustproofing chemical sold separately at right, it assures you of the best rust protection available. And it's easy to do!

Protects new or old cars

It's a well-known fact that rustproofing increases your car's resale potential or trade-in value. By rustproofing your new car yourself, you'll avoid the high expense of dealer-applied rustproofing. Since you'll always have your own equipment, you'll also save money on those once-a-year touch-ups. And after any type of body repair, your equipment will be at hand to quickly rustproof and protect the repaired section.

Comes complete, ready to hook up to your compressor

Includes the following equipment: Spray gun with spray head is designed and manufactured by the same company that supplies professionals in North America and Europe. Can be used with any 1-HP or larger compressor. Uses 4.5 SCFM of air at 80 psi. Spray head is threaded—each one-liter can of rustproofing chemical (sold separately at right) attaches directly to head and is ready to spray in seconds. Approx. 20" rigid wand lets you reach into door panels, fenders and rocker panels to completely cover all metal surfaces. Gets into places aerosols and short plastic wands can't. Approx. 30" superflex wand reaches into hood panels, trunks, quarter panels and pillars. Approx. 6" underbody wand thoroughly protects the bottom of your car from corrosion. Blast spray tip covers flat areas quickly and completely ... great for underbody work. 90° directional tip reaches around corner areas and up into panels. 45° reverse spray tip completely coats inner panels, covers hood and trunk areas. All 3 tips can be used on any of the wands to give the exact spray pattern and coverage desired. Illustrated instruction manual takes you through the rustproofing procedure step by step. All equipment is engineered to exactly match the flow characteristics of the rustproofing chemical below.

Professional Rustproofing Kit.
12—3938U— 1-Kit $39.95

PROFESSIONAL RUSTPROOFING CHEMICAL for above kit

- The same chemical used by a major U.S. auto manufacturer
- Specially formulated to be used under the car as well as on inner panels, rocker panels, doors, hood and trunk
- Seeps into the tiniest cracks and corners to assure complete coverage and protection

One-step, high-performance chemical is easily applied with equipment sold above ... helps add years to the life of your vehicle. Thoroughly tested by being exposed to salt spray for over 2000 hours without failure. High solid content assures better bonding and protection. Chemical actually displaces moisture on the surface to which it is applied. Won't dry out, always stays soft and pliable. Suitable for all climates in North America. Meets government and military specifications for rustproofing chemicals. Includes 4 one-liter containers of rustproofing chemical (enough for one full-size car) and 25 body plugs for sealing panel access holes.

Professional Rustproofing Chemical.
12—3939B— 1-Kit $24.95

Combination SAND BLASTER & SPRAY CLEANER

- Uses some solvent, sand, or other abrasive over and over ... recycles it from any container—even sucks up sand from the floor!
- Requires only 1 HP air compressor for intermittent blasting, 1-1/2 HP or larger for constant blasting with 7.5 CFM air flow. Adjustable flow control. Recycling pick-up tube continuously reuses abrasive while blasting ... no need to stop and refill container. Compact and lightweight. No container needed ... takes its supply directly from bucket, bag or floor. Handles any free-flow abrasive. Includes gun with 3/16" carbon steel nozzle, 3/32" air jet, pickup tube assembly, 10" suction hose and clamps, dustguard respirator, hood, Allen wrench & instructions.

12—1647T— 1-Kit $39.95

Dust Masks.
14—2215W— 1-Pkg. of 5 $2.39

Replacement Air Jet & "O" Ring Set for above.
14—2021Y— 1-Set $2.39

Steel Nozzles for above.

14—2022W—3/16"	Each	$2.89
14—2023U—1/4"	Each	2.89
14—2024B—5/16"	Each	2.89

3-in-1 LIQUID & AIR BLASTER is a SIPHON, too

Operates 3 ways: blasts any liquid that can be siphoned; blasts with compressed air pressure only; blasts with water from a garden hose and air pressure. 1/4" air inlet and std. garden hose fitting and adapter, 2" and 15" extensions, 6 ft. of siphon tubing. Requires 75 to 175 p.s.i. air pressure, uses 7 CFM at 100 p.s.i.

14—5006W— 1-Kit $26.95

Portable 12-volt BUFFER/POLISHER

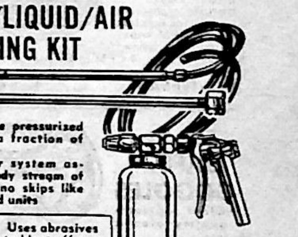

Fast, beautiful results

Oversized 10" buffing head with 1-1/2" thick foam pad moves in an overlapping orbital motion, wiping out swirl marks as buffer glides over the surface. Duplicates the motion of professional machines. Dual hand grips fold up for easy storage. No electrical outlet needed ... simply plug buffer/polisher into cigarette lighter socket. Draws less than 7 amps. Includes buffer/polisher with on/off switch, 20-ft. cord with adapter plug, 2 terrycloth bonnets, instructions.

81—1698B— 1-Kit $24.95

Replacement Bonnets. Includes one applicator bonnet & one buffing bonnet.
81—1699P— 1-Pkg. of 2 $3.99

Delivers blasts over 100 MPH! SAND/LIQUID/AIR BLASTING KIT

- Works like pressurized unit—at a fraction of the cost!
- Aspirator system assures steady stream of material, no skips like gravity-fed units

Easy to use! Just put aspirator tube in bag of abrasive and pull the trigger. Also sprays cleaning liquids and engine degreasers. 19" extension wand keeps you clear of flying overspray. 1-quart plastic bottle handles both abrasives and liquids. Gun converts to a blow gun with safety nozzle. Includes blaster gun, bottle, extension wand, ceramic nozzle, safety blow gun nozzle (meets OSHA specs), aspirator tube, 8-ft. hose, 1/8", 5/64", 3/32" orifices, instructions. Operates on 60 to 150-lb. air pressure. Requires 1 HP or larger compressor.

14—9289U— 1-Kit $39.98

Extra Ceramic Nozzle for unit above.
15—7862R— Each $4.49

Dust Masks.
14—2215W— 1 Pkg. of 5 $2.39

Heavy-duty BLAST GUN

- Blasts sand or air ... sprays any pourable liquid
- Ideal for cleaning, removing rust, undercoats, degreasers

Works with any 1 HP & larger compressor that supplies minimum of 4 CFM at 70 psi. Accepts 70-150 psi air pressure. Requires 12 CFM for continuous blasting, 4 CFM for intermittent blasting at 70 psi. Includes 1-qt. container ... can be connected to larger container. Brass siphon head, replaceable steel spray nozzles, insulated handle 1/4" female NPT inlet. Uses silica sand or any 54 to 36-grit blasting material.

14—4797A— Each $24.98

12—4345A—Extra Nozzles 1-Pkg. of 2 $3.39

3-in-1 Sand Blast, Spray & Blow Gun

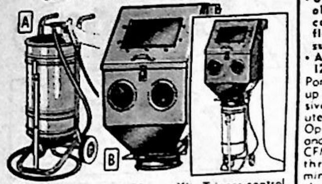

For sand blasting small parts—removing rust and scale—also etching glass and metal. Sprays oil liquids. Use as blow gun for cleaning and drying parts. Operates off any air compressor. Operates on 60 to 150 lb. air pressure. With gun siphon tube, tube, instructions. (Sand and hose not included.)

14—5740X— Each $12.98

14—2215W—Dust Masks 1-Pkg of 5 $2.39

Portable SAND BLASTER & BLASTER CABINET

A Heavy-duty Sand Blaster Kit. Trigger-control gun controls air pressure and blasting action. Standard-size nozzle with wide blasting pattern assures spotless surfaces, ready for painting. Operates on 50 to 200 psi pressure supplied by any 1-1/2 HP or larger compressor (not included). Requires 20 CFM at 100 psi. 22-gauge galvanized steel hopper holds 8 gallons or 100 lbs. of abrasive (silica, hard sand, nut shells, metal shot, aluminum oxide or glass beads). Gun also acts as a liquid blaster to clean motors, etc. (5/8" auto heater hose required.) Easy-roll wheels. Includes gun, hopper, 10-ft. long abrasive hose, 2 extra nozzles, one extra air jet. Order cabinet B below for cleanest, most economical blasting.
18—8688U— 1-Kit $84.99

B Blaster Cabinet. Strong 18-ga. steel cabinet attaches easily to hopper in blaster kit A above, lets you work anywhere without spreading grit or dust into the air. Economical—abrasive is contained within cabinet and falls back into hopper for use again and again. 20" x 20" x 26" working area. Easy-access swing-up door. With windows and enclosed light fixture (bulb not included). Includes mounting hardware, 8-ft. cord, pair of gloves. Shipped from factory. No C.O.D. orders. Not Mailable—See How to Order Page (Truck Shipments). Shpg. wt. 65 lbs.
97—2397BFE— $329.95

Replacement Nozzle/Air Jet Kit for A above. With 2 nozzles, one air jet, one Allen wrench.
15—9593Y— 1-Kit $5.69
14—2215W—Dust Masks 1-Pkg. of 5 $2.39
15—6690N—Protective Hood Each 4.39

DUAL-ACTION AIR SANDER

Rotary action for smooth, circular orbital action for a patternless finish. 6" diam. sanding pad. Lightweight (approx. 4-1/4 lbs.) and easy to handle. Covered handle for comfort. 8,000 RPM maximum no-load speed. 1/4" air inlet. 4 CFM at 90 psi. Sanding disc not included.
81—1986A— Each $34.95

Fog-free SAFETY GOGGLES

- Clear optical-quality plastic lens

Plastic body is ventilated to prevent fogging. Fits comfortably over eyeglasses. Adjustable headband.
81—1706T— Each $1.79

Portable Pressurized SAND BLASTING KIT

- Uses less air and less abrasive with more consistent abrasive flow than non-pressurized blasters
- A.S.M.E. certified 12-ga. steel hopper

Portable hopper holds up to 100 lbs. of abrasive for 35 to 45 minutes of blasting time. Operates between 40 and 125 psi ... uses 15 CFM at 80 psi. 1-1/2" threaded T closure minimizes accidental closure failure. Easy-roll wheels. Includes heavy-duty 2-ply gum rubber hose (10 ft. long with 1/2" inside diameter), safety on-off valve that automatically closes when released from grip; adjustable flow valve for precise regulation of air/abrasive flow; case-hardened hose fittings, built-in recessed top for easy loading; 0-160 psi gauge; choke valve; 1/2" air intake valve; three 1/8" and one 3/32" ceramic nozzles; instructions. Shipped from factory. No C.O.D. orders.
96—4462TF— 1-Kit $329.95

Protective Hood, Bump Cap and Respirator for unit above. See shipping information above.
96—4463AF— 1-Kit $19.99

Extra Nozzles for unit above. See shipping information above.
96—4464RF—3/32" orifice Each $3.99
96—4465WF—1/8" orifice Each 3.99

Dust Masks.
14—2215W— 1-Pkg. of 5 $2.39

Complete • Professional-style Heavy-duty SAND BLAST KIT

- Rustproof molded hopper
- Virtually indestructible
- Holds 100 lbs. of sand or other abrasive

Ideal for automotive, welding, paint and body shops. Aluminum legs and rubber-tired wheels. Operates on 40-200 lbs. pressure of volume; 7.5 CFM. Can be filled while operating. Includes heavy-duty hopper, suction gun with on/off trigger, sandblast hood, dust respirator, 10-ft. sand hose and fittings, 3/32" hardened steel air jet, 3/16" hardened steel nozzle and allen wrench. Order spare nozzles, air jets below.
18—8966U— 1-Kit $99.95

Dust Masks.
14—2215W— 1-Pkg. of 5 $2.39

Replacement Air Jet & "O" Ring Set for above.
14—2021Y— 1-Set $2.39

Steel Nozzles for above.
14—2022W—3/16" Each $2.89
14—2023U—1/4" Each 2.89
14—2024B—5/16" Each 2.89

Heavy-duty STRAIGHT-LINE SANDER/FILERS

- Great for auto body and sheet metal work
- Big 40 sq. in. surface does big jobs fast!
- Lightweight to help prevent fatigue

Deluxe 2-piston 4-cyl. sander/filer (shown) gives 3,300 one-inch strokes per minute at 90-125 p.s.i.—50% faster than model sold at right. Bearing-supported pistons help stop vibration. Weighs only 6 lbs.—almost a pound less than other sanders. Extruded aluminum body, hardened steel mechanism and steel cylinder liner for long service life. Permanent sanding shoe accepts both clip-on and adhesive-backed paper. Pad size: 2-1/2" x 15-1/2". Minimum hose 3/8". 7 CFM air consumption. Order air regulator at right.
14—7735Y— Each $79.95

Heavy-duty single-piston, 2-cyl. Sander/filer (not shown). Similar to model at left, except operates at 2000 one-inch strokes per minute at 90-125 p.s.i. 6 CFM air consumption. Cast aluminum alloy body. Weighs 5 lbs. Replaceable pad. Order air regulator below.
14—7736W— Each $69.95

Regulator with Gauge (not shown). Measures 0-160 p.s.i. in 10-lb. increments.
14—3302A— $7.95

Super fast...delivers blasts over 100 MPH! Portable SANDBLASTER

Works like a pressurized unit—at a fraction of the cost!

CLEANS — STRIPS — ABRADES

- For auto, home, shop or garage use
- Blasts off rust, scale, carbon, corrosion and paint faster than ever before
- Cleans castings, welds, concrete, textured surfaces as easily as flat surfaces
- Efficient, effective ... produces a steady stream of abrasive without skipping, missing
- Lightweight, portable ... no hopper required
- Wear-resistant ceramic nozzle included

Cleans many times faster than conventional systems—save you time and money! Remarkable aspirator system assures a continuous flow of blasting material independent of height and gravity. Won't skip like gravity-fed units. Easy to operate anywhere ... just put the aspirator tube in the bag of abrasive and pull the trigger. Pistol-grip handle has large, sure-grip trigger with variable-blasting control and locking clip. Versatile ... uses sand, aluminum oxide, metal shot, glass beads and many other abrasives. Virtually maintenance-free operation, because super-hard ceramic nozzle is far superior to hardened steel, stainless and standard ceramic nozzles. The uses for this system are endless. AUTOMOTIVE. Strip scaled rust and paint from hard-to-reach areas like drip mouldings, seams, chrome strips, panels, license frames, valves ... blast off grease and corrosion from engine block and other areas. Also sprays liquids such as engine degreasers.

HOME and SHOP. Clean and maintain everything from suede to heavy equipment ... excellent for etching and shape carving ... prepares metals for welding or removing weld scale. Includes blaster gun, aspirator tubes, 8-ft. hose with 2 clamps, ceramic nozzle, 1/8" and 5/64" orifices and instructions. Operates on 60 to 150-lb. air pressure. Requires 1 h.p. or larger compressor.
15—7861A— Each $34.98

Extra Ceramic Nozzle for unit above.
15—7862R— Each $4.49

Dust Masks.
14—2215W— 1-Pkg. of 5 $2.39

WELDING COMPOUND

- Strong, permanent
- Can be drilled, machined
- Withstands heat, vibration

Bond or fill iron, steel, copper, aluminum, brass, bronze, wood, ceramic. Repair valve seats and blocks, cylinders, radiators, more. Just guides, blocks, cylinders, reduces slag steel-iron & hardener apply, let dry 4-6 hours.
15—0233P—Makes 2 oz. 1-Kit $2.99
14—2367N—Makes 10 oz. 1-Kit 8.98

ANTI-HEAT COATING

- Insulates metal, glass, rubber, almost any material against heat up to 3000° F

Protects areas adjacent to spot being welded, brazed, soldered ... eliminates need to disassemble parts being repaired ... prevents damage from transmitted or radiated heat ... prevents buckling, warping of metal panels, etc. caused by uneven heat expansion. Smooths on easily, won't run. Portions not scorched or blackened may be removed with damp cloth & reused. Non-toxic to skin, produces no fumes.
12—3610R—Each $6.98
12—3611X—8-oz. jar 12.98
12—3612N—16-oz. jar 19.98

WELDING TORCH KIT for ALL PLASTICS

- Welds ABS, polypropylene, polyethylene, PVC & thermoplastic polyurethane
- Self contained—no air compressor required
- Heat adjusts from 350° to 800° F

Make professional-looking repairs on dashboards, grilles, bezels, etc.—save on costly replacements. Compact torch weighs only 2 lbs., has pinpoint stainless steel welding tip to concentrate heat where you want it. 120-volt ... draws only 2 amps. With stand (to hold torch horizontally or vertically), 20 assorted rods (4 each of the types sold below), instructions. See shipping note below.
97—1691RF— 1-Kit $99.99

Replacement Torch Heating Element. See note below.
97—1693NF— Each $9.49

Welding Rods. Box of 20. See note below.
97—1694TF—ABS Rods 1-Box $11.99
97—1695PF—Polypropylene Rods 1-Box 8.99
97—1696YF—Polyethylene Rods 1-Box 7.99
97—1697WF—PVC Rods 1-Box 8.99
97—1698UF—Thermoplastic Polyurethane 1-Box 19.49

Welding Rod Assortment. Includes 4 each of the types listed above. Box of 20. See note below.
97—1699BF— 1-Box $12.99

Heat Gun. Similar to torch above, but without welding tip. Temperature adjusts from 700° to 1000° F. Great for removing vinyl tops, removing or drying paint, shrinking tubing. Weighs approx. 1 lb. 7000 RPM motor. 8 CFM. 120 volt ... draws 8.3 amps. UL listed, CSA & L.A. Laboratory approved. With stand, instructions. See note below.
97—1692XF— Each $69.99

NOTE: Shpd. from factory. No C.O.D. orders.

1-lb. Spool of SOLDER

- Choice of rosin core, acid core or solid wire

Easy-flow 1/8" diam. solder melts at 460°-575° F with soldering iron or gun.

Rosin Core Solder. For electrical applications.
12—3686R— Each $2.19

Acid Core Solder. For non-electrical applications.
12—3687X— Each $2.19

Solid Wire Solder. For sheet metal and sweat-fitting repairs.
12—3688N— Each $2.19

ALUMINUM BODY FILLER

Strong bonding body filler for metal leveling, mending, overlaying welds and as a finish coat over all types of fillers
- Sure results on any restoration work
- Excellent adhesion and smoothness

Aluminum-filled body repair formulation makes up strength and toughness in damaged body sections. Rustproof and waterproof, with easy filing and sanding characteristics. Has all the desirable characteristics of lead, but will not warp. Includes hardener.
12—3133B—Quart Each $8.99
12—2293T—Gallon Each 29.99

AUTO BODY FILLERS

Repair holes and fill dents in auto bodies, fenders easily! Makes permanent repairs on metal, plastic, glass, wood. Easy to apply, finish.

Body Repair Kits. Everything needed for quick, easy repairs. Includes plastic body filler, hardener, sheet of fiberglass screen, plastic spreader, instructions.
1-lb. Kit. (1 pint, 3" x 12" screen)
14—1165U— 1-Kit $2.99
2-lb. Kit. (1 quart, 3" x 20" screen)
14—1166B— 1-Kit $3.99
8-lb. Kit. (1 gallon, 12" x 12" screen)
14—1167P— 1-Kit $11.99

Body Filler with Hardener (not shown). Extra flexible. Goes on smoothly ... sets hard and solid. Foolproof mixing, easy sanding.
17—4690W—1/2 Pint Each $1.69
17—4475A—1 Pint Each 2.49
17—4476R—1 Quart Each 3.99
17—7450A—1 Gallon Each 9.99

Non-tack Body Filler (not shown). Dries to a non-tacky surface that can be sanded quickly.
14—9236N—1 Quart Each $5.99
14—9237T—1 Gallon Each 14.99

Spot & Glazing Putty (not shown). Fills small pits, scratches, shallow dents and imperfections.
15—9964A—1-lb. tube Each $2.69

Now, for the first time...a gas welding torch that can weld and cut aluminum & other metals

- Welds and cuts aluminum, stainless steel, cast iron, copper, brass, lead, mild steel and other ferrous and non-ferrous metals
- Saves gas, reduces slag
- Pistol-grip design for accurate control

Now even an amateur can weld aluminum or stainless steel as easily as if using a MIG or TIG welder ... without the expense. This amazing unit has a revolutionary mixing chamber that produces complete combustion and reduces slag formation so metals won't oxidize the instant they melt ... assures that they can be easily welded. Also welds cast iron, even using a dropped iron or nickel filler rod. The flame produced is much hotter and more concentrated than that of typical gas welders now on the market ... it cuts mild steel plate (up to 1" thick) so neatly you'll hardly believe it. It can cut sheet metals with little distortion and cuts up to 1/4" non-ferrous metals using a controlled flame melt. It can weld most metals without using flux (flux is required for aluminum), and it does it at low 4 psi oxygen and acetylene settings in most cases. Less flux usage combined with low fuel usage saves you money. Guide wheels and heat shield are provided to make pattern cutting a breeze. The 4 tips replace as many as 15 required by other gas welders. UL listed. Includes handle, 4 brass tips, plate steel cutting attachment, sheet metal undercutter, acetylene heating tip, guide wheels, heat shield, tip wrench, tip cleaners, upper body plug, set of aluminum flux, 3 sticks of aluminum rod and instructions. Order welding accessories at right if needed. Shipped from factory. No C.O.D. orders.
97—2376WF— 1-Set $249.95

Rustproof, soundproof, insulate and strengthen your vehicle's body! POLYURETHANE FOAM SPRAY & FILL

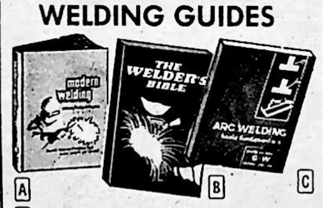

- Foam EXPANDS to fill hollows, cracks, gaps, holes economically, efficiently and easily
- AUTOMOTIVE USES: seals hollows and seams where moisture collects and rust can form ... fills openings between panels to deaden sound ... simplifies body repairs ... strengthens trunks, fenders, under frame cavities to minimize impact damage ... waterproofs interior panels ... insulates ... fills gaps around floor boards
- HOME USES: stops air leaks around doors & windows to save energy ... seals ducts, plumbing, heating pipes ... acts as electrical insulation ... repairs acoustical tile ... fills cracks in roofs, ceilings

Easy to use ... requires no mixing. Flows or sprays on where you want it. Bonds beautifully to most materials except Teflon, silicone and polyethylene. Dries fast, can be sanded or cut, accepts paint or lacquer. Non toxic, moisture and chemical resistant. Low conductivity.

A Foam Spray. Ideal to fill or cover large areas. Expands 2 times its volume. 3 cans fills all cavities on any car or light truck. Net wt. 35-oz. aerosol. Includes screw-on spray nozzle.
14—5016N— Each $14.98

B Foam Fill. Aerosol caulk does the work of more than 30 conventional caulking cartridges! Expands 3 times its volume to professionally fill gaps, cracks, seams in rocker panels, fenders, trunk, any hidden or recessed body area. Net wt. 35-oz. aerosol. Includes 8" extension nozzle and 3" pinpoint nozzle.
14—5021N— Each $14.98

WELDING GUIDES

A Modern Welding Guide. Provides up-to-date coverage of entire welding field. Covers processes, including oxy-acetylene and arc welding. 752 pgs. with over 1,370 illustrations.
16—5063N— Each $15.99

B Welder's Bible. Step-by-step guide to procedures and preparations, more. 405 pages with illustrations.
16—6779N— Each $9.99

C Arc Welding Fundamentals. Step-by-step fundamentals of welding. Over 300 illustrations and diagrams. 128 pages.
16—5624U— Each $4.99

Extra-deep HOLE SAW with 7 blades

- Fits any size drill ... cuts thru a 2 x 4

Tough 1-7/8"-long, 1/16"-deep steel blades. Sizes: 1", 1-1/4", 1-1/2", 1-3/4", 2", 2-1/4" and 2-1/2".
15—5734B— Each $2.99

Welding Accessories (not shown) for use with welder at left. Includes 12-1/2 ft. twin hose with fittings, oxygen regulator with gauge (0-4,000 psi), acetylene regulator with gauge (0-400 psi), spark lighter and goggles.
12—3427Y— 1-Set $9...

Tanks and Cart (not shown) for welder at left. Includes 10 cu. ft. acetylene tank, 20 cu. ft. oxygen tank and 2-wheel cart. Both tanks are empty.
12—3664W— 1-Set $1...

WELDING HELMET

- Choice of lift-up or fixed welding plate

Molded industrial-grade thermoplastic shell is tough, lightweight, non-flammable, splatter resistant. Comfortable headgear has ratchet-type adjustment and tilt adjustment knob. 4 position stops for nod-down use. Replaceable No. 10 shaded front welding plate. Meets ANSI Z87 specifications.

Helmet with lift-up welding plate (shown). 2" x 4-1/4" glass plate in shell. Lets you inspect work without removing helmet.
12—2767Y— Each $18...

Helmet with fixed welding plate (not shown).
12—2766P— Each $14...

Replacement No. 10 Shaded Welding Plate.
12—2768W— Each $...

WELDER'S GOGGLES

- With flip-up shaded lens

Soft vinyl goggles (with stationary clear safety lens) conform to facial contours. Replaceable No. 5 shaded lens protects against spatter and scratches by a clear lens. Shaded lens flips down for welding, brazing, tips, grinding. Fits over eyeglasses. Heat resistant lenses. Anti-fog ventilators. Meets OSHA Standards Z87.1 and all government specifications.
12—2771P— Each $7...

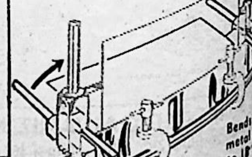

Replacement Lenses for above.
12—2772Y—No. 5 Shaded Lens
12—2773W—Clear Safety Lens
12—2774U—Clear Protective Lens

Long Strand Glass Fiber Reinforced AUTO BODY FILLER

- Fills major injuries on fiberglass and metal body parts; reinforced with chopped fiberglass for large, rusted-out or damaged areas

Can be hand-forced into, behind and around edges, lips, rust holes and cracks; areas where it will be impossible to reach with putty knife or squeegee. Eliminates the need to use fiberglass cloth or matting. Contains long strands of fiberglass that criss-cross over large areas creating a rustproof, waterproof and STRONG BOND—durable base for lighter filler or spare blade below. Suitable for metal or fiberglass parts. Includes hardener.
12—3187Y—Quart Each $...
14—2287N—Gallon Each ...

SHEET METAL BENDING BRAKE for Auto Body Repair

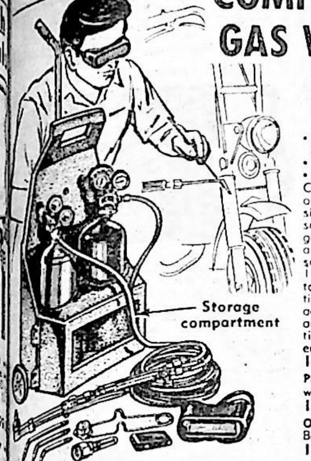

Bends panels up to 18" ... Works on steel up to 20 gauge, aluminum up to 18 gauge, copper and more. Produces bends up to 90°. Just adjust proper gauge and squeeze handles. Quickly creates a flange for installing patch panels. Quick ... with instructions. Clamps not included. With instructions (not included). Two 1" to 3" "C" clamps (not included) ... clamps available below.
14—9226W— Each $2...

2"-"C" Clamps for use with above.
14—9235X— Each ...

CHARGE YOUR ORDER ON YOUR VISA OR MASTERCARD

COMPLETE • PORTABLE GAS WELDING OUTFIT

Includes oxygen and acetylene tanks

Storage compartment

- Built for heavy use yet light enough to go everywhere with you
- Welds steel up to 1/8" thick
- Cuts steel up to 1" thick

COMPLETE outfit includes: 20-cu. ft. capacity oxygen tank, 10-cu. ft. capacity acetylene tank, single-stage oxygen and acetylene regulators for gauges (100 psi and 4000 psi for oxygen; content and 30 psi for acetylene); vented mixing handle; small, medium and large tips to weld up to 1/32", 1/16" and 1/8" precision-machined cutting attachment with solid forged head; medium cutting tip; 12-1/2 ft. of twin hose with fittings; regulator adapter; cart with storage compartment and storage area for all components; spark lighter; goggles; tip cleaner; instructions. Note: Both tanks are empty.
12—3025P— 1-Outfit $299.95

Portable Gas Welding Kit. Same as above, but without tanks and cart.
12—3024T— 1-Kit $157.99

Oxygen and Acetylene Tanks and Cart. Note: Both tanks are empty.
12—3023N— 1-Set $169.99

JELLIED FIBERGLASS BODY REPAIR KITS

Special formula won't droop or sag while being applied, even on vertical surfaces!
Maintains smooth, uniform consistency ... requires minimal sanding ... filing or feather-edging for ... time, money

... strong, waterproof, permanent repairs. Includes special repair jelly, cream hardener, top-coat, release paper, clear release film, tray, 2 spreaders, fiberglass cloth and mat, instructions. Each kit covers area stated with double thickness.
...0215X—Covers about 288 sq. in. $8.99
...0216N—Covers about 495 sq. in. 15.99
...0217P—Covers about 1,296 sq. in. 21.99

...Fiberglass Resin. Includes hardener.
...4905P—Quart Each $6.99
...4906Y—Gallon Each 23.99

Automatic CENTER PUNCHES

... one-hand operation—no hammer needed. AUTOMATICALLY strikes a sharp blow when ... press down on punch. Adjustable knurled cap regulates force of blow. Use for marking, punching, riveting ... or making a hole or indentation to prevent drill bits from wandering. Knurled handle, alloy steel body with heat-treated alloy steel point.
...5031U—5-3/4" L. x 11/16" diam. Ea. $7.99
...5033P—4-3/4" L. x 1/2" diam. Ea. 6.99

Replacement Points for punches above.
...5032B—For 5-3/4" long punch Each $1.59
...5034T—For 4-3/4" long punch Each 1.59

SHEET METAL CUTTER

Cuts without distortion ... jagged edges or burrs ... follows pattern easily ... cuts up to 20-ga. mild steel or 18-ga. aluminum, brass, copper, etc. quickly and easily. Cuts straight lines, circles and curves without bending. Cuts neater, requires less leverage than tin snips. Steel alloy construction. Order spare blade below.
...—0736B— Each $23.79

Economy Cutter. Similar to above except with plastic handle, steel alloy cutting jaws. Order spare blade below.
15—5620N— Each $19.98
15—0737P—Spare Blade Each $4.98

Sheet Metal Crimping Tools

- Choice of 1" jaw for production work or 1/2" jaw for close-tolerance work
- Speeds repair of rusted, damaged auto bodies

Non-slip grooves ... forged steel jaws with strong heat-treated metal alloy inserts ... Fingertip gauge adjustment ... wingnut ... quick-release lever allows easy maneuvering in ... to use. Just adjust proper gauge and squeeze handles. Quickly creates a flange for installing patch panels. Quick set for setting repair ... Approx. 7-1/2" long.
14—7821W—With 1/2" jaws Each $23.98
14—7820W—With 1" jaws Each 27.98

4-pc. Ball-Peen Hammer Set

... glass handles ... heads ... 8, 12, 16 & 24 oz. hammers.

Deluxe LEADING KIT for Professional Auto Body Repairs

Lead produces a more permanent repair than body fillers and fiberglass. It's used by automobile manufacturers to bond critical seams. Unlike fillers or fiberglass, it won't crack, lift or shrink when properly applied following the included instructions. Easier to use than fillers or fiberglass, too. Lead, once applied, can be heated and reshaped easily. No need to wait for curing, no need to apply additional coats. Kit includes:
SOLDER PADDLES. Choice hard maple for long-lasting, clog-free use ... boiled in tallow to preserve and lubricate. 6 types with blade sizes listed below.
TALLOW 1-lb. tub to clean and lubricate paddles and to prevent lead from sticking.
LIQUID FLUX. Produces a tight, perfect bond between lead and steel to assure a feather-edge that won't chip or peel. Super concentrated. Built-in sprayer eliminates waste, prevents spills. One 8-oz. bottle of standard flux and one 8-oz. bottle for stainless steel, alloys and severely rusted and pitted steel auto bodies.
70/30 LEAD. 8 bars ... approx. 4 lbs. Components in kit sold separately below.
14—2008N— 1-Kit $59.99

LEAD WORKING TOOLS

Solder Paddles. Described above.

Size	Stk. No.	Each
4" x 1-3/8" flat blade	14—1994X	$3.99
4" x 1-3/4" flat blade	14—1995U	3.99
5" x 1" round blade	14—1996B	3.99
4" x 1-3/8" flat blade	14—1997P	3.99
5" x 1" flat blade	14—1998Y	3.99
4" x 1-3/8" round blade	14—1999W	3.99

Tallow Block. Described above. 16 oz.
14—2000B— Each $5.29

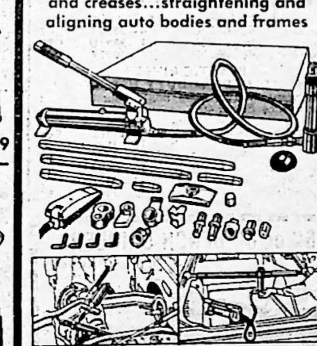

Liquid Flux. Described above. 8-oz. spray bottle.
14—2001P—Standard Each $3.79
14—2002Y—Stainless steel/alloys Each 3.99

Lead Bar. Approx. 1/2 lb.
14—2003W— Each $3.49

Soldering Tip. Slips over the end of any acetylene torch tip. With instructions.
14—8979A— Each $7.98

Portable Hydraulic 4-TON RAM SYSTEM

Perfect for repairing all dents and creases...straightening and aligning auto bodies and frames

- Powerful yet compact enough to get in to tight places
- One release valve controls raising and lowering
- Includes all needed attachments

Make collision damage repairs in half the time it takes with conventional pounding methods. Use ram system to straighten and align panels, fenders and other auto body parts. Great in hard-to-reach areas. Use it for positioning, straightening or raising machinery, etc. in the shop. Easy-to-operate hydraulic pump is controlled by hand ... supplies 8650 psi—enough power to operate all attachments. High-pressure connecting hose is internally reinforced to withstand overloads up to 20,000 psi ... assures maximum safety. Includes assorted accessories for greater versatility. Ram has 5" stroke. Extended height: 13". Collapsed height: 8". Spreader capacity: 1 ton. Weighs 48 lbs. Includes: 66" connecting hose; 3", 5", 10", 18" and 23" steel extension tubes; 2-1/2" adjustable head; spreader; flat base; ram toe; serrated saddle; 90° V base; rubber head; female adapter; plunge toe; clamp head; male adapter and connector; 4 lock pins; 3 lock-on connectors; instructions; lockable metal case.
89—9922P— 1-Kit $149.95

Repair Kit for pump. Contains fitting, check ball, gaskets, "O" rings and snap rings.
81—1373B— 1-Kit $3.49

Wedge Ram. Replacement attachment for system above (maximum load 1 ton).
81—1506X— Each $19.99

4-pc. PRY BAR SET

Ideal for aligning bumpers, tightening belts, prying or adjusting body parts, countless automotive uses. Rounded head for smooth prying, tapered end for easy hole alignment. Heat-treated and hardened chrome vanadium steel with black oxide finish. Sizes: 5/16" x 6", 7/16" x 12", 9/16" x 16" and 11/16" x 20".
14—9343R— 1-Set $19.95

VACUUM SUCTION DISC

- Pulls out big panel dents quickly, easily
- Lets you lift flat, heavy objects such as windshields

Large 6" disc has 33% more capacity than standard 5" discs. Steel handle for pulling with chain or jack. Handle swivels and flexes, has low silhouette for tight spots. Rubber suction pads need no wetting. Easy release.
75—3231Y— Each $9.98

SUCTION CUP DENT PULLER

Big 4-3/4" diameter cup with molded-grip handle holds fast ... pulls out shallow dents easily. Also lets you safely lift flat, heavy objects like windshields or sheet metal. Easy to release with fingers.
88—8504Y— Each $2.99

GRINDING WHEEL DRESSER

Keeps all grinding wheels clean, sharp and true. Quickly removes high spots, roughness or packed-in carbon or metal. Made of cast aluminum with 4-wheel 1/2" wide high-carbon steel cutter. 8" long overall.
14—4591Y— Each $4.49

Replacement 4-wheel Steel Cutter for above.
14—4592W— Each $1.79

DELUXE NIBBLER

Hand-operated nibbler with spring-powered return cuts up to 18-gauge steel ... also cuts brass, copper, aluminum and non-brittle plastic up to 1/16" thick. Works on any size or shape, starting from the edge or from a 3/8" inside hole.
12—3663Y— Each $8.95

Multi-purpose • 16-pc. SLIDE HAMMER PULLER SET

Steel construction

Combination puller with 5-lb. slide hammer pulls body dents, axles, seals, hubs ... converts into a 2 or 3-jaw internal/external puller to remove races, gears, bearings quickly and easily—even in hard-to-reach spots. Includes: hammer, dent puller adapter with screw, hook and axle adapters, 3 pulling arms, 2-jaw head, 3-jaw head, locking pliers adapter (pliers not included), 3 hardened bolts; locking nut; metal storage box.
12—2991U— 1-Set $49.95

AUTO BODY DIMPLE TOOL

Makes small hollows around damaged areas into which fasteners can be countersunk. Fastener heads are hidden when body filler (not included—see Index) is applied.
14—8399B— Each $7.99

Over 1 ton of punch power in your hand! METAL PUNCH KIT

- Punches 7 sizes of precision round holes in aluminum, plastics, brass, even 16-ga. mild steel
- Compound leverage for easy operation
- Eliminates need for electric drill or drill press

Ideal for the auto body repairman, mechanic, home handyman. Balanced tool with curved easy-grip handles weighs only 3 lbs. Main components are drop forged and heat treated. 8-1/4" long overall. 1-3/4" deep throat. With 7 punches and dies (one each 3/32", 1/8", 5/32", 3/16", 7/32", 1/4", 9/32"), metal case.
81—0703A— 1-Kit $19.99

GIANT 25-pc. BODY and FENDER TOOL KIT

Our most complete kit! Versatile enough to handle big repair jobs. Contains the following drop-forged tools: bumping spoon, medium crown spoon, curved finishing and grooving hammer, finishing and dinging hammers, combination rubberset hammer, short and long pry bars, 2 long picks. The following tools are cast iron: anvil hammer, mushroom, cartrack, heel, toe, double-end, wedge, roller, utility, comma, shrinking, general purpose dollies, and 12" 2-lb. dent puller with replaceable tip. Fender flange tool is formed steel.
15—9325N— 1-Kit $119.99

12-pc. DELUXE BODY and FENDER TOOL KIT

Contains the following drop-forged tools: straight, curved pick & rubber hammers. The following are cast iron: bumping & anvil hammer, mushroom, cartrack, heel, toe, double-end mushroom & comma dollies. Formed steel fender flange.
15—9327A— 1-Kit $49.95

9-pc. BODY and FENDER TOOL KIT

Includes cast iron bumping hammer, anvil hammer, mushroom dolly, cartrack dolly, wedge dolly, utility dolly, small comma dolly, large comma dolly. Steel: dinging hammer. Handles most small-to-medium size body & fender repairs.
75—2303W— 1-Kit $34.99

6-pc. Deluxe Kit. Includes finished or polished cast iron bumping hammer, heel and toe dollies, small hand dolly, utility dolly and flange tool.
74—2835Y— 1-Kit $17.99

5-pc. Deluxe Kit. Like above, but no flange tool.
74—2834A— 1-Kit $13.99

3-pc. Deluxe Kit. Incl. bumping hammer, heel & toe dollies as in 74—2835Y above.
74—2833X— 1-Kit $5.99

3-pc. Economy Kit. Like above, except tools are not finished or polished.
51—0229T— 1-Kit $4.99

BODY REPAIR TOOLS

Drop-forged hammers, spoons and cast iron dollies with polished faces.

Item	Stk. No.	Each
1. Small Comma Dolly	14—4682N	$6.99
2. Heel Dolly	15—9329X	4.99
3. Toe Dolly	15—9330N	4.99
4. Cartrack Dolly	15—9331T	4.99
5. Long-handle Spoon Dolly 18" long overall	15—8465P	19.98
6. Dinging Spoon. 1-7/8" x 4" surface. 18" long overall	14—3111W	7.95
7. High Crown Spoon and Pry Bar. 3-way tool. Approx. 18" long	15—1632T	22.99
8. Shrinking Dolly. Shrinks sheet metal to overcome stretching caused by dents. Dimpled surface. 1-1/4" x 2-1/4" x 4-1/2" Weighs 3-1/4" lbs.	14—3274B	14.99
9. Adjustable File Holder	14—8960A	24.98
Replacement Blade	14—8961R	12.49
10. Pick Hammer	15—9328R	7.99
11. Flexible Sander. Holds 3" x 11" wet or dry sandpaper	75—0249R	2.49
12. Straight Grooving Shrinking Hammer. 11-oz. head	14—8602R	9.99
13. Bumping, Shrinking Hammers. 12-oz. head	14—8600T	9.99
20-oz. head	14—8601A	11.99

COMBINATION PULLER with 3-lb. SLIDE HAMMER

• 4-way puller: pulls dents, seals, bearings & gears

Solid steel shaft and handle with vinyl grip. Hang-ing hole for easy storage. Hook attachment lets you pull bearings, gears and oil and grease seals from transmissions. Includes heavy-duty rivet, cone, bodyman puller, puller screw and one "L" hook.

81—1742Y— ... Each $8.98

ALUMINUM FORMING SHEET

• Unlimited uses ... makes vehicle repair, renovation or customizing easier than ever!

Professional results even for the beginner! Just cover forming sheet with auto body patching compound (not included—see index), sand smooth and paint as desired. Stamped, expanded 3-way thick aluminum mesh can be stretched and formed into ANY shape—and it stays that way! Great for re-shaping major rusted-out areas on your vehicle.

14-3435P—3-1/2 sq. ft. sheet ... Each $9.49
14-2436Y—6 sq. ft. sheet ... Each 14.99

Halon & Dry Chemical FIRE EXTINGUISHERS

• Effective against Class B (flammable liquid) and Class C (electrical) fires

Ideal for car, boat, RV, home, shop or farm use. UL listed. Meets D.O.T. and U.S. Coast Guard requirements. Includes pressure gauge and mounting bracket. Rechargeable.

Halon Fire Extinguisher (shown). Liquid/gas mixture provides maximum fire-fighting efficiency. Evaporates after discharge leaves no messy residue to harm engines, machinery, etc. Electrically non-conductive. Extinguishes 5 square feet of Class B & C fires.

12—3030P— ... Each $34.95

Dry Chemical Fire Extinguisher. Smothers fires with odorless sodium bicarbonate. Extinguishes 10 square feet of Class B & C fires.

12—3029B— ... Each $14.99

13 & 29-pc. Industrial-quality TWIST DRILL BIT SETS

29-pc. Set (shown). Jobber's length bits are roll-forged of highest-quality M-2 high-speed steel to meet rigid engineering standards. Black oxide finish for long, dependable bit life. Sizes 1/16" to 1/2" in 1/64" increments. With indexed heavy-duty metal box.

14—1650N— ... 1-Set $39.77

13-pc. Sets as above, with turned-down shanks (not shown).

12—3031Y—1/4" shank ... 1-Set $39.77
12—3034B—3/8" shank ... 1-Set 39.77

13-pc. Set (not shown). Bits have 4 quick-cut points (not 2) to prevent wandering. Hardened high-speed steel, black oxide finish. Sizes 1/16" to 1/4" by 64ths. Indexed steel box.

15—6848R— ... 1-Set $14.99

Industrial-quality V-Shaped RIVETER

• 4 interchangeable screw-in nosepieces set 3/32", 1/8", 5/32" and 3/16" blind rivets
• Spring-loaded handle automatically ejects rivet mandrel

8" overall length provides high leverage to easily break rivet mandrel. Ideal for hard-to-reach places.

81—1085B— ... Each $14.95

Deluxe HAND RIVET GUN KIT
INCLUDES 250 ASSORTED RIVETS IN 6 SIZES

Sets 3/32", 1/8", 5/32", & 3/16" aluminum or steel rivets

• Rivets hold securely ... especially where vibration is a problem or where the back side is inaccessible
• Long-handle gun weighs less than 1-1/2 lbs.

Use on copper, brass, tin, lead, steel, aluminum, plywood, leather, fiber, cloth, aluminum, plexiglass ... virtually any material. Rivets won't easily rust or corrode or come loose. Kit includes heavy-duty rivet gun, powerful enough to do jobs fast. Easy to use. Gun has non-rust zinc alloy die-cast body with strong drop-forged handles and cushioned grips. Chain lock keeps handles closed. Durable 4-position jaw. Also included are specially-hardened nose pieces for 3/32", 1/8", 5/32", and 3/16" dia. rivets. Nose pieces store in gun. Plus 250 assorted aluminum rivets in the following diameters: 1/8", 5/32" and 3/16". With hand lengths of 1/8", 5/16" and 3/8". See Index for a large selection of additional rivets.

Complete Kit 14.95

88—9667B— ... 1-Kit $14.95

Professional BODY REPAIR KIT with 5 or 10-lb. Slide Hammer

Kit with 5-lb. Hammer. 5/8" diam. solid steel shaft & rubber-cushioned handle. Includes hardened alloy steel attachments as shown.

81—1772N— ... $14.98

Professional Heavy-duty Kit with 10-lb. Hammer (not shown). Includes 9 heat-treated attachments plus double-chained hook. Metal storage box.

81—1773T— ... 1-Kit $44.98

1½-lb. DENT PULLER

Ram-action slide puller is powerful enough to pull out rocker panel dents, broken trunk or door locks. Removable hollow nose piece allows use of various sizes of coarse or fine-thread screws with up to 5/8" diam. heads. 12" Made of 5/16" diam. cadmium-plated steel.

88—7197B— ... Each $2.99

MINI HAND-HELD HALON FIRE EXTINGUISHER

• Effective against Class A (wood), Class B (flammable liquid) and Class C (electrical) fires
• Halon 1211 evaporates completely after discharge—no messy residue to clean up
• Only 3" x 6" x 1" ... fits in glove compartment or under seat
• Meets D.O.T. and N.F.P.A. requirements

More effective than conventional extinguishers! Two cylinders release Halon 1211 (a clean gas/liquid mixture) for more pressure and coverage. Does more than just smother the fire ... it actually interferes with the combustion process, reducing the chance of flashback or re-ignition. Snuffs out even obstructed fires from up to 9 ft. away. Weighs only 15 oz. Includes bracket for permanent attachment, built-in clip for on-the-job use and instructions.

12—3570N— ... Each $9.98

DRILL PRESS STAND

• Converts your portable 1/4" or 3/8" drill into an all-purpose drill press
• 2-position—drill in vertical, sand, polish or grind in horizontal

6" x 6" cast aluminum base bolts to work table. Swing-away table with 5" x 5" surface tilts 45°, locks in any position. Safety shield, column base, 18" tubular steel column. Locking depth gauge 0 to 2-1/2" with automatic return. Throat depth: 4-1/2". Easy assembly.

88—8497N— ... Each $16.88

Combination GRINDER/SHEARS

• Cuts steel rods, sheet metal up to 7/8" thick
• Grinds down burrs, unwanted edges, rough spots

Perfect for all auto body panel work. Does everything a shears can do plus cuts muffler clamps and hangers, cuts grooves in pipes and inner brushing sleeves. Operates at 16,000 RPM for fast, powerful cutting and grinding. Feather-touch controls for instant response. Steel safety guards on disc and grip. Rear exhaust keeps dust out of your way. 4-7 CFM air consumption at 90-120 psi. 3" abrasive discs, instructions. Order extra discs below.

14—1562B— ... Each $49.95

Replacement Abrasive Discs for above.

15—8872X— ... 1-Pkg. of 5 $9.95

RIVETING GUN KIT

Economy gun kit takes 1/8" and 5/32" rivets. Kit includes gun and rivets. Recommended for use with aluminum rivets only.

81—1788A— ... 1-Kit $6.77

STEEL, ALUMINUM or PLASTIC RIVETS for use with all rivet guns

Choice of 4 lengths: Short for work up to 1/8" thick; Medium for work 1/8" to 1/4" thick; Long for work 1/4" to 3/8" thick; Extra Long for work 3/8" to 1/2" thick.

6" or 8" BENCH GRINDERS

• Capacitor-start motor
• Lifetime-lubricated ball bearings
• Coarse and fine grinding wheels
• Adjustable, shatterproof eyeshields
• Tool rest
• Enamel finish

6" Heavyweight Grinder. 45 lbs. With 1/2-HP, 3450-RPM no-load motor. 110 volt.

14—9525A— ... Each $39.95

8" Deluxe Heavyweight Grinder. 49 lbs. With 3/4-HP, 3450-RPM no-load motor. 110 volt.

81—2020Y— ... Each $68.95

Heavy-duty NUT SPLITTER

Cracks Rusted or Frozen Nuts 1/4" thru 13/16"

"Open-angled" design for use in limited space—works where other crackers can't reach. Rugged heavy-duty triple chrome plated forged and hardened tool steel. Parallel action plunger cracks nut without damage to bolt threads—cutter never touches bolt. 360° rotation for instant positioning. 6" long.

88—7274R— ... Each $16.98

Replacement Cutter for above.

81—1250B— ... Each $3.98

Quick-change CHISEL RETAINER

Threads on to end of ANY air impact hammer, holds .401" shank chisels securely. Chisels can be changed quickly, safely.

81—1947T— ... Each $5.99

RIVET NUT TOOL KITS

Inserts Threaded Nuts into Any Material Where Back Side is Inaccessible

Thread rivet nut onto tool — Place in pre-drilled hole—clinch handles — Completed application

• Lets one person, working from one side, secure blind threaded nuts easily in seconds
• Ideal for inserting threaded nuts into inaccessible areas so you can use an ordinary screw for easier installation and removal of car radios, brackets, mud flaps, rear window louvers, speakers, ladders, spare tire and gas can carriers, horns ... and many, many more!
• No longer limits you to riveting—allows easy access to backside of your work

[A] No drilling out rivets to remove the fasteners! Drill a hole in panel or wall; then thread rivet-nut on the mandrel of the tool and insert into the hole. Squeezing the handle expands the rear of the rivet-nut and locks it in place—ready for insertion of a machine screw! Handles aluminum and steel nuts in 6/32, 8/32, 10/32, 10/24 and 1/4 x 20 sizes and aluminum nuts in 5/16 x 18 and 3/8 x 16 sizes. Kit includes: 62 assorted rivet-nuts, 7 mandrels, 3 nosepieces, washer, and an Allen wrench. All in a handsome tote box with pop-up tray. Order extra rivet-nuts below. Adapter to convert tool to a riveter sold below.

Kit with all aluminum rivet nuts—grip range 1/16 to 5/64.

14—2238Y— ... 1-Kit $44.98

Kit with steel rivet nuts sizes 6/32 to 1/4 x 20 and aluminum rivet nuts sizes 5/16 x 18 and 3/8 x 16.

14—2309X— ... 1-Kit $49.98
15—8944U—Rivet Adapter ... Each 15.79

[B] Economy Rivet Nut Tool Kit. Similar to kit [A] but has insert/torque tool described in illustration. Kit includes 50 aluminum rivet nuts (10 each of the following sizes) with a grip range 1/32" or more: 6/32, 8/32, 10/32, 10/24, 1/4-20. Each size has its own installation tool consisting of a 1/2" hex sleeve, an Allen-head cap screw and an Allen wrench. Requires a 1/2" wrench (not included—see Index) to install. Detailed instructions included. Order additional nuts below.

REPAIR TAPES

• For auto, home, marine use
• Choice of lens repair, safety reflective and hose repair tapes

Lens Tape. For emergency repairs on taillights, stop-lights, etc. Fixes lens until it can be permanently repaired or replaced. Weather-resistant film with adhesive backing. 2" x 60" roll.

12—4044P—Red ... 1-Roll $1.29
12—4045X—Amber ... 1-Roll 1.29

Safety Reflective Tape. Apply to bikes, cars, jogging suits, almost anything to increase visibility. Weather-resistant film with adhesive backing. 1-1/2" x 30" roll.

12—4046N—Red ... 1-Roll $1.29
12—4047T—White ... 1-Roll 1.29

Hose Tape. Repairs radiator hose or any other kind of hose. Can be applied while hose is damp. Black polyethylene tape, backed with cotton mesh for added strength. Rubber-based adhesive holds securely. 1-1/2" x 125" roll.

12—4048A— ... 1-Roll $1.29

Heavy-duty • Metal-cutting ELECTRIC SHEARS

ONLY 79.95 Each

• 7/32" cut width, adjustable cutting head for side and overhead work
• Cuts straight or eccentric configurations in round, flat or curved surfaces

Double-insulated, die-cast aluminum head, hardened steel blade. .58-HP motor (designed for continuous use) cuts up to 180" of steel per minute with no burring, buckling, or distortion. Cuts metal up to 18 gauge, plastic and other materials up to 3/32" thick. Ball and needle-bearing construction with trigger-lock button, shatter-resistant case, 6-ft. cord. 2200 RPM/4400 cuts per minute, 4 amp. Weighs 4 lbs. UL listed.

12—4167R— Each ... $79.95

Replacement Steel Blade for above.

12—4168X— ... Each $9.95

59-pc. VACUUM HOSE CONNECTOR ASSORTMENT

• Includes 5 types of connectors—straight, 90°, "T", 4 branch & 5 branch

Ideal for connecting or making new joints on 3/16" and 1/4" I.D. vacuum hoses. Tough molded plastic construction. Includes 5-compartment plastic storage box with lid chart.

14—9283X— 1-Set ... $9.98

DRIVEWAY SIGNAL

6" diameter gong. Bell stops automatically if car stops on hose. UL listed cord. 110-volt. Uses standard 3/8" I.D. signal hose (not included—see Index).

75—1765X— Each ... $17.95

480-pc. SNAP, GROMMET & RIVET SET

• Makes installing fasteners easy in wood, metal or most fabrics (canvas, vinyl, nylon, etc.)

Easy-to-use alloy steel vise-lock pliers with 12 attachments for setting fasteners, removing rivets, punching holes or countersinking. Set includes each 1/4" washers & eyelets; 40 each 3/16" washers & eyelets; 20 each buttons, button backs, snaps, snap backs and snaps with screws; seventy 1/8" rivets; sixty 5/16" rivets; 3/16" rivets; storage case and instructions.

81—1509A— 1-Set ... $14.[illegible]

Cold Fusion REPAIR TAPE

Hundreds of uses

• Fuses together by cold chemical action—no heat required

Dielectric, pressure-resistant black tape is great for radiator/heater hose leaks, waterproofing electrical connections, insulating tool grips. Wrap around desired area and in minutes you have a one-piece repair. Withstands temperatures from −104° to +212°F. Impervious to gas or oil. Includes 10-ft. roll of 1" fusion tape, 10-ft. roll 1" reinforcement tape, instructions.

12—3703B— ... 1-Kit $3.[illegible]

Heavy-duty POWER SHEARS

Geared motor cuts everything from foam rubber to 18-ga. steel quickly, easily without distortion or stalling. 2200 RPM/4400 cuts per minute. 90 psi, 4 CFM air consumption. Weigh 4 lbs. Shipped from factory. No C.O.D. orders.

[A] 96—5586YF—Straight-line ... Each $99.95
[B] 96—7653UF—Pistol-grip ... 99.95

Replacement Blade. Shipped from factory. No C.O.D. orders.

96—5049XF— ... Each [illegible]

4-pc. "C" CLAMP SET with Malleable Iron Frames

Sizes: 3" jaw opening (1-1/2" throat depth), 4" opening (1-3/4" depth), 6" opening (2-1/2" depth), 8" opening (3-1/2" depth). Thread screw, serrated "V" notch anvil pad, screw and handle are made of cold-drawn plated steel.

14—7578B— 1-Set ... $16.[illegible]

SAE or Metric HEX KEY SET
18-pc. set includes storage pouch

Industrial-quality hardened and tempered tool steel. Includes 9 long-arm & 9 short-arm hex keys plus pouch.

SAE Set includes 1/16" thru 3/8" long-arm keys & 0.050" thru 1/4" short-arm keys.

14—9154P— ... 1-Set $2.99

Metric Set. Includes 1.27mm thru 10mm long-arm keys & 1.27mm thru 6mm short-arm keys.

14—9155X— ... 1-Set $2.99

METAL-CUTTING SCISSORS

Tough, serrated stainless steel BLADES NEVER NEED SHARPENING!

Cuts sheet metal, aluminum, screen, tin, wire, plastics, rubber, carpeting, linoleum and much more quickly, easily. Comfort-contoured acrylic handles. Multi-purpose

12—4346R— ... Each $4.69

3-pc. METAL SNIP SET

• Includes 3 snips: left cut, right cut & straight cut
• 12:1 power ratio lets you cut with half the effort of regular snips

Cut 16-gauge auto body metal. Drop-forged, heat-treated steel serrated jaws.

81—1707A— ... 1-Set $9.99

3-piece LOCKING NEEDLE-NOSE PLIERS SET

10" — 6" — 8"

Tapered tips get easily into tightest spots. Quick-release lever. Nickel-chrome-plated tempered alloy steel with drop-forged steel jaws.

81—1805T— ... 1-Set $10.88

9-pc. SCREWDRIVER SET for Torx® Screws

• For quick, easy installation, removal and tightening of Torx® fasteners on late-model AMC, Chrysler, Ford and GM vehicles

Strong 7-3/4" long heat-treated chrome-vanadium steel blades withstand high torque. Virtually unbreakable acetate handles. Includes sizes T10, T15, T20, T25, T27, T30, T40, T45 and T50.

81—1453B— ... 1-Set $13.77

Mini LOCKING PLIERS

• Small enough to reach where other pliers can't
• Choice of straight or bent tip

Self locking stainless steel pliers with no-slip jaws. Clamps vacuum hoses closed, holds wires in place for soldering, hundreds of other auto, home, hobby uses.

Only 5" long — Bent tip — Straight tip

Pliers with straight tip.

12—2956X— ... Each $3.49

Pliers with bent tip.

12—2957N— ... Each $3.49

Locking C-CLAMP PLIERS

Set of 3 Pliers

18" — 6" — 11"

Simplifies welding jobs. Holds body panels, parts securely ... releases easily. Set includes 3 drop-forged hardened steel pliers: 6" (2" opening, 1-1/2" throat depth); 11" (3-3/4" opening, 3" throat depth); 18" (7" opening, 10" throat depth).

81—1419T— ... 1-Set $14.99

8-pc. BIT SET for Torx® Tamper-resistant Screws

Allows easy installation & removal of new center-stud Torx® screws. Hardened, heat-treated alloy steel with black oxide finish. Includes 1/4" drive holder, 7 bits (T10, T15, T20, T25, T27, T30 and T40) and vinyl pouch.

14—8543N— ... 1-Set $11.98

Key Sets for Torx® Screws

Perfect for servicing late-model GM, Ford, Chrysler and AMC vehicles. Made of hardened alloy steel to withstand high torque. Black oxide finish.

[A] 9-piece Set. Sizes: T-10, T-15, T-20, T-25, T-27, T-30, T-40, T-45, T-50. With vinyl storage pouch.

14—3615W— ... 1-Set $6.99

[B] 8-piece Fold-up Set. Sizes: T-9, T-10, T-15, T-20, T-25, T-27, T-30 and T-40. Keys fold into handle.

14—3614R— ... 1-Set $9.99

30-pc. Magnetic SCREWDRIVER BIT SET
for Torx®, Slotted, Phillips, Hex, Pozidriv® & Square Recess Screws

Torx® — Slotted — Phillips — Hex — Pozidriv® — Square Recess

Virtually every bit you'll ever need: Torx® sizes T10, T15, T20, T25, T30, T40; Slotted sizes 0-1, 3-4, 5-6, 8-10, 12; Phillips sizes 0, 1, 2, 3; Hex sizes 3/32", 5/64", 7/64", 1/8", 9/64"; Pozidriv® sizes 1, 2; Square Recess sizes 0, 1, 2, 3. Magnet holds bits in driver and steel screws on bits. 7" long driver has hollow handle to store some bits. Includes adapter for 1/4" drive sockets, 1-1/4" long bit holder for use with power tools, storage case with hinged lid.

14—8517R— ... Each $29.88

GROOVE-JOINT PLIERS

LOW AS 2.19

• Choice of 5 sizes

Drop-forged alloy steel pliers are chrome plated. Grooved joints and jaw teeth are milled for precision fit. Vinyl-covered handle grips.

Length	Joints	Cap.	Stk. No.	Each
6"	3-groove	1/2"	12—4218P	$2.19

10"	5-groove	1-5/8"	14—3030Y	4.39
12"	5-groove	2-1/8"	14—3044R	5.99
16"	7-groove	4-1/4"	14—3045W	11.39

Ratcheting SCREWDRIVER with 4 Interchangeable Bits & High-torque Handle

Ratcheting action makes it easy to tighten or loosen screws. Large industrial-grade plastic handle is easy to grip, develops twice the turning power of conventional screwdrivers! Includes 4 bits (3/16" and 9/32" slotted, Nos. 1 and 2 Phillips).

14—5660P— ... Each $2.99

Convert your drill into a power screwdriver!

With 4 bits

• Drives screws quickly, easily and accurately!

Bit holder fits any power drill. Bits accept any 6 to 12 size screw. Includes heat-treated steel bit holder and chrome-vanadium steel bits (Nos. 1 and 2 Phillips, 1/4" and 5/16" slotted). With automatic screw release.

81—1983Y— ... 1-Set $2.77

4-WAY SCREWDRIVER for Hard To-Reach Places

With 4 alloy steel slotted blades.

15—6004R— ... Each $2.99

With 2 slotted and 2 Phillips blades.

14—9747A— ... Each $2.99

Our Best! 9-pc. 1/4" & 3/8" Dr. SOCKET SET for TORX® SCREWS

Precision machined and drop forged from chrome-plated hardened 8650 grade alloy steel. Set includes one each of the following sizes: T10, T15, T20, T25, T27 and T30 for use with 1/4" drive; T40, T45 and T50 for use with 3/8" drive. See index for ratchets.

14—7384N— ... 1-Set $19.99

12-pc. HEX KEY SOCKET & SCREWDRIVER BIT SETS

• Fits standard 3/8" square drive ratchet wrenches or extensions
• Choice of SAE or metric sets

Versatile ... get into hard-to-reach spots. Sockets are chrome-plated vanadium steel with black-finished, heat-treated, hardened bits. Sets include metal case with inside storage grooves.

SAE Set. Includes 7 hex key sockets (sizes 1/8", 5/32", 3/16", 7/32", 1/4", 5/16" and 3/8") plus #1 and #2 Phillips tip and 7/32" and 1/4" standard tip screwdriver bits.

14—2725U— ... 1-Set $11.95

Metric Set. Includes 7 hex key sockets (sizes 2.5, 3, 4, 5, 6, 8 and 10mm) plus #1 and #2 Phillips tip and 5 and 6mm standard tip screwdriver bits.

14—2726B— ... 1-Set $11.95

TORX® High-torque 8-pc. Screwdriver Set & 10-pc Hex Bit Set

• For complete servicing of late-model GM, Ford, Chrysler, AMC vehicles
• Ideal for removing, replacing, tightening Torx® fasteners

Screwdriver blades, bits and bit holders are alloy steel, heat treated with black oxide finish for extra hardness.

[A] 8-pc. Screwdriver Set. Includes driver handle, seven 4" long 1/4" hex blades (sizes T8, T10, T15, T20, T25, T27 and T30).

14—1653R— ... 1-Set $14.95

[B] 10-pc. Hex Bit Set. Includes 2 hex bit holders (1/4" hex, 1/4" sq. drive and 5/16" hex, 3/8" sq. drive), four 1" long, 1/4" hex drive bits (sizes T15, T20, T25, T27), four 1-1/8" long, 5/16" hex bits (sizes T30, T40, T45, T50). Bits snap easily into holder. Can also be used with hex bit driver handle.

14—1654X— ... 1-Set $14.95

Replacement HYDRAULIC REAR DOOR SUPPORTS for American & Imported Cars, Station Wagons

Chrome-plated hardened steel piston rods with corrosion-resistant support tubing. Harmless nitrogen gas keeps piston rods under constant pressure. Attach easily with existing mounts, hardware. w/T=with trunk.

• Restore smooth, easy lift action
• Meet or exceed OEM requirements

DRILL BIT/SCREWDRIVER/ CHISEL SHARPENER

• Sharpens drill bits, chisels, screwdrivers, nearly any tool or blade like new
• Professionally smooths and rounds points on drill bits up to 1/2"

Use with any 1/4" or larger electric drill. 3" grinding wheel. 3 drill bit angle settings for soft to hard materials. Adjustable guide for chisels and screwdrivers. Mounts to 2x4 or workbench. 2000 RPM maximum.

12—2699T— ... Each $9.99

Professional Quality 5", 7" or 10" Lock-Grip PLIERS

Powerful grip, quick release. Drop-forged steel jaws. Nickel-chrome plated.

5" Lock-Grip Pliers. Max. grip 1-1/8".

14—2040Y— ... Each $3.99

7" Lock-Grip Pliers. Max. grip 1-5/8".

14—2041W— ... Each $4.49

10" Lock-Grip Pliers. Max. grip 1-3/4".

15—8108W— ... Each $4.99

Set of 3 Lock-Grip Pliers. One each of 5", 7", 10".

81—1415A— ... 1-Set of 3 $11.88

4-pc. SNAP RING PLIERS SET for Internal AND External Use

Steel with cushion grips. 5-1/2" and 7-1/2" long pliers have bent tip; 6" and 8" long pliers have straight tip. With vinyl pouch.

81—1761Y— ... 1-Set $5.99

3/8" & 1/2" Drive WOBBLE EXTENSION BARS

• Reaches fasteners in hard-to-get-at areas
• Ball and socket swivel allows up to 35° offset angle while transmitting full torque
• Will not bind (unlike universal joints)

Heat-treated, drop-forged, chromed alloy steel.

14—7670X—3/8" drive. 12" long ... Each $11.49

Door Unlocking TOOL KIT for All Cars, Trucks & Vans

(A) (B) (C) (D) (E) (F) (G)

• Allows fast vehicle entry if keys are locked inside ... no need to break glass, ruin weatherstripping or damage upholstery

Avoid the frustration of being locked out of your car! This kit is invaluable for use as a service provided by gas stations, garages, car dealers, police and fire departments, more. Includes 7 different tools to unlock all types of vehicles: tool (A) unlocks any vehicle that has lock mechanism or locking rods accessible from top of door opening at glass (as in most vehicles); tool (B) performs same function as (A) except is capable of rotating 360° without having to remove tool; wooden wedges (C) are used in conjunction with tools (A) or (B) to make entry easier; tools (D) and (E) unlock vent windows on Volkswagen Beetles and many late models vans and pickups; tool (F) unlocks Corvettes up to 1971; tool (G) unlocks 71-79 Corvettes. All tools except wedges are made of steel ... some have easy grip plastic handles. Instructions included. Tools (A) and (B) also sold separately below.

14—5137R— 1-Kit ... $22.99

Universal Unlocking Tool (A).

14—5135T— ... Each $4.99

Master Unlocking Tool (B). Includes 2 wedges.

14—5136A— ... Each $5.99

Door Unlocking Tool (not shown) for Chevrolet S-10 and GMC S-15 trucks.

12—4288T— ... Each $3.99

OXYGEN SENSOR WRENCH

Speeds up and simplifies the removal and replacement of hard-to-reach oxygen sensor in exhaust manifold. Heat-treated alloy steel tool with 22mm and 7/8" hex fittings. Use with your 3/8" drive breaker. For all vehicles with oxygen sensors.

12—4177Y— ... Each $16.95

IMPACT WRENCH DRIVE CONVERTERS

Heat-treated, hardened steel with black oxide finish.

Adapts 3/8" dr. sockets to 1/2" dr. wrench.

81—1762W— ... Each $3.99

Adapts 1/2" dr. sockets to 3/4" dr. wrench.

81—1763U— ... Each $5.99

1/4", 3/8" & 1/2" Drive Chromed FLEX HANDLES

Loosen or remove frozen fasteners. Hinged joint, positive stops at 0° and 45°. Knurled handle. Chrome-plated, heat treated alloy steel. Corrosion-resistant. Meet Federal Specifications GGG-W-641.

14—9158A—1/4" drive. 6" long ... Each $3.99
14—9159R—3/8" drive. 9" long ... Each 6.99
14—9160X—1/2" drive. 15" long ... Each 11.99

¼" & ⅜" Drive FLEX EXTENSIONS

• Makes it easier to work around obstacles
• Choice of 3 sizes

Flex wire shaft is solid (not hollow) to transmit full torque. Made of cadmium-plated steel.

1/4" Drive Extensions. Deliver up to 20 in.-lbs. of torque.

14—5656Y—4" long ... Each $2.59
14—5657W—6" long ... Each 2.99

3/8" Drive Extension. Delivers up to 5 ft.-lbs. of torque. 7" long.

14—5658U— ... Each $4.29

EXTENSION BAR SETS

Choice of 1/4", 3/8" or 1/2" drive

• For easy access to hard-to-reach fasteners

4-pc. Extension Bar Sets (shown). Chrome-plated drop-forged steel. Set of 3", 6", 9" and 12" long bars.

81—0706U—1/4" drive ... 1-Set $3.98
81—0707B—3/8" drive ... 1-Set 4.48
81—0708P—1/2" drive ... 1-Set 4.98

6-pc. Extension Bar Sets: Like above but also include 15" and 18" long bars.

81—1546T—3/8" drive ... 1-Set $8.98
81—1547A—1/2" drive ... 1-Set 9.98

40" SCREWDRIVER

Great for prying! 3/4" wide tip. Drop-forged, heat-treated steel with wood handle.

15—8654R— ... Each $5.95

Double-ended 1/8" Drill Bit Set

Set of 12. Drill holes for auto body riveting. High-speed steel. 135° split points reduce bit wandering.
81—1922W— 1-Set $5.99

½" Dr. TORQUE WRENCH
BEAM TYPE

Clicks when you reach pre-set torque

Measure 0 to 150 ft.-lbs. or 0 to 20 meter-kilograms. Alloy steel. 19" long.
14—7167U— Each $8.99

Micro-adjusting 1/2" Drive TORQUE WRENCH

Higher torque: 30-250 ft.-lbs.; 4-36 meter-kilograms; 40-360 Newton-meters

- Clicks when pre-set torque is reached
- Cylinder lock assures retention of torque setting

A must for trucks, late-model front wheel drive vehicles or any application requiring extra-high torque. Over 20" long to apply high torque effortlessly. Smooth ball bearings reduce internal friction, increase accuracy. Reversible ratcheting action for use on right or left-hand threads. Nickel-chrome-plated steel body.
81—1649N— Each $39.95

Reversible • Ratcheting BOX-END WRENCH SETS

[A] Wrench Sets with protective shrouds. Polycarbonate shroud keeps dirt out of mechanism, insulates hand against cold. Heat-treated 12-pt openings for no-slip grip. Turn wrench over to reverse ratchet.

4-pc. SAE Set. Sizes: 1/4" x 5/16", 3/8" x 7/16", 1/2" x 9/16" and 5/8" x 3/4".
88—9725Y— 1-Set $10.98

5-pc. SAE Set. Sizes above plus 13/16" x 7/8".
88—9724A— 1-Set $12.98

4-pc. Metric Set. Sizes: 6x8mm, 10x11mm, 13x14mm and 15x17mm
88—9727U— 1-Set $10.98

5-pc. Metric Set. Metric sizes above plus 19x22mm.
88—9726W— 1-Set $12.98

[B] Wrench Set with 25° Offset handles. Permits work in flat or tight spots. Thumb control reverses ratchet action. Nickel-chrome plated drop-forged alloy steel body with hardened heat-treated inserts. Includes 5 wrenches (sizes below).
14—7321X— 1-Set $24.99

Individual Wrenches.

14—7322N—1/4" x 5/16"	Each	$3.49
14—7323T—3/8" x 7/16"	Each	3.99
14—7324A—1/2" x 9/16"	Each	5.49
14—7325Y—5/8" x 11/16"	Each	7.19
14—7326W—3/4" x 7/8"	Each	7.99

16-pc. SAE & 14-pc. Metric Combination BOX & OPEN-END WRENCH SETS

Drop-forged chrome-plated alloy steel with polished heads! Wrenches have one open end, one 12-pt. box end. Size range to do any job. Heavy-duty plastic case with eyelets.

14-pc. Metric Set. Includes 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 19 & 22mm sizes.
88—9285T— 1-Set $19.98

16-pc. SAE Set. Includes 1/4", 5/16", 3/8", 7/16", 1/2", 9/16", 5/8", 11/16", 3/4", 13/16", 7/8", 15/16", 1", 1-1/16", 1-1/8" and 1-1/4" sizes.
15—0608T— 1-Set $29.98

3/8" Drive SAE CROWFOOT WRENCH SETS

13-pc. Set (shown). Speeds up removal, installation of hard-to-reach fasteners. Includes 3/8" ratchet, 2 extensions and 10 wrenches (sizes 3/8", 7/16", 1/2", 9/16", 5/8", 11/16", 3/4", 13/16", 7/8", 1"). Triple-chrome-plated, drop-forged hardened steel.
81—1981B— 1-Set $11.98

10-pc. Set (not shown). Includes 10 crowfoot wrenches (same sizes as above).
81—1774A— 1-Set $9.98

9-pc. SAE FLARE-NUT CROWFOOT WRENCH SET

3/8" Drive

Simplifies removal, installation of nuts on gas, brake and air conditioning lines when used with your 3/8" drive ratchet. Specially-designed heads fit exactly—prevent any movement that could wear down or round the soft metal nut. Chrome-plated, drop-forged, heat-treated alloy steel. Sizes: 3/8", 7/16", 1/2", 9/16", 5/8", 11/16", 3/4", 13/16" and 7/8".
81—1955W— 1-Set $9.99

12-slot WRENCH ORGANIZER

Holds open-end, box, combination or other small wrenches. Approx. 7" x 5-1/2" wide—easy to carry, fits in tool box drawer. Can be hung on wall. Cold-rolled steel, plastic coated to resist rust and corrosion.
12—3748X— Each $3.77

SAE and METRIC 3-pc. FLARE NUT WRENCH SET
for Gas, Brake and Air Conditioning Lines

Wrench gets a firm, no-slip grip without damaging nut

Great for tightening or loosening nuts. Special wrench head fits nut exactly ... prevents any movement that could wear down or round the soft metal nut. Drop-forged chrome vanadium steel alloy with raised panels for superior strength.

SAE Set includes 3 wrenches (3/8" x 7/16", 1/2" x 9/16" and 5/8" x 11/16") and vinyl pouch.
15—7951P— 1-Set $9.98

Metric Set includes 3 wrenches (9 x 11mm, 12 x 13mm & 15 x 17mm) and vinyl pouch.
14—2108T— 1-Set $9.98

Adjustable WRENCHES
Choice of 5 sizes

Heavy-duty, drop-forged alloy steel, triple chrome plated. Heat-treated jaws. Precision-machined adjusting screw.

Length	Capacity	Stk. No.	Each
6"	3/4"	14—3233Y	$3.29
8"	15/16"	14—3234W	3.99
10"	1-1/8"	14—3235T	5.59
12"	1-5/16"	14—3236A	7.39
15"	1-11/16"	14—3237R	14.99

Micro-adjusting ½" & ⅜" Dr. TORQUE WRENCHES

Simply dial desired torque... wrench clicks when you reach it!

- Standard or metric calibrations
- 1/2" drive measures 2 to 150 ft.-lbs. or .28 to 21.2 meter-kilograms or 2.7 to 198.8 Newton-meters (an international unit of measurement equal to .74 ft.-lbs. or .10 meter-kilograms)
- Precise enough for professionals, engineers
- Easy to use even by do-it-yourselfers

Strong, well-balanced, great for use in blind spots. No scales or gauges to read. Just pre-set wrench and wait for the click when the proper torque is reached. Accuracy to within ±4% over entire torque range. Reversible ratcheting action for use on right or left-hand threads. Smooth ball-bearing action. Polished, nickel chromed steel body protects mechanism. Hang-up loop.

1/2" Drive Torque Wrench. 18" long to let you apply high torque with ease.
88—9795A— Each $29.95

3/8" Drive Torque Wrench. Calibrated 10 to 800 inch-pounds; 11.5 to 998.5 centimeter-kilograms and 1.1 to 94.2 Newton-meters. 14" long.
81—1297T— Each $24.95

3/8" Drive Torque Wrench. Calibrated 10 to 80 ft.-pounds; 2.3 to 10.6 meter-kilograms and 18.1 to 99.4 Newton-meters.
81—1692N— $24.95

4-pc. WRENCH SET

Hold-tight serrated jaws

Grip nuts, bolts (even those that are rusted or rounded) better than ordinary open-end and multi-wrenches. Includes 6", 8", 10" and 12" long wrenches with jaw capacities from 5/16" thru 1-1/2". Chrome-plated, drop-forged steel.
81—1771X— 1-Set $14.98

TORQUE WRENCHES

[A] Triple-scale Torque Wrench with beam guard. Reads 0-1800 in.-lbs., 0-150 ft.-lbs. and 0-21 meter-kgs. 1/2" drive. Chrome-plated. Aluminum handle & scale. 18" long.
81—1050W— Each $9.98

[B] Torque Wrench with 150 ft.-lb. and 20 meter kgs. scale. 1/2" drive. Floating handle. Scale has bolt size & identification chart with built-in stress chart. Chrome plated, 18" long.
88—7027A— Each $7.98

[C] Torque Wrench for small engines and transmissions. Dual scale: reads 0-600 in.-lbs. and 0-691 cm-kgs. Chrome plated with floating handle grip. Scale incorporates protection guard. 3/8" drive. 16-1/2" long.
15—0114B— Each $5.98

Reversible HAND RATCHETS

- Choice of 1/4", 3/8" & 1/2" drive

Great for tight spots and speed ratcheting. Chrome-plated, drop-forged alloy steel, hardened and tempered for high strength and long life. 1-1/2" long.

14—2623A—1/4" drive	Each	$13.99
15—8497T—3/8" drive	Each	14.99
14—2624R—1/2" drive	Each	15.99

Fingertip & Palm-grip Ratchets

1/4" Drive [A] 3/8" Drive [B]

Get into tight, hard-to-reach areas that conventional ratchets can't. Hardened, tempered steel. Triple chrome plated.

[A] 1/4" Drive Fingertip Ratchet. Knurled edge for non-slip grip.
12—3089W— Each $4.49

[B] 3/8" Drive Palm-grip Ratchet. Hexagon design for firm grip.
12—3090U— Each $4.99

Reversible RATCHET WRENCHES

Polished chrome finish. Easy-to-operate thumb control for quick reverse ratchet operation. Non-slip, sure-grip handle.

14—3198T—1/4" dr. 4-3/4" long	Each	$2.98
88—2523U—3/8" dr. 7-1/2" long	Each	3.98
88—2524B—1/2" dr. 10" long	Each	5.98

SAVE $3 on 3-pc. set. Includes one each of wrenches described above.
81—2030X— 1-Set $9.94

¼", ⅜" and ½" Drive FLEX HEAD RATCHETS

Offset handle ratchet

- Flex head pivots 180° makes it easier to work in hard-to-reach spots

Thumb control for trouble-free reverse action. Rust-resistant chrome-plated steel. Knurled handle for no-slip grip.

[A] 1/4" Flex Ratchet. 6" long overall with 4-3/4" long handle. Great for dashboard or other close-quarter work.
14—4197U— Each $2.98

3/8" Flex Ratchet. 9" long handle.
88—7033R— Each $3.98

1/2" Flex Ratchet. 9" long handle.
81—1062A— Each $5.98

Save $3 on Flex Ratchet Set. Includes 1/4", 3/8" & 1/2" ratchets above in pouch.
81—1063R— 1-Set $9.94

[B] Offset-handle Flex Ratchets. Set of 3 includes 1/4" dr., approx. 8-3/4" long; 3/8" dr., approx. 11-3/4" long; 1/2" dr., approx. 13-1/4" long.
81—1790X— 1-Set $9.94

22-in-1 MULTI-WRENCHES
An entire tool set in ONE AMAZING TOOL!

- Choice of 3 wrenches with different size ranges
- Instantly and automatically adjust to all SAE sizes (3/8" to 13/16", 7/8" to 1-1/4" or 1-1/4" to 1-3/4") and all metric sizes (9mm to 22mm, 23mm to 32mm or 32mm to 45mm)
- Eliminate trial and error ... no more fiddling

This unique multi-wrench works like a ratchet wrench. There's no need to remove tool after each stroke, as with ordinary wrenches. No need to change wrenches, no need to adjust for size.

Wrench grips at least 3 sides of the nut simultaneously without rounding off corners. Grip actually increases as the ... gets tougher, even on badly damaged ... bolts. Handles SAE or metric hex, square ... and wing nuts. Heavy-duty chrome-plated ...

[A] Wrench adjusts to all SAE sizes from 3/8" ... 13/16" and all metric sizes from 9mm ... 22mm. Great for working in tight spots anywhere. Also works on fiber lock ... fasteners.
81—1738W— Each $2...

Squeeze-action RATCHET WRENCH

- Starts loose nuts, gets hard-to-reach spark plugs

Just squeeze and release. Your gripping power is multiplied 6 times. Reversible. Chrome-plated tempered steel. Comfort grip. 3/8" drive.
15—6144T— Each $13.98

Air-operated Reversible RATCHETS

- Choice of 1/4", 3/8" or 1/2" square drive
- Eliminate manual ratcheting
- Speed up removal, installation of parts
- Compact ... ideal for use in tight spots

Powerful, reversible multi-vane motors deliver high torque. Perfect for servicing cars, trucks, air pumps, water pumps, carburetors, spark plugs, dashboards. Rugged yet lightweight to prevent fatigue. Easy-grip tools provide excellent leverage for good control at all times. To reverse, turn flip-bar on ratchet head. Air inlet: 1/4". Operate most efficiently at 90 psi. Instructions included.

[A] 1/4" Drive Ratchet. Necessary for close-quarter work on the new smaller cars or on cycles. Produces up to 18 ft.-lbs. of torque. Button throttle. 3 CFM air consumption. 240 RPM no-load speed. Forged steel head, die-cast aluminum body. Weighs only 1-1/4 lbs. 8-3/4" long.
14—2657R— Each $39.98

[B] 3/8" Drive Ratchet. Produces up to 45 ft.-lbs. of torque. Lever-controlled throttle. 4 CFM air consumption. 150 RPM no-load speed. Die-cast aluminum body. Weighs 2-1/2 lbs. 10" long.
81—1719W— Each $39.98

[C] 1/2" Drive Ratchet. Ideal for large head bolts in limited work spaces. Produces 50 ft.-lbs. of torque. Lever-controlled throttle. 4 CFM air consumption, 160 RPM no-load speed. Forged steel head, cast alloy body. Weighs only 2-3/8 lbs. 10" long. 3/8" I.D. minimum hose size.
81—1916Y— Each $39.98

Mini RATCHET WRENCHES

Reversible ratchet wrenches fit in the palm of your hand. Chrome plated vanadium steel.

Convert one sq. dr. size into another RATCHET DRIVE CONVERTERS

- Increase versatility of your tools

Drop-forged steel, heat treated and chrome plated.

3-pc. Set (shown). Adapters convert 1/4" drive ratchet to 3/8" drive, 3/8" drive ratchet to 1/2" drive, 1/2" ratchet to 3/4" drive.
14—5128Y— 1-Set $2...

2-pc. Set (not shown). Adapters convert ... drive ratchet to 3/8" drive, 3/8" drive to ... 1/4" drive. Use both adapters together to convert 1/2" to 1/4" drive.
14—5127P— 1-Set $1...

UNIVERSAL JOINTS
For Socket Wrenches
Choice of 1/4", 3/8" or 1/2" Drive

Top quality universal joints give maximum flexibility for reaching into tight areas. Chrome plated.

	Each
81—0276Y—1/4" Drive	$1.99
88—6068W—3/8" Drive	2.29
88—6069U—1/2" Drive	2.49

3/8" & 1/2" Drive UNIVERSAL JOINTS

Ball and swivel socket allows up to 35° offset angle while transmitting full torque. Will not bind like standard universal joints. Heat-treated, drop-forged chrome-plated alloy steel.

...1543P—3/8" drive	Each	$7.95
...1544Y—1/2" drive	Each	8.95

Ratcheting BOX-END SAE WRENCH

- Choice of 3 sizes

Fits in tight spots where a socket wrench can't. Industrial-quality steel with rust-resistant chrome plating. Heat-treated 12-pt. openings for no-slip grip.

Just a switch to reverse

...0341U—1/4" x 5/16"	Each	$2.49
...0342B—3/8" x 7/16"	Each	2.49
...0343P—1/2" x 9/16"	Each	2.49

10-pc. 1/4" & 3/8" Drive SOCKET SET for TORX® Screws

Quality set includes one each of the following sizes: T10, T15, T20, T25, T27 and T30 for use with 1/4" drive; T40, T45 and T50 for use with 3/8" drive. Steel sockets with black oxide finish. Includes socket holder.
81—1900B— 1-Set $8.88

CHARGE YOUR ORDER ON YOUR VISA OR MASTERCARD

8-pc. Universal Joint 3/8" Drive SOCKET SETS
Choice of SAE or Metric

High carbon steel sockets are heat-treated and drop forged, then chrome plated. Swivel 180°, get into tight spots. Sizes permanently marked.

SAE Set. Includes seven 3/8" drive sockets (3/8", 7/16", 1/2", 9/16", 5/8", 11/16", 3/4") and sturdy storage case.
14—2815T— 1-Set $9.98

Metric Set. Includes seven 3/8" drive sockets (9, 10, 11, 13, 15, 17 and 19mm) and sturdy storage case.
14—2816A— 1-Set $9.98

SOCKET HOLDERS

- Spring clips keep up to sixteen 1/4", 3/8" or 1/2" drive sockets organized and securely in place

Strong 17" long steel rack (with 16 clips) is portable ... or mounts permanently to your tool box.

14—9324R—For 1/4" dr. sockets	Each	$1.99
14—9325W—For 3/8" dr. sockets	Each	1.99
14—9326U—For 1/2" dr. sockets	Each	1.99

8-pc. 3/8" and 1/2" Drive Universal-joint SAE IMPACT SOCKET SETS

Beveled-nose sockets. Heat-treated chrome moly steel. With metal case.

3/8" Drive Set. Includes seven 6-pt. sockets (3/8" to 3/4").
14—2723R— 1-Set $24.95

1/2" Drive Set. Includes seven 6-pt sockets (1/2" to 7/8").
14—2894Y— 1-Set $29.95

SAE or METRIC 25-pc. 1/2" Drive SOCKET WRENCH SETS
COLD DROP FORGED • TRIPLE CHROME PLATED

6-point sockets are precision sized. Sets include 1 reversible ratchet, 1 speeder handle, 5" and 10" extensions, 1 universal joint, speed ring, 13/16" spark plug socket and 17 sockets in metal box.

SAE Set. With these socket sizes: 3/8", 7/16", 1/2", 9/16", 19/32", 5/8", 11/16", 3/4", 25/32", 13/16", 7/8", 15/16", 1", 1-1/16", 1-1/8", 1-3/16", 1-1/4".
12—2951Y— 1-Set $17.95

Metric Set. With these socket sizes: 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 23, 24, 27, 30 & 32mm.
12—2952W— 1-Set $17.95

12 or 16-pc. HAND IMPACT DRIVER & BIT SETS

Loosens frozen screws, nuts and bolts that can't be turned with screwdrivers or wrenches. Reversible feature also permits tightening. A must for those "impossible" jobs like striker plates, motorcycle engine cases, body panels, etc. Easy to use—just attach bit to impact tool and pound with your hammer. No air or electric power needed. Won't strip or damage threads. Machined of high-strength steel alloys.

[A] 16-pc. Set. Includes 1/2" dr. impact tool, 4 Phillips, 5 flat & 4 hex bits, adapter, case.
88—5678T— 1-Set $14.98

[B] 12-pc. Set. Includes 1/2" dr. impact tool, adapter, 2 Phillips & 2 slotted bits, 1/4" & 3/8" dr. adapters, 3 extensions (1/4" dr. x 6", 3/8" dr. x 5-7/8" & 1/2" dr. x 4-3/4"), case.
81—1704Y— 1-Set $14.98

½" & ⅜" DRIVE HAND IMPACT TOOL KITS

Reversible! Low As 5.88 Kit. Complete with Metal Case & Bits

Complete 7-pc. 2-way tool kit. Loosens rusty, corroded or frozen screws, nuts or bolts ordinary screwdrivers or socket wrenches can't budge. Special reversible feature also permits tightening of screws, nuts and bolts. Easy to use ... just attach driver bit to special holder and pound with hammer. Shock and torque quickly loosen—or tighten. Machined of high-strength steel alloy for long service. Kit includes driver, 2 each Phillips and straight bits, driver bit holder, complete instructions and rugged metal case. Order oversize bits at right.

...8320R—1/2" drive
...6245P—3/8" drive 1-Kit $8.89

Economy Reversible Impact Driver Kits. Includes tool, 2 Phillips and 2 straight bits. Tough steel construction. Order oversize bits at right.

...6216A—1/2" drive
...6215T—3/8" drive 1-Kit $5.88

Acts Like $150 Air Impact Wrench!

8-pc. Bit Kit. Includes 4 each 3-3/16" long bits #2 and #3 Phillips; 5/16" and 3/8" straight blades. 4 each 1-7/16" long bits #2 and #3 Phillips; 5/16" and 3/8" straight blades.
81—1703P— 1-Kit $2.49

SOCKET SET for TORX® Bolts on many late model cars
8-pc. set

- For Torx® bolts on many late model vehicles
- Durable cold finish alloy steel

Seven sizes: E6, E7, E8 with 1/4" drive, E10, E12, E14, E16 with 3/8" drive. Socket holder included.
15—8996U— 1-Set $13.98

Socket Holders/Organizers for 1/4", 3/8" & 1/2" Dr. Sockets

Keep all types of sockets organized and in one convenient spot. Clips hold sockets securely in place. Steel. With carry handle.

[A] Double-sided 26-socket Rack. Holds twelve 1/4" dr. & fourteen 3/8" dr. sockets. Approx. 17" long.
12—3750T— Each $3.77

Double-sided 24-socket Rack. Holds twelve 3/8" dr. & twelve 1/2" dr. sockets. Approx. 17" long.
12—3751A— Each $3.77

[B] 80-socket Tray. Four 17" long racks hold twenty 1/4", thirty 3/8" and thirty 1/2" drive sockets. Approx. 6" x 18".
12—3752R— Each $9.97

3/8" Drive Deep-well Thin-wall SOCKET SETS

CHROMED STEEL — SAE or METRIC

Eliminate the need for open-end wrenches in most cases. Use with any 3/8" drive attachment to clear bolts up to 2" long.

Eight-piece, 6-pt. SAE Set. Contains 3/8", 7/16", 1/2", 9/16", 5/8", 11/16", 3/4" and 13/16" sizes.
88—7034X— 1-Set $7.98

Eight-piece, 6-pt. Metric Set. Contains 10, 11, 12, 13, 14, 16, 17 and 19mm sizes.
88—8811X— 1-Set $7.98

Five-piece, 12-pt. SAE Set. Contains 7/16", 1/2", 5/8", 9/16" and 11/16" sizes.
15—6043X— 1-Set $4.98

Five-piece, 12-pt. Metric Set. Contains 10, 11, 12, 17 and 19mm sizes.
12—3534A— 1-Set $4.98

1/2", 3/8" or 1/4" Drive Chrome Vanadium SOCKET SETS

Standard sockets / Deep sockets

- Choice of standard or deep sockets in SAE or metric sizes

Drop-forged, heat-treated, hardened chrome vanadium steel. Polished chrome plating. 6-pt. size assures no-slip grip. Chamfered to fit over nuts and bolts easily. 4-way ball grooved to stay on ratchets.

1/2" DRIVE SOCKETS

Standard Sets. Include metal storage tray.

13-pc. SAE Set (shown). Contains 3/8", 7/16", 1/2", 9/16", 5/8", 11/16", 3/4", 13/16", 7/8", 15/16", 1" and 1-1/8" sizes.
12—3446Y— 1-Set $11.99

13-pc. Metric Set. Contains 10, 11, 12, 13, 14, 15, 16, 17, 19, 21, 22 and 24mm sizes.
12—3447W— 1-Set $10.99

Deep Sets. Include metal storage box.

9-pc. SAE Set (shown). Contains 1/2", 9/16", 5/8", 11/16", 3/4", 13/16", 7/8" and 15/16" sizes.
12—3448U— 1-Set $12.99

9-pc. Metric Set. Contains 12, 13, 14, 17, 19, 21, 22 and 23mm sizes.
12—3449B— 1-Set $12.99

3/8" DRIVE SOCKETS

Standard Sets. Include metal storage tray.

12-pc. SAE Set. Contains 1/4", 5/16", 3/8", 7/16", 1/2", 9/16", 5/8", 11/16", 3/4", 13/16" and 7/8" sizes.
12—3442X— 1-Set $5.99

14-pc. Metric Set. Contains 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18 and 19mm sizes.
12—3443N— 1-Set $4.99

Deep Sets. Include metal storage box.

9-pc. SAE Set. Sizes: 3/8", 7/16", 1/2", 9/16", 5/8", 11/16", 3/4" & 13/16".
12—3444T— 1-Set $8.99

9-pc. Metric Set. Contains 10, 11, 12, 13, 14, 16, 17 and 19mm sizes.
12—3445P— 1-Set $8.99

1/4" DRIVE SOCKETS

9-pc. Deep SAE Set. Contains 7/32", 1/4", 9/32", 5/16", 11/32", 3/8", 7/16" and 1/2" sizes in metal storage box.
12—3440A— 1-Set $4.99

9-pc. Deep Metric Set. Contains 5.5, 6, 7, 8, 9, 10, 11 & 12mm sizes in metal storage box.
12—3441R— 1-Set $4.99

Complete HARDWARE CENTER

Includes a total of 2,101 nuts, bolts, screws, washers & cotter pins... all in a strong 25-drawer cabinet!

Available in SAE or METRIC

358 MACHINE SCREWS · 164 SHEET METAL SCREWS · 164 WOOD SCREWS · 85 COTTER PINS · 340 FLAT WASHERS · 340 TOOTH LOCK WASHERS · 310 NUTS · 340 SPLIT LOCK WASHERS

Your own personal hardware store includes 2,101 zinc-plated, rustproof steel fasteners—a complete range of sizes, lengths and threads to meet all your needs ... enough for professional looking repair jobs every time.

The SAE (inch) Hardware Center includes the following fasteners: 358 Machine Screws (sizes 6-32 thru 10-32 and 1/4-20 thru 5/16-18, lengths 3/8" thru 1-1/2"); 164 Sheet Metal Screws and 164 Wood Screws (sizes 6 thru 10, lengths 3/8" thru 1-1/2"); 85 Cotter Pins (sizes 1/16 x 3/4 thru 1/8 x 2); 340 Flat Washers (sizes 6 thru 5/16"); 340 Split Lock Washers and 340 Tooth Lock Washers (no. 6 thru 5/16"); 310 Nuts (sizes 6-32 thru 10/32 and 1/4-20 thru 5/16-18).

The Metric Hardware Center includes the following fasteners: 358 Machine Screws (sizes 3-0.5 x 10 thru 8-1.25 x 40); 164 Sheet Metal Screws and 164 Wood Screws (sizes 3.5 x 10 thru 5 x 40); 85 Cotter Pins (sizes 1.5 x 20 thru 3 x 50); 340 Split Lock Washers, 340 Tooth Washers, 340 Flat Washers and 310 Nuts (sizes 3mm thru 8mm).

HEAVY-DUTY ORGANIZER CABINET

Industrial-quality polystyrene cabinet is approx. 9-3/8" x 12-1/8" x 5-3/8" deep ... fits on workbench. Features strong shelves and 25 clear, high-impact drawers with easy-grip pulls. Easy-to-remove drawers are 1-3/8" x 2" x 4-3/4" deep. Drawer stops prevent spills. 30 dividers fit in drawers to make up to 55 compartments.

The Complete Hardware Center. Includes 2,101 fasteners, cabinet, 25 pressure-sensitive identification labels, drawer dividers and FREE Screw/Nut/Bolt Sizer.

81—1421R—SAE (inch) assortment
81—1712A—Metric assortment
1-Kit $14.99

THREAD REFORMING TOOL

Universal tool reforms coarse and fine, left and right-hand threads, 1/4"-1" US and English, 6-26mm metric and 1/8"-3/4" pipe. Allows tool to be started ANYWHERE on the threads to be reformed. Steel blade. Instructions.
14—3240T— Each $26.95

5-pc. BOLT & SCREW EXTRACTOR SET

- Removes 1/4", 5/16", 3/8", 7/16", 1/2" and larger diam. bolts and screws

Shock-resistant, hardened S-7 tool steel extractors cut into frozen or broken bolts and screws ... go in straight to prevent wedging.
75—4574P— 1-Set $11.49

MAGNETIZER/DEMAGNETIZER

Ideal for screwdrivers, wrenches, taps, nutrunners, etc. Makes it easier to pick up small screws, nuts, and other metallic particles. Easy to use—to magnetize, slip end of tool into magnetizer hole; to demagnetize, pull tool through grooved side.
14—2685P— Each $1.99

CABLE CUTTER

- Cuts aluminum and soft copper cables cleanly
- One-hand operation ... ideal for tight spots

Shear-type heat-treated carbon steel jaws, vinyl-covered handles. Cuts cables up to 1-gauge and up to 3/4" O.D. 9" long.
81—1764B— Each $6.98

U-JOINT TOOL KIT

- Simplifies removal and installation of all universal joints
- No vises or presses needed
- Won't damage drive shaft or throw drive line out of balance as other methods can

Easy to use—position U-joint in anvil and strike driver with hammer to remove or install bearings. Includes large and small cast aluminum alloy anvils, heat-treated hardened steel driver with large and small sockets on each end, spacer for narrow-yoke U-joints & instructions.
12—3318R— 1-Kit $47.98

Pencil-type MAGNETIC PICK-UP

Extends to 18"

Pocket-size 5-1/4" long pick-up telescopes to 18" to retrieve hard-to-reach objects. Chrome-plated with convenient pocket clip.
81-0571B— Each $2.99

Flexible MAGNETIC & CLAW PICKUPS

Retrieve inaccessible objects quickly and easily

81—0254N—18" long claw	Each	$1.29
04—0029N—24" long claw	Each	1.39
81—0256P—18" long magnetic	Each	1.29
04—0028X—24" long magnetic	Each	1.39

HEAVY-DUTY BOLT, NUT, WASHER CENTER

28 strong 5-1/2" x 2" x 1-3/8" deep clear plastic drawers ... 68 dividers make up to 96 separate compartments

34 Types & Sizes · 1108 Matched Pieces

- High-carbon steel bolts are quenched and tempered to Grade 5 tensile strength to withstand 120,000 psi
- Every bolt, nut and washer is zinc-chromate plated to resist rust and corrosion

Includes: 277 each hex bolts (sizes 1/4" through 1/2", lengths 3/4" through 3"); hex nuts, flat washers and lock washers. Heavy-duty cabinet. Hardware is presorted.
88—8433P— 1-Kit $49.95

SNAP RING PLIERS

2-plier Set—has one pair of internal and one pair of external pliers, made of heat-treated steel with non-slip cushion-coated handles; 4 pairs of heat-treated alloy steel straight and angle tips to install and remove any type of snap ring. Pliers and tips are color-coded for quick, easy identification. In vinyl pouch. Order snap rings below.
14—2993Y 1-Kit $14.99

Replacement Tips. Four pairs for pliers above.
74—6600B— 1-Kit $1.98

Economy 2-way Snap Ring Pliers (not shown). A simple adjustment lets you use these pliers for internal or external applications. Made of high carbon, hardened and tempered tool steel with black oxide finish.
04—0122Y— 1-Kit $5.99

40-pc. External Snap Ring Assortment. Includes these sizes: 8 each 1/4", 3/8", 1/2" and 5/8", 4 each 7/16" and 7/8".
15—9295P— 1-Kit $3.99

5-pc. SCREW EXTRACTOR SET

5 chromed-vanadium steel extractors remove screws from 1/8" to 3/4" diam. (3 to 18mm).
88—7350X— 1-Set $3.99

DRILL-OPERATED PUMP

Self-priming to 8-10 ft. vertically—with a maximum horizontal distance of 50 feet using 5/8" garden hose. Pumps up to 200 gallons per hour, using ordinary 2000 RPM 1/4" electric drill. Pumps all liquids (except gasoline) including oils and diesel fuel. Phenolic plastic housing with stainless steel shaft and oil-resistant flexible impeller. For garage, home, shop and farm.
88-7373R— Each $1.99

SATISFACTION GUARANTEED or MONEY BACK

Steel COTTER PINS

Over 500 assorted pieces

Rust-resistant zinc-plated pins in 7 sizes: 1/16 x 1, 3/32 x 3/4, 3/32 x 1, 3/32 x 1-1/2, 1/8 x 1, 1/8 x 2. Compartmented and labeled box is approx. 2" high x 10" wide x 5" deep.
14—2898R— 1-Set $7.50

144-pc. Set with Spreader/Remover Tool (not shown). Includes various sizes of zinc-plated pins with drop-forged, heat-treated tool in a vinyl pouch.
12—2582A— 1-Set $1.99

41-piece SAE & METRIC TAP & DIE SETS with Hex-shaped Dies

- Industrial-quality, heat-treated and hardened M2 high-speed steel taps and dies

Cut new threads or repair stripped threads like new. Hex-shaped dies won't slip in the die holder (included) ... or use your 1" socket or open-end wrench to hold dies. Sets include seventeen taps and seventeen 1" dies with stamped-in sizes; double-handled die holder, two T handle tap wrenches, double-handled tap vise, screwdriver; screw pitch/thread measuring gauge.

NC (U.S.S.) & NF (SAE) Set. Includes these tap/die sizes: 4x40, 6x32, 8x32, 10x24, 10x32, 12x24, 1/8 NPT, 1/4x20, 5/16x18, 3/8x16, 7/16x14, 1/2x13, 1/4x28, 5/16x24, 3/8x24, 7/16x20, 1/2x20.
12—3867N— 1-Set $27.88

Metric Set. Includes these tap/die sizes: 3x0.6, 4x0.75, 5x0.9, 6x1.0, 7x1.0, 8x1.25, 10x1.5, 12x1.75, 3x0.5, 4x0.7, 5x0.8, 6x0.75, 7x0.75, 8x1.0, 10x1.25, 12x1.5, 1/8 BSP.
12—3868T— 1-Set $27.88

300-pc. EXTERNAL RETAINING RING KIT

SOLD ELSEWHERE FOR $29.99 ONLY 14.98 Kit

Retaining Ring

Exact-fit, close-tolerance rings hold hubs, gears, pulleys, wheels, etc. on grooved shafts ... hold pins, bearings and shafts in place on all moving parts. Ideal for equipment or machinery that must be assembled/disassembled frequently. Includes 300 rings in these most popular diameters: 1/4", 5/16", 3/8", 7/16", 1/2", 9/16", 5/8", 3/4", 13/16", 7/8", 1" and 1-1/4". With compartmented high-impact plastic box.
81—1735B— 1-Kit $14.98

225-pc. O-RING KIT

O-rings conform to any surface to form an air-tight seal. Ideal for gas, air and hydraulic connections. Includes 115 1/16" thick O-rings (1/8" I.D. x 1/4" O.D. thru 3/8" I.D. x 1/2" O.D.); seventy 3/32" thick O-rings (3/8" I.D. x 9/16" O.D. thru 3/4" I.D. x 15/16" O.D.); forty 1/8" thick O-rings (3/4" I.D. x 1" O.D. thru 15/16" I.D. x 1-3/16" O.D.). Plus high-impact plastic case with 7 slip-out, snap-together dividers.
81—1737Y— 1-Kit $7.98

300-pc. E-CLIP KIT

E-Clip

Sold elsewhere for $24.99 ONLY 13.98 Kit

Countless uses on cars, cycles, snowblowers, pumps, more. Provide positive, low-tolerance retention of sprockets, hubs, springs, pulleys and bearings on shafts, rods, mechanical arms, etc. Includes 300 tension-retaining carbon spring steel clips in these most-used diameters: 1/16", 1/8", 3/16", 1/4", 3/8", 1/2", 5/8", 3/4" and 7/8". With high-impact plastic organizer box and 7 slip-in dividers.
81—1736P— 1-Kit $13.98

40-piece TAP & DIE SETS

Industrial-quality, heat-treated and hardened TUNGSTEN STEEL TAPS and DIES

Each set includes: 17 taps & 17 1" diam. dies with sizes marked, double-handled die holder, T-handle tap wrench for sizes #4 to #12, double-handled tap vise for sizes 1/4" to 1/2", screwdriver, screw pitch/thread measuring gauge, compartmented case.

NC (U.S.S.) and NF (S.A.E.) SET. Contains these tap and die sizes: 4x40, 6x32, 8x32, 10x24, 10x32, 12x24, 1/8 National pipe thread; 1/4x20, 5/16x18, 3/8x16, 7/16x14, 1/2x13, 1/4x28, 5/16x24, 3/8x24, 7/16x20, 1/2x20.
81—1303R— 1-Set $21.88

Metric Set. Tap and die sizes: 3mm x 0.6, 4mm x 0.75, 5mm x 0.9, 6mm x 1.0, 7mm x 1.0, 8mm x 1.25, 10mm x 1.5, 12mm x 1.75, 3mm x 0.5, 4mm x 0.7, 5mm x 0.8, 6mm x 0.75, 7mm x 0.75, 8mm x 1.0, 10mm x 1.25, 12mm x 1.5, 1/8 BSP.
81—1304X— 1-Set $21.88

Economy Carbon Steel S.A.E. Set. Same components, sizes as S.A.E. set above.
17—9613B— 1-Set $11.88

Economy Carbon Steel Metric Set. Same components, sizes as metric set above.
88—1450A— 1-Set $11.88

Alphabet & Numeral STEEL STAMP SETS

- Stamps your name, initials or code on tools, equipment
- Discourages theft ... helps identify lost or stolen items
- Marks auto parts for easier assembly
- Choice of 3 sizes

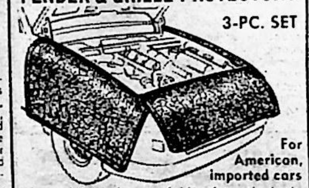

Super-sharp steel characters make clean, permanent impressions on metal, plastic, wood, leather, almost anything. 2-3/8" long.

[A] Alphabet Set. Includes capital letters A thru Z plus period
81—1381N—1/8" high 1-Set $9.99
81—1382T—3/16" high 1-Set 14.99
81—1383A—1/4" high 1-Set 19.99

[B] Number Set. Includes numbers 0 thru 8. (Number 6 can be used for 9).
81—1384R—1/8" high 1-Set $2.99
81—1385W—3/16" high 1-Set 4.99

FENDER & GRILLE PROTECTORS

3-PC. SET

For American, imported cars

Heavy-duty vinyl covers (with soft no-mar backing) protect grille and both front fenders while you're working on your car. Prevent scratches from tools, buckles, prevent grime build up. Velcro® strips assure fast, easy attachment and removal. Strong vinyl-bound edges. Easy to clean. Includes two 24" x 40" fender covers and one 24" x 48" grille cover.
18—8978R— 1-Set $19.95

Protective FENDER COVERS

Heavy-duty, Quilted Vinyl Cover is soft, comfortable, easy to clean. Foam backed for slip protection. 25" x 40". Black.
82—0607T—
Each $11.98

3-ply Supported Vinyl Leatherette Cover has non-skid combination foam rubber and cloth back. 1/2" ridge holds tools and small parts.

Color	26" x 40"	Each	26" x 30"	Each
Black	15—7777R	$9.79	15—7779N	$8.29
Red	15—7778X	9.79	15—7780T	8.29

Soft Flannel Cover used by professional mechanics. Long wearing, durable 8-oz. acrylic fabric is non-scratching. 36" x 54". Washable. Tan.
15—9218B— Each $7.98

Economy 32" x 24" Fender Cover. Leatherette with polyester padded backing.
15—6170Y— Each $4.69

MECHANICS' SEATS/TOOL HOLDERS

Lipped steel lower trays

[A] 15" x 15" tray with 7" x 14" x 3/4" thick solid oak seat. 12" high. Spring steel support brackets for comfort. 3" diam. steel swirl rollers for easy maneuverability.
14—4573W— Each $21.98

[B] 16" x 14" tray with 15" x 14" contoured seat. 10" high. 2-3/4" nylon swirl rollers.
14—2095B— Each $13.98

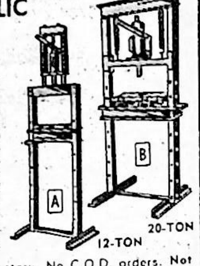

THREAD RESTORER DIE SET

8-pc. set includes 1/4", 5/16", 3/8", 7/16", 1/2", 9/16", 5/8", 3/4" for either SAE or USS threads. Heat treated, hardened. Plastic case.
74—0445Y—SAE threads 1-Set $4.99
74—0446W—USS threads 1-Set 4.99

Set of 5 for Metric Threads. Sizes: 6x1, 7x1, 8x1.25, 10x1.50 and 12x1.75mm.
15—5387R— 1-Set $3.19

HYDRAULIC PRESSES

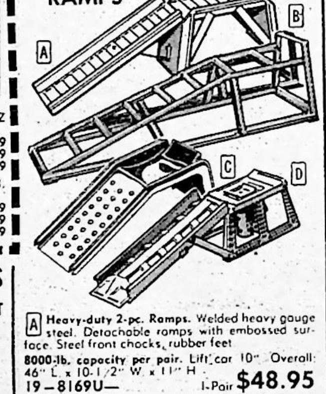

Remove and install bearings, bushings, pulleys, wrist pins, etc. quickly and easily yourself! Steel press with adjustable press bed is complete, including hydraulics. Tough baked enamel finish. Bolts together easily. Includes 2 arbor plates, hardware, instructions.

Shipped from factory. No C.O.D. orders. Not Mailable—See How to Order Page (Truck Shipments).

[A] 12-ton Press. 3-1/2" rigid channel steel frame, 7-position bed. 69" high. Working range: 1-3/4" to 41-3/4". Base: 20-1/2" x 20". Adjustable in 6" increments. Shpg. wt. 120 lbs.
97—1140XFE—
Each $139.95

[B] 20-ton Press. 4" rigid channel steel frame. 8-position bed. 63-1/2" high. Working range: 3" to 38". Base: 26" x 28". Adjustable in 5" increments. Shpg. weight 335 lbs.
97—2309XFE— Each $319.95

Portable CAR & TRUCK RAMPS

[A] Heavy-duty 2-pc. Ramps. Welded heavy gauge steel. Detachable ramps with embossed surface. Steel front chocks, rubber feet.

8000-lb. capacity per pair. Lift car 10". Overall: 46" L. x 10-1/2" W. x 11" H.
19—8169U— 1-Pair $48.95

5000-lb. capacity per pair. Lift car 8". Overall: 31" L. x 9" W. x 9" H.
19—8582Y— 1-Pair $27.95

[B] Heavy-duty 1-pc. Wide-track Ramps—8000-lb. capacity per pair. Lift car 10". Rear stop bar and sure-grip rubber pads. Nest for compact storage, hang on wall. Welded steel. 48" L. x 14" W. x 14" H.
19—6779B— 1-Pair $29.99

[C] 1-pc. Ramps—6500-lb. capacity per pair. Lift tire 9". Heavy gauge steel—no welded parts. Built-in wheel well and tire stop, slip-resistant incline, wheel stop and side rails. 39" L. x 11-1/2" W. x 12-1/2" H.
19—9959X— 1-Pair $19.99

[D] Combination Heavy-duty Ramps and Adjustable Jack Stands—10,000-lb. capacity per pair. With detachable ramps, support stands with wheel stops and rubber feet. Heavy gauge steel. Overall: 41-1/2" L. x 9" W. x 10" H.
18—4485R— 1-Pair $67.99

Wood or Steel CREEPERS

16" wide x 42" long

Headrest adjusts to 6 positions

16" x 36" long

[A] King-size Creeper. Doubles as a seat for body and brake jobs or aligning wheels. Heavy-duty varnished hardwood & plywood frame. 2" side rails and cross members. Sponge rubber headrest with oil-resistant cover. Large, easy-roll 3" rollers.
18—4954U— Each $22.98

[B] Mechanic's Creeper. Varnished hardwood frame and plywood bed reinforced by five 2" wide cross members. Oil-resistant, vinyl-coated padded headrest. Big 3" cast-iron swivel casters with factory-sealed lubrication.
19—4041R— Each $16.98

Low-profile Creeper (not shown). 16" wide, 36" long. Provides more clearance under vehicle. 20-gauge steel body, baked enamel finish. Padded headrest. Non-sparking 2-3/4" polyurethane wheels, ball-bearing swivel casters.
18—5900W— Each $13.95

Replacement Rollers for all creepers. Swirl-type steel rollers; factory-sealed lubrication.
15—2217A—2-1/2" Rollers
16—0192X—3" Rollers 1-Set of 4 $8.88

AC/DC TROUBLE LIGHT

Plugs into 110V AC ... or clips to 12V DC battery!

Extra-long 25-ft cord. Oil and grease-resistant heavy-duty plastic body with hang-up hook. Includes lamp, cord, 12-volt adapter with insulated battery clips and 12-volt 50-watt bulb. 110-volt AC bulb not included.
15—7168A— 1-Kit $9.95

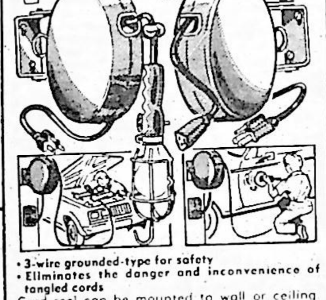

12-volt DC Trouble Light. Operates off your 12-volt battery. Low power drain. Handle has on/off switch. Includes 50-watt bulb, 25-ft. cord with battery clips.
75—2800A— Each $5.99

Same as above, but with cigarette lighter plug.
12—3109B—
Each $5.99

12-volt Adapter Kit. Lets you use your 110-volt trouble light with your 12-volt battery. Adapter with battery clips, 12-volt 50-watt bulb.
15—7169R— 1-Kit $4.95

Replacement 50-watt Bulb for above. 12-volt.
75—3201A— Each 98¢

Retractable Reel-type Shop-Lite & Extension Cord

- 3-wire grounded-type for safety
- Eliminates the danger and inconvenience of tangled cords

Cord reel can be mounted to wall or ceiling. Swivels 180° when mounted to wall ... folds flat against wall when not in use. UL listed insulated cord pulls out to any length and locks. When job is done, cord retracts automatically.

[A] Shop-Lite gives you safe, portable light. 3-wire grounded-type outlet in handle and push-thru switch. Swing-open guard and reflector ... swivels to give light in any direction. Reflector has hanger hook. Retractable insulated 20-ft 18-ga. UL listed cord. Bulb not incl.
15—5987W— Each $15.99

[B] Extension Cord. 20-ft. 18-gauge UL listed cord with 3-wire receptacle.
15—5986Y— Each $15.99

1-pc. COVERALL

- Fits over & protects your clothing
- Zipper front ... slips on and off easily
- Great for messy auto or home maintenance work

Lightweight white coverall is made of flame-retardant DuPont® Tyvek fabric. Can be machine washed and line dried—not machine dried. With carrying bag for convenient storage. Buy 2—one for your home or garage, the other to carry in your car for roadside emergencies. One size fits all.
14—5143X— Each $6.99

PLASTIC DIP COATING

Dip a protective red plastic coating on tools, chains, ropes ... any metal, plastic, fiberglass, wood, foam, glass or rubber surface. Conforms to any shape. Goes on cold—no heating. Air dries to a smooth, vinyl-like finish ... won't crack, peel or slip off. Insulates against cold and heat, resists abrasion, cutting, marring or household chemical damage. Easier on hands, adds gripping power.
12—3528T—12-oz. spray can Each $4.99
15—6060A—16-oz. can Each 5.99
15—6061R—1-gallon pail Each 34.99
15—6062X—1-qt. thinner (for brushing) Each 8.99

TACK CLOTHS

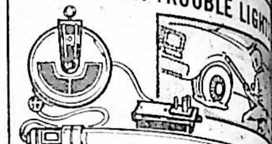

Removes and holds dust and sanding residue to assure smooth, even surface for painting. Resin coated. Anti-static. Box of twelve 18" x 36" cloths individually wrapped to prevent drying.
15—9377W— 1-Box $4.99

WIRE BRUSH

14" long wood handle with 6" long row of thickly clustered rigid wire bristles.
88—8500W— Each 89¢

CHARGE YOUR ORDER ON YOUR VISA OR MASTERCARD

Fluorescent TROUBLE LIGHT

- Give brilliant, glare-free light ... last many times longer than regular incandescent light bulbs
- Choice of 110-volt house current or 12-volt

Fluorescent stays cool, no burns; water resistant, no shocks. Heavy-gauge ABS plastic end caps, oil and grease resistant. Bulb protected by transparent, shatter-proof housing. Rated for [illegible] hours of continuous service. Includes grounded 3-prong plug, 18-gauge wire, aluminum reflector, adjustable hanger and switch mounted direct[ly on] light. Meets O.S.H.A. specifications.

110-volt Fluorescent Trouble Lights (U.L. listed). 15-watt bulb.

Light with self-retracting reel.
14—2352X—25-ft. cord Each [illegible]
14—2353N—40-ft. cord Each [illegible]

Light without reel.
14—2350A—25-ft. cord Each [illegible]
14—2351R—50-ft. cord Each [illegible]

12-volt Fluorescent Trouble Lights (not shown). 18" long. 8-watt bulb. 15-ft. cord.

Light with cigarette lighter plug.
14—3193U— Each [illegible]

Light with battery clips.
14—3194B— Each [illegible]

Our Best! MECHANIC'S TELESCOPIC STETHOSCOPE

Extra-long reach—10 sections telescope from 4-1/4" to 43"

- Big sound chamber for clearest amplification and super sensitivity

Locates damaged gaskets, piston slaps, [illegible] valves, defective bearings, rattles, [illegible] Chrome-plated probe & sound chamber [illegible] comfortable plastic ear plugs.
81—0731B— Each $14.[illegible]

Sensitive MECHANIC'S STETHOSCOPE

Long 2-pc. probe reaches to 11-1/2" PVC [illegible] phragm. Comfortable plastic ear plugs.
74—6916B— Each $4.[illegible]

MULTI-PURPOSE MAT

Provides a soft, clean surface to lie on when work[ing] in or under car. Ideal for newer cars [illegible] too low for creepers. Can also be used as a protective load mat in trunks and station wagons. 1/8" thick foam with heavy molded vinyl covering. Cleans with soap, water. 50" x 27".
12—3291Y— Each $4.[illegible]

Automotive BRUSHES

[A] Horsehair Wash Brush. 132 tufts of 2-1/2" long natural horsehair [illegible] won't scratch finish. 12" long x 2-3 [illegible] hardwood block.
14—8819R— Each $13.[illegible]

[B] Parts Cleaning Brush. Stiff 3" crimp [illegible] (nylon) brush, set in epoxy resin [illegible] hardwood handle.
04—0242U— Each $1.[illegible]

Fiber Brush. Same size as above.
04—0243B— Each $1.[illegible]

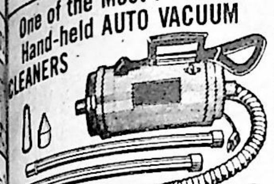

[C] Trim Brush. Extra-long nylon bristles [illegible] where toothbrushes can't. Angled handle [illegible] finger indentations.
14—5648N— Each $1.[illegible]

[D] Fender Brush. For close-up cleaning of [illegible] wells, bumpers, grilles, etc. 8-1/2" long [illegible] handle, 2" long plastic filled bristles.
12—3667R— Each $1.[illegible]

[E] Bendable Wheel Brush. Curves to reach around wires in wheels. 5-3/8" [illegible] double-wired loop of 1" diam. nylon [illegible] 4-1/2" long plastic handle.
14—7190W— Each $3.[illegible]

[F] Tapered Spoke Brush. Medium-stiff [illegible] fiber brush tapers from approx. 2-1 [illegible] 3/4" diam. Wood handle 15-1/2" [illegible]
17—8884P— Each $3.[illegible]

One of the Most Powerful Hand-held AUTO VACUUM CLEANERS

[...] superior to 12-volt auto vacs! Rugged 1.17-[...] motor provides intense suction for fast, [thor]ough vacuuming, delivers a powerful force of [air] (up to 200 MPH) for blower. Deep cleans vehicle interior. Sweeps lawns, driveways, floors, [...]. Blows snow. Air cleans engines, auto [...], appliances. Inflates air mattresses, sport[...] equipment. Tough steel body weighs only 7 [lbs]. Permanent cloth bag needs no costly refills. [...] flexible hose, nozzle, crevice tool, two 20" [ex]tensions, air maximizer, shoulder strap, [...] adapter. Uses 110V AC.
[...]5—9464B— Each $78.88

ELECTRIC ENGRAVER

[...] wood, stone, plastic—as easily as writing [with] a pencil. Adjustment knob changes length of [stro]ke and width of line. High-impact housing [...] contoured to fit hand. Only 6" long, weighs only 6 [oz.] —won't tire hand or arm. 120 volts AC, 15 [...] With 5-1/2-ft. cord.
[...]9—7364Y— Each $7.95

Carbide-tip ENGRAVING PENCIL

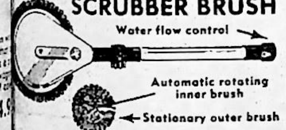

[Tu]ngsten carbide tip is almost as hard as a diamond. [W]rite on metal, glass, [ce]ramics, plastic ... almost anything.
[...]5—0690A— Each $1.98

Finest-quality CHAMOIS FULL SKINS

- Soft, absorbent and lint free
- For cleaning and polishing

[Ma]kes all those clean[-up] jobs around your [ho]me or garage a [b]reeze! Great for your car, van or boat because [it']s unmatched for picking up water without [s]mearing. Soft and supple ... can't scratch. Fully [wa]shable, quick drying; it lasts and lasts.
[...]5—5720A—2-1/2 sq. ft. Each $5.99
[...]—1294B—4-1/2 sq. ft. Each 11.99
[...]—1295R—6-1/2 sq. ft. Each 16.99
[...]—8331U—7-1/2 sq. ft. Each 18.99

Rotating WASHER/SCRUBBER BRUSH

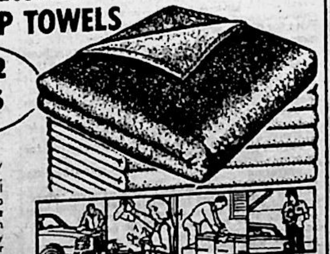

[Lig]htweight, water-powered scrubber attaches to [an]y garden hose. Rotating 5" diam. inner brush [loo]sens dirt ... 8" outer brush washes dirt away, [shi]elds you from spray. On/off water control in [ha]ndle. Soap reservoir holds 1/4 cup of liquid [d]etergent—enough to wash most cars. Control [reg]ulates flow of detergent. Brush head adjusts to [d]ifferent angles to wash hard-to-reach surfaces. [AB]S plastic. Soft split-end PVC brushes won't [ha]rm fine finishes. 8" long handle, 23" long [ov]erall. Kit includes two 24" aluminum extenders [tha]t attach to handle and increase overall length [t]o 70" ... lets you reach mobile homes, house sid[ing], high windows, etc.
[1]2—3411B— 1-Kit $27.95

[Ro]tating Washer/Scrubber Brush w/o extenders.
[1]2—2586B— Each $17.95

[24]" Aluminum Extender. Increases overall length [of] washer/scrubber above from 23" to 46". [O]rder two to increase length to 70".
[1]2—2587P— Each $5.00

Reusable—saves on replacements and rental costs! Washable COTTON SHOP TOWELS

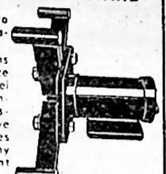

PKG. OF 72 TOWELS

[St]rong and long lasting—the same commercial-grade towels [us]ed by garages, service stations, repair [a]nd maintenance [sh]ops, restaurants, [o]ffices, etc.

[A] complete set of towels for all those day in, day [ou]t clean-up chores around your garage, shop, [bu]siness or home! No job is too big or too small [fo]r these rugged towels. They're tough enough to [ge]t greasy parts clean, sop up dirty spills, remove [gri]me from hands, wash fine car finishes, clean [gl]ass and mirrors. Won't fall apart like flimsy [pa]per towels. You'll find hundreds of uses for [th]ese versatile, clean-everything towels. Always [at] hand and ready to use—eliminates the ag[gr]avating search for "make-do" clean-up rags [th]at are never around when you need them most. [La]rge 16" x 16" towels are made of 100% cotton and hemmed to prevent raveling. Machine washable for long service. Pkg. of 72.
12—2742A— 1-Pkg. $19.95

Bench-mount ENGINE STAND

- Holds all engines up to 1000 lbs. except Volkswagen

Strong 1" sq. steel arms are slotted for easy size adjustments. 1/2" steel head plate. Precision machined sleeve assures smooth, positive operation. Head rotates 360° and locks in any position to prevent slippage.
14—2398P— Each $44.95

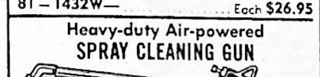

Air-powered BLOWER & VACUUM CLEANER

- Weighs only 2 lbs.

Blow-cleans engines, parts up to 3 times faster than electric cleaners! Easy-to-empty cloth bag, on/off vacuum/blower controls. Approx. 5-3/4" x 1" plastic pickup nozzle. 1/4" air inlet. Recommended hose size: 3/8" I.D. Uses approx. 9 CFM at 90 psi.
81—1432W— Each $26.95

Heavy-duty Air-powered SPRAY CLEANING GUN

- High-speed, 2-way action gun removes dirt, grease, oil quickly and easily from engines, parts and machinery
- Pressure-type trigger for maximum efficiency

Sprays kerosene, soap, other solvents under high pressure to wash away grime from hard-to-reach areas. Sure-grip handle with liquid and air on/off controls. Automatically adjusts to shop pressure from 40-150 psi. Gun measures 10" long with 40" suction tube with strainer.
81—0662R— Each $9.95

Portable PARTS CLEANER with 5-gallon Reservoir & Solvent

- Gives the professional results of commercial-duty cleaners
- Faster, safer than using a bucket & brush
- Polyethylene reservoir detaches easily from cleaner

Steady stream of solvent removes oil or grease from metal parts while flow-through brush scrubs them clean. Brush can be hand-held or mounted to side of basin. 22-gauge epoxy-coated steel basin is 20-1/2" x 12-1/2" x 6-1/2". Safety cover automatically closes at 150°F. Two safety links are built into sink section. Motor delivers 30 gallons of solvent per hour. Submersible, centrifugal 115-volt epoxy-encapsulated pump. Impeller does not touch casing, removes easily for cleaning. Unit fits on workbench when in use ... stores flat or upright. Includes on/off switch, 7-ft. cord with 3-prong grounded plug, 5 gallons of solvent, filter bag, brush, built-in lock, gloves, apron, instructions. Shipped from factory. No C.O.D. orders.
97—2438UF— Each $169.98

Solvent. Hydrocarbon degreaser has flash point of 140°. Stable and non-corrosive on all metals. In 5-gal. container. Shpd. from factory. No C.O.D. orders.
97—2439BF— Each $39.98

Portable PARTS CLEANERS

- Big 28" x 17" x 7" basin handles large parts ... fits any 15-gallon drum (not included)
- Lightweight, rustproof
- Heavy-duty, UL listed pump recirculates solvent at rate of 170 gallons per hour
- Choice of 110V or 110V/12V models

Pump draws solvent from drum through nozzle, filters it and returns it to drum. 7/16" diam. spigot can be hand-held or left in fixed upright position. Basin has easy-to-clean filtered drain and hinged top that doubles as a self-supporting splash board. Chemical-resistant, rustproof polyethylene. Weighs 15 lbs. With 6-ft. cord, instructions. Use with any non-flammable cleaning solvent.

110-volt AC (house current) model.
17—9776X— Each $114.98

110-volt AC/12-volt model. Runs on both house current or any 12-volt vehicle battery. Shpd. from factory. No C.O.D. orders.
96—5158WF— Each $139.98

Holds any engine up to 750 lbs. ENGINE REPAIR STAND

- Bolts together for quick, easy set ups ... disassembles fast for trouble-free storage

Ideal for small block engines yet strong enough to support big V8s! Swivel head rotates a full 360° and locks in any position. 4 adjustable arms hold engine securely. Strong 3" wide steel frame rolls easily on steel casters. Shipped from factory. No C.O.D. orders.
96—2104TF— Each $69.98

Repair Stand Adapter for Volkswagen and Porsche engines. Shipped from factory. No C.O.D. orders.
99—7398TF— Each $24.98

PORTABLE ENGINE REPAIR STAND

Holds up to 1000 lbs.

OSHA Approved

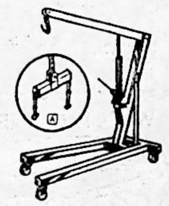

Strong yet weighs only 50 lbs. Disassembles to a manageable 34" x 12" x 8" package for easy storage. Features:

- Heavy-duty 1/2" solid steel swivel plate engine mount head with 360° turning position and set-screw ... locks at any point
- Mounting head is electrically welded inside and out to a heavy steel hub that's specially tilted to counter-balance engine weight
- Sturdy square tubular legs slip into electrically welded vertical support bar to hold any engine up to 1000 lbs. except Volkswagen & Porsche
- Heavy steel gussets are welded to bar for added strength ... eliminates need for front leg brace ... provides space for oil drip pan
- Heavy-duty casters are made of non-flattening, non-sparking phenolic resin
- Foot-operated brake on front caster

Enamel finish. Includes easy assembly instructions.
18—5287Y— Each $84.98

4-leg Conversion Kit. Converts stand above to a 4-leg unit for better stability. With additional caster brake.
18—5387W— Each $29.98

Heavy-duty 4-leg Hydraulic Mobile ENGINE CRANE

- Pulls engines to 2,000 lbs.
- Lifts car or light truck engines

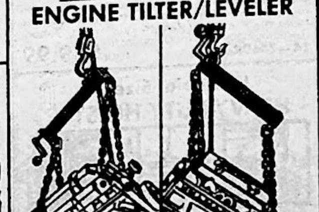

Sturdy 3-ton hydraulic lifting cylinder with detachable handle. Super-strong chain and forged steel grab hook feature key-hole-type chain locking device. Frame is constructed of electrically wire-welded 3" x 3" x .188 wall steel tubing. With 2 heavy-duty braces, 2 bottom-ribbed plates and reinforced base. Measures 56" high. Boom is 60" long. Chip-resistant enamel finish. 4 non-flattening 3" steel wheels. Each has ball-bearing swivel construction. Requires only 4 bolts (included) to assemble. Instructions included. Shpd. from factory. No C.O.D. orders. Shpg. wt. 220 lbs. Not Mailable—See How to Order Page—Truck Shipments. Chain separator [A] sold separately below.
96—7519XFE— Each $329.95

Mobile Engine Crane with 1500-lb. Capacity (not shown). Similar to above except 1500-lb. capacity. Frame is made of electrically wire welded 2-1/2" x 2-1/2" x .188 wall steel tubing. Measures 54" high. Boom is 54" long. 4-non-flattening 3" phenolic resin (front) and steel (rear) wheels. Requires 9 bolts (included) to assemble. Shipped from factory. No C.O.D. orders. Shpg. wt. 175 lbs. Not Mailable—See How to Order Page—Truck Shipments. Chain separator [A] sold separately below.
96—7684RFE— Each $299.95

[A] Chain Separator for cranes above. Allows removal of engine without removal of carburetor, distributor, etc. Adjusts easily to proper engine power train angle for removal or installation. 1000-lb. capacity high-strength chain. Shpd. from factory. No C.O.D. orders.
96—4461NF— Each $29.95

Engine Lift Plate for cranes above (not shown). 3/16" thick steel plate mounts easily to carburetor intake manifolds of all V8 and V6 engines with 2 or 4-bbl. Hoist hook slips through one of the 3 positions on top of the lift plate. Pulls engines up to 1200 lbs. Size: 6-3/4" x 6" x 2-3/8" high. Zinc plated to resist rust. Instr. included.
15—9960R— Each $9.99

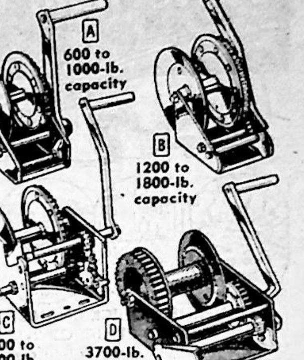

ENGINE TILTER/LEVELER

- Makes engine installation faster, easier
- 1500-lb. capacity

Crank handle and worm gear allow precise adjustments of engine angle. Bronze rollers assure smooth movement. Heavy-duty steel unit with hot-galvanized steel chain. For use with engine crane or hoist (see Index). Instructions included.
12—2607W—
Each $54.98

Heavy-duty HAND WINCHES

- Zinc-plated finish resists rust, corrosion, scratches
- Choice of 11 load capacities (600 to 3700 lbs.)
- Mechanical advantage assures easier cranking
- Strong high-carbon SAE 1050 steel gears distribute wear better for longer life
- Internally lubricated drum bushings and oil-impregnated shaft bushings provide the smoothest possible cranking
- Rib-reinforced frames, perfect gear alignment
- Two-way ratchets on winches [B], [C] and [D]

Mount quickly on trailer and take the work out of loading or unloading marine, farm and industrial equipment. Heavy-gauge steel with oven-baked, weather-resistant finish. Corrosion-resistant stainless steel springs. Load capacity is maximum rated vertical lift weight ... horizontal supported pull is greater. Winch rope and steel cable not included; order rope below. See Index for cable.

[A] SMALL TRAILER WINCHES.

600-lb. capacity. 3.1:1 gear ratio. 5/8" diam. hub takes up to 36 ft. of 1/4" rope. Maximum mechanical advantage: 37:1
14—3292U— Each $14.99

850-lb. capacity. 3.1:1 gear ratio. 5/8" diam. hub takes up to 30 ft. of 1/4" rope. Maximum mechanical advantage: 43:1
14—3293B— Each $16.99

1000-lb. capacity. 4.1:1 gear ratio. 3/4" diam. hub takes up to 30 ft. of 5/16" rope. Maximum mechanical advantage: 52:1
14—3294P— Each $19.99

[B] MEDIUM-DUTY WINCHES with 2-way ratchet for reversible action. Assures controlled loading or unloading.

1200-lb. capacity. 4.1:1 gear ratio. 3/4" diam. hub takes up to 30 ft. of 5/16" rope. Maximum mechanical advantage: 58:1
14—3295X— Each $22.99

1400-lb. capacity. 4.1:1 gear ratio. 3/4" diam. hub takes up to 21 ft. of 5/16" rope. Maximum mechanical advantage: 66:1
14—3296N— Each $27.99

1600-lb. capacity. 5.1:1 gear ratio. 7/8" diam. hub takes up to 40 ft. of 3/8" rope. Maximum mechanical advantage: 73:1
14—3297T— Each $34.99

1800-lb. capacity. 5.1:1 gear ratio. 1" diam. hub takes up to 20 ft. of 7/16" rope. Maximum mechanical advantage: 78:1
14—3298A— Each $39.99

[C] BIG CAPACITY, 2-SPEED WINCHES. Double geared: one speed for fast pulling, the other for heavy-duty power pulling. Change speed without removing handle. 2-way ratchet with neutral position for sure-control loading, unloading. Optional hand brake kit available—order at right.

2000-lb. capacity. 4.1:1 and 9.8:1 gear ratios. 1" diam. hub takes up to 20 ft. of 7/16" rope. Max. mechanical advantage: 137:1
12—2507Y— Each $48.99

2600-lb. capacity. 5.1:1 and 12.2:1 gear ratios. 1" diam. hub takes up to 24 ft. of 1/2" rope. Maximum mechanical advantage: 163:1
12—2508W—
Each $59.99

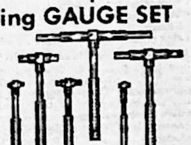

3200-lb. capacity. 5.1:1 and 12.2:1 gear ratio. Giant 1-3/4" diam. hub takes up to 175 ft. of 7/32" steel cable. Maximum mechanical advantage: 124:1
12—2509U— Each $84.99

Optional Hand Brake Kit. Can be installed after winch is mounted.
12—2510B— Each $7.49

[D] 3700-lb. capacity for extra-tough loads. Super strong with heavier gauge reinforced steel frame designed exclusively for use with steel cable. Wide design with larger, wider gears. 5.1:1 and 15.8:1 gear ratios. Giant 1-3/4" diam. hub takes up to 185 ft. of 7/32" steel cable ... prevents breaking while winding. 2-way ratchet. Black finish—not zinc-plated. Maximum mechanical advantage: 213:1. Hand brake (included) for safety and control.
15—8608N— Each $149.99

Twisted Winch Rope with Forged Marine Snap. Tough, long-lasting polypropylene. Twisted design prevents flattening, minimizes stretching. Waterproof, resists rot, mildew and decay. Attaches easily to all winches. Sold in 25-ft. lengths.
15—6682B—5/16" diam. Each $7.49
15—6683P—3/8" diam. Each 7.99
15—6684Y—7/16" diam. Each 9.29

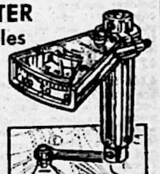

Precision • 6-pc. Telescoping GAUGE SET

- Measure inside diameters to 6"

Checks wheel cylinders & piston cylinder walls. All have dome-shaped ends, satin chrome finish and hardened tool steel contact points, precision ground on radius-measuring end. Rigid handle with self-centering spring system. Range sizes: 5/16" to 6". Set of 6 in vinyl storage pouch.
14—2603T— 1-Set $49.77

TORQUE METER with Dual Scales

- Converts your 1/2" drive breaker bar or ratchet wrench to an accurate torque wrench

Measures 0-120 ft.-lbs. and 0-16 meter-kilograms. Simply set pointer at zero and tighten fastener until desired torque shows on dial. Follower-pointer records actual torque applied. Steel. Small enough to fit in tool box.
81—1587X Each $9.95

4-LEG ENGINE STAND

Base has 4 steel casters

Disassembles completely for compact storage. Head rotates 360° and locks in any position. Strong angle-iron and steel construction. Overall: 32-1/2" long, 22" wide, 35-1/2" high. Tough enamel finish. Holds any American and many imported engines up to 750 lbs. Volkswagen and Porsche engines need adapter (order below). Not Mailable—See How To Order Page—(Truck Shipments.) Shpg. wt. 71 lbs. Shpd. from factory. No C.O.D. orders.
99—8781RFE— Each $99.99

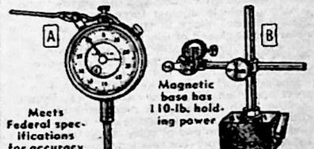

Accessories for Engine Stand

Adapter. Holds Volkswagen and Porsche engines on stand above. Steel with enamel finish. Shpd. from factory. No C.O.D. orders.
99—8782XF— Each $22.99

Drip Pan. Aluminum. 18" x 26" x 3/4" deep. Shpd. from factory. No C.O.D. orders.
99—8783NF— Each $19.99

Tool Tray. Steel. 10" x 20" x 3/4" deep. Mounts on engine stand above. Shpd. from factory. No C.O.D. orders.
99—8784TF— Each $19.99

OUT-OF-ROUND DIAL GAUGE & STAND

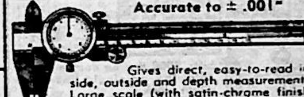

[A] Dial Gauge measures out-of-round of brake drums, rotors, shafts, etc. Super precise. Easy-to-read 2-11/64" diam. dial measures 0 to 1" in .001" increments ... features revolution counter hand and adjustable bezel with clamp screw for setting zero. Center lug has screws for positioning in 90° intervals. Satin finished chrome-plated case. For maximum accuracy, use with magnetic-base stand [B] below. Fits all AGD (American Gauge Design) holders.
14—2945Y— Each $29.99

[B] Stand for gauge above. On/off magnet release. Fully adjustable arm allows measuring in any position. Accepts all AGD (American Gauge Design) dial gauges.
14—2946W— Each $34.99

Our Best! DIAL CALIPER

Accurate to ± .001"

Gives direct, easy-to-read inside, outside and depth measurements. Large scale (with satin-chrome finish) measures 0 to 6" in .001" graduations. Black numerals are crisp, clear. Stainless steel—measuring faces are hardened, precision ground and micro-lapped for superior accuracy. Thumb roll for easy adjustment ... clamp for repetitive readings. With storage case.
12—3621W— Each $59.95

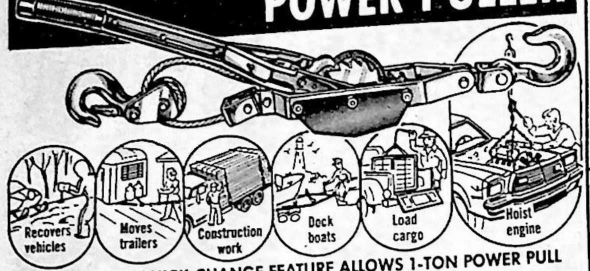

Best • Easiest-to-Read • Most Accurate DIGITAL MICROMETERS

AS LOW AS 49.95 0-1"

- Digital display reads to .001"
- Vernier scale reads to .0001"

Incredibly low prices! Instruments are accurate to .0001". Anvil and spindle hardened and precision ground with micro-lap finish on ends. Carbide tipped. With ratchet stop, positive-lock lever, insulated sleeves. Enamel finish. Carry case included. 2" and 3" sizes include standard.
12—3622U—0-1" Each $49.95
12—3623B—1-2" Each 59.95
12—3624P—2-3" Each 69.95

Convertible 1-TON to 2-TON POWER PULLER

CONVERTIBLE QUICK-CHANGE FEATURE ALLOWS 1-TON POWER PULL WITH 10-FT. LIFT OR 2-TON POWER PULL WITH 5-FT. LIFT!

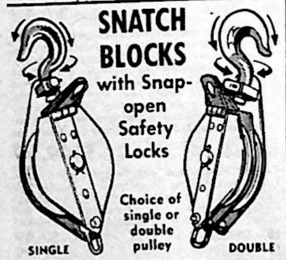

- **LIFTS LIKE A HOIST—lets you hoist engines, move machinery, load cargo**
- **PULLS LIKE A WINCH—you can pull vehicles out of snow, sand or mud, haul boats out of the water, remove fenders**
- **WEIGHS ONLY 6 LBS.—completely portable, lets you handle all types of jobs alone ... quickly, easily and safely**

Heavy-gauge steel construction is galvanized against rust and hardened at all stress points. Quick-change pulley has hardened pins and lock rings and can be attached or removed in no time. Using pulley you get a 2-ton pull with a 5-ft. lift ... without pulley you get a 1-ton pull with a 10-ft. lift. Loaded with these extra features for durability, safety and easiest operation:

- Drop-forged hooks to handle heavy loads ... quickly removable for attaching clamps and chains
- Swiveling top hook connector for easiest positioning of load
- Rugged stamped steel frame and ratchet guard
- Automatic, trouble-free thumb-control let-down release for maximum safety
- Extra-strong 13-ft. 3/16" diam. aircraft cable
- Comfortable, sure-grip vinyl handle

With heavy-duty, hardened frame bolts. Lightweight, easy to carry and store.
88—9317U— Each $19.98

SNATCH BLOCKS with Snap-open Safety Locks

- **Increases winch's versatility ... lets you reverse direction of pull, pull around corners, at angles or up or down**
- **Virtually doubles effective pull of winch in straight-line situations**
- **Available in 1/2 to 10-ton capacities**

Helps pull stuck vehicles from sharply inclined or hard-to-reach areas. Lets you use gravity to hold winching vehicle against force of pull. Easy to use—just hook block to stuck vehicle or anchor point and hook end of winch line onto your outfit. For every foot of cable your winch winds in, there's only 6" of movement. You can move objects twice as heavy but half as fast ... winch works only half as hard. Reduces line tension for safer operation. Heavy-duty steel block. Snap-on locking latch allows quick placement of line or cable ... no need to thread line or remove hook and U-clamps on end of cable. Drop-forged hook swivels 360° to prevent twisting. No-jam recessed pulley wheel.

Capacity Size	Tons	SINGLE PULLEY Stk. No.	Each	DOUBLE PULLEY Stk. No.	Each

10"	10	88—9377Y	54.99	88—9383W	69.99

110V or 12V • 2000-lb. Capacity ELECTRIC HOIST

Lifts 2000 lbs. on double line or 1000 lbs. on single line—with pulley block

Enclosed reversible motor lifts and lowers, has hardened gears and ball bearings for long service. Heavy-duty corrosion-resistant case. Built-in friction brake holds load when power is off. Level-wind spring guides cable for smooth, even, snarl-free winding. With 25 ft. of 3/16", 4200-lb test aircraft-type cable, pulley block, 6-ft. remote control switch. Dual safety hooks included for overhead load. Can be mounted permanently. Drum holds up to 50 ft. of 3/16" cable. Cable travels at rate of 8 ft. per minute under no-load.
75—2148N—110 volt AC Each $359.99
75—2149T—12 volt DC Each 359.99

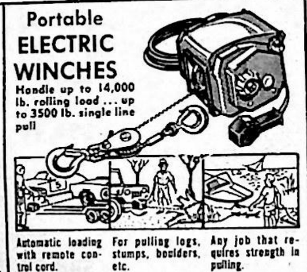

Dial-type Vernier CALIPERS with Protective Case

Precision calipers for easy and accurate inside, outside, depth and step measurements. Trouble-free thumb control operation with locking clip to hold reading until released. Accurate to within ±.002". 5" range. Jaw length: 1-1/2". Dial graduation: .001". Vernier readings: 0.1mm-100. Made of durable metal-like superpolyamid. Adjustable bezel. Includes drill and chip-proof snap-lock face.
14—4206T— $23.99

Portable ELECTRIC WINCHES

Handle up to 14,000 lb. rolling load ... up to 3500 lb. single line pull

- **Patented roller clutch, needle bearings and thrust bearings give easier, quicker, positive operation**
- **Remote electric control**
- **Super-tough, shock-resistant, all-weather ABS housing**
- **Not recommended for use as a hoist**

14,000-lb. rolling load capacity! 3,500-lb. single line pull, 6,000-lb. double line pull. Use as a versatile, portable winch, or mount semi-permanently. Order adapter kit below for mounting winch on front or back end of vehicle. **Premium features:** Power in—brake—free-wheel out control, level wind plate for even cable wrap. Includes 40-ft. of 7/32" aircraft-type steel cable with safety hook, hand crank, wiring kit with 80 amp circuit breaker, pulley block, owners manual. Black. 12 volt.
12—2632U— Each $329.99

8,000-lb. rolling load capacity. 2,500-lb. single line pull, 4,000-lb. double line pull. For loading medium-sized boats and other medium duty uses. Complete with wiring kit with 80 amp circuit breaker, remote control cord, emergency hand crank, 40 ft. of 7/32" aircraft type steel cable, pulley block with large, heavy-duty safety hooks for double line operation. Grey, weather-resistant, heavy-duty ABS housing. 12 volt.
12—2633B— Each $299.99

6,000-lb. rolling load capacity. 2,000-lb. single line pull, 3,500-lb. double line pull. For medium boats, motors, etc. Adaptable to light service on trucks, cars, tractors. Includes vehicle wiring kit with 40 amp circuit breaker, vehicle wiring kit, 35 ft. of 3/16" aircraft-type cable, forged steel hook and pulley block with safety hook. Red housing. 12 volt.
12—2634P— Each $269.99

Multi-Purpose Adaptor Kit for above winches. For use other than boat trailer. Winch can be attached to ball hitch on front or rear of car and can be used to pull logs, stumps, boulders, etc. or for pulling car out of mud, snow, sand, or ice. Simply remove winch from winch stand on trailer, attach to adapter bracket.
75—2150A— Each $19.99

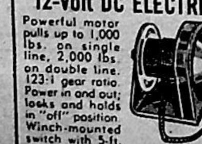

Winch Cover (not shown). White vinyl cover keeps winch clean, dry. Fits all winches above.
15—4942B— Each $11.99

110 Volt AC Winch. 3,500-lb. line pull (enough to pull 12,000-lb. rolling load up to 20% incline), 6,000-lb. double line pull. Heavy-duty winch with a 450 to 1 gear reduction. **Features:** Power in—brake—free-wheel out control, level wind plate for even cable wrap. Includes 50 ft. of 7/32" aircraft type steel cable with safety hook, hand crank, owners manual. Black housing.
15—0816B— Each $349.99

Pulley Block. Use with 12—2632U and 12—2633B.
15—0817P— Each $14.88

3700-lb. test Aircraft-type 3/16" Galvanized Steel Cable. With hook. For above winches.
74—5533W—25 ft. long Each $7.69
74—5534S—50 ft. long Each 10.98
74—5536R—100 ft. long Each 19.98

1,000-lb. Capacity 12-volt DC ELECTRIC WINCH

Powerful motor pulls up to 1,000 lbs. on single line, 2,000 lbs. on double line, 123:1 gear ratio. Power in and out, holds in "off" position. Winch-mounted switch with 5-ft. lead. Installs in any position. Includes 25-ft. of 3/16" aircraft cable with hook.
12—2802T— Each $129.95

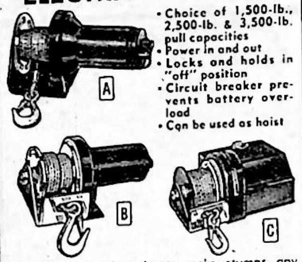

OIL SUCTION GUNS
All-purpose Filling & Draining Unit

For wet clutches, transmissions, differentials, any place requiring fluid lubricant. Hycar plunger for positive forcing and suction. Capacity 20-oz. by weight or 1.5 pints by volume. Oil and grease-resistant 15" flexible hose has positive seal. Knurled barrel 11" long x 2-1/4" diam., sure-grip handle.
52—0017A— Each $6.49

Economy Oil Suction Gun. Similar to above. 10-1/2" hose, 9-3/4" x 1-1/4" barrel. 4-oz. capacity.
81—1829T— Each $1.89

Portable 12-volt ELECTRIC WINCHES

- Choice of 1,500-lb., 2,500-lb. & 3,500-lb. pull capacities
- Power in and out
- Locks and holds in "off" position
- Circuit breaker prevents battery overload
- Can be used as hoist

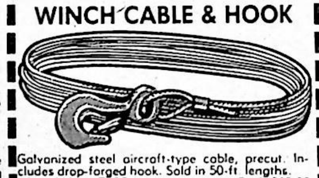

Ideal for hauling logs, boats, rocks, stumps, any big pulling job! Powerful motor has roller and ball bearings for smooth, effortless operation. Shock and weather-resistant steel housing. Emergency handcrank and hand-saver bar included.

[A] **1,500-lb. pull capacity.** 3,000-lb. double-line pull. 123:1 gear ratio. Includes 25 ft. of 3/16" galvanized steel aircraft cable with safety hook. Winch-mounted switch has 5-ft. lead. Installs in any position.
12—3711N— Each $164.99

[B] **2,500-lb. pull capacity.** 5,000-lb. double-line pull. 148:1 gear ratio. Includes 40 ft. of 7/32" galvanized steel aircraft cable with safety hook. Built-in cable guide. Tension plate keeps cable tight on drum. Detachable control switch has 5-ft. lead.
12—3712T— Each $194.99

[C] **3,500-lb. pull capacity.** 7,000-lb. double-line pull. 148:1 gear ratio. Includes 50 ft. of 7/32" galvanized steel aircraft cable with safety hook. Built-in cable guide. Tension plate keeps cable taut on drum. Remote control with 10-ft. cord. 5-ft. power supply harness. ABS cover protects motor, solenoids from weather.
12—3713A— Each $294.99

WINCH CABLE & HOOK

Galvanized steel aircraft-type cable, precut. Includes drop-forged hook. Sold in 50-ft. lengths.
82—1002W—7/32" diam. Each $13.98
82—0697U—1/4" diam. Each 16.98
82—0698B—5/16" diam. Each 19.98
82—0699P—3/8" diam. Each 21.98

WINCH CABLE ONLY. Above, less hook. **State no. of feet desired. NOTE: Minimum order 100 ft.** Shipped from factory. No C.O.D. orders.
99—7399AF—3/16" diam. Foot 19¢
99—8118UF—7/32" diam. Foot 26¢
99—6085XF—1/4" diam. Foot 28¢
99—6086NF—5/16" diam. Foot 39¢
99—6087TF—3/8" diam. Foot 46¢

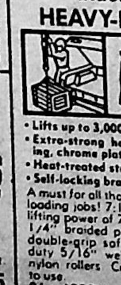

Portable WINCH KIT
for All Vehicles with 4, 5, 6 or 8-lug Wheels

- **Lets you pull YOURSELF out of snow, mud, sand, ice and ditches quickly, easily**
- **Winches forward and reverse**
- **As efficient as high-priced winches yet needs no permanent attachments**

Lightweight, easy to use, complete—no extra tools required. Includes: 75-ft. polypropylene rope; high-tensile strength cable (one), T-bars (two), lug adapters (four) and instructions.
14—7419R— Kit $39.99

Industrial Size HEAVY-DUTY HOIST

- **Lifts up to 3,000 lbs. of cargo**
- **Extra-strong heavy-gauge steel housing, chrome plated to prevent rust**
- **Heat-treated steel bolts with lock nuts**
- **Self-locking brake catch**

A must for all those BIG hoisting, pulling, towing jobs! 7:1 lift ratio gives you the lifting power of 7 men! Extra-long 65-ft. 1/4" braided polypropylene rope with double-grip safety hooks and heavy-duty 5/16" welded ring. Smooth 2" nylon rollers. Comes assembled, ready to use.
81—1890N— Each $14.98

Dual-protection TEFLON* GREASE

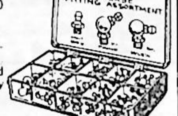

- Lubricant/coating stays put even under extreme moisture
- Virtually immune to severe cold or heat—protects from -20°F to +500°F
- Choice of 14-1/2 oz. cartridge or 1 and 5-lb. bulk cans

High-performance, long-lasting grease base impregnates and coats critical metal parts with a dry, micro-thin film of Teflon* as it lubricates. Plated surfaces glide over each other with reduced friction, drag and wear. Cartridge is ideal for grease gun applications; bulk cans are convenient for assembly and maintenance operations.
15—6802W—14-1/2 oz. cartridge Each $4.99
15—6801Y—1-lb. can Each 4.99
14—3307P—5-lb. can Each 19.99

*TEFLON is the registered tradename for DUPONT TFE RESINS

GREASE FITTING KITS

Case-hardened steel fittings tested to 8000 psi.

100-pc. SAE Kit. Includes: 80 straight fittings, ten 45° and 90° plus compartmented plastic box with easy identification chart.
15—6779W— 1-Kit $14.98

100-pc. Metric Kit. Includes 60 straight fittings, 20 each 45° and 90°, plus compartmented plastic box with easy identification chart.
15—6780U— 1-Kit $19.98

8-pc. Kits (not shown). Include four straight fittings, two 45° and two 90°.
14—2582R—SAE. Size 1/4"-28 1-Kit $1.89
14—2583X—Metric. Size 6mm x 1mm 1-Kit 1.89

Midget GREASE GUN

One-hand operation. Develops 7500 lbs. pressure. Uses 3-1/2 oz. cartridge (included) or bulk load. Can be used with hose and coupler below.
75—3279X— Ea. $7.49

Flex Hoses. For all hand grease guns, any style coupler.
75—3281T—12" hose Each $2.99
12—4497P—18" hose Each 3.29

9/16" Diam. Hydraulic Coupler. Steel plunger.
75—3282A— Each $1.69

Replacement Cartridges. All-purpose lithium grease. 3-1/2 oz. cartridges.
75—1314U— 1-Pkg. of 6 $5.49

Pocket-size Hoist ... LIFT A TON with One Hand!

- **Pulls car out of a ditch fast**
- **Hauls engine from vehicle**
- **Lifts up to 2000 lbs. of freight**

Weighs less than a pound and fits in glove compartment. Ideal for all kinds of hoisting, loading, unloading, etc. Extra-long 65-ft. of 3/16" rope with double-grip safety hooks and heavy-duty welded ring. Smooth nylon rollers. Cadmium-plated housing. Assembled, ready to use.
88—8367P— Each $4.98

GREASING ACCESSORIES

[A] **Locking Grease Fitting Coupler.** Makes greasing an easy, one-hand job. Just tighten ring to lock jaws on zerk fitting. Fits all 1/8" NPT extensions.
15—6874N— $4.79

[B] **Injector Needle with flexible extension.** Gets into hard-to-reach spots. Stainless steel needle point fits under lip or through hole in sealed bearing. Can also be used on universal joint fittings, water pumps, metal-covered springs and more. Extension withstands to 150 lbs. pressure. Fits all standard grease guns with 1/8" fittings.
75—2017B— Each $[illegible]

[C] **Injector Needle.** Same function as B without extension. Snaps into all standard grease couplers. With protective plastic cover.
14—2708P— Each $[illegible]

[D] **Grease Gun Adapter.** Greases universal constant velocity joints with standard recessed fittings. Quick-disconnect type [illegible] removable 3/4" long needle-point tip plus [illegible] and large sleeves to fit over standard & heavy-duty couplers. Recommended work pressure 3000 psi.
14—4369R— Each $[illegible]

Grease Gun Adapter with 4" needle-point. Similar to above exc. tip lets you grease recessed and hard-to-reach fittings on RVs & 4WDs.
14—5697B— Each $[illegible]

[E] **Grease Adapter Kit.** Attaches to any standard grease gun ... easily lubricates vehicles' grease plugs or recessed fittings. Includes flexible hose, seal-off adapter with rubber needle-point adapter and threaded swivel with knurled knob.
15—5926U— 1-Kit $[illegible]

[F] **Grease Fitting Ram Tool.** Frees frozen fittings quickly, easily. Generates up to 1,000 lbs. hydraulic pressure per blow. Works on all fittings, except 90°.
74—3223W— Each $[illegible]

1/2, 1, 1½ and 2-ton Capacity TRIPLE-GEARED CHAIN HOISTS

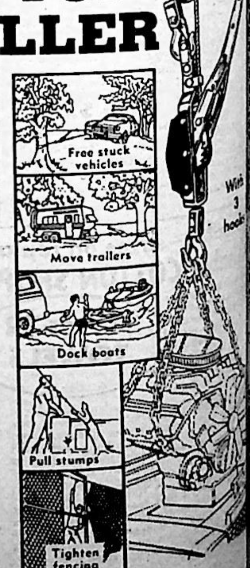

- **Hardened spur gears plus swivel hooks permit effortless raising & lowering, precise positioning of heavy loads**
- **Heavy drop-forged steel safety hooks plus automatic brake**
- **Molybdenum alloy steel load chain provides 8-ft. lift**
- **High-grade, heat-treated bushings and bearings**

Ideal for replacing engines and lifting [illegible] equipment. Heavy-duty portable hoists [illegible] matically lock chain to hold load at any [illegible]. Enclosed drive chain. Withstand impacts, [illegible] handling.

Capacity	Stk. No.
1/2 ton	89—9907A
1 ton	89—9908R
1-1/2 ton	89—9909X
2 ton	18—5265U

Heavy-duty Convertible 2-TON to 4-TON POWER PULLER

Versatile unit lifts like a hoist ... pulls like a winch!

- **Pulls or lifts up to 8,000 lbs.**
- **26-to-1 single line leverage ratio ... 52-to-1 double line ratio**
- **Three-hook design allows easy conversion from 2-ton to 4-ton capacity**
- **Super strong—approx. 1/4" welded steel 1-pc. frame**

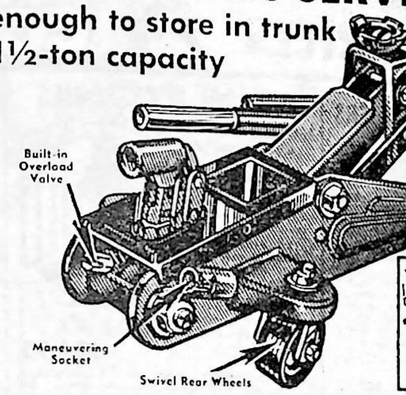

Unlimited automotive, industrial, farm or marine uses! LIFTS LIKE A HOIST—lets you lift engine, load or unload cargo, move heavy machinery, etc. PULLS LIKE A WINCH—lets you free stuck vehicles, move trailers, pull out stumps, straighten leaning trees, tighten fences, etc. Convertible feature allows a 2-ton pull with approx. 10-ft. lift when using 2 hooks, or a 4-ton pull with approx. 5-ft. lift when using all 3 hooks. Loaded with these extra features:

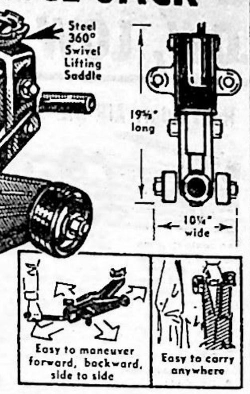

- Drop-forged hooks with safety latches to handle heavy loads
- Heavy-duty swiveling top hook connector for easiest positioning of load
- Single-drive ratchet wheel for smooth, easy operation
- Automatic let-down catch for maximum safety
- Unit is galvanized for rust protection and heat treated at all stress points for strength
- Heavy-duty, heat-treated 3/8" bolts
- Sure-grip vinyl handle
- 13-ft. long, approx. 1/4" diam. heavy-duty aircraft cable

Strong and durable, yet compact. Completely portable, easy to store.
81—1891T— Each $39.98

Portable MINI HYDRAULIC SERVICE JACK

★ Compact—small enough to store in trunk
★ Weighs 29 lbs ... 1½-ton capacity

- Only 19-5/8" long x 10-1/4" wide
- Fits easily even in small car trunks ...
- Great for roadside emergencies
- Easy to carry, handle and store
- Lifts from 5-3/8" to full 13"
- Lifts from side, front or rear of vehicle

[illegible] strong, easy to use. Ideal for car and truck [illegible], garages, service stations, do-it-yourselfers. Heavy-duty all steel chassis. Hardened and ground piston and ram with quick-action release valve. Cast iron maneuvering socket, roller-bearing front wheels, swivel [illegible]-bearing rear wheels for easy positioning. Overload valve helps prevent over-extension of jack piston. Strong, heat-treated steel cylinders. Swivel saddle has safety lips to prevent load slippage ... remains horizontal during lift. Includes 2-pc. 30" handle.
89—9871R— Each $29.99

2-TON CAPACITY AIR BAG JACK

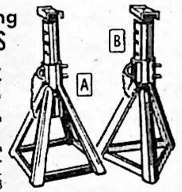

Jack up your car with exhaust in less than a minute!

Great for changing tires or tire chains ... gives a helpful boost out of mud, sand or snow. Compact—conveniently stores in your trunk

So easy to use! Just position super-strong PVC/nylon pneumatic bag under car and attach to tailpipe with hose & connector. Once engine is turned on, bag inflates up to 22-3/4" high, 19-3/4" diameter ... lifts your car effortlessly! No-return valve at hose-to-bag connection has deflation lever. Weighs approx. 5 lbs. With 14-1/2 ft. flexible PVC hose, carry bag, instructions.
81—1486B— Each $29.95

Double-locking JACK STANDS

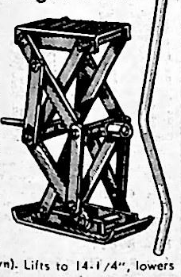

- U-shaped pin double locks post for extra strength, greater safety
- Welded steel with rust-resistant finish

[A] **4-leg Stand with 16,000-lb. capacity per pair.** Maximum stability. 8 height adjustments. Maximum height: approx. [illegible]; closed: approx. 14".
12—3467U— 1-Pair $18.98

[B] **Tripod Stand with 8,000-lb. capacity per pair.** 5 height adjustments. Maximum height: approx. 17"; closed: 12".
12—3468B— 1-Pair $8.98

6-Arm SCISSORS JACKS for All Cars & Light Trucks

1-1/2 and 2-ton Capacity Jacks. Extra-heavy-duty steel construction. Extra-large heavy-duty thread screw and trunnions. Unbreakable, self-lubricating, solid-state thrust bearings. Double-baked enamel finish. 22" long handle.

1-1/2-ton Capacity. Lifts to 14-1/4", lowers to 3-7/8".
15—9214A— Each $13.99

2-ton Capacity (shown). Lifts to 14-1/4", lowers to 3-7/8".
15—9215Y— Each $16.99

1-1/2-ton Capacity Hi-Lift Jack. Heavy-duty 1/4" x 1" carbon steel construction with 5/8" machined screw thread. Extends to 18-1/2" height. Folds to 4". Wide non-slip base. 2-pc. folding handle, 38" long fully extended.
19—3086N— Each $24.99

ROLLER and BALL-BEARING GREASE-PACKING TOOL
Greases Car, Truck and Trailer Bearings up to 5" O.D.

Easy to use with either air or hand-operated grease guns. Accepts bearings of minimum 25/64" I.D. Working height between cones 0 to 2-1/8". Use as portable or bench mount. Zinc-plated steel.
15—3724N— Each $6.98

High-temperature grease (not shown). For disc and drum brake wheel bearings. Grease withstands temperatures of up to 475°. Net wt. 14-oz.
14—8919X— Each $2.19

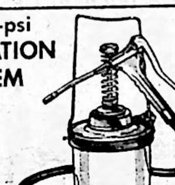

All-purpose • Hi-Lo BUMPER JACKS

Continuous-lift 7,000-lb. jacks for small trucks, station wagons and trailers. Versatile jacks lift, hoist pull or push. Top clamp clevis adjustable to any position. Large base plate. Made of Class A, Grade I malleable iron castings for strength and durability.

Jack Height	Continuous Lift	Stk. No.	Each
42"	Up to 31"	18—6343Y	$51.98
48"	Up to 38"	18—6344W	53.98
60"	Up to 47"	18—6345T	56.98

10,000-psi LUBRICATION SYSTEM

- **Develops 10,000 psi working pressure**
- **Completely portable—no air required**

A single priming of the pump provides enough grease for up to 30 fittings. Easy-to-use gun has pushbutton control to regulate flow and pressure. Built-in filter keeps grease clean. Rubber-edged follower prevents air locks. 5-ft. grease hose with 360° swivel. Fits all 7-lb., 1-gallon grease containers (empty container included). With instructions. Shipped from factory. No C.O.D. orders.
97—2774BF— Each $149.95

Air-powered GREASE GUN

Easy-to-use thumb-operated lever takes the work out of greasing

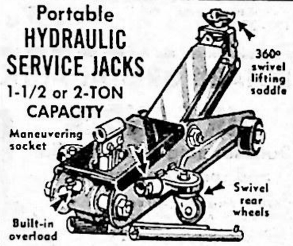

- **Delivers 1,500 to 9,000 p.s.i. when supplied 30 to 150 p.s.i. from compressor**
- **Heavy-duty, commercial quality steel construction assures many years of rugged use**

Convenient one-hand operation. Special rubber plunger pushes all grease in barrel forward under steady pressure and automatically sizes itself for 3 types of loading. Takes any 14 or 14-1/2-oz. cartridge (not included), 16-oz. bulk load or gun-filling dispenser. Comfortable pistol grip. Includes E-Z air vent cap, pipe and snap-on coupler for easy hook up to grease fittings. May be used with flexible hose (not included). 1/4" air inlet.
14—1610R— Each $29.98

Teflon* Grease. Supplies superior lubrication even under extreme moisture conditions. 14-1/2-oz. cartridge.
15—6802W— Each $4.99

Lithium Grease. 14-oz. cartridge
14—5655P— Each $1.49

Portable HYDRAULIC SERVICE JACKS
1-1/2 or 2-TON CAPACITY

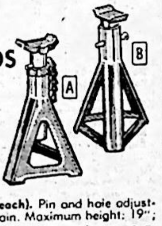

- **Lightweight, easy to carry, stores in trunk**
- **Lifts front, side or rear of any vehicle up to 3,000 lbs. (1-1/2-ton) or 4,000 lbs. (2-ton)**

Steel chassis. Hardened and ground piston and ram with quick-action release valve; cast iron maneuvering socket, front roller-bearing wheels and rear swivel ball-bearing wheels for easy positioning; built-in overload protection to help prevent over extension of jack piston. Heat-treated steel cylinders.

1-1/2-ton Capacity Jack. Lifts from 5" to 16-1/2". 24-1/2" long, 10-1/2" wide. Weighs 38 lbs. Steel lifting saddle. 30" long handle, instructions.
89—9780B— Each $39.95

2-ton Capacity Jack. Lifts from 5-1/2" to 15-1/2". 24-3/8" long, 10-1/2" wide. Weighs 39 lbs. Steel base with cast iron lifting saddle. 22-1/2" long handle, instructions.
81—9171B— Each $57.88

Heavy-duty ALL-STEEL JACK STANDS

- **Support up to 8,000 lbs. per pair**

Sure-footed tripod design. Welded steel construction with rust resistant finish. With 3 height adjustments.

[A] **Stand with 8,000-lb. capacity per pair (4,000-lb. each).** Pin and hole adjustment with retaining chain. Maximum height: 19"; closed: 12".
15—9216W— 1-Pair $16.98

[B] **Stand with 6,000-lb. capacity per pair (3,000-lb. each).** Similar to (A). Maximum height 16-1/2"; closed 11-1/2".
15—9217U— 1-Pair $8.79

HYDRAULIC TRANSMISSION JACK
1,760-LB. CAPACITY

- **Easily handles all types of transmissions**
- **Saddle adjusts laterally 1-3/16"; tilts 10° backward and 60° forward**
- **Safety valve prevents overloading jack**
- **Quick-release valve speeds lowering**

Professional-quality all-steel jack lifts from 7-7/8" to 31-1/2". Cast iron wheels, safety chain. 33-7/16" long, 15-1/4" wide, 12-3/16" high. With 33" handle. Shpg. wt. 139 lbs. **Not Mailable—See How to Order Page—Truck Shipments.**
81—9255TE— Each $299.95

8-ton or 12-ton capacity per pair Extra-heavy-duty Jack Stands

- **Ratcheted center post with heavy-duty locking pin which positively locks in place by load weight**
- **Pyramid base for stability, strength**

Welded at all stress points. Easy to adjust—6 height adjustments from 12" to 18". Locking pin doubles as lift handle. Enamel finish.

Stand with 16,000-lb. capacity per pair. 3/16" steel centering post.
12—2990W— 1-Pair $39.95

Stand with 24,000-lb. capacity per pair. 1/4" steel centering post.
12—2994Y— 1-Pair $44.95

1½-TON CAPACITY SCREW-TYPE JACK

Gets into tight, low-clearance areas ... lifts cars, light trucks, even trailers easily. Just turn the 48" long handle—screw action does the rest. Lift range: 4-1/2" to 11-1/2". Painted steel body, cadmium-plated steel handle, tempered & hardened gear mechanism. Handle folds for compact storage.
81—1819U— Each $14.99

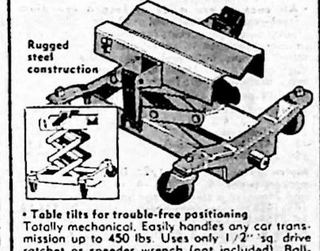

12,000-lb. capacity per pair! Ratchet JACK STAND

- **Faster height adjustment than pin-type**

Steel construction with heavily braced legs welded at all stress points! Ideal for wheel changes, brake jobs—any job where heavy weight must be supported. **Solid steel center post is ratcheted with self-engaging pawl that is positively locked in place by load.** 12 height adjustments from 13" to 21". Enamel finish.
15—8940B— 1-Pair $24.98

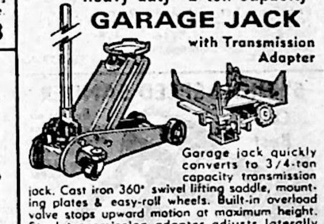

Portable ... 450-lb. Capacity TRANSMISSION JACK

- **Table tilts for trouble-free positioning**

Totally mechanical. Easily handles any car transmission up to 450 lbs. Uses only 1/2" sq. drive ratchet or speeder wrench (not included). Ball-bearing rubber caster wheels. Fingertip adjustment. Nylon strap with steel buckle secures load safely. Lifting range: 7-1/4" to 22-1/2". Size: 17-2/5" long x 16-3/5" wide.
81—9163R— Each $99.98

Heavy-duty • 2-ton Capacity GARAGE JACK
with Transmission Adapter

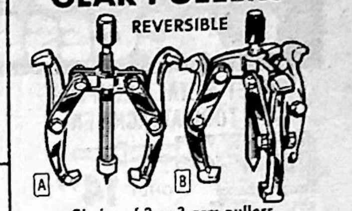

Garage jack quickly converts to 3/4-ton capacity transmission jack. Cast iron 360° swivel lifting saddle, mounting plates & easy-roll wheels. Built-in overload valve stops upward motion at maximum height. Steel transmission adapter adjusts laterally 1-1/8", tilts 26° backward and forward ... has steel chain to secure transmission to jack. Jack is 31-7/8" long x 13-7/8" wide. Lift range with lifting saddle: 5-1/8" to 19-1/4". Lift range with transmission adapter: 19-3/8" to 33-1/2". Shipped from factory. No C.O.D. orders. Shpg. wt. 123 lbs. **Not Mailable—See How To Order Page (Truck Shipments).** Jack & adapter sold separately below.
96—7543XFE— Each $239.99

2-ton Capacity Garage Jack. Shpd. from factory. No C.O.D. orders. Shpg. wt. 93 lbs. **Not Mailable—See How To Order Page (Truck Shipments).**
96—7478WFE— Each $149.99

Transmission Adapter. For all garage jacks with removable lift saddle and 1" diam. bore. Shpd. from factory. No C.O.D. orders.
97—2250TF— Each $99.99

Heavy-duty GEAR PULLERS
REVERSIBLE

Choice of 2 or 3-arm pullers

Grip tightly, won't slip. Pull gears, sprockets, bearings and pulleys effortlessly and safely. Polished jaws and arms are forged and machined from quality alloy steel, precision heat treated for maximum durability, strength. Hardened steel center bolt with hex head for sure-grip wrench fit. Jaws can be reversed to grip firmly inside or outside gears or parts. 4" thru 12" pullers have lower centering cap on bottom of bolt to assure constant, even pressure. 8" and 12" pullers have 2-hole adjustable jaws.

[A] **2-Arm Pullers.**

Arm Spread	Reach	Stk. No.	Each
3"	2-1/2"	88—5966B	$3.99

8"	8"	88—9387X	26.99
12"	10"	88—9388N	58.99

Combination 2-jaw/3-jaw GEAR PULLER KITS

Easy change-over between 2-jaws and 3-jaws. Chromed heat-treated steel jaws, arms, hardened-steel center bolt. Reversible jaws grip firmly in or out.
81—2028A—Spread 3", reach 2-1/2" Ea. $7.98
81—1452U—Spread 4", reach 3-1/2" Ea. 9.98
81—2029R—Spread 6", reach 4-3/4" Ea. 13.98

1-1/2-ton to 20-ton Capacity HYDRAULIC GARAGE JACKS

Thick steel ramps and side plates, high-pressure tested valve bodies. Foot pedal for no-load lifting to jacking height. Built-in over-load valve automatically stops upward motion at max. height ... smooth-action release valve lever on handle. Large lifting saddles swivel 360° ... are cast-iron on 2, 3, 5, 10 and 20-ton jacks and steel on 1-1/2-ton jack. Cast iron, easy-roll wheels and mounting plates. Removable saddles with 1" bore except 1-1/2-ton jack. **Not Mailable—See How to Order Page (Truck Shipments).** Nos. ending in "FE" shipped from factory, no C.O.D. orders.

[A] **Compact 1-1/2-ton Capacity Jack.** Lifts from 4" to 20" high. 28-3/4" long, 14" wide overall.
89—9877WE— Each $119.99

2-ton Capacity Jack (not shown). Lifts from 5-1/8" to 19-1/4" high. 28-1/2" long, 13-3/4" wide. Does not have foot pedal for no-load lift. Shpg. wt. 98 lbs.
97—2110RFE— Each $149.99

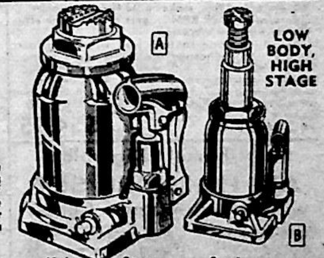

[B] **3-ton Capacity Jack.** Lifts from 5" to 24" high. 56-1/4" L. 13-7/8" W.
89—9903PE— Each $299.95

5-ton Capacity Jack (not shown). Lifts from 5-7/8" to 22-1/8" high. 55-7/8" long, 14-3/4" wide overall. Shpg. wt. 242 lbs.
96—5679AFE— Each $449.95

10-ton Capacity Jack (not shown). Lifts from 6-1/4" to 22-1/8" high. 61-3/8" long, 18-1/8" wide overall. Shpg. wt. 330 lbs.
96—5680RFE— Each $599.95

20-ton Capacity Jack (not shown). Lifts from 7-1/2" to 24-1/8" high. 66-7/8" long, 19-1/2" wide overall. Shpg. wt. 506 lbs.
96—5681XFE— Each $1299.95

HEAVY-DUTY 1-1/2 to 50-TON CAPACITY HYDRAULIC HAND JACKS

[A] **Heavy-duty Hydraulic Jacks feature an extra 10% reserve capacity over comparable jacks with these ratings.** Steel bases for tip-proof safety. Can be used full power in upright or side position. ■**Not Mailable—See How to Order Page—Truck Shipments.** ♦**Shipped PREPAID via truck—PRICE INCLUDES SHIPPING CHARGES.**

[B] **Low-body, High-stage Hydraulic Jack.** Full jacking power vertically or horizontally. Large steel base for stable, tip-resistant support. Special 2-stage lift plus 1-1/4" screw extension. 2-ton capacity. Clears heights as low as 5-3/8". Jack is 12-1/8" fully extended.
89—9957W— Each $17.95

INDEX AND ORDER BLANKS—SEE BACK PAGES

AIR TOOLS & ACCESSORIES

COMPLETE SELECTION at LOW, LOW PRICES

AIR TOOLS & ACCESSORIES

SHEET METAL CRIMPING AIR TOOL ATTACHMENT

ONLY 14[99]

Attaches to air hammers using .401 shanks.

Forms flange around cutout area so repair patch can be seated flush with surface

- Speeds repair of damaged, rusty auto bodies
- Crimps sheet metal panels uniformly, quickly
- Ideal for body shop, garage, do-it-yourselfers

A must for auto body repair. Cut out damaged section. Use crimper to create a flange completely around hole. Fit repair patch into hole, where it is held by the new flange. The repair patch is flush with the surface, ready for welding or riveting. Hardened chrome moly chisel steel with full-grip handle for safety. Weighs only 1-3/4 lbs. About 7" long.
81—0265A— Each $14.99

Heavy-duty • Hi-torque Geared 3/8" Dr. AIR DRILL

- Three-way planetary gear reduction for higher torque and more drilling power
- Variable-speed trigger for maximum control
- Sealed ball-bearing construction for long life
- Built-in muffler reduces noise

Weighs only 2-1/8 lbs. Aluminum alloy motor housing, hardened tool steel drive mechanism. 1/4" air inlet size. Recommended hose size: 3/8" I.D. 2500 RPM free speed. Uses 4 CFM air at 90 p.s.i. Will not stall or overheat. 6-1/2" long. With chuck key, instr.
14—1549R— Each $44.98

Reversible • Heavy-duty AIR IMPACT WRENCHES

½" Drive

- Cuts time needed to remove or replace nuts, bolts, lugs, etc.

Delivers up to 300 ft lbs at 90 psi. Speeds up mechanical or body work, wheel mounting and dismounting, assembly line jobs, shop work. Designed for higher starting torque. 6-vane motor and built-in power regulator for positive speed control. Cast aluminum housing. Impact mechanism protected by continuous-feed lubrication. Weighs only 5-1/4 lbs. 1/4" air inlet. Operates at 90-120 psi. Air consumption 4-1/2 CFM. Uses 3/8" I.D. air hose.
14—4732Y— Each $49.95

Heavy-duty 1/2" Drive Wrench with 2" extended shank (not shown). Same as above. For flip sockets and hard-to-reach spots.
14—4733W— Each $59.95

Orbital Action AIR SANDER

for auto body finishing on flat surfaces

Use for wet or dry sanding on paint, plastic and fiberglass

- Weighs only 4 lbs., makes auto finishing easier
- Operates at 8500 RPM ... gets the job done efficiently with low vibration

Heavy-duty, long-lasting pad with hold-fast clamps ... no adhesives, no center screw to mar finish. Uses 3-2/3" x 9" sandpaper. Automatic-release trigger control for safety. Die-cast aluminum housing is 7-3/8" long. Uses 6 CFM air pressure 60-120 PSI. Air inlet 1/4". Uses 3/8" air hose.
14—1601Y— Each $54.95

Short-barrel • High-blow AIR HAMMER SET with 4 Multi-purpose Chisels

- 4500 blows per minute with 1-5/8" stroke
- Built-in air regulator for variable power control
- Compact—only 5-1/2" long
- Weighs less than 3 lbs.

Air Regulator

Extra-high-blow for cutting sheet metal, chiseling and punching. Delivers maximum 4500 blows per minute at 90-100 p.s.i. Aluminum alloy body, pistol-grip handle, hardened tool steel mechanism. Accepts standard .401" chisels (4 included—tapered punch, panel cutter, cut-off, weld buster). 1/4" NPT air inlet, 4 CFM air consumption. 3/8" recommended hose size. With instructions.
81—1724W— 1-Set $19.95

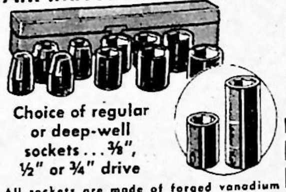

Air Volume Control REGULATORS

- Give you full control of air pressure of all air-driven tools with 1/4" inlet

Regulator with Gauge (shown). Accurately measures 0 to 160 p.s.i. in 10-lb increments.
14—3302A— Each $7.95

Regulators without Gauge (not shown).
15—9938N—Steel Each $3.95
15—9939T—Brass Each 2.99

SAE and METRIC AIR IMPACT SOCKET SETS

Choice of regular or deep-well sockets ... 3/8", 1/2" or 3/4" drive

- All sockets are made of forged vanadium steel—the finest tool steel available

Heavy-duty 6-pt. sockets for use with air-powered impact wrenches to speed installation and removal of nuts, bolts and studs. Beveled nose for easy on and off. Holes for locking pin in drive tang. Black penetrate finish.

SAE 11-pc. Set with 1/2" Drive. Includes 10 sockets (sizes 7/16", 1/2", 9/16", 5/8", 11/16", 3/4", 13/16", 7/8", 15/16" and 1"). Steel storage box.
15—5422U—Standard-depth 1-Set $14.98
15—7494A—Deep-well 1-Set 29.98

Metric 11-pc. Set with 1/2" Drive. Includes 10 sockets (sizes 10, 11, 12, 13, 14, 17, 19, 21, 22 and 24mm) plus steel storage box.
14—1555W—Standard-depth 1-Set $14.98
14—1556U—Deep-well 1-Set 29.98

SAE 9-Pc. Set with 3/8" Drive. Includes 8 sockets (sizes 5/16", 3/8", 7/16", 1/2", 9/16", 5/8", 11/16" and 3/4"). Steel storage tray.
81—2025X—Standard-depth 1-Set $9.98
15—7497U—Deep-well 1-Set 13.98

Metric 9-Pc. Set with 3/8" Drive. Includes 8 sockets (sizes 8, 10, 11, 13, 14, 16, 17 and 19mm). Steel storage tray.
14—1557B—Standard-depth 1-Set $9.98
14—1558P—Deep-well 1-Set 13.98

SAE 9-pc. Set with 3/4" Drive. Includes 8 standard-depth stocks (sizes 1", 1-1/16", 1-1/8", 1-1/4", 1-5/16", 1-3/8", 1-7/16" and 1-1/2") plus storage box.
81—0556T— 1-Set $29.98

5" HIGH-SPEED SANDER

Our Best

Built-in air regulator varies no-load speed from 2,000 to 18,000 RPM

- High speed provides smoothest, fastest sanding

Weighs only 3-1/2 lbs. Aluminum alloy body. 3 backing plates. Hardened tool steel mechanism. Operates from 60-100 psi. 6 CFM air consumption. 1/4" air inlet. Minimum hose size: 3/8". With instructions. Order grinding discs below.
81—1720U— Each $29.95

14,000 RPM Sander. With 2 backing plates. Operates at 90-100 psi. 7 CFM air consumption. 1/4" air inlet. Min. hose size 3/8".
75—2994B— Each $27.95

Grinding Discs. Heavy-duty aluminum oxide resin fiber "C" type. 5", 24 grit. 7/8" arbor hole.
12—2867W— 1-Pkg. of 5 $4.99

Portable Lightweight AIR STORAGE TANKS

- Choice of 4 sizes
- Heavy-duty 13-gauge welded steel

Provide pressurized air for inflating, painting, spraying or parts cleaning. Easily refilled from any air pump. Pressure gauge has unbreakable lens. Rustproof brass fittings. Built-in safety valve prevents overfilling. Manual shut-off valve. Fully assembled—won't leak. Complete with 4-ft. air hose (3/8") and chuck and carrying handle.

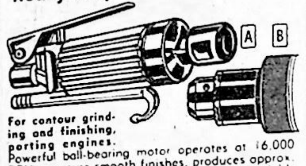

13-gallon Tank (shown). Tested at 375 p.s.i. Working pressure 125 p.s.i. Air capacity 1-3/4 cu. ft. Size 22" long x 14" high x 14" wide. Weighs 35 lbs.
14—5018A— Each $49.99

9-gallon Tank. Tested at 375 p.s.i. Working pressure 125 p.s.i. Air capacity 1-1/4 cu. ft. Size 21-3/8" long x 14-1/4" high x 12-1/4" wide. Weighs 30 lbs.
17—9154X— Each $44.99

6-gallon Tank. Tested at 375 p.s.i. Working pressure 125 p.s.i. Air capacity .8 cu. ft. Size 21" long x 12" high x 12" wide. Weighs 22 lbs.
12—2727B— Each $39.99

4-gallon Tank. Like 6-gal. tank above exc. air capacity is .67 cu. ft. Size 31-1/4" long x 8" high x 6" wide. Weighs 18 lbs.
18—8450R— Each $34.99

Heavy-duty AIR DIE GRINDERS

For contour grinding and finishing, porting engines.

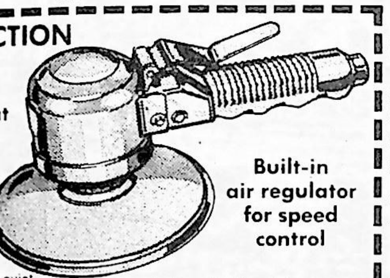

Powerful ball-bearing motor operates at 16,000 RPM to assure smooth finishes, produces approx. 2/5 HP at 7000 RPM. Lever throttle for variable speed and power control. Lightweight aluminum housing ... weighs 1-1/4 lbs. 90-120 psi. 4.7 CFM. 1/4" air inlet. 3/8" minimum hose size.

[A] **Grinder with 1/4" collet to accept all 1/4" shaft accessories.**
14—1561U— Each $37.95

[B] **Grinder with 3/8" chuck & key to handle all drill bits or tools with 1/16" to 3/8" shafts.**
12—2987B— Each $37.95

ROTARY/ORBITAL ACTION AIR SANDER

Dual sanding action for flat and contoured surfaces

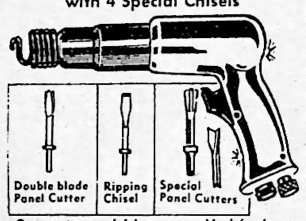

Built-in air regulator for speed control

- Muffled design for quiet operation

Professional-quality auto body finishing every time! Air sander runs cooler, lasts longer and weighs less (only 4 lbs.) than electric tools. Rotary action assures smooth circular sanding ... orbital action helps provide a patternless finish. Durable nylon housing. 6" diameter sanding pad (sanding disc not included). Balanced, ball bearing construction for quiet, vibration-free operation. 10,000 RPM no-load speed. Average air consumption is only 4 CFM at 60 psi. 1/4" air inlet. 3/8" air hose recommended. 8" long. Vinyl handlebar grip.
14—1559Y— Each $49.95

Long Barrel AIR HAMMER with 4 Special Chisels

Double blade Panel Cutter — Ripping Chisel — Special Panel Cutters

- Our most powerful hammer ... ideal for heavy-duty cutting, shearing, punching, chiseling and breaking joints
- Built-in air regulator varies speed and power

Full 3-1/2" stroke at 2000 blows per minute, 90-120 p.s.i. 4 CFM air consumption. Weighs just 4 lbs. Accepts .401" shank chisels. Spring-type tool retainer. Aluminum alloy body, pistol-grip handle. Hardened tool steel mechanism. Air inlet, minimum hose size: 1/4". Includes instructions and 4 chisels described above.
14—4744T— 1-Kit $29.95

Air Hammer only.
14—4743N— Each $24.95

Replacement Spring Tool Retainer for all .401 shank hammers.
14—9307U— Each $1.49

Palm-held AIR IMPACT WRENCH

- 3/8" drive
- Torque of 100 ft.-lbs. at 90 to 120 psi

Flutter throttle control offers instant forward & reverse action. Minimum hose size: 3/8". Air inlet: 1/4". 2-1/2 CFM air consumption.
14—1551N— Each $49.95

Self-recoiling AIR HOSE with swivel fittings

100% nylon hose is gas, oil and chemical resistant. Spring reinforcement eliminates kinking. Working pressure: 200 psi. Bursting pressure: 800 psi. Working length about 2/3 actual length.

Inside Diameter	Male Fitting	Length	Stock Number	Each
1/4"	1/4"	12 ft.	15—7137W	$4.95
1/4"	1/4"	25 ft.	15—7138U	6.95
1/4"	1/4"	50 ft.	15—7139B	11.95
3/8"	3/8"	25 ft.	15—7140P	14.95
3/8"	3/8"	50 ft.	15—7141Y	24.95
1/2"	1/2"	25 ft.	14—2260B	24.95
1/2"	1/2"	50 ft.	14—2261P	39.95

Mini 1/4" Drive AIR RATCHET WRENCH

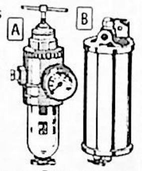

- Super small ... only 6-1/2" long with 1-1/16" wide head
- Easily gets in spots where larger ratchets can't

Reversible 4 vane motor produces up to 30 ft.-lbs of torque. Forged steel head, die-cast aluminum body. Weighs only 1-1/4 lbs. Air inlet: 1/4". Minimum hose size 3/8" I.D. 3 CFM air consumption at 90 p.s.i. Instructions.
14—4095P— Each $69.95

AIR TOOL ACCESSORIES

Install permanently in air lines ... protect tools & paint guns

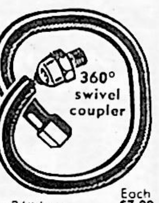

- High capacity—80 CFM at 150 psi inlet pressure
- Petcock-type drain valves
- 3/8" inlet & outlet ports, reducers for 1/4" fittings

[A] **Filter/Regulator/Gauge Combination.** Cleanable 50-micron element filters out most microscopic liquid and dirt particles in air line. Regulates outlet pressure from 5 to 125 psi. Gauge reads 0 to 160 psi in 5-lb. increments and 0 to 11 bar in 0.2 increments. See-thru polycarbonate bowl.
14—8446A— 1-Set $34.95

[B] **Oil Filter for paint guns.** Replaceable 5-micron filter element removes virtually all oil, water, other contaminants from air lines. Use with [A] to prolong life of filter element.
81—1726A— Each $29.95

Lead-in HOSES for Air Tools

360° swivel coupler

- Makes air tool handling easier
- No twisted hoses

Coupled 1/4" N.P.T. male ball swivel rotates 360°. 1/4" N.P.T. solid female fitting on opposite end. Heavy-duty oil-resistant neoprene rubber hose with working pressure of 200 psi.

	Each
15—9067T—1/4" diam. x 24" long	$7.99
15—9068A—1/4" diam. x 60" long	9.99
15—9069R—3/8" diam. x 30" long	8.99
15—9070X—3/8" diam. x 72" long	11.79

AIR TOOL ACCESSORIES

[A] **Automatic Oiler.** Mounts in-line, keeps your air tools oiled automatically to prevent burnouts, rust. High-impact clear plastic reservoir with external fill hole. For use on all air tools with 1/4" NPT inlet.
81—1741P— Each $5.99

[B] **Water Filter.** Lifetime brass micronite filter with easy-drain. Removes the collected condensation that can pass from an air hose into your air tool or spray gun to cause rust, deterioration and malfunctioning. 3-1/2" long x 1-1/2" diam. filter fits any tool or spray gun with 1/4" air inlet.
14—1630X— Each $9.99

[C] **3-in-1 Air Coupling Manifold.** Connects 3 air-powered tools to one air hose ... permits use of air supply by more than one person at the same time. 1/4" female outlets and inlet. Outlets can accept different style couplers. Strong, lightweight machined aluminum.
12—2538T— Each $4.79

[D] **360° Swivel Hose Ends.** Helps eliminate kinked or twisted air lines. Fits 1/4" inlet.
14—4908U—w/1/4" hose barb Ea. $3.99
14—4909B—w/3/8" hose barb Ea. 3.99

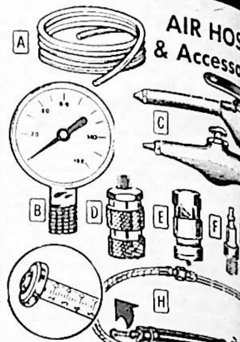

TIE ROD SEPARATOR & BODY HAMMER for Air Impact Tools

[A] **Tie Rod Separator.** For tools accepting .401 Parker shanks. 21/32" opening between jaws. .401 shank.
15—6141R— Each $14.99

[B] **Body Smoothing Hammer.** Large 1-1/2" diam. convex face. .401 shank.
15—5148N— Each $7.98

AIR HOSES & Accessories

[A] **AIR HOSE.** 2-braid thick rubber tube, heavy-duty cover. Will carry 250 lb. pressure. Male coupling on each end.

I.D.	Length	Stk. No.
1/4"	25-ft	74—6770T
1/4"	50-ft	74—6771A
3/8"	25-ft	14—9576U
3/8"	50-ft	14—9577B

DRIVEWAY SIGNAL HOSE. Soft, live rubber specially compounded to withstand extreme heat, cold. 1/8" wall thickness with 3/8" I.D. Plugs, joints and clamps, see below.
52—0088B—50-ft. length Each
15—1034A—100-ft. length Each

Rubber Hose End Plugs. Pkg. of 5
14—2101Y— 1 Pkg.

Y-Joint with 3-5/8" I.D. Clamps.
14—2103U— 1 Kit

[B] **AIR PRESSURE GAUGES.** For air lines, pressure tanks. Use for air, water, oil or fluids which are compatible with brass, bronze. Easy-to-read 270° dial. 5-lb increments.
15—9348X—0-160-lb Gauge Each
15—9349N—0-300-lb Gauge Each

[C] **SAFETY AIR BLOW GUNS.** 1/4" ... psi inlet gives 30 psi at nozzle. Meet ... requirements.
52—0278R—Button type Each
52—0279X—Lever type Each

[D] - [G] **QUICK-CHANGE AIR HOSE COUPLERS AND PLUGS.** Lets you quickly disconnect hose from line or equipment ... one air hose available for many uses.

STEEL COUPLERS. Designed to attach to ...
[D] 14—5211B—1/4" male Each
[E] 14—5210U—1/4" female Each

STEEL PLUGS. Attach to tool.
[F] 14—3087Y—1/4" male 1-Set of ...
[G] 14—3000A—1/4" female 1-Set of ...

[H] **TIRE INFLATOR.** For direct air lines ... gauge measures pressure from 10 to 12... in 2-lb. increments. Weatherproof aluminum ... with brass valve, 2 steel washers, 6" ... plated steel dual head chuck, extension ... all rim cover holes) and 12" hose 1/4" N.P.T.
14—4957A— Each

Air IMPACT CHISEL SET

.401" shanks for use with most air hammers. Tools made of hardened forged ... retain sharp cutting edges. With vinyl pouch.

9-pc. Chisel Set. Cut-off chisel, muffler ..., weld buster, tapered punch, ripping chisel, ... ing splitter, weld and rivet cutter, panel ..., long blade panel cutter
88—8281T— 1-Set

4-pc. Body Chisel Set. Panel cutter, ripping ..., special panel cutter, double-edged cutter
14—3359A— 1-Set

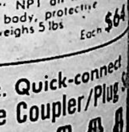

High-torque 1/2" Drive AIR IMPACT WRENCH

- Delivers up to 375 ft.-lbs. at 90 psi
- Pin clutch design insures extra powerful torque
- Designed for heavy-duty use

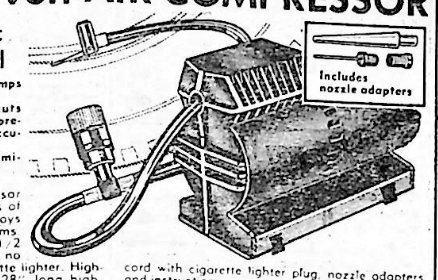

Built-in air regulator control adjusts speed, power to every job. 6-vane long-life motor. 8500 RPM no-load speed. 4 CFM air consumption. 1/4" NPT air inlet. Cast aluminum body, protective cover. 7" long, weighs 5 lbs.
12—2746B— Each $64...

5-pc. Quick-connect Air Hose Coupler/Plug Set

Lets you use ONE air hose for many different tools. Steel coupler attaches to hose, steel plug attaches to tool ... quick, easy connect. 1/4" N.P.T. Includes female ... plus 2 male and 2 female plugs.
12—2954B— 1-Set $4...

160-psi, 12-volt AIR COMPRESSOR with Automatic Pressure Control

Includes nozzle adapters

- Powerful 12-volt DC motor pumps up to 160 psi
- Automatic pressure control cuts off air flow and signals when preselected 5-120 psi is reached (accurate to within 2 lbs.)
- Prevents over-inflation ... eliminates need for air gauge
- Works off cigarette lighter

Completely portable compressor quickly, accurately fills all types of tires, air shocks, rafts, beach toys ... pressurizes fresh water systems. Inflates a 15" tire in about 8-1/2 minutes. In-line on/off switch ... no need to remove cord from cigarette lighter. High-impact plastic body. Includes 28" long high-pressure hose with quick-release fitting, 12-ft cord with cigarette lighter plug, nozzle adapters and instructions.
81—1403X— Each $19.98

Portable 12-volt AIR COMPRESSOR

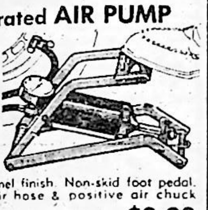

Delivers up to 200 psi!

- Inflates all tires, air shocks, rafts, footballs, toys
- Pressurizes RV water systems
- Built-in 2", 270° gauge measures 0-200 psi in 2-lb. increments
- Operates from vehicle's cigarette lighter

Only 5-1/4" x 4-1/2" x 9" ... weighs an easy-to-carry 3-1/4 lbs. Powerful 12-volt DC motor. Built-in on/off switch. Includes 28" long air hose with quick-disconnect coupler, 12-ft. power cord with cigarette lighter plug and 3 adapters. High-impact plastic housing.
81—1402R— Each $34.98

Foot-operated AIR PUMP

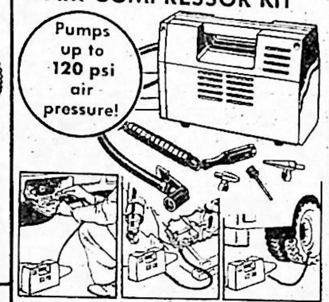

- 99% dial-type pressure gauge
- Direct-reading 2" gauge measures 0-100 psi in 10-lb. increments

Easy to use. Accurate ±2% over 80% of dial scale. Tempered steel frame, enamel finish. Non-skid foot pedal. Includes 24" air hose & positive air chuck connector.
81—1059X— Each $3.98

Portable 12-volt AIR COMPRESSOR KIT

Pumps up to 120 psi air pressure!

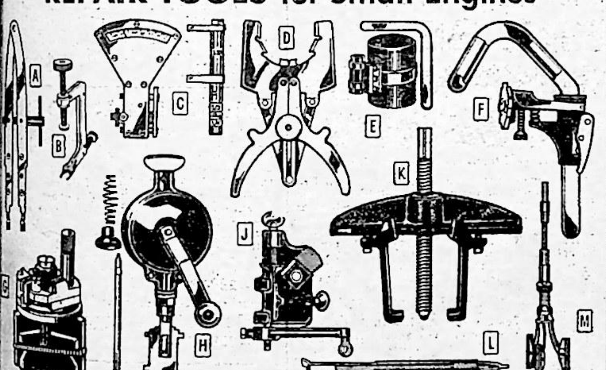

Pressurizes water systems for campers, boats, etc. — Inflates air shocks, air jacks, toys, balls, etc. — Inflates any tire—car, truck, bike, motorcycle

- Works from your car's cigarette lighter
- Easy to use—no physical effort, no special mechanical ability required
- Compact (9" x 3-1/2" x 6-1/4") and lightweight—stores in most glove compartments

Great for highway emergencies demanding FAST action ... ideal for countless jobs around your home. Designed for years of maintenance-free service. Extra nozzles, included, let you use kit for a variety of jobs—including the biggest inflation jobs. Trouble-free operation—plug cord into lighter socket and attach air hose to valve with snap-on connector. Hi-impact case stores air hose & extra-long cord with lighter plug.
88—9635R— Each $17.50

REPAIR TOOLS for Small Engines

Custom designed to save time, reduce problems while repairing small engines on cycles, motor karts, mopeds, lawn mowers, small tractors, etc.

[A] **Valve Spring Compressor.** For removing, replacing valve springs. Long and slender to reach into small recesses where valve spring and retaining washers are located. Nickel finished. Features hinged arms and adjustable-width spring steel jaws with custom edge sleeves that fit under and over valve spring end to compress it for easy removal of spring.
14—2556T— Each $7.99

[B] **Valve Spring Compressor.** Movable wedge slips under tight retainers, eliminates need for screwdrivers. Steel. Heat-treated, hardened jaws. Inside working dimensions: 6" high x 3-1/4" wide. For all 4-cyl. engines (400cc per cyl. or less) except engines with overhead cams or recessed springs.
14—5212P— Each $14.98

[C] **Cylinder Gauge.** 1-3/4" to 3-1/4" range. Preset "zero" reading so that it is at exact original diameter of the cylinder to be worked. Any dial reading above zero will indicate in thousandths of an inch the exact amount of wear on cylinder walls. With instructions.
14—2644X— 1-Set $52.98

[D] **Piston Ring Expander.** Range, 1-1/4" to 2-1/4" (31.8mm to 57.2mm). No adjustments needed.
14—2645U— Each $4.49

[E] **Piston Ring Compressor.** Fits 1-1/2" to 3" (38mm thru 76mm) diameter pistons. Adjustable friction brake. 2" deep.
74—7019U— Each $3.39

[F] **Piston Groove Cutter & Cleaner.** Widths: 3/32", 1/8", 5/32", 3/16" and 1/4". 2" to 3" capacity.
14—2646B— Each $9.98
14—2654W—Replacement Blade Ea. $2.99

[G] **Ridge Reamer with carbon steel cutter.** 2" to 3" (50.8mm to 76.2mm) range. Handles all engines in its range including new short-stroke type.
14—2557A— Each $19.98
14—2558R—Replacement Blade Ea. $1.29

[H] **Valve Grinder.** Makes short, quick back-and-forth movements, constantly advancing valve to new positions for perfect grinding. Ball-thrust bearing on spindle gives smooth, easy action. Balanced. Long & short self-locking stems, universal bit, 3/4" vacuum cup and grinding spring included.
14—2647P— Each $6.99

Replacement Suction Cup Set. 3/4" for [H] above.
14—9031P— 1-Set of 4 $1.59

[J] **Valve Refacer.** Refacer clamp is designed so tensile stress is directed into machined V-block of tool; casting can be vise held or bolted to bench. Carbide steel blade is held rigidly against fixed stops maintaining proper angle.
14—2649W— Each $9.99

Replacement Cutting Blade for [J].
12—4522N— Each $3.99

[K] **Gear Puller.** Takes any diameter to 6". Malleable iron crossbeam, two 3" arms, drop-forged steel jaws, black enamel finish. Ideal for timing gears, pump shaft and magneto gears, generator and starter repairs.
14—1659W— Each $14.98

[L] **Magnetic Key Inserter.** Tool allows working room around valve spring compressor even in the smallest engines.
14—2561T— Each $3.39

[M] **Cylinder Hone** with preset spring action. Forces stone against cylinder walls with just the right cutting action for proper glaze breaking and honing. Flexible shaft makes it easier to hone hard-to-reach cylinders. Features three 2" medium-grit stones. Operates with high or low-speed 1/4" or larger electric drill. Spread-limiting adjustment allows easy insertion of hone into cylinder hole. Fits 1" to 3" diameter cylinders.
15—9721N— Each $9.88

Replacement Stone Set for [M]. Includes 3 stones, medium grit.
15—9722T— 1-Set $3.98

TIRE VALVE REPAIR TOOL

4-way tool repairs and reconditions inside and outside valve threads. Also inserts and removes valve cores. Rust-resistant plated steel.
15—9578R— Each 49¢

ENGINE AIR TIRE PUMP

- Built-in 100-lb. pressure gauge
- Operates on any 4, 6 or 8-cyl. engine

Inflates truck, tractor or auto tires anytime, anywhere! Remove spark plug from engine, insert adapter and pump into spark plug hole and start to pump air. With 16-ft. heavy-duty rubber tubing, gauge, fittings attached to hose and pump with 14mm and 18mm adapters to fit all car and truck engines. Won't pump gas vapors into tire.
75—3284X— Each $8.99

Pump like above without gauge. 12-ft. hose.
75—3283R— Each $6.98

12-volt AIR COMPRESSOR/ EMERGENCY FLASHER/ FLASHLIGHT in ONE unit!

- Operates from vehicle's cigarette lighter

Compressor delivers up to 135 psi, inflates tires, air shocks, pressurizes water systems, etc. Built-in 270° gauge reads 0 to 135 psi in 2-lb. increments. Built-in on/off switch. Push mode switch and compressor becomes a powerful **flashlight**. Attach amber lens (included), push switch again and unit becomes an easy-to-spot **flasher**. Lightweight, virtually shatterproof housing is only 9" x 3-1/2" x 6-1/4". With 12-ft. cord with lighter adapter, 30" air hose, 2 adapters for air mattresses, needle adapter, amber lens.
81—0878A— Each $24.95

Portable 12-volt AIR COMPRESSOR KIT

Pumps up to 120 psi air pressure!

- Saves time, trouble and money ... compressor does the work while you watch
- Inflates tires, toys, air shocks, air jacks, basketballs, toys ... pressurizes water systems ... hundreds of automotive and home uses

Precision engineered to give years of maintenance-free service. Includes extra nozzle adapters to let you handle any job—big or small. Sturdy, compact compressor case (8-1/2" x 3-1/2" x 5") fits in most glove compartments, holds extra-long cord with cigarette lighter plug, air hose, snap-on connector.
88—9636X— Each $12.95

12V AIR COMPRESSOR with Built-in Gauge, Spotlight and Emergency Flasher

Pumps up to 200 psi

- Portable unit plugs into cigarette lighter
- 2", 270° gauge measures 0-200 psi in 2-lb. increments

Powerful 12-volt motor easily inflates tires, toys, air shocks ... even pressurizes RV water systems. A push of the mode switch turns compressor into a powerful spotlight ... attach amber lens (included), push switch again, and compressor becomes an emergency flasher. Only 7-1/2" x 5" x 9" ... weighs 3-3/4 lbs. Includes 28" long air hose with quick-disconnect coupler, 12-ft. power cord with cigarette plug and 3 adapters. All components store conveniently in high-impact plastic housing with built-in carry handle.
81—1862U— Each $34.99

200-psi Compressor like above, but without spotlight/flasher.
81—1402R— Each $29.99

Foot-operated 2-CYLINDER AIR PUMP

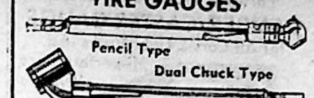

Large-dial Pressure Gauge Is Built In!

- 2 cylinders pump air twice as fast as other manual pumps
- Easy-to-read color-coded 2-1/2" diam. gauge
- Accurately measures 0-140 p.s.i. or 0-10 kg/cm²
- within ±1% over 80% of dial scale
- Tempered steel frame with tough enamel finish
- Lightweight ... stores easily in trunk

Spring-action treadle snaps back after every stroke. Red marker you set tells when you reach pressure you want. No-slip 6" wide ribbed rubber pedal pad. Stays closed when stored. 24" long hose, positive air-chuck connector.
88—9318B— Each $14.98

TIRE GAUGES

Pencil Type — Dual Chuck Type

Easy-to-read nylon indicator bars, calibrated on all four sides in 2-lb. units from 10-120 lbs. Chrome-plated, shock-resistant metal cases with convenient pocket clip. Pencil-type 5-1/2" long.
74—6917P—Pencil Type Each $2.99
13—1516R—Dual Chuck Type Each 2.99

Economy Tire Gauges. Similar to above except calibrated in 2-lb. units from 20-100 lbs.
15—9258Y—Pencil Type Each .99
15—9310X—Dual Chuck Type Each 1.99

Our Most Accurate TIRE GAUGE

- Accurate to within ± 1/4 lb.
- Fully geared, precise brass movement
- Sliding brass valve holds pressure until released
- Brass ball chuck swivels 360° for easy readings in any direction

Keep your tires properly inflated. Enjoy better fuel economy, longer tire life, safer driving. Bronze bourdon tube. Easy-to-read 2" diam. dial (with 270° sweep) indicates pressure from 2 to 60 psi in 2-lb. increments.
12—3282X— Each $14.99

Chromed Dress-up TIRE VALVE STEM COVERS for All Cars and Trucks

Covers entire valve stem to add a bright, custom look and to keep out dirt and debris. Easy slip-on installation in seconds. Rugged plastic. Fit 1-1/2" long tire valves. Set of 4.
74—7873U— 1-Set $2.79

TIRE VALVES for American and Imported Cars

- Choice of chrome-plated or standard valves

[A] **Universal Chrome-plated Clamp-in Valve for all mag and chromed wheels.** Complete with high heat-resistant core and cap plus grommets.
74—7281P— Each $1.98

[B] **Tubeless Snap-in Valves.** Exact replacement for standard valves. Fit .453" rim hole. For all cars exc. 66-78 Eldorado and Toronado.
74—7282Y—1-1/4" long 1-Pkg. of 4 $2.19
74—7283W—1-1/2" long 1-Pkg. of 4 2.49
74—7284U—2" long 1-Pkg. of 4 2.69
74—7285A—2-1/2" long 1-Pkg. of 4 2.98

TIRE SEALANT

- Prevents puncture flats or rim and high-pressure leaks
- For tube-type or tubeless tires

Applies through valve stem—coats entire inner liner, plugs leaks as they happen. Recommended usage: 4 oz. for small passenger cars, 6 oz. for medium passenger cars, 16 oz. for all-terrain vehicles. 16-oz. bottle
10—4323P— Each $2.49

TIRE CHANGER for ALL Car Tires

- Fits every size automotive tire and rim

Eliminates tube pinching and scratched rims. Quickly, effortlessly separates tire bead from rim. Aluminum body with sure-grip vinyl handle. 9" long.
15—0590T— Each $8.98

Dial-type TIRE PRESSURE GAUGE

Registers 10-110 psi and holds reading until triggered by reset button. Black plastic housing.
88—9222W— Each $1.89

Precision Flexible Hose TIRE GAUGE

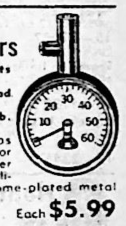

Tests tire pressure easily on all vehicles. Great for hard-to-reach valves! Full-geared precision brass movement. Bronze bourdon tube with steel case and unbreakable crystal. Bleeder valve releases excess air to exact tire pressure. So accurate, it can be used to calibrate other air gauges. Stop hand holds pressure reading. 14" flexible hose. Easy-to-read dial with 1-lb. graduations.

For cars. 2-60 psi.
15—3993W— Each $12.98

For pickups, campers, trailers. 2-100 psi.
15—3994U— Each $12.98

For high-pressure tires on trucks, semis. Also ideal for air shocks. 5-160 psi.
15—3995A— Each $12.98

Super Accurate TIRE GAUGE for Cars

- Gearless operating elements for accuracy within ±2%
- 2" diam. dial with easy-to-read 270° sweep
- Indicates 0-60 psi in 1-lb. increments

Shock-resistant gauge helps keep tires properly inflated for improved gas mileage, longer tire life and driving safety. Calibration reset button. Chrome-plated metal housing.
81—0705W— Each $5.99

TIRE GAUGES

Keep tires properly inflated for safety, fuel economy, extended tire life. Solid brass precision movement. Bronze bourdon tube with steel case and unbreakable crystal. Accurate, easy to read.

For racing cars, hot rods & ATVs. Reads 0-15 psi in 1/4-lb. graduations.
82—0819U— Each $9.49

For cars. 2-60 psi in 1-lb. graduations.
82—0820B— Each $4.99

For pickups, campers, trailers. 5-100 psi in 1-lb. graduations.
82—0821P— Each $6.49

Spoon-type TIRE IRONS

Both are approx. 18" long.

50—0052P—Straight Pattern
50—0053Y—Curved Pattern
Each $2.49

TIRE TOOLS

Top-quality tools forged from high alloy steel and finished with bright aluminum paint.

[A] **Portable Bead Breaker.** For passenger car tires with conventional rims. 36" long handle for excellent leverage.
18—6236U— Each $19.99

[B] **Tire Mounting/Demounting Tool.** For full or semi-drop center car or truck wheels with 12" to 17" diameters. Works on all center-post tire changers.
18—6234R— Each $44.99

Our Best! Heavy-duty Portable AIR COMPRESSORS with Mounted Pressure Gauge

Deliver up to 220 p.s.i.

- Gives you all the convenience of a service station air hose ... right in your car trunk
- Pumps air faster to higher pressure (up to 220 p.s.i.) than other portables
- Easy-to-read pressure gauge takes the guesswork out of inflating tires
- In-line on/off switch—no need to remove cord from cigarette lighter

Extra-powerful compressors go where you go! Compact (6" x 3-1/2" x 6-1/2") and lightweight (only 4-1/2 lbs.) yet powerful enough to handle the biggest jobs quickly and effortlessly. Inflate all kinds of tires, even 10-speed bike tires, air shocks plus toys, rafts, footballs and basketballs. Also pressurize water systems in trailers and other RVs. Built-in pressure gauge (with accurate readings to 220 p.s.i.) helps you keep tires at the correct pressure at all times ... saves tire wear and gasoline. Easy to operate ... no mechanical ability needed. Just plug into any 12-volt car or truck cigarette lighter. Extra-heavy-duty electric motor. Oil-less type. Each compressor includes 2 nozzle adapters to fit all inflatables, 3-ft. air hose with clip-on air chuck and instructions.

220 p.s.i. Compressor. Includes 15-ft. cord and durable carrying case.
15—9308A— Each $48.95

220 p.s.i. Compressor. As above but no carrying case. 15-ft. cord.
15—9307T— Each $42.95

25-ft. Cigarette Lighter Extension Cord. Lets you use above compressors to inflate air shocks, tires on boat trailers, travel trailers, pop-up campers, etc. 18-gauge wire.
75—0978X— Each $4.[illegible]

Drop Forged Steel LUG WRENCHES
for Cars, Light Trucks and RVs

4-way Wrenches. 3/4", 13/16", 7/8" and 17mm openings. Painted finish.
15—9071N—14" length ... Each $3.99
15—9072T—16" length ... Each 4.19
15—9073L—20" length ... Each 4.79

3-way Wrenches. 7/8", 13/16" & 3/4" openings plus hub cap remover. Painted finish.
12—2347P—14" length ... Each $3.99
12—4322R—16" length ... Each 4.19
12—4323P—20" length ... Each 4.79

4-way Metric Wrenches. 17mm, 19mm, 21mm and 22mm openings. Painted finish.
13—7824R—14" length ... Each $3.99
13—4326A—16" length ... Each 4.19
15—7826U—20" length ... Each 4.79

3-Way Metric Wrenches. 17mm, 19mm and 22mm openings plus hub cap remover. Painted.
15—4899U—14" length ... Each $3.99
12—4324V—16" length ... Each 4.19
12—4325T—20" length ... Each 4.79

4-way Wrench for RVs and light trucks. 7/8", 15/16", 1" and 1-1/16" openings. Painted finish. 25" length.
15—8328P—25" length ... Each $13.99

SPARE TIRE IN A CAN

• For tube-type or tubeless tires. Quickly inflates tires and seals punctures—without jacks or tools, without changing tires! Contains anti-freeze additive for better cold weather performance. Extension hose makes it easy to use on all vehicles, including motorcycles, campers, etc. 12-oz. net wt can.
15—9208T— ... Each $1.99

Spare Tire Inflator/Sealer. Same as above but without extension hose. 12-oz net wt.
14—1130Y— ... Each $1.59

Economy Inflator/Sealer. Similar to 14—1130Y above without anti-freeze additive. 12-oz net wt can.
12—2345T— ... Each 98¢

Heatless Vulcanizing PATCHES

Repair all tubeless tires and tubes! Give permanent positive vulcanizing without heat. Tapered razor thin edge makes for perfect seal. No tools or clamps required. Use vulcanizing liquid below.

Size	Box of	Stk. No.	Box
1-1/2"×2-1/2"	30	75—3139T	$4.98
1-7/8"×3-7/8"	20	75—3140A	5.98
2-1/2"×5-3/4"	20	75—3141R	8.98

VULCANIZING LIQUID (Not Shown). For the above patches. Half pint can with brush.
75—3237N— ... 1-Can $2.98

TIRE REGROOVING TOOLS

Heavy-duty regroovers (with solid brass interchangeable heads) electrically heat rubber ahead of cutting blade. Air cooled for fast, smooth, accurate grooving. Blades adjust for depth. All regroovers include No. 4 round-end blades and one No. 4 head. Order extra blades and heads below.

A Regroover with straight handle. With cooler fins and higher heat output for faster, easier regrooving.
74—3019V—150 watt ... Each $54.98
74—3020W—250 watt ... Each 59.98

B Regroover with pistol-grip handle. Similar to heavy-duty regroover above, but has easier operating pistol grip.
74—3022A—150 watt ... Each $59.98
74—3823P—250 watt ... Each 64.98

Extra Blades for regroovers above. Choice of round or square end. (Blade size numbers must correspond to head size numbers.)

Size No.	Type	Round End	Square End
1	Pass. Car	74—3029X	
2	Dual 10 Gen	74—3030N	
3	Nar. Pass	74—3031T	74—3034X
4	Med Pass	74—3032A	74—3035U
5	Truck	74—3033R	74—3036B
Above Numbers		1-Pkg	of 12 $3.49

Extra Heads for regroovers above.
14—4684A—Size No. 1 ... Each $4.99
14—4685V—Size No. 2 ... Each 4.99
14—4686W—Size No. 3 ... Each 4.99
14—4687U—Size No. 5 ... Each 4.99

Tubeless Tire Repair Gun Kit
Plugs tires on or off the wheel

• Repairs all tubeless tires (except steel-belted radials) quickly, easily and permanently! Gun forces plug into tire. Plug then expands to patch hole from inside. Hole is sealed for the life of your tire! Includes gun with nozzle, probe, scissors, fifty 5/16" plugs (order replacements below), instructions.
12—3071U— ... 1-Kit $14.98

5/16" Plugs for gun kit above. Pkg. of 50.
12—3022X— ... 1-Pkg. $2.49

Portable • Fast • Easy to Use
CAMBER/CASTER GAUGE
for All Cars & Light Trucks incl. Hi-performance Vehicles

• Extremely precise—measures camber and caster angles to within 1/2 degree accuracy. Hand-held gauge makes wheel alignment of camber and caster quick and easy. Made of light-weight aircraft-quality anodized aluminum. Does not require attachment to front wheels. Instructions included.
14—5703Y— ... Each $49.95

WHEEL CYLINDERS
for Cars & Trucks

New—not rebuilt

WHEEL CYLINDERS FOR 37-62 CARS

CAMBER ADJUSTING KIT
for 78-85 GM & Chrysler Front-Wheel-Drive Cars

• Lets you adjust camber easily with only a wrench
• Prevents slippage of knuckle

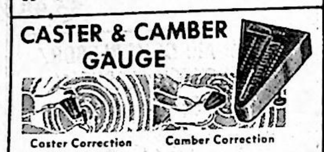

Easy to install—no special tools required. Includes hardware for both sides of front axle and instructions. Note: On Riviera, Toronado, Eldorado & Seville, two kits are required.

For Buick: 80-84 Skylark, 82-84 Century; **Chevrolet:** 80-84 Citation, 82-84 Celebrity; **Oldsmobile:** 80-84 Omega, 82-84 Ciera; **Pontiac:** 80-84 Phoenix, 82-84 6000.
85—9140T— ... 1-Kit $14.95

For 79-84 Buick Riviera; Oldsmobile Toronado; Cadillac Eldorado & Seville.
85—9444R— ... 1-Kit $14.95

For 78-85 Chrysler Omni, Aries, Horizon & Reliant.
85—9445W— ... 1-Kit $14.95

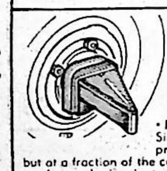

CASTER & CAMBER GAUGE

Caster Correction · Camber Correction

Lightweight alignment gauge makes it possible for anyone to accurately measure caster and camber angles in minutes. Weighs about 8 oz and uses only one precision level to obtain an accuracy of better than 1/8 degree. Eliminates costly turntable. Has no moving parts, magnets, or light beams. Aluminum and steel. With alignment chart, instructions. Fits any size wheel.
52—0341N— ... Each $17.98

MAGNETIC CASTER and CAMBER GAUGE

• Faster, easier to use

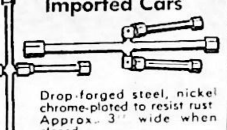

Similar to gauges used by professional mechanics, but at a fraction of the cost. Measures caster and camber angles in minutes within 1/8 degree accuracy using just one precision level. 3 powerful Alnico® magnets include metal "keeper" plates, retain their holding power indefinitely. Aluminum and vinyl-coated steel. With alignment chart, instructions.
17—9272X— ... Each $54.99

DUAL WHEEL VALVE EXTENSIONS

Reinforced rubber with brass fittings. 14" long.
15—8501B— ... 1-Set of 2 $13.99

Foldable 4-way LUG WRENCH
for American & Imported Cars

Choice of SAE or metric sizes

Space-saving FOLD-UP design

Drop-forged steel, nickel chrome-plated to resist rust. Approx. 3" wide when folded.

SAE Wrenches. Sizes: 3/4", 5/8", 13/16" and 7/8".
81—0570U—Approx. 14" long ... Each $6.99
81—1487P—Approx. 19" long ... Each 8.99

Metric Wrenches. Sizes: 14, 17, 19 and 21mm.

Split Style CONSTANT VELOCITY JOINT BOOT
for 78-84 American Cars with Front Wheel Drive

• Replaces cracked or worn boots without removing axle—save time & labor

Flexible polyurethane resists cracking and tearing. Kit includes everything needed to replace boot of one OUTER axle joint: replacement boot, grease, seal and boot bands, instructions. Fits left or right side. When Ordering, State Make, Year, Model, Engine and Stk. No. Note: The stock number you ordered may carry a different identification number on your package.

For American Motors cars: 80-83 Eagle (exc SX 4).
85—9122A— ... 1-Kit $18.99

For Chrysler, Dodge, Plymouth cars: 78-83 Omni & Horizon with 1.6, 1.7 & 2.2-liter eng. (exc TC3 & 1979 Horizon). 81-83 Charger, Aries, Reliant & Scamp with 2.2-liter eng.; 82-83 LeBaron, New Yorker.
55—3646A— ... 1-Kit $18.99

For Ford, Mercury cars: 78-80 Fiesta, 81-83 Escort & Lynx, 81-4/83 EXP & LN7.
85—9349P— ... 1-Kit $18.99

For General Motors cars: 67-84 Eldorado, Toronado, 79-84 Cavalier, Celebrity, Century, Ciera, Cimarron, Citation, Firenza, Omega, Phoenix, Riviera, Seville, Skyhawk, Skylark, 2000, 6000.
55—3646A— ... 1-Kit $18.99

CONSTANT VELOCITY JOINT KIT
for General Motors Front Wheel-Drive Cars

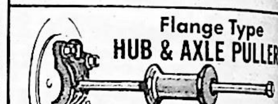

Replaces OUTER CV JOINT perfectly. Restores vibration-free ride ... extends CV joint and wheel shaft. Kit complete with precision-machined joint, boot, retainer nut, grease. Fits right or left side.

For 80-83 X-body and 82-83 A&J body.
85—9880U— ... 1-Kit $149.95

For 79-83 E-body.
85—9510X— ... 1-Kit $159.95

Flange Type HUB & AXLE PULLER
FOR CARS AND LIGHT TRUCKS USING FLANGE TYPE REAR AXLES

Bolt circle range from 4-1/2" to 5-1/2". Fits slots in steel casing allow puller to be used on 4, 5 and 6 bolt or stud designs. Complete with 5-1/2 lb. slide hammer with sliding area of 15". Overall length of shaft, 22". Cadmium plated. Also used as regular hub puller.
74—3133X— ... Each $24.88

BEAD EXPANDERS

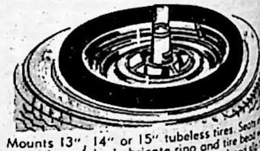

For All Tubeless Passenger Car Tires.

Make quick work of putting air in new and repaired tires. For bias-ply and radial belted and non-belted tires.

Mechanical Bead Expander. Band and jack assembly made of alloy steel. Serrated bar prevents slipping. Mechanical design assures years of trouble-free service.
14—2384P— ... Each $59.95

Pneumatic Bead Expander (not shown). Tough nylon cover and neoprene inner tube. With safety release valve. 3/4" diam.
14—2382U— ... Each $34.88

O-RING TUBELESS TIRE BEAD SEATER

Mounts 13", 14" or 15" tubeless tires. Seats beads properly, safely. Lubricate ring and tire bead with lubricant (not included—order below) and place between bead and rim, making a complete seal. Then inflate tire. O-ring pops out as proper seal is made. Neoprene rubber.
75—2529W—For 13", 14" tires. Each $21.98
75—2530U—For 14", 15" tires. Each $22.98

Rubber Lubricant. Use with bead seater above.
75—2579A— ... 1-Gallon

Tire Bead Seal with Rubber Lubricant for Tubeless and Tube-type Tires. Seals bead against air loss ... lubricates for easy tire mounting.
17—7366R— ... 1-Quart Can

SAFETY WHEEL CHOCKS

Ideal for use with bumper jacks when working underneath car or when parked on grade—prevent car from rolling. Hi-impact plastic.
04—0232N— ... 1-Pair

Reduce heat build-up for longer tire life!
TIRE SAVERS SET
for American & Imported Cars, Trucks and RVs

Wheel Rim · Tire Savers install here

• Cuts tire heat up to 60%
• Increases tire life up to 40%
• Reduces chance of blowouts ... helps preserve maximum traction & cornering for safer driving

Heat—Your Tires' Worst Enemy
Heat builds up inside your tires as they spin, especially near the areas in contact with the road. Because tires are sealed units, this heat has a hard time escaping. The more you travel, the hotter the tires get ... and the more worn and "fatigued" they become. Should they reach certain critical temperatures, they may never regain their original strength after cooling. They begin to weaken ... and continue to deteriorate trip after trip. The results can be disastrous—blowouts, rapid tread wear, ply separation, traction and cornering problems, more!

The Solution—Tire Savers
Tire Savers mount easy on the inside of your wheels (removal and reinstallation of tires is required). Special finned rubber construction creates air turbulence as your vehicle moves ... helps dissipate heat to cool the tires. Cooler tires last longer and help provide improved driving safety.

Proven Effective in Laboratory Tests
The independent test results below show how Tire Savers reduce air temperature within the tires. The tests were conducted on an indoor wheel at 90° room temperature (temps. are in Fahrenheit).

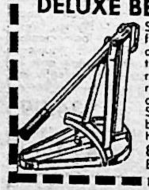

Speed	Temp. w/o Tire Savers	Temp. with Tire Savers	Temp. Difference
70 mph	130°	107°	23°
80 mph	145°	115°	30°
90 mph	160°	124°	36°

Temperatures were also taken with a probe-type pyrometer inserted 3/8" into the tire's crown:

Speed	Temp. w/o Tire Savers	Temp. with Tire Savers	Temp. Difference
70 mph	119°	110°	9°
80 mph	137°	115°	22°
90 mph	164°	119°	45°

Since each 9° reduction in temperature increases tread mileage by approximately 10%, Tire Savers can significantly extend your tire life. Set includes 8 Tire Savers (enough to equip 4 tires) and installation instructions.
38—0897N— ... 1-Set $13.95

DELUXE BEAD BREAKER

Simple, easy, fast method for demounting all size car, passenger car and light truck tires even if frozen or rusted to the rim—will easily remove it in seconds, without injury to tire, tube or rim. Specially FORGED alloy bead breaker foot and handle.
89—9851A ... $49.95

INNER TUBES

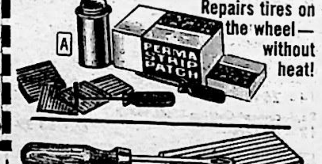

• For tube-type or tubeless radial tires

Extend the life of your expensive radials! Use these inner tubes to repair minor tire damage or when wheel rim is slightly bent. Includes valve. For the following tire sizes:

Tire Size	Stk. No.	Each
145R/155R/165R × 13"	62—1234R	$6.49
175R/185R × 13"	62—1235P	6.99

Heavy-duty White Lithium Grease. Effective where severe heat, cold, corrosion are problems. Each
14—2584N—12-3/4 oz. aerosol ... $1.99
15—9561N—16-oz. tube ... 1.79

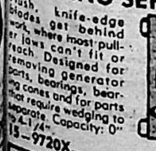

Non-resistant Grease. 16-oz. plastic tub.
15—9560X— ... Each $2.49

WHEEL BEARING DRIVER KIT

Insert bearing race and front wheel grease seals quickly and easily ... Designed to reduce damage to bearing on the first try! Driver kit has seven discs plus two handles to fit into the most rear axle housings. Seven discs over, to drive seals. Six discs over, to drive wheel bearings on American cars exc. 4WD.
15—2730B— ... $19.99

BEARING SEPARATOR

Flush knife-edge blades get behind bearing where other pullers can't ... Designed for removing gears, bearing races from shafts. Capacity: 0" to 4-1/2".
14—9720X— ... Each $29.88

Front Wheel TOE-IN, TOE-OUT ADJUSTER
for ALL CARS & TRUCKS

Accurate, inexpensive, easy to use. Spring-loaded adjustable rod makes it easy to check toe-in, toe-out of front wheels. With instructions.
74—6486W— ... Each $9.98

ALIGN-A-MATIC WHEEL ALIGNMENT GAUGE

• For standard, radial & wide-belted tires
• Easy ONE-MAN operation

Gauge recorder and camber indicator lets you check toe-in/toe-out and camber on ALL trucks, buses & cars up to 32,000 lbs., regardless of tire size! Cancels out all defective and distorted camber indications to assure accurate toe-in/toe-out readings. Perfect alignment check regardless of defective caster and/or camber conditions. Self-compensating ... no adjustments. Heat-treated aircraft aluminum. 1-1/2" × 5-1/2" × 14" long.
75—2485A— ... Each $79.98

WHEEL BALANCER
for All Cars & Mini Trucks

• No adapters needed ... balances all wheels including those with closed center hubs
• Bubble-type gauge assures accuracy

Five centering heads with multiple-slot adjustment and centering gauge permit exact centering of wheel for accurate, precise balancing. Accommodates wheels with 3, 4, 5, 6 or 8-lug holes. Die-cast aluminum with tempered steel pivot. With instructions. Will be repaired or exchanged only. Cannot be returned for credit or refund.
17—8958B— ... Each $39.95

Wheel Balancing Weight Tool

9" long

Ideal for inserting and removing wheel balancing weights. Combination plier, hammer, anvil, and chisel. Ruggedly constructed.
74—6697Y— ... Each $11.98

Super Heavy-duty WHEEL BALANCER

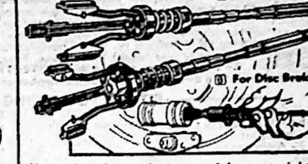

• Handles wheels of ALL sizes
• Quickly, easily balances wheels with 1-1/2" to 5-1/2" center holes
• Large, self-centering tapered spider
• Die-cast cone is machined to close tolerances for greatest precision
• Portable, lightweight ... weighs only 9 lbs.

Automatically, instantly centers any size wheel—even wheels with out-of-round center holes. No adjustments necessary. Built-in circular spirit level for precise wheel balance. Free-moving bubble checks wheel balance in all directions. Free-swing pendulum for maximum sensitivity. Welded steel with large 9" diam. 16-gauge steel wheel support. Cast aluminum base with 3 screws for leveling or permanent mounting. 15" high. Fits all vehicles except Peugeot, Porsche, Renault, Volkswagen & other cars with closed center wheel hubs. Accommodates Porsche, Saab & Volkswagen 5-hole wheels with adapter below. Will be repaired or exchanged only; cannot be returned for credit or refund.
15—8667A— ... Each $49.88

Balancer Adapter. Adapts Porsche, Saab & Volkswagen wheels for above balancer.
75—4606P— ... Each $5.98

BRAKE CYLINDER HONES
for Regular and Disc Brakes

A For Drum Brakes · B For Disc Brakes

Heavy-duty hones deglaze and hone straight or step-type brake wheel cylinders with open or closed ends. Can also be used on lawn mower, power saw or other small-bore engine cylinders. Self-aligning and self-centering with adjustable tension. Smooth action for perfect finishes. Operates with all drills. Flexible shaft allows easy access to cylinders ... no need to remove cylinders on most cars. Hones use regular hone stones. Measure cyl. diam. before ordering.

A For drum brakes. Three stones, each about 1" long. Range: 3/4" to 2-1/2".
14—8870B— ... Each $7.99

Replacement Stone Set for drum brake hones.
15—6206P— ... 1-Set of 3 $2.49

B For disc brakes. Three stones about 5/8" long. Range: 1-1/2" to 3-1/2".
14—8871P— ... Each $7.99

Replacement Stone Set for disc brake hones.
15—6207Y— ... 1-Set of 3 $2.49

Heavy-Duty BRAKE FLUID

For cars, trucks, buses with drum or disc brakes. Exceeds Federal Motor Vehicle Safety Standard No. 116 (D O T 3) and S A E Spec. J1703. Meets U.S. Government Spec. VVB-680a and Federal and State requirements. Equivalent to original-fill fluids used by GM, Ford, Chrysler and AMC. Mixes perfectly with all brake fluids.
15—6378X—12-oz ... Each $ .99
15—6379N—1-Qt. ... Each 2.99
15—6380R—1-Gal ... Each 9.99
15—9142U—5-Gal. ... Each 49.99

MASTER CYLINDER REPAIR KITS

Include all parts to completely overhaul master cylinder. Replace original perfectly. For the vehicles listed below, except those with Bendix Treadle-Vac power brakes—see Index. Note: The stock number you order below may carry a different identification number on your package.

FOR CARS & TRUCKS WITHOUT POWER BRAKES
Kit for the following cars & trucks:
36-66 Buick (exc. Riviera) · 39-66 GMC 1/2 & 3/4-ton truck

For 74-80 Lightweight Canada, for 1982 Ford Trucks, State Gross Vehicle Weight.
55—3444A— ... 1-Kit $16.98

BALANCE AND STABILIZE WHEELS AUTOMATICALLY WHILE YOU DRIVE!
for All Cars, Trucks, Vans & RVs
GET THOUSANDS OF EXTRA MILES FROM YOUR TIRES!

STABILIZER DISC

Stabilizer installs as fast and easily as changing a tire!

Centrifugal force and gyroscopic principles combine to give you a space-age system of automatic wheel balancing and stabilization.

▶ No More Vibration or Shimmy! Enjoy a Smoother, Safer Ride—Better Tracking, Stability, Control
▶ Increased Tire and Gas Mileage, Longer Brake Life, Reduced Maintenance Costs
▶ Self-Adjusting, Self-Servicing—Wheels Never Have To Be Balanced Again!
▶ Ideal For Radial Tires

Properly balanced wheels give longer tire, brake, and shock absorber life. Conventional wheel balancing is done in the garage and never under actual road conditions—which change constantly. Therefore, shop balanced wheels are actually out of balance most of the time! These Automatic Stabilizers balance your wheels as you drive—even hard-to-balance truck tires and sensitive radial tires, which require both static and dynamic balancing to assure proper radial tire performance and long tread life.

Automatic Stabilizers fulfill ALL balancing requirements for ALL tires. You get a more comfortable ride without annoying, tiring wheel shimmy and vibration. Your car or truck handles and tracks better with surer, safer control on curves and in sudden stops. Gives you early detection of worn front end parts, reduces maintenance costs, ends tire switching. Stabilizers last the life of the vehicle, and can be switched from one vehicle to another.

How It Works: The Automatic Wheel Stabilizer's hollow ring is filled with thousands of balancing weights suspended in a viscous fluid. As a wheel rotates and generates energy, these counter-weights react to natural gyroscopic principles and automatically shift and adjust to compensate for any imbalance. As road conditions and speed change, the counterweights quickly and continuously respond ... and your wheels are automatically balanced and stabilized at all times!

NOT THIS · THIS

EASY TO INSTALL
No Special Tools or Skills Needed

INSTALL IN MINUTES. No special tools or skills required. Install behind each wheel in 3 easy steps: (1) Remove hub cap, unscrew wheel lugs and remove wheel. (2) Place wheel balancer over projecting studs. (3) Replace wheel, lugs and hub cap. That's all there is to it! Self lubricating, self adjusting—never need servicing. Once installed, tires will never have to be balanced again!

For these American and imported cars:
Alfa Romeo 67-84
American Motors
67-85 all w/standard 14" and 15" wheels exc. Gremlin (Hornets and models w/custom wheels and disc brakes—front wheels only)
Buick
66-85 all w/standard 13", 14" and 15" wheels exc. 1979 Apollo w/13" wheels
Cadillac 68-83 all (Seville—front only)
Chevrolet
68-85 all w/standard 13", 14" and 15" wheels exc. Corvette, Camaro Z28 and Citation
Chrysler
63-85 all w/standard and styled wheels exc. Imperial and Newport
Datsun
68-85 all w/13" and 14" wheels (rear wheels only)
Dodge (not for 13" wheels or brake drums with recessed lugs)

[D] Brake Bleeder Wrench. For bleeding rear wheel brake cylinders on 78-85 GM cars with recessed fittings. Tool has a 6-pt. 5/16" socket with an "O" ring (that seats on the recessed fitting to prevent fluid leakage) and 24" clear vinyl tube to simplify bleeding.
14—1417R— Each **$8.49**

[E] Spring Installer. Quickly, easily installs and removes brake shoe spring. Socket end fits over post. 7" long ... more convenient than brake pliers, gets into hard-to-reach spots. Zinc-plated steel.
14—2323Y— Each **$3.99**

[F] Brake Spring Tool for GM X-body cars. A must for releasing and replacing brake return springs. Fits where regular brake spring tools won't.
15—8995W— Each **$5.49**

[G] Emergency Brake Cable Pliers for cars with rear drum brakes. Compresses spring on emergency brake cable ... allows easy replacement of brake shoe lever to cable.
14—4818N— Each **$9.79**

[H] One-man Automatic Brake Bleeder. Entire brake set can be bled at once if 4 bleeders are used. For all cars, trucks.
88—7179P— Each **$2.69**

SEMI-METALLIC DISC BRAKE PADS for 65-84 American Cars, Trucks

• Outperform and outlast conventional pads
• For extra safety, superior fade & heat resistance
Withstand the extreme heat generated by Detroit's down-sized rotors. Resist fade longer, recover more consistently to peak performance, help eliminate loss of braking due to extremely wet conditions, reduce rotor wear. Assure faster stops in shorter distances. For the following cars and trucks:

AMC
71-84 Ambassador, AMX, Concord, Eagle, Gremlin, Hornet, Javelin, Matador, Pacer, Spirit
BUICK
70-84 Apollo, Centurion, Century, Electra, LeSabre, Regal, Riviera, Skyhawk, Skylark, Special, Wildcat
CADILLAC
69-84 Calais, Cimarron, DeVille, Eldorado, Fleetwood, Seville
CHECKER
70-81 Marathon, Taxi
CHEVROLET
70-84 BelAir, Biscayne, Camaro, Caprice, Cavalier, Celebrity, Chevelle, Chevette, Citation, El Camino, Impala, Malibu, Monte Carlo, Monza, Nova, Vega
CHEVROLET TRUCK
71-84 1/2, 3/4 & 1-ton (incl. Van & Blazer)
CHRYSLER
70-84 Cordoba, Imperial, Le Baron, Newport, New Yorker
CORVETTE
65-83 All (state front or rear)
DODGE
70-84 Aspen, Charger, Coronet, Dart, Diplomat, Magnum, Mirada, Monaco, Omni, Polara, St. Regis
70-74 Challenger
DODGE TRUCK
71-84 1/2, 3/4, 1 & 1-1/2-ton (incl. Van & Ramcharger)
FORD
73-84 Custom, Elite, Escort, EXP, Fairlane, Fairmont, Galaxie, Granada, LTD, LTD II, Pinto, Ranchero, Thunderbird, Torino
FORD TRUCK
72-84 1/2 & 3/4-ton (incl. Van & Bronco)
GMC TRUCK
71-84 1/2, 3/4 & 1-ton (incl. Caballero & Sprint)
IHC TRUCK
72-73 1010 Travelall
JEEP®
74-83 Cherokee, Wagoneer
LINCOLN
73-84 Continental Town Car
72-84 Mark IV, V, VI, VII
MERCURY
73-84 Bobcat, Lynx, LN-7, Marquis, Monarch, Montego, Monterey, Zephyr
74-84 Cougar
OLDSMOBILE
69-83 98, 88, Cutlass, Firenza, Starfire, Toronado
74-83 Omega
PLYMOUTH
70-84 Barracuda, Belvedere, Duster, Fury, Gran Fury, Horizon, Reliant, Roadrunner, Satellite, Volare
PLYMOUTH TRUCK
74-84 1/2, 3/4 & 1-ton Van, Trail Duster
PONTIAC
69-84 Astre, Bonneville, Catalina, Executive, Firebird, Gran Prix, GTO, Le Mans, Sunbird, Tempest
71-84 Phoenix, J-2000, T-1000, 6000

One set replaces pads on both front wheels. Order 2 sets for Corvette front and rear. **When Ordering, State Make, Year, Model and Stk. No. Note: The stock number you ordered may carry a different identification number on your pkg.**
55—3017N— 1-Set **$14.95**

LIMITED (Ownership Duration) WARRANTY
An exchange of disc brake pads will be made (not including installation costs) if disc brake pads wear out while the original purchaser owns the vehicle on which the disc brake pads were originally installed.

INNER BEARING LUBRICATORS for Disc Brake Wheels

Lubricate inner bearings without removing wheels, rotors or calipers. For all cars and light trucks. Use with your grease gun.

[A] Lubricating Cone tightens on spindle against hub. Centers in hub for perfect seal alignment, prevents seal from leaking when packing inner bearings.
15—3996R— Each **$12.98**

[B] Lubricating Wand inserts through hub to inner bearing.
17—9380Y— Each **$7.98**

SILICONE BRAKE FLUID

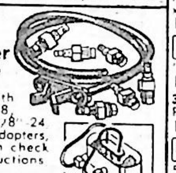

• Improves braking power!
• Specially designed not to absorb water—reduces corrosion and deterioration, saves maintenance costs
• Extends brake life
Your chances of brake failure caused by boiling fluids or corroded parts are substantially reduced. Traditional problems created by polyglycol-based fluids are eliminated because this high-performance silicone hydraulic brake fluid won't attract or absorb moisture! Chemically stable and compatible with all brake system components, as well as with conventional brake fluids. An excellent lubricant between rubber-metal and plastic-metal parts. Won't harm painted surfaces. Dry boiling point exceeds 500° F. Permanent—never deteriorates! For cars, motorcycles.
14—3120X—8-oz. Each **$4.79**
15—8699U—1-quart Each **13.99**
14—3304X—1-gallon Each **46.99**

In-line HYDRAULIC BRAKE LOCK for All Hydraulic Brake Systems

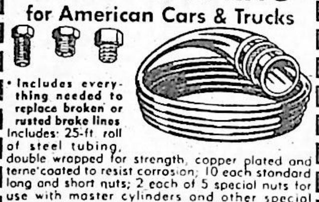

• Holds ANY vehicle with hydraulic brakes (cars, trucks, fork lift, motor home, trailer, dune buggy, etc.) where you put it
Supplements standard emergency parking. Eliminates strain on engine and transmission, removes all pounding on ring and pinion gears when trailering a second vehicle. Keep stick-shift car from rolling on hill while feet are on gas and clutch. Excellent for parking on steep grades. Uses line pressure of hydraulic system to hold brakes locked—just step on foot brake, push brake lock down, release and it's locked. Step on foot brake again and it opens automatically.
85—6592Y— Each **$19.95**

One-man Master Cylinder BLEEDER KIT

For American cars. With one each 9/16"-18, 9/16"-20, 7/16"-24, 3/8"-24, two 1/2"-20 threaded adapters, 20" bleeder hose with check valve, hose clip, instructions, storage box.
15—7530B— 1-Kit **$8.95**

BRAKE LINE KITS for American Cars & Trucks

• Includes everything needed to replace broken or rusted brake lines
Includes: 25-ft. roll of steel tubing, double wrapped for strength, copper plated and terne coated to resist corrosion; 10 each standard long and short nuts; 2 each of 5 special nuts for use with master cylinders and other special adaptations. Measure O.D. of brake line to determine the kit you need.
85—8391T—3/16" O.D. 1-Kit
85—8392A—1/4" O.D. **$14.95**

DISC BRAKE TOOLS

[A] Disc Brake Hard Ring Dust Boot Installer For GM cars and light trucks with 2-piston disc brakes. Two boot installers (2-1/8" and 3") have special seal edges to assure easy installation ... prevents bending of dust boot, locks out dust and water. With 2 installers, 5/16" x 3/4" bolt & knurled handle.
15—9462W— 1-Set **$6.9[illegible]**

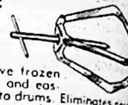

[B] 3/8" Sq. Dr. x 3/8" Hex Disc Brake Socket Services calipers on GM cars exc. Chevette "X" & "J" body cars.
14—2431R— Each **$2.4[illegible]**

3/8" Dr. Hex Disc Brake Socket Set (not shown) For 3/8", 1/4" & 8mm disc brake bolts.
14—7602P— 1-Set of 3 **$5.7[illegible]**

[C] Disc Brake Piston Boot Expander Set. For Chrysler, Ford and American Motors cars. 5-pc. set of rings for all single-piston systems. Sizes with openings from 2-1/8" to 3-1/16". Expands boots to allow piston to be inserted in brake caliper.
15—9461Y— 1-Set **$4.9[illegible]**

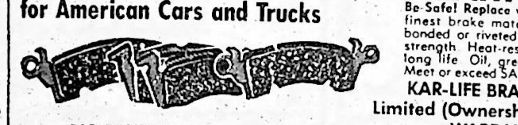

[D] Disc Brake Piston Puller/Installer Kit. For American, Japanese & German cars (including compacts) with 1 or 2-piston disc brakes. Includes 3 sets of jaws: range 1-1/2" to 2-5/8" (38 to 66.6mm). Jaws expand inside piston to grip for removal. Will not fit 4-piston calipers. With instructions, storage box.
15—9434N— 1-Kit **$29.9[illegible]**

REAR BRAKE DRUM REMOVER

For all cars. Remove frozen brake drums quickly and easily, without damage to drums. Eliminates need for torches and severe hammering.
15—3209X— Each **$33.9[illegible]**

DISC BRAKE PADS and Hardware Kits for American Cars and Trucks

BIG BRUTE BRAKE PADS
LIMITED (3 Year or 30,000 Mile) WARRANTY—whichever occurs first
Full refund or exchange of disc brake pads (not including installation costs) if disc brake pads wear out within Warranty period.
Big Brute Brake Pads are heat resistant, will not grab, swerve or squeal. Give positive pedal action without fade; smooth stops every time. Securely bonded or riveted for maximum shear strength. Fine quality pads ... for a better pad—see Kar-Life.

Be Safe! Replace worn pads! Tough, finest brake material made. Securely bonded or riveted to shoe for greater strength. Heat-resistant resin base for long life. Oil, grease, water resistant. Meet or exceed SAE standards.

KAR-LIFE BRAKE PADS
Limited (Ownership Duration) WARRANTY
An exchange of disc brake pads will be made (not incl. installation costs) if disc brake pads wear out while the original purchaser owns the vehicle in which the disc brake pads were originally installed.
Kar-Life—Our Better Brake Pads. Metal impregnated pads help eliminate brake squeal while offering greater resistance to grease, oil and moisture. Linings have more aging material for longer wear. Dissipate heat faster for less brake fade. Securely bonded or riveted to shoe ... will not shear or separate from metal. For our best brake pad—see Semi-metallic.

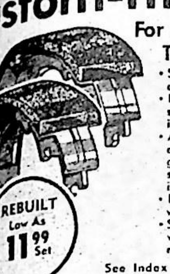

Sold in sets of 4 for 2 front wheels, except ♦, which are for 2 rear wheels. State Make, Year, Model and Stock No. Note: The stock number you ordered may carry a different identification number on your package. For Imported Cars—see Index. For Cars & Trucks with semi-metallic disc brake pads as original equipment—see Semi-metallic.

55—3633R—Big Brute 1-Set [illegible]
55—3634X—Kar-Life 1-Set [illegible]

Disc Brake Hardware Kits. A must when replacing above brake pads. Typical kit includes retaining clips, bushings or O-rings as required. Kit services 2 wheels. **State Make, Year, Model, Stk. No. Note: The stock number you ordered may carry a different identification number on your package.**
55—3300N— 1-Kit [illegible]

Custom-fit BRAKE SHOES For American Cars, Trucks & Vans

• Sold outright—no exchange necessary
• Replace worn brake shoes for added driving safety
• Assure smooth stops every time—without grabbing, fading, swerving or squealing!
• Hold in wet or dry weather
• Set of 4 shoes to service either front or rear wheels.

See Index for imported car brake shoes and disc brake pads (for 65-83 cars and trucks with front disc brakes as original equipment).

Limited (40,000-mile) Warranty
An exchange of rebuilt brake shoes will be made (not including labor costs) if lining wears out before 40,000 miles of use on vehicle for which they were originally purchased.

HOW TO ORDER
State Make, Year, Model, No. of Cyls., Front or Rear, Inside Diameter of Brake Drum (see diagram at left), Brake Shoe Width, 2WD or 4WD (for trucks only) & Stk. No. Note: The stock number you ordered may carry a different identification number on your package.

Limited (Ownership Duration) Warranty
An exchange of new brake shoes will be made (not including labor costs) if lining wears out while the original purchaser owns the vehicle on which the brake shoes were installed.

REBUILT BRAKE SHOES. Fully bonded NEW linings restore positive pedal action, assure thousands of miles of trouble-free service. ♦Includes compacts, intermediates and full-size.

DISC BRAKE ROTORS for American Cars, Trucks

• Restore brake safety efficiency ... made to replace original perfectly
Brake safety experts recommend changing disc plates every second disc pad replacement or every 25,000 miles. Plates with lateral run out or rough surfaces result in faulty, chattering brakes. These new disc rotors restore brake safety and performance. Made of top quality cast iron. Complete with hub and bearing cups. ♦ Indicates disc only without hub and studs. For FRONT wheels. **State Make, Year, Model and Stk. No. ■Also State if with 10-3/4" or 11-13/16" rotor. Note: The stock number you ordered may carry a different identification number on your package.**

DISC BRAKE BLEEDER SCREW REPAIR KIT for 64-85 Vehicles

Repairs one damaged bleeder screw on disc brake with single-piston caliper. Includes brass insert and zinc-plated steel bleeder screw. Requires drilling and tapping of brake caliper using 7/16" drill bit and 1/4"-18 NPT tap (not included).
85—6730U— 1-Kit **$1.49**

BRAKE HONE for BOTH DISC & DRUM BRAKES

• For all cylinders from 13/16" to 2-3/4" diameter
Flexible shaft allows use on any 1/4" and larger drill. Includes stones for both disc and drum brake cylinders.
12—2989Y— Each **$6.98**

BRAKE BLEEDING KIT for All Hydraulic Brake Systems, incl. Cycles

• Eliminates fluid loss
• No need to pump brake pedal to bleed system
Fast ... with little possibility of trapped air entering lines already bled. Use for any job requiring transfer and storage of fluid. With high-impact, 2-way, easy-grip pump, plastic tubing, reservoir jar with lid, adapters, instructions.
14—4129X— 1-Kit **$19.99**

Rebuilt Tandem MASTER CYLINDERS for 64-81 American Cars, Trucks

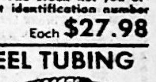

Completely disassembled, degreased, inspected for excessive wear or cracks and then re-assembled using new pistons, springs, rubber cups and O-rings. Assembled and tested under pressure for long, trouble-free service.

Heat-shrinkable TUBING KIT

• Forms an insulated protective covering over wiring splices, crimp terminals, solder connections ... flame retardant, water resistant
• Adds tensile strength to wiring ... prevents fraying, breaking ... insulates tool handles
Just apply heat and tubing shrinks up to half its original diameter for a snug, professional-looking fit. Includes 52 ft. of tubing (8 diameters from 3/32" thru 1") in 2 to 4-ft. lengths and 5 sets of wire markers (numbered 1 thru 10).
12—2955R— 1-Kit **$14.99**

Heat-shrinkable TUBING for a professional wiring job!

• Forms a protective, insulated, water-resistant covering over wiring splices, crimp terminals and solder connections—color codes them, too!
• Adds tensile strength to wires ... protects against fraying and breaking
Applied heat shrinks tubing up to half its original diameter for a snug fit—conforms to objects of nearly any shape. Can cover a number of wires to form a harness. For objects up to 1-3/8" diameter. Flame retardant.

30-pc. Assortment for covering 1/16" to 1/4" diam. wires and objects. Includes these 6" long pieces of tubing: seven 1/8" diam. black, nine 3/16" diam. yellow, nine 1/4" diam. red, five 3/8" diam. black. Cut to length.
14—4280Y— 1-Pkg. **$4.98**

9-pc. Assortment for covering 3/8" to 1-3/8" diam. wires and objects. Includes these 6" long pieces of tubing: two 1/2" diam. yellow, three 3/4" diam. blue, three 1" diam. red, one 1-1/2" diam. black. Can be cut to length.
14—4281W— 1-Pkg. **$4.98**

25-ft. rolls of black heat shrink tubing. Prevents waste. Cut to desired length. U.L. listed and C.S.A. approved.

Universal Fuse Blocks & Wiring Junction Blocks

• For neat, professional-looking wiring installations on any vehicle • Easy to mount anywhere—under dash or in engine compartment • Screw-on terminal connections for trouble-free wiring hook ups

Protects your wiring against short circuits, overloads ... or use when adding accessories (driving lights, stereos, tape players, etc.). Screw terminals hold binding head terminal screws. With nickel-plated phosphor bronze fuse clips and hard fiber insulator base. Use SFE and AGC-type fuses (1/4" diam x 1-1/4" long)—not included; order below.

A Common Terminal Connection Fuse Block. Solid brass bus bar connects terminals to a common power or ground circuit. Eliminates excess wiring to simplify installation. 5-gang style. Size 2-1/32" x 2-1/4" x 3-1/2".
74—7328R— Each $4.98

B Independent Terminal Connection Fuse Block. Allows each circuit to function independently.
4-gang style (shown). Size 21/32" x 2-1/4" x 2-3/4".
74—7329X— Each $3.98
6-gang style. Size 21/32" x 2-1/4" x 4-1/4".
74—7330N— Each $5.59

10-pc. Fuse Kit with Fuse Puller. Includes one each SFE 7-1/2, 9, 14; AGC 3, 10, 15, 25, 30 and two SFE 20.
73—3959W— 1-Kit $1.89

C Wiring Junction Blocks. Bakelite insulator base with protective insulator-barrier strips. Nickel-plated brass screw-on terminals. 1-5/16" wide x 1-1/16" high.

No. of Circuits	Length	Stk. No.	Each
4 (shown)	3-1/4"	74—7417P	$1.98
6	4-3/8"	74—7418W	2.18
8	5-1/2"	74—7419W	3.98
10	6-5/8"	74—7420U	4.98

FUSE TAPS

A For plug-in auto fuses. Set of 6.
74—7317B—
1-Set $1.19

B For round glass or imported vehicle fuses. Set of 6.
74—7316U—
1-Set $1.19

100 WIRE-SPLICE CONNECTORS

• Join solid or stranded 20-16 gauge wire on cars, trucks, boats, trailers, etc. without soldering, cutting or stripping

Fast, easy, strong connections with just a squeeze of pliers (not included—See Index). Insulating cover protects connection from weather, prevents shorts. Double-insulated grip prevents pullout.
14—8990Y— 1-Box of 100 $9.99

Master Disconnect Switches

• Stops theft and unauthorized use of vehicle • Eliminates battery Drain • Protects against electrical fires from short circuits in wiring • Disconnects all electrical systems

Installs easily in or under dash, on firewall, floorboard, engine compartment.

A Non-locking Disconnect Switch. Current is cut off by a flip of the switch lever. Heavy steel case with two 3/8" diam stud terminals. Fits panels up to 1/4" thick. For 6 or 12V systems. 125-amp max. load.
74—7827P— Each $16.95

B Locking Disconnect Switch. Same functions as A, but 500-amp maximum load. Includes removable key.
15—0856Y— Each $6.95

Faceplate (not shown) for A.
73—4720A— Each 99¢

Complete WIRE ASSORTMENT with Handy Dispenser Rack

Wire AND Rack ONLY 19.95 Kit

• Dispenser rack assures that the right type of wire is always at your fingertips • Mounts on wall or stands on your workbench • 10 kinds of wire—a total of 442 ft.—for almost every type of automotive and household job

Imagine having nearly every kind of wire you'll ever need for any trips to the hardware store ... no more tedious searching for the right size ... no more untangling of twisted, knotted wire. The keeping the rest of the spool neat—ready for the next use. Includes 10 different kinds of multi-stranded single and 2-conductor wire on 12 reel-off spools: ... 12 ft. bell wire ...

Sorry identify each spool.

81—1286W— 1-Kit $19.95

One-hand • Quick-stripping AUTOMATIC WIRE STRIPPERS

Strips solid or stranded wire without nicking. Automatically returns to open position. Insulated handles.

15—8989R—For 12 to 24-ga. wire Each $9.88
81—2016W—For 8 to 18-ga. wire 7.99

Flexible Plastic Chromed DRESS-UP WIRE TRIM

Covers, customizes, protects ignition wires, spark plug cables, coil cable, other wiring—prevents bending or cracking. Stretchable ... self-adhering by coil tension. 25-ft. roll.
17—6570X— 1-Roll $8.98

FLEXIBLE WIRE LOOM

Protects wiring, cables, hoses. Great for making wiring harnesses. Tough black polyethylene withstands temperatures to 200°F, resists gas, oil, chemicals. Cuts to desired length.

I.D.	Length	Stk. No.
5/16"	100 ft	74—8072B
3/8"	90 ft	74—8073P
1/2"	70 ft	74—8074Y
5/8"	50 ft	74—8075N
3/4"	40 ft	74—8076T
1"	20 ft	74—8077A

Each $16.95

37-pc. ELECTRICAL TOOL & REPAIR KIT

Includes: 9" long heat-treated steel electrical tool (with cushion grips) for crimping, stripping 10-22 gauge wire, crimping ignition terminals, cutting 4-40, 6-32, 8-32, 10-24, 10-32 screws; 6-1/2" long, long-nose pliers; standard and Phillips screwdrivers; neon circuit tester, 3/4" x 30-ft roll black electrical tape; 30 insulated solderless terminals and connectors (22-18 gauge & 16-14 gauge ring terminals, disconnects & butt splices); case.
81—1639W—
1-Kit $14.95

Split Polyvinyl LOOMS

Secure and protect your car's wiring system! Black polyvinyl corrugated loom is split length-wise along one side. Wire can be inserted along the seam and closed loop. Remains closed even when bent or twisted. Resists abrasion, high temperatures, corrosion and moisture. Available in 3 sizes.

I.D.	Length	Stk. No.	Each
3/8"	10 ft	73—5538W	$1.98
1/2"	7 ft	73—5539U	1.98
3/4"	5 ft	73—5540B	1.98

WIRE LOOM KIT

• With 6 different sizes

Black polyethylene loom is pre-slit for easy feeding of wire ... closes securely after wire is installed. One-piece fittings snap together without tools. Kit includes: 20 ft. each of 5/16", 3/8", 1/2" & 5/8" I.D. loom; 10 ft. each of 3/4" & 1" I.D. loom; 7 tees in assorted sizes; 4 outlets (two with 3/8" I.D., two with 1/2" I.D.), 9 clips in assorted sizes; and one 66-ft. roll of 3/4" electrical tape. Wire not included.
74—7700R— 1-Kit $24.98

WIRING PLIERS

• Crimps insulated and non-insulated solderless terminals • Strips, cuts and crimps 10 to 22 gauge wires

A Professional-quality. 10-1/4" long for maximum leverage. Applies "W" crimp to both split and solid-barrel spark plug and distributor terminals. Easy-to-read markings on heavy-duty steel blades. Vinyl-insulated handles.
88—9669Y— Each $5.98

B Deluxe. 9" long. Threaded screw cutters cut sizes 6-32, 8-32, 10-24, 10-32 and 4-40. Steel with plastic-insulated handles.
88—9407T— Each $3.98

Economy (not shown). Triple chrome plated Plastic handles.
88—7320P— Each $1.98

175-pc. Insulated Solderless WIRING TERMINAL KIT

• Includes terminals and splices in the most popular styles and sizes • Trouble-free installation—cut and strip wire, then crimp on an insulated terminal • No need to twist wires or apply insulation tape

Permanent, professional electrical hook ups and insulated splices in seconds! Connections made with solder-free, crimp-on terminals have greater tensile pull-out strength and more consistent, dependable quality than solder connections. Terminals and splices are made of pure electrolytic copper, heat treated and electro-plated to NEMA standards. Meet safety requirements and UL standards. Heavy plastic sleeve provides insulation all the way to the wire's insulation and also prevents wire flexing at the crimp. Insulation is NEMA color coded for instant identification. Includes: butt splices; ring and spade tongues in gauges 22-18, 16-14 (#6, #8, #10 ring sizes; #8, #10 spade sizes) and 12-10; male and female quick connectors in gauges 22-18 and 16-14; compartmented plastic storage box; instructions; identification chart on lid.
81—1532T— 1-Kit $5.88

130-pc. Insulated Solderless Wiring Terminal Kit (not shown). Includes 130 pre-insulated terminals in 12 assorted types and sizes. Storage box not included.
81—1723Y— 1-Kit $4.98

Deluxe 5-in-1 Wiring Pliers (not shown). Crimps insulated and non-insulated terminals ... strips cuts 10 to 22-gauge wires ... cuts screws, bolts. 9" long.
88—9407T— Each $3.98

Chromed WIRE LOOMS & CABLE DIVIDERS with Black Insulators

Dress up your engine: Chromed wire looms or cable dividers with plastic inserts keep spark plug cables in position, eliminate ignition leakage.

A Hi-lift Wire Looms.
15—5897X— 1-Pair $2.79

B Regular Wire Looms.
15—5896R— 1-Pair $2.69

C Spark Plug Cable Dividers. Can be used with wire looms or separately depending on installation. Black.
10—2423P— 1-Set of 6 $2.89

NEOPRENE GROMMETS

• Assortments of 8 most commonly used sizes • Replace original-equipment or for universal use

Countless automotive uses! Protect electrical wire against chafing and shorting when running wires through firewall ... protects other metal parts of car when making installations. Also use for dampeners or as cushions for fuel and brake line installations.

180-pc. Neoprene Grommet Set. Includes: these ... 25 each 1/16" x 5/16" ...
14—2737R— 1-Set $8.99

360-pc. Neoprene Grommet Set.—Same sizes as above except twice the number of grommets.
14—6982X— $14.99

CHARGE YOUR ORDER ON YOUR VISA OR MASTERCARD

500-pc. WIRING TERMINAL KIT

Insulated terminals & splices in the most popular styles and sizes

• Make SOLDERLESS permanent electrical connections in seconds • Saves money over separate pieces or blister card packs • Terminals meet OEM and UL standards • Includes compartmented plastic storage box for easy organization of pieces

Easy to use—just cut and strip wire, then crimp on an insulated terminal ... no need to twist wires or apply insulation tape. Connections made with crimp-on terminals have greater tensile pull-out strength and more dependable quality than solder connections. Made of heat treated electro plated pure copper except disconnects which are made of brass. Heavy plastic sleeve provides insulation and also prevents wire flexing at the crimp. Insulation is NEMA color coded for instant identification of corresponding wire size. COUNTLESS USES: Automotive—installation or replacement of sound systems and CB equipment, spotlights, gauges, alternators, voltage regulators, relays, switches. Home & hobby—installation of ... radio & TV connections, burglar & fire alarm systems, intercoms; Shop—repair of test equipment, control panels, power tools; Electrical—installation of entrance boxes, extension cords, outlet receptacles, transformers.

INCLUDES THE FOLLOWING TERMINALS & SPLICES:

Terminal Type	Qty.	Wire Ga. Size	Stud Size	Tab Width

250-pc. AUTOMOTIVE WIRING FASTENER & TIE KIT

Makes any wiring job easy. Here's what you get: 100 nylon and insulated metal cable clamps (6 sizes) safely secure wires, wire bundles; 80 rubber grommets (6 sizes) to ... wires thru firewalls, door jambs without damage; 70 self-locking nylon cable ties (3 sizes) for easy tying of all wire bundles ... molded-in dividers and hinged lid.
15—4906X— 1-Kit $14.95

Spark Plug Wire Separators

for 8mm Silicone Spark Plug Wires

• Choice of chromed finish or 3 anodized colors

Prevents plug wires from touching hot manifold or engine block ... improves engine compartment appearance. Billet aluminum. With installation hardware.

For 8-cylinder engines. Includes two linear 4 and two linear 2 separators.
74—7941R—Chrome plated
74—7945P—Red anodized
74—7949B—Blue anodized
74—7953U—Gold anodized

74—7943N—Chrome plated
74—7947W—Red anodized
74—7951Y—Blue anodized
74—7955R—Gold anodized

For 4-cylinder engines. Includes one stacked linear 2 and two linear 2 separators.
74—7944T—Chrome plated
74—7948U—Red anodized
74—7952W—Blue anodized
74—7956X—Gold anodized

500-pc. NEOPRENE GROMMET SET

Replace originals ... have countless uses: automotive, home uses. Protect electrical wires against chafing, shorting when running wire through firewall ... protect metal parts when making electrical hook ups ... act as dampeners/cushions for fuel and brake line installations. Includes these sizes (hole diam ... "A"—see diagram above) ...
81—1820B— 1-Set $19.95

PRIMARY WIRE ASSORTMENTS

Choice of 12 or 30-spool kit in assorted colors

Same type of wire used by car makers

Stranded copper wire for excellent conduction. Color-coded plastic insulation for easy ...

12-spool Assortment (shown). Includes ... spools of 18-gauge wire (for small bulbs, short leads) ... spools of 16-gauge wire (for taillights, gas gauges, turn signals, stop lights) ... wire (for horn, radio, cigarette lighter) ... spools.
73—3836W— 1-Kit $14...

30-spool Assortment. Includes ...
74—7233A— 1-Kit $4...

GLOW PLUGS

For All 77-85 General Motors Diesel Engines

Original equipment perfectly matched to engine's individual cold start characteristics ... Each $11.98

SPARK PLUG WIRE MARKER & SEPARATOR KITS

• For standard and electronic ignition wire sets • Available for 7mm or 8mm ignition wires

Firing order markers (with black numbers on white background) eliminate guesswork. Heat-resistant separators snap on to keep ignition wires in place, eliminate crossfire. Kit of 8 markers and 8 separators (four 2-hole, two 3-hole, two 4-hole).

73—9001A—For 7mm ignition wire 1-Kit $3.99
73—9002R—For 8mm ignition wire 1-Kit 3.99

Separator Kits only.
73—5473U—For 7mm ignition wire 1-Kit $1.59
73—5474U—For 8mm ignition wire 1-Kit 1.59

SPARK PLUG GAPPING TOOL

Adjusts and sets spark plug gap in one easy operation. Eliminates need of feeler gauges. Assures parallel gap for sure hot spark. Prevents damage and breakage of plugs. Easy to use. For all 14mm and 18mm plugs.

For regular (point-type) ignition. Sizes: .018, .020, .022, .025, .027, .028, .030, .032, .034, .035.
14—0874R— Each $12.99

For electronic (pointless) ignition. Sizes: .035, .040, .042, .046, .052, .054, .056, .060, .070, .080.
17—8979Y— Each $13.99

12V SPARK PLUG CLEANER

Powered by your car's battery!

Gives new life to old spark plugs in minutes! Cleaner pays for itself the very first time you use it.

Improves ignition and engine performance ... more efficient combustion

Your car's engine is no better than the spark plugs that fire it. Even if those spark plugs have ... only a few thousand miles, they ... carbon, gas and oil deposits that rob ... power, acceleration and mileage every mile ... Most spark plugs need cleaning every 10,000 miles ... unnecessary, because a ... plug cleaned with this amazing spark plug cleaner will perform like new! It's easy. Just connect ... cable-type clips to your car's 12-volt battery, insert spark plug into neoprene grommet and press button. High-speed 5000-RPM impeller scoops up fine silicon carbide grit (included) and cleans the plug of deposits fast.

88—8270W— Each $5.99

Replacement Silicon Carbide Grit.
88—8276T— 1-Bag 69¢

PACKARD 440 Spark Plug Cable

• Perfect replacement for worn and leaky spark plug cables • Ends electrical cable leakage

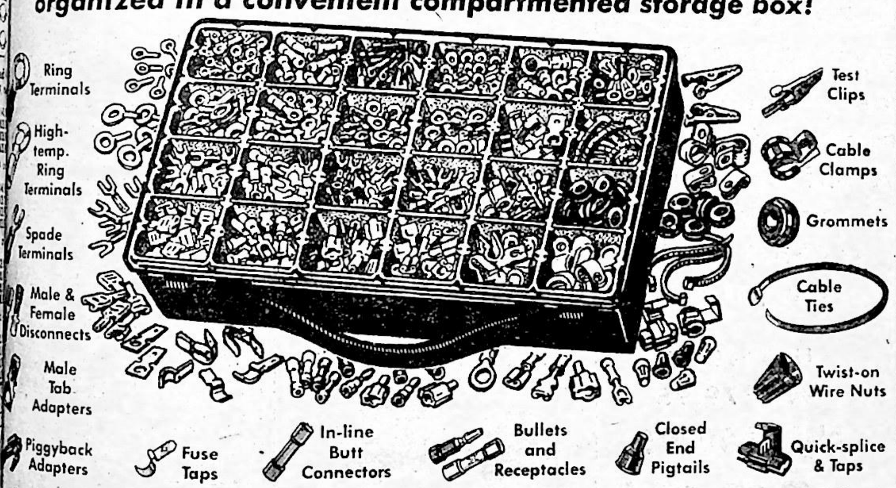

Heavy-duty 7mm, 16-gauge cable (19 strands, 28-gauge tinned copper) sheathed with black neoprene to resist heat, cold, moisture, oil, grease, abrasion. Ideal replacement cable for cars, trucks, including those with graphite center cables. (When Packard 440 cable is used to replace graphite center cables, the use of suppressors is recommended to insure against radio and TV interference.) For doing all spark plug terminals (see Index).

13—1591B— 1-30 ft. Roll $7.98
74—4492W— 1-100 ft. Roll 19.98

Spark Plug Cable with Tinned Copper Core. Silicone-covered wire with 7-strand tinned copper core. Yellow silicone cover eliminates voltage loss and spark radiation.
13—1590U— 1-30 ft. Roll $12.98

1,000-PC. WIRING TERMINAL CENTER

Includes virtually every type and size of solderless terminal or connector you're ever likely to need . . . organized in a convenient compartmented storage box!

A $100 VALUE! SAVE OVER 2/3 OF SINGLE PIECE PRICES!

Our biggest terminal center—for automotive, home, electronics

• Make strong, positive, SOLDERLESS connections—quickly and easily • Includes insulated and non-insulated terminals • Every piece exceeds UL or SAE safety standards for your protection

No run to the store every time you need an electrical terminal or connector? Why shell out for overpriced separate pieces or blister-card packs? ... this organized terminal center contains everything you need, right at your fingertips. These same terminals could cost 3 times as much if purchased separately!

Industrial-quality construction

... Hundreds of uses ...

Includes organizer/storage box. Includes convenient compartmented clear plastic box with lid. Approx. 8" wide x 13" long x 2" high.

FREE! ILLUSTRATED WIRING CHART

Big wall chart shows and explains how and where to use the different types of wiring terminals and fasteners for a professional job every time. Yours FREE, when you order this 1,000-pc. terminal center!

BONUS OFFER!

DELUXE CRIMPER/WIRING PLIERS

Regularly $3.98, now only $2.99 with purchase of terminal center. Crimps terminals, crimps, strips and cuts 10 to 22-gauge wires, cuts screws and bolts. Limit 1 crimper per terminal center.
88—9251N— Each $2.99

YOU GET ALL THIS!

435 RING TERMINALS. For permanent connections. Includes non-insulated terminals for 22-18 gauge wire (stud sizes #4, #6, #8, #10 & 1/4") and 16-14 gauge wire (sizes #6, #8, #10, 1/4" & 5/16"); Insulated terminals for 22-18 and 16-14 gauge wire (sizes #6, #8, & #10) and 12-10 gauge wire (size #10). Also includes non-insulated high-temperature terminals for house-hold use in places with excessive temperatures (up to 900°F). For 16-14 ga. wire (sizes #6 & #8).

235 SPADE TERMINALS. For connection without removing screw or nut. Includes non-insulated and insulated terminals for 22-18 and 16-14 gauge wire (sizes #6, #8 & #10) and insulated terminals for 12-10 gauge wire (size #10).

155 DISCONNECTS. Plug-ins for fast connections and disconnections. For automotive wiring, stereos, appliances, motors, miniature electronics, more. With piggyback connectors. Includes non-insulated disconnects for 22-18 gauge wire (female with .110", .187" & .250" tab widths, male with .250" tab width) and 16-14 gauge wire (.187" & .250" female, .250" male); insulated disconnects for 22-18 and 16-14 gauge wire (.187" and .250" female, .250" male).

20 .250" ADAPTERS. Non-insulated. 3 types: Male Tab Adapters adapt standard screws to wire into two; Piggyback Adapters split one wire into two; Fuse Taps allow quick take-offs from auto fuse blocks for adding accessories.

29 IN-LINE BUTT CONNECTORS. Insulated. For joining wires without soldering or taping. Includes connectors for 22-18, 16-14 & 12-10 ga. wire.

11 BULLETS & RECEPTACLES, PIGTAILS AND LINE TAPS. Bullets and Receptacles splice wires for fast connections and disconnections. For 16-14 gauge wire. Insulated. Closed End Pigtails permanently join multiple wires. Nylon insulated cap assures trouble-free, fully-insulated dead-end splices. For 16-14 gauge wire. Quick-splice and Taps take off on hot wire line quickly, without stripping wire. Fast hook-up for auto radios, CBs, trailer lights. Also for house wiring. For 18-14 gauge wire.

15 TWIST-ON WIRE NUTS. Ideal for light fixtures, junction boxes. Twist-on hand connection, no tool needed. For 22-18, 20-16 and 22-14 gauge wire.

30 CABLE TIES. For easy, neat tying of wire bundles. 3-1/2" long.

18 GROMMETS. Assure professional installation of wires through metal panels. Prevent vibration, wire damage, shorts. In these sizes: 1/4", 5/16", 3/8", 1/2", 5/16" hole, 3/16" I.D., 3/8" hole, 1/4" I.D.

40 NYLON CABLE CLAMPS. Safely mount wires and wire bundles away from excessive heat and moving parts. Includes 1/8", 3/16", 1/4" and 1/2" diam. clamps.

6 TEST CLIPS. For automotive testing and electronics. With mounting screw. Includes 1" and 2" lengths for 22-12 gauge wire.

1,000-pc. Wiring Terminal Center.
81—1537B— 1-Kit $24.88

High-performance IGNITION WIRE SETS With or Without Braided Stainless Steel Sheath

• Add a custom performance look to your engine • Braided sheath prevents scorching if wires accidentally touch headers, help prevent deterioration due to excessive heat • Wear-resistant to help keep engine performance and fuel economy at their peak • Twice the noise suppression of conventional ignition cables • Cables are custom tailored for YOUR car

Far superior to carbon-core ignition cables! Sets feature spiral-wound metallic conductors. The wire-wound conductor is spiral-wound around a ferromagnetic core (see illustration), delivering 4,000 to 5,000 more volts to the spark plug than standard carbon-core cables and eliminating heat build up and voltage leakage. The results are better gas mileage, cleaner fuel combustion, easier cold-weather starts and lower electrical resistance for longer cable life. Exclusive outer and inner jacket insulate against heat, water, dirt, oil, grease. Heat-resistant silicone spark plug boots and distributor and coil nipples are lubricated with silicone grease for watertight seal and easy removal. Heavy-duty snap-ring plug terminals retain connection during the most severe vibration. 7mm and GM 8mm applications have heavy-duty brass distributor terminals for better conductivity, added power. Factory terminated using high-pressure crimping. Includes custom-tailored ignition cables, enough stainless steel sheathing to cover 24 ft. of wire, exclusive grounding clips to reduce crossfiring, instructions.

FIRES IN OIL HIGH VOLTAGE SPARK PLUG for Cars and Trucks

• Self cleaning . . . will not foul! • Engineered for motors using excessive oil • Fires in oil when other plugs fail

The best plug for high-mileage engines! Boosts starting voltage to deliver a stronger, hotter spark—you'll enjoy trouble-free starts even on cold mornings. Hotter spark also prevents oil build up and fouling to give you better performance, acceleration and fuel economy. Check these features: (1) thermo-reactor disc delivers 40% more spark power to tip of plug when cold (2) aluminum oxide insulator (3) super hard-electrode won't pit or burn.

For all American and imported cars and trucks. State Make, Year, Model of Car or Truck, No. of Cyl., Size (Cubic Inch Displacement) of Engine and Stk. No. Note: The stock number you ordered may carry a different identification no. on your plug. LIMIT: 8 plugs per customer.

55—3126U—For 4-cyl. eng. 1-Set of 4 $9.99
55—3127B—For 6-cyl. eng. 1-Set of 6 14.59
55—3128P—For 8-cyl. eng. 1-Set of 8 19.49

AUTOLITE SPARK PLUGS for American Motors & Chrysler Products

Low as 69¢

Restores lost engine pep and power caused by worn or fouled original equipment spark plugs. Assures easy starting in any weather. Choice of regular or resistor plugs. For the following vehicles: 54-85 American Motors Products (including Jeep®), 46-85 Chrysler Products, 46-85 Dodge Prod. (cars, trucks), 46-85 Plymouth Products.

When Ordering, State Make, Year, Model, No. of Cylinders, Engine Cubic Inch Displacement, Carb Type (2-bbl., 4-bbl., etc.) and Stk. No. NOTE: The stock number you ordered may carry a different identification number on your package. LIMIT: 8 plugs per customer.

55—3311B—Regular plug Each 69¢
55—3312P—Resistor plug Each 89¢

AC SPARK PLUGS for All General Motors Products

Low as 69¢

Bring back original engine power and pep! These spark plugs replace worn or fouled original equipment plugs to assure easy starting in any weather. Regular or resistor plugs available. For the following vehicles: 55-85 Buick Products, 55-85 Cadillac Products, 55-85 Chevrolet Products (cars), 55-85 Chevrolet Products (trucks), 55-85 GMC Products, 55-85 Oldsmobile Products, 55-85 Pontiac Products.

When Ordering, State Make, Year, Model, No. of Cylinders, Engine Cubic Inch Displacement, Carb Type (2-bbl., 4-bbl., etc.), Fuel Injection, and Stk. No. For vehicles with 350 engine, State Fifth Digit of Vehicle Identification Number (C, L, P, R or X). NOTE: The stock number you ordered may carry a different identification number on your package. LIMIT: 8 plugs per customer.

55—3304X—Regular plug Each 69¢
55—3305U—Resistor plug Each 89¢

SWIVEL HEAD SPARK PLUG WRENCH

• Choice of 5/8" or 13/16"

Flex joint reaches into hard-to-get-at spots. Makes spark plug installation and removal easy, even on late model V8s. Pliable insert holds plug firmly to protect insulator. Chrome-plated steel. Long elastic-coated, detachable handle can also be used with any 3/8" drive socket.

88—7790U—5/8"
88—7791B—13/16" Each $2.49

Rajah Spark Plug Terminals

• Choose straight or angled style • Best possible connection between plugs and plug cable • Can't slip or shake off of plug

Moisture-proof bakelite terminals. Special built-in spring clips which give positive plug gripping action—eliminate cable disconnection from plugs due to road shock or vibration. Used by rodders, dragsters, stock car racers, rallyists. Sets of 4, 6, or 8.

Set for	Straight Stk. No.	Set	Angled Stk. No.	Set
4 cyl. eng.	75—1995P	2.98	75—1992X	3.98
6 cyl. eng.	75—1996Y	4.39	75—1993N	5.79
8 cyl. eng.	75—1997W	5.89	75—1994T	7.69

SPARK PLUG GAUGE and GAPPER

• New smooth, round design fits on your key chain • Gaps all standard and high energy spark plugs

Precision, hardened steel gauge accurately measures gaps with its continuously tapered edge, adjusts side wire of plug without straining center electrode. Gaps all plugs from .020" to .100" and 0.50 to 2.53mm. Nickel plated.
14—3132B— Each $1.49

MOTORCRAFT SPARK PLUGS for Ford, Lincoln & Mercury

Low as 69¢

Replace worn or fouled original equipment spark plugs ... restore engine power and pep! Allows easy starting in all types of weather. Available in regular or resistor plugs. For the following vehicles: 28-85 Ford Products (cars), 38-85 Ford Products (trucks), 30-85 Lincoln Products, 39-85 Mercury Products.

When Ordering, State Make, Year, Model, No. of Cylinders, Engine Cubic Inch Displacement, Carb Type (2-bbl., 4-bbl., etc.) and Stk. No. For vehicles with 351 engine, State Cleveland or Windsor. NOTE: The stock number you ordered may carry a different identification number on your package. LIMIT: 8 plugs per customer.

55—3306R—Regular plug Each 69¢
55—3307P—Resistor plug Each 89¢

SPARK PLUG CLEANING TOOL

Thoroughly cleans without decreasing life or causing misfire due to damaged porcelain. No abrasive used—no harmful deposits. Specially treated cadmium plated spring steel blade.
74—6743P— Ea. $1.98

REPLACEMENT BLADE.
16—0216U— Each 79¢

Spark Plug & Cable Testers

A 2-in-1 Tester. Checks all 6 and 12-volt systems with power on. Locates shorts, grounds and open circuits.
15—9257P— Each $2.99

B Inductive Tester. Tests entire secondary electrical ignition system without piercing spark plug cable.
15—7536R— Each $3.99

4-pc. Electrical Tester Kit (not shown). Includes 6/12-volt tester, 110/120-volt continuity tester with high-powered flashlight, spark plug tester with pocket screwdriver and wireless 110/220-volt tester with screwdriver. With case and instructions.
14—1404X— 1-Kit $4.99

SPARK PLUG BOOT PULLER
for American & Imported Cars, Trucks

• Extra-long to remove hard-to-reach boots. Applies pulling pressure to boot only ... won't damage ignition wire. Zinc-plated steel with plastic handle. 10" long.
14—2319W— Each $3.99

Braided Stainless Steel SPARK PLUG WIRE COVERS

• Dress up, customize engine compartment
• Prevent scorching if wires touch super-hot headers
• Help prevent heat deterioration

Sheath slips easily over existing spark plug wiring. Exclusive grounding clips prevent crossfiring. For 4, 6 or 8-cyl. cars and light trucks with 6 or 12-volt systems. Include instructions. 12-ft. cover for 4 cyl., 18-ft. for 6 cyl., 24-ft. for 8 cyl.

73—6936A—12 ft. Each $19.95
73—6937R—18 ft. Each 27.95
73—6938X—24 ft. Each 36.95

Compact, Low Cost Spark Plug CLEANER

• Cleans any size plugs—quickly, efficiently
• Can be used with any standard air compressor

Easily installed on any air line. 2-way valve action gives use of either abrasive blast or clean air to thoroughly clean spark plugs. Single neoprene grommet expands or contracts to fit all size plugs. 1/2" orifice designed to provide steady vapor-like flow of abrasives over entire spark plug. Easily mounted to wall—extends out approximately 3" from wall. 2-hole mounting base. With pushbutton control valve, approx. 3/4 lb. silica sand abrasive, retainer bag. Requires 125-130 PSI air pressure.
81—1717P— $19.99

SPARK PLUG HOLE RETHREADING KITS

• Quickly, easily repair and renew stripped or damaged cylinder heads on cars, trucks, motorcycles, lawn mowers, small engines

Easy-to-use kit includes special combination tap and reamer to cut off damaged plug thread and cut a new thread. Solid steel inserts eliminate cold winding. Kit includes one each 3/8", 7/16", 1/2" and 3/4" long inserts and instructions. For 14mm spark plugs.
14—4235B— 1-Kit $9.95

Extra 14mm Inserts.
14—4236P—3/8" | 14—4238W—1/2"
14—4237T—7/16" | 14—4239U—3/4"
1-Pkg. of 2 $1.95

Clean, test and adjust SPARK PLUGS with one handy tool!

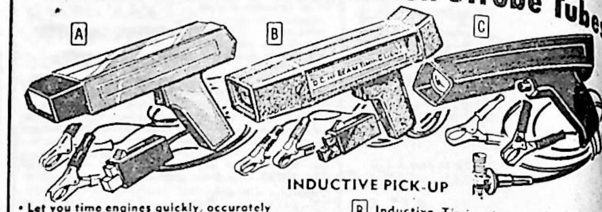

Helps keep plugs at peak performance, efficiency. Special sensor and light indicate plug firing; file cleans plug contacts; pick removes carbon; gapper; combination inch and metric feeler gauge. Tools fold into body. Easy to carry or store.
88—8365U— Each $1.98

Clamp-on D.C. Power XENON TIMING LIGHT with Inductive Pick-up

• Lets you time engines quickly & accurately

Brilliant white light is visible even in brightest sunlight. Trigger activated ... will not sap energy from ignition system. Solid-state circuitry with automatic reverse polarity & overload protection ... won't burn out. High-impact plastic housing. For all ignitions on 4, 6 & 8 cyl. 12-volt engines. Instructions included.
81—1518B— Each $16.50

CLIP-ON D.C. POWER TIMING LIGHTS with Xenon Strobe Tubes

INDUCTIVE PICK-UP

• Let you time engines quickly, accurately
• Won't sap energy from ignition system or affect idle speed ... trigger activated
• "Straight line" Xenon stroboscopic tube produces a brilliant blue-white light through precision, pre-focused lens
• Advanced all solid-state circuitry
• Internally protected against incorrect hookup
• Automatic polarity and overload protection
• For all 4, 6 and 8-cylinder, 12-volt engines and all ignition systems

A Deluxe Professional Timing Light with rugged metal housing, inductive pick-up for fast, easy hook-ups. Accurate at all speeds. Just clip lead onto spark plug wire. No need to remove spark plug wires ... no shock hazards or burned fingers. Xenon strobe tube's bright blue-white light is visible in brightest sunlight. Aluminum die-cast metal case with protective nose cone. Streamlined balanced design. With instructions and battery-attaching cords with large clips.
15—5557X— Each $39.95

B Inductive Timing Light with hi-impact [illegible] case. Similar to A but has shatterproof, shock-proof leather-grained black plastic body without protective nose cone. Inductive pick-up for trouble-free hook-ups. Stroboscopic tube and solid-state circuitry. Trigger switch. Instructions and battery-attaching cords with large clips.
17—9692W— Each $29[illegible]

C D.C. Power Timing Light. Impact resistant black plastic housing. With cords for hook-up to car battery. Trigger switch. With spark plug adapter, clamps and instructions.
15—4904B— Each $18[illegible]

Economy D.C. Power Timing Light (not shown). Same as C above but with Xenon flash tube stroboscopic tube.
15—5556R— Each $12[illegible]

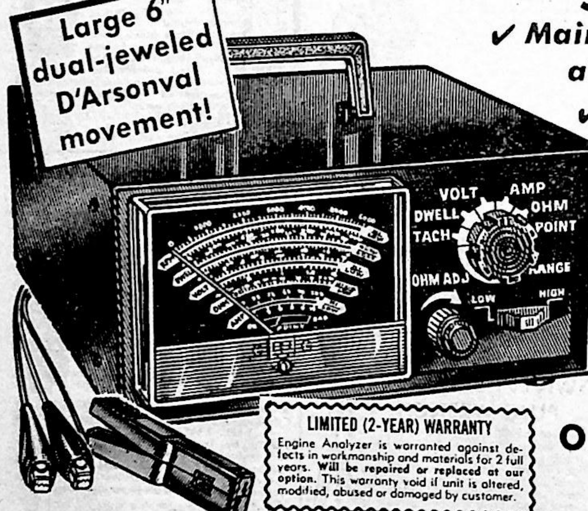

3-pc. SPARK PLUG TAP SET

Cleans, chases threads of 10, 14 and 18mm spark plug holes.
88—7351N— 1-Set $6.97
88—7353A—14mm Top Each $2.79

The Complete, Do-it-Yourself Tune-up Center
ENGINE ANALYZER

Large 6" dual-jeweled D'Arsonval movement!

SAVE MONEY!
✓ Maintain your engine at peak performance!
✓ Avoid high garage repair costs!
✓ Check our low, low price!

NOT $99.95
NOT $79.95
NOT $69.95
ONLY $49.95

LIMITED (2-YEAR) WARRANTY
Engine Analyzer is warranted against defects in workmanship and materials for 2 full years. Will be repaired or replaced at our option. Warranty void if unit is altered, modified, abused or damaged by customer.

6 FUNCTIONS TO PERFORM ALL THESE TESTS!

1. Engine Speed Check.
2. Dwell Angle Test. Measures dwell or cam angle (point gap) with utmost accuracy. Proper gapping is a must for efficient performance. A point gap that's too large or too small can cause misfires at high or low speeds or premature point burn-out. Includes complete instructions for adjusting dwell.
3. Distributor Cam Wear Test. Indicates worn-out cam, bent distributor shaft, faulty bushings or breaker plates, other problems within the distributor.
4. Idle Adjustment Test. Lets you fine tune high and low idle speeds to correct RPM and balance carburetor idle mixture for best performance. Proper adjustment helps prevent excessive fuel consumption, may cure flat spots when accelerating or climbing grades ... also prevents engine from creeping, stalling in vehicles with automatic transmissions.
5. Battery Tests. Provides direct readout of 6 or 12-volt battery output under actual cranking load conditions. Indicates if battery needs recharging or replacement. Detects leaks, and cells, checks for warped or shorted battery plates and cells. Assure correct polarity hook up to eliminate damage to electrical circuits.
6. Accessory Current Draw Test. Indicates if battery needs to be recharged or replaced when accessories are in use.
7. Charging Current Test. Indicates when regulator or generator is defective.
8. Charging System Tests. Troubleshoots alternator or generator ... sets and tests regulator and overall charging system operation. Detects poor or open ground circuits. Lets you adjust dead or run-down battery; hard starts; overheated or burned-out alternator or generator; damaged regulator; burned-out ignition points; premature failure of electrical accessories; bad diodes; low air conditioner or light output.
9. Alternator Diode Test.
10. Starter Circuit Test. Checks condition of starter, starter switch, solenoid and connectors to ensure easier starts at all times.
11. Wiring Circuit Test. Spots shorts, loose connections and high resistance within electrical system. Checks condition of all wires, battery and starter cables and ignition cables to eliminate power-robbing leaks and arcing of high voltage to spark plugs.
12. Ignition Coil Test. Checks coil's primary and secondary circuits for malfunctioning, leaking. Checks coil resistance.
13. Ignition Points Test. Lets you know when points need replacement due to pitted, burned or oxidized condition.
14. Air/Fuel Mixture Test.
15. Air Filter Test. Indicates if filter needs cleaning or replacement.
16. Distributor Centrifugal Advance Test.
17. PCV Test. Indicates need for repair or replacement.
18. Bulbs, Fuses, Relays Test. Checks condition.
19. Cylinders Test. Checks cylinders for proper balance.
20. Condenser Test. Checks for leakage.
21. Spark Plug Test. Checks for fouled plugs.
22. Radio Condenser and Suppressor Test.

• Complete diagnostic testing to help you spot electrical and ignition problems BEFORE they require major repairs
• For all 6 and 12-volt, 4, 6 and 8-cylinder, 2 or 4-cycle engines
• Tests all ignitions—electronic, HEI and conventional breaker points systems
• Easy clamp-on inductive pick-up
• Precision D'Arsonval movement with zero adjust
• Portable—goes everywhere with you

Professional test and tune-up results the first time, every time—even if you've never worked on an engine before! This precision analyzer helps you diagnose problems instantly, accurately. With it, you'll be able to perform all the tests and adjustments necessary to keep your engine running smoothly, efficiently and ECONOMICALLY! Easy-to-read 6" meter (with super-sensitive 2-jewel D'Arsonval movement) is accurate to within 2% of the full scale ... won't be affected by magnetic fields. Reliable solid-state circuitry—nothing to burn or wear out.

SCALES: Low RPM 0-1200, High RPM 0-6,000; Dwell 0-90° for 4 and 8-cylinder, 0-60° for 6-cylinder; Low Volts 0-2, High Volts 0-16; Low Amps 0-10, High Amps 0-100; Low Kilo-Ohm 0-2,000, High Kilo-Ohm 0-200,000 with manual ohm adjusting control; Points—OK or Bad. Slide maximum accuracy at all times. Rotary function selector.

Rugged steel case is approx. 10-1/2" wide, 6-1/2" deep, 5-1/2" high, has carrying handle. Tough black epoxy coating. Storage area in back holds the 56" long test leads and 45" long magnetic pick-up lead. Complete with detailed, easy-to-understand instructions. Ohm function requires 2 "AA" batteries (not included). For all gasoline, propane and diesel engines. (Note: Dwell and tach functions do not apply to diesels.) Returnable for exchange only—not for refund or credit.
81—1977P— Each $49.95

Combination CHARGING SYSTEM & ELECTRONIC IGNITION ANALYZER

• Spots trouble with battery, charging circuit, alternator field current and diode trio on all standard or electronic ignitions
• Troubleshoots pick-up coil, electronic module and ignition coil primary on electronic ignitions

Pocket-size (2-1/2" x 3-1/2" x 3/4") analyzer is accurate, easy to use. Hook up 4 color-coded leads—if any of the 7 red LEDs light up, that's your problem area. Solid-state. High-impact plastic case. Troubleshoots 12-volt charging systems and electronic ignitions on cars, trucks, pickups, RVs; GMC high-energy, Ford solid-state, Chrysler electronic and AMC 1978 and up. With instructions, fault-finding chart.
81—0950Y— Each $14.98

7-function TIMING LIGHT & ANALYZER UNITS with Inductive Pickup Clip

Measure RPMs and timing when you clip inductive pickup onto cylinder plug wire. Functions: Low tach—0-2400 RPM; High tach—0-6000 RPM; Dwell—0-60° & 0-90°; Volts—0-24V DC; Ohms—0-20K; Points—Good/Bad. Solid-state. High-impact ABS plastic housing. Works with all ignition systems ... no change of cylinder required.

A Standard Style. With pre-focused Xenon timing light. Operates on one 1.5-volt "AA" battery (not included—order below).
81—1797B— Each $44.98
88—8397X—"AA" Battery Each 35¢

B Pistol-grip Style. With adjustable-focus Xenon timing light. Fold-up handle. Operates on one 1.5 volt "AA" battery (not included—see above).
81—1868A— Each $54.98

Locate electrical shorts fast! SHORT FINDER & WIRELESS LOCATOR

A Short Finder. Signals audibly and visually when circuit in car or truck is overloaded or shorted. Pinpoints exact location of short — even behind body panels and pillars. 10-amp current limiter. Complete with three 4-1/2 ft. test cables and clamps, instructions.
81—8886X— Each $36.99

B Portable Wireless Short Locator. Lets you use to zero in on overloads without wasting time. Just sweep wand along panels or under flooring. Instantly pinpoints shorts from over 2 feet away. 12" searching probe for hard-to-get-to areas. 2-position selector switch for close-up or distance scanning. Easy-read meter. Scales: high/low. Uses 9-volt battery (included). Shipping weight. Not for C.O.D. orders.
96—3821AF— Each $99.99

CHARGING SYSTEM ANALYZER

• Instantly, accurately pinpoints problems with battery, diode trio, alternator field current, charging circuit
• Save BIG on repair costs

Only $7.95

Perfect for do-it-yourselfer ... simply hook two leads—the analyzer does the rest. When one of 4 red LED's lights up, it indicates problem in that area. Solid state. With fault-finding chart, instructions. Tests any 12-volt alternator system.
88—9286A— Each $7.[illegible]

DIAGNOSTIC & TUNE-UP ANALYZER

• Works on all ignition systems including pointless electronic ignitions
• For all 6 or 8-cyl. engines, 12-volt negative ground
• D'Arsonval meter accurate to ±2%
• Fits in hand

Checks the following: engine RPM (low 0-1200 RPM; high 0-6000 RPM); cam dwell angle (0-90° & 0° to 60°); points resistance; charging system, alternator/generator output (0 to 16 volts, -10 to +80 amps). Also checks for cylinders sticking valves, faulty plugs and angle variations that indicate worn distributor shafts, bushings or breaker plate. Heavy-duty, long wire leads, instructions.
14—5362T— Each $28[illegible]

NEON TIMING LIGHT

New design combines special light reflector, pre-focused lens to give brightest available light. Shock-proof, lightweight. Hooded to direct light on mark. For 6, 12 and 24-volt systems. With timing instructions.
88—9399B— Each $2.[illegible]

ANALYZER/TIMING LIGHT with ADVANCE METER

Folds up

Accurate, versatile tune-up instrument with inductive pickup for fast, easy hook up. Trouble-free readouts in sunlight, fluorescent lighting, etc. For all 4, 6 and 8-cylinder 12-volt engines, and ignition systems. Functions: low tach—0-1200 RPM; high tach—0-6000 RPM; dwell—0-60° and 0-90°; volts—0-16 volts; points—good/bad; advance—0-60°. Advance meter allows centrifugal and vacuum advance tests and to check ignition timing at any RPM. ... vance without removing distributor ... engine. Solid-state circuitry. ... housing with fold-up handle. ...
81—1516W— Each $5[illegible]

Analyzer/Timing Light. Same features as above but does not include advance meter.
81—1517U— Each $4[illegible]

DIAGNOSTIC TUNE-UP KIT
ONLY $49.95

... instruments in ONE low-priced kit ... timing light with tach/dwell tester. Inductive pickup for fast, easy hookups. Timing lets you time engines quickly, accurately. Xenon tube's super-bright blue-white light is visible even in direct sunlight. Tach/dwell tester: tach, 20°-60° and 30°-90° dwell. Solid state. 0-1600 RPM low tach; 0-2400 ... 8-cylinder ... all ignitions, all 2 and 4-cycle and rotary engines ... 4, 6 and 8-cylinder vehicles ... compression tester. Large 2-1/2" diam. gauge ... 0-300 psi and 0-21 ... spark plug holes ... fuel pump tester. Color-coded 2-1/2" ... gauge measures 0-30 in. (0-600mm) ... and 0-10 psi (0-0.7 kg/cm2) pressure ... bourdon tube movement. With flexible ... hose, remote starter switch and ... fittings. Plus ...
[illegible]—1872T— 1-Kit $49.95

ELECTRONIC IGNITION SYSTEM ANALYZER

TROUBLE SHOOTER: Battery Low; Defective Ignition; Defective Module; Defective Coil

... pinpoints ... problems ... [illegible]

... on needless repairs and ... electronic ignition ... Checks ... 12-volt negative-ground ... with electronic ignitions. Works on these ... GMC high-energy, Ford solid state, ... electronic and AMC 1978 and up. Solid-state. With instructions.
[illegible] Each $9.95

... standard ignition systems.
[illegible]—1530X— Each $9.95

INDUCTIVE CURRENT INDICATOR for Alternator/Generator & Starter

Combination Alternator/Generator and Starter Current Indicator for all cars, trucks and boats. Reads current by induction—no connections to hook up. For alternator/generator, simply hold indicator against ... wire at generator output wire with engine running and read 75-0-75 amp D.C. scale. For starter, hold indicator against starter lead with ... ing and read 400-0-400 amp D.C. ... 2-1/4" square case with shatter-resistant ... Instructions included.
[illegible]—9445X— Each $4.99

TUNE-UP & DIAGNOSTIC TESTERS/ANALYZERS

A 4, 6, 8-cylinder ... with standard or ... ignition, D'Arsonval movement with ... mirror for accurate readings ... scales. Each ... prevent ... Plastic case. & oil & static-resistant lens ... Impact-resistant ABS housing.

B Tach/Tach Tester. Performs basic tune-up tests ... 0-1200 RPM; ... tach—0-2400, 0-6000 RPM; dwell—0-90°, 0-60°, 0-45° ... with ... 2-wire hook-up.
[illegible]—1331W— Each $14.98

C ... 6-function Analyzer. Performs ... electrical system tests ... checks ... tach—0-2000, 0-6000, 0-4500 ... 0-1200, 0-6000 RPM; dwell—0-90°, 0-60°, 0-45° ...
[illegible]—1522U— Each $19.98

D ... 7-function Analyzer with inductive ... pickup ... tach reading ... on engines with ... tach—0-2000 RPM; high tach—0-1600 RPM; dwell—0-60°, 0-45°; high ohm—0-200K ... points—OK/bad.
[illegible]—1524[illegible]— Each $34.98

7-function Tune-up Analyzer (not shown). 4" meter. Scales: high tach—0-6000 RPM; low tach—0-1600 RPM; dwell—0-90°, 0-60°, 0-45°; 0-80 amps; 0-20, 0-1 high/low volts; points OK/bad.
81—1523B— Each $29.98

D 6-function Bench Analyzer. Performs basic tune-up tests and most electrical system tests at professional level. Big 6" meter. Scales: tach—0-2000 RPM; dwell—0-90°, 0-60°, 0-45°; 0-160 amps; 0-16, 0-1 high/low volts; points—OK/bad.
81—1525X— Each $34.98

E Deluxe 10-function Bench Analyzer with inductive pickup. Performs complete tune-up and electrical system tests at professional level on engines with any RPM. 6" meter. Scales: high tach—0-6000 RPM; low tach—0-1600 RPM; dwell—0-60°, 0-45°; high ohm—0-200K; low ohm—0-2K; 0-100, 0-10 high/low amps; 0-20, 0-2 high/low volts; points—OK/bad.
81—1526N— Each $49.98

Volt/Ohm/Amp/Points TESTER

• Easy-to-read jeweled D'Arsonval meter
• For electronic and conventional ignition systems

Functions: Voltmeter—reads 0-3 volts (0-30 with x10 multiplier switch). Ohmmeter—reads 0-500 ohms (0-5,000 and 0-50,000 with x10/x100 multiplier switch). Ammeter—reads 0-100 amps. Point Scale—shows if point condition is good or bad. Unit operates on one "AA" battery (not included—order below). Includes shunt instructions.
12—2713B— Each $19.99
88—8397X—"AA" Battery Each 35¢

TEST & TUNE-UP KIT

Contains the finest quality test equipment for newer electronic and conventional ignition systems—4, 6 or 8-cylinder. Precision electronic system analyzer with inductive pickup and 4" jeweled D'Arsonval meter. Tests hi/lo tach (0-6000 RPM, 0-1600 RPM), hi/lo ohms, hi/lo volts, dwell (0-80°), points condition. Professional D.C. xenon timing light with chrome-plated zinc die-cast case, inductive pick-up, replaceable xenon bulb. Fresnel pre-focused lens. Light connects to any 6 or 12-volt battery. Deluxe compression tester reads 0-300 psi and 0-21 kg/cm². With 18" long hose, valve and fittings for 14mm and 18mm spark plug holes plus deep seated extension for holes in General Motors vehicles. Vacuum and fuel pump tester with large color-coded scale reads 0-30" vacuum, 0-7 lbs pressure. With heavy-duty plastic case, illustrated instructions.
14—9635Y— 1-Kit $99.99

ENGINE STARTING SYSTEM

• Lets you start stalled engines instantly in cold weather ... from inside your vehicle
• Helps extend battery and starter life

A push of a button injects starting fluid into the carburetor. Eliminates need to open hood and spray fluid ... no more grimy hands or frostbitten fingers. Kit includes 11-oz. container of starting fluid, 5 ft. of tubing and holder.
12—3849T— 1-Kit $6.95

Starter Solenoid Switches for Cars & Trucks

Factory tested. Heavy, all copper windings are engineered to perform better than original.

For the following cars & trucks with solenoid switch on starter: 59-81 American Motors; 57-83 Buick, Cadillac, Chevrolet car & truck, Oldsmobile; 59-69 Chrysler, Dodge, Plymouth; 68-77 Ford, Lincoln, Mercury; 54-83 Pontiac; 58-83 Pontiac, GMC truck. State Make, Year, Model, Engine Cu. In. Displacement and Stk. No. Note: The stk. no. you ordered may carry a different identification number on your package.
55—0771P— Each $9.98

For the following cars & trucks with solenoid switch on firewall or fender: 66-76 American Motors; 41-82 Ford car & truck; 72-80 Jeep; 37-82 Lincoln; 39-82 Mercury. State Make, Year, Model and Stk. No. Note: The stk. no. you ordered may carry a different identification number on your package.
55—0407A— Each $4.98

Do your own tune-ups & SAVE!
TEST & TUNE-UP KIT

★ Now YOU can keep your car in top condition at all times!
★ Everything you need is included in ONE easy-to-use, easy-to-afford professional kit!
★ Tests all 4, 6, 8-cylinder and rotary engines
★ Tests all conventional ignition systems
★ Tests transistorized ignitions—Magnetic Pulse System I, II or III, Capacitive Discharge System

This Test and Tune-up Kit includes everything you need to accurately diagnose problems in basic engine components, charging system, ignition system, basic wiring system and fuel system. Eliminates the need for costly and time-consuming garage diagnosis. Eliminates the purchase of unnecessary parts. Save on our special price. Save even more by doing the tests yourself. It's easy ... and you don't have to be a professional to get professional results. Detailed, easy-to-understand instructions (included) guide you through all the troubleshooting procedures and normal maintenance repairs.

PROFESSIONAL HAND-HELD ANALYZER
Performs basic tune-up tests and electrical system tests quickly, accurately. Large 4" jeweled D'Arsonval meter movement, easy-to-read color-coded scales. Functions: High Tach 0-6000 RPM, Low Tach 0-1200 RPM; Dwell 0-45°, 0-60°, Volts 0-16; Amps 0-60; Ohms 0-20 kilo-ohms. With 6-function selector, 4, 6 and 8-cylinder selector, ohmmeter adjusting control, zero-set adjusting screw. High-impact ABS plastic housing. Solid state, reverse polarity protected. Includes 5-ft. test leads and external shunt for amp testing. Powered by one "AA" battery (included). For all 12-volt, 4, 6 or 8-cylinder and rotary engines.

PROFESSIONAL DC XENON TIMING LIGHT
Accurately indicates degree of advance or retard to help eliminate ping, run-on or sluggish performance caused by inaccurate ignition timing. A properly timed engine can even improve gas mileage. Unbreakable inductive pickup for fast, easy, shock-proof hook ups. Long-lasting Xenon bulb produces a super-bright blue-white light through the pre-focused lens ... can be seen easily even in brightest sunlight. Transformer increases flash rate from 12 volts to 400 volts at bulb. Solid state. Internally protected against incorrect hook up. Lightweight, high-impact ABS plastic housing. Comfortable pistol-grip handle with 2-finger trigger. For all 1 to 12-cylinder 12-volt engines.

PROFESSIONAL COMPRESSION GAUGE
Accurately tests compression of each cylinder, allowing for comparison of all cylinders. Also detects worn or defective piston rings, cylinder walls, valves, head gasket. Easy-to-read 2-1/2" diam. gauge measures 0-300 lbs. and 0-20 kg. Color-coded scale indicates condition of cylinder and compression: weak, fair, good. Two release valves (one on base, one on gauge head) allow easy thumb release of cylinder pressure. For all 14mm and 18mm spark plug holes. Includes adapter to test engines with extra-long 14mm plugs. With 12" long flexible hose.

PROFESSIONAL VACUUM/FUEL PUMP TESTER
Accurately checks condition of basic internal engine parts (valves, springs, piston rings, cylinder walls, etc.). Tests PCV system, exhaust system for proper flow, vacuum-powered components. Checks carburetor idle mixture. 2-1/2" diam. gauge measures 0-30 in. or 0-700mm vac. and 0-10 lbs. or 0-1 0.7 kg fuel pump pressure. Color-coded scales indicate normal, late ignition timing, late valve timing, leaking intake manifold or heat riser (if applicable). Includes 30" neoprene hose with adapter.

REMOTE STARTER SWITCH
Hand-held, squeeze-type switch lets you crank engine from outside your vehicle. Lets you perform tests and tune-ups without assistance. High-impact ABS plastic housing with 3-ft. leads and clip-on insulated connectors.

COMPLETE KIT includes 6-function analyzer, timing light, compression tester, vacuum/fuel pump tester and remote starter switch plus a rugged carrying case with molded-in compartments to hold each individual instrument safely, securely. Returnable for exchange only—not for refund or credit.
81—1978Y— Each $79.95

PROFESSIONAL 5-PC. KIT lets you . . .

• Set low/fast idle speeds
• Set carburetor idle mixture/test air-to-fuel ratio
• Test PCV system
• Test for cylinder power balance
• Test for proper distributor vacuum and centrifugal advance
• Work on single or dual-point ignition systems
• Test dwell variation
• Make battery light load and heavy load test
• Test overall charging system (alternator or generator type)
• Test alternator or generator maximum output
• Test cut-out relays (generator type)
• Test starter circuits (grounded and battery side)
• Test current draw of any electrical circuit
• Test open or shorted circuits
• Test high/low voltage cables and wires
• Test wire resistance
• Test for open or shorted ignition coils/ballast resistors
• Test negative or positive alternator diodes
• Test for condenser leakage
• Time engines and determine degree of advance or retard
• Test compression of each cylinder, allowing comparison of cylinders
• Test condition of basic internal engine parts (valves, springs, piston rings, cylinder walls, head and head gaskets)
• Test power brake booster and vacuum-operated headlamp covers
• Test fuel pump vacuum and pressure

LIMITED (2-YEAR) WARRANTY
All components in this kit are warranted against defects in workmanship and materials for 2 full years. Will be repaired or replaced at our option. Warranty void if components are altered, modified, abused or damaged by customer.

STARTER DRIVE

New. Sold outright—no exchange necessary. State Make, Year, Model, Type of Starter (Delco, Autolite, Ford or AMC), No. of Cyls., Standard or Automatic Transmission and Stk. No. If possible, give number on starter which is located on top of starter case. For American cars and trucks (exc. diesels). Note: The stock number you ordered may carry a different identification number on your package.
55—2805U— Each $4.99

IGNITION STARTER SWITCHES

2-Way (On/Off). For vehicles with separate starter switch. 3/4" long, 3/4" diam. mounting stem, 1-1/8" mounting nut, 2 brass keys. Key removable in Off position only.
15—9901T— Each $4.89

Heavy-duty 4-way. For vehicles with starter on ignition switch. Has Accessory, Off and On, Ignition and Starter terminals. Die-cast housing. 3/4" diam. mounting stem, 7/16" long. Terminals coded for easy installation. 2 keys. Key removable in Off position only. Rubber cap.
74—0498X— Each $5.99

SHORT CIRCUIT FINDER

• Locates shorts in all 12-volt automotive electrical circuits

Easy to use—just hook leads to fuse posts. Induction-type needle on gauge pinpoints shorts. Unit operates through metal posts, panels, etc. No need to remove upholstery or floor coverings. Schematic included. With high-impact plastic storage box.
14—9374U— Each $14.98

CHARGE YOUR ORDER ON YOUR VISA OR MASTERCARD

HIGH-TORQUE STARTERS for GM Cars & Trucks

• Increases cranking power
• Heavy-duty field coil and armature allow starter to spin faster
• Solves hot start/high compression problems

Rebuilt starters have 4 or 5-roller drive (depending on vehicle) with special graphite-filled bushing to handle up to 20% more torque. When Ordering, State Make, Year, Model, Engine Cu. In. Displacement, No. of Cyls., Automatic or Manual Transmission and Stk. No. & Also State Code Letter L, R, J or X (found in engine serial number). Note: The stk. no. you ordered may carry a different identification number on your package.

"One Man" REMOTE STARTER SWITCHES

A Trigger | B Spring-loaded

Easy-to-use remote starter switches let you crank, start or stop engine from outside vehicle.

A Trigger design for maximum control and easy use. Extra-heavy 6-ft. neoprene leads, heavy duty alligator clips with insulated boots. High impact pistol-grip housing.
14—8928Y— Each $6.99

B Spring-loaded switch. Long, oil and gas resistant insulated leads, quick-connect/alligator clip ends.
12—4247R— Each $2.99

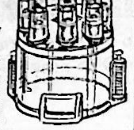

Keyless switch (not shown). Features dual switches, on/off ignition switch and "dead man" safety starter switch. 3 contact clips. Built-in circuit breaker.
14—5126B— Each $16.99

GM TESTER ADAPTER

Simplifies tester hook-up to all 77-84 full-size GM cars (except Cadillac) and to 76-84 Chevettes. Manual outlines step-by-step procedures recommended by GM. Makes connecting tach-dwell testers, voltmeters, remote starter switches and diagnostic engine analyzers a snap. 3/8" x 4-3/8". With instructions.
15—6968N— Each $19.99

Hi-performance • Transparent

DISTRIBUTOR CAPS
for American Cars, Light Trucks & Volkswagen Beetle

- Add show car styling
- Lets you see distributor working

Finest quality hi-dielectric material withstands today's extreme under-hood temperatures. Precision built to reduce voltage and energy leaks, cross-firing and carbon-tracking. Will not discolor. **NOTE:** Not for electronic ignition.
For the following American cars & trucks:

Year, Model	Clear	Red	Blue
57-75 Ford Products V8	73–2526U	73–2803X	73–2804N
58-74 GM Products V8	73–2527B	73–2801A	73–2802R
57-74 Chrysler Products V8	73–2529Y	73–3021N	73–3022T
Above Nos. Each	$8.98	$8.98	$8.98

For 55-78 Air-cooled Volkswagen with "009" type centrifugal advance distributor. Not for use with electronic ignition.
73–6976X—Yellow | 73–6977N—Blue | 73–6978T—Red | 73–6979A—Clear
Above Numbers .... Each $4.95

Custom-fit DISTRIBUTOR LOCK NUT WRENCHES

For all American cars, pickups & Datsun, Fiat, Mazda, Toyota, Volkswagen cars, trucks. State Make, Year, Model & Engine C.I.D. For Cadillac only, State 1/2" or 9/16" Hex Bolt Head Size. The stock number you ordered may carry a different identification number on your pkg.
55–1786X— .... Each $5.99

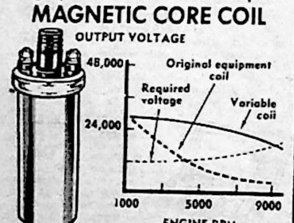

Economy Universal-fit WRENCHES

For 1/2" & 9/16" distributor lock nuts
04–0307N— 1-Set $3.99

High-performance • Variable-Spark

MAGNETIC CORE COIL

- For superior to original equipment coils (see diagram above)
- Regulates spark intensity ... provides correct voltage over engine's entire RPM range
- Assures easier cold weather starts ... prevents excessively hot spark, fuel-robbing engine knock

Delivers consistent high-performance voltage regardless of demand on engine. Coil senses echo off spark plug and automatically increases or reduces current flow to give proper spark intensity. High-temperature conductive oil keeps windings over 20% cooler than any other coil. Threaded tower assembly helps seal wire boot ... gives twice as much protection against voltage leaks as ordinary coils. Brushed chromed housing keeps out moisture, prevents shorts. For all 6 or 12-volt negative ground systems except 1975 and later General Motors H.E.I.
74–8059R— .... Each $24.95

SPARK ADVANCE DISTRIBUTOR SPRINGS
for Cars and Trucks

- Replaces factory-installed springs perfectly ... no alterations necessary

Unlike most springs, these special springs don't advance the distributor. Instead they allow the vacuum advance to kick in sooner ... letting you pick up 10° or 11°. Not for computer module ignition. For the following cars & trucks.
73–3373P—For all 62-82 GMC
73–3374Y—For all 72-82 Ford
73–3375N—For all 72-82 Chrysler
Above Numbers 1-Set $1.98

DISTRIBUTORS
for 59-80 American Cars and Trucks

- Assures proper ignition system performance
- Sold outright—no exchange necessary
- Complete with points, condenser (or reluctor and pickup), vacuum advance mechanism and gear drive
- Choice of point-type or electronic ignition-type

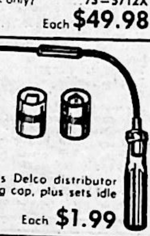

Factory rebuilt with new bushings, prelubed points and condenser. Rotor & distributor cap not included—see Index. Electronic ignition distributors include new reluctor and sensor assembly. Not for vehicles with electronic vacuum advance or Ford products with emission control vacuum unit (2 hose connections). **When Ordering, State Make, Year, Model, Engine Size and Stk. No. Note: The stk. no. you ordered may carry a different identification no. on your package.**

Point-type Distributors for these vehicles:
Buick Products 67-74 340, 350 (with 14-tooth gear); 67-74 400, 430, 455 (with 13-tooth gear); 68-74 250
Chevrolet Products (Cars) 59-74 283, 327, 350, 396, 427; 63-74 all 6-cyl (exc. V6)—see below
Chevrolet Products (Trucks) 63-74 all 6-cyl (exc. V6)—see below; 66-74 283, 307, 327, 350, 396, 400
Chrysler Products 61-72 361, 383, 400, 413, 426, 440
Dodge Products (Cars and Trucks) 62-72 all 6-cyl; 62-72 383, 400, 413, 440
Ford Products (Cars) 68-74 260, 289, 302, 332, 352, 390, 406, 427, 428
Ford Products (Trucks) 60-74 289, 302, 330, 352, 360, 390

Mercury Products 68-74 289, 302, 352, 390, 420, 428
Oldsmobile Products 64-74 330, 350, 425; 66-74 all 6-cyl (exc. V6)
Plymouth Products (Cars) 62-72 all 6-cyl; 63-72 361, 383, 400, 413, 426, 440
Pontiac Products 59-74 all 8-cyl; 70-74 all 6-cyl (exc. V6)
55–3135N— .... Each $39.99

Point-type Distributors for all 63-74 Chevrolet 6-cyl. cars & trucks (exc. V6).
73–5702Y— .... Each $44.95

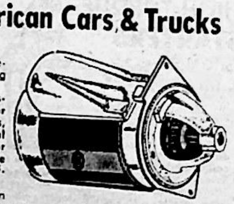

Electronic Ignition Distributors for these Chrysler, Dodge, Plymouth vehicles (except those with lean burn engines):
77-79 225 .... 73–5714T
76-77 400 .... 73–5712X
76-78 440 .... 73–5713N
77-79 361 (Dodge truck only) 73–5712X
Above Numbers .... Each $49.98

Distributor Point and Carburetor ADJUSTING WRENCH

Flex-shaft tool adjusts Delco distributor points without removing cap, plus sets idle on most carburetors.
04-0308T— .... Each $1.99

STARTERS for 61-84 American Cars & Trucks

- SOLD OUTRIGHT—NO EXCHANGE NECESSARY
- INCLUDES STARTER DRIVE

Factory rebuilt and tested to highest standards. For best results, we recommend replacing starter solenoid when replacing starter—see Index.
HOW TO ORDER. State Make, Year, Model, Engine Cu. In. Displacement, No. of Cyl., Carb Type (2 or 4-bbl.), Automatic or Manual Trans. & Stk. No. For General Motors 350 CID vehicles, Also State Code Letter, L, R, J or X (found in eng. serial number). For Ford 351 CID vehicles, Also State Windsor or Cleveland Engine (check engine information sticker on valve cover). Note: the stock number you ordered may carry a different identification number on your package.
MT=w/manual transmission, AT=w/automatic transmission

ALTERNATORS
for 61-85 American Cars and Trucks

- SOLD OUTRIGHT—NO EXCHANGE NECESSARY
- COMPLETE WITH PULLEY

Each unit includes parts that have been remanufactured to rigid standards of quality and workmanship and tested to assure maximum efficiency and dependable charging. With these NEW parts: brushes that meet OEM specifications; double-shielded bearings, American-made needle bearings; rectifier insulators and washers. When replacing alternator, we recommend also replacing voltage regulator—see Index. H.D.=heavy duty.

HOW TO ORDER. State Make, Year, Model, Amperage & Stk. No. For General Motors Vehicles, Also State Plug-in Position A, B or C (to determine position, look at your alternator from the rear and then check the diagram above). Note: The stock number you ordered may carry a different identification number on your package.

DISTRIBUTOR ADVANCE CURVE KITS

- Permits full timing advance for maximum power & acceleration

Convert your stock distributor into a high-performance system! A stock distributor won't allow full timing advance to your engine until as late as 4,500 RPM. This easy-to-install kit permits full advance at lower RPM to deliver the power and acceleration you demand. Includes necessary springs, bushings, weights and instructions.
For GM Products with Delco Distributor.
75–1298R—62-68 All V8 .... 1-Kit $1.98
75–4601A—69-74 V8 w/o H.E.I. electronic ignition 1-Kit $1.98
73–5851T—74-82 All 4, 6 and 8-cyl with H.E.I. electronic ignition 1-Kit $3.98
Advance Curve Springs Only.
73–2080B—59-74 Chrysler, Dodge, Plymouth Products 1-Set $1.29
73–2081P—65-70 Ford & Mercury Products 1-Set $1.29

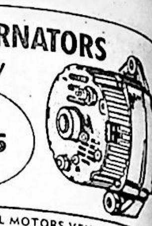

GENERATORS
for 40-65 American Cars & Trucks

- No trade-in necessary

Rebuilt to original specifications, then performance tested. For the following vehicles:
61-64 American Motors (State gen. length); 53-56 Buick; 53-56 Cadillac; 40-62 Chevrolet Cars & Trucks; 52-65 Ford Cars; 51-64 Ford Trucks; 52-64 Jeep; 1956 Lincoln; 54-64 Mercury; 56-57 Nash; 52-60 Oldsmobile; 53-58 Packard; 52-62 Pontiac; 56-59 Rambler; 52-61 Stude.
When Ordering, State Make, Year, Model, No. of Cylinders, With or Without Air Conditioning & Stk. No. For Jeep®, Packard and Studebaker, also state make of generator (Autolite, Delco-Remy). For Jeep®, also state O.E.M. number on I.D. tag located on existing generator. Note: The stock number you ordered may carry a different identification number on your package.
55–3780Y— .... Each $59.95

Heavy-duty REPLACEMENT ALTERNATORS
Limited 30-month Warranty

- Replaces original equipment 60-100 amp alternators or upgrades weak 40-55 amp units

These new (not rebuilt) alternators assure proper battery charging. When used on older vehicles with low-output 40-55 amp units, they charge your battery quicker and prevent charging system from overworking. On newer vehicles with 60-100 amp alternators, they replace original equipment perfectly.

LIMITED 30-MONTH WARRANTY
Alternators are warranted for 30 months against defects in material and workmanship. If unit fails to perform satisfactorily, we will replace it at no charge (labor not included). Warranty is void if unit is altered, abused or damaged by customer.

For GENERAL MOTORS VEHICLES, note the type of plug-in connector to determine if your alternator has a built-in regulator or a separate mechanical regulator.
Alternators with this type of plug-in connector have a separate regulator. | Alternators with this type of plug-in connector have a built-in regulator.

DISTRIBUTOR CAPS & IGNITION TUNE-UP KITS
for American Cars, Trucks with Standard Ignition

DISTRIBUTOR CAPS

Precision engineered hi-dielectric materials molded to O.E.M. specifications. Thick cap walls provide a high resistance to moisture, help eliminate shorts. For 29-74 American cars and trucks (except models listed below). Not for electronic ignition. See ordering info below.
55–1952N—for 4-cylinder .... Each $2.39
55–1953T—for 6-cylinder .... Each 2.39
55–1954A—for 8-cylinder .... Each 2.49
45–0481R—28-34 Ford 4-cyl .... Each 6.49
88–6008B—Cover for above .... Each 1.29
88–5870W—32-41 Ford V8 (cover only) .... Each 2.89
88–5870W—39-41 Mercury (cover only) .... Each 2.89

NOTE: for distributor caps and tune-up kits for Imported vehicles, or for later model American vehicles with electronic ignition—see Index.

ORDERING INFORMATION: State Make, Year, Model, Engine Size, Number of Cylinders and Stock No. On Chrysler Products, also State if Chrysler or Autolite Distributor and Distributor Number. The stock number you ordered may carry a different identification number on your package.

EXTRA-HEAVY-DUTY TUNE-UP KITS

Extra-large ventilated tungsten contacts—matched and pre-aligned. Helps prevent point burning and pitting. Hi-dielectric bakelite rotor and sealed leakproof condenser for reliable ignition system performance. For 33-74 American cars and trucks (except models listed below). Not for vehicles with electronic ignition. See ordering information below at left.
45–1236W—1974 Pontiac w/unitized distributor 1-Kit
55–2168X—for 4-cylinder (exc. 71-73 Capri, Bobcat, Pinto 1600cc) 1-Kit
75–3054U—71-73 Capri, Bobcat, Pinto 1600cc 1-Kit
55–2169N—for 6-cylinder 1-Kit
55–2170T—for 8-cylinder (exc. 1974 Pontiac w/unitized distributor) 1-Kit

One-piece ventilated point and condenser set. 56-74 General Motors Products.
73–3817W— .... Each

Standard Replacement Kits. Includes points, condenser and rotor. See ordering information at left.
55–1317A— 1-Kit

DISCONNECT TOOL for GM & Ford Connectors

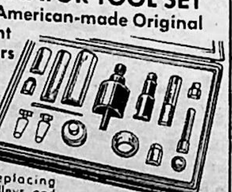

- Allows fast, easy removal of General Motors HEI distributor double plugs or Ford multiple wire connectors

Tool releases holding tabs, frees both hands to wiggle connectors loose. Eliminates makeshift methods that can hurt your hands or damage connectors.
12–4024B— .... Each $3.99

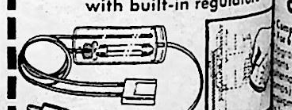

ALTERNATOR TOOL SET for All American-made Original Equipment Alternators

18-pc. set

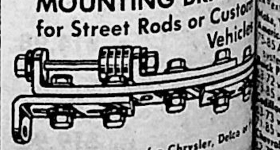

Ideal for replacing bearings, pulleys and diodes on all American-made original equipment alternators, including Chrysler, Delcotron, Ford Autolite, Prestolite, Leece-Neville, Motorola. Includes these quality tools: driver end frame installer; slip ring end frame supports for bearing installation, removal; bearing installer and remover; slip ring end frame support for diode removal; diode installation support; diode installer and remover; heat sink support for diode removal; service set for Delcotron/Ford pulleys; 2 heat dams; press-fit pulley to pull bearings and power steering pump pulleys; carry case and service manual. Shpd from factory. No C.O.D. orders.
97–2900TF— 1-Set $109.95

ALTERNATOR TESTER
Tests ALL alternators with built-in regulators

Plug tester into alternator, then attach clip to output terminal. Bulb indicates if alternator or regulator is faulty. Can be used with meter for full output tests. No dials to knobs to turn, no batteries to wear out. .... Each $6.
12–3317A—

Universal ALTERNATOR MOUNTING BRACKET for Street Rods or Custom Vehicles

- Allows installation of a Chrysler, Delco type alternator

Zinc cadmium plated. Includes mounting ears, hardware and instructions.
74–7332A—
Each .... $17.

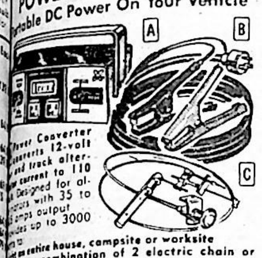

CHARGE YOUR ORDER ON YOUR VISA OR MASTERCARD

FAN BELT TENSIONER

Easy to install on existing slot of air conditioner compressor, etc. Lets you tighten belt easily and quickly ... without special tools or pry bars ... prolongs belt life, eliminates squealing, maximizes belt-driven component's efficiency. Plated heavy-duty steel with Grade 5 mounting bolts. With instructions. Fits 70-85 American cars and trucks (exc. w/serpentine fan belt), 70-85 Datsun, 72-85 Subaru, 75-85 Volkswagen (exc. Beetle).
-6975R— .... Each $3.95

Heavy-duty Electric POWER CONVERTER
Portable DC Power On Your Vehicle

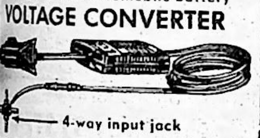

Power Converter converts 12-volt car and truck alternator current to 110 volts. Designed for alternators with 35 to 63 amps output. Provides up to 3000 watts to power an entire house, campsite or worksite ... or any combination of 2 electric chain or portable saws, drills, impact wrenches, etc., drawing up to 15 amps each ... or a battery charger or light arc welder. 30 amp resettable circuit breakers protect alternator and tools from power surges. Will not shorten life of alternator. 120-amp switching mechanism and 0-150 dial voltmeter. Aluminum heavy-duty wiring. Designed for industrial and continuous duty applications. Works with brush-type motors and items with heating elements or internal filaments, (light bulbs, toasters, etc.) **Cannot operate induction motors without brushes, (washing machines, refrigerators, air conditioners, pumps, etc.).** With instructions and information on **how to build a portable home generator using this power converter.** Fits all GM, Ford, Chrysler, International alternators; Volkswagen (1973 to present with Bosch alternators); cars and trucks with Bosch alternators; All Toyota, Datsun, LUV, Courier, Mazda, Isuzu, and cars and trucks.
-0073P— .... Each $79.95

Charge and Weld Cables for A. Quick-charge batteries in 3 to 5 minutes. Use for light arc welding. 20-ft. copper cables. Heavy-duty 600-amp clamps. UL Approved.
-0074Y— 1-Kit $29.95

Throttle Control Kit. Control engine speed from dash, for power generating. Easy to install.
-7522A— .... Each $3.69

Operate small battery-run accessories off your 12-volt automobile battery

VOLTAGE CONVERTER

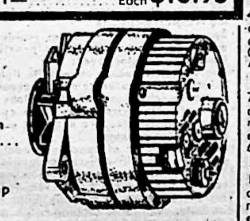

Plugs into cigarette lighter. Converts 12-volt DC current to power any portable 6, 7.5, 9 or 12-volt radio, tape player, calculator, game with an input jack. Saves on battery replacements. Replaceable 1-amp fuse protects equipment. Output at 6 and 7.5 volts is 500MA, at 9 volts is 900MA, at 12 volts is 3 amps. Includes 5-1/2 ft. cord.
-9570X— .... Each $9.95

Universal 6-in-1 Voltage Converter. Converts 12-volt DC negative or positive polarity to 3, 4.5, 6, 7.5, 9 or 12-volt. 4-way input jack, 9-volt adapter plug. 500MA capacity. Reversible polarity switch.
-9329Y— .... Each $4.95

Universal Voltage Converter. Converts 12-volt DC negative or positive to 6, 7.5 or 9-volt DC. 4-way input jack. 300MA capacity. Polarity switch.
-7586W— .... Each $3.95

High-output 80-amp ALTERNATORS

Complete with pulley. For 61-85 American cars, trucks and RVs. Upgrade your charging system! Enjoy easier starts in ALL weather. These new performance alternators deliver peak electrical output (over 80 amps) to charge battery faster than original equipment 40-63 amp alternators. Each alternator is load and oscilloscope tested to assure superior workmanship and maximum efficiency. Precise tolerances permit shaft speeds up to 20,000 RPM; special hardened and cured rotor varnish minimizes internal rotor shorting. Easy to install—no adapters required. Alternators are same size as factory units, use original brackets and belts. Not for vehicles with original equipment 70-100 amp alternators. Shipped from factory. No C.O.D. orders.
IMPORTANT: See note at right before ordering. Alternators for General Motors Products with internal regulators include regulator and universal plug-in harness.
ER=external regulator IR=internal regulator

Allows maximum charging ... replaces weak 40-63 amp factory units

For General Motors vehicles, note plug-in connector to determine if your alternator has an internal or a separate external regulator.
Alternator with this type of plug-in connector has internal regulator | Alternator with this type of plug-in connector has external regulator

6, 12 and 24-volt POWER and POLARITY CONVERTERS/INVERTERS

- Let you use ham, car and CB radios, stereos, tape players and any other 12-volt accessories

Converter/Inverter (shown). Converts 6-volt negative to 12-volt negative, 12-volt positive to 12-volt negative, or 12-volt negative to 24-volt negative. 3-amp output. Black steel case 3-3/4" x 3-1/4" x 2-1/4". With instr.
15–8061X— .... Each $32.95

Converter/Inverter (not shown). Converts 6 or 12-volt positive to 6 or 12-volt negative, 6 or 12-volt negative to 6 or 12-volt positive at 15 amps output. Converts 6-volt positive or negative to 12-volt negative or positive, 12-volt negative or positive to 24-volt negative or positive at 8 amps output. With instructions.
14–8936A— .... Each $99.95

HEAVY-DUTY VOLTAGE REGULATORS

- Custom fit to replace original easily, exactly—no holes to drill, no special adapters
- Protect battery and generator or alternator against overcharging, burn-out ... assure proper rate of charge to battery
- Pre-set at factory to correct charging rate—no adjustment required

Correctly controls voltage and amperage output of generator or alternator. With instructions. For the following cars and trucks with external regulator (see below for vehicles with electronic or internal regulator).

57-78 American Mtrs Prod.▲ (incl. Rambler); 40-72 Buick Prod.; 46-72 Cadillac Prod.; 46-72 Chev. Prod. (cars & trucks); 46-69 Chrysler Prod.; 46-69 Dodge Prod. (cars & trucks); 42-79 Ford Prod. 55–0842R— .... Each $9.98

For Vehicles with Electronic or Internal Alternator Regulator
71-75 American Motors products, 72-75 Jeep®, 1974 International Trucks with Motorola alt.
73–5050B— .... Each $12.98
70-83 Chrysler, Dodge, Plymouth products with electronic regulator.
13–1566U— .... Each $3.98
79-85 Ford, Lincoln, Mercury products with electronic regulator. Also replaces external regulator on 63-78 Ford, Lincoln, Mercury products.
73–3848A— .... Each $4.98
71-85 General Motors products (incl. Buick, Cadillac, Chevrolet, G.M.C., Oldsmobile, Pontiac); 71-81 International Trucks with internal regulator.
74–7931P— .... Each $3.98

Alternator/Generator/Battery Check Gauge

Makes on-the-spot checks ... quickly locates trouble. Meter movement is accurate to ±5%. Colored dial. 2-1/2" red metal case with chromed top. Includes 2-ft. leads with rubber-covered clips.
15–1417Y— .... Each $13.95

Electric Power CONVERTERS
Portable 110V power on your vehicle

Produce up to 3000 watts of power from your vehicle's alternator. A portable saw, electric drill, chain saw or impact wrench draws less than 15 amps so 2 tools can be used at one time. Converters will not shorten life of alternator. Instructions included. Works with all brush-type motors and items with heating elements or internal filaments, such as light bulbs and toasters. Also operates battery chargers. Cannot operate induction motors without brushes, such as washing machines, refrigerators, air conditioners, pumps.

A **Deluxe 20-amp 110-volt DC Power Converter Kit.** Mini 20-amp circuit breaker protects against damage by power surges. Pilot light indicates when engine RPM is high enough to produce 110 volts. Includes cables for jump-starting cars and light-duty welding, 6-ft. self-locking throttle control cable and dual outlet. Also includes instructions on how to build a portable home generator using the power converter.
Fits all GM, Chrysler, Ford (except Ford with transistorized regulator); International; 73-81 Volkswagen with Bosch alternators; Toyota, Datsun, Mazda, Courier, LUV trucks and cars; Saab; all imports with Bosch alternators.
13–1542N— .... Each $59.95
Fits all AMC, Jeep®, Checker, 73-81 Volkswagen with Motorola alternators; farm and industrial tractors using Motorola alternators.
13–1543T— .... Each $67.95
Power Converters. Similar to A but without cables or throttle control. Splash-proof box.
Fits same as 13–1542N above.
17–9710W— .... Each $29.95
Fits same as 13–1543T above.
17–9711U— .... Each $37.95

B **15-amp 110-volt DC Power Converter.** Fits all General Motors, Chrysler, Ford (except Ford with transistorized regulator), International, 73-81 Volkswagen with Bosch Alternator; all cars and trucks with Bosch alternators; Toyota, Datsun, Courier, LUV, Mazda pickups and cars, and Saab. Provide up to 15 amps at 2000 RPM engine speed. With circuit breaker for safety. Not for use with Motorola alternators. With instructions. See Index for throttle control.
15–5159B— .... Each $19.95

Regulated and Filtered POWER CONVERTERS
Converts 110-volt household current to 12-volt DC

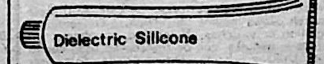

- Let you use 12-volt accessories and equipment in your home, office or motel
- Regulated to stabilize voltage for safe use with frequency-sensitive electronic equipment
- Filtered to reduce static and eliminate hum
- Solid-state integrated circuitry with heavy-duty capacitors ... with built-in overload protection

Quiet, dependable, designed for long life and continuous use. Heavy-duty steel cabinet with lighted on/off switch and 6-ft. power cord. Heavy-duty screw terminal output. Convert 115 volts AC to 13.8 volts DC no load and 12.8 volts DC full load (12.5 volts DC for 6, 10 and 20-amp models). DC ripple is less than 250 millivolts.

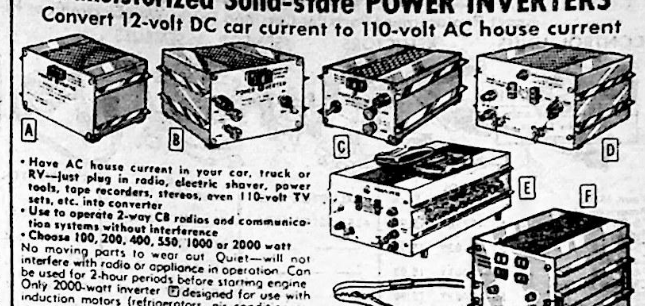

A **3-amp Converter.** 3-amp continuous output, 5-amp surge. Delivers maximum power from CB. Also for SSB transceivers, radios, tape players, stereos or to trickle charge 12-volt batteries. 3-1/4" H. x 5" W. x 5" D.
15–8055R— .... Each $24.95
4.5-amp Converter (not shown). 4.5-amp continuous output. Operates the equipment above plus all mobile or solid-state equipment (amateur and CB transceivers, etc.) requiring 4.5 amps or less. 4" high x 6-1/2" wide x 8" deep.
14–6980A— .... Each $33.95
7-amp Converter (not shown). 7-amp continuous output. Operates the equipment above plus ham mobile and marine radio transceivers & any other equipment requiring up to 7 amps. 4-1/4" high x 6-1/2" wide x 8" deep.
14–6981R— .... Each $49.95
10-amp Converter (not shown). 10-amp continuous output, 12-amp surge. Operates the equipment above plus large mobile and marine radio equipment, linear amplifiers up to 200 watts P.E.P. and several small units at once. 4-1/4" H. x 6-1/2" W. x 8" D. With 3-wire plug.
15–8058T— .... Each $69.95
B **15-amp Converter.** 15-amp continuous output. Operates the equipment above plus a complete high-power amateur radio or marine base, mobile radio station or large SSB linear amplifiers up to 400 watts P.E.P. 4-3/4" H. x 7-1/2" W. x 8" D. With 3-wire plug.
12–2888B— .... Each $99.95

DIELECTRIC SILICONE
For electronic ignitions

Insulates spark plug boots, prevents voltage loss, arcing; seals out moisture. Recommended for insulating connections, heat dissipation and suppressing radio frequency interference. Used on Ford rotors, General Motors modules and marine light sockets. Effective temperature range -40° F to +400° F. 1-1/4 oz. tube.
14-2386N— .... Each $3.99

Transistorized Solid-state POWER INVERTERS
Convert 12-volt DC car current to 110-volt AC house current

- Have AC house current in your car, truck or RV—just plug in radio, electric shaver, power tools, tape recorders, stereos, even 110-volt TV sets, etc. into converter
- Use to operate 2-way CB radios and communication systems without interference
- Choose 100, 200, 400, 550, 1000 or 2000 watt

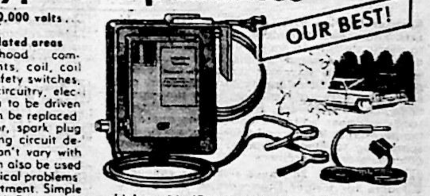

No moving parts to wear out. Quiet—will not interfere with radio or appliance in operation. Can be used for 2-hour periods before starting engine. Only 2000-watt inverter F designed for use with induction motors (refrigerators, air conditioners, compressors, heaters, toasters, fry pans, irons, coffee pots, appliances with a heating coil). **For 12-volt negative-ground systems only.** Instr. incl. **Converters can be exchanged or replaced only; cannot be returned for credit or refund.**

A **100-WATT INVERTER.** Plugs into cigarette lighter. Fits in palm of hand, stores in glove compartment—approx. 3-1/2" H x 6-1/2" W x 5-1/2" D. Input: 10 amps maximum at 13 volts. Output: 110 watts intermittent, 100 watts continuously. Powers 11" TV set, tape recorder, etc. With 26" cord, plug.
15–9078P— .... Each $59.95
B **200-WATT INVERTER.** Delivers 200 watts continuously, 220 watts intermittently. Powers small 12" black and white TVs, 1/4" drills, small home appliances, etc. With one AC outlet, power switch & overload protection. Weighs 6 lbs. Size: 3-1/2"H x 6-1/2" W x 5-1/2" D
15–9079Y— .... Each $74.95
C **400-WATT INVERTER.** 400 watts continuously, 440 watts intermittently. Works on all uses above plus larger power tools, such as 3/8" drills. With AC outlet, power switch & overload protection with automatic shutdown. 3-1/2" H x 6-1/2" W x 9" D
15–9080W— .... Each $119.95
D **550-WATT INVERTER.** Delivers 550 watts continuously, 600 watts intermittently. Polarity protection and overload pilot light. Will work on all uses above plus on large color TV, 1/2" drill, vacuum cleaner and several items at one time. 5" H x 9-1/2" W x 9" D
15–9081U— .... Each $179.95
E **1000-WATT INVERTER with REGULATED FREQUENCY.** Delivers 1000 watts continuously. Will work on all uses above but is especially good for frequency sensitive equipment. Equipped with special frequency control and will hold at 60 cycles constant. Video tape equipment, recorders and stereo are controlled at proper speed. Pilot light polarity protection and circuit breakers. 5" H x 10" W x 14" D
15–9082B— .... Each $399.95

HOW TO SELECT THE PROPER INVERTER
Each appliance has a nameplate that lists the amperage or wattage rating. Add up the wattage ratings of all appliances you plan to operate and then select an inverter with a rating equal to or greater than the total wattage rating. (Appliances with electric induction motors require approx. 3 times the nameplate wattage when starting; calculate your total wattage load rating before ordering.)

F **2000-WATT INVERTER and BACK-UP POWER SYSTEM.** High-capacity inverter has all the features of E above plus delivers 2000 watts continuously and continuity of power during power failures. Perfect for use with equipment requiring high starting power such as refrigerators, small air conditioners, microwave ovens. When used as an emergency power back-up, system automatically switches to battery power less than 1 second after normal power is interrupted. System provides up to 5 amps of power for 20 hours or 25 amps for 2 hours. Inverter requires 24 volt input which can be obtained by using two 12 volt DC batteries (not included) to operate. (Hours of operation are determined by appliance used and battery type.) 10" H x 10" W x 16" D. Shipped from factory. No C.O.D. orders. Shpg. wt. 65 lbs. **Not Mailable—See How to Order Page—Truck Shipments.**
96–7698RFE— .... Each $849.95
G **WIRING KIT.** Connects inverter to 12-volt battery for temporary or permanent hook-up. Includes correct gauge of cable, two 50-amp clamps, 4-ring terminals and instructions. Fits inverters (B), (C) and (D) only. Will not fit (E), (F). 6-ft. cable.
15–9010T— 1-Kit $9.95

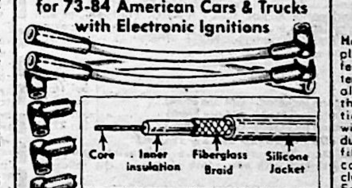

Emergency BYPASS IGNITION SYSTEM with TOTAL Bypass Capabilities

- Fuse-protected circuitry delivers 60,000 volts ... starts cold, wet or flooded engines
- A must for people who travel in isolated areas

Starts and runs engine from under hood ... completely bypasses key switch, points, coil, coil wires, condenser, ballast resistor, safety switches, magnetic pickup, timing advance circuitry, electronic ignition parts. Allows vehicle to be driven until malfunctioning component can be replaced. Uses existing distributor cap, rotor, spark plug wires and plugs. Exclusive switching circuit develops a high-energy spark that won't vary with changing engine speeds. System can also be used as a diagnostic tool for fuel or electrical problems. Small enough to fit in glove compartment. Simple 4-wire connection—no tools required. Draws only 1.5 amps from battery. With on/off switch, instructions. For all 4, 6, 8 & 12-cylinder gasoline vehicles with 12-volt systems. Includes adapter for General Motors H.E.I.
74–8057T— .... Each $89.95

Color-Coded Silicone IGNITION CABLE SETS
for 73-84 American Cars & Trucks with Electronic Ignitions

- Replace original equipment perfectly—identical in style, length, appearance and color: Chrysler-orange; Ford-blue; GM-gray
- Suppresses unwanted radio static!

Carbon-impregnated fiberglass and silicone electrical conductor is insulated for optimum heat resistance. Fiberglass braid increases durability and tensile strength. Silicone jacket designed for voltages up to 35,000, high temperatures and to resist oil, chemicals and abrasions. OEM style boots and terminals. Ford and GM sets are 8mm, Chrysler 7mm cable. For the following cars and trucks with electronic ignitions:
80-84 American Motors all 4 & 6-cyl; 74-84 Buick all; 74-84 Cadillac all; 74-84 Chevrolet & GMC all cars and trucks; 73-84 Chrysler, Dodge, Plymouth all cars and trucks; 75-84 Ford all cars and trucks; 75-77 International Harvester Scout, Traveler; 80-84 JEEP® all 4 and 6-cyl.; 75-84 Lincoln all; 75-84 Mercury all; 74-84 Oldsmobile all; 74-84 Pontiac all
When Ordering, State Year, Make, Model, Engine Cu. In. Displacement & Stk. No. On GM vehicles with 350 engine, also state fifth digit of vehicle identification number (C,L,P,R,X). On Ford vehicles with 351 engine, also state if Windsor or Cleveland engine (check engine information sticker on valve cover). On 83-84 Ford Products, also state with male or female post-type coil. Note: The stock number you ordered may carry a different identification number on your package.
55–3031W—All 4-cylinder 1-Set $9.98
55–3032U—All 6-cylinder 1-Set 13.98
55–3033B—All 8-cylinder 1-Set 17.98

Heavy-duty and Standard IGNITION COILS
for Cars & Trucks

Heavy-duty Coils. Replaces original perfectly. Delivers a hotter, smoother spark at all speeds. With thousands of additional copper wire windings with heavy-duty silicone core. Oil filled for maximum cooling. Bracket included where needed. For 12-volt systems only. See warranty at right. Custom fit for all American cars and trucks (except those with electronic ignition systems—see Index for Electronic Ignition Replacement Parts).

LIMITED (Ownership Duration) Warranty
If for any reason Heavy-duty Coil should fail while original purchaser owns vehicle, coil will be replaced free of charge (installation costs not included).

73–3950N—AMC all 1956 to electronic ign.
73–3952A—Chrysler all 1959 to electronic ign.
73–3951T—Ford all 1956 to electronic ign.
73–3950N—GM all 1955 to electronic ign.
Above Numbers .... Each $7.89
Standard Replacement Coils. Work, fit like original. Oil filled. For all 6 and 12-volt systems except electronic ignition systems (see Index for Electronic Ignition Replacement Parts). **When Ordering, State Make, Year, Model, With or Without External Resistor & Stk. No. Note: The stock number you ordered may carry a different identification number on your package.**
55–3679B—12-volt .... Each $4.98
55–3680P—6-volt .... Each 9.98

SLIP-ON CHROME-PLATED COIL COVER

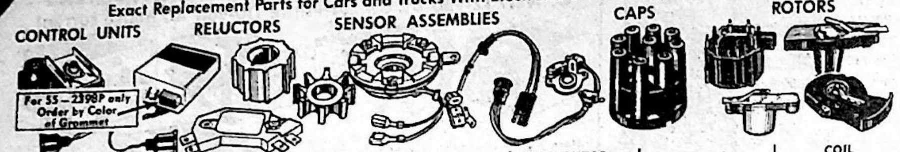

Gleaming cover slips on perfectly—no cutting or drilling. Steel. Fits any standard size coil. With mounting bracket.
12–1483T— .... Each $3.49

INDEX—SEE BACK PAGES

On Ford Products with 351 engine, State Cleveland or Windsor Engine. ●For Stock No. 55—2398P On Vehicles With Motorcraft Ignition, State Color of Grommet (black, blue, brown, green, red, white, one yellow grommet or two yellow grommets); see illustration above for location of grommet. ♦State Delco, Motor Craft or Prestolite Ignition. ■State Chrysler or Holley Equipment. ▲On V8 engines, State Distributor Number. ★Not for lean burn engines. Note: The stock number you ordered may carry a different identification number on your package.

SPARK PLUG WIRE RETAINERS

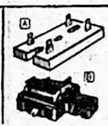

Replace original equipment perfectly. Keep spark plug wires tight and secure in distributor cap for maximum performance.

[A] For 74-82 GM V6 and V8 with electronic ignition. 73—5422T— Each $3.29

[B] For 75-82 GM 4-cyl. & straight 6-cyl. w/elec. ignition. 73—5423A— Each $3.49

BALLAST RESISTOR

For Chrysler, Dodge & Plymouth cars and trucks with electronic ignition.

[A] 4-prong. Fits 72-80. 73—2489N— Each $1.49

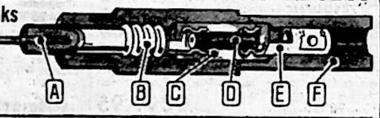

[B] 2-prong. Fits 78-84. 74—8004N— Each 98¢

Warranted for as long as you own your vehicle!

Custom-tailored RESISTOR IGNITION CABLE SETS for American Cars & Trucks

SEE BELOW FOR CABLE SETS FOR IMPORTED CARS & TRUCKS

LIMITED (OWNERSHIP DURATION) WARRANTY
Warranted for as long as you own the car or truck in which the cable sets were originally installed. If cables fail in any way, under normal operating conditions, we will replace them at no charge (labor not included).

Resistor Ignition Sets—our finest ignition cable sets. The answer to ignition radiation suppression to eliminate interference with radio, TV, radar and defense communications. Ideal for vehicles with CB radios. Improves reception and broadcasting ... eliminates static ... reduces spark plug erosion for better gas mileage, fewer tune-ups ... helps reduce emissions. Engineered to withstand high temperatures. With conductor-grip, spring-lock spark plug terminals, Hypalon jacket and these other outstanding features:

[A] **7-strand, No. 28 tinned steel wire conductor** lasts far longer than carbon string wire. Durable—vibration and constant usage can't hurt it. Sets come assembled and ready to install.

[B] **New insulation grip** provides firm, positive hold on cable insulation. Assures continuity with an electrical-mechanical connection designed for maximum voltage-carrying capacity.

[C] **Molded protective encapsulation** for extreme tension resistance plus impact strength. Impervious to oils, gasoline, chemicals. Protects wire-wound resistor and inner connections.

[D] **Wire-wound resistor over ceramic core—the heart of the Supronic cable.** Suppresses radio frequency interference (RFI) well within standards established by FCC and SAE to prevent disruption of radio and TV reception, aircraft, police and fire communications.

[E] **Interlocking barrel terminal** gives positive locking on spark plugs ... can't shake or work loose ... resists distortion.

[F] **Silicone spark plug boot** beats the heat. Resists extreme engine operating temperatures. Extra long with tight seal to keep out dirt and moisture.

Custom-tailored Resistor Ignition Cable Sets for 42-84 AMERICAN cars & trucks. See warranty above. For imported cars and trucks ... see below.

HOW TO ORDER: State Make, Year, Model, Engine Cu. In. Displacement & Stk. No. On GM vehicles with 350 engine, also state fifth digit of vehicle identification number (C,L,P,R,X). On Ford vehicles with 351 engine, also state if Windsor or Cleveland engine (check engine information sticker on valve cover). On International Harvester vehicles, also state if Prestolite ignition. NOTE: The stock number you ordered may carry a different identification number on your package.

55—2793B—For all 4-cyl. (exc. electronic ignition) 1-Set $9.98
55—2794P—For all 6-cyl. (exc. electronic ignition) 1-Set 13.49
55—2795X—For all 8-cyl. (exc. electronic ignition) 1-Set 16.98
55—2796H—For all 4-cyl. w/electronic ignition (silicone jacketed—GM are 8mm) 1-Set 15.98
55—2797T—For all 6-cyl. w/electronic ignition (silicone jacketed—GM are 8mm) 1-Set 19.98
55—2798A—For all 8-cyl. w/electronic ignition (silicone jacketed—GM are 8mm) 1-Set 27.98

RESISTOR IGNITION CABLE SETS FOR IMPORTED CARS & TRUCKS

Same as "Our Best" above, except not custom-tailored. See warranty above. ■ **Requires spark plug adapter nut, Bosch part number 1243-345-005, furnished with new spark plugs.** For the following vehicles:

70-83 Audi ■	71-82 Colt 4-cyl	56-67 Hillman	54-68 Morris	56-71 Sunbeam
54-81 Austin & Austin-Healey	55-75 Citroen	50-83 Jaguar	57-76 Peugeot	67-83 Toyota
66-82 BMW ■	65-83 Datsun	73-83 Mazda	65-79 Porsche	53-82 Triumph
54-61 Borgward	53-82 Fiat	51-76 Mercedes ■	73-83 Saab	56-83 Volkswagen ■
71-76 Capri	52-78 Ford German	54-62 Metropolitan	61-71 Simca	56-82 Volvo
		49-80 MG	70-83 Subaru	

HOW TO ORDER: State Make, Year, Model, Number of Cylinders and Stock Number. NOTE: The stock number you ordered may carry a different identification number on your package.

55—2842X—For all 4-cylinder imported cars & trucks 1-Set $9.98
55—2843N—For all 6-cylinder imported cars & trucks 1-Set 13.98
55—2844T—For all 8-cylinder imported cars & trucks 1-Set 16.98

Our BETTER! Custom-tailored SUPPRESSION CABLE SETS

For 55-84 American cars, trucks. Strongest suppression core made. Withstands repeated abuse ... delivers surges up to 35,000 volts. Inner insulation rated to withstand temperatures of +300°F. Hypalon jacket is rated to withstand engine temperatures up to +300°F ... resists oil, moisture, abrasion, chemicals. Stainless steel snap-lock terminals assure positive, solid contact to all spark plugs. Silicone spark plug boots withstand temperatures up to +500°F. ♦Ford, GM sets are silicone jacketed (GM are 8mm). Be sure to read HOW TO ORDER above (under custom-tailored sets for American cars & trucks).

4-cyl. exc. elec. ign.	55—2799R	$6.49
6-cyl. exc. elec. ign.	55—2800H	7.49
8-cyl. exc. elec. ign.	55—2801T	12.99
4-cyl. w/electronic ign.	♦55—2802A	9.99
6-cyl. w/electronic ign.	♦55—2803R	12.98
8-cyl. w/electronic ign.	♦55—2804X	16.95

Our GOOD! RESISTOR and HYPALON-INSULATED SETS

For 60-74 American cars and trucks. Replace old, frayed or cracked cables. Assure easy starting in any weather plus peak performance and economy. All sets complete with coil cables, molded spark plug boots and distributor nipples to seal out moisture. Easy to install.

Resistor-type Cables. With non-metallic conductor, insulated with hi-dielectric rubber to suppress radio interference.

73—4773P—4-cylinder set 1-Set $5.49
73—4774Y—6-cylinder set 1-Set 7.98
73—4775N—8-cylinder set 1-Set 8.98
74—6984P—Corvair with boots 1-Set 6.98

Hypalon-insulated Cables. Copper stranded wire insulated with Hypalon to resist high heat, abuse and abrasion. Durable ... retains flexibility. Stands up longer than ordinary cables.

74—5239P—4-cylinder set 1-Set $4.49
73—4771U—6-cylinder set 1-Set 5.98
73—4772B—8-cylinder set 1-Set 7.98
74—6985X—Corvair with boot 1-Set 5.98

SATISFACTION GUARANTEED or MONEY BACK

Adjustable IGNITION ADVANCE KIT for 74-85 General Motors Products with H.E.I. Ignition

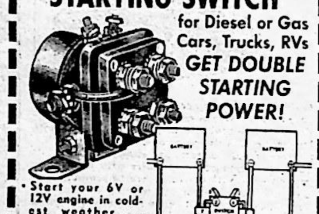

- Lets you custom tailor centrifugal and vacuum advance rates for maximum performance

Easy to install. Complete with adjustable vacuum advance unit, 3 sets of advance springs, allen wrench and instructions.
73—6576N— Each $12.98

DUAL VOLTAGE STARTING SWITCH

for Diesel or Gas Cars, Trucks, RVs

GET DOUBLE STARTING POWER!

- Start your 6V or 12V engine in coldest weather ... without battery run down
- Ideal for Volkswagen diesels and all hard-to-start diesel cars and trucks

Fire up your cold engine fast ... every time! Convert two 6-volt batteries to powerful 12-volt system, or two 12-volt batteries to mighty 24-volt system. Doubles ignition voltage for sure-fire starting ... without affecting regular low-voltage system. **Series-parallel switch draws on two batteries until engine starts, then automatically switches back to single-battery voltage for continuing operation.** Can't damage or burn out lights or accessories. No modifications to alternator, generator, regulator or starter. Both batteries charge as you drive. Easy to install. Instructions included. Battery and battery cables not included. (See Index for battery cables, trays, hold-downs.)

74—1396B—6 to 12-volt
74—1397P—12 to 24-volt Each $21.95

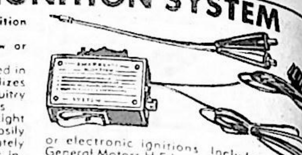

REACTIVE DISCHARGE IGNITION SYSTEM

- Combines the advantages of capacitive and inductive electronic ignitions
- Assures faster starts, better performance ... effective to −40°F
- Built-in anti-theft switch

Unique dual circuit allows energy to be stored in ignition coil while main circuit stores high-level energy. System produces up to 35,000 volts with a standard ignition coil, more with a high-performance coil. Anti-theft switch allows instant conversion to conventional ignition or switches off ignition completely. Installs in minutes, can be transferred from car to car. Utilizes existing contact points, distributor and ignition coil. Functions with all electronic tachometers. Includes mounting clips, hardware, instructions. For 12-volt neg. ground 4, 6 & 8-cyl. cars and trucks with standard ignitions. Not for electronic ignitions.
81—1664U— Each $49.95

EMERGENCY IGNITION SYSTEM

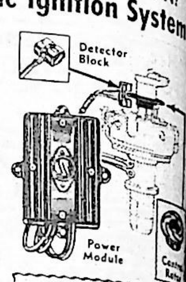

- Bypasses vehicle's points or electronic ignition ... starts cold, wet or flooded engines
- Starts vehicle when battery voltage is low or when coil or spark plug wires need replacing

Delivers 60,000 volts to spark plugs when used in conjunction with vehicle's standard coil. Utilizes existing rotor, distributor cap and wires. Circuitry minimizes timing advance or retard conditions ... improves efficiency of poorly tuned engines. Light indicates proper polarity. Installs quickly, easily ... stores in glove compartment. Approximately 3-1/4" long, 2-1/2" wide, 1" high. Includes instructions. For all 12-volt vehicles with standard or electronic ignitions. Includes adapter for General Motors H.E.I.
74—8058A— Each $29.95

Drive for years and NEVER WORRY ABOUT THE IGNITION!

HIGH-PERFORMANCE Electronic Ignition System for American & Imported Cars, Light Trucks

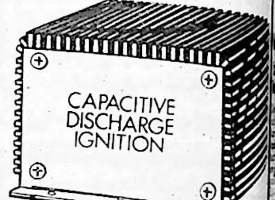

- At last! A HIGH-PERFORMANCE, MAINTENANCE-FREE Ignition!
- Produces up to 50,000 volts (depending on coil—see Index)
- Virtually eliminates tune-ups and tune-up costs
- Keeps engine at peak efficiency for better gas mileage
- Assures faster, easier starts in ALL temperature extremes (operating temperature is −65°F to +350°F)
- Improves power ... assures smoother running
- Ends points problems forever ... saves on replacement costs
- No more timing adjustments—just set timing once and forget it for the life of your vehicle's engine
- Timing is accurate to within an incredible 1/10 of a degree

Replace any contact points ignition! Or upgrade your existing factory-installed electronic ignition on your imported car. This high-performance, breakerless ignition keeps your engine always in tune. **How it works.** Detector Block (with LED and phototransistor) mounts in distributor in place of points (or magnetic pick-up). LED generates an infrared beam that passes through the openings in the Control Rotor (when spark is needed) and hits the phototransistor. This signals the solid-state Power Module to switch the coil, creating the spark. (Light will penetrate oil, ice, water, dirt, etc. to assure maximum performance under all conditions.) There's no wear, so timing can be set and unchanged for life of engine. Plus, there's consistent, high firing (up to 15,000 RPM) to dramatically increase spark plug life. Dwell is pre-set at factory for best performance at both high and low speeds. Easy, fool-proof installation—only 4 wires to hook up. Withstands salt water damage, road vibration. For all 4, 6, 8-cyl. engines exc. American vehicles with factory electronic ignition. Works with all tachometers. Certified by California Air Resources Board (CARB). With hardware, instructions. **When Ordering, State Make, Year, Model, No. of Cylinders, Engine Size, Make of Distributor (Bosch, General Motors, Marelli, etc.) & Stk. No.** Shpd. from factory. No C.O.D. orders.
78—4348WF— Each $69.95

LIMITED (OWNERSHIP DURATION) WARRANTY
Ignition System is warranted for the life of the vehicle while original purchaser owns vehicle on which system is originally installed. Free replacement or full refund of purchase price will be made (excluding labor costs) if Ignition System fails during that time.

Get back the engine performance you are wasting!

Rectifier-type CAPACITIVE DISCHARGE IGNITION SYSTEM

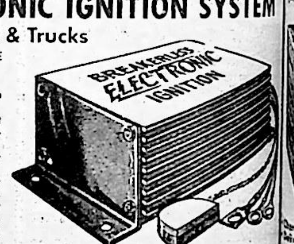

- Spark plugs and points last longer
- Increase power, performance ... improve starting in temperatures from −40° to +200°F
- Prevents fouling and plug/point erosion
- Totally enclosed moisture-resistant case

The Capacitive Discharge Ignition Unit has solid-state circuitry for cooler running and longer life. CDI voltage is 45,000 volts at the spark plug! This extra-hot spark assures cleaner, more complete fuel combustion to develop maximum power from every drop of gas! Your engine runs better than engines equipped with conventional ignition systems. Decreases the possibility of plug fouling. Spark plugs will operate at peak efficiency for up to 50,000 miles. Works with electronic tachometers ... will not interfere with your vehicle's radio or tape player.
Fits all American and imported cars, trucks, pick-up campers, motor homes, other RVs and boats with 12-volt negative ground ignition systems ... including vehicles with O.E.M. factory electronic ignition systems. Not for use with conversion electronic ignitions. Simple 5-wire hookup. Disconnects in seconds to return your vehicle's standard ignition system. Mounts anywhere under the hood. No need to time motor or installation. Instructions included.
73—4959N Each $44.95

Put an end to contact point problems forever!

Breakerless ELECTRONIC IGNITION SYSTEM for American & Imported Cars & Trucks

PERMANENT and MAINTENANCE-FREE IGNITION SYSTEM helps you:
- Save money by keeping your engine in top tune
- Start fast every time ... even in sub-zero temperatures
- Cut tune-up costs ... you'll never have to adjust dwell angle, buy another set of points or condenser or file or check contact points again!
- Improve power and performance ... get higher top speeds, smoother idling

Convert your old-fashioned point-and-condenser ignition system to this electronic breakerless system and put contact-point headaches and expenses behind you forever. It's the same performance-proven type system on late model cars. Check these outstanding features:
- Up-to-the-minute electronic technology featuring integrated circuits
- Special photo-electric sensor replaces contact points in the distributor to provide correct timing at all engine speeds
- Photo-electric sensor adjusts its light beam to vehicle's distributor cam ... prevents misfires caused by false signals from cam lobe corners
- Coil switching circuit uses less current than other systems to reduce heat and extend life of system's components
- Faster rise time of spark approaches time of expensive capacitive discharge ignitions
- Protective circuitry prevents damage to unit if coil wire becomes loose while vehicle is running

This system does electrically what out-of-date distributor cam lobe, rubbing block and contact points do mechanically—except this system distributes spark to your spark plugs more precisely, more reliably and more efficiently than your problem-ridden mechanical system. Your plugs will fire true and last longer, because of consistent current and spark. Hot spark prevents plug fouling even during long idling periods. Timing extremely accurate up to 12,000 RPM.

Maintenance-free and trouble-free
There is no point "float," because there are no breaker points. There is no mechanical function to cause wear or require adjustment. System unaffected by normal under-hood heat, dirt, moisture and vibration.

Easy do-it-yourself installation
Complete—nothing else to buy! Fits all 4, 6 (exc. V6) and 8-cylinder engines with 12-volt negative ground electrical system ... including American cars, trucks, vans, 4WDs, stationary engines and inboard engines on boats. (For imported cars and trucks, see below.) **Note:** Not for use with dual point distributors, ignition systems with "hot" "super-output" coil, or vehicles with original equipment electronic ignition system. Instructions included. **State Make, Year, Model and Engine Size.**
73—5471P Each $34.95

For 55-80 VOLKSWAGEN

For 55-80 air and water-cooled Volkswagen with 12-volt negative-ground systems and original equipment distributor.
73—6022P— Each $34.95

For 55-80 air-cooled Volkswagens that have been converted to a high-performance centrifugal advance-type distributor (except Bosch centrifugal advance distributor), with 12-volt negative ground systems.
73—6021B— Each $34.95

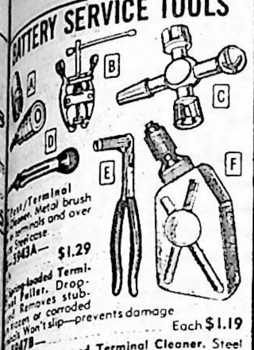

For IMPORTED CARS AND TRUCKS

Chevrolet 74-76 LUV, series 3 & 4 (exc. w/dual points)
Datsun 66-77 All 4 & 6 cyl. (exc. w/dual points)
Dodge 71-80 Challenger, Colt, D-50 pickup (exc 1973 1600cc)
Ford 72-78 Courier (exc w/dual points)
Honda 73-79 Civic, Civic CVCC; 76-78 Accord
Mazda 65-70 B1500 pickup
Mazda (Cont'd.) 68-72 1200; 70-71 618, 1800; 70-72 616 (w/std trans.); 1971 808; 71-76 B1600 pickup; 74-77 808; 76-78 B1800 pickup
Mazda (Cont'd) 1977 Mizer GLC; 1978 Mizer GLC (Calif. only)
Plymouth 71-80 Arrow, Champ, Sapporo, Pickup
Subaru 68-75 1100, 1300, 1400 series

73—6023Y— 1-Kit $34.95

All imported cars and trucks not listed above, with 12-volt negative-ground systems (except those with original equipment electronic ignition).
73—5471P— Each $34.95

BATTERY SERVICE TOOLS

[A] Post/Terminal Cleaner. Metal brush cleans terminals and over... Steel case. ...3943A— $1.29

[B] Spring-loaded Terminal Puller. Drop-forged. Removes stubborn frozen or corroded terminals. Won't slip—prevents damage. ...3947B— Each $1.19

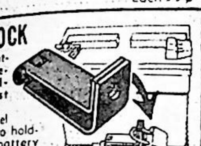

[C] Heavy-duty Post and Terminal Cleaner. Steel blades clean corrosion, grease. ...5644N— Each $2.49

[D] Deluxe Hydrometer. Shows battery condition at a glance. 3-color float: recharge, fair and good. ...proof bulb and tip. ...7379W— Each 99¢

[E] Terminal Spreader. For fast, easy installation of terminals. Ridged to ream out terminal clamps. ...covered handles. ...6150B— Each $4.49

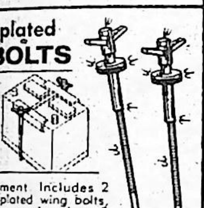

[F] Filler, Unbreakable. Automatic valve prevents overfilling. Polyethylene container lets you see level. 1 pint. ...7265X— Each 99¢

BATTERY LOCK

Protects any battery with base-mounted hold-downs against theft. Heavy-gauge steel ... bolts easily to hold-down, secures battery with padlock (not included). For 78-85 American Motors, Ford and General Motors cars (exc. 78-81 Firebird) and all imported cars with base-mounted hold-downs.
...8124A— Each $2.39

Chrome-plated WING BOLTS for Battery Hold-downs

Dress-up kit adds a performance touch to engine compartment. Includes 2 chrome-plated wing bolts, 2 stainless steel washers, 2 rubber grommets. For Chrysler, Ford and General Motors Products, except with base-mount battery hold-downs.
...9506N— 1-Kit $8.98

Automatic 10-amp BATTERY CHARGER for Maintenance-free Batteries (Also Charges Conventional Batteries)

- Charges all 6 and 12-volt batteries
- Delivers full 14.87 volts to FULLY CHARGE maintenance-free batteries ... charges conventional batteries at normal 12.75 volts
- Electronic solid-state circuitry automatically monitors battery condition

Charge is regulated automatically and tapers as battery stores up energy ... shuts off when battery is fully charged. Conventional/maintenance-free ... Silicon-controlled, full-wave rectifier delivers 10 amps DC. Circuit breakers protect input and output ... won't short or overcharge. Built-in ammeter. Copper-wound, steel laminated transformer. Steel case is 10-1/2" wide x 8" high x 5" ... Includes grounded 6-ft. cord; 6-ft. color coded cables with alligator clips and instructions. UL listed.
54—9079P— Each $47.99

No More "Dead Batteries" for as Long as You Own Your Car!

PROVEN RESULTS IN MILLIONS OF MILES OF "ON-THE-ROAD" USE

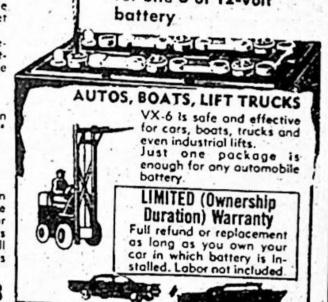

Biggest Selling Battery Additive in America!

- All-weather starting
- Stronger lights
- Increased battery output
- Used by over a million motorists
- One package is sufficient for one 6 or 12-volt battery

No matter how new or old your battery may be, it is producing sulphation constantly; even when not in use. This sulphation (lead sulphate) is a regular chemical reaction that starts as a soft, spongy, greenish-white substance, then hardens and chokes your battery to death. You often see it even on the outside of the battery around cable connections.
Sulphation is the number one cause of battery failure, and is the reason that 7 out of 10 batteries are thrown away "dead"—while they are still full of life, but checked for a free-flow outlet of energy.
VX-6 dissolves sulphation in old batteries, prevents it from forming in both **old and new batteries.** That's why even brand new batteries have added life when protected with VX-6.

Any Weather—Anywhere!
VX-6 in your battery assures improved starting in any weather ... in any temperature from 40° below to 160° above F.

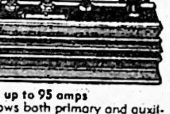

MAKE THIS FANTASTIC "PROVE IT" TEST YOURSELF
Add VX-6 to your battery, then with your ignition switched off, leave your bright lights on until the battery is so run down it won't start the engine or light the lights. Wait 3 minutes with headlights off, then switch on ignition and the battery will start your car with a surge of power that it has regained during that brief 3-minute interval.
17—1205N— Each $3.98

AUTOS, BOATS, LIFT TRUCKS
VX-6 is safe and effective for cars, boats, trucks and even industrial lifts. Just one package is enough for any automobile battery.

LIMITED (Ownership Duration) Warranty
Full refund or replacement as long as you own your car in which battery is installed. Labor not included.

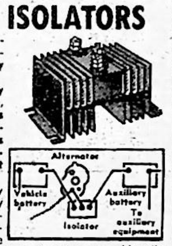

Emergency Start BATTERY ISOLATOR for All Vehicles with Auxiliary Battery Systems

- Lets you start engine from auxiliary battery if primary battery is too weak
- Heavy-duty—handles up to 95 amps

Solid-state isolator allows both primary and auxiliary battery to charge while driving, but protects primary battery from accessory draw. Manually operated crossover switch. Aluminum fins, epoxy heat sink. Installs easily—instructions included.
14—9521P— Each $24.95

Heavy-duty • Automatic BATTERY ISOLATORS

- Lets you run accessories in vehicle without draining battery
- Automatically charges auxiliary battery as you drive, never overcharges
- Self-contained electrical system converts alternator or generator to safe, efficient charger

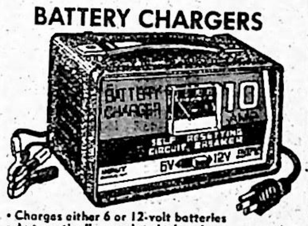

For 2 and 3-battery set-ups. Automatically isolate both the auxiliary and vehicle batteries so the discharge of one does not drain the other's power. Handle alternators up to 160 amps. Rectifiers and heat sink allow maximum heat dissipation without mechanical attachment. Eliminates shorting problems. Solid state. For all 6 to 36-volt, negative-ground electrical systems. UL listed. Choice of 2-battery systems (1 vehicle battery & 1 auxiliary) and 3-battery systems (1 vehicle battery & 2 auxiliaries).
Isolators for all vehicles except Volkswagen vans with alternators and vehicles with Motorola 35, 37, 55 and 62-amp alternators that do **NOT** have red terminal plate (used on some 73-80 AMC JEEP® and IHC vehicles).

	2-battery System Stk. No.	Each	3-battery System Stk. No.	Each
70-amp	14—1883B	$10.95	15—3105X	$37.95
95 amp	14—1882U	17.95		
120 amp	15—3469X	43.95	14—1873T	64.95
160 amp	14—1871X	71.95	14—1874A	109.95

Isolator for all vehicles including Volkswagen vans and vehicles with Motorola alternators. 85 amp. 2-battery system only. For 3-battery systems, use 2 isolators. Instructions included.
12—2904X— Each $11.95

SATISFACTION GUARANTEED or MONEY BACK

BATTERY CHARGERS

- Charges either 6 or 12-volt batteries
- Automatically regulated charging—surges then tapers down
- Self-resetting circuit breakers protect against power overload

Charges most batteries in 4-5 hours. Built-in voltage selector switch and ammeter. Two full-wave selenium rectifiers reduce wear. Rubber-insulated 6-ft. power cord, 6-ft. color-coded charging cables with copper-coated clamps. UL listed. 110-120 volt, 60 cycle AC.

10-amp Charger. Surges to 12 amps. Size: 10" x 6-1/2" x 7-1/2". 54—0885R— Each $37.99
6-amp Charger. Surges to 7-1/2 amps. Size: 8" x 5-1/2" x 6-1/2". 54—0372Y— Each $29.99
4-amp Charger. Surges to 5 amps. Size: 8" x 5-1/2" x 6-1/2". 54—0371P— Each $22.99
2-amp Charger (no ammeter). Surges to 2-1/2 amps. For charging, boosting, trickle charging cars, cycles, RVs. 6" x 4-1/2" x 4". 54—1255U— Each $18.99
Chargers with 12-volt DC output only. UL listed. **2-amp charger for cycles & snowmobiles.** Steel case. Size: 3-1/2" x 5" x 3". 54—1134A— Each $17.99
1-amp Charger. Similar to above. 54—0888T— Each $15.99

BATTERY CABLE and ACCESSORIES

[A] **Battery Cable.** Replace worn or broken cables for sure all-weather starts and dependable service. 100% copper conductor with duraflex poly vinyl insulation for high dielectric strength and extreme flexibility even in cold temperatures. Available in **50-ft. rolls**—enough to service up to 8 vehicles.

Color	6-gauge Cable Stk. No.	1-Roll	4-gauge Cable Stk. No.	1-Roll
Red	74—7242B	$19.95	74—7240W	$25.95
Black	74—7243P	19.95	74—7241U	25.95

[B] **Cable Lugs.** Copper with 3/8" center hole. Box of 25.
74—7244Y—6-gauge 1-Box $8.49
74—7245N—4-gauge 1-Box 10.98

[C] & [D] **Battery Terminals.** 2-bolt clamp to cable. For positive or negative ground. Acid resistant.
[C] 16—0225N—Top mount .... Each 79¢
[D] 13—1597R—Side mount .... Each 79¢

[E] **Battery Bolts & Nuts.** Acid resistant. Sizes: 1-1/4" x 5/16". Box of 100.
46—0059B— 1-Box $8.99

[F] **Jump Start Terminal Adapters (shown).** Leave permanently installed. Corrosion-resistant lead jump start terminal adapters with 7/8" hex heads. Total length 1-5/8".
14—2893P— .... 1-Pair 99¢

Battery Terminal Adapters (not shown). Converts side post batteries to top terminal applications. Includes one each positive and negative terminals.
14—2391N— .... 1-Pair 89¢

End worries about being stranded! Carry an

Emergency IGNITION SYSTEM for American & Imported Cars, Trucks, Cycles, Farm Equipment

- Starts and runs your vehicle if points, condenser, coil or electronic ignition fail or burn out ... even if you have a damp engine, fouled spark plugs or low-spark battery
- Small enough to fit in your glove compartment until needed
- A must for campers and off-roaders who travel in isolated areas

A complete ignition system in one compact unit! Delivers 60,000 volts to start and run your engine under any weather conditions—as well or better than a regular ignition system. Helps eliminate expensive towing bills and the inconvenience of lost time due to breakdowns in your vehicle's ignition system. Needs no outside electrical or mechanical triggering to operate. Exclusive switching circuit develops a constant high-energy spark that won't vary with changing engine speeds, even at high RPM ... keeps you going even for long distances. No pinging or misfires under loads. Simple 4-wire connection—no tools required. Draws only 1.5 amps from battery. Includes 10-ft. cord, on-off switch and instructions. For all 4, 6, 8 and 12-cylinder gas engines: American and imported cars and trucks, motor homes, buses, motorcycles, farm equipment, boats & industrial engines with 12-volt system.
74—7824X— Each $64.98

Battery Handler & Carrier Straps

[A] **Heavy-duty Battery Handler.** For all batteries. Attaches quickly even in tight spots. Use as needed or leave on permanently. Plastic-coated grips, handle.
88—8877Y— Each $3.49

[B] **Battery Carrier Strap.** For side-terminal or top-post batteries.
14—7954N— Each $1.99

Battery Carrier Strap (not shown). For top-post batteries. Strong plastic with metal brackets.
04—0239P— Each 89¢

2-wheel BATTERY CHARGER/FAST CHARGER/BOOSTERS

- Provides highest amp output for rapid recharging of dead or weak batteries
- Booster jump-starts vehicle in minutes
- For all 6 and 12-volt batteries, including maintenance-free and deep-cycle

Timer has hold position with manual shut-off for lower charging rate. Thermal breaker and automatic circuit breaker protect against short circuits and overloads. Fan-cooled transformer is copper wound and steel laminated for long service.
Heavy-duty, color-coded, 6-ft. long welding cables with 300-amp copper alligator clamps (flexible to −40°F). 6-ft. long, 3-wire power cord. All-steel case is 18" high, 11-3/4" wide, 10" deep ... has plated steel handle and 6" diam. wide-traction wheels. Chart on front panel gives charging information. 110-120V, 60Hz AC. UL listed. Shipped from factory. No C.O.D. orders.

30/60/300-amp Charger/Fast Charger/Booster (shown). 2-hour timer with hold positions for 30-amp charging and 60-amp fast charging. Gives 300-amp boost.
97—2425AF— Each $189.99

10/40/200-amp Charger/Fast Charger/Booster. 2-1/2-hour timer with hold positions for 10-amp charging and 40-amp fast charging. Gives 200-amp boost.
97—2426RF— Each $149.99

CHARGING SYSTEM & BATTERY ANALYZER

- Easy to use ... as accurate as a voltmeter

LED/graphic readout with voltage scale indicates condition of charging system and battery. Accurate to within 1%. Can be used from your vehicle's cigarette lighter or directly at battery.
12—4145N— Each $19.95

BATTERY CABLES & STRAPS

Replace corroded cables to avoid starting problems ... or upgrade original equipment cable with a heavier gauge cable to assure maximum current flow. Cables have 100% copper conductors and 100% lead terminals.

BATTERY HOLD-DOWNS and TRAYS

- For all vehicles
- Provides secure mounting—protects against bumps

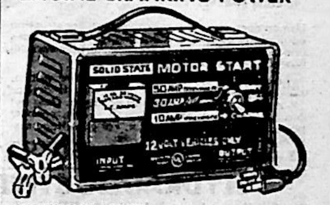

[A]-[D] **Battery Hold-downs.** Order by battery group number or compare your existing hold-down to illustrations [A] thru [D] to determine proper replacement. Plastic or vinyl-coated to resist corrosion, will not crack or peel. Hardware included.

[A] For group 24, 12-volt batteries. Adjustable. 74—7204B— Each $1.99
[B] For base-mount 22NF & 29NF batteries. 74—7202W— Each $1.39
[C] Side and end mounting brackets for 22C, 24C and 22F batteries. 74—7203U— Each $1.39
[D] Cross-bar hold-down. 74—7201Y— Each $2.69

Deluxe Cross-bar hold down (not shown). Same as above except made of reinforced fiberglass. 100% non-corrosive, fire resistant.
74—7668Y— Each $3.69

[E] **Battery Trays.** Strong, 16-gauge steel, vinyl-coated to resist rust. Vented pockets allow harmful excess water to drain away.
Small Tray. Size: 1-1/4" x 7-5/8" x 11". Fits these battery group sizes: 1, 2, 2L, 2N, 17, 17HF, 17L, 22F, 22FC, 22NF, 23, 24C, 24F, 24T, 42, 54, 55, 56, 72, 74.
74—7257P— Each $5.49
Large Tray. Size: 1-1/4" x 8" x 12-1/4". Fits these battery group sizes: 4, 27, 27C, 27F, 29HR, 29NF, 31, 53, 60, 77.
74—7258Y— Each $5.98

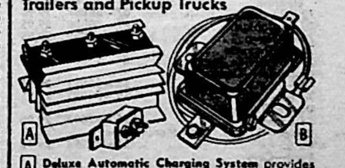

10-AMP BATTERY CHARGER + 30-AMP FAST-BOOST CHARGE + 50-AMP ENGINE CRANKING POWER

- DELUXE 3-IN-1 UNIT!
- Dual automatic-reset circuit breakers to protect against overload
- Large 2-1/4" x 1-1/4" charging ammeter
- Built-in amp selector switch
- Copper-wound steel-laminated transformer
- Rubber-insulated grounded 6-ft. power cord

CHARGER. Gives full charge in as little as 4 to 6 hours. Automatically regulated, surges then tapers to protect battery against over-charge.
BOOSTER. Delivers a boost charge of 30 amps to quickly build battery power and efficiency.
STARTER. Produces 50 amps of engine cranking power to supplement battery in starting vehicle.
Ventilated 9-1/2" x 7-1/2" x 6-1/2" steel case with aluminum faceplate, enamel finish. Solid state. Extra fuse-type breaker for added protection. 6-ft. color-coded charging cable with alligator clamps. Carrying handle. UL listed. For 110-120 volts, 6 cycle AC.
54—1178Y— Each $54.99

DUAL BATTERY CHARGING SYSTEMS for RVs, Vans, Campers, Boats, Trailers and Pickup Trucks

[A] **Deluxe Automatic Charging System** provides total protection for all dual battery systems! While on the road, this heavy-duty unit permits auxiliary battery to recharge and prevents main battery from discharging into weakened auxiliary. When at camp, automatic isolator assures that current is drawn from auxiliary battery only. Keeps both batteries performing at their peaks. **Heavy-duty diodes handle up to 95-amp loads.** Solid state—no parts or switches to wear out. Protective epoxy coating for safe marine use. Designed for use with 6 to 36-volt negative-ground battery systems. 50-amp circuit breaker. With mounting hardware & instructions.
14—1867N— Each $21.95

Standard System. Same as [A] above except automatic control switch is rated at 70 amps with 40-amp circuit breaker.
14—1865R— Each $16.95

[B] **Economy System.** Same as above exc. rated at 20 amps. Not solid state. For 12-volt neg. ground sys. only. No circuit breaker.
14—7116A— Each $9.98

Floor-mount or Surface-mount Auxiliary BATTERY BOXES for All Vans and RVs

• Safe, convenient way to carry a second battery

Floor-mount Box (shown) mounts flush in floor under carpeting... permits hidden, under-vehicle wiring. Large 14" x 8" x 10" box keeps second battery out of the way yet close at hand... holds most top-post batteries. Bolt-down restraining bar prevents battery from shifting and posts from shorting. Durable printed steel finish with protective rubber grommet in battery cable port. With template for easy installation.

15—5667U— .... Each **$27.95**

Vented Surface-mount Box (not shown). Tongue and groove-sealed OEM box holds 12-volt battery and is made of durable high-density polyethylene. Meets requirements of R.V.I. Association. Top and bottom vented with louvered wall vent included. 2-ft. long 1-3/4" diam. hose included for venting. Size: 12" x 9-1/2" x 14-1/2". Screws securely to floor with hardware included. Complete with instructions.

15—6138N— .... Each **$10.95**

10-amp DEEP CYCLE BATTERY CHARGER with Timer

• Designed for 6 or 12-volt batteries with a slow discharge rate (RVs, trolling motors, etc.)
• Recharges most car batteries in 3 to 5 hours

Timer can be set for up to 12 hours of charging, shuts off automatically when battery is fully charged. "Hold" position lets you charge over 12 hours. Solid-state circuitry reduces charging rate to 4 amps as battery reaches full charge. Silicon-controlled, full-wave rectifier. Copper-wound transformer. Automatic circuit breaker. Rubber-insulated 6-ft. power cord, 6-ft. color-coded charging cables with copper-coated clamps. Steel housing is 10-1/2" wide, 8" high, 5" deep. UL listed.

54—1408R— .... Each **$49.99**

DUAL BATTERY SWITCH for all Vehicles with Dual Battery Systems

• Lets you use power from one battery only, leaving the other battery fresh to start vehicle

Heavy-duty brass/copper... 750-amp rating. Mounts on firewall or dash (not on batteries). For all terminal-type batteries.

73—5202R— .... Each **$19.95**

Jump start cars easily, safely!

SAFETY JUMPER CABLES

• Works through cigarette lighter sockets... no hoods to open, no greasy hands
• Eliminates reverse polarity hookups, danger of battery explosion and acid burns

Much easier to use than conventional jumper cables! Just plug both ends of cable into cigarette lighter sockets and charge battery following instructions. Built-in test light on control unit indicates good connection between vehicles. Regulator controls amperage to protect fused circuitry. Won't affect battery, alternator or electronic ignition. Includes high-impact plastic control unit (with instructions on bottom) and 16-ft. booster cables. Stores easily in glove compartment.

12—2511P— .... Each **$14.99**

Heavy-duty POWER CUT-OFF BATTERY DISCONNECT SWITCHES

Now you can completely disconnect all electrical power simply by lifting a blade to...
• Avoid shorts and fires while you're working on electrical systems
• Discourage theft and unauthorized use of vehicle or machinery
• Provide emergency disconnect of batteries
• Prevent battery drain by cutting off all power to other switches

Use on cars, trucks, farm equipment, construction equipment or boats. Commercial-quality brass and copper components for long, reliable service. Blade switches tested to 750-amp draw.

[A] **In-Line Disconnect.** Mounts on fire wall or dashboard where easy disconnect is desired... or may be hidden as a theft deterrent. Does not attach to battery. Run cable to switch, connect battery cable to terminal post. For all voltage systems and terminal-type batteries.

73—3839P— .... Each **$18.95**

[B] **Side Terminal Mount.** Disconnect attaches directly to positive or negative terminal of General Motors type 12-volt batteries with side battery connectors.

73—3837U— .... Each **$18.95**

[C] **Top Terminal Mount.** Attaches to positive or negative battery post terminal. Easily installed... remove battery cable & attach switch directly on post. For all voltage systems.

73—3444R— .... Each **$18.95**

HYDRAULIC STEERING STABILIZERS

for American & Imported Cars, Trucks, Vans, RVs and Jeep® Vehicles

• Completely eliminates road shock from steering wheel caused by rough roads, ruts, rocks, chuck holes and other road hazards that deflect front wheels.
• Makes vehicles handle with same stability as power steering. No dangerous sudden turning out of front wheels.
• Eliminates shimmy, stabilizes steering mechanism. Doubles steering system parts life.
• Reduces tire wear.
• More comfort for driver. No need to fight steering wheel. Drive with safety.
• With all mounting hardware and instructions.

When Ordering, State Make, Year, Model, No. of Cylinders, With or Without Power Steering and Stock Number. On Jeep® and Trucks, State 2 or 4WD. On Ford trucks state w/ or w/o front sway bar. On Chevy, GMC trucks state w/ or w/o front coil springs. Note: The stock number you ordered may carry a different identification number on your package.

Improved Type IDLER ARM for AMERICAN CARS

• Give the feeling of power steering
• Stop toe-in change caused by loose idler arm—prevents excessive wear due to worn, loose idler arms

Replace worn idler arms with these new friction-loaded idler arms for safe, sure, smooth operation. Replace original perfectly. Manufactured of finest materials. Bushings included where necessary. Not all Idler Arms are the same as illustrated. Some do not require grease fittings. w/PS=with Power Steering w/o PS=without Power Steering MC=Metal Control

BATTERY & CHARGING SYSTEM ANALYZERS

• Spots battery, alternator and regulator trouble

Plugs into cigarette lighter—no mess, no wires to hook up. For all 12-volt negative-ground systems. With instructions.

[A] **Deluxe Analyzer.** Six color-coded LED lights. Doubles as a map or auxiliary accessory light.

81—1088W— .... Each $7.98

[B] **Standard Analyzer.** 3 color-coded LED lights.

81—1052B— .... Each $4.98

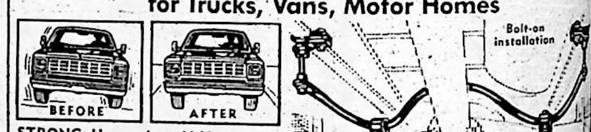

SAFETY JUMPER CABLES with Charging/Battery Monitor

• Plugs into cigarette lighter sockets... lets you jump start car without raising the hood
• Tests battery and charging system with the accuracy of a voltmeter
• Easy-to-read LED display

Easier and safer than conventional cables eliminates the danger of sparking, battery explosions or acid burns. In addition, a unique LED system displays the following: 1. Shows if a good electrical connection has been made between the two cars; 2. Shows if the charging car is providing maximum charge to the disabled car; 3. Shows when disabled car battery is ready for starting; 4. Monitors the entire charging process. 15-amp fuse protects each car's electrical system. Includes high-impact plastic housing and 17-ft. heavy-duty cord.

12—3479R— .... Each **$24.99**

Our Best ANTI-SWAY BARS for Trucks, Vans, Motor Homes

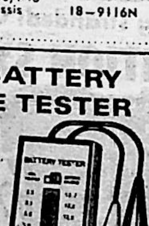

STRONG: Heavy-duty 4140 steel bar... heavy-duty mounting hardware

Designed for increased vehicle stability and improved handling! These extra-heavy-duty bars reduce body sway and roll, prevent plowing on turns, prevent loss of traction, eliminate wheel hop and fishtailing when towing. Bars are made of super-tough 4140 alloy spring steel, heat treated for maximum strength. All bars big 1-1/8" diam. except those for [illegible] which have 7/8" diam. Includes bar, heavy-duty mounting clamps, hardware, instructions.

12-volt BATTERY VOLTAGE TESTER

• Quick, direct LED readings
• 2 voltage testers in one... measures both total battery output and individual cell output
• Tests regular and maintenance-free batteries

Accurately indicates if battery should be recharged or replaced. Includes 14" long color-coded leads with insulated battery clamps, instructions.

15—7825W— .... Each **$32.98**

Adjustable END LINK KIT for ANTI-SWAY BARS

• Includes everything needed to maximize performance of one anti-sway bar
• Lets you fine tune your anti-sway bar to meet changing road and driving conditions

By using different combinations of hardware in this kit, you can set your anti-sway bar for stiff competition use or soft street use and anything in between. Even finer adjustment can be made by turning the nuts on the end links. Kit includes: 8 rubber and 8 polyurethane bushings, 2 short and 2 long end links, assorted washers and springs, instructions for easy installation. For anti-sway bars w/end links only.

85—9431W— .... 1-Kit $14.[illegible]

LOAD CONTROL HELPER SPRINGS

for Cars and Station Wagons with Rear Leaf Springs

These single leaf helper springs help eliminate rear end sag and bottoming caused by overloading and weak rear leaf springs. Helps end forward pitch, brake-dive and dangerous sway. Leveling action prevents body roll-over on curves. Improves traction, stabilizes car for a smooth, safe, comfortable ride at all times . . . even when carrying heavy loads or pulling a trailer! Increases life of tires, springs and shock absorbers. Restores springs to original arc. Provides added clearance for large tires and custom wheels. Complete with instructions and brackets for easy installation. **Fits all American cars with rear leaf springs.**

[A] ADJUSTABLE LOAD CONTROL HELPER SPRINGS. 3 easy adjustments for light, medium or heavy loads, up to 1500 lbs. extra capacity. Equalize sagging rear leaf springs. Tempered spring steel. Easy clamp-on installation, no need to remove U-bolts or springs. Fits all 1-3/4", 2" or 2-1/2" wide rear leaf springs on American cars & station wagons.
87—5964Y— 1-Pair **$21.98**

1000-lb. Extra-capacity Adjustable Helper Spring for lighter loads. Tempered spring steel.
87—5962B— 1-Pair **$19.98**

500-lb. Extra-capacity Adjustable Helper Springs for compact and sub-compact cars. Engineered specifically for smaller vehicles, but may be used on all cars with rear leaf springs. Tempered spring steel.
85—6491T— 1-Set **$17.98**

[B] EXTRA HEAVY DUTY FULL-LENGTH HELPER SPRINGS. Increase load carrying capacity up to 2000 lbs. Distribute and equalize the load to both front and rear of your car's rear leaf springs. Easy to install. Fit up to 2-1/2" wide rear leaf springs on American cars and station wagons.
87—8441U— 1-Pair **$24.98**

BALL JOINT PRESS

Removes and installs ball joints on all press-type "A" arms ON THE CAR! Removes & installs universal joints too. Includes instructions, extractor and installation adapters for all Buick, Camaro, Cadillac, Chevelle, Chevy II, Chrysler Imperial, Firebird, Oldsmobile and Toyota cars.
14—3624Y— Each **$89.95**

MacPHERSON STRUT SPRING COMPRESSOR TOOL with Safety Hooks

Tool consists of 2 specially constructed legs, each with a double hook on the bottom and a single hook with 2 safety hooks on the top to help keep spring centered. With hex nuts, bearing washers, instructions. Heavy-duty steel. For all MacPherson struts except those on GM "X", "J" or "A"-body cars.
14—7426U— 1-Set **$39.95**

Universal MacPherson Strut Compression Bumper

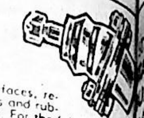

- **Fits ALL struts and strut cartridges**
- **Stops bottoming out to prevent strut damage and a harsh, jarring ride**

Shock-absorbing bumper slips easily over piston rod when you change struts.
85—9437T— Each **$2.98**

DO-IT-YOURSELF & SAVE

IMPROVED TYPE—UPPER and LOWER BALL-JOINT SUSPENSION ASSEMBLIES

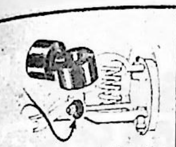

Improves steering—eliminates noise, erratic steering, unstable front-end suspension caused by old style ball joints. Give positive front-end adjustment—simplify wheel balancing, eliminate front end wobble, improve ride. Pre-mounted self-centering bolts install easily. Engineered to give longer trouble-free service than original equipment. Have specially designed bearings for better lubrication to all wear surfaces, reduces friction and wear to a minimum. Gaskets and rubber seats keep grease in, dirt and moisture out. For the following cars: R = Right, L = Left, ●w/disc brakes, ■w/o disc brakes, ♦Ball joint w/control arm assy, †Threaded-fit.

Automatic Load-adjusting COIL SPRINGS for 67-83 American Cars

- **Increases rate of support as load increases ... adds up to 500 lbs. extra load capacity**
- **Gives your vehicle the same smooth ride whether loaded or unloaded**

Interval between windings increases from top to bottom to give springs a variable rate of resistance. Reduces body sag, side sway, bottoming and excessive tire wear . . . helps prolong shock life. Load is supported on the two coil spring seats. High-grade tempered spring steel. Easy to install.

Air-controlled COIL SPRING ADJUSTERS for 64-85 American Cars

- **Control rear end drag and bottoming**
- **1,000-lb. added load capacity**
- **Restore ride height ... improve handling and braking ... stop sway, bounce and dip**
- **Help extend shock life, reduce body roll**
- **Easy to install ... no special tools required**

Strong polyurethane cylinders (specifically designed for YOUR vehicle) fit inside existing rear coil springs to give vertical lift. Inflate with service station air hose. Air pressure can be varied depending on load and desired suspension stiffness. Easy installation. Just lift chassis and insert deflated cylinder into coil spring. No need to remove coil springs from car! With air hose kit for easy fill, inflation valves, hardware, instructions. Custom fit these cars with rear coils springs:

Heavy-duty SPRING COMPRESSOR SET for MacPherson Struts

- **Quality made for extra strength, extra safety**

2" wide x 1/4" thick heat-treated and hardened plate steel hooks grip strut spring (or any other spring) securely and won't slip. Allow safe, easy installation and removal. Heavy-duty 41-40 steel bolts have tensile strength rating of 138,500 psi. Set of 2 compressors. For all MacPherson struts except on GM "X", "J" and "A"-body cars.
14—9232U— 1-Set **$49.95**

Ring-type Coil Spring Stabilizer

- **Restores car height**
- **Reduces front end dive, prevents bottoming**

Nylon-reinforced natural rubber—follows the natural curve of spring. Easy to install. With instructions.
85—2750W— 1-Set of 2 **$5.99**

PITMAN ARM PULLERS

Heat-treated yoke of drop-forged high-grade alloy steel

For compact and sub-compact cars. 1-1/8" jaw opening; 1-3/4" jaw capacity
14—4469X— Each **$16.95**

For intermediate and full-size cars. 1 5/16" jaw opening; 2-1/4" jaw capacity
15—8928X— Each **$18.95**

SHOCK ABSORBERS for Imported Cars & Trucks

LOW AS $6.98 Each

Telescopic-type Shock Absorbers. Outperform and outlast original equipment shocks. Scientifically calibrated and designed to fit your vehicle perfectly. Restore riding comfort, stop swaying, pitching, bottoming, help eliminate wheel shimmy and bounce. Help prevent costly tire and suspension wear. Rust-resistant steel with hardened steel piston rod and long-wearing seals to keep out dirt, dust. All-weather fluid assures better performance in all temperatures.

Lever-action-type Shock Absorbers. New! Same type and style as original equipment. Replace originals perfectly.

BE SURE TO CHECK ALL LISTINGS FOR YOUR YEAR AND MODEL

Extra-heavy-duty HELPER SPRINGS for Cars & Trucks

1500 lbs. Extra Capacity. Fit Rear of All Cars, Station Wagons, 1/2 and 3/4-Ton Pickups. Prevent heavy loads from breaking or weakening your springs. Keep car or truck level, prevent rear end sag under heavy loads, for a safer, more stable and comfortable ride. Heavy duty 1/2" steel coils with top coil rubber coated for quiet operation. Heavy cast aluminum base with exclusive two point non slip U-bolt attachment. 100% universal. Easy to install.

85—7861W— 1-Pair $29.98

Front & Rear SHOCK ABSORBER COIL HELPER SPRINGS

- **Rear springs have calibrated pitch to soften ride while increasing load-carrying capacity from 750 to 1500 lbs.**
- **Front springs improve handling, produce smoother rides**

Designed for standard 1" diameter piston shocks ... increase load-carrying capacity and improve overall stability. Not for use with MacPherson struts.

Rear Springs. Help reduce rear sag and side-sway ... prevent bottoming. Compensate for rear-end loads ... help restore loaded vehicle to original height.

	1-Pair
85—6344U—1500 lbs. added load cap	$19.98
85—6345A—1300 lbs. added load cap (vinyl-coated for longer life)	19.98
85—6343W—750 lbs. added load cap	14.98

Front Springs. Reduce front-end dive while braking, reduce lean on curves, improve cornering. Not calibrated pitch.

85—9890T— 1-Pair $15.98

BEST Radial-tuned SHOCK ABSORBERS

Warranted for as Long as You Own Your Car!

- **Provide sure control and handling of radial tires at high speeds ... assure a smooth, comfortable ride at lower speeds**
- **Oversized oil reservoir dissipates heat fast ... shock lasts longer and you enjoy more consistent control**

Our Best! Radial tires are great. But when you're traveling under 40 MPH over bad roads, they can "ride hard"—turning small bumps into big, uncomfortable bounces. These shocks are designed to solve that problem while providing the best control possible. At lower speeds, the 9-stage coil-spring valving absorbs most of the initial jolt before it reaches you and your passengers. At higher speeds, it provides a degree of control you've never experienced before with radial tires. Extra-large oil reservoir means shock runs cooler, lasts longer and does its job better. Big 1-3/16" diam. piston. All-weather fluid provides consistent control at all temperatures. O-ring piston seal reduces leakage between piston and cylinder bore ... assures best damping action under the worst conditions. **See warranty below.** Note: For cars with front struts—see Index.

FOR THE FOLLOWING CARS (ONLY)

55—3582Y—Front
55—3583W—Rear .... Each $12.98

WITH ALL THESE QUALITY FEATURES FOR TOP PERFORMANCE!

HUGE 1/2" DIAM. PISTON ROD. For long, dependable service

OVERSIZE OIL RESERVOIR. Helps dissipate heat fast for less fade, better performance

HYDRAULIC REBOUND STOP (where required). Prevents over-extension for longer shock life.

MULTI-LIP SEAL. Keeps dirt out and oil in ... adds to shock life.

9-STAGE VALVING. Lessens low-speed road impact, increases high-speed control.

INDEPENDENT REPLENISHING VALVE. Reduces shock lag and increases handling response.

LIMITED (OWNERSHIP-DURATION) WARRANTY

An exchange of shock absorbers will be made (not including installation costs) if Best Radial-tuned Shock Absorbers wear out while the original purchaser owns the vehicle on which shocks were originally installed. This warranty applies only to vehicles used for personal use. Warranty does not apply to vehicles used for commercial purposes.

Radial-tuned SHOCK ABSORBERS

Provide sure control on vehicles with radial tires. Heavy-duty 1-3/16" piston. All-weather fluid. For all cars listed above. **When Ordering, State Make, Year, Model & Stk. No. Note: The stock number you ordered may carry a different identification no. on your pkg. For cars w/front struts—see Index.**

55—2787U—Front .... Each $9.98
55—2788B—Rear .... Each 9.98

SHOCK ABSORBER TOOLS

[A] **4-pc. Front Shock Tool Set.** A must to remove/install front shock absorbers on most American cars. Get into small, deeply recessed areas. Includes 9/16" hex socket and 2 special oval piston-end sockets with handle. Fits piston rods. Prevents piston from turning while loosening hex nut. For GM "X" & "J" bodies, order socket below.

15—8112Y— 1-Set $4.99

[B] **3/8" drive Oval Piston End Socket.** For rear shocks on GM "X" & "J" body cars.

14—8212X— 1-Set $2.19

COIL SPRING COMPRESSOR

- **Fits inside any coil with an internally mounted shock and overall outside diam. up to 5-5/8"**
- **For use on springs made of up to 3/4" diam. spring steel**

Smooth bearing action and heat-treated steel construction assure quick, safe compression. Use with impact or hand tools—no clamps required. Not for MacPherson struts.

14—7788X— Each $39.99

Adjustable HELPER SPRINGS for Cars, Station Wagons & Mini Trucks with Rear Leaf Springs

- **Mount out of the way on top of stock leaf springs ... no loss of ground clearance**
- **Add 1000 or 1500 lbs. extra load capacity**
- **Adjustable—let you custom tailor your ride and carrying capacity**
- **Eliminate rear-end sag and bottoming**
- **Increase tire, spring & shock absorber life**

Leveling action reduces body roll and sway. Tempered spring steel. Install easily without special tools. Includes 2 springs, hardware and instructions. Fit rear leaf springs up to 2-1/2" wide.

1000-lb. extra load capacity. 85—7635U— 1 Pair $16.98

1500-lb. extra load capacity 85—7634X— 1 Pair $18.98

Colored Polyurethane SHOCK ABSORBER BOOTS

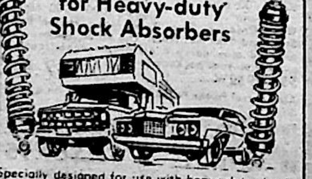

- **Gas and oil resistant ... colors won't fade**

Super-heavy-duty boots protect shock absorber shafts while adding good looks. Complete with wire ties. Fit all aftermarket open-shaft shock absorbers (available for standard and extended lengths). Note: Will not fit shocks with outer dust tubes.

Color	Std. Lgth.	Each	Extd. Lgth.	Each

OVERLOAD SPRINGS for Heavy-duty Shock Absorbers

Specially designed for use with heavy-duty shock absorbers. Improve cornering and overall stability ... increase road clearance ... eliminate bottoming. Unique calibrated design (1) softens the ride and (2) increases load carrying capacity by more than 1250 lbs. Constructed of tough, oil-tempered spring steel with enamel painted finish. Easy to install over all rear heavy-duty shock absorbers, up to and including 1-3/16" diameter piston size. Will NOT fit standard-type 1" shock absorbers.

85—6252R— 1-Pair $16.98

2-way COIL SPRING ADJUSTERS & STABILIZERS for All Cars, Station Wagons, Light Trucks with Coil Springs

Lower or Raise Coil Springs up to 2-1/4"—Quickly, Easily

- Boost sagging coil springs, restore car level
- Lower Rear End for that low slung look
- Raise Front End to improve rear wheel traction
- Lower both Front 'n Rear to a low, low look
- Stabilizes spring action for a truly smoother and a much more comfortable ride. One set required for each spring. Set of 2

87—7218X— 1-Set of 2 $3.49

Handling Performance COIL SPRINGS for American & Imported Cars

- For front and rear ... lower car body 1-1/2"
- **Reduce body sway while cornering**

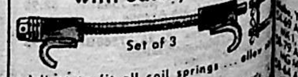

Stiffer than stock coils. Car's body height remains constant even during hard cornering and sharp turns. Help resist suspension bounce. Provides increased roll resistance. Heavy-gauge heat-tempered cold roll steel.

◆ Strut height of 12-3/4"—13-1/4"
■ Strut height of 13-3/4"
▲ For 80-81 models, upper spring hat must be replaced.

COIL SPRING COMPRESSORS with Safety U-Bolts

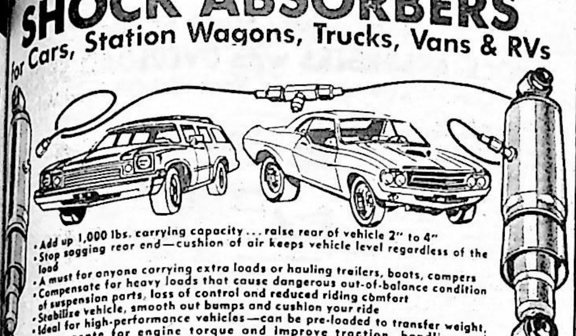

- **Adjust to fit all coil springs ... allow installation or removal**

Maintain curvature to seat springs properly. Each 5/8" alloy bolts assure no bulge or slip. Each 5/8" hardened Grade bolt is heat-treated, hardened, and tested to 138,500 lbs and tensile-strength tested to ... heat-treated, hardened and tensile tested to withstand 9000 lbs.

12—2927Y— 1-Set $39.9

Ride on a cushion of air! Heavy-duty AIR-ADJUSTABLE SHOCK ABSORBERS for Cars, Station Wagons, Trucks, Vans & RVs

- **Add up 1,000 lbs. carrying capacity ... raise rear of vehicle 2" to 4"**
- **Stop sagging rear end—cushion of air keeps vehicle level regardless of the load**
- **A must for anyone carrying extra loads or hauling trailers, boats, campers**
- **Compensate for heavy loads that cause dangerous out-of-balance condition of suspension parts, loss of control and reduced riding comfort**
- **Stabilize vehicle, smooth out bumps and cushion your ride**
- **Ideal for high-performance vehicles—can be pre-loaded to transfer weight, compensate for engine torque and improve traction, handling and acceleration**

Built with these exclusive features:
90 psi maximum air pressure.
Enclosed air diaphragm. Minimizes exposure to weather and road debris, shields air bag from contact with other under-car parts.
Floating outer can. Allows basic shock absorber to function normally and diaphragm won't twist or rupture even without air in system.
Tough, kink-resistant air hose and dual O-ring fittings. Guard against air leakage even during extreme temperatures.
Heavy-duty 1-3/16" piston.
Easy to install, fit in original shock position—no alteration to mounting brackets. Easy-fill air inlet.

LIMITED (25,000 MILE) WARRANTY

An exchange of shock absorbers will be made (not including installation costs) if heavy duty air adjustable shock absorbers wear out within warranty period. This warranty applies to **Heavy-duty Air-adjustable Shocks** only. This warranty applies only to vehicles for personal use. Warranty does not apply to vehicles used for commercial purposes.

Adjust quickly, easily at service station. Complete with hardware, instructions. S.W.=station wagon H.D.=heavy-duty

85—2273N—For REAR only 1-Pair $59.98

Regular-duty Air Shock Absorbers for 64-80 cars and trucks listed above. Similar to shocks above, but with 90 psi max air pressure, up to 750-lb. carrying capacity. See ordering info. above.

85—2298B—For REAR only 1-Pair $49.98

Lever Shock Conversion Kits for Austin-Healey, MG & Triumph

- **Convert expensive lever shocks to modern telescopic shocks**
- **Dramatically improves handling and control**
- **Designed for all types of driving—city, highway or sport**

Save on replacement costs while improving performance! Top-quality mounting components are professionally designed to meet the individual suspension requirements of each vehicle application for strong, dependable service. Heavy-duty shocks provide superior dampening and proper fit. Each kit contains all necessary materials to convert 2 shocks. Easy to install with detailed instructions.

Make, Year, Model	Stk. No.	1-Kit
Austin-Healey 100-4, 100-6 & 3000 MK I, II & III (front)	85—8012N	$139.98
Austin-Healey Sprite & MG Midget (front)	85—8013T	109.98
Austin-Healey Sprite & MG Midget w/1/4 elliptic spring (rear)	85—8014A	79.98
Austin-Healey Sprite & MG Midget w/1/2 elliptic spring (rear)	85—8015Y	79.98
55-62 MGA (front)	85—8016W	$129.98

Extra Hi-lift COIL SPRINGS for Competition, Street, or Strip

- **For front or rear—raises car 3" to 4"**
- **Solves tire clearance problems when oversize tires are used**
- **Provides positive increased weight transfer for competition on street or strip**
- **Improves traction for faster acceleration**
- **Easy to Install—replace original perfectly**

Heavy-gauge high tempered steel springs are 1-pc. construction. Maintain lift, will not sag.

MacPHERSON STRUT REPLACEMENT CARTRIDGES

Now you can repair leaking struts without replacing the entire assembly. Save money on labor and parts by replacing the cartridge only—the most common cause of faulty struts. Brand new cartridge (not rebuilt) replaces original perfectly—no alterations to make. Get back that even, smooth ride. Help eliminate bottoming, side-sway and excessive tire wear. Get better control on curves and stop dangerous front wheel shimmy. **Check these constructional features:**

- **Piston rod**—Hardened, tempered chromed piston rod for longer wear and durability. Sintered iron rod guide with coated bearing for long life.
- **Cylinder**—drawn seamless tube with mirror finish
- **Seal**—Dual-lip seal totally shuts out dust
- **Piston unit**—damping force properly matches each type of vehicle; stabilized driving is always guaranteed
- **All-weather Fluid**—contains wear resistant additive for long life and comfortable ride in all climates

Limited (3 yr./30,000 mile) Warranty

An exchange of MacPherson Strut Replacement Cartridges will be made (not including installation costs) if MacPherson Strut Replacement Cartridges wear out within the warranty period.

NOTE: All strut Replacement Cartridges are for front use except where stated for rear.

MacPHERSON Sealed STRUT Assemblies for American Cars

Ready-to-install replacement assemblies restore like-new ride and handling:

- **Eliminate sway on curves, "nose-dives" on stops, bouncing after bumps**
- **End shimmy & shudder, regain steering control**
- **Prevent unnecessary tire wear**
- **Restore smooth ride**

Piston rod—hardened, tempered, chrome-plated for long wear. **Piston rod guide**—Teflon® coated for longer life. **Heavy-duty valving**—"O" ring piston seal for efficient fluid control. **All-weather fluid**—contains additives to resist wear, gives a comfortable ride in all temperatures. Compatible with radial tires. For front wheel use only. **Note for General Motors and Chrysler Corp. Cars:** spring compressor needed to remove old strut assembly; see Index.

Electro AIR CONTROL for Air Shock Absorbers

- **Lets you adjust air shocks as you drive**
- **Helps maintain proper load levels**
- **Improves suspension, cornering and steering**
- **Maintains correct bumper height, exhaust system clearance and headlight aim**

Control unit mounts under dash within easy reach ... has inflate and deflate buttons with precision gauge to assure accurate pressure readings. Heavy-duty compressor with 12-volt DC motor has 150 psi capability ... mounts under the hood in any position. Kit includes compressor, touch-button dash control, tubing, wiring, universal bracket and all hardware.

88—8566X— 1-Kit $69.95

Vacuum Type (not shown). Same as above but works off vehicle's vacuum system.

14—8954U— 1-Kit $67.95

FRONT SHOCK ABSORBER STUD BREAKER

Easiest, fastest way to remove front shocks! No need for nut splitters, no hammering, no skinned knuckles. Just screw breaker tightly to top stud (even those that are corroded or rusted) and rock breaker back and forth a few times to break stud. Takes less than a minute. Heat-treated steel.

[A] **Handle.** Approx. 14-3/4" long. Hardened threads. Order size breaker needed below.
12—3436X— .... Each $4.49

[B] **Breakers.** Approx. 2-1/2" long.
12—3457N—3/8"-16 .... Each $4.49
12—3458T—3/8"-24 .... Each 4.49
12—3459A—10mm x 1.5 .... Each 4.49

AIR ADJUSTABLE SHOCKS for General Motors Cars with Self-leveling Systems

- **Adapts to original leveling system ... restores handling and control**
- **150 psi maximum air pressure—adds up to 1,000 lbs. carrying capacity**

Heavy-duty 1-3/16" piston, premium all-weather fluid. Hydraulic rebound stop prevents excessive wear if shock is fully extended. Enclosed air diaphragm minimizes harmful exposure to weather road debris. Floating outer can protects diaphragm from twisting, rupturing. Kink-resistant air hose and dual O-ring fittings guard against air leakage. Each shock is pressure tested at factory. Kit includes 2 rear air shocks, hose, fittings and hardware. For the following cars with electrically-operated leveling control systems except those indicated by ◆, which have vacuum-operated leveling control systems.

LIMITED (25,000 MILE) WARRANTY

An exchange of shock absorbers will be made (not including installation costs) if heavy-duty air adjustable shock absorbers wear out within warranty period. This warranty applies only to vehicles for personal use. Warranty does not apply to vehicles used for commercial purposes.

Complete Line of Quality Shock Absorbers to Improve Your Car's Handling and Ride

Gas-charged SHOCKS, STRUT CARTRIDGES & ASSEMBLIES for 60-84 American & Imported Cars

Combine highly pressurized nitrogen gas and all-temperature fluid to give you:
- **faster and better response to changing road conditions**
- **superior handling, stability and control without loss of highway driving comfort**
- **increased resistance to bottoming even over the worst roads**

Engineered and valved to meet the individual driving requirements of YOUR car! Shocks, strut cartridges and assemblies improve the handling of your car because of a principle called hyperbaric damping. As the piston is depressed highly pressurized nitrogen gas provides increased resistance against the fluid. This reduces the formation of air pockets in the fluid that can cause fade or faulty damping. Compressed gas then accelerates piston return during extension cycle. Damping action is instantly self-adjusting, resulting in a faster response to changing road conditions. Dual (gas/fluid) action provides variable resistance for safer handling and for reduced bottoming on severe impact. Replace originals perfectly—no alterations required. Quality built to assure exact tolerances, alignment and internal dimensions. Check these other outstanding design and construction features:
- **Multi-viscosity hydraulic fluid.** Provides more consistent performance at temperature extremes ... contains moly-disulfide additives for extended service life
- **Coil-dampened valving.** Custom tuned to the individual requirements of your car for greater control, stability ... withstands repeated stress
- **Sintered iron piston.** Bearing surface traps shock fluid for reduced wear, smoother operation
- **"O"-ring piston seal.** Provides uniform performance and control during operating extremes
- **Piston rod.** Cold-drawn high-carbon steel is hardened and tempered for strength and double-ground and plated for reduced wear, longer life
- **Low-friction rod bearing.** Bronze-coated steel impregnated with Teflon® for smooth operation
- **Spring-loaded piston rod seal.** Sealing lips (to keep oil in and dirt out) are packed with permanent wear and friction-reducing lubricant
- **Cylinder.** Drawn seamless tube with mirror finish.

LIMITED (Ownership Duration) WARRANTY
An exchange of shocks, cartridges or assemblies will be made (not including installation costs) if our Gas Shocks, Strut Cartridges or Assemblies wear out while the original purchaser owns the vehicle on which units were originally installed. This warranty applies only to vehicles for personal use. Warranty does not apply to vehicles used for commercial purposes.

85—9271W—Rear—one assembly Each **44.95**

SHOCK MOUNT REPAIR KIT

Don't replace the entire shock absorber when all you need is a new shock absorber mount! Kit includes washers, bushing, stud & nut ... installs quickly, easily. For all eye-mounted shocks with 1/2" mounting hole on vehicle
85—9135T— 1-Kit **$2.49**

Heavy-duty Front or Rear SHOCK ABSORBERS with OVERLOAD SPRINGS for Cars, ½ & ¾-ton Trucks, Vans and Off-road Vehicles

- **Provide up to 750 lbs. of extra load carrying capacity with normal car comfort ... keep car or truck level with or without heavy loads**
- **Stop sag, bottoming, side sway ... especially recommended for cars with air conditioning**
- **Stabilize front or rear ... provide safer, more comfortable ride under all road and load conditions**
- **Increase spring life ... assist weak, sagging springs ... improve steering, cornering, control**
- **Easy to install in place of original**

Calibrated for your vehicle. Variable rate, tempered coil helper springs automatically adjust to load conditions: light spring action for light loads ... heavy spring action for heavy loads. Springs are pre-set, will not sag after long use. With rubber sleeve for quiet operation ... no rattles, squeaks.

Only **$34.98** Pair

Limited (30,000 Mile) Warranty
An exchange of shock absorbers will be made (not including installation costs) if shock absorbers with overload springs wear out within the warranty period. This warranty applies only to vehicles for personal use. Warranty does not apply to vehicle used for commercial purposes.

NOTE: The stock number you ordered may carry a different identification number on your package.
55—1819W—Rear 1-Pair **$34.98**

Add Up to 2,000 lbs. Extra Load Capacity Extra Heavy Duty Quick Change HELPER SPRINGS for Cars and Trucks

FOR LEAF SPRINGS or FOR COIL SPRINGS

Choice of 750 lb., 1,000 lb., 1,500 lb. or 2,000 lb. extra capacity springs. Add extra strength, buoyancy, and safety—spring action increases with load. Keep car level, prevent rear end sag when carrying heavy loads. Get a safer, more comfortable ride, longer spring life. Oil tempered spring steel coils with heavy gauge steel no slip base. Rubber coated top coil for quiet operation. Easily installed or removed.
For all cars and light trucks with coil or leaf springs without air suspension or independent rear suspension.
1-Pair
85—2781A—1,000-lb. capacity **$14.88**
87—7151P—1,500-lb. capacity **17.88**
87—7511N—2,000-lb. capacity **22.88**
For all compact or sub-compact cars & mini trucks without independent rear suspension.
85—6163Y—750-lb. capacity 1-Pair **$15.95**

FRONT END SUPER LIFT KIT for Ford & General Motors Cars

- **Adds up to 5" lift to your front end over stock specifications**
- **Gives maximum weight transfer to rear of car for faster acceleration**

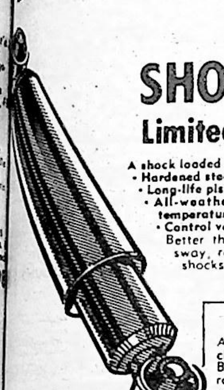

Achieve the weight distribution necessary for best E.T. in drags or sprints. Engineered to give you unbelievable weight transfer and handling under acceleration. Maintains longer lift under acceleration before bottoming out. Replaces present coil springs with heavy duty high lift coils. Eliminates need for coil spring spacers to obtain lift. Kit also includes high lift ball joint spacers made of heat treated aluminum with 3/8" aircraft quality bolts. For the following models:
87—9267B—63-69 Buick Special
87—9267B—67-69 Camaro
87—9267B—64-67 Chevelle
87—9266U—55-71 Chev.

O.E.R. SHOCK ABSORBERS

- **Equal in performance to original equipment**

Fit all the passenger cars listed above. For truck shocks—see Index. **When Ordering, State Make, Year, Model, If Station Wagon & Stk. No. Note: The stock number you ordered may carry a different identification number on your package.**
55—3746R—FRONT
55—3747X—REAR Each **$4.99**

BEST HEAVY-DUTY SHOCK ABSORBERS WARRANTED FOR AS LONG AS YOU OWN YOUR CAR!

Heavy-duty shocks with these EXTRA features for EXTRA performance:
- **Oversized 1-3/16" diameter hardened steel piston for greater resistance to vibration and sway, greater stability and ride control**
- **20% more fluid capacity—more than 40% greater compression and recoil area than O.E.R. 1" Shocks**
- **Chrome-plated piston rod provides greater resistance to road impacts—shock performs better, lasts longer**
- **Premium all-weather fluid for smoother, more stable and more consistent control in all temperatures**
- **Mirror-smooth cylinder walls for reduced friction and wear ... corrosion-resistant steel body**

Built with extra-large capacity to meet the most demanding driving requirements! Heavy-duty shock resists all the forces that can force your wheels off the road—during high-speed turnpike driving or over bumpy, curving, uneven roads. You'll enjoy better, steadier, safer driving at all times ... without sway, rolling, pitching. Hydraulic rebound stop (with cushion of oil) prevents topping out, guards against shock and vehicle damage. Long-wearing piston rod seal keeps fluid in, dirt out. Coil spring compression, independent replenishing valve. For the vehicles listed below.

LIMITED (OWNERSHIP DURATION) WARRANTY
An exchange of shock absorbers will be made (not including installation costs) if HEAVY DUTY SHOCK ABSORBERS wear out while the original purchaser owns vehicle on which shocks were originally installed. This warranty applies only to vehicles used for personal use. Warranty does not apply to vehicles used for commercial purposes.

Adjustable • Chrome-plated Heavy-duty PERFORMANCE HANDLING PACKAGE for Vans, Pickups & Mini Pickups

• Helps prevent wheel hop • Adds more traction and power to rear wheels... helps equalize traction to both rear wheels to stop rear break away • Helps eliminate roll and sway in heavy cross winds and while you're cornering

Kit includes 2 chromed-plated, electrically welded heavy steel traction bars with multiple adjustment, slip-proof hole positions for universal use on vehicles with rear leaf springs; one chrome-plated, extra-heavy-duty steel anti-sway bar; extra-large solid molded rubber bumpers; hardware; instructions. Easy bolt-on installation—no drilling.

Kit for Vans. For all Chevrolet, Dodge, Ford, GMC and Plymouth vans
18—5674X— 1-Kit **$64.95**

Kit for Pickups. For all Chevrolet, Dodge, Ford and GMC 1/2-ton pickup trucks including 4WD (except mini pickups) with leaf spring rear suspension.
18—5675U— 1-Kit **$69.95**

Kit for Mini Pickups. For Courier, Datsun, LUV, Mazda and Toyota (exc. 1980).
85—4390R— 1-Kit **$59.95**

Mini TRACTION BARS — ALL CHROMED

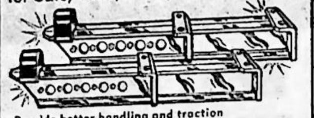

Fits All Cars with Leaf Springs

• Stops wheel hop, spring wrap-up • Improves weight transfer and traction

Chrome-plated high quality steel for maximum strength. Allows full tire clearance, even with slicks. Easy bolt-on installation. Complete with hardware. 12" long × 4-1/4" wide.
85—2243B— 1-Pair **$16.98**

Triple-chrome-plated TRACTION BARS for Cars, Vans, Pickups, Mini-pickups

• Provide better handling and traction • Eliminate spin and wheel hop • Add more power and traction to rear wheels... to help equalize traction to both rear wheels to stop rear breakaway

Space-age construction—heavy-gauge steel bars, electro triple-chrome-plated & beautifully finished with black accent screws. With instructions.

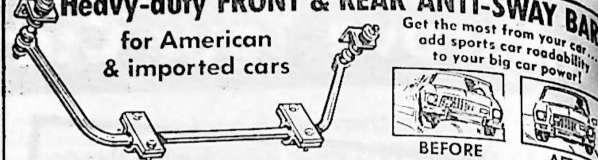

For all full-size pickups and vans (including 4WD) with rear leaf springs.
18—6341B— 1-Pair **$49.95**

For all cars and mini-pickups with rear leaf springs.
18—6342P— 1-Pair **$39.95**

Anti-sway Bar. Prevents body roll and sway. Attaches to traction bars above only.
18—6354N— Each **$19.95**

Heavy-duty FRONT & REAR ANTI-SWAY BARS for American & imported cars

Get the most from your car... add sports car roadability to your big car power!

BEFORE AFTER

• STOP body roll and sway even in crosswinds • STOP wheel hop and spin • STOP tire squeal and uneven tire wear • STOP understeering... give your car a neutral or balanced feel on the road • STOP rear breakaway—equalize traction to both rear wheels

These stabilizer anti-sway bars are same type attachment as those installed on Ferrari, Corvette and Jaguar. They're scientifically designed and tested to give your car sensational handling. Reduces shock to both springs. Cushion vibration. Improve only on curves—does not interfere with ride on straightaway. Improve stability of loaded and unloaded station wagons. Easy bolt-on installation—no welding or special tools needed. With instructions.

FOR AMERICAN CARS

85—7689A— 1-Pair $24.95

Extra-heavy-duty. 1-1/2" × 2-1/2" thick. 1-Pr.
85—8179N—Yellow powder coated $27.95
85—7690R—Chrome plated 29.95

Raise rear end of car 5½" to 10" Chrome or Cadmium-plated SUPER REAR-END LIFT KITS

• Increase rear tire clearance—positively solve tire clearance problems when over-size tires are used • Increase weight transfer for better traction—faster acceleration on street or strip! • Give your car that custom "dragstrip" look • Easy to install, adjustable to the height you want from 5-1/2" to 10" • Choice of chrome or cadmium plating adds to custom appearance, resists rust and corrosion

Kit consists of 4 heavy-duty 3/8" steel shackles with special hardened 6-point aircraft bolts, nuts and instructions for easy installation. Fits all cars with rear leaf spring hanging lower (exc. 55-57 Chevrolet—see below)

87—7383R—Cadmium plated 1-Kit $11.98
87—7423T—Chrome plated 1-Kit $19.98

Kit for 55-57 Chevrolet cars.
87—7388Y—Cadmium plated 1-Kit $12.98
85—7793A—Chrome plated 1-Kit $19.98

Front Lower Control Arm STRIKE-OUT BUMPER for Ford & General Motors

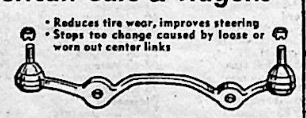

• Heavy-duty, oil-resistant neoprene rubber—better than original equipment

[A] For 73-78 full-size Ford, 73-78 Lincoln Continental and Mark, 73-78 full-size Mercury and 72-79 Thunderbird, Torino & LTD II
85—6591P— Each **$2.98**

[B] For 71-83 full-size General Motors, 70-83 Firebird, 71-83 Camaro, 73-79 LeMans, Omega, Phoenix, Ventura and 73-83 Apollo, Chevelle, Cutlass, Grand Prix, Monte Carlo, Nova, Regal & Skylark.
85—7187W— Each **$2.98**

CENTER LINKS for American Cars & Wagons

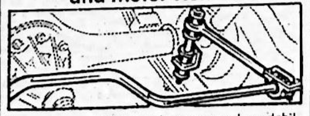

• Reduces tire wear, improves steering • Stops toe changes caused by loose or worn out center links

Replace worn center links for safe, sure, smooth operation and an improved ride. New links eliminate erratic steering and front-end wobble, assure positive front-end alignment. When Ordering, State Make, Year, Model of Car or Station Wagon, With or Without Power Steering and Stk. No. For 64-67 General Motors Vehicles, State Center Is 7/8" Diam. or 13/16" Diam. Rod. ♦Also State Month of Manufacture (found on door on driver's side). Note: The stock number you ordered may carry a different identification number on your package.

w/PS=with power steering; w/o PS=without power steering

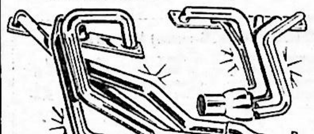

Heavy-duty ANTI-SWAY BARS for Campers, Trucks, Vans and Motor Homes

Get maximum stability and sway control, roadability and handling. Maintains safe, level ride at all speeds and on curves. Helps prevent:
• body roll and sway... wheel hop spin • tire squeal and wear—understeering • rear breakaway—helps equalize traction • loss of control in high winds or turbulence

Easy clamp-on installation—no special tools required. Full frame and chassis strength is retained. Includes bars, clamps, parts, instructions.

Chrome-plated HEADERS for American Cars & Trucks with V8 Engine

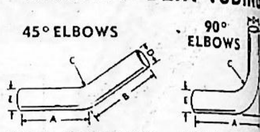

• Replaces restrictive cast iron exhaust manifold • Improves overall engine efficiency without sacrificing fuel economy • Reduces back pressure for more horsepower, better performance, increased low-end torque

Mandrel-bent 18-gauge steel tubing, 3/8" heavy steel flanges. Includes steel hook-up cones, gaskets, bolts and instructions.

Numbers 1-Kit **$119.98**

♦Oxygen Sensor Hook-up Kit required.
21—3858— 1-Kit $17.98

MANDREL-BENT TUBING

45° ELBOWS 90° ELBOWS

• Choice of mandrel 45° and 90° elbows and U-bends

Ideal when making custom exhaust systems. Simplifies installation of headers and results in a professional look. 18-gauge steel. Combine several pieces to duplicate any configuration. ♦ Indicates swaged (expanded) end

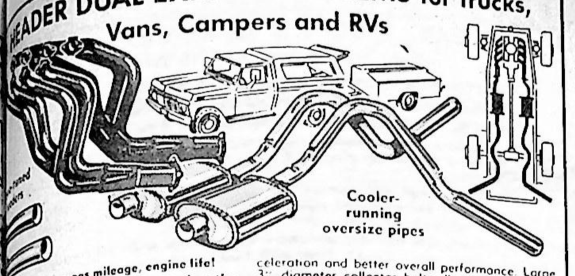

45° MANDREL-BENT TUBING

90° MANDREL-BENT TUBING

180° MANDREL-BENT U-BENDS

Precision formed for wrinkle-free bends. Lengths, radius and inside and outside diameters shown in listing below are in INCHES.

HEADER DUAL EXHAUST SYSTEMS for Trucks, Vans, Campers and RVs

Cooler-running oversize pipes

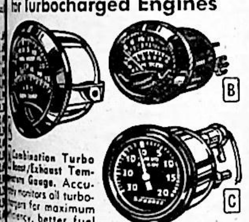

More horsepower, gas mileage, engine life! Less back pressure to allow engine to breathe... no welding necessary

Scavenging 4-tube design headers allow free flow of exhaust gases to help the engine breathe and give better gas mileage, faster acceleration and better overall performance. Large 3" diameter collector balls directly to oversize 2-1/4" extension pipes. System exits through 2-1/4" tailpipes. Tailpipes exit at side behind rear wheels (exc. where noted) with fender-well instructions. Mufflers not included—order below. Stk. nos. ending in "F" shipped from factory; no C.O.D. orders.

Turbo Muffler. Free-flow, low restriction design without excessive noise
22—5707— Each $11.98

3-1/2" Bullet Glass-pack Muffler. Straight-thru high-performance design with mellow tone.
22—5046B— Each $17.98

TURBO BOOST, EXHAUST TEMPERATURE & VACUUM/BOOST GAUGES for Turbocharged Engines

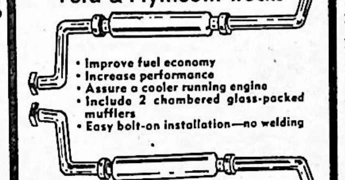

Each **$94.95**

Each **$64.95**

Each **$29.95**

Each **$29.95**

DUAL EXHAUST SYSTEMS for Chevrolet, GMC, Dodge, Ford & Plymouth Trucks

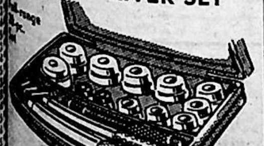

• Improve fuel economy • Increase performance • Assure a cooler running engine • Include 2 chambered glass-packed mufflers • Easy bolt-on installation—no welding

Replace your single exhaust system with a dual exhaust system! Oversized 2-1/4" O.D. exhaust pipes assure smooth, unrestricted exhaust flow. Back pressure is reduced—engine breathes more efficiently to deliver greater horsepower and more efficient fuel consumption. Includes exhaust pipes, 2 mufflers, hardware, instructions.

Above Numbers 1-Kit **$84.95**

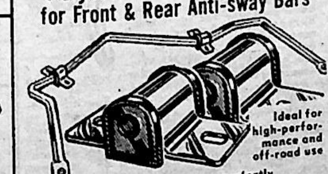

BUSHING DRIVER SET

1-Set **$29.98**

SATISFACTION GUARANTEED or MONEY BACK

Polyurethane BUSHING KIT for Front & Rear Anti-sway Bars

Ideal for high-performance and off-road use

• Replace stock rubber bushings perfectly

Polyurethane bushings are stronger, more durable than rubber bushings... resist extreme heat, cold and friction that can wear out stock parts. Help reduce body roll of your anti-sway bar and improve steering during hard cornering. Kit includes 2 polyurethane bushings and 2 steel saddle brackets.

85—6449A—5/8" diam. anti-sway bar
85—6450R—3/4" diam. anti-sway bar
85—6451X—7/8" diam. anti-sway bar
85—6452N—1" diam. anti-sway bar
Above Numbers 1-Kit **$9.95**

Heavy-duty 14-GAUGE HEADERS for American Cars & Trucks

Last longer, perform better

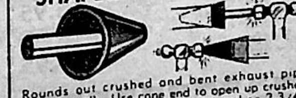

Bolt on easily without welding or major modifications

• 14-gauge mandrel-bent steel tubing is twice as thick as standard 18-gauge headers • Tubing is painted to resist rust and corrosion 1200°F) of today's engines • 5/16" thick port flanges prevent warpage that can cause gasket failure • O-ring surfaced port flanges provide best exhaust gasket sealing

Designed to eliminate exhaust gases quickly. Engine breathes better for better pulling power, greater fuel economy. Set includes left and right headers, 3" collectors, street hook-up reducers, hardware, instructions. S.B.=Short bed

Numbers Each **$109.95**

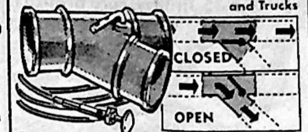

TAILPIPE and HEADPIPE SHAPER and EXPANDER

Rounds out crushed and bent exhaust pipe quickly, easily. Use cone end to open up exhaust pipe up to 3" I.D.—use opposite end on 2-3/4" O.D. or smaller pipe to reshape flared edges.

15—9541X— Each **$11.99**

Get More Power, Higher Speeds, & Better Gas Mileage with an EXHAUST CUTOUT For All Cars and Trucks

CLOSED OPEN

Dash Control increases power, adjusts tone while you drive. Gives you two exhaust systems in one: (1) CLOSED QUIET EXHAUST for city and restricted areas; (2) WIDE-OPEN EXHAUST system for the open road and country driving when you want more speed, more power, gas economy. Made of cast iron. Requires welding. New deep valve seat below pipe level assures tight leak-proof seal when closed. With 5-ft. dash-control cable. Fits pipe 1-3/4" to 2-1/4".

24—1628R— Each **$19.95**

Very High Temperature ENAMEL for Exhaust Systems

• Preserves exhaust systems and manifolds at less than 1/3 the cost of chrome plating, aluminizing or porcelainizing • Choice of 12 colors

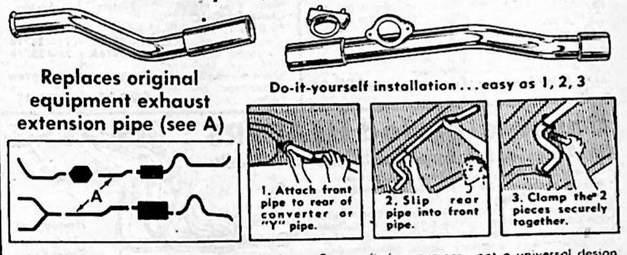

Resists rust, corrosion and carbonization. Designed to withstand temperatures up to 1200°F—will not bake off or discolor. 12-oz. aerosol spray can.

Color	Stk. No.	Color	Stk. No.
Black	17—7026R	Red	♦17—8026Y

Green	17—7791Y	Clear	17—8032W

Above Numbers 1-Can **$2.99**

♦Colors rated below 1200°F. To increase operating temperatures use white (17—7027X) or silver (17—8029B) as a primer coat.

Easy-to-install 2-pc. EXHAUST PIPE Custom Fit for Chrysler, Ford & General Motors Cars

Replaces original equipment exhaust extension pipe (see A)

Do-it-yourself installation... easy as 1, 2, 3

1. Attach front pipe to rear of converter or "Y" pipe. 2. Slip rear pipe into front pipe. 3. Clamp the 2 pieces securely together.

• 2-pc. design for easy handling and installation by ONE MAN! • 16-gauge galvanized steel tubing with spun sockets (where required) to fit converter • Vinyl coated to prevent rust and corrosion

Custom fit for your car—not a universal design. No bending, no welding, no cutting... no need for an extra pair of hands during installation. Includes detailed instructions and all mounting hardware.

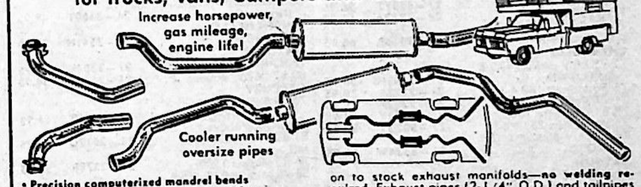

CUSTOM FIT FOR THE FOLLOWING CARS (EXC. THOSE WITH DUAL EXHAUSTS)

Buick: 75-81 Full-size, 75-81 Apollo, Century, Regal, Special, Skylark, 75-76 Riviera. Cadillac: 80-81 DeVille, Fleetwood V6. Chevrolet: 75-81 Full-size. Chevrolet (Cont'd.): 75-81 Camaro, Monte Carlo, 75-83 Chevelle, El Camino, Malibu, 75-81 Citation, Nova. Chrysler: 75-78 Imperial, Newport, New Yorker V8. 77-80 Versailles. Dodge: 75-77 Monaco, Royal Monaco V8. Ford: 75-78 Full-size, 75-81 Fairmont, Granada. 79-81 Mustang. Lincoln. Mercury: 75-77 Full-size, 79-81 Capri, 75-81 Cougar, 75-81 Monarch, Zephyr. Oldsmobile: 75-81 88, 98, Cutlass, Omega. Plymouth: 75-77 Gran Fury. Pontiac: 75-81 Full-size, 75-81 Firebird (exc. 74-74), 75-81 Grand Prix, LeMans, Tempest, 75-81 Phoenix, Ventura II.

When Ordering, State Make, Year, Model, Cu. Inch Displacement of Engine, Whether or Not Equipped with Catalytic Converter & Stk. No. Note: The stock number you ordered may carry a different identification number on your package.

55—3648X— Each **$17.98**

COMPLETE Dual Exhaust Systems for Trucks, Vans, Campers and RVs

Increase horsepower, gas mileage, engine life! Cooler running oversize pipes

• Precision computerized mandrel bends • Heavy-duty 16-gauge steel construction • OEM tailpipe exit location

Dual exhaust system reduces back pressure—engine breathes more efficiently, delivers more power, top performance, economy. System bolts on to stock exhaust manifolds—no welding required. Exhaust pipes (2-1/4" O.D.) and tailpipes (2-1/4" O.D. exc. where noted) are oversize for smooth exhaust flow. Complete with brackets, clamps and instructions. Less mufflers; choose Turbo, glasspack or stock type (see below).

MUFFLERS FOR ABOVE KITS (ORDER TWO)

Stock Type Muffler. Oval, heavy construction
22—5236R— Each $24.98

Glass Packed Bullet Muffler. Hi-performance!
22—5046B—3-1/2" case Each $17.98

Turbo Muffler. Quiet performance!
22—5711A— Each $11.98

High-performance EXHAUST SYSTEMS for 82-84 Camaro Z-28 & Firebird Trans Am

- Replaces stock OEM system perfectly
- Reduces back pressure ... increases horsepower and performance

Bolts directly to stock "Y" pipes from converter ... uses stock mounting locations. Includes 18-gauge mandrel-bent inlet tubing, 2 tailpipes, 2 transverse turbo mufflers, 2 chrome-plated dual tips, hardware and instructions.

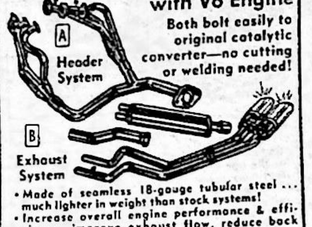

A Trans Am style.
21—3761R—For 82-83 ... 1-Kit $99.95
21—3758N—For 1984 ... 1-Kit 99.95

B European GT style. Same as above, but tailpipe outlets exit straight out under bumper and are baffled.
21—3759T—For 82-83 ... 1-Kit $99.95

European GT style. Same as above, but glass-packed instead of turbo mufflers.
21—3760A—For 1984 ... 1-Kit $99.95

High-performance HEADER & EXHAUST SYSTEMS for 83-84 Chevy S-10 Blazer, GMC S-15 Jimmy, Ford Bronco II with V6 Engine

Both bolt easily to original catalytic converter—no cutting or welding needed!

- Made of seamless 18-gauge tubular steel ... much lighter in weight than stock systems!
- Increase overall engine performance & efficiency, improve exhaust flow, reduce back pressure

Both systems feature mandrel-bent, jig-welded tubing. Dual Exhaust System B features single-inlet dual-outlet glass-packed muffler extension pipe, tailpipes and dual chrome-plated tailpipe extensions. Both include all necessary hardware and instructions. For the following 4WDs with V6 engine:

Make, Year, Model	A Header System	B Exhaust System
Chevrolet/GMC		
83-84 S-10 Blazer/S-15 Jimmy w/std. trans.	21—3575T	21—3577R

Ford		
83-84 Bronco II	21—3573Y	21—3574W
Above Nos. 1-Kit	$99.95	$54.95

Chrome-plated HEADERS for American & Imported Cars and Trucks

- Reduce back pressure, increase horsepower
- Assure cooler engine ... provide more torque and better gas mileage

Replace your original power-restricting single-tube cast iron exhaust manifold with a multiple-tube heavy-duty steel header. Wrinkle-free, mandrel bent tubes lead into single collector pipe, providing perfect scavenger action of exhaust gases. Precision-fit heavy steel flanges. Easy bolt-on installation. Hooks up directly to stock exhaust system, turbo muffler exhaust system or dual exhaust system.

HI-PERFORMANCE TUNED HEADERS

FOR CARS, TRUCKS, & RECREATIONAL VEHICLES

More horsepower AT THE WHEELS for faster acceleration, lower ETs and higher top speed!

THESE TUNED STEEL TUBE EXHAUST HEADERS GIVE YOU MORE POWER PER DOLLAR THAN ANY OTHER SINGLE MODIFICATION

Reduce power-robbing back-pressure—let your engine "breathe" easier for better operating efficiency, a fantastic power increase and improved gas mileage.

Dyno-tuned and competition proven! Tested scientifically on the latest engine dynamometer equipment—then proved on racing cars to give a winning power increase!

All tubes, flanges, collectors & extensions are heli-arc welded—extensions with all headers!

CUSTOM MADE to fit your car perfectly! Less work to install. Scientifically tuned to give the maximum power increase on your car.

HEAVY-DUTY CONSTRUCTION to meet the rigid standards and demands placed on racing headers. Each tube runs individually from header flange to collector. Heavy 18-ga steel tubing is mandrel bent on the latest computerized equipment for smooth flowing, turbulence-free bends. Each pipe is jig-checked for perfect accuracy, before being heli-arc welded into place, to assure proper fit on your engine. After assembly, each header is pressure tested to ensure leak-proof performance.

FULLY FINISHED PORTS are hand ground to perfectly match flange plates and the configuration of the exhaust port. Flange plates are checked to be warp-free and completely smooth for proper gasket seal.

COMPLETE—headers include everything you need for installation and hook-up to your stock exhaust system. Street hook-up extensions, gaskets and bolts are included. All headers are under-chassis design except where otherwise stated.

Vehicles with catalytic converter require modification of exhaust system to retain converter.

Exhaust System Repair Kits

- Makes permanent, fume-tight repairs on mufflers, catalytic converters, exhaust pipes
- Withstands continuous heat to 2300°F
- Absorbs sound, resists corrosion

Flexible needled blanket is made of unique cross-locked ceramic fibers for superior strength and insulation. Special sealer forms a permanent gasket when used with blanket material ... dries to a rock hard repair when used to fill holes or seam leaks. Strong, flexible metal strapping has a rust-resistant galvanized coating. Kits include screening, blanket, tube of sealer, strapping, hardware, instructions.

Exhaust Pipe Repair Kit. Repairs exhaust, cross-over, connector and tailpipes. Includes enough material to cover up to 48 sq. inches.
12—4039P— ... 1-Kit $5.95

Muffler Repair Kit. Repairs mufflers, resonators and catalytic converters. Includes enough material to cover up to 80 sq. inches.
12—4040Y— ... 1-Kit $7.95

Universal DUAL EXHAUST for V6 & V8 Cars and Trucks with Headers

Includes 2 turbo mufflers

- Reduces exhaust restriction, back pressure for increased horsepower, better fuel economy
- Bolt-on connector adapts system to virtually ANY header ... no welding necessary

A must when installing headers. Specially designed reducer bellows are flexible enough to make connections, yet rugged enough to ensure overall system strength. Heavy-duty 16-gauge steel pipes have large 2-1/4" diam. for smooth, efficient exhaust flow. Extra-long 24" tailpipes exit in front of rear wheels. Kit includes 2 high-performance double-wrapped galvanized steel turbo mufflers, universal header connectors, reducer bellows, 15" connector pipes, 24" tailpipes, hardware and instructions.
21—3672Y— ... 1-Kit $74.95

Flexible REDUCERS for Headers

- Adapt headers to any exhaust system

Flexible tubular steel reducers adjust easily to fit most headers with 3-bolt 2-1/2" or 3" collector flange ... allow easy installation of stock or custom exhaust system—no [illegible] positioning needed. Includes two 10-1/2" [illegible] reducers, all necessary 3-bolt flanges, clamps, nuts, bolts.

Fits Flange Size	Reducer Outlet	Stk. No.

TUNED HEADERS for 4, 6, V6 Cyl. Cars, Trucks & Vans

Get MORE HORSEPOWER, BETTER GAS MILEAGE and a SMOOTHER RUNNING ENGINE!

Gives more power per dollar than any other single modification!

LOW AS $39.95 KIT

A "must" for 4 & 6-cyl. engines as these engines are equipped with a restrictive exhaust manifold that limits engine operating efficiency and results in sluggish performance. Tuned headers help restore power and performance by letting your engine "breathe" better, operate more efficiently. Improve acceleration when you need it, assure better gas mileage and a cooler running engine. You can gain more H.P. over stock equipment with a well tuned or slightly modified engine. Precision-engineered headers come in tuned lengths with mandrel bends for smooth exhaust flow and maximum power. Heli-arc welded of heavy steel with flanges made to exact thickness of stock exhaust manifold. This permits installation of any stock or modified intake manifold, using stock hardware and only one stock gasket, without shims. Custom fit for each application for easy installation. **All headers are dual outlet except where indicated by note (4).** Kit includes headers, street hookups, gaskets, hardware, instructions. Nos. ending in "F" shipped from factory; no C.O.D. orders

NOTES: (1) Will not fit cars w/factory air conditioning. (2) For cars with starter located under manifold only. (3) V8 Bell housing—starter at oil pan level. (4) [illegible] outlet header. (5) Requires E.G.R. Kit Stk. No. 21—2869A each $ 9.98. (6) Requires E.G.R. Kit 21—2773N each $ 9.98. (7) Requires E.G.R. Kit [illegible] each $ 9.98. (8) Intake above exhaust ports (new head). (9) Exc. with power brakes. (10) Will not fit new head design. (11) Will not fit [illegible] passenger side starter location. (12) Will not fit w/driver side starter location. (13) Will not fit w/Saginaw type power steering pump. (14) Floor Shift [illegible] only—modifications required for column shift models. (15) Fits w/integral intake manifold cylinder head (w/2-bbl. carb.) only. (16) Fits w/"Select [illegible] transfer case on driver's side). (17) Will not fit w/power steering.

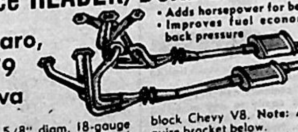

Equalize pressure between header and dual exhaust REVERSION REDUCERS

[illegible] vehicles requiring more power and [illegible] most RVs, pickups, 4WDs, cars [illegible] 18-gauge tubular steel reducer welds [illegible] on to exhaust system with or without [illegible] (Clamps not included) Choice of 3 inlet

[illegible]—3421N—2" I.D ... Each $18.95
[illegible]—3422T—2-1/4" I.D ... Each 18.95
[illegible]—3423A—2-1/2" I.D ... Each 18.95

Hi-performance HEADER/DUAL EXHAUST SYSTEMS for 67-81 Camaro, Z-28 & 68-79 Chevy II, Nova

- Adds horsepower for better performance
- Improves fuel economy ... reduces back pressure

Dyno-tuned headers have 1-5/8" diam. 18-gauge steel tubes leading into 3" collectors. Dual exhaust system has 2-1/4" diam. 16-gauge steel tubes ... bolts to headers without modifications. Tailpipes exit at stock location behind rear wheels. Includes headers, collectors, gaskets, bolts, exhaust pipes, tailpipes, hangers, instructions and choice of turbo or 3-1/2" diam. glass-pack muffler. For 67-81 Camaro, Z-28 & 68-79 Chevy II Nova with 283 thru 400 small block Chevy V8. Note: Air-conditioned cars require bracket below.

System with turbo muffler.
21—9968U— ... 1-Kit $144.95

System with glass-pack muffler.
21—9969B— ... 1-Kit $144.95

Bracket for air-conditioned cars.
21—9967W— ... Each $8.39

SATISFACTION GUARANTEED or MONEY BACK

DUAL HEADER EXHAUST SYSTEM

Hi-Performance! Fits All V8 & V6 Headers on ANY Vehicle

Connectors bolt onto any headers—no welding necessary! Multi-fit connections ahead of the mufflers and extra-long tail and side exit pipes allow easy installation on any vehicle with headers. Bullet-shaped, straight-thru glass-packed mufflers reduce back pressure to increase performance, give a low, mellow tone. 2" OD tubing. Reducers included to fit all connectors.

Fits all V8 & V6 Headers.
21—2733R— ... 1-Kit $69.95

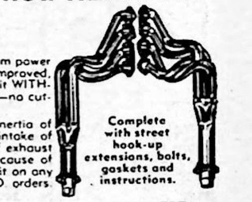

Same as above with Turbo-type Mufflers for less back pressure without excess noise.
21—2988R— ... 1-Kit $74.95

Hi-Performance Quality Tuned HEADERS

- Computer-controlled mandrel bends
- Port flanges ... 360° rotational collector flanges
- Dyno-tested and tuned ... pressure tested to prevent leaks
- Custom fit for your car, truck, van

DYNO-TUNED—for high performance on street or strip ... maximum power increase ... faster acceleration, lower E.T. ... higher top speed ... improved, smoother idle. Custom designed for perfect fit—Manufactured to fit WITHOUT FRAME OR BODY ALTERATIONS. Easy bolt-on installation—no cutting or welding required.

Self-scavenging 4-tube design—Tuned tube lengths use column inertia of departing exhaust gas to relieve back pressure and allow faster intake of fuel/air mixture to cylinders during acceleration. Smoother flow of exhaust gas will help engine run cooler and give better gas mileage. (Because of extreme variance in engine mounting positions we cannot assure fit on any engine swap.) Stk. nos. ending in "F" shpd. from factory; no C.O.D. orders.

STOP illegal muffler noise! RACKET BUSTER Fiberglass-packed Chromed Tip Bullet Exhaust Extension

BOX TIP

BALONEY TIP

• Stop muffler noise without restricting exhaust flow
• Allows you to use straight-thru mufflers safely with up to 50% less noise
• Mellows loud dual mufflers

Perforated inner core and chopped strand fiberglass packing give quiet, straight-thru muffler power and pep. Exhaust extension is 16" long overall, with 10" long x 3" diam. bullet muffler. Triple-chromed tip, heavy-gauge steel shell. Packing will not settle or burn out. Fit single or dual exhaust. Includes bracket, hanger, clamp, reducer. Easily installed—no cutting or alteration of tailpipe necessary.

Fit all 1-3/4" thru 2-1/4" O.D. tailpipes.
24—1563Y—Baloney Tip ... Each $9.98
24—1564W—Box Tip ... Each 9.98

EXHAUST PIPE ADAPTERS & CONNECTORS

Permit easy installation of pipes of same or different sizes to mufflers or other pipes. Ideal for custom exhaust systems. 18-gauge steel. ♦=Numbers are O.D. to I.D.

High-performance BULLET MUFFLERS

STRAIGHT-THRU DESIGN WILL NOT CHANGE TONE

• High-density fiberglass-packed 3-1/2" diameter bullet-style case

Special perforated conical core tube is designed to prevent clogging and provide a low, mellow performance sound. Thick, long-strand, high-temperature fiberglass packing won't burn, settle, or blow out. Extra-strong steel body with baked enamel finish. Solid welded body and end tubes for superior strength and long life. Free-flow "straight thru" design reduces power-robbing back pressure and improves engine efficiency and economy. Replaces original muffler perfectly. Custom fit for 50-83 American cars, 1/2 and 3/4-ton trucks, vans, 75-82 Datsun trucks, 75-81 Honda cars, 76-79 Toyota Corolla & 75-82 Volkswagen Jetta, Rabbit, Scirocco. When Ordering, State Make, Year, Model, Cu. In. Displacement of Engine, Single or Dual Exhaust, Left or Right Side, Front or Rear & Stk. No. For Trucks, Also State 2WD or 4WD. Note: The stock number you ordered may carry a different identification number on your package.

LIMITED (Ownership Duration) WARRANTY — We warrant these mufflers never to wear out, change tone, blow out, rust out or burn out as long as original purchaser owns car... will be exchanged FREE (not including installation costs).

55—2418W— Each $15.95

Glass-pack Muffler Blanks

FOR CUSTOM INSTALLATION

Indestructible fiberglass packed—will not burn, settle or blow out. Large 3-1/2" diam. gives a deep, mellow tone—straight construction eliminates back pressure—increases horsepower and gas mileage. Connections on both ends are 1-3/4" and extend 2". Use 1-7/8" muffler clamp (see Index). For universal installations.

• Double-layer shell for long service life

Inlet/Outlet Positions

Aluminized inner shell and zincrometal inner shell resist rust, corrosion. Muffler allows engine to "breathe" freely without excessive noise. Spun and rolled end caps provide a gas-tight seal and superior blow-out protection. Double-wrapped, oversized seam gives added blow-out protection. Designed for reverse flow. Can be inverted for one 4" high, 10" wide except ♦, which is 8" wide.

[illegible]

Above Numbers Each $16.95

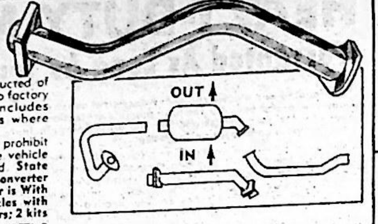

Stainless Steel MUFFLER CLAMPS

The perfect final touch for your stainless steel exhaust system. Aircraft-quality 304 grade stainless steel for extra long service life, rust and corrosion resistance.

[illegible]

CATALYTIC CONVERTER TEST PIPE

for 75-84 American and Imported Cars and Light Trucks

- **Verify need to replace catalytic converter**
- **Efficiency of your converter affects fuel economy and performance**
- **Easily installed with ordinary tools ... all the necessary clamps and flanges are included**

A malfunctioning catalytic converter creates excessive back pressure. It can decrease fuel economy, lower engine performance and cause premature wear. A clogged converter will eventually cause engine to stop running. You can avoid these time-consuming, money-wasting problems. This new converter tester lets you check the condition of your catalytic converter and determine if replacement is necessary. Pipe is constructed of heavy-duty, 16-gauge steel. Engineered to factory dimensions to assure an easy fit. Includes factory-duplicate flanges and clamps where needed.

Note: Federal, State and Local laws may prohibit the user from leaving this device on the vehicle after testing procedures are completed. **State Make, Year, Model, Engine Cu. In. Size, Converter Length & Shape, No. of Cyls., If Converter is With or Without Air Tube and Stk. No. Vehicles with dual exhaust system may have 2 converters; 2 kits required. The stk. no. you ordered may carry a different identification no. on your pkg.**

STACKS for Pickups

- **Choice of curved pipe outlet or straight outlet with rain cap**

Triple-chrome-plated steel outlets. Anodized aluminum rain cap. Length adjusts for step-side or through-bed installation. Good-looking 180° coverage slotted shield. Mounting hardware with rubberized insulation for vibration-free installation. 2-1/2" diam aluminized inner tubing.
21—3130X—Straight outlet with rain cap
21—3129R—Curved outlet
1-Pair $89.95

Save DO-IT-YOURSELF

Stainless Steel FLEXIBLE TUBING

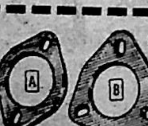

- **Completely corrosion-proof, heat-resistant, and rustproof**
- **Ideal for custom exhaust systems, side pipes, or dual set-ups**
- **Best for air blowers, suction or exhaust ducts**
- **Finest quality chrome and nickel alloy stainless steel**

Extra-strong interlocked construction that won't kink or unwind. Lasts indefinitely, no matter how it is used. Available in 5, 10, or 25 ft. lengths (fully stretched—allow extra length for bends). (See Index for end clamps.)

Turbo Power TAILPIPE EXTENSION for Vehicles with up to 2800cc Engine

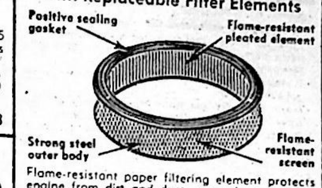

- **Improves overall performance and torque for better acceleration & hill climbing ability**
- **Especially effective on vehicles with air conditioning**
- **Stainless steel construction**

Special internal turbo fins create a vacuum that pulls exhaust gases out of the engine. Increases engine efficiency and reduces carbon deposits inside engine. Includes mounting kit, instructions.

For 1400cc to 1800cc engines with 1-1/2" to 1-3/4" O.D. tailpipes.
81—2032T— Each $14.95

For 1800cc to 2800cc engines with 1-7/8" to 2-1/8" O.D. tailpipes.
81—1531N— Each $14.95

Better AIR CLEANER ELEMENTS for All 57-85 Cars and Trucks with Replaceable Filter Elements

Flame-resistant paper filtering element protects engine from dirt and dust—exceeds car mfgr's. specifications for air handling, initial restriction, dust capacity and efficiency. Filters all the air, trapping dirt particles as small as one micron.

For all 57-85 cars and trucks (exc. 71-78 with 1-pc. air filter housing & 78-85 with diesel engines—see below). HOW TO ORDER: State Make, Year, Model, No. of Bbls. of Carburetor, No. of Cyls., Cubic Inch Displacement & Stk. No. For 65-69 Rambler 6-cyl., Also State With or Without Snorkel. Note: The stk. no. you ordered may carry a different identification number on your package.
55—1290P— Each $2.69

One-piece Replacement OEM-type Air Cleaner Housing. Same as original unit. Fit 75-77 Astre, 76-78 Chevette, 71-76 Chevrolet 4 cyl., 72-78 LUV, 75-78 Monza, 1978 Phoenix, 77-78 Starfire, 76-78 Sunbird, 71-78 Vega. See how to order above.
55—2567P— Each $11.95

Replacement OEM-type Air Cleaner Elements for 78-85 General Motors Diesel cars and trucks. See how to order above.
55—3769A— Each $8.98

Replacement Air Cleaner Elements for 57-85 American cars and trucks, (gasoline engines only). See how to order above
55—1291Y— Each $2.19

AIR CLEANER for Pinto & Mustang II

9" Diameter, Chrome Plated. Fits 2000, 2300 & 2800cc engines. Free-breathing, non-restrictive air cleaner gives maximum air flow. Only 3" high. With smog outlet tube.
84—0480T—w/paper element
84—0481A—w/foam element Ea. $13.95

Replacement Elements for above 9" air cleaner.
84—0482R—Paper
84—0483X—Foam Each $3.99

Same cleaner as above but 6" diameter.

ZOOM MUFFLERS

Use with 4-tube tailpipe collectors above for custom installation on vans and trucks. 26" mufflers with 3" case and 1-3/4" core. 2" I.D. inlet and 3" I.D. outlet. 2 clamps included.
22—5525N— 1-Pair $32.95

Chromed AIR CLEANERS and VELOCITY STACK

for 1, 2 and 4-bbl. Carbs

[A] **4" Diam. Air Cleaner.** Fits 1 & 2-bbl. carburetors with 2", 2-5/8" or 2-5/16" neck. 3-1/4" high. With paper filter element.
84—0684P— Each $5.98

[B] **4" Diam. Air Cleaner.** Fits 2-bbl. carburetors with 3-1/16" or 2-5/8" neck. 2" spinner knob. 2-3/4" high. Paper filter element.
84—0686N— Each $6.98

4" Diam. Air Cleaner (not shown). Similar to [B]. Fits 1 & 2-bbl. carburetors with 2", 2-5/8" or 2-5/16" neck. 2" spinner knob. 3-3/4" high. With paper filter element.
84—0685X— Each $6.98

Replacement Paper Filter Element for [A] & [B]
84—0687T— Each $2.49

[C] **14" Diam. High-performance Air Cleaners.** Only 3" high with 1-1/2" recessed base to fit under hoods with limited clearance. Leaves top of air cleaner only 1-1/2" over top of carb. Non-restrictive treated paper filter element for maximum engine protection, performance. With smog outlet tube.
84—0561P—4-bbl. carb w/4⁷⁄₃₂" or 5⅛" neck
84—0562Y—2-bbl. carb w/2⅝" neck
Above Numbers Each $16.98

14" Diam. Air Cleaners with non-recessed base (not shown). For single carburetor manifolds only. 3-1/4" high.
73—0829U—4-bbl. carb w/4⁷⁄₃₂" or 5⅛" neck
73—0830B—2-bbl. carb w/2⅝" neck
Above Numbers Each $16.98

Replacement Element for [C].
84—0563W— Each $5.98

[D] **High-rise Velocity Stack.** 9" diam. x 5" high stack with reusable foam filter element provides maximum fresh air intake to any 4-bbl. carb. Adapter to fit 4-7/32" & 5-1/8" necks.
84—0702P— Each $15.98

[E] **9-1/2" Diam. Air Cleaners.** Fit 2 & 4-bbl. carburetors with 2-5/8", 4-7/32" or 5-1/8" neck. 3-1/2" high. With 4" spinner knob, foam filter, smog outlet tube.
73—4264P— Each $12.49

Same as above exc. with paper element.
73—4263B— Each $11.49

Replacement Elements for [E].
73—4469N—Foam Each $3.98
73—4265X—Paper Each 2.98

Flexible Steel TAILPIPE KITS

- **Complete with 2 clamps and 1 hanger for quick, easy installation**

Tailpipe bends to clear tires, go over axle and around gas tank. Perfect for those hard-to-find replacement tailpipes or for customizing exhaust systems. Galvanized or stainless steel tailpipes will not rust. Stainless steel lasts up to 3 times longer and withstands much higher temperatures without corroding—a must for late-model vehicles. Convenient 6-ft. length.

Chrome-plated 6" HIGH AIR CLEANER

Ideal for 4WDs & off-road vehicles! **Maximizes air flow & cleaning action to assure best performance over rough, dusty terrain.** Also dresses up engine compartment. Paper filter element. Fits 4-bbl. carbs with 5-1/8" neck. 14" diam. x 6" high overall. **Note: There could be clearance problems on some vehicles; check before ordering.**
84—0856U— Each $24.99

Replacement Filter Element.
84—0857B— Each $8.99

Hi-performance • Dual Quad • 360° HI-RISE INTAKE MANIFOLDS

Drilled for AFB & Holley Carbs

- **Distribute fuel equally to all cylinders for increased horsepower**
- **Much more efficient than 180° manifolds**

Standard 180° manifolds operate only part time—one side of the manifold is "down" while fuel is delivered to the other side of the engine. But these 360° manifolds let your engine operate at full capacity at all times. Exclusive plenum chamber design allows a continuous, equal fuel flow to all cylinders without interruption or oscillation. Wipes out flat spots in all RPM ranges. You get vibration-free smoothness and power-rammed distribution through balanced efficiency. Shipped from factory. No C.O.D. orders. Note: We recommend that AFB carburetors be used with these manifolds to avoid possible clearance problems. In order to use Holley carburetors, one of the adapter kits below may be required. Stk. nos with ♦ are for use with AFB carbs only.

Adapters for large-CFM Holley carburetors. Permit you to mount large Holley carburetors crossways on above manifolds (one carb facing one way, one facing the other) so that the primaries feed into each chamber uniformly. Requires linkage kit below. Shpd. from factory. No C.O.D. orders.
97—2924TF— 1-Pair $39.95

Linkage Kit. Required when mounting large-CFM Holley carbs with above adapters. Shpd. from factory. No C.O.D. orders.
97—2925PF— 1-Kit $43.95

Adapters for Holley carburetors. Allow carbs to be spaced 1/2" each way—front, back or side ways. Shpd. from factory. No C.O.D. orders.
97—2926YF— 1-Pair $39.95

MANIFOLD GAUGE SET

Set includes a low pressure vacuum gauge (—30 psi to 250 psi) and a high pressure gauge (0 to 500 psi). Gauges have R-12, R-22, and R-502 scales, are color coded and can be recalibrated. Also contains hanging hook, hose protectors and 3 color coded 36" hoses.
17—9609P—
Each $32.95

High-performance 2 & 4-bbl. INTAKE MANIFOLDS

- Adds V8 response to your 6-cylinder car or truck
- **Improves low-end torque, engine performance and fuel economy**

Lightweight cast aluminum manifolds can be used with 2 or 4-bbl. carburetors (mounting plates not included—order below). A 4-bbl. carb makes this the ultimate low-RPM assembly for today's 6-cyl. engines—small 4-bbl. carbs (390 to 400 CFM) actually get better mileage and more power than most 2-bbl. carbs. With a 2-bbl. carb, the manifold increases performance and improves driveability while maintaining or improving fuel economy.

Recommended 4-bbl. carburetors:
390 to 500 CFM for 150 to 300 cu. in. street eng.;
600 CFM for 230 to 290 cu. in. racing engines;
700 CFM for 290 to 350 cu. in. racing engines.

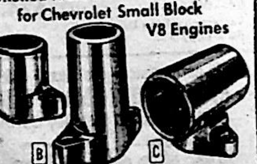

Recommended 2-bbl. carburetors:
350 CFM for street engines;
500 to 650 CFM for racing engines.

Designed for use with exhaust header only. For these cars & trucks with straight 6-cyl. engines:

Polished Aluminum Coil Holders for Chevrolet Small Block V8 Engines

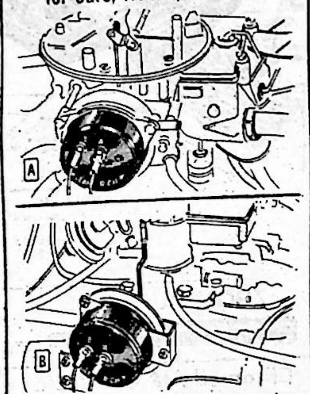

Dresses up engine compartment. Solid billet aluminum, polished to show-car luster. Fits stock and replacement small block Chevy manifolds.

[A] **Low-profile Vertical Holder.** 2-5/16" high. Includes Allen set screw to secure coil.
73—7025B— Each $59.95

[B] **High-profile Vertical Holder.** Covers entire coil. Friction fit.
73—7026P— Each $59.95

[C] **Horizontal Holder.** Covers entire length of coil. Permits remote mounting of coil away from engine heat and vibration. 2-pc. design. Adjustable 2-position baseplate. Includes stainless steel Allen bolts.
73—7027Y— Each $69.95

Solid-state ELECTRONIC CHOKE CONVERSION KIT for Cars, Trucks, Vans, RVs

- **Reliable solid-state electronic choke replaces your troublesome automatic choke**
- **Assures more dependable starts...hot or cold**

This solid-state choke is not an electronic assist unit. It is a completely self-contained and self-regulating automatic choke designed to replace carburetor or manifold-mounted choke systems. Temperature sensor mounts on the engine block to regulate the speed of choke response. Choke adjusts to open as rapidly as the engine temperature rises without stalling. Helps eliminate hard starting, sluggishness, hesitation in acceleration, flooding. Helps reduce gas consumption. Easy to install with no special tools. For the following vehicles:

51-82 American Motors	57-82 Ford & Mercury
55-82 Buick, Cadillac, Chev., Olds., Pont.	70-82 Ford truck
62-82 Checker	54-82 Jeep® vehicles
62-82 Chevy/GMC truck	63-82 Lincoln
55-82 Chrysler, Dodge, Plymouth	1956 Nash Statesman (Carter 2-bbl.)
All Datsun (w/Hitachi 2-bbl. carb)	46-66 Studebaker
52-60 DeSoto	All Toyota 4 & 6-cyl. (w/Aisan 2-bbl. carb)
62-82 Dodge & Plymouth truck	67-77 Volkswagen rear engine (Solex 1-bbl.)

HOW TO ORDER. State make, year, model, engine size (displacement in cu. inches or liters), type of carburetor (Carter, Holley, Rochester, etc.), number of carburetors (1, 2, or 4), whether choke is mounted on carburetor (see illustration A above) or remote mounted on manifold (see B above) & Stk. No. For trucks, also state if engine is light duty or heavy duty. For 77-80 General Motors vehicles, state fifth digit of VIN (vehicle identification number—located on driver's side of dash panel); for 81-82 General Motors vehicles, state eighth digit of VIN. Failure to supply all information requested will delay shipment of your order. Note: The stock number you ordered may carry a different identification number on your package.
55—2424U— 1-Kit $13.95

High-performance Dual-port 360° INDUCTION MANIFOLDS for American & Imported Cars and Trucks

For American vehicles

Designed with SEPARATE primary and secondary ports and passageways to:
- **improve breathing, reduce exhaust emissions**
- **increase horsepower and torque throughout RPM range without sacrificing fuel economy**
- **deliver air/fuel mixture to combustion chambers more efficiently at low and high RPM**
- **ram primary air/fuel mixture into combustion chambers at UP TO 3 TIMES THE NORMAL VELOCITY for top efficiency**

TWO MANIFOLDS IN ONE!

Cast aluminum manifolds bolt on easily, include carburetor base gasket. Separate primary ports improve low-speed response—high-velocity primary air/fuel mixture (separated from secondary ports) warms up faster, so engine can start easier, run smoother at low RPM. Separate secondary ports (insulated by primary ports from engine heat) produce a colder, more dense and efficient mixture that is rammed into the combustion chambers by the high speed of the primary mixture.

Manifolds for AMERICAN CARS & TRUCKS. Use with standard 4-bbl. carburetor such as Holley, Carter AFB. Will not fit "Spreadbore QJET" type carburetor. ♦390 CFM carb recommended for these applications—order below at right.

Designed Specifically for More Miles Per Gallon! FUEL-SAVING CARBURETORS

- **NEW—NOT REBUILT**
- **Designed and calibrated for more miles per gallon!**
- **Enlarged idle-system metering ports help increase velocity of fuel mixture and improve atomization for thorough fuel burn**
- **2-stage power valves deliver minimum fuel in mid-vacuum ranges**
- **More sophisticated booster venturii is specially designed to better condition the fuel mixture**
- **Our fuel-saving carburetor will replace your present Carter, Ford, Holley, Rochester or Stromberg carb**

Beat rising fuel cost! Gas-miser carburetors squeeze more power from every drop of fuel to help you save.

Actual fuel economy may vary due to application, engine, driving conditions and driving habits. Advanced gas-saving refinements include basic redesign of fuel bowls, more sophisticated booster venturri, larger idle metering ports and dual-stage power valves. Expertly engineered and carefully tested for maximum fuel economy in old as well as new cars. Redesigned components permit easier installation. Step-by-step instructions included. These new fuel-saving carburetors (not stock carburetors) are engineered to replace the following original-equipment carburetors: A=Aisan, C=Carter, F=Ford, Hi=Hitachi, H=Holley, R=Rochester, S=Stromberg. Abbreviations: 1 bbl.=one-barrel carb., 2-bbl.=two-barrel carb.; 4-bbl.=four-barrel carb.

IMPORTANT. Some carbs require accessories; be sure to check the footnotes (numbers following the application, where applicable) when ordering.

(5) Require dashpot and solenoid. **73—2609Y**—Dashpot Each [illegible] **73—2610W**—Solenoid Each [illegible]
(6) Applications w/cruise control require kit. **73—5808T**— 1-Kit $[illegible]
(7) Require Solenoid **73—6001U**— Each $[illegible]
(8) Require Choke **73—6002B**— Each $[illegible]

FRESH AIR INTAKE HOSE for 70-84 Cars and Trucks

Make sure your engine is getting the proper fuel/air mixture for maximum performance! Replace your torn or damaged air intake hose with this exact-fitting replacement. Galvanized steel wire, wrapped with flexible, lightweight, acid, oil and heat-resistant vinyl. Easy to install—no tools required. For the following cars, trucks:

77-84 American Motors All incl. JEEP® vehicles	76-78 Fiat X1/9
75-84 Buick All	70-84 Ford All incl Econoline Van
76-82 Cadillac	70-84 Lincoln All
75-84 Chevrolet All	70-84 Mercury All
76-84 Chrysler All	74-84 Oldsmobile All
76-84 Dodge All	76-84 Plymouth All
70-84 Dodge Truck	73-84 Pontiac All

When Ordering, State Make, Year, Model, Cu. Inch Displacement of Engine, No. of Cylinders, No. of Carburetor Barrels, Length of Hose and Stk. No. The stk. no. you ordered may carry a different identification no. on your pkg.
55—2969Y— Each $6.99

4-bbl. DUAL-PORT MANIFOLD for Chevy, GMC & Jeep® Vehicles with 173 C.I.D., 60° V6 Engines

- **Increases horsepower up to 23%**
- **Increases low to mid-RPM torque**
- **Gives maximum top-end performance**

Unique dual-port configuration with separate primary and secondary ports. Includes carb plate and installation kit with hardware and detailed linkage instructions. Recommended for use with 390 CFM carburetor below.
73—6986W— Each $199.95

390 CFM Carburetor. Overall height of above manifold with this carb: 7-3/4". (Overall height of stock manifold and stock carb: 7-5/8".)
73—9149Y— Each $199.95

AUTOMATIC-TO-MANUAL CHOKE CONVERSION KIT for All Cars and Trucks

- **Ends carburetor flooding for instant response, fast starts**
- **Better gas mileage**

Kits include: 5-ft. cable, 2 different sized flanged caps for carburetor-mounted choke applications, activator "S" bracket for manifold-mounted chokes, hardware, instructions.

For all American cars (exc. GM "X"-Body—order below) with carburetors and automatic chokes. When Ordering, State Make, Year, and Stk. No. Note: The stk. no. you ordered may carry a different identification no. on your pkg.
55—2686Y— 1-Kit $[illegible]

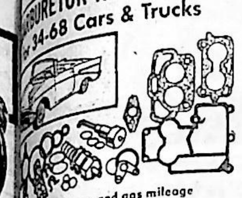

Kit as above with Calcon® caps to withstand higher engine temperatures. See how to order above.
55—3118A— 1-Kit $[illegible]

For all GM "X"-Body cars & all imported cars & trucks with non-integrated chokes. With Calcon® caps to withstand higher engine temperatures.
73—4548W— 1-Kit $[illegible]

For all American trucks with automatic chokes.
14—1054P— 1-Kit $[illegible]

SATISFACTION GUARANTEED or MONEY BACK

CARBURETOR REPAIR KITS for 34-68 Cars & Trucks

[illegible] pep, power and gas mileage [illegible] flooding and stalling [illegible] carb—don't replace it! Save money [illegible] time wasted searching for hard-to-find [illegible] carbs. Kits include ALL parts necessary to rebuild carburetor: gaskets, needle valve [illegible] hardware plus detailed instructions. [illegible] install—no special tools needed. In "Carb [Type]" column below, letter indicates manufacturer of carburetor. (C=Carter, H=Holley, R=Rochester, S=Stromberg), number indicates number of barrels in carburetor

Replacement CARBURETORS for 58-81 American Cars

- Replaces original equipment 1, 2 or 4-bbl. carburetor exactly
- Designed and engineered to restore original performance and mileage
- Restores easy starts and smooth, sure throttle response
- Easy to install—no modifications required

New—not rebuilt. Replaces old, worn or inefficient carburetor. Includes complete instructions and all gaskets and hardware for installation. Some carbs require accessories; be sure to check footnote (number following the application, where applicable) when ordering. Replaces the following original equipment carburetors: C=Carter, F=Ford, H=Holley, R=Rochester, S=Stromberg. Note: The carburetor you receive may not be made by same manufacturer as original.

NOTES FOR ABOVE

(1) Applications with idle solenoid require idle stop solenoid kit. **73—6859N**— 1-Kit $23.95
(2) Requires choke kit **73—6856A**— 1-Kit $6.95
(3) 198 cu. in. engine requires choke kit. **73—6858X**— 1-Kit $8.95
(4) Requires choke kit. **73—6857R**— 1-Kit $8.95
(5) Applications with cruise control require mounting bracket kit. **73—6855T**— 1-Kit $2.95

Direct-reading • Dial-type CARBURETOR SYNCHRONIZER for ALL Multiple Carburetor Setups

- **Precision and accuracy never before possible!**
- **Balances all side-draft, down-draft or up-draft carbs at both idle and running speeds—fits all single, dual, or 4-bbl. carbs**
- **Universal adapter fits diameters from 1-9/16" to 4-1/4"**

Large intake aperture prevents floating, assures exact synchronizing at lowest idling speeds and at increased RPM. Gives immediate, precise indication without necessity of readjusting instrument. Easy-read calibrated dial. Use screwdriver to adjust carbs. Does not slow speed of engine during tests. Also for synchronizing motorcycles, snowmobiles, go karts, etc.
88—2792N— Each $19.98

Single to Dual Carburetor ADAPTER

Permits use of a Stromberg 94, 97, 48, small or wide base 2GC, or tri-power carburetors on any single, throat carburetor manifold having 2-1/2" to 3-1/8" bolt centers. With gaskets, stud, screws, nuts, washers and instructions.
73—0563R— Each $9.98

CHOKE PLATE ANGLE GAUGE

- **For all cars with gas engines and GM diesels**

Extra-large calibration scale on both sides. Range: −5° to +75°. Accurate to within 1°. Magnetic base. With instructions.
15—9838X— Each $10.95

CARBURETOR REPAIR KITS with REPLACEMENT FLOAT for GM Vehicles with 2-bbl. Rochester Carburetors

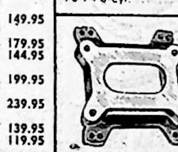

- **Helps restore original performance**

New float replaces your old, soggy, heavy-with-gasoline float that can cause flooding, poor gas mileage, impaired performance. Kit also includes (where required): float level gauge, Viton™ disc-type valve, needle and seat, accelerator pump, gaskets, instructions. **When Ordering, State Make, Year, Model, Engine Size, Carb Type & Number (see arrows on illustrations above) & Stk. No. Note: The stock number you ordered may carry a different identification number on your package.**

CARBURETOR ADAPTERS for ALL Cars and Trucks

All adapters include gaskets and mounting hardware.

To adapt any quad carburetor to any 4-bolt 2-bbl. manifold base and any 4-bolt 2-bbl. carburetor to any quad manifold base.
73—0953B— Each $9.98

To adapt Holley or AFB carburetor to quadrajet manifold base. Also mounts quadrajet carburetor to Holley or AFB manifold base.
73—3957P— Each $9.98

To adapt any Holley or Rochester 2-bbl. carburetor onto the quadrajet manifold base. Also will adapt the quadrajet carburetor to any 2-bbl., 4-bolt Holley or Rochester manifold.
73—3958Y— Each $9.98

CARBURETOR FLOAT WEIGHT SCALE

- **Quickly, easily indicates if plastic carburetor float has absorbed gasoline and needs to be replaced**
- **For all cars, trucks**

Plated metal scale shows current float weight (Scale: 0 to 4 oz. or 0 to 80 grams.) Picture chart (included) lists correct float weights ... indicates immediately when float should be replaced. With plastic case and instructions. (See Index for floats.)
73—5521B— Each $5.99

Plier-type FLARING TOOL

Deluxe tool precision flares 3/16" thru 5/8" O.D. tubing

Produces 45° flare. Adjusts to 3/16", 1/4", 5/16", 3/8", 1/2" and 5/8" diam. tubing.
81—0294A— Each $19.98

Seamless COPPER TUBING

Flexible, high quality. Bend without kinking. Sold in 25 and 50-ft. coils.

Size	Wall	25-ft. Coil	Per Coil	50-ft. Coil	Per Coil
1/8"	.030	75—2593B	$4.95	14—1983P	$9.95

3/4"	.035	75—2596N	29.95	14—1992A	59.95

TUBING BENDER TOOL

Make difficult bends on 3/16", 1/4", 5/16" and 3/8" copper and steel tubing. High quality metal tool has two rollers, each with two groove sizes. Adapt tool to exact tubing size in seconds.
15—3205N— Each $18.99

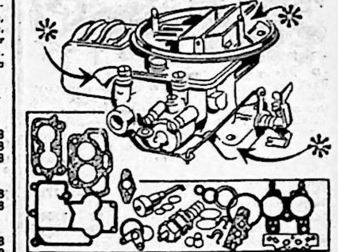

Carburetor Jet & Welding Tip Cleaning Tool

Cleans Tips & resizes carb. jets—includes 12 drill bits

Tempered steel double-end chuck has hollow handle that holds up to 24 drill bits sizes 45 to 80. Includes 12 highest quality carbon steel drills in most used sizes: 48, 55, 58, 59, 60, 63, 64, 66, 68, 70, 72 and 74. Pocket clip.
15—9004W— 1-Kit $8.69

CARBURETOR REPAIR KITS for American Cars & Trucks

- **Helps restore more pep, more power and better gas mileage**
- **Produces easier starts and smoother idling**
- **Helps prevent flooding and stalling**
- **Easy to install—no special tools needed**

Repair your carburetor yourself ... and save the cost of a replacement carburetor. Most carburetors can be repaired and restored to original efficiency by installing the parts in this kit. Kit contains the following (where required): Viton® disk-type valve, needle and seat, accelerator pump, complete set of gaskets, all hardware, float level gauge and easy step-by-step instructions.
For imported cars, see import section in Index.

58-83 American Mtrs	34-83 Ford & Mercury
50-83 Buick	34-83 Ford Trucks
52-83 Cadillac	61-83 GMC Trucks
41-83 Chevrolet	61-83 IHC incl. Scou[t]
41-83 Chevrolet Trucks	37-83 JEEP® Vehicles
54-83 Chrysler	56-83 Lincoln
47-83 Dodge & Plym	55-83 Oldsmobile
39-83 Dodge Trucks	52-83 Pontiac
	53-66 Studebaker

When Ordering, State Year, Make, Model, Engine Cu. In. Displacement, Carburetor Number (located at one of the 3 positions in illustration above), Carburetor Make (Holley, Carter, Rochester, etc.), Number of Barrels (1, 2 or 4-bbl.), Number of Cylinders and Stk. No. Note: The stk. no. you ordered may carry a different identification number on your pkg.

For above applications through 1979.
55—2548P—1-bbl. 1-Kit $6.49
55—2549Y—2-bbl. 1-Kit 8.79
55—2550W—4-bbl. 1-Kit 9.98

For above 80-83 1-bbl., 2-bbl. & 4-bbl. applications.
55—3282N— 1-Kit $11.98

FLARING TOOL KITS

Double or single-flares thin wall steel, aluminum or .040 wall soft copper tubing... single-flares brass tubing

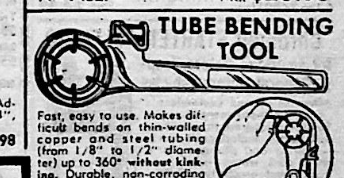

Hardened and tapered bar and yoke make damping automatic—eliminate difficult thumb-screw clamping and bowing of bars. Includes drop-forged compressor yoke, 5 double-flare adapters, threaded die-holding bar, storage box.

SAE Kit. Flares 3/16", 1/4", 5/16", 3/8" and 1/2" O.D. tubing.
14—7451B— 1-Kit $23.95

Metric Kit. Flares 4.75, 5, 6, 8 and 10mm tubing with wall thickness up to 1mm.
14—7452P— 1-Kit $23.95

TUBE BENDING TOOL

Fast, easy to use. Makes difficult bends on thin-walled copper and steel tubing (from 1/8" to 1/2" diameter) up to 360° without kinking. Durable, non-corroding zinc die-cast construction. Instructions included.
15-9756A— Each $4.89

TUBING CUTTERS

Cut tool steel easily. Double steel rollers with flare groove.

[A] **Heavy-duty Cutter—cuts from 1/8" to 1-1/8" diam. tubing.** Cutter retracts into handle to protect blade. Built-in deburring reamer. Spare cutting blade included.
12—3196R— Each $11.49

[B] **Standard Cutter—cuts from 1/8" to 1-1/8" diam. tubing.**
12—3197X— Each $5.29

[C] **Compact Cutter—cuts 1/8" to 5/8" diam. tubing.** Only 1-7/8" x 3/4".
15—6652N— Each $2.99

Chrome-plated ALTERNATOR CASE KITS

• Dresses up engine compartment
Replaces original case perfectly. Use your existing alternator. Includes front plate, back plate, fan, pulley, thru-bolts, lock washer, lock nut, pulley nut, front 203 bearing, Torrington needle bearing, bearing retainer and screws. Shipped from factory. No C.O.D. orders. For the following vehicles (will not fit General Motors 70-amp alternators):

American Motors Products	
75-85 All with Delco system	97–2377UF
Buick Products	
62-73 with separate regulator	97–2378BF
71-85 with built-in regulator	97–2377UF
Cadillac Products	
63-72 with separate regulator (exc. 71-72 Eldorado)	97–2378BF
71-85 with built-in regulator	97–2377UF
Chevrolet Products (incl. trucks)	
62-72 with separate regulator	97–2378BF
71-85 with built-in regulator	97–2377UF
Chrysler Products (incl. Dodge/Plymouth)	
70-83 All	97–2380YF
Ford Products (incl. Lincoln/Mercury & trucks)	
65-83 All	97–2379PF
GMC Products	
62-72 with separate regulator	97–2378BF
71-85 with built-in regulator	97–2377UF
Oldsmobile Products	
62-72 with separate regulator	97–2378BF
71-85 with built-in regulator	97–2377UF
Pontiac Products	
63-70 with separate regulator	97–2378BF
71-85 with built-in regulator	97–2377UF

Chrome-plated TIMING COVERS for Chevrolet V8

Triple-chrome-plated and polished to a high luster ... keep front of engine looking bright, beautiful. Easy to clean.

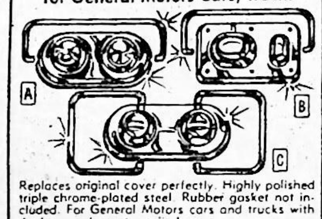

For 283, 305, 307, 327, 350, 400 eng.
37–9753B— .... Each **$4.79**
37–9754P—Timing Tab for above ... Ea. $1.49
37–8436N—Gasket set for above ... 1-Set 3.99
For 396, 427 and 454 engines.
37–9755X— .... Each **$7.49**
37–9756N—Timing Tab for above ... Ea. $1.49
37–8447B—Gasket set for above ... 1-Set 4.99

Chrome-plated DRESS-UP DRIVELINE KITS for Chevrolet Cars

One kit customizes and highlights drivetrain while matching other chromed engine parts (see Index).
Easy bolt-on installation—replace originals perfectly. Includes chromed steel 10-bolt differential cover, transmission pan and dipstick. For the following Chevy cars with 10-bolt rear end covers:
85–9881B—W/turbo 350 trans ... 1-Kit $29.95
85–9882P—W/turbo 400 trans ... 1-Kit 29.95

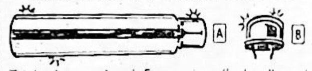

Custom-look • Chromed MASTER CYLINDER COVERS for General Motors Cars, Trucks

Replaces original cover perfectly. Highly polished triple chrome-plated steel. Rubber gasket not included. For General Motors cars and trucks with dual reservoir master cylinders.

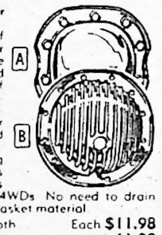

[A] **Fits master cylinders with equal reservoirs and single bail clip.**
85–7770R— .... Each **$3.98**
[B] **Fits master cylinders with unequal reservoirs and single bail clip.**
85–7771X— .... Each **$3.98**
[C] **Fits master cylinders with equal reservoirs and dual bail clip.**
85–7772N— .... Each **$3.98**

OIL FILLER TUBE & CAP for All 55-69 Chevrolet V8

Triple-chrome-plated. Easy to install—fit all stock and custom intake manifolds.
[A] 37–8483X—Filler Tube ... Each $2.49
[B] 37–8565A—Breather Cap ... Each 1.98

Chrome-plated • Snap-on DIFFERENTIAL COVERS

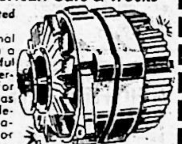

• Choice of smooth or finned
Dress up the rear end of your car, van, truck or RV at a fraction of the cost of stock chromed bolt-on cover or of chrome plating the housing! Chromed high impact ABS plastic cover can be washed and waxed to retain luster. Easy, secure hook spring installation—no tools required. Fit all rear ends or front differential on 4WDs. No need to drain rear end lube or scrape gasket material.
[A] 85–8535N—Smooth ... Each $11.98
[B] 85–8536T—Finned ... Each 11.98

Chrome-plated ADJUSTABLE TIMING TABS for Chevrolet Engines

Simplifies testing ... lets you set timing faster, easier than ever ... adds custom styling. Easy to use and read. Just set pointer at any desired line, make tuning modifications, then set pointer to new specifications.
For 7" balancer on 283, 302, 305, 307, 327, 350 and 400 (2-bbl.) engines.
85–9284R— .... Each **$3.49**
For 8" balancer on 283, 302, 305, 307, 327, 350 and 400 (2-bbl.) engines.
85–9285W— .... Each **$3.49**
For 8" balancer on 396, 402, 427 and 454 engines.
85–9286U— .... Each **$3.49**

Chrome or Gold-plated PERFORMANCE ALTERNATORS for 61-83 American Cars & Trucks

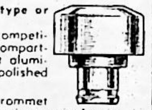

• **Complete with plated pulley**
Replace your original equipment unit with a beautiful and powerful new (not rebuilt) alternator! Alternator for Chrysler Products has 60-65-amp rating depending on application. Alternator for Ford, Lincoln, Mercury Products has 55-amp rating. Alternator for General Motors Products has 55-63-amp rating depending on application, plus regulator and harness adapter for models with built-in regulator. Custom fit the following vehicles:
75-83 American Motors Products (w/Delco sys.)
61-83 Chrysler Products (incl. Dodge, Plymouth)
65-83 Ford Products (incl. Lincoln, Mercury)
62-83 General Motors Products (incl. Buick, Cadillac, Chevrolet, GMC, Oldsmobile, Pontiac)
Not for vehicles with original equipment 70-100 amp alternators. **When Ordering, State Make, Year, Model and Stk. No. For General Motors Products, Also State Built-in or Separate Regulator. Note: The stock number you ordered may carry a different identification number on your package.** Shipped from factory. No C.O.D. orders.
Triple-chrome-plated Alternator.
55–3202TF— .... Each **$108.88**
24K Gold-plated Alternator.
55–3203AF— .... Each **$249.98**

Chromed MINI DRESS-UP KIT for General Motors V6 & V8 Engines

A great way to start or complete any engine customizing job! Easy to install. Includes these hard-to-find chromed parts: H.E.I. wire retainer/coil cover, master cylinder cover and power steering cap. Fits all General Motors V6 or V8 engines with original 4-1/2" x 6-7/8" plastic master cylinder cover.
85–9282T— 1-Kit **$12.98**

Milled or Polished Aluminum BREATHER CAPS

• Choice of push/twist type or PCV-style caps
Dresses up and adds a competition look to any engine compartment. Solid stock aircraft aluminum with milled or highly polished finish.
Push/Twist Caps. With grommet to convert twist-type applications to push-type.
38–0772P—Milled finish ... Each $22.98
38–0773Y—Polished finish ... Each 22.98
PCV-style Caps. Eliminates ugly PCV unit.
38–0774W—Milled finish ... Each $22.98
38–0775T—Polished finish ... Each 22.98

Chromed STARTER SOLENOID for American Motors, Jeep® & General Motors Vehicles

• **Dresses up and customizes engine compartment**
Remanufactured to quality standards. Includes all new windings and plunger. For these cars, trucks with Solenoid switch on starter: 68-84 American Motors 6 & 8-cyl. cars; 66-71 Jeep® vehicles; 56-81 Buick, Chevrolet, Oldsmobile, Pontiac cars; 56-81 Chevrolet/GMC trucks.
73–6984A— .... Each **$19.95**

Engine & Transmission DIPSTICKS for Chevrolet

Triple-chrome-plated

Replace old or damaged dipsticks easily ... without modifications. Complete with tube assembly.
ENGINE OIL DIPSTICKS.
For Small Block V8 283, 307, 327, 350 and 400 Engines.
37–8522B— .... Each $4.49
For Big Block V8 396, 402, 427 and 454 Engines.
37–8523P— .... Each $4.99
TRANSMISSION FLUID DIPSTICKS.
For All Chevy Turbo 350 Trans.
85–9137R— .... Each $9.99
For All Chevy Turbo 400 Trans.
85–9138X— .... Each $8.99

Chromed or Gold Anodized BREATHER CAPS

Pushes into all custom valve covers. High-porosity filter area improves breathing. Requires grommet [E] below.
[A] **Rectangular Caps.** Chromed. Available with or without smog tube.
38–0269X—w/o smog tube ... Each $3.49
38–0270N—with smog tube ... Each 3.59
[B] **Round Caps.** Chromed or gold anodized.
38–0348R—Chromed ... Each $2.49
38–0349X—Gold anodized ... Each 2.69
[C] **Flat Cap.** Chromed. For closed system.
38–0731W— .... Each $2.69
[D] **Mopar Style Cap.** Chromed. With filter and 5/8" breather neck.
38–0732U— .... Each $4.49
[E] **Grommet** for caps above
38–0271T— .... Each 49¢

Chrome-plated • High Voltage IGNITION COIL delivers up to 40,000 volts

• **Assures faster starts and better overall performance**
• **Dresses up engine compartment**
• **Delivers a hotter, smoother spark at all engine speeds**
• **Reduces spark plug fouling to increase plug life**
Tough alkyd resin shell with chromed outer cover. Oil filled to keep windings cool—helps prevent coil failure. Coil resistor prevents contact point burn up. Includes chromed mounting bracket. For all 12-volt vehicles exc. 74-85 GM products with coil inside distributor cap.
81–1959Y— .... Each **$17.95**

Super Spark HIGH-PERFORMANCE IGNITION COIL

Delivers up to 60,000 VOLTS!

• **Provides maximum ignition power!**
• **Assures easier starts in all weather, reduced plug fouling for longer plug life and better overall ignition performance**
• **Eliminates misfires**
• **Only slightly larger than stock coils ... computer-designed windings result in the compact 2-3/8" diam. x 6-1/2" high coil size**
High-performance coil (coil shell and tower made of high-dielectric space-age materials) delivers a super-hot, super-smooth spark to the spark plugs ... provides the most efficient combustion for maximum engine performance. Ballast resistor is mounted directly to coil and is protected by chromed case. Oil filled to keep windings cool ... helps prevent coil failure. For all 12-volt vehicles except 74-85 General Motors Products with coil inside distributor cap. With chromed mounting bracket.
81–1960W— .... Each **$24.95**

Chrome-plated High-torque STARTER for American Cars & Trucks

• **Brilliant show-car quality finish**
• **Increases cranking power for easier starts, especially on high-compression engines**
• **Up to 20% more torque**
NEW (not rebuilt) starter has heavy-duty field coil and armature to deliver high torque with low current draw. For the following vehicles: 61-84 Chrysler Products (8-cyl.); 66-83 Ford Products (6 & 8-cyl.); 65-79 General Motors Products (8-cyl.); 63-79 Lincoln Products. Starters for GM Products include solenoid. **When Ordering, State Make, Year, Model, Engine Cubic Inch Displacement, Automatic or Manual Transmission & Stk. No. For Buick Cars with 350 Engine, Also State 5th Digit of Vehicle Identification Number. For Ford Products with 351 Engine, Also State if Cleveland or Windsor Engine. Note: The stock number you ordered may carry a different identification number on your package.** Shipped from factory. No C.O.D. orders.
55–3258NF—
Each **$139.95**

Chromed WATER PUMP for Corvette

• **Dresses up engine compartment**
Remanufactured to rigid standards, then inspected and vacuum tested. With NEW impeller, shaft, bearings and seals. For 71-79 Chevrolet Corvette with 350 (special short-leg style) engine.
38–0708U— .... Each **$79.95**

Chrome-plated DIFFERENTIAL COVERS for Chevrolet Cars & Pontiac Firebird

Replaces original perfectly while adding custom touch to your car. Steel.
Fits all Chevrolet with 10-bolt covers (exc. 82-... Camaro—see below)
85–5453U— .... Each $10.9[illegible]
Fits all Chevrolet with 12-bolt covers.
85–5454B— .... Each $10.9[illegible]
Fits 82-85 Chevrolet Camaro & Pontiac Firebird.
85–8706B— .... Each $11.9[illegible]

Chrome-plated Steel DIFFERENTIAL COVERS for Trucks

Dress up rear end housing with one of the finest differential covers available! Processed from new stock, then chrome plated and polished for lasting brilliance.
For all trucks w/DANA 44 axle.
85–7631T— .... Each $19.9[illegible]
For all trucks w/DANA 60 axle.
85–7630N— .... Each $21.9[illegible]
For 63-82 GMC trucks w/12-bolt rear axle.
85–8708Y— .... Each $19.9[illegible]
For 73-82 GMC trucks w/14-bolt rear axle.
85–8709W— .... Each $26.9[illegible]
For 78-85 GMC trucks w/10-bolt Corporate [illegible] axle.
85–8707P— .... Each $19.9[illegible]
For 82-85 Chevy S10 & GMC S15 rear axle.
85–8706B— .... Each $11.9[illegible]
For 83-85 Chevy K-Blazer & GMC K-Jimmy [illegible] axle.
85–9873R— .... Each $10.[illegible]

BRAIDED STAINLESS STEEL DRESS-UP HOSE COVER KIT

• **The performance look of professional plumbing at a fraction of the price!**
• **Stainless steel covers are impervious to corrosion, abrasion, tearing, high temperatures**
Hose covers expand or contract to fit any diameter hose, vacuum line, etc. perfectly. Kit includes the following lengths and sizes to customize entire engine.

Lgth.	I.D.	Application
30 ft.	¼" to ½"	Spark plug wires, vacuum lines, fuel lines
12 ft.	⅜" to ⅝"	Fuel lines, PCV line, radiator overflow tube
8 ft.	1" to 1¾"	Small radiator hoses, heater hoses, vacuum lines, heater hoses
2½ ft.	1½" to 3"	Radiator hoses

With 2 ft. of 1/2" O.D. clear heat-shrinkable tubing. Order colored end clamps below to complete installation.
74–8107W— .... 1-Kit **$89.9[illegible]**

Colored End Clamp Kits for above. Polished anodized aircraft aluminum in choice of 4 colors. Includes the following clamps:

Quantity	I.D.	Applications
♦8	3/8"	Vacuum lines
4	11/16"	Fuel lines, PCV line
2	1"	5/8" I.D. heater hose
2	1-1/16"	3/4" I.D. heater hose
2	1-3/4"	Small radiator hose
2	1-7/8"	Larger radiator hose

♦Consists of color-matched, heat-shrinkable tubing. Hose clamps (not included—see Index) required for installation of end clamps.
74–9520R—Black | 74–9522N—[illegible]
74–9521X—Red | 74–9523T—[illegible]
Above Numbers .... 1-Kit $16.[illegible]

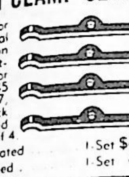

Chromed WATER OUTLET for American V8 Engines

Includes gasket and chromed bolts. For these V8 engines:

Year, Model	Stk. No.
55-65 Chevrolet, Chevy II, and Chevelle	37–[illegible]
56-63 Corvette	37–[illegible]
66-79 Chevrolet, Camaro, Chevy II, Chevelle, Corvette, 1/2-ton trucks	37–[illegible]
65-76 Ford 289, 302, 351W	37–[illegible]
Chrysler 318, 340, 360 eng.	37–[illegible]
64-81 Pontiac V8	38–071[illegible]

SATISFACTION GUARANTEED or MONEY BACK

Extra-wide VALVE COVER HOLD-DOWN CLAMP SETS

[illegible] sealing area for [illegible] gasket seal [illegible] protection [illegible] oil loss. Heat[illegible] steel with zinc or [illegible] finish. Fit 60-85 [illegible] 283, 305, 307, [illegible] & small-block [illegible] with stamped [illegible] covers. Set of 4.

Chromed ENGINE DRESS-UP KITS for Chevrolet, Chrysler & Ford Small Block V8 Engines and Chevrolet & Buick V6 Engines

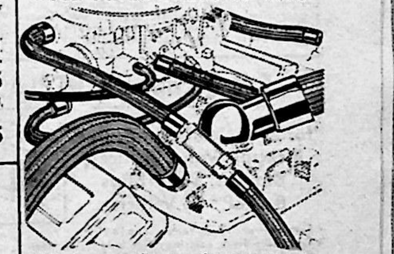

Customizing components ... now packaged together in low-priced kits! All parts fit and function perfectly. Components are chrome-plated unless otherwise specified. For further engine customizing, see Index for accessories desired.
For 59-84 Chevrolet 283, 305, 307, 327, 350 & 400 cu. in. 2-bbl. engines. Kits include valve covers (choice of high or low-rise chromed steel covers, or finned cast aluminum covers with polished or black krinkle finish), timing tab, dipstick and tube, 8 pull-apart wing nuts, 2 wire loom brackets and oil cap. Kits with steel covers also include 8 hold-down straps.
Kits with chromed steel valve covers.
38–0080Y—High-rise (shown) ... 1-Kit $49.95
38–0079P—Low-rise ... 1-Kit 49.95
Kits with cast aluminum valve covers. (Same size as O.E.M. covers.) ... 1-Kit
38–0081W—Black krinkle finish ... $49.95
38–0082U—Polished finish ... 49.95
For 77-84 Buick, Chevrolet, Oldsmobile & Pontiac 231 cu. in. even-fire V6 engines (exc. with Turbo). Kit includes valve covers, 8 pull-apart wing nuts, 8 valve cover hold-down tabs, push-on breather and 2 rubber grommets. To determine if 1977 engine is even fire, check fifth digit of vehicle identification number; the letter "A" indicates an even-fire engine.
38–0465A— 1-Kit $44.95
For 80-84 Chevrolet & Pontiac 229 cu. in. V6 engines. Includes same components as 38–0465A above.
38–0466R— 1-Kit $44.95
For 64-73 Chrysler, Dodge & Plymouth 273, 340 & 360 cu. in. V8 engines and 67-84 318 cu. in. V8 engines. Includes valve covers, waterneck, 12 pull-apart wing nuts, 2 wire loom brackets, push-on breather and 2 rubber grommets.
38–0467X— 1-Kit $52.95
For 68-78 Ford & Mercury 302 Boss, 351C & 400 cu. in. Cleveland V8 engines. Includes valve covers, waterneck, 16 pull-apart wing nuts, push-on breather, distributor hold-down, 2 wire loom brackets and 2 rubber grommets.
38–0468N— 1-Kit $54.95
For 68-84 Ford, Lincoln & Mercury 302 (exc. Boss) & 351 cu. in. Windsor V8 engines. Includes same components as 38–0468N above except has 12 pull-apart wing nuts.
38–0469T— 1-Kit $52.95

Chrome-plated VALVE COVER WING NUTS

Designed to enhance stock or custom valve covers. Wing nuts press on securely in any position after shaft is tightened to assure proper alignment. Set of 4 steel nuts and 4 shafts.
1/4"-20 thread. Fits 55-85 Chevrolet V-8 eng., 59-83 Oldsmobile V-8; 62-85 Ford 221, 260, 289, 302, 351 and 429 V-8 eng.; 59-80 Dodge & Plymouth All (exc. 426 Hemi)
37–9624N— 1-Set **$5.95**
5/16"-18 thread. Fits 58-85 Ford 332, 352, 390, 406, 427 and 428 V-8 eng.; 55-83 Pontiac V-8.
37–9625B—
1-Set **$5.95**

HOSE COVER DRESS-UP KITS

• **Adds show-car styling to engine compartment ... protects hoses and lines from abrasions, cuts**
• **Choice of 4 colors**
Tough nylon/plastic woven coverings expand or contract for snug fit. Withstand temperatures to 260°F. Resist fuel, oil, chemicals ... won't fade or discolor. Cut to desired length with scissors. Order end clamp kits below to complete installation. Kit includes the following coverings:

Length	I.D.	Applications
5 ft.	¼" to ½"	Vacuum lines, small fluid lines
6 ft.	½" to ¾"	Fuel lines, PCV line, radiator overflow line
10 ft.	¾" to 1¼"	Heater hose, power steering hose, AC lines
3 ft.	1¼" to 1¾"	Small radiator hose
3 ft.	1¾" to 2¼"	Larger radiator hose

74–8060X—Black
74–8061N—Red
74–8062T—Blue
74–8063A—Clear 1-Kit **$24.95**

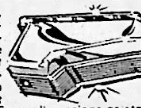

End Clamp Kits for above. Polished and deep anodized aircraft aluminum. Hose clamps (not included—see Index) required for installation of end clamps. ♦ Consists of color-matched, heat-shrinkable tubing. Includes the following clamps.

Quantity	I.D.	Applications
♦8	3/8"	Vacuum lines
4	11/16"	Fuel lines, PCV line
2	1"	5/8" I.D. heater hose
2	1-1/16"	3/4" I.D. heater hose
2	1-3/4"	Small radiator hose
2	1-7/8"	Larger radiator hose

74–8064R—Black
74–8065W—Red
74–8066U—Gold
74–8067B—Blue 1-Kit **$16.95**
Chromed End Clamp Kit. Same as above exc chrome-plated steel.
74–8108U— 1-Kit **$21.95**

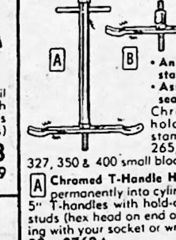

SATISFACTION GUARANTEED or MONEY BACK

Finned Aluminum OIL PAN for 55-78 Chevrolet V8 Engines

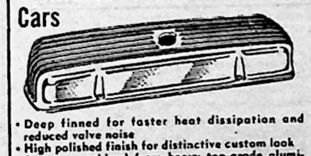

Adds a custom look, improves engine performance. Deep cooling fins dissipate engine heat. Die cast with polished aluminum finish. Precision engineered for exact fit, positive oil seal. Same dimensions as stock oil pan—no problems with ground clearance. With mounting bolts and magnetic drain plug. Fits 55-78 Chevy cars & trucks (exc. 4WD & vans) with 265 thru 400 V8 engines.
37–6642P— .... Each **$62.98**
34–0274A—Oil Pan Gasket Set ... 1-Set $3.49

Chromed T-Handle & Captive Nut VALVE COVER HOLD-DOWNS for Small Block Chevy Engines

• **An attractive alternative to standard fasteners**
• **Assures maximum gasket seal**
Chromed steel 1/4"-20 hold-downs fit cast and stamped valve covers. For 265, 283, 302, 305, 307, 327, 350 & 400 small block Chevy engines.
[A] **Chromed T-Handle Hold-downs.** Studs mount permanently into cylinder head ... single-piece 5" T-handles with hold-down straps thread onto studs (hex head on end of handles allows tightening with your socket or wrench). Set of 4.
38–0762A— 1-Set $17.98
[B] **Chromed Captive Nut Hold-downs.** Similar to above, but with captive hex nuts instead of T-handles. Set of 4.
38–0763R— 1-Set $9.98

Polished Cast Aluminum VALVE COVERS for American Cars

• **Deep finned for faster heat dissipation and reduced valve noise**
• **High polished finish for distinctive custom look**
• **Expertly machined from heavy top-grade aluminum alloy castings—assure positive oil seal**

Auxiliary Polyethylene UNIVERSAL GAS TANK for Pickups, Minis, Vans, RVs, Cars or Garage or Farm Use

Horizontal or vertical mount to fit anywhere

- **16-gal. capacity tank holds gas, diesel, or fuel oil**
- **High-density polyethylene weighs an easy-to-handle 9 lbs. yet is stronger than steel**
- **Compact...won't waste valuable cargo space**

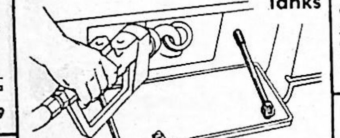

Pre-tested 49" long x 7-1/2" high x 13-1/2" wide tank mounts in bed of all imported mini-trucks and any wide or narrow bed American pickup (long or short wheel base). No body modifications. Fits under crossbed tool boxes. Also mounts in trunk of cars or rear of vans and RVs. Can be used to store liquids in or out of your vehicle. Won't rust or crack even at −50°F. Tank complete with mounting straps, nuts, bolts, gas cap and fuel fill neck assembly. To link tank to existing fuel system, order Transfer Kit below. Shipped UPS from factory. No C.O.D. orders.
97—2305NF— Each $114.95

Electric Transfer Kit. Links tank above to existing fuel system. Turn a switch to divert gas flow from auxiliary tank to original tank (and back again). Kit includes 3-port valve. For vehicles that do not have fuel-return systems. Shpd. from factory. No C.O.D. orders.
97—2306TF— 1-Kit $43.95

Electric Transfer Kit. Same as above except includes 6-port valve. For vehicles with return-fuel systems (identifiable by 3 fuel lines attached to fuel system). Shpd. from factory. No C.O.D. orders.
97—2307AF— 1-Kit $64.95

Electric Transfer Kit. Transfers fuel from auxiliary tank into original tank whether vehicle is moving or stopped. Shpd. from factory. No C.O.D. orders.
97—2308RF— 1-Kit $38.95

LICENSE PLATE EXTENDER for Vehicles with Rear-fill Gas Tanks

Nylon/plastic extender holds license plate door open for easy fillups.
14—9156N— Each $1.99

FUEL TANK LINER COATING for Old or New Fuel Tanks

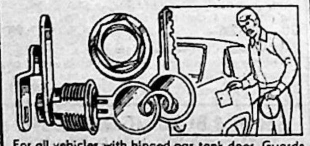

- **Use on metal or fiberglass fuel tanks—all sizes, old or new**
- **Seals-in rust and prevents new rust**
- **Stops pin hole leaks & hair-line cracks**
- **For motorcycles, cars, trucks, RVs, small engine tanks.**

Chemical treatment builds a permanent lining inside the fuel tank, with built-in rust inhibitor, that resists gasoline, gasohol, alcohols, diesel fuel, fuel boosters and additives. Saves costly replacement of fuel tanks due to interior rust or minor leaks. Forms an extremely tough lining. Coating cures overnight, remains flexible to −65°F. For small (1 to 10-gallon) tanks, use one pint for each 3 gallons of capacity. For large tanks (10 to 30-gallons), use 1 to 2 quarts. For large (30 to 50-gallon) tanks, use one gallon. For best results use De-rust and Etch Kit, below.

Fuel Tank Liner Coatings.
14—4594B—One pint Each $5.98
14—4595R—One quart Each 10.98
14—4596X—One gallon Each 32.98

Fuel Tank De-rust and Etch Kit. 2-part treatment completely scours fuel tanks prior to coating. Kit includes 1-pint rust remover and etching solution and 1/2 pint solvent.
14—4597N— 1-Kit $5.98

GAS DOOR LOCK

For all vehicles with hinged gas tank door. Guards against gas thieves. Chrome-plated lock includes 2 keys. Installs easily; some drilling required.
10—4839N—
Each $3.99

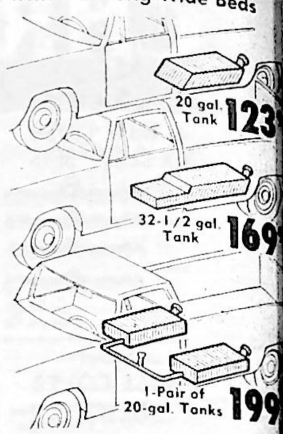

Pump Regular Gas into Your "No-lead" Tank! EMERGENCY GAS TANK ADAPTER

Federal law does not prohibit, in certain cases, the use of leaded fuels in vehicles designated for unleaded fuels to meet a bona-fide emergency. Title 40, Protection of Environment, Section 80.23, states that in an emergency it is permissible to use regular gas in your no-lead tank.

Easy to use...just insert adapter into your "no-lead" tank, then place gas station hose nozzle into adapter. Compact—stores easily. Unbreakable. **For emergency use only!**
73—3659B— Each 98¢

Polyethylene AUXILIARY GAS TANKS for 1/2, 3/4 & 1-ton Pickups with 8 ft. long Wide Beds

- Carry up to 40 gallons of gas
- Easy to install, high-density blow-molded polyethylene
- Strong as 7-gauge steel but only a fraction of the weight
- **Won't rust, leak...extra safe—explosion proof**

Leak proof...gas enters and leaves from top of tank. Switch for 3-port valve mounts on driver's side of cab floor—lets you divert gas flow from auxiliary tanks to original tank. ("Off" position prevents gas flow entirely.) Use gas in auxiliary tank first; when gas is depleted, use 3-port valve to switch to tank's supply (which registers on your fuel gauge). Sending units included with all tanks except 97—2287NF and 97—2293TF. All can be used with tire chains or oversize tires. Easy to install—takes only one hour per tank (only 11 out-of-sight holes to drill). No need to remove slide-in campers or caps or cut side panels—filler tubes are located in rear fender walls. Tanks complete with electric 3-port valve, galvanized steel support bands, zinc-coated bolts, neoprene hose and instructions. **Tanks will not fit pickups with 6-1/2-ft. long beds.** Fits all 2 or 4WD pickups for years listed, except 4WD pickups with oversized springs and other Ford exceptions as listed. **Note:** 73-85 Chevrolet & GMC, 78-85 Ford trucks with 3 fuel lines attached to fuel pump require 6-port valve & fuel return kit (sold at right). Shipped from factory. No C.O.D. orders. **Nos. ending in "E" Not Mailable—See How to Order Page (Truck Shipments). Avg. shpg. wt. for single tanks—26 lbs., dual tanks—38 lbs.**

20-gallon Single Tank. Fits driver's side only. 63-72 Chevrolet and GMC, 62-72 Ford, 73-78 Ford F250 4WD high profile only, 66-71 Dodge. 34" long x 18" wide x 10" high.
97—2287NF— Each $123.95

18-gallon Single Tank. Fits driver's side only. All 73-79 Ford except F250 4WD high profile, 72-75 Dodge. 36" long x 16" wide x 10" high.
97—2288TF— Each $139.95

18-gallon Single Tank. Fits driver's side only. 73-80 Chevrolet and GMC.
97—2289AF— Each $139.95

18-Gallon Single Tank. Fits passenger side only. 76-84 Dodge, 80-85 Ford except F250 4WD high profile. 36" long x 16" wide x 10" high.
97—2290RF— Each $139.95

32-1/2-gallon Single Tank. Fits driver's side only. 73-85 Chevrolet & GMC. Includes fuel sending unit for use with existing fuel gauge. 64" long x 18" wide x 10".
97—2291XFE— Each $169.95

32-1/2-gallon Single Tank. Fits passenger side only for 81-85 Chevrolet and GMC. Includes fuel sending unit and 6-port valve.
97—2292NFE— Each $189.95

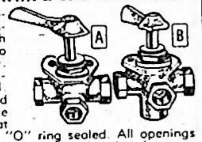

Pair of 20-gallon Tanks. 40-gallon total capacity. Fits 63-72 Chevrolet & GMC, 63-72 Ford, 73-... Ford F250 4WD high profile only and 66-... Dodge. Each 34" long x 18" wide x 10" high. Shipped in 2 pkgs.
97—2293TF— 1-Pair $199.[illegible]

Pair of 18-gallon Tanks. 36-gallon total capacity. Fits 72-75 Dodge, 73-79 Ford (except Ford F... 4WD high profile). Fords with tool box... passenger side use single driver's side tanks at left. Each tank is 36" long x 16" wide x ... high. Shpd. in 2 pkgs.
97—2297UF— 1-Pair $224.[illegible]

6-Port Valve and Fuel Return Kit. Required for 73-85 Chevrolet, GMC and 78-85 Ford with 3 lines attached to fuel pump. Can only be ... with single auxiliary fuel tank kit. With ... clamps, neoprene fuel hose, instructions.
97—2298BF— 1-Kit $38.[illegible]

Fuel Sending Kits. For use with existing gauges.
Use with 97—2288TF and 97—2290RF.
97—2299PF— 1-Kit $26.[illegible]
Use with 97—2297UF
97—2300WF— 1-Kit $44.[illegible]

Heavy-duty Brass SADDLE TANK VALVES for Vehicles with 2 or 3 Gas Tanks

Tie gas tanks together with transfer valves...switch from one tank to another easily. Ideal for long-distance travel. Can also be used between storage tanks on farm or at construction site. "O" ring sealed. All openings have female threads. Built-in bracket for easy mounting anywhere. Stem length measured from top of bracket to underside of handle.

[A] **3-way Valves for 2 tanks.** Side inlet to front outlet. 1-3/8" long stem.
14—2015P—1/4" pipe size Each $11.95
14—2016Y—3/8" pipe size Each 13.95

[B] **4-way Valves for 3 tanks.** Side inlet to bottom outlet.

Pipe Size	Stem	Stk. No.	Each
1/4"	1-3/8" long	14-2017W	$12.95
3/8"	1-3/8" long	14-2018U	11.95
1/4"	2-3/8" long	14-2019B	12.95
3/8"	2-3/8" long	14-2020P	16.95

GAS TANK SEALER

- **Permanently repairs rusted gas tanks**

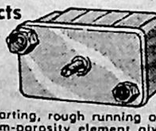

Ideal for antique or classic cars where replacement tanks are unavailable. To use, remove fuel from tank. Ventilate thoroughly. Remove tank from vehicle, then take out parts (sending unit, float, etc.) that could become clogged by sealer. Pour sealer in tank & slosh to cover entire inside surface. Let air dry 24 to 74 hours, then re-install in vehicle. One-quart can will repair one auto gas tank.
17—9775R— Each $10.99

Stop ALL leaks instantly!

MAGIC STICK stops leaks without draining system or welding. Seals gas tank, transmission and differential leaks, water drums, radiators and battery cases. Just rub compound stick in leak. Unaffected by temperature changes.
10—3657B—4-oz. stick $7.99
10—5332P—1-oz. stick 3.99

DIESEL FUEL FILTER for GM Products

- **Exact fit, same configuration as original equipment**

Replace your diesel engine fuel filter twice a year to eliminate stalls, hard starting, rough running and power loss. Uniform-porosity element gives maximum fuel filtering efficiency. Insures maximum fuel injector performance.

For all 77-84 General Motors cars and trucks with 4.3 & 5.7-liter diesel engines.
73—3452B— Each $7.98

For Chevrolet and GMC trucks and vans with 6.2-liter diesel engines.
84—0829A—1983 vans only Each $7.98
84—0847T—84-85 Each $9.98

Polyethylene Auxiliary GAS TANKS for VANS

Fit 70-85 full-size Chevrolet, GMC, Dodge, Ford & Plymouth

- Carry up to 22 extra gallons of gas
- Outside wheel well filling system
- Complete with sending unit
- High-density polyethylene tanks are up to ... lbs. lighter, yet are equal in strength to 7-gauge steel van tanks!

1-piece seamless construction won't rust or ... Switch for 4-way valve mounts inside cab—... you divert gas flow from auxiliary to original... Use gas in auxiliary tank first; when gas is depleted, use 4-way valve to switch to regular ... supply (which registers on your fuel gauge... stalls easily on driver's side—no holes to d... body work needed. Complete with hose, ... coated hardware, cap, mounting hardware... instructions. Shipped UPS from factory... C.O.D. orders. Fits the following 70-85 ... vans:

In-Line FUEL LOCK with Hidden Anti-Theft Switch

- No keys or arming devices required
- Activate hidden switch from inside your vehicle—valve locks off fuel flow to the carburetor
- Improves insurability of your vehicle

After you have activated this fuel line lock, your vehicle will travel only a short distance before running out of gas! System cannot be bypassed by hot-wiring, cutting wires or using ignition key! Easily installed, does not affect warranty. Draws only 8 watts...uses no power when vehicle is parked with Fuel Lock armed! For 12-volt vehicles with gas or diesel engines. All necessary parts and instructions included.
73—5049U—Gas Each $39.95
73—5281T—Diesel Each 59.95

Heavy-duty • Waterproof OFF-ROAD or MARINE FUEL PUMPS

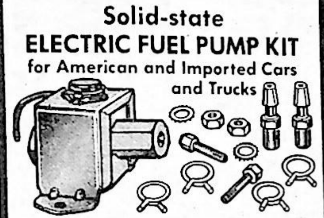

- **Completely sealed to keep out water, dust, sand**
- **Deliver up to 38 or 42 gallons per hour (GPH)**
- **Choice of 12 or 24 volt**

Install at tank or fuel compartment. UL listed. Mounting hardware and installation instructions included. 1/4" inlet.

Solid-state ELECTRIC FUEL PUMP KIT for American and Imported Cars and Trucks

- **Compact (3" x 2-1/2" x 3") and lightweight (only 18 oz.)...yet delivers up to 35 GPH**
- **Solid-state reliability...no moving electrical parts, bearings, levers or diaphragms to wear out or fatigue**
- **Water-tight, corrosion & vibration resistant**

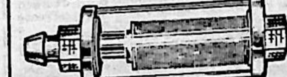

Designed to replace and outlast OEM mechanical or electric fuel pumps! Eliminates vapor lock provides a constant, smooth, dependable supply of fuel under pressure even in the hottest weather or high altitudes. Built-in pressure relief assures restarts on the hottest days. Starts engine faster and at lower temperatures to prolong battery and starter motor life. **Meets the individual fuel pressure and flow rate requirements of YOUR vehicle.** Pressure range preset at 1-1/2 to 6 psi, depending on application...up to 30 GPH on imported vehicles, up to 35 GPH on American vehicles. Self priming to 18" (45.7 cm) fuel lift. May be used for gasohol. Rugged steel case. Kit includes: pump; 5/16" straight brass fittings; 1/4" diam. mounting bolts, nuts and lock washers; hose clamps; instructions. For the following cars (or trucks where specified) with **12-volt negative-ground systems except diesels.** ♦Indicates won't fit models with fuel injection.

Note: If original 6-volt system was converted to a 12-volt negative ground system this pump will also work.

When Ordering, State Make, Year, Model, Cubic Inch Displacement of Engine, Number of Cylinders, and Stock Number. NOTE: The stock number you ordered may carry a different identification number on your package.
55—2971U— 1-Kit $26.98

See-thru FUEL FILTERS

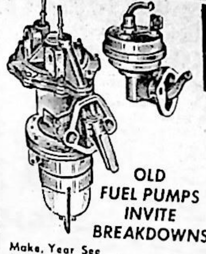

- **Super cleans fuel to assure peak performance**

Remove harmful grit and dirt before they can unseat a needle valve or clog a jet. Aircraft-type element captures particles as small as 40 microns—finer than OEM standards. Clear glass body lets you observe effective filtering action. Available for vehicles with 1/4", 5/16" or 3/8" fuel lines. Includes fuel line filter, replacement element, O-rings and hose clamps. Order extra replacement filters below.
73—4714U—For 1/4" fuel lines
73—4715A—For 5/16" fuel lines
73—4716R—For 3/8" fuel lines Each $6.99

Filter Replacement Kit. Includes 3 elements and six O-rings.
73—4617R— 1-Kit $3.99

Performance-proven FUEL PUMPS FOR AMERICAN CARS AND TRUCKS

- **New, not rebuilt—no exchange necessary**

Car wasting gas, losing horsepower, stalling or starting hard? Windshield wipers slowing down? Your fuel pump could be worn out. Our fuel pumps are designed to prevent those problems and to operate with maximum efficiency, economy and dependability. Features for peak performance, long life: non-ferrous, die-cast housings; pulsator diaphragms with spun nylon base fabric that resists wear, remains flexible even in sub-zero temperatures; built-to-last free-flow valve assembly; rocker arms with abrasion-resistant case-hardened surfaces. Pumps factory checked for correct pressure and vacuum.

HOW TO ORDER: State Make, Year, Model, No. of Cylinders, Cubic Inch Displacement, With or Without Air Conditioning, Electric or Vacuum Wipers, With or Without Turbocharger, Type of Carburetor, No. of Barrels, Single or Dual Pump & Stk. No. For 77-79 Buick, Oldsmobile or Pontiac with 350 engine, Also State Vehicle Identification Number (VIN—found on state registration card or on dashboard, inside the windshield on driver's side). For All Trucks, Also State Series (C, K, F-150, etc.) Note: The stock number you ordered may carry a different identification number on your package.

12V FUEL TRANSFER PUMP

- **Pumps over 30 gals. per hour**
- **Safely transfers all fuels and thin non-consumable liquids**

Plugs into your cigarette lighter. Self-contained, housed in polyethylene case. Includes 17-ft. cord, on-off switch, cigarette lighter plug, 12-ft. transfer tubing, 2 hose connector fittings, copper feeder weight tube, instructions. For vehicles without lighter socket, order adapter below.

Solid state

15—9998R— Each $29.99

Battery Adapter (not shown). Cigarette lighter receptacle with alligator clips.
15—6131P— Each $3.99

High-pressure Electronic FUEL PUMPS for American & Imported Cars & Trucks

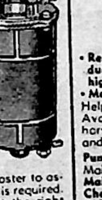

- **Solid state—only 3 moving parts for long life**
- **Powerful 10 psi rating**
- **Delivers up to 48 gallons per hour**

Two built-in filters: magnetic filter traps metallic particles ...nylon mesh filter removes impurities. Both clean easily and can be reused. With instructions.

Electronic Gas Pump. Also for gasohol. With 70-micron nylon mesh filter.
73—5042R— Each $59.95

Electronic Diesel Fuel Pump. With 420-micron nylon mesh filter.
73—5043X— Each $59.95

Adjustable Pressure Electric FUEL PUMP for All American & Imported Cars, Trucks and Buses

- **Adjusts from 1¾ lbs. to 5 lbs.**
- **Replaces all mechanical or electric fuel pumps.**
- **Delivers up to 35 gals. per hr.**
- **Operates independently of engine...pumps whenever fuel is needed.**
- **Eliminates vapor lock.**
- **Eliminates flooding or starving, regardless of speed.**
- **Promotes easier starting in cold weather, positive restarts in hot weather.**
- **Can be mounted anywhere.**
- **Has built-in fuel screen.**

Easily installed as primary pump or booster to assure ample fuel supply when extra fuel is required. Pressure is adjustable to deliver just the right amount of fuel at evenly controlled pressure. Install singly, or in multiples where higher fuel requirements are needed. With mounting bracket, instructions. **Note: Because of their alcohol content, gasohol and octane-boosting fuel additives should not be used with this pump.** For all 6 & 12-volt systems (except fuel injected).

For American Cars, Trucks, Buses.
73—1207B—6 volt
73—1208P—12 volt Each $31.95

For Imported Cars, Trucks.
73—5684Y—12 volt Each $37.95

Non-adjustable Pump. Same features as above.

For American Cars & Trucks
73—0906P—6 volt
73—0907Y—12 volt Each $27.95

For Imported Cars & Trucks.
73—2807Y—12 volt Each $29.95

Chrome-plated Non-adjustable Pump. 12-volt
73—4553W—
Each $36.88

Hi-performance Chrome-plated FUEL PUMPS

Deliver 78 and 80 gallons per hour

- **Replacements for OEM mechanical pumps produce the volume of electric pumps...handle high-demand carburetors**
- **Maintain fuel pressure of 7.5 and 4.5 psi**

Help prevent stalls and hard cold weather starts. Avoid expensive breakdowns. Help restore lost horsepower. Operate with maximum efficiency and economy. With all necessary fittings, gaskets.

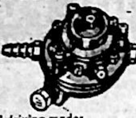

Pumps deliver 78 gallons per hour at 7,000 RPM. Maintain 7.5 psi fuel pressure.

Make and Model	Stk. No.	Each
Chevrolet		
283-400 small block eng.	73—4324B	$41.95
396-454 large block eng.	73—4798X	49.95

Pumps deliver 80 gallons per hour at 7,000 RPM. Maintain 4.5 psi fuel pressure.

Make, Year, Model	Stk. No.	Each

Self-adjusting FUEL PRESSURE REGULATOR

- Automatically adjusts fuel pressure to the carburetor according to your engine's needs
- Helps maintain proper fuel/air mixture through all driving modes
- Conserves gas by allowing the carburetor to work more efficiently
- Reduces chance of percolating and flooding
- No adjustments or maintenance necessary
- Compact...easy to install

Installs between the fuel pump and the carburetor, with a vacuum sensing line going to the intake manifold. Kit includes hoses, clamps, vacuum tee and instructions. Regulator has a solid brass hex head plug (1/8" NPT) on bottom section for mounting a fuel pressure gauge (not incl—order below). **Note: Regulator is for use with conventional carburetor systems only, not for use with fuel injection systems or diesel engines.**

For all vehicles up to 1984 except 76-84 General Motors Products.
73—5749R— 1-Kit **$29.95**

For all 76-84 General Motors Products (Buick, Cadillac, Chevrolet, Oldsmobile and Pontiac).
73—5750X— 1-Kit **$29.95**

Fuel Pressure Gauge for above kits.
14—4043P— Each **$32.95**

Powerful High-performance OCTANE BOOSTER

- Raises octane rating of regular or unleaded gas up to 4%
- Outperforms all major octane boosters for less cost...conditions more fuel per ounce!
- Can help increase mileage from 5% to 35%

Powerful fuel conditioner boosts horsepower and performance. Helps control engine-damaging knock and ping—saves money on costly repairs. Cleans engine ... removes water to prevent gas line freeze-ups. Won't harm fuel lines, carburetor, rubber parts or gaskets. For all 2 and 4-cycle gasoline engines.

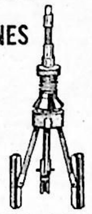

12-oz. Container. Treats 40 gallons. 14—9382X— Each **$4.49**
1-quart Container. Treats 105 gallons. 14—9383N— Each **$8.99**
1-gallon Container. Treats 420 gallons. 14—9384T— Each **$24.99**
Racing-strength Octane Booster. Similar to above, but will raise octane rating up to 10%.
12-oz. Container. Treats 30 gallons. 12—3490W— Each **$4.49**
1-quart Container. Treats 90 gallons. 12—3491U— Each **$8.99**
1-gallon Container. Treats 360 gallons. 12—3492B— Each **$23.99**

Heavy-duty CYLINDER WALL GLAZEBREAKER & HONES
with Adjustable Tension

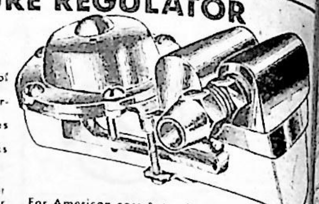

Range: 2" to 7" (51mm to 178mm). Flexible drive makes it easier to hone hard-to-get-at cylinder walls. Hones a cylinder in 20 seconds. Easy to use—no adjustments to make, constant correct honing pressure. Use with 1/4", 3/8" or 1/2" drill. With three 4" long 280-grit stones—no sandpaper or emery cloth.
15—3745P— **$21.95**
Replacement Stone Set for above. Set of 3
15—3746Y— 1-Set **$7.98**

Standard-duty GLAZEBREAKER & HONES

Range: 2" to 7" (51mm to 178mm). With three 3" long 280-grit stones, adjustment cone, retaining band and flexible shaft.
12—2803A— Each **$17.88**
Replacement Stone Set for above. Set of 3
12—2804R— 1-Set **$6.88**

FUEL PRESSURE REGULATOR
with BUILT-IN FUEL FILTER

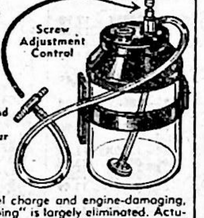

- Helps you drive with FULL-TIME POWER
- Regulates gas flow, filters and traps particles of dirt and debris
- Reduces flooding, stalling, rough idling, misfiring and overheating
- Helps reduce carburetor wear ... eliminates vapor lock
- Fits all American and imported cars and trucks with internal combustion gasoline engines

Supplies carburetor with an even fuel flow while it filters fuel and removes damaging dirt and other impurities. Reduces gas pressure to a constant 3-1/2 lbs.—the pressure at which your carburetor is designed to operate most efficiently and economically. **When Ordering, State Make, Year, Model, No. of Cylinders and Stk. No. For Imported Cars, also state if more or less than 2500cc engine. Note: The stock number you ordered may carry a different identification number on your package.**

For American cars & trucks (exc. prior to 1961—see below). 55—2951Y— Each **$8.95**
For Imported cars & trucks. 55—2277W— Each **$8.95**
For American cars & trucks prior to 1961 with soft fuel lines. 73—1001R— Each **$8.95**

WATER VAPOR INJECTION
SYSTEM FOR ALL VEHICLES

Smooths out, cools down and CONTROLS hot, dry, engine-damaging detonation to give you increased power...gas and mileage savings

- **Burn lower octane gas ... helps eliminate harmful "ping," "knock" and power loss!**
- **Cleansing water vapor dissolves harmful, power-robbing carbon so your engine runs better, lasts longer!**
- **Spark plugs stay clean, last longer, maintenance costs are reduced**
- **Adjustable brass valve with lock nut maintains set water flow**

We predict that the new cars of the future will be equipped with water injection. The technology of the 80's must solve the problem of scarce and expensive gasoline. Water vapor injection, already proven by years of successful aircraft and racing engine use, uses a plentiful and absolutely free "additive"—ordinary tap water—to make any size engine more fuel-efficient. The combination of "free energy" plus the simple, trouble-free design and low cost of the system put Water Vapor Injection high on our list of best-buy energy savers.

Utilizes your engine's existing vacuum system—the truest indicator of engine demand—to precision-meter water vapor into the carburetion/combustion system. The Water Vapor Injector System draws no power from your engine or electrical system, letting you benefit from more "free energy." Vacuum demand gives your vehicle's engine more water vapor when it's working harder, less when you slow down. The water vapor "charge" is always attuned to engine requirements ... no chance of the engine getting too much vapor, or too little.

How it works: Vacuum, created by the engine, draws air through a water "bath." This produces water vapor which is inducted, along with the fuel/air charge, into the engine's combustion chambers. The water vapor charge mixes with and balances the fuel/air charge to a more efficient ratio ... extracting more power from every drop of gasoline!

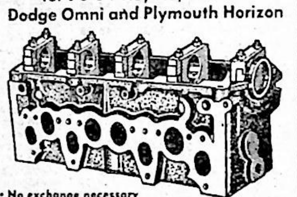

Increases power AND economy! The cooling effect of the water vapor contains and concentrates the fuel/air charge, letting your cylinders "fire" like a rifle, instead of scattering and dissipating the energy, like a shotgun. More power is extracted from each fuel charge and engine-damaging, power-robbing "ping" is largely eliminated. Actually lowers the "octane requirements" of your vehicle's engine ... lets you use lower priced, lower octane gas. You enjoy a smoother-running, better-performing, longer-lasting engine ... improved mileage ... faster, easier starts!

Cleans up the inside of your engine...and keeps it clean! As you use the Water Vapor Injection System, built-up carbon deposits on valves, pistons, heads and spark plugs will soften and be purged away. Continued use will keep the inside of your engine free of carbon, virtually eliminating the glowing interior "hot spots" that help cause the harmful "ping" or "knock" of pre-ignition detonation. Eliminates the need for higher octane fuels in older vehicles, puts an end to frequent spark plug replacements ... and can greatly reduce valve jobs and other expensive engine maintenance.

Install complete system in 1/2 hour. The water container mounts anywhere under hood, T-connector goes to PCV hose, or connect to any central vacuum-tap except the vacuum spark advance line to the distributor. Top-off the water supply approximately every 300 miles, or when you buy gas. Addition of 25% ordinary denatured alcohol, for cold winter climates, will also further increase engine performance. System includes all hardware and complete, easy instructions. Nothing else to buy.
73—5893N— Each **$19.95**

WATER FILTER. Compatible with the standard 5/32" diameter water injection hoses. Features an internal stainless steel grid that filters out all foreign particles over 7 microns.
84—0679P— Each **$2.29**

Remanufactured CYLINDER HEAD ASSEMBLIES
for 78-84 1.5, 1.6, 1.7-liter Dodge Omni and Plymouth Horizon

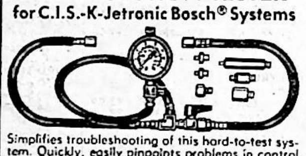

- No exchange necessary

Restore power, improve performance of your engine! Surfaced heads with new silicon bronze guides, exhaust valves, Teflon® valve stem seals. Shipped from factory. No C.O.D. orders. **State Eng. Displacement, Make, Year, and Model.**

For 78-84 Omni and Horizon 1.5, 1.6, 1.7 liter engine without fuel injection. Without camshaft.
78—2770TF—w/o air ejector pump ... Ea. $189.99
78—2772RF—w/air ejector pump ... Ea. 189.99

For 78-84 Omni and Horizon 1.5, 1.6, 1.7 liter engine without fuel injection. With camshaft.
78—2771AF—w/o air ejector pump ... Ea. $289.99
78—2773XF—w/air ejector pump ... Ea. 289.99

FUEL INJECTION TESTER
for C.I.S.-K-Jetronic Bosch® Systems

Simplifies troubleshooting of this hard-to-test system. Quickly, easily pinpoints problems in control pressure regulator or fuel distributor—eliminates guesswork. In-line 2-1/2" diam. gauge reads 0 to 100 psi (0 to 7 kg/cm²). With hoses, shut-off valve, 6 adapters, hook-up and parts schematic and instructions.
12—3617U— 1-Kit **$49.95**

PISTON RING SETS for Cars and Trucks

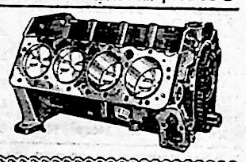

Top quality at low prices. Fit stock or replacement pistons. Precision machined for quick seating...minimum cylinder wear...excessive oil pumping.
HOW TO ORDER: State Make, Year, Model of Car or Truck, Cu. Inch Displacement of Engine, Whether Standard or Oversize Rings are Desired, & Stk. No. If engine has not been rebuilt, and cylinders have not been rebored, honed or sleeved, standard size fits cylinders up to .019 oversize. Size is usually stamped on head of piston or measure exact diameter of cylinders. If cylinders have been rebored, honed or sleeved, **state exact oversize needed, available in .030, .040 or .060.** If size is not stated, standard size will be shpd.

Remanufactured BLOCK ASSEMBLIES
for AMERICAN CARS, TRUCKS & VOLKSWAGEN
SOLD OUTRIGHT—NO TRADE-IN NECESSARY

Rebored and Honed Block: Selected and tested used block won't distort or change dimensions like a new block. All cylinders have been bored to uniform oversize ... none exceed .060. Honed to factory specifications for quick seating of rings. Here's what's included at this low price:

- **New pin-fitted pistons and rings**
- **New main and connecting rod bearings**
- **New camshaft bearings**
- **New rear main bearing seal**
- **New freeze plugs**
- **Precision reground crankshaft (none ground under .030)**
- **Precision reground camshaft—all lobes Parkerized (cam not included for engines with cam in head)**
- **Completely assembled and tested**
- **New timing chain and gears**

Note: External parts such as cylinder heads, oil pump, pan and manifolds not included. (Cam, cam bearings, timing chain and gears are not included for engines with cam in head.)

LIMITED (90 DAY/4000 MILE) WARRANTY
Remanufactured engines are warranted for 90 days or 4000 miles, whichever occurs first, against defects in materials or workmanship. Warranty covers remanufactured block assemblies used in cars or 1/2-ton trucks only.

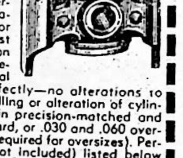

When Ordering, State Make, Year, Model, Engine Size, Manual or Automatic Transmission and Stock Number. ▲ Also State with or without Air Cond. ■ Also State Dipstick Location (Front or Rear). • Also State if Odd-fire (231C) or Even-fire (231A) Engine. Shipped from factory. No C.O.D. orders. **Not Mailable—See How to Order Page (Truck Shipments).**

High-compression & High-performance PISTONS & RINGS

- Increase engine compression ratio
- Gain more horsepower

Precision-made aluminum, pin-fitted pistons designed for increased power and improved performance with dependability on street, strip or track. Easiest and best way to raise compression and boost engine horsepower. Replace original standard pistons perfectly—no alterations to block, no expensive milling or alteration of cylinder heads. Available in precision-matched and balanced sets in standard, or .030 and .060 oversizes (honing of block required for oversizes). Performance ring sets (not included) listed below pistons. **When Ordering, State Make, Year, Cubic Inch Displacement of Engine, Size of Pistons and Rings Required (Standard, .030 or .060) and Stk. No.**

62-69 Chevrolet, Camaro, Corvette, Chevelle and Nova with 327 engine. 4" bore. Increase compression ratio to 11.25:1.
38—0404P— 1-Set of 8 **$249.98**
Set of Rings for 8 pistons. 1-Set
37—3474A—Super Hi-Speed ... $18.49
37—3475Y—Chrome Super Hi-Speed ... 24.98

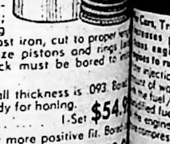

67-78 Chevrolet, Camaro, Corvette, Chevelle and Nova with 350 engine. 4" bore. Increase compression ratio to 11.0:1.

61-70 Chrysler, Dodge, Plymouth, Dart, Charger, Valiant V8 with 383 engine 4-1/4" bore. Increase compression ratio from 9.2:1 to 10.0:1.
37—4606X— 1-Set of 8 **$134.98**
Set of Rings for 8 pistons. 1-Set
37—0806X—Super Hi-Speed ... $19.98
37—0807N—Chrome Super Hi-Speed ... 27.98

66-70 Ford, Comet, Cougar, Mercury, Mustang V8 with 390 engine. 4.05" bore. Increase compression ratio from 9.6:1 to 10.5:1.
37—4605R— 1-Set of 8 **$94.98**
Set of Rings for 8 pistons. 1-Set
33—0587X—Super Hi-Speed ... $18.98
37—1733B—Chrome Super Hi-Speed ... 24.98

64-68 Ford, Comet, Cougar, Falcon, Mercury, Mustang V8 with 289 engine. 4" bore. Increase compression ratio up to 9.8:1.
37—7234N— 1-Set of 8 **$99.98**
Set of Rings for 8 pistons. 1-Set
37—3474A—Super Hi-Speed ... $18.49
37—3475Y—Chrome Super Hi-Speed ... 24.98

CYLINDER SLEEVES, PISTONS and RINGS
for 71-77 Chevy Vega

Cylinder Sleeves. Complete set of 4 new cylinder sleeves: restores lost performance; provides the only real solution to oil burning; extends engine life; promotes operating economy. Quality cast iron, cut to proper [illegible]. Accept standard size pistons and rings [illegible] below). Engine block must be bored to [illegible] sleeves.

Straight Sleeves. Wall thickness is .093. [illegible] 3.498" diam... ready for honing.
37—8728N— 1-Set **$54.[illegible]**
Flanged Sleeves. For more positive fit. [illegible] honed ...ready to install.
37—8729T— 1-Set **$69.[illegible]**
Pistons. For use with sleeves above. [illegible] pin. Set of 4 in standard size (2 oil rings in [illegible] groove).
37—8730A— 1-Set **$44.[illegible]**
Chromed Piston Rings. For use with above [illegible] 4 pistons in standard size.
37—6845R— 1-Set **$12.[illegible]**

ELECTRONIC FUEL INJECTION TESTERS
for Bosch & GM Throttle Body Types

Easy, foolproof, low-cost way to test [illegible] in minutes! Indicates instantly if [illegible] ders are getting proper voltage pulse. [illegible] tester flashes, circuit is OK. If light [illegible] tinuously or doesn't light, EFI is [illegible]. With instructions.

[A] **Tester for Bosch-type (multi-[illegible]) individual-port L-Jetronic) systems.**
12—4258W— Each **$4.[illegible]**
[B] **Tester for General Motors throttle [illegible] systems.**
12—4259U— Each **$4.[illegible]**

CHARGE YOUR ORDER ON YOUR VISA OR MASTERCARD

Aluminum PIN-FITTED PISTONS & Matching Super Hi-Speed PISTON RING SETS

FINEST QUALITY PIN-FITTED PISTONS

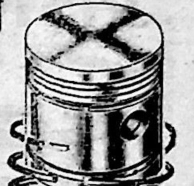

[illegible] precision machined to close tolerances for perfect fit. Restores pep, reduces oil consumption and noise. Tin plated for safer break in, eliminates [illegible] of cylinder wall or piston. Precision ground, hardened steel piston pins fitted to [illegible]. NOTE ▲ Letter corresponds to fifth digit (for 76-80 models) or eighth digit (for [illegible] models) of identification number on left side of dash, be sure to order the right [illegible] for your engine type. ★ Available in Std. only.

MATCHING PISTON RINGS

[illegible] new rings when replacing pistons. Stops oil burning, improves compression, [illegible] trouble-free performance, maximum oil control. Rings match grooves of [illegible] listed on this page perfectly. For rings to fit original type pistons and further [illegible] index for page number. Piston rings are sold in complete sets for each make [illegible] Available in following sizes: Std., .020, .030, .040, .060. Numbers with ♦ also [illegible] in .080 oversize. ■ These sets are chrome style ring sets. • Includes 8 rings, [illegible] for both left and right banks. † Available in Std., .020, .030 only.

HOW TO ORDER PISTONS

1. Standard size pistons are sold singly or in full sets and are shipped from stock.
2. All oversize pistons are sold in full sets only (i.e. 4, 6, 8) and are shipped from factory; no C.O.D. orders.
3. If cylinder wear or taper does not exceed .005, order standard size.
4. If cylinder wear or taper exceeds .005, it is best to rebore and hone to next oversize i.e., .020, .030, .040, .060, .080.
5. If cylinders have been rebored, honed, check size usually stamped on head of pistons. State size.
6. When ordering state: Make, Year, Cubic inch Displacement of Engine, Size of piston required (Standard, .020, .030, .040, .060, .080) and Stock Number.

IMPORTANT
All prices shown are for single piston, but all oversize pistons are sold in full sets only! See How to Order information.
NOTE: General Motors engines are listed under the division that manufactured the engine, not the chassis (example: 231 is Buick, 151 is Pontiac).

Electronic WATER INJECTION SYSTEM
with Temperature-regulated Injection

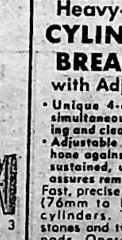

[illegible] Cars, Trucks and RVs
[illegible] power, maximizes fuel economy, [illegible] engine and allows high-compression [illegible] to run on lower octane fuels
[illegible] injection works by introducing a controlled [illegible] of water vapor into the carburetor to mix [illegible] the fuel/air charge entering the engine. The [illegible] fuel burns more slowly and thoroughly [illegible] engine will run cooler, cleaner, and with [illegible] compression and power.

SPECIAL FEATURES
[illegible] **sensitivity**—this system will inject water when the engine is under load. Electronic circuitry monitors starting system and engine rotation [illegible] alternator operation.
[illegible] **circuit**—constantly monitors air [illegible] in the engine compartment and regulates the rate of water injection.
Electronic lock-out—prevents inadvertent [illegible] flow when starting engine or when running [illegible] extremely low RPM.
[illegible] **pump**—can be operated without water [illegible] intermittent periods in the event that the water [illegible] is not filled immediately when empty.
[illegible] **tank**—has .95-gallon capacity.
[illegible] **filter**—filters out foreign particles over [illegible] to prevent clogging.

INSTALLATION
Easy installation—only 3 electrical connections needed to the vehicle's electrical system. Main wiring harness has factory-installed terminals, and the entire system is separately fused. Kit includes water nozzle, flow restrictors, mounting hardware, instructions. For 12-volt neg. ground systems. **Note: For gasoline engines only.**
73—6966Y— 1-Kit **$59.95**

[illegible]INDER WALL HONE/ GLAZE BREAKER AND STONE SET

[illegible] spring tension forces [illegible] against cylinder walls [illegible] the right cutting action. Flexible shaft for hard-to-reach cylinders. Operates [illegible] 1/4" to 1/2" electric [illegible]. Range: 2" to 5-1/2" [illegible] thru 140mm)
[illegible]3656X— **$17.98**
[illegible] Stone Set for above. Contains 3 [illegible] grit stones 3" long.
[illegible]3658T— 1-Set **$7.98**

SATISFACTION GUARANTEED or MONEY BACK

Heavy-duty • 4-arm CYLINDER GLAZE BREAKER HONE
with Adjustable Tension

- **Unique 4-arm design allows simultaneous cutting, lubricating and cleaning**
- **Adjustable spring tension seals hone against cylinder wall with sustained, uniform pressure ... assures removal of glaze**

Fast, precise honing of 3" to 7" (76mm to 178mm) diameter cylinders. Two 4" 220-grit stones and two 4" felt cleaning pads. Operates on all 1/4" through 1/2" electric drills.
14—4330A— Each **$21.95**
Replacement Stone and Wiper Set for above. Includes 2 stones and 2 wipers.
14—4331R— 1-Set **$6.99**

Universal • Chrome-plated IN-LINE FUEL FILTER

- **Dresses up engine compartment**

3/8" inlet/outlet openings have safety bead for positive fuel line retention. For all vehicles except with fuel-injected or diesel engines.
73—6983T— Each **$5.99**

HYDRAULIC LIFTER TOOL

- **Saves up to 3 hours on a lifter job!**

Special tool goes down through the push rod hole and expands inside the lifter to pull lifter out of bore. For all vehicles.
10—4404Y— Each **$11.99**

Solid VALVE LIFTERS
for 52-81 American Cars & Trucks

- **Replace original equipment solid lifters (tappets) ONLY**
- **Prevent pushrod and rocker arm failure**

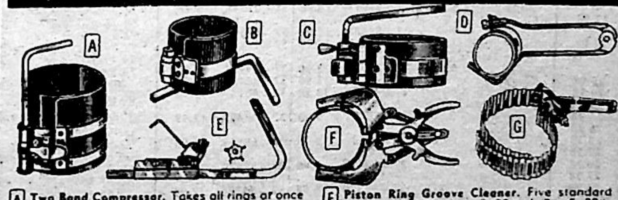

A must when overhauling your engine. Hardened steel. Order 16 lifters for V8 engines, 12 lifters for 6-cylinder engines. For the following vehicles and engines:

American Motors 57-62 V8 250, 327
Chevrolet 55-73 V8 cars, trucks
Chrysler 62-64 V8 413 Hi-Perf. 78-80 L6 225
Dodge 60-80 6-cyl. & V8 cars, trucks
Ford 52-79 6-cyl., V6 & V8 cars
Ford (Cont'd.) 52-81 6-cyl. & V8 trucks up to 534
GMC 56-74 6-cyl., L6 & V6 trucks
Mercury 54-79 6-cyl., L6, V6 & V8
Plymouth 56-80 L6 & V8
Pontiac 56-73 V8

When Ordering, State Make, Year, Model, Engine Size & Stk. No. Note: The stock number you ordered may carry a different identification number on your package.
55—3468P— Each **$2.59**

SEE INDEX FOR HYDRAULIC VALVE LIFTERS

Piston Ring Compressors, Expander & Groove Cleaner

[A] **Two Band Compressor.** Takes all rings at once including skirt rings on all passenger car pistons. Capacity: 2-1/8" to 5" (54mm thru 127mm). 3-1/2" deep. Heavy-duty, quick-release locking ratchet.
51—0066R— Each **$4.39**

[B] **Single Band Compressor with adjustable clutch.** Fits all pistons 2-1/2" to 5" (63mm to 127mm) in diameter.
51—0156Y— Each **$3.69**

[C] **Take-A-Part Ring Compressor.** For removable cylinder type engines, such as Corvair, Volkswagen, motorcycles, or pistons with narrow ring spacings as used in late model vehicles. 2-1/8" to 5" (54mm to 127mm) range.
75—0325A— Each **$6.99**

[D] **Ring Groove Cleaner.** Cleans ring grooves of all pistons up to 5-1/2" diameter (140mm). Hardened cutters range from 3/32" to 1/4" (2.3812mm thru 6.35mm).
51—0214N— Each **$5.49**

[E] **Piston Ring Groove Cleaner.** Five standard cutter blades (5/64", 3/32", 1/8", 5/32", 3/16") on ONE easy-to-set wheel. Rack/pawl mechanism eliminates the problem of setting a thumbscrew while holding tool in position. Heavy coil spring holds cutter in groove under pressure for fast removal of carbon. Handles 2-3/4" to 5" (69.8mm to 127mm) diam. pistons. Order metric cutter wheel below.
12—3996B— Each **$8.99**
Standard Cutter Wheel. Same sizes as above.
12—3997P— Each **$2.29**
Metric Cutter Wheel. Sizes: 2, 2.5, 3, 4, 5mm.
12—3998Y— Each **$2.29**

[F] **Ring Expander.** For fast, easy removal and installation of piston rings. Prevents breakage and distortion. Handles ring from 2-3/4" to 4-1/4" (70mm thru 108mm). No adjusting required.
51—0212R— Each **$4.98**

[G] **Wrinkle-band Ring Compressor.** 50% faster. Set adjustment screw once for entire piston set. Range: 3" to 5" (76.2 to 127mm).
15—7520T— Each **$8.79**

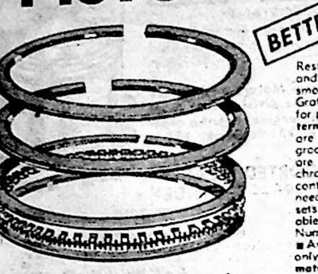

FUEL LINE HOSES
for Auto Fuel Systems

For use with leaded, unleaded gasoline, alcohol, alcohol extended gasolines and diesel fuels. Rating: 50 psi. Hypalon cover with nitrile tube. 257° F rating. Not for fuel injection systems.

Size	25-ft. ROLL Stk. No.	Each	2-ft. LENGTH Stk. No.	Each

PISTON RING SETS FOR AMERICAN CARS and TRUCKS

BETTER SUPER HI-SPEED

Restore your car's engine to peak compression and full power, stop oil burning, pumping and smoking. Super Hi-Speed Piston Ring Sets feature Graf-Flex treated, beveled top compression rings for positive cylinder contact and ring seating. Intermediate rings have inside bevel reversed and are taper faced to seal both sides of the ring groove and seat against cylinder wall. Oil rings are circumferential spacer-expander design with chrome rails for quick seating and positive oil control. Super Hi-Speed Sets contain every ring needed for each make and model of engine. 4 ring sets include the necessary additional rings. Available in std. and .020, .030, .040, .060 oversize. Numbers with ♦ also available in .080 oversize. ■ Available thru .030 only. ▲ Available in std. only. **Important: See how to order. Give all information requested to enable us to fill your order correctly and avoid delay.**

BEST CHROME SUPER HI-SPEED

Stops oil burning, pumping, smoking, blow-by caused by worn rings. Restores full power, faster acceleration, higher top speed and improved gas mileage. Custom Engineered for each make and model engine. Check these outstanding features!

- Wearing edges of top compression and oil ring **CHROME PLATED** for extra heavy duty, long life service and superior performance
- All compression rings Graf-Flex treated to prevent rust
- **Top compression rings beveled on top inside edge** creating tortional effect for positive cylinder contact at lower outside edge. Gives positive ring seating
- **Intermediate compression rings have inside bevel reversed** and are taper faced to seal at sides of ring groove and aid in oil control
- **Circumferential spacer-expander style oil ring with chrome rail.** Best for side sealing in the oil groove—quick seating. Positive oil control—the most modern style ring on the market! Sets contain all rings needed for each engine. Sets for 4 ring piston include all necessary additional rings. Available in the following sizes: std., .020, .030, .040, .060. Numbers with ♦ also available in .080 oversize. ■ Available thru .030 only. ▲ Available in std. only. Note: Oil rings for stk. nos. 37—3467N and 37—3458U are not chromed. **Important: See how to order. Give all information requested to enable us to fill your Order correctly and avoid delay.**

HOW TO ORDER PISTON RINGS

State Make, Year, Model of Engine, Stock No., Standard or Oversize needed. Order standard size if engine has not been rebuilt, if cylinders have not been rebored, honed or sleeved, regardless of mileage. STANDARD SIZE FITS WORN CYLINDERS UP TO .019 OVERSIZE. If cylinders have been rebored, honed or resleeved, determine exact oversize needed—size is usually stamped on head of piston or measure exact diameter of cylinders. State exact oversize needed, such as .020, .030, .040, .060 or .080. If size is not stated on order, standard size will be shipped.

NOTE: GENERAL MOTORS ENGINES ARE LISTED UNDER THE DIVISION THAT MANUFACTURED THE ENGINE, NOT THE CHASSIS (EXAMPLE: 231 IS BUICK, 350L IS CHEVROLET).

Reciprocating VALVE GRINDER

Reciprocating, advancing movement insures even grind. Complete with full set of bits, 1-5/16" vacuum cup, grinding spring.
51—0218W— Each $7.98
Replacement Suction Cup Set. Sizes 3/4", 1-3/16", 1-5/16", 1-3/4"
14—9030B— 1 Set of 4 $2.29

GO/NO-GO FEELER GAUGE SET

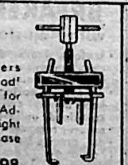

Each wedge-cut blade tip has 3 thicknesses on it so you can "feel the friction" as you adjust for the middle setting. Example: .004 to .006 is used to set .005". Ideal for setting valve tappets. 22 precision-ground blades with sizes (.004" thru .027" and .10mm thru .69mm) clearly marked.
12—3417R— Each $3.99

VALVE LAPPER SET

Double-ended tools fit all large automotive or small engine valves. Smooth-finished wood handles with neoprene rubber suction cups.
12—3506R— 1-Set $5.98

VALVE SPRING COMPRESSOR

Remove valve spring keepers without removing cylinder head! Provides adequate clearance for use inside valve spring cover. Adjusts for length, width and height to handle all valve springs. Case hardened.
75—0946U— Ea. $12.98

Do-It-Yourself & SAVE

HOSE REMOVER PLIERS

Removes 5/32" thru 1/2" I.D. vacuum and fuel hoses quickly and easily. Steel.
12—3046W— Each $6.7[illegible]

Improved Disc Type HYDRAULIC VALVE LIFTER

Eliminates valve noise. Replace troublesome original equipment. Disc check valve with larger opening permits freer flow of oil. Valve opens and closes more rapidly permitting better efficiency at high RPM. Eliminates reservoir shut off tappet noises caused by cold engine starting.

Highest Quality INTAKE and EXHAUST VALVES, VALVE SPRINGS

for Cars & Trucks

For best engine performance, replace burnt, warped valves with top quality new valves. Valves are steel alloy with chrome, nickel and silicon, increase resistance to heat and wear. Precision machine ground to exacting tolerances.

Valve Springs are made of specially processed valve spring steel ... drawn oil tempered, accurately coiled and tested. Sold in complete matched sets. See Below. **FOR IMPORTED CARS—SEE INDEX.**

BRAIDED HOSE & HARDWARE

Make your own heater hose and fuel, oil, vacuum & water return lines!

- **Professionally crafted: bright stainless steel braided hose and chrome-plated, red or blue anodized clamp on hose ends have the same good looks as "plumbing" used in competition and show cars**
- **Resists abrasion, vibration, corrosion and heat**
- **Order parts to custom fit your vehicle**

[A] **Stainless Steel Braided Hose.** Lightweight, yet designed for maximum performance and reliability. Flexible, easy to work with—cut with a hacksaw. Not for brake lines.

I.D.	O.D.	6-ft. Length Stk. No.	Each	10-ft. Length Stk. No.	Each

C-TYPE VALVE LIFTER & SPRING COMPRESSOR

Operate with one hand

Complete with 2 sets of adjustable jaws for servicing all valves. Quick, easy-to-use & lightweight tool. Both lifting and releasing of the spring can be done with one hand—leaving the other hand free to handle the valve spring keepers. Ratchet locks automatically at any position. Opening 7", depth of throat 9"—handles most cars and pickup trucks. Cold-rolled steel frame with spring-tempered jaws.
51—0204W— Each $21.98

Valve Lifter and Spring Compressor for Overhead Valve V-8 Engines. 2 sets of adjustable jaws for servicing all valves. Opening 7", depth of throat is 5".
51—0065A— Each $16.98

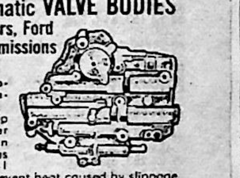

Split Ring Keeper Tool. Stainless steel, plier-type with magnetic jaws that hold keepers snugly in place.
14—2598N— Each $6.29

Combination VALVE LIFTER & SPRING COMPRESSOR

Just turn handle to compress or lift spring. Holds automatically at any point. Adjustable jaws. 8-1/2" long.
51—0202P— Each $8.99

Manual/Automatic VALVE BODIES for General Motors, Ford & Chrysler Transmissions

- **Manual and automatic shift capabilities**

For street and strip use. Allows better manual selection into first, as well as on earlier forced 2-1 downshift. Helps prevent heat caused by slippage for longer transmission life. Includes valve body, control plate, gaskets, instructions. Shipped from factory. No C.O.D. orders.

For 65-81 General Motors Turbo 400 Transmissions.
97—2358UF— 1-Kit $89.95
For 69-84 General Motors Turbo 350 Transmissions (exc. lock-up).
97—2359BF— 1-Kit $89.95
For 66-76 Ford & Mercury C-6 Transmissions.
97—2360PF— 1-Kit $89.95
For 71-83 Chrysler Torqueflite Transmissions (exc. lock-up).
97—2361YF— 1-Kit $104.95

VACUUM SYSTEM TEST KIT

Includes User's Manual

- **Provides controllable vacuum in the palm of your hand to check anything in vehicle which operates under a vacuum system**
- **Lets you perform tests with motor off for extra safety.**

The vacuum pump will help you to isolate mechanical troubles where a numerical reading with a compression gauge cannot be counted upon. It can also pinpoint problems in your air conditioning or heating system that normal trouble-shooting procedures can merely uncover. User's manual includes illustrated instructions for the use of the portable vacuum pump for testing virtually all parts of a vehicle, including fuel pumps, distributor, carburetor, ignition, brakes. Some specific areas include air intake control valve, vacuum advance delay valve, economizer valve, vacuum choke and power and valve, EGR valve, vacuum choke and power and disc brakes. A must for every serious mechanic because it increases efficiency while it decreases time to service a vehicle. Kit includes vacuum pump with gauge, tubing, manual.
14—1613T— 1-Kit $26.79

Diesel Valve Check Kit. Checks valve seating on medium and heavy-duty diesel engines.
14—7492W— 1-Kit $32.95

Cylinder Leakdown Tester. Tests for compression leakage.
14—8458W— 1-Kit $34.95

On-the-Vehicle VALVE-SPRING COMPRESSOR for All Cars and Trucks

No need to remove cylinder heads

Makes compressing the spring and removing the keepers easy. No need to re-adjust the tool after each spring.
14—1664W— Each $19.99

VACUUM & FUEL PUMP TESTER

For Motor Repair and Tune-Up Work. Color Coded 2-3/4" dial type gauge registers 0 to 30" vacuum, 0 to 7 lbs. pressure, also shown in metric scale. Used for exact ignition timing, locating burned or sticking valves, defective rings, choked mufflers, defective choke and throttle valves on carburetors. Test fuel pumps. With 18" rubber hose, connectors and instr.
17—9621N— Each $6.69

Economy Model. Similar to above, registers 0 to 30" vacuum, 0 to 7 lbs. pressure.
17—9622T— Each $4.99

CHARGE YOUR ORDER ON YOUR VISA OR MASTERCARD

VALVE HOLDER ADAPTERS

- **Allow air pressure to be used to hold valves in place**

[A] **19" hose with male quick-coupler air fitting.** Fits 14mm and 18mm threads.
14—5480T— Each $7.99

[B] **Steel Adapters.** Sizes: 14 & 18mm.
15—8997B— 1 Set of 2 $2.99

TIMING COMPONENT SETS for American Cars, Trucks

Precision matched for smoother and quieter performance!
- 3-pc. TIMING CHAIN & SPROCKET SETS
- 3-pc. TIMING BELT & SPROCKET SETS
- 2-pc. TIMING GEAR SETS

Restore valve and ignition timing to like-new specifications—restore lost pep, power and economy. All sets contain silent timing chain with matching camshaft and crank sprocket except those sets with ♦ which consist of camshaft and crankshaft gear only (chain or belt not required) and those sets with ▲ which consist of matching camshaft and crank sprocket with a fiberglass-reinforced timing belt.

Rocker Arm & Shaft ASSEMBLIES

New! Complete! Ready-to-install. Restore quiet, efficient valve performance. With rocker arms, shafts, stands, spacer rings. Replace original perfectly.

High-speed • Double-row TIMING CHAIN & GEAR SETS

- Engineered for most accurate, constant timing, faster acceleration and top-speed performance

VALVE TAPPET for 55-73 Chevrolet Hi-performance Engines

- Replaces original equipment
- Prevents push rod and rocker arm failure... increases performance
- A must when overhauling your engine

37—8918B— Each $2.79

Matched 2-pc. TIMING GEAR & CHAIN SETS

Set includes these quality matched components: CAST IRON Camshaft Sprocket. Replaces original equipment nylon sprocket. Outlasts, outperforms and withstands higher engine temperatures than nylon sprocket... also has stronger teeth. Steel-drive Timing Chain. Equals OEM quality.

FOR THESE AMERICAN CARS & TRUCKS

Intake and Exhaust VALVE GUIDES

Eliminate oil waste, valve noise and lost valve action—install a set for perfect engine performance.

55—1532N— Each $1.49

Drill Operated VALVE GRINDING TOOL

Reciprocating action

88—7518R— Each $24.99

Fuel-Saver CAMSHAFTS
Maximum Fuel Efficiency for City Driving!

- **Assure best mileage and make engine super responsive at lower speeds**
- **Provide ultra smooth idling and quiet engine operation**

Efficiency-engineered camshafts have special lobe configurations that give better low-end response without wasting fuel. Designed to provide maximum efficiency at low RPMs. Ideal for city driving fuel economy. The best of both short and long duration cams are combined in the Fuel-Saver Camshaft. Opens the valves twice as fast as stock cams, yet sets valves down slow and gentle like long duration cams. Fast opening provides extra torque, while slow closing provides reliability. The unsymmetrical design provides low end power, torque and response with a smooth idle, yet is very easy on valve train, valves and valve seats. Creates more effective cylinder pressure throughout the RPM range, and a real effective size that's greater than the seat timing indicates—allows your engine to breathe better without killing the low speed torque.

Crankshaft (Harmonic Balancer) Pulley PULLER

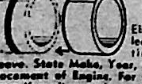

Designed to remove harmonic balancer or lower crankshaft pulley on any car that has two or three tapped holes in gear. Excellent steering wheel puller—also can be used for either 2 or 3-way pulling jobs or as gear or pulley puller on motors with tapped holes. Range is from 1-3/8" to 3-9/16". Main pulling screw is 6" overall, with 8 necessary side screws—three: 3/8-24 x 2"; three: 5/16-18 x 2"; two 3/8-16 x 4"

74-3222Y— 1-Kit **$12.98**

SAE & Metric Set. Same as above plus three M8 x 1.25 x 80mm side screws.

74-8263X— 1-Kit **$14.98**

HARMONIC BALANCER REPAIR KIT

Eliminates dangerous oil leaks around the seal in timing chain cover sleeve. **State Make, Year, Model, Cubic Inch Displacement of Engine. For 58-84 Ford truck, also state if medium or heavy-duty engine. Note: The stock number you ordered may carry a different identification number on your package.**

Hi-Performance Heavy-duty MAIN & ROD BEARINGS for V6 and V8 Engines

- **Maintain constant oil pressure under extreme racing conditions or street use**
- **Minimize flexing, seizing at high speeds and under peak loads**

Ideal for use in racing or street engines. Carry crankshaft loads far in excess of original bearings. Have super fatigue strength, conformability, and corrosion resistance at high temperature. Sold in complete sets. State Make, Year, Model of Car, Cu. Inch Displacement, Size Desired, and Stock No.

HARMONIC BALANCER INSTALLER

For all cars & light trucks including diesels with balancers or pulleys pressed on crankshaft.

14-7601B— Each **$22.99**

High-speed, High-power CAMS
for Hydraulic or Solid Lifters

Faster acceleration, higher top speed, increased horsepower

Precision ground using **new cores**, on the latest type cam grinders to create maximum performance lobe configurations. Foundry hardened for longer, trouble-free high speed performance. Bearing surfaces mirror-polished and closely inspected for size. Complete with timing specifications for easy set-up.

Cams for use with hydraulic lifters—use with original hydraulic valve lifters, rockers and push rods. Enjoy the smooth, quiet hydraulic valve action which requires no adjustments or resetting.

Cams for use with solid lifters—use with stock or hardenable iron lifters (see Index). **Do not use chilled steel lifters.**

MAIN BEARING SEALER

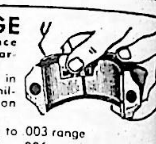

- **Stop main bearing leaks without removing oil pan!**

Special formula compound mixes with crankcase engine oil and circulates to leaking seals. Sealer lodges itself at leaking points, then clots to build and form a seal that effectively **STOPS LEAKS!** Will not harm engine or parts. With instructions, 15-oz. can.

12-2353X— Each **$2.49**

PLASTIGAGE

- **Measures clearance of rod & main bearings**

Indicates clearance in thousandths and millimeters. Comparison chart included.

37-1451A—.001 to .003 range

Flame-hardened CAMSHAFTS

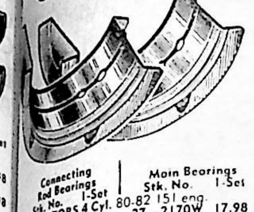

New camshaft is flame hardened for extra-long wear, long life and trouble-free service. Will outwear, give better service than original. Ends costly replacement of "soft" original equipment camshafts. Fits perfectly, no changes in valves, springs, or tappets required. Manufactured from Process Ferrous alloy castings with flame-hardened cam lobes.

Custom Fit: State Make, Year, No. of Cylinders, Cubic Inch Displacement of Engine, With or Without Powerglide and Stock No. ♦On 250 engine also state if intake manifold and cylinder head are one piece or separate pieces. Note: The stock number you ordered may carry a different identification number on your package.

CONNECTING ROD BEARING and MAIN BEARING SETS
for ALL AMERICAN CARS and TRUCKS

Perfectly matched Main Bearing Sets are complete for each make and model of engine. Install complete sets to improve oil pressure, performance and reduce engine noise. Made to SAE specifications.

Connecting Rod Bearings are in matched sets for each make and model of engine. Matched to wear evenly, reduce engine noise and help guard against oil loss. Precision made to SAE specifications.

NOTE: General Motors engines are listed under the division that manufactured the engine, not the chassis (example: 231 V6 is Buick, 350L is Chevrolet).

HOW TO ORDER

If crankshaft has been reground, check size and order .010, .020 or .030. **When Ordering, State Make, Year, Model, Cubic Inch Displacement of Engine, Size and Stock No.**

FOR IMPORTED CARS—See Index.

Premium Quality Gaskets for 1909-84 Cars & Trucks with Head and Manifold Gaskets that never need Retorquing

Premium Quality Gasket Material

- Teflon® coated head and manifold gaskets that never need retorquing
- Valve cover cork/rubber gaskets are made from high grade dense virgin materials
- Precision designed valve stem seals are made of premium rubber compounds... will not harden, crack or break apart
- Ceramic based material replaces asbestos in exhaust rings. Excellent compressibility... conforms to irregular surfaces
- Specifications exceed original equipment
- We believe these gasket sets are the finest quality available on the market. They contain more gaskets than most other sets available and only premium quality materials are used in their manufacture. Gaskets are thicker to compensate for any surface irregularities

Motor Overhaul Gasket Sets

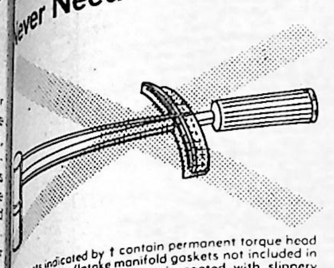

For best results when overhauling your engine always replace old gaskets with these premium quality gaskets. Set includes cylinder head, oil pan, valve cover, valve stem seals, timing cover, water pump, fuel pump mounting, oil pump, cover, necessary seals and thermostat. Set also includes intake (exc. where indicated by ♦) and exhaust manifold gaskets and main bearing seals where necessary. Variety and number of gaskets in a set vary by application.

Valve Grind Gasket Sets

Set includes cylinder head, valve cover, valve stem seals, water outlet, fuel pump and thermostat. Set also includes intake (except where indicated by ■) and exhaust manifold gaskets. Variety and number of gaskets in a set vary by application.

FOR GASKETS FOR IMPORTED CARS & TRUCKS—SEE INDEX

Never Need Retorquing!

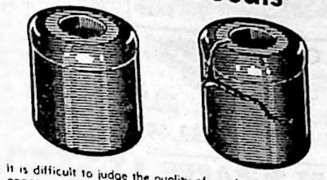

...sets indicated by † contain permanent torque head ... gasket (Intake manifold gaskets not included in ...) The no-retorquing gasket is coated with slippery Teflon® which permits movement between head ... in bi-metal engines to insure continuous sealing. ...ber allows for compressibility and constant sealing. Solid steel core is chemically bonded to the fiber ... strength. Note: some no-retorque head gaskets are ... of shim steel and are not Teflon® coated.

Long-Life Valve Cover Gaskets

Most valve cover gaskets will get your car out of the garage but a few thousand miles later, less expensive gaskets are likely to have hardened or cracked, making them candidates for oil leakage. Actual tests have shown that at 3500 miles the less expensive off-brand cork and rubber gaskets were leaking oil. Many gasket sets contain valve cover gaskets made from reclaimed material which contain microscopically small holes which permit oil to seep and leak. No amount of retightening the valve cover will stop this. These valve cover cork/rubber gaskets are made from high grade dense virgin materials.

Precision Designed Valve Stem Seals

It is difficult to judge the quality of a valve stem seal by its appearance when new. Premium rubber compounds look virtually the same as less expensive materials. Premium materials are specified by engine manufacturers for many of today's hot running engines. The lower grade material will harden, or break apart after a period of time. This can cause increased oil consumption, spark plug fouling and decreased performance. These best valve stem seals are found in these premium quality sets where premium quality materials are used.

Installation Tips for a Professional Job

No gasket is better than its installation. In order that you can be sure of proper installation we include a copy of comprehensive installation tips. These instructions help you to do a fast and professional-like job. Included are instructions for installing the rocker arm cover gasket, intake manifold gaskets and seals, timing cover and valve stem seals, rear main bearing seals, oil pan gaskets and other installations with an illustrated and step by step procedure for each operation. These installation instructions have been written by professional engineers in easy to understand language. No more guesswork when installing a gasket set.

Roller-action RIDGE REAMER

...to use "Scraper action with ... tungsten carbide cutter. ...ers assure easy turning. Re...ves ridges from all engines ...cluding short stroke and ...ted types) with 2-11/16" ...-5/16" (68.3mm thru ...mm) cylinder bores. Accu...ly centered tool won't chat... over-cut or damage out-of-round cylinders. ...ersible.

...4-4126T— Each **$17.98**

Replacement Cutter Blade for above. ...-4284B— Each $5.99

CRACK DETECTOR KIT

Pinpoints cracks in steel, iron or aluminum

...cates cracks in engine blocks, cylinder heads, transmission cases, valve bodies, differential housings, transaxles, etc. Tests can be made with component on or off vehicle. ...as 1, 2, 3. Spray on penetrant, wait; spray ...dye remover, wait; ...on developer. Crack will turn gray in ...minutes. Kit includes one can each of penetrant, remover, developer plus storage box and instructions.

...2-3486U— 1-Kit **$34.95**

Replacements for kit above. 10-oz. can.
...2-3487B—Dye Penetrant Each $9.95
...2-3488P—Dye Remover Each 8.95
...2-3489Y—Dye Developer Each 9.95

Transfer Case Gasket Sets for New Process® 203 & 205 Transfer Cases

Replaces original perfectly ... meets or exceeds OEM standards. Includes all necessary gaskets.

For 73-79 New Process 203 full-time case (shown).
85—9419A— 1-Set **$7.99**

For 69-79 New Process 205 part-time case.
85—9420R— 1-Set **$3.99**

Heavy-duty Quick-cut RIDGE REAMER

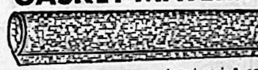

Quickly removes ridges from all engines (including short stroke and canted types) with 3" to 5" (76mm thru 127mm) cylinder bore. Accurately centered tool is supported solidly, entirely within cylinder. Won't chatter, overcut or damage out-of-round cylinders. Reversible, high-grade carbide blade.

75—0850Y— Each **$27.98**

Replacement Carbide Blade. 14—6983N— Each $8.99

Make your own gaskets! GASKET MATERIALS

CORK. Finest clean, granulated cork & specially-treated binder are used to make this material resilient, flexible, strong. 12" x 36" sheet.
34—0094T—1/16" thick Each $1.49
34—0095P—3/32" thick Each 1.79

ASBESTOS. For use where extreme heat occurs (exhaust manifolds, headers, pipes, etc.). 12" x 36" sheet.
34—0098U—1/32" thick Each $2.49
34—0099B—1/16" thick Each 3.99

RUBBERIZED ASBESTOS. For higher temperature exhaust manifolds, headers and pipes as on high-performance or heavy towing vehicles.
38—0715R—1/16" x 12" x 36" Each $4.79
38—0716X—1/16" x 18" x 36" Each 6.98

CORK and RUBBER. Combines the sealing qualities of cork with the reusable features of rubber. Easy to use. Film wrapped. 12" x 36".
37—8299X—1/16" thick Each $2.49
37—8300T—1/8" thick Each 4.49

Gasket Materials Assortment. Contains 3 types (four 12" wide x 36" long rolls) of gasket material: one roll of 1/64" thick and one roll of 1/32" thick treated, pliable fiber paper gasket material; one roll of 1/16" thick finest quality cork gasket material (described above), one roll of compressed asbestos gasket material (described above).
37—8397R— 1-Pkg. $5.49

Valve Grind GASKET SETS for High-performance V8 Engines

- **Made of highest quality gasket material, precision cut for perfect fit**

Won't shrink or warp. With head gaskets, valve and rocker gaskets, manifold gaskets, valve stem seals & intake end seals. ♦No manifold gasket.

9-pc. & 12-pc. GASKET MAKING SETS

9-pc. Set. Makes 7 holes ... sizes 1/4" thru 5/8" diameter. Gasket hole punches are designed for unlimited use when a hard wood block is used under the gasket material while punching hole. Set includes driving mandrel, 7 punches (sizes 1/4", 5/16", 3/8", 7/16", 1/2", 9/16" and 5/8") plus carry pouch.
15—7570Y— 1-Set $9.98

12-pc. Set. Makes 10 holes ... sizes 1/4" thru 1" and 1" with driving mandrel. Molded plastic storage case.
14—2042U— 1-Set $15.98

GASKET SHELLAC

Forms permanent, leakproof joint. For metal, fiber, paper and other gaskets.
16—0068R—2 oz bottle .. Ea. 39¢

Spray Adhesive. Water-resistant, fast-drying, non-wrinkling. Ideal for automotive work ... attaches gaskets, pads, silencers, insulation, etc. neatly and quickly. For home use, too. 13 oz. aerosol.
14—3238X— Each $1.29

GASKET CUTTER

Cuts perfect ovals, 1/4" to 8" diam. circles, contours of any shape, straight edges. Cuts cork, neoprene, felt, etc. up to 1/4" thick.
14—1385Y— With 5 blades Each $3.49

GASKET SCRAPER

Quality forged steel with strong grip handle.
04—0320Y— Each $2.98

Rubber GASKET MATERIAL

- Resists gasoline, oil, solvents and ozone

Rubber compound material is not designed for use in high-temperature areas. 18" x 18" sheet.
37—8563W—1/16" thick Each $10.99
37—8564U—1/8" thick Each $16.99

MAGNETIC Drain Plugs

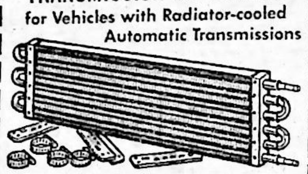

Permanent magnet helps clean and purify engine oil by removing the tiny metal particles that result from normal operation.

Fits the following American cars: AMC Products 67-85 All (exc. 4-cyl.). Buick 59-85 All (exc. 4.35, 4.3L, 301, 265, 151 engines); Cadillac 66-85 All. Chevrolet 29-85 All (exc. 4.9, 151 engines). Chrysler Products 62-85 All (exc. Omni, Horizon, Colt). Ford 57-85 All (exc. Pinto 122, 140, 171, Fiesta 98 engines 97.6, 232). Lincoln 59-85 All. Mercury 59-85 All (exc. Bobcat, Capri). Oldsmobile 66-85 All (exc. 151, 151U, 301 engines). Pontiac 60-85 All (exc. 151, 151V, 301, 4.3S & L, 4.9T & L engines).
15—9470R— Each $1.99

Oversize Magnetic Drain Plug (not shown). Self threading magnetic drain plug is for above applications with damaged oil pan threads.
14—4873P— Each $2.19

Improved Agitator Design TRANSMISSION OIL COOLER

for Vehicles with Radiator-cooled Automatic Transmissions

- Only 3/4" thick—mounts in front of radiator
- Agitator fins in copper tubes for maximum heat dissipation

High-capacity Inner Agitator Action works with your car's stock cooling system. As hot oil flows through precisely spaced openings, it revolves clockwise and counter-clockwise, assuring double heat extraction. The temperature of your transmission oil is markedly reduced every time it revolves through the system ... every 20° drop in temperature doubles oil life. System can be transferred from one vehicle to another. Includes line adapter to eliminate cutting transmission oil lines, universal mounting brackets, high temperature/pressure hose, hardware, instructions.

HOW TO ORDER: Determine total weight of vehicle only or of vehicle and trailer. Order by total weight below. To obtain approximate normal trailer weight if unknown, multiply 250 lbs. by the number of linear feet of trailer. State Year, Make and Model of vehicle and Stock Number.

Total Weight to 10,000 lbs. Size: 3/4" x 5" x 15-1/2" long. 4 tubes
37—9675X— 1-Kit $29.95

Total Weight to 16,000 lbs. Size: 3/4" x 7-1/2" x 15-1/2" long. 6 tubes
37—9676N— 1-Kit $32.95

Total Weight to 18,000 lbs. Size: 3/4" x 10" x 15-1/2" long. 8 tubes
37—9677T— 1-Kit $37.95

Dual-stage SPIN-ON OIL FILTERS for AMERICAN CARS & TRUCKS

Our Best!

Safety bypass valve with second-stage felted polyester filter disc assures filtering of ALL oil. Prevents dirty oil from entering engine during surges or when first stage becomes clogged. Greater filtering capacity than most single element filters. Cleans oil more thoroughly for longer oil and filter life, fewer changes. Includes these other features:

- Uniform-porosity Paper Filter Element—captures particles as small as 30 microns. Traps sludge, dirt and foreign particles that can penetrate poor seals, broken gaskets, other openings. Prevents premature engine wear.
- Plastisol End Seals—assure 100% filtration. Both ends of filtering element are sealed to prevent any oil from bypassing filter under high pressure.
- Anti-drainback Valve—assures instant oil flow, will not let dirty oil back up into crankcase.
- Pressure tested—each filter is tested under 80-100 psi to eliminate any possible seam leaks.

Recommended for use with regular, premium or super-premium oils. For the following cars (except diesels—see Index) with spin-on oil filters:
71-85 American Motors Products—all exc. 4-cyl.
50-85 Chrysler, Dodge, Plymouth Products—all exc. 4-cyl.
50-85 Ford, Lincoln, Mercury Products—all exc. 1600cc, 2800cc.
50-85 General Motors Products (incl. Buick, Cadillac, Chevrolet, Oldsmobile, Pontiac)—all exc. 1800cc, 2000cc, 153 4-cyl., 164 6-cyl., 173 V-6, 229 V-6.
When Ordering, State Make, Year, Model, Engine Size and Stk. No. On General Motors Vehicles with 350 engine, also state fifth digit of vehicle identification number (C, H, J, L, P, R, X). Note: The stock number you order may carry a different identification number on your package.
55—3381N— Each $2.89

LIMITED (8,000 MILE) WARRANTY

Warranted to meet all normal filtering requirements of the engine for the specified mileage. Warranty covers replacement of filter or refund (labor not included).

Our Best Single-stage Spin-on Oil Filter—8000 Mile Warranty. For all 57-85 American cars and trucks with a spin-on filter (exc. Corvair). When Ordering, State Make, Year, Model, Engine Size and Stock No. Note: The stock no. you ordered may carry a different identification number on your package.
55—1914N— Each $2.49

Our Good Single-stage Spin-on Oil Filter—4000 Mile Warranty. For the following cars (not diesel) with spin-on filters: American Motors Products—71-85 all (exc. 4-cyl.); Chrysler, Dodge, Plymouth Products—58-72 all (exc. 4-cyl.); Ford, Lincoln, Mercury Products—57-85 all (exc. 1600cc, 2800cc); General Motors Products—60-85 all incl. Buick, Cadillac, Chevrolet, Olds, Pontiac (exc. 1800cc, 2000cc, 153 4-cyl., 164 6-cyl., 173 V-6, 229 V-6, 260 V-6). When Ordering, State Make, Year, Model, Engine Size and Stk. No. Note: The stock number you ordered may carry a different identification no. on your package.
55—3380X— Each $1.49

INSERT-TYPE FILTER CARTRIDGES FOR CARS & TRUCKS

Completely clean oil in one pass, removing abrasives down to one micron in size or one thirty-thousandth of an inch. For cars and trucks that use insert-type filter cartridges. State Year, Make, Model, Engine Size and Stock No. Note: The stock number you order may carry a different identification number on your package.
55—3130W— Each $2.49

OIL FILTER WRENCHES

LOW AS 99¢ Ea.

[A] Spin-on Oil Filter Wrench. Our best! Removes filters quickly without puncturing filter. Spring clutch grips full surface of filter and can't slip—the harder you pull, the tighter it grips. Gets in tight spots—no adjustments needed. Use with your 3/4" wrench.
74—5789U—For 3-1/2" to 3-3/4" filters ... $5.79
74—5788P—For 2-3/4" to 3" filters ... 5.79

[B] Oil Filter Wrench for down-sized cars. Including X-Body, J-Body, K-Cars and Volkswagen Rabbit. Self-adjusting to fit ALL 2-13/16" to 3" (71mm to 75mm) fluted and non-fluted filters. Use with your 3/8" sq. drive ratchet or 7/8" open or box wrench. Zinc-plated steel.
14—3139X— Each $4.77

Oil Filter Wrench for standard-size cars and trucks. Same as above except adjusts from 3-5/8" to 3-15/16" (91mm to 100mm).
14—5371U— Each $5.77

[C] Oil Filter Wrench. Easily gets into tight, hard to reach spots. Made of die-cast aluminum alloy. Use with your 3/8" sq. drive ratchet or 3/4" wrench.
For 3" filters with 14 and 15-flute ends.
14—6965B— Each $2.68
For 3-1/2" filters with 36 and 15-flute ends.
14—6966P— Each $2.88

[D] Oil Filter Chain Wrench. Chain adjusts to fit any spin-on filter. No-slip grip.
88—8505N— Each $2.98

[E] Oil Filter Wrench. Fits all spin-on filters, grips positively, holds fast.
88—7216P— Each 99¢

COMPRESSION TESTER for Diesel-powered Cars

- Measures cylinder pressure quickly and easily
- Holds maximum reading reached during test

Large 2-1/2" diam. gauge measures 0-1000 psi in 20-lb. increments and 0-1000 Kg/cm² in 20-kg. increments. Complete with instructions & adapters for all General Motors cars with diesel engines.
14—1848N— Each $24.98

Adapters for Volkswagen and Mercedes diesel engines. Use with tester above. Threaded end fits into injector hole. With quick-disconnect coupler.
14—1849T—For Volkswagen ... Each $8.98
15—9714P—For Mercedes ... Each 7.99

COMPRESSION TESTER with large 2-1/2" diam. gauge

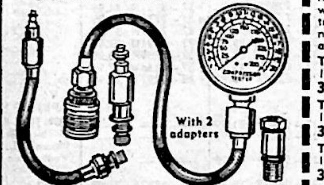

Dual color scale reads 0-300 psi and 0-21 kg/cm². Holds reading until button is released. Precision Bourdon tube movement. Universal rubber adapter fits all spark plug holes. With instructions.
81—1520Y— Each $4.99

COMPRESSION TESTER

For all American and imported cars and trucks with gasoline engines.

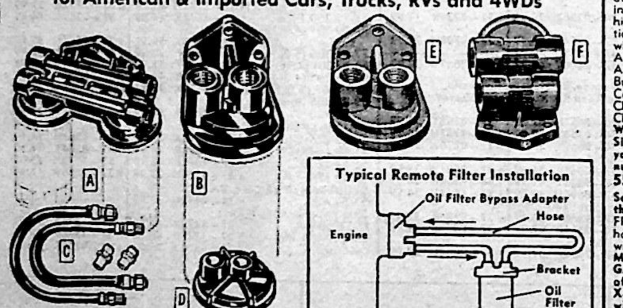

Easy-to-use. Checks valves and rings, push rods, rocker arms. Detects excessive carbon and late timing. Dual color scale reads 0-300 lbs., 0-21 kgs. 2-1/2" diam. tester with 12" hose. Side release valve gives instant re-readings without disconnecting hose. Fits all 14mm and 18mm spark plug holes. Includes illustrated instructions.
13—1515A— Each $14.99

COMPRESSION TESTER

Tests engine compression easily on all vehicles with gasoline engines. 2-1/2" diam. gauge has U.S. and metric scales to 300 lbs. and 21 kgs. 15" flexible hose gets in deep spark plug holes, eliminates need for removing engine accessories. Quick coupler snaps on adapter for leakproof testing. Release valve allows re-reading each cylinder without uncoupling quick coupler. Instructions are included.
75—1192U— Each $21.99

Remote OIL FILTER CONVERSIONS for American & Imported Cars, Trucks, RVs and 4WDs

Typical Remote Filter Installation

Dual 1-qt. or single 2-qt. filter conversion will:
- double oil filtering capacity
- increase engine oil capacity
- help cool engine oil

Ideal for vehicles operating under extreme dust or severe work conditions. For a complete conversion, order bracket, filter(s), oil filter bypass adapter and hose kit sold below. Mount in engine compartment in any area that's easily accessible when changing filter(s).

[A] Bracket for remote dual 1-quart spin-on oil filters. Accepts Ford and Chrysler-type spin-on filters (not included—order below). Filters up to 8 gallons per minute. Overall size including filters: 4-1/2" deep x 7-1/2" long x 10" wide.
73—2362U— Each $17.98

Our Best Spin-on Filter (not shown) for bracket above. Order 2.
73—3393Y— Each $2.79

[B] Bracket for remote single 2-quart spin-on oil filters. Accepts GM truck-type spin-on filter (not included—order below.) Filters up to 12 gallons per minute. Overall size including filter: 4-1/2" deep x 10" long x 4-1/2" wide. Die-cast aluminum alloy.
84—0626A— Each $7.98

Our Best 2-quart Spin-on Filter (not shown) for bracket above.
84—0627R— Each $5.98

[C] Hose and Fitting Kit. 1/2" I.D. neoprene hoses with precision brass ends and fittings. Hoses are complete with necessary hardware to complete remote filter bracket and oil filter bypass installation. Kit includes 2 hoses, 4 fittings and 2 nipple connectors.
73—2363B—24" long ... 1-Kit $19.98
73—3962P—36" long ... 1-Kit 21.98
73—3963Y—48" long ... 1-Kit 24.98

[D] Oil Filter Bypass Adapter. Specifically designed for use with our remote oil filter brackets, but can also be used in the installation of oil coolers and other oil system accessories. When Ordering, State Make, Year, Model, Cu. In., Engine Size, Spin-on or Canister Type Filter and Stk. No. Note: The Stk. No. you ordered may carry a different identification no. on your pkg.

American Cars & Trucks

80-84 AMC	60-84 Cadillac	57-84 Ford
Alliance,	56-84 Chevrolet	78-84 GMC
Jeep	56-84 Chrysler,	49-84 Olds,
59-84 Buick	Dodge	All Plymouth
		60-84 Pontiac

55—3270P— Each $9.99

Imported Cars & Trucks
55—3262X— Each $6.49

[E] & [F] Oil Filter Brackets. Act as a remote base for Ford and Chrysler-type spin-on filters (not included—order below). Made of cast aluminum. Choice of vertical or horizontal inlet/outlet.
[E] 73—0625T—Vertical ... Each $5.98
[F] 73—5883W—Horizontal ... Each 14.98

Our Best Spin-on Filter (not shown) for brackets above.
73—3393Y— Each $2.79

Sandwich-style OIL FILTER ADAPTERS with Built-in Thermostat

- Easier to adapt existing oil filter to an oil cooler

Installs between engine and existing filter ... no need to re-locate filter. Built-in 160° thermostat automatically routes oil through cooler (not included—see Index) when temperature reaches 160°. Only 2" high for easy clearance. Cast aluminum construction, 1/2" O.D. fittings. For the following vehicles with spin-on oil filters (will not fit GM V6):

AMC	Datsun	Pontiac
Audi	Fiat	Porsche 924
Buick	Ford	Renault
Cadillac	Jeep	Saab 96
Chevrolet	Opel	Volkswagen
Chrysler	Oldsmobile	Volvo

When Ordering, State Make, Year, Model, Engine Size and Stock Number. NOTE: The stock number you ordered may carry a different identification number on your package.
55—3077R— Each $54.95

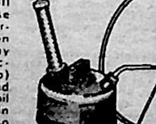

Sandwich-style Oil Filter Adapter without built-in thermostat (not shown). Die-cast aluminum, 3/8" FPT. Can be used with your choice of fittings and hose. For American and imported cars and trucks with spin-on oil filters. When Ordering, State Make, Year, Model, Engine Size and Stk. No. On GM vehicles with V8 engines, also state fifth digit of vehicle identification number (C, L, P, R, X—located on driver's side of dashboard near windshield) and if recessed filter (located at rear of eng. block). Note: the stk. no. you ordered may carry a different identification number on your package.
55—3507N— Each $13.98

Easy-roll DRAIN PAN with Lift-out Parts Basket

- Big 8-qt. capacity

Great for oil changes, draining transmission, parts cleaning, etc. High-impact plastic pan rolls smoothly on wheels.
14—8511B— Each $5.98

Vacuum Pump-operated OIL CHANGER KIT

Insert suction probe into dipstick well—release clamp. Powerful suction (created by manual vacuum pump) draws oil and sludge into oil tank within minutes. Also pumps out radiator fluids, transmission oil. Completely self-contained drainer—never touch oil or hot engine. Not for use with gasoline. Includes 2-1/2 gal. steel oil can, vacuum pump, 4-1/2 ft. clear vinyl hose, 4-1/2 ft. plastic probe, flexible pour spout, pinch clamp, instructions.
14—7418A— 1-Kit $26.98

Heavy-duty TRANSMISSION OIL COOLER for Trucks, RVs, Motor Homes, Buses

- Handles all vehicles up to 22,500 lbs. gross weight
- 8 double rows of 3/8" O.D. copper tubes for maximum cooling
- Exclusive guards protect heat-extracting fins, help protect hands during installation

Keeps automatic transmission fluid temperature within safe operating level! Important during normal driving when transmission temperatures can soar over 200°, causing oil to oxidize, acids and varnish to form, seals to crack. A must when towing a trailer, hauling a heavy load or driving in hot weather. Fluid circulates 16 times back and forth through the cross-over network of heat-conductive copper tubes. Heat is transferred better, more efficiently for maximum cooling. Every 20° drop in fluid temperature doubles fluid life! Inlet, outlet and tubing size provides maximum fluid flow through the cooler to assure the necessary flow of cooled fluid to the transmission. Size: 13-1/4" x 18-1/2" x 8". Pre-drilled aluminum plates for strong, easy, vibration-resistant installation. With mounting hardware, instructions.
37—9631P— Each $44.95

Chromed DIPSTICK HANDLES

Attach easily to crankcase or transmission dip sticks.
[A] 15—9674W—Dagger style ... Each $5.69
[B] 15—9673Y—Hooked style ... Each 4.29

TURBO OILER for Turbocharged Cars & Trucks

- Delivers oil to turbocharger after engine shut down ... prevents premature bearing failure.

When a turbocharged engine is turned off, the turbocharger will continue to spin—often as long as 100,000 RPM. Without oil, the center bearing can be damaged or destroyed. Turbo Oiler delivers up to 6 minutes after engine shutdown. Dual 1-1/4 quarts of oil to lubricate and cool bearings ... charges and refills automatically. Includes fittings, hose, fittings and check valve. Oil line fittings not included. Shipped from factory. No C.O.D. orders.
97—1544PF— Each $79.95

OIL FILTER RELOCATION KITS

- Relocate oil filter from engine to a more accessible spot to (1) simplify filter changes and (2) increase oil capacity
- Choice of single-filter system (shown) or dual-filter system

Kit includes everything needed: oil filter adapter, two 30" neoprene hoses with brass ends and fittings, machined cast steel remote mounting base (either single or dual), mounting brackets, all hardware, and instructions. See illus. of typical remote installation. Oil filter not included. When Ordering, State Year, Make, Model, Engine Cu. In. Displacement & Stk. No. Note: The stock number you ordered may carry a different identification number on your package.
55—3753N—Single-filter System
55—3754T—Dual-filter System
1-qt. Oil Filter for above.
73—9176A—

Heavy-duty OIL PUMPS

Low As $23.98

Restore oil pressure—improve engine performance.

These new pumps bring back original oil pressure for higher pressure at idle and low speeds. Improve circulation throughout engine, cut engine wear. High-volume pumps for Chevrolet, Chrysler, Dodge, Ford, Mustang and Plymouth have longer gears ... ideal for high speed and racing. Replace original perfectly. Complete (less screen). For cars not listed here—see pump repair kits in Index.

Hi-capacity TRANSMISSION OIL COOLER

Ends Automatic Transmission Overheating & Damage!

Without — With

Transmission oil causes costly trouble. It is responsible for 9 out of 10 transmission failures, and more than half of the radiator boil-overs. Running hot transmission oil through the original equipment cooling system in the radiator usually gives inadequate cooling ... especially in heavy traffic, or when heavily loaded, hauling a trailer or racing. Without an auxiliary transmission oil cooler, a vehicle can overheat the transmission, radiator, and engine ... causing expensive damage. Even normal driving can push transmission temperatures up to 200-plus degrees ... and beyond this point oil oxidizes, acids and varnish form, seals crack and leak occur. These high-capacity oil coolers assure you of cooler transmission oil temperatures.

Agitator action. As hot oil flows through precisely spaced openings, it revolves clockwise and counter-clockwise, assuring double heat extraction by the double turn exposure to the cool air of the cooler tubes. This efficient oil-to-air process reliably protects the transmission. Works in series with your car's stock oil cooling system. Separates engine and transmission cooling ... allows your car's radiator to do what it was meant to do—cool your engine. Hot temperature doubles oil life. Easy to install. Mounts in front of radiator for maximum cooling. Can be transferred from vehicle to vehicle. Includes fittings and hose. For all vehicles with radiator-cooled automatic transmissions.

HOW TO ORDER: Determine total weight of car or truck only or car or truck and trailer. Order according to total weight of vehicle or total weight of vehicle and trailer below. To obtain approximate normal trailer weight, multiply 250 lbs. by the number of feet of trailer length. Easy to install ... Installation instructions included. State Year, Make, and Model of Vehicle and Stock No. NOTE: Cooler size and number of tubes varies by application.

TOTAL VEHICLE WEIGHT					
TO 8,000 LBS. 85—5253T Ea. ... $19.95	TO 10,000 LBS. 85—5252X Ea. ... $22.95	TO 13,000 LBS. 85—5266P Ea. ... $25.95	TO 16,000 LBS. 85—5264N Ea. ... $27.95	TO 18,000 LBS. 85—5265B Ea. ... $29.95	TO 20,000 LBS. 85—6482B Ea. ... $32.95

OIL FILLER GUN

- Quick, easy to use
- No spills, no mess

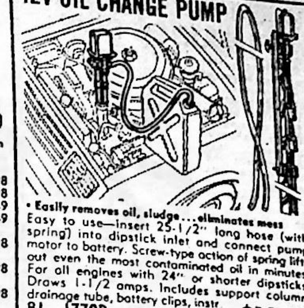

Convenient, time-saving way to dispense motor oil, gear oil, transmission fluid. Simply load quart can of oil, insert into position and press trigger. Special lever action pierces can lid and releases all through funnel spout. 20 oz. sturdy zinc-plated steel.
81—0973P— Each $1.89

Hand-operated PUMP

- Pumps, sprays and siphons

Transfers engine oil, gasoline, coolant, water, etc. without electric power. Nozzle attachment for spraying. Pumps about a gallon a minute. Heavy-duty plastic. With nozzles, hoses, instructions.
15—8689N— Each $14.99

12V OIL CHANGE PUMP

- Easily removes oil, sludge ... eliminates mess

Easy to use—insert 25-1/2" long hose (with spring) into dipstick tube, hook up pump motor to battery. Screw-type action of spring lifts and pumps even the most contaminated oil in minutes. For all engines with 24" or shorter dipsticks. Draws 1-1/2 amps. Includes support column, drainage tube, battery clips, instructions.
81—1770R— Each $19.98

Engine and Automatic Transmission OIL PRESSURE TESTER

Hand-held, shop-type tester is more accurate than the oil pressure gauge or light on your dash. Checks both engine and automatic transmission oil pressure in any car or truck, detects oil leaks, bad seals and gaskets, etc. Large, easy-to-read dial gauge registers pressure from 0-300 PSI and 0-21 Kg/Cm². Includes 6-ft. of oil-proof hose, 7 assorted fittings, instructions.
15—7533W— Each $19.99

OIL PRESSURE SENDING UNIT SOCKET

A handy tool for quick, easy removal or replacement of oil pressure sending units. Tough nickel chrome-plated alloy steel. 3/8" drive, 2" long. Size: 1-1/16".
15—6762B— Each $3.98

OIL PUMP REPAIR KITS for CARS & TRUCKS

Repair worn gear-type oil pump ... save the cost of a new oil pump. Kit contains all parts needed to rebuild oil pump. Replace original parts perfectly. State Make, Year, Cyl., Cubic Inch Displacement & Stk. No. Note: The stock number you ordered may carry a different identification number on your package.

Heavy-Duty Electric OIL CHANGE PUMP

Remove Oil Without Getting Under Vehicle

- Pumps out oil and sludge thru dipstick tube
- Rotary vane pump with 13,500 RPM motor does the job without fuss or mess
- For cars, trucks, boats, lawn mowers, tractors and heavy equipment

No need to open engine crankcase drain plug. Lightweight enough for one-hand operation. Draws only 2-1/2 amps from vehicle battery. Complete with oil depth wire, 2 flexible suction tubes, vinyl exhaust pipe, vinyl stopper tube, battery clips, instructions. For all 12-volt systems.
15—5180Y— 1-Kit $14.98

Proper lubrication at ALL speeds! High-volume RACING OIL PUMPS for 55-84 Cars, Trucks, Vans & RVs

- 20% to 75% more volume than replacement pumps!

Longer gears assure adequate lubrication throughout engine at high speeds ... helps reduce engine wear, protects expensive racing and stock engines. Supplies extra protective lubrication for long-distance driving, hauling or towing heavy loads or for off-road use. Cast-iron body for longer, trouble-free life. Replace original perfectly. Pumps without screen assembly.

OIL PASSAGE BRUSH SET

Removes sludge, gum and carbon from oil passage holes in engine blocks, cylinder heads, rocker arm shafts, and other blocked passageways. Firm wire bristles cover 1-3/4" of the 11" twisted steel shaft. Use manually or with an electric drill. 5-pc. set includes 3/16", 1/4", 5/16", 3/8", 7/16" diam. brushes.
14—2956N— 1-Set $8.98

CONTROL OIL BURNING...

AMAZING SCIENTIFIC DISCOVERY

Complete Engine Overhaul Kit

DO IT YOURSELF IN MINUTES. SAVE ON EXPENSIVE REPAIRS

Works Like a Cylinder and Ring Job While You Drive—NEW POWER for Cars, Trucks, Tractors and Boats

- Controls burning oil ... helps restore fit of worn parts
- Regains power ... renews seal of valves and rings
- Quiets noisy engine and valve lifters
- Provides easier, all-weather starts ... reduces exhaust smoking

Simply drop the PELLETS into the plug opening and pour Engine Overhaul Liquid into the oil in your crankcase. This potent ENGINE OVERHAUL COMBINATION goes right to work on the worn areas of your motor ... while you drive, the worn parts are plated with a metallic layer that actually renews finish and fit. The restored parts are protected and cushioned by the Engine Overhaul Liquid giving you thousands of miles of trouble-free driving. Don't compare an ENGINE OVERHAUL treatment with oil additives or temporary tune-ups. Get genuine ENGINE OVERHAUL ... it lasts and lasts. Contains a long chain molecule which works in combination with motor oil so as to improve its film thickness under tough conditions of motor operation. Flows onto bearings, valve, cylinder and piston surface, protecting them with a self-lubricating wear-resistant protective film. Saves your motor oil ... saves your motor! Pellets are compounded of special thermo-active metallic alloys. Heat and pressure of your motor bond these alloys on to the worn, pitted, and scored metal of your cylinders and rings. Restores their fit, smoothness and power. No special tools or skills necessary ... no need to take your motor apart. Save costly repairs.

TESTED and CERTIFIED AMERICAN RESEARCH AND TESTING LABS. CHICAGO

HERE'S ACTUAL PROOF OF PERFORMANCE

The results of rigidly conducted tests by the American Research & Testing Laboratories are:

"In all cases the addition of Engine Overhaul according to the manufacturer's instructions produced higher compression and increased efficiency along with smoother running".

Respectfully submitted,
The American Research & Testing Laboratories

Developed by Skilled Automotive Scientists

More than six years of research, laboratory testing & constant road tests led to the discovery & development of thermo-plating with Engine Overhaul. Successfully answers the costly problems of engine repair. Try it ... prove it to yourself.

Thousands of Satisfied Users!

"So far, it has paid for itself in saved oil." D.W., N.Y.

"After using your Engine Overhaul Kit in my 1970 Ford Econoline 6, with 88,000 miles on the engine, I can truthfully say, I am overwhelmed with the results. This product is nothing short of amazing. I can wholeheartedly recommend this in all honesty." A.B., Michigan

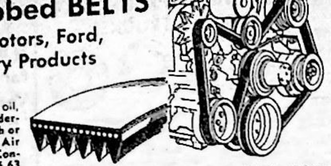

"I tried your product on my pickup. It was smoking and using oil. Well it stopped smoking and uses just a little oil in between changes. I have told several people about it." S.P., Calif.

"I am greatly pleased with the results obtained on my old Buick. It has rejuvenated it and it runs like a motor cap after a hot rod." H.K., Calif.

"Worked like a charm ... telling my friends and people I know how wonderful it is." C.L.

NOTE: Large 8's (Cadillacs, Buicks, Oldsmobiles, Lincolns, Chryslers) require 2 packages.
COMPLETE ENGINE OVERHAUL KIT—LIQUID and PELLETS BOTH ONLY $6.95
16—0071T—

Replacement V-ribbed BELTS
for 79-84 American Motors, Ford, Jeep®, Lincoln, Mercury Products

- Replace stretched out or worn OEM belts
- Assure dependable no-slip operation

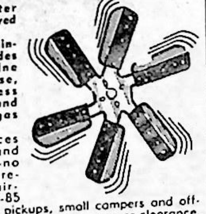

Tough, long-lasting double-cover resists heat, oil, abrasion and extreme friction. When Ordering, State Make, Year, Model, Engine Size, With or Without Power Steering, With or Without Air Conditioning, Belt Position (Alternator, Air Conditioning, Fan, etc.) and Stk. No. ◆Also State if 63 or 70-amp Alternator. ■Also State if 60, 65, 70 or 100-amp Alternator. Note: The stock number you ordered may carry a different identification number on your package.

Abbreviations: A=Alternator, AC=Air Conditioning, AP=Air Pump, F=Fan, I=Idler, PS=Power Steering; w=with; w/o=without.

FOR THESE AMERICAN VEHICLES WITH V-RIBBED BELTS ONLY—does not replace standard V-belts

Variable-pitch® • Stainless Steel FLEXIBLE FAN

- Provides better cooling, improved performance

18" diam. stainless steel blades flex as engine RPMs increase, drawing less horsepower and improving gas mileage. Easily replaces original fan and clutch—no special tools required. For air-conditioned 60-85 American cars, pickups, small campers and off-road vehicles. When ordering, measure clearance. Note: Not for compact, sub-compact cars, trucks. Note: Order spacer below for cars with fan clutch.

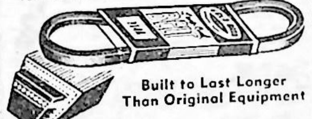

37-9674P— Each $14.99

Flexible Fan like above, but with 17" diam. nickel-plated steel blades. For some vehicles as above without air conditioning.

37-9673B— Each $9.79

Spacers.
37-7542A—For Chrysler Products
37-7540N—For Ford-Mercury 429-460 eng.
37-7541T—For Ford-Mercury (exc. 429-460 eng.), General Motors, American Motors Products
Above Numbers Each $3.69

Heavy-duty Gold Band FAN BELTS
Our Best Fan Belt!
for All 1917-84 Cars Including Imports

Built to Last Longer Than Original Equipment

Assures perfect non-slip operation of water pump, generator, alternator, air conditioner, air pump and power steering pump. Perfectly balanced for silent performance. DOUBLE SERVICE COVER—Tough high-friction cover is highly resistant to heat, oil, water, abrasion. Compression section is of special non-heat generating compound for cooler running, longer life. Each cord individually impregnated with high-resilient liquid rubber. Each cable fully insulated under high compression in a layer of highly elastic, heat-resistant fabric. Replaces original equipment perfectly. For all 1917-85 cars except 28-31 Ford Model "A", Jeep®, Lincoln and Mercury vehicles that require V-ribbed belts. SEE HOW TO ORDER BELOW.

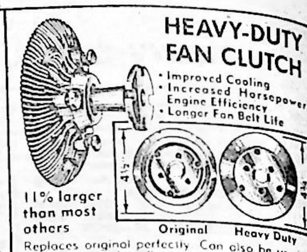

55-0307T— Each $3.49

FOR 1928-31 FORD "A"
16-0138P— Each $4.29

HOW TO ORDER FAN BELTS:
1. State Make, Year, Model, No. of Cylinders, Cubic Inch Displacement of Engine and Stock No. When ordering Alternator Belt, also state if alternator has heavy-duty (70, 80, 90 or 100-amp) factory alternator.
2. State if car is equipped with power steering, factory-equipped air conditioner, or both.
3. State where belt is to be used:
A—Fan and Generator or Alternator
B—Power Steering
C—Air Conditioner
D—Air Pump

Note: The stock no. you ordered may carry a different identification number on your pkg.

HEAVY-DUTY FAN CLUTCH

- Improved Cooling
- Increased Horsepower
- Engine Efficiency
- Longer Fan Belt Life

11% larger than most others. Original / Heavy Duty

Replaces original perfectly. Can also be used on vehicles not originally equipped w/fan clutch by using fan blade listed below. Silicone fluid clutch releases extra horsepower by free-wheeling the fan at approx. 35 MPH, when it is no longer needed for radiator cooling. Engine drag caused by large fans is reduced, fan belt wear and loss of tension is minimized, unnecessary fan noise and high speed overcooling eliminated. Deep turbine fins give more pulling power. Heavy duty construction with 1/4" larger diameter plate. Gives better performance, cooling and longer life than original units. Special slotted hole pattern eliminates alignment problems, makes installation quick and easy. When Ordering, State Make, Year, Model, Cubic Inch Displacement of Engine and Stk. No. Note: The stk. no. you ordered may carry a different identification no. on your pkg.

60-85 Amer. Mtrs. All; 61-85 Buick; 60-85 Cadillac; Eldorado, Seville; 62-85 Chevrolet All; 65-85 Chevrolet pickup, Blazer, Super Van, exc. 454 & 350 diesel; 57-85 Chrysler; 60-85 Chrysler All; 57-85 Dodge, Dart, Charger, Coronet, Monaco, Polara; 65-85 Dodge pickup, Handy Van; 61-85 Ford All; 61-85 Ford pickup; 65-85 GMC pickup; 65-85 JEEP® Wagoneer, Kaiser, J Series; 66-85 Lincoln; 61-85 Mercury; 61-85 Oldsmobile All; 60-85 Plymouth; 61-85 Plymouth pickup; 59-85 Pontiac

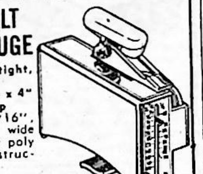

55-1358N— $22.95

Fan Blade for fan clutches listed above. Enables use of above fan clutch even if vehicle not previously equipped. 18" diam.
38-9992N— Each $16.95

Heavy-duty Fan Clutch. Similar to above but 7" diam. For 70-85 Chev. & GMC pickups & vans with 454 gas eng. or 350 diesel eng.
37-8959W— Each $69.95

Fan Clutch for Jeep®. Replaces original. For 72-75 V8 304, CJ5, CJ6 and 71-74 V8 304 C10 Jeepster.
37-8285W— Each $29.95

Compact BELT TENSION GAUGE

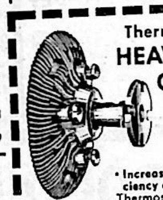

- Fits easily into tight, inaccessible areas
- Only 3-1/4" wide x 4" high x 1-1/2" deep

For all 1/4", 7/16", 15/32" and 1/2" wide V-belts and most poly V-belts. With instructions.

14-5647X— Each $23.99

Thermostat-controlled HEAVY-DUTY FAN CLUTCHES

- Outperform, outlast OEM fan clutches
- Improve performance and fuel economy
- Reduce noise levels
- Increase horsepower, engine efficiency and cooling

Thermostat controls flow of special heavy-duty silicone fluid to assure that fan operates only when needed. Clutch turns off or reduces fan speed when ram air is sufficient to cool radiator ... prevents overheating. Strong, lightweight die-cast aluminum with precision machined shaft and high-temperature silicone seals. For the following cars, trucks and vans:

67-85 American Motors cars incl. all Jeep®; 61-85 Buick cars; 60-85 Cadillac cars; 62-85 Chevrolet cars; 66-85 Chevy/GMC lightduty pickups and vans; 57-85 Chrysler Prod. (exc. Omni, Horizon); 65-85 Dodge and Plym. pickups, vans; 61-85 Ford cars (exc. 4-cyl.); 67-85 Ford pickups and vans; 66-85 Lincoln cars; 61-85 Mercury cars (exc. 4-cyl.); 63-85 Olds. cars; 59-85 Pontiac cars

When Ordering, State Make, Year, Model, Engine Size, No. of Cyls., With or Without Air Conditioning & Stk. No. Note: The stock number you ordered may carry a different identification number on your package.

55-3412Y— Each $29.95

FAN BELT TENSION GAUGE

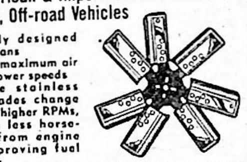

- For single & dual V-belts
- & multigroove serpentine belts

Easy-to-read gauge helps you set fan and V-belts to correct tension quickly, easily. With instructions.

14-8826U— Each $3.99

Variable-pitch • Stainless Steel Heavy-duty Flexible FAN
for American & Imported Cars, Pickups, Campers, Off-road Vehicles

- Specially designed 7-blade fans
- Delivers maximum air flow at low speeds
- Flexible stainless steel blades change pitch at higher RPMs, drawing less horsepower from engine and improving fuel economy

Economical alternative to fan clutches. Special offset design reduces vibration for quieter operation. Protected width: 2-1/5". Measure existing vehicle fan and order same size below. Spacer sold separately below. For vehicles with and without air conditioning.

37-9932B—15" diameter Each $29.95
37-9933P—17" diameter Each 32.95
37-9934Y—18" diameter Each 34.95

Spacers. Use on vehicles with free-wheeling fans or when replacing fan clutch.
37-7542A—Chrysler Products
37-7541T—American Motors, Ford/Mercury (exc. 429-460 eng.) & General Motors Products
37-7540N—Ford/Mercury Prod. 429-460 eng.
Above Numbers Each $3.69

Extra Cooling FAN BLADES
for American Cars and Trucks with Fan Clutches

- Combines the advantage of your fan clutch with a lightweight aluminum fan
- Reduces weight and power-robbing "drag" on engine for increased gas mileage

Ideal for vehicles with air conditioning or towing extra loads. Works with present fan clutch to assure peak engine cooling. Replaces original fan. Easy installation. Fits all cars and 1/2 and 3/4-ton trucks with fan clutches. Universal fit 18" diameter.

38-0473N— Each $16.95

Emergency FAN BELT KITS
for Cars, Pickups, Vans

Deluxe Kit (shown). Includes: 60" of perforated 1/2" wide V-belting; tightening device; sturdy connector with rigid posts and 2 screws; combination wrench/screwdriver, cutting blade.

73-3650A 1-Kit $5.98

Standard Kit (not shown). Includes heavy-duty polyurethane tubing with sure-locking device, and cutting blade.

15-5966P— 1-Kit $3.98

10-tube • Agitator-action TRANSMISSION OIL COOLER
for Trucks, RVs & Motor Homes

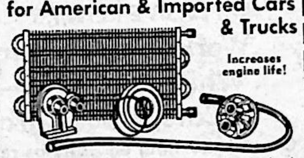

- For vehicles (up to 22,500 lbs. gross weight) with radiator-cooled automatic transmissions
- Keeps transmission fluid within safe temperature level under all driving conditions
- Mounts easily to radiator core—no drilling

Internal agitator circulates oil back and forth through 10 rows of 1/2", heat-conductive copper tubing for maximum cooling. Prevents transmission damage from overheated fluid. Improves engine-cooling efficiency of radiator. Size: 17" x 12-1/2" x 3/4" thick. Includes hose, clamps, adapters, mounting kit, instructions.

38-0261U— 1-Kit $39.95

4 & 6-tube ENGINE OIL COOLERS
for American & Imported Cars & Trucks

Increases engine life!

6-tube Cooler (shown). Full-flow circuit completely cools oil, improves engine performance. 3/8" copper tubes with internal agitators. 3/4" x 7-1/2" x 17" cooler has ports for temperature and pressure gauges. Includes adapter, filter mount, hose, hardware, instructions. Fits the following cars and (where specified) trucks and vans with spin-on filters:

American Motors 65-85; Alfa Romeo 71-83; Austin-Healey 70-79 Sprite; BMW 68-84 4-cyl.; Buick 65-85; Cadillac 59-85; Checker 69-85; Chevrolet 68-85; Chevrolet/GMC 69-85 light trucks, vans incl. LUV; Chrysler 59-85; Datsun 67-84 all; Dodge 66-85; Fiat 73-79 128 Series & 131; Ford 57-85; Ford 69-85 light trucks & vans incl. Courier; Honda 73-84 all; Lincoln 57-85; Mazda 70-84 all; Mercury 57-85; MG 70-80 all; Nissan—see Datsun; Oldsmobile 59-85; Opel 66-80 all; Peugeot 72-79 all; Plymouth 66-85; Pontiac 60-85; Porsche 77-82 924; Renault 68-84 all; Saab all; Subaru 71-84 all; Toyota 68-84 all incl. Landcruiser; Volkswagen 73-84 all water-cooled; Volvo 69-84

37-9325R— 1-Kit $89.95

4-tube Coolers (not shown). Aluminum tubes with internal oil agitator, built-in safety bypass. 1" x 6" x 18". With hose, hardware, instructions. ◆Safety bypass not required.

ENGINE & TRANSMISSION OIL THERMOSTAT

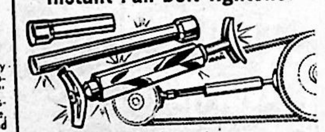

- Controls oil temperatures the way a thermostat controls water temperatures in your radiator
- Starts opening at 165°F, full open at 185°F

Designed for all passenger cars and light trucks with an auxiliary oil cooler. Unit installs easily in oil lines with hose barbs. (Hose fittings not included.) Built-in thermostat opens and closes as oil temperatures rise or fall.

38-0083B— Each $29.95

Fittings for above.
37-9896R—3/8" 1-Set of 4 $4.99
37-9897X—1/2" 1-Set of 4 5.49

Instant Fan Belt Tightener

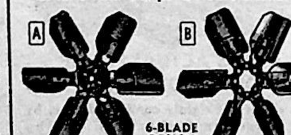

- Quick, easy, one-hand operation
- For automobile belts, compressors, blower motors or anywhere fan belts, pulleys are used

Saves money, trouble. Tool holds fan belt at proper tension, leaving hands free to tighten and align pulleys. Spring loaded—you can make adjustments before final setting of tension. Proper centering and alignment of motor prevents overloading and uneven bearing wear, minimizes wear on all parts, increases transmission efficiency and belt life. No other tools required. Chrome-plated brass body, steel sleeve. 2 extensions for an operating range of 4-3/8" to 15-3/8" between pulleys. With instructions.

15-6161X— Each $14.98

Replacement FAN BLADES
for American & Imported Cars & Trucks

6-BLADE DESIGN

Replaces damaged, bent or out-of-balance original fan blade perfectly—assures proper cooling and better efficiency. Styled and made of same steel as original. For vehicles with and without fan clutch. (Fan clutch not included—see Index.) Not for vehicles with electric engine cooling fan.

FAN BELT TIGHTENER

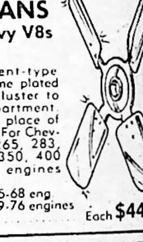

- Makes belt tightening an easy one-man job
- No need for pry bars that can damage engine components

Works on all alternators and other belt-driven accessories with contoured housing. Steel with black oxide finish. Use with your 1/2" drive bar.

14-4946U— Each $5.99

Chrome-plated ENGINE FANS
for 55-76 Chevy V8s

Original-equipment-type 4-blade fan, chrome plated to add show-car luster to any engine compartment. Bolts on easily in place of existing fan. Steel. For Chevrolet cars with 265, 283, 305, 307, 327, 350, 400 small-block V8 engines without fan clutch.

38-0728B—For 55-68 eng.
38-0729P—For 69-76 engines
Above Numbers Each $44.95

Electric ENGINE COOLING FAN
with Adjustable Thermostat

- Replaces original equipment cooling fan with pre-set thermostat
- Fits any car with 5" clearance between radiator and water pump or fan clutch
- Ideal for Chrysler K cars and General Motors cars with transverse engines

Switches on automatically when coolant reaches preset heat range and turns off when coolant temperature decreases to desired level. Thermostat adjusts from 170° to 220°. Tubular motor requires less energy than pancake-style motors. Fan has ten 12" blades surrounded by tip ring. Blades and ring are made of injection-molded plastic. Size: 13-1/2" x 13-1/2" x 5" deep. With mounting brackets, instructions. Not recommended for engines larger than 350 cu. in. See Index for double-fan model. Order air conditioner relay below.

37-8634N— Each $67.95

Air Conditioner Relay. Turns fan on when air conditioner is on to maintain air flow over condenser.

38-9995Y— Each $6.9[illegible]

FRICTION-FIGHTING ENGINE TREATMENT
Coats moving internal engine parts to cut friction, reduce wear & boost horsepower, economy!

Not just an oil additive, but a Friction-Fighting Engine Treatment that helps reduce friction drag (a major cause of engine failure) PLUS gives you:
- better operating economy
- increased usable horsepower
- greater engine efficiency and performance
- faster, easier starts especially on cold mornings
- extra miles of dependable, trouble-free engine life ... reduced wear on engine parts

A space-age coating and other solid film lubricants in colloidal suspension are combined in this special product you simply add to your motor oil. Works within the oil itself to treat your engine and its moving parts. When used as directed, it's safe for all internal combustion automotive engines. Contains no corrosive ingredients, can't harm engine parts.

THE NEAREST THING TO A LIFETIME ENGINE!

Treatment dispenses a micro-thin "coating" to internal moving parts—to provide a surface that is freed from harmful and crippling metal-to-metal contact. In doing so, it helps prolong the life of the surfaces that come in contact with each other. This tough, micro-thin coating is able to withstand extreme heat and pressure. And the coating remains on friction surfaces—even after the engine oil has been changed!

For all 4, 6, 8-cyl. and V8 engines in all cars, vans, trucks, off-road vehicles, recreational vehicles, power boats & diesel eng. 8-oz. Friction-Fighting Engine Treatment with complete directions and total warranty described above.

14-4782T— Each $9.9[illegible]

For motorcycles, ATVs and 4-cyl. engines. Same as above.

14-4107T— Each $9.9[illegible]

LIMITED (OWNERSHIP DURATION) WARRANTY

If, at any time while you own the original vehicle for which this Friction-Fighting Engine Treatment was purchased, you do not get better engine performance—better fuel economy—faster starting—increased horsepower—or if you have any engine problems or repairs arising due to friction—or if you are not completely delighted and satisfied for any reason whatsoever—simply return your original order papers and the empty container to us, for an immediate full refund with no questions asked. Warranty limited to purchase price of product.

Deluxe • Chrome-plated WATER PUMPS
for 55-76 Chevrolet Products

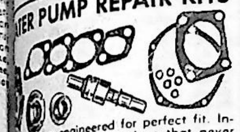

Castings are chrome plated and polished to a brilliant, show-car custom finish. Quality bearings and special seal system assure long life. Thoroughly vacuum tested.

For 69-76 Chevy small blocks (exc. Corvette) with alternator bracket (long leg): 262, 267, 327, 350, 400 cu. in.
[illegible]4A— Each $59.95

For 55-68 Chevy small blocks (short leg): 265, 283, 302, 307, 327, 350 cu. in.
[illegible]5Y— Each $59.95

For 69-76 Chevy big blocks (two outlets): 396, 402, 427, 454 cu. in.
[illegible]6W— Each $63.95

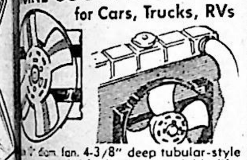

WATER PUMP REPAIR KITS

Precision engineered for perfect fit. Includes pre-lubricated bearings that never need packing, gaskets, seals and all other necessary parts.

Manual Control Auxiliary ELECTRIC ENGINE COOLING FANS
for Cars, Trucks, RVs

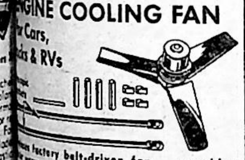

[illegible] diam. fan. 4-3/8" deep tubular-style motor is sealed for long, dependable life. [illegible] as an engine-cooling add-on for air-conditioned or trailer-towing vehicles. Incl. fan, wiring harness & control switch.

[illegible]413B— $49.95

[illegible] but with "pancake" style 2-1/4" deep [illegible]

[illegible]412U— Each $56.95

Oversized 21" • Electric ENGINE COOLING FAN
for Cars, Trucks & RVs

Replaces factory belt-driven fan ... provides faster warm-ups, reduces engine drag for increased performance and fuel economy. Delivers 2600 cu. ft. of air per minute for improved engine cooling. Telescopic metal brackets adjust from 26" for easy installation. Fully reversible—mounts in front of or behind radiator. Rubber mounts reduce vibration. Plastic fan blade can be trimmed if needed for custom fit. 1/6-HP motor (with front ball bearing) draws 12 amps. [illegible] deep when assembled. Includes hardware, instructions. For all 12-volt vehicles up to 350 C.I.D. engine. Order thermostat switch below.

[illegible]876A— 1-Kit $119.95

Thermostat Switch. Turns above fan on at 198°F, off at [illegible]. Solid state. Mounts in drain petcock or radiator hose. With fittings, instructions.

[illegible]77B— Each $19.95

FAN BELT INSTALLER REMOVER

Install or remove belts without loosening bolts or stretching belts. Use with your remote starter switch—hands do not come near moving parts. Steel & neoprene rubber.

[illegible]99Y— Each $4.49

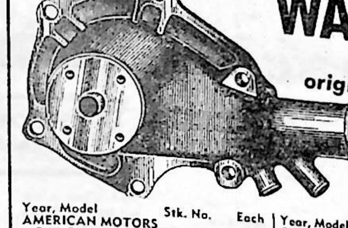

FLYWHEEL TURNER TOOL
for All Vehicles

This tool eliminates crawling in and out from under vehicle. Spring tension holds securely to flywheel—freeing hands.

[illegible]23W— Each $13.88

WATER PUMPS for CARS & TRUCKS

Precision built, pre-lubricated ... tested for extra-long, trouble-free, better than original service-fit like original. Gasket included. WARRANTED FOR LIFE OF CAR OR TRUCK

LIMITED (Ownership Duration) WARRANTY
Water pumps are warranted for as long as you own the car or truck in which pump is originally installed. If pump fails in any way—we will replace it without charge. Labor not included.

These new water pumps are the only ones we know of that are warranted for the life of your car or truck. Assures maximum circulation through car's cooling system. In summer, helps prevent over-heating—assures good heater performance in winter. Includes gasket, hub and back plate wherever included on original pump. AC=with Air Conditioning, w/o AC=without Air Conditioning. **State Make, Year, Model of Car or Truck, with or without Air Conditioning, and Stk. No. Note: The stock number you ordered may carry a different identification number on your package.** For Imported Cars, See Index.

Heavy-duty 18" ENGINE COOLING FAN

- Delivers 1850 cu. ft. of air per minute
- Requires only 4" depth to install
- Mounts in any position (on fan shroud, in front of or behind radiator) with no strain on bearings
- Draws only 7 amps

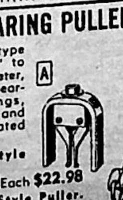

Replaces original-equipment engine-driven fan or can be used for additional cooling. Kit includes these components: **Balanced 2-blade fan.** Made of heavy-duty, induction-molded plastic. 18" diam. x 2" deep. **Reversible pancake-type motor.** Sealed ball bearings (not sleeve bearings) front and rear. Wire-wound armature and commutator. 5-1/2" diam. x 3" high. 1-7/8" long shaft. **Steel mounting straps & cushioned mounting pads** to reduce noise, vibration. Plus hardware, wiring & instr. **Note:** Will not fit imported or compact cars. Order thermostat below.

37-9571Y— 1-Kit $84.95

Thermostat. Turns on at 195°, off at 185°. Solid state, operates in oil or water. Mounts in drain petcock or lower radiator hose. With fittings, instructions.

37-9620T— Each $19.95

PILOT BEARING PULLERS

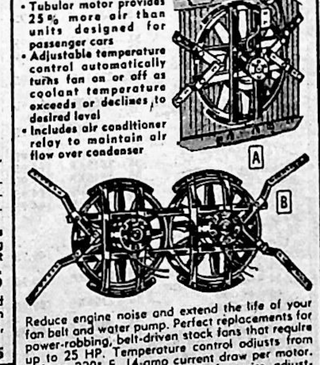

Remove all sleeve-type bearings from 1/2" to 1-1/2" inside diameter, including flywheel bearings, pump bearings, generator bearings and more. Cadmium-plated to prevent rust.

[A] **Center-bolt Style Puller.** 7-1/2" long.
15-8925T— Each $22.98

[B] **Slide-hammer Style Puller.** 18" long.
74-3134N— Each $25.98

Heavy-duty • Electric ENGINE COOLING FANS
for Light Trucks, Vans, RVs and Motor Homes

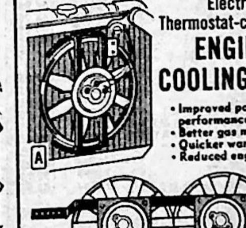

- Tubular motor provides 25% more air than units designed for passenger cars
- Adjustable temperature control automatically turns fan on or off as coolant temperature exceeds or declines to desired level
- Includes air conditioner relay to maintain air flow over condenser

Reduce engine noise and extend the life of your fan belt and water pump. Perfect replacements for power-robbing, belt-driven stock fans that require up to 25 HP. Temperature control adjusts from 170° to 220° F. 14-amp current draw per motor. Includes 10-blade 12" diameter fan, wire, adjustable brackets, hardware, instructions.

[A] **Single Fan.** For normal driving conditions. Mounts on radiator flange (not through the radiator) up to 26-1/2" wide. 5-1/2" deep. For 6 & 8-cyl. engines up to 352 C.I.D.
38-0109N— Each $94.95

[B] **Double Fan.** For 6 and 8-cyl. engines larger than 352 C.I.D., or when carrying or towing heavy loads. Mounts on radiator flange (not through the radiator) up to 39" wide. 5-1/2" deep. Has 2 temperature sensors, one air conditioner relay. With special brackets.
38-0110T— Each $159.95

Electric Thermostat-controlled ENGINE COOLING FANS

- Improved power and performance
- Better gas mileage
- Quicker warm-ups
- Reduced engine noise

Electric fans use only 1/6 HP, replace belt-driven stock fan that robs engine of 4 to 17 HP! Unit switches on when coolant reaches preset heat range. Turns off automatically when coolant decreases to proper level. Mounts to radiator core with special fasteners included. Includes "on" light in switch, thermostatic sensor, 12" diam. fan, wire, mounting brackets, instructions and hardware.

[A] **8-blade Single Fan.** For engines up to 352 C.I.D. 13-3/4" x 3-1/2".
73-2889W— 1-Kit $72.95

8-blade Single Fan. Same as above but without thermostatic sensor and light switch.
37-9446T— Each $59.95

[B] **10-blade Double Fan.** For engines 352 C.I.D. and larger, and cars with air conditioning or heavy tow loads. 27-1/2" x 3-1/2".
73-2890U— 1-Kit $139.95

[C] **Optional Metal Mounting Brackets** attach fan to radiator mounts.
37-7872B—Single fan Each $9.95
37-7873P—Double fan Each 14.95

Air Conditioning Relay. Turns fan on when air cond. is on to maintain air flow over condenser.
37-7874Y— Each $6.99

THERMOSTAT SWITCHES
for ALL Electric Engine Cooling Fans

- Turns electric cooling fan on/off at pre-set temperature ... helps prevent engine overheating

[A] **ADJUSTABLE Switch.** Turns fan on or off when engine coolant reaches any temperature from 170° to 240° F. Sensor mounts in radiator hose for accurate readings. With wire, hardware, instructions. For 6 or 12-volt systems.
37-8602B— Each $14.95

[B] **NON-ADJUSTABLE Switch.** Turns on at 190°, off at 170°. Sensor mounts on outside on any radiator hose, oil or hydraulic line with diameter up to 3". With wire, hardware, instructions. For 12-volt systems.
37-9527P— Each $11.95

Engine-cooling Fan Motors

Universal motors replace burned-out electric motors on aftermarket engine cooling fans (not for factory installed fans). Some models may require modifications for proper installation. 12-volt, 12-amp rating.

[A] **Tubular Style.** 4-1/2" long overall; 2-7/8" diam. case; 1/4" diam. shaft.
38-0713U— Each $26.99

[B] **Pancake Style.** 2-1/4" long overall; 5" diam. case; 1/4" diam. shaft.
38-0714B— Each $34.99

LOW AS 99^{95} Each

Quality HEAVY-DUTY RADIATORS for American Cars and Trucks

Free-flowing water passages assure greater heat dissipation, cooling efficiency. These new radiators are complete with same brackets as original equipment. Before ordering, be sure to check ordering and shipping information on opposite page

AT=with automatic transmission
MT=with manual transmission
w/AC=with air conditioning
w/o AC=without air conditioning
cyl.=cylinders

SEE ORDERING AND SHIPPING INFORMATION ON FACING PAGE

HOW TO ORDER

Your order must include the following information: Make, Year, Model, Cubic Inch Displacement, with or without Engine Oil Cooler, with or without Turbocharger, Manual or Automatic Transmission, Carb Type (2 bbl., 4 bbl.), with or without Air Conditioning and Stock No. On GM vehicles with 350 engine also state fifth digit of vehicle identification number (C,L,P,R,X). For Trucks, State Series No. (C,F,G,F, 150, etc.), 2WD or 4WD, with or without Engine Oil Cooler, Core Size (for trucks made prior to 1960) and Original Equipment No. Note: The stock no. you ordered may carry a different identification number on your package. Nos. ending in "E" Not Mailable—See How to Order Page (Truck Shipments). Average shipping weight, 20 lbs. Nos. ending in "F" or "FE" shipped from factory; no C.O.D. orders.

COPPER EXPANSION FREEZE PLUGS

- Copper conforms to surface irregularities better than rubber or brass freeze plugs ... forms a permanent, water-tight seal
- Holds pressure up to 3000 psi

Easy to install even in hard-to-reach areas. Tighten with your wrench to form the best possible seal. Set of 5

Size	Stk. No.	Each	Size	Stk. No.	Each

Flexible Expansion Engine Freeze Plugs

For automotive, marine or industrial engines. No special tools required. Slip neoprene plug into core hole and tighten nut. Plug expands to create a water-tight seal that holds pressures to 50 psi. Instructions.

37—8171Y—1" ... Each $1.69
37—8172W—1-1/4" ... Each 1.79
37—8173U—1-1/2" ... Each 1.99
37—8174B—1-3/4" ... Each 2.19

COOLING SYSTEM TESTING KIT for All Vehicles

Helps prevent damaging overheating or expensive anti-freeze/coolant loss by: (1) checking radiator pressure cap for wear or defects; (2) checking entire cooling system to detect leaks in radiator, cylinder heads, gaskets, engine block, hoses, water pump and heater. Steel air pump has 2" diam. gauge (measures in lbs./sq. in. or dynes/sq. cm) and pressure-release button. Precision-machined internal parts, contour handle with safety stop. Includes radiator filler neck adapter with short and long-reach rubber bushings and instructions. (If pump won't fit directly on filler neck, order extension adapter below.)

14—4304W— ... 1-Kit $39.99

EXTENSION ADAPTER

For testing kit above. 21" steel braided hose extension for car radiator filler necks where air pump won't fit directly on radiator.

14—4305T— ... Each $9.99

High-efficiency AUXILIARY RADIATOR KITS for American & Imported Cars, Trucks & RVs

- Increases engine cooling capacity ... helps prevent overheating and engine damage
- A must for under-cooled small cars, overloaded RVs & towing vehicles and all air-conditioned vehicles
- Choice of 3 kits to fit your needs

High-grade aluminum is furnace brazed to insure the most thermally efficient joint possible between tubes and air fins. Interior design of tubes and collector tanks provides maximum surface area with minimum pressure drop. Highly concentrated air fins maximize heat transfer to outside air. Mounts in front of radiator using simple hand tools. With auxiliary radiator unit, 6 ft. of high-temperature hose, clamps, fittings, instructions.

Light-duty Kit for small and medium-size vehicles. 10-row construction. Core size: 2" x 3-7/8" x 11-3/4".
74—7376Y— ... 1-Kit $69.98

Medium-duty Kit for medium and full-size vehicles. 13-row construction. Core size: 2" x 4-3/4" x 11-3/4"
74—7377W— ... 1-Kit $79.98

Heavy-duty Kit for full-size vehicles, motorhomes, trucks. 16-row construction. Core size: 2" x 5-3/4" x 11-3/4"
74—7378U— ... 1-Kit $89.98

RADIATOR/COOLING SYSTEM FLUSH KITS

Power-flush radiator and cooling system easily. Adapt radiator cap or drain plug opening to fit standard garden hose, then turn water on full force to flush engine, radiator and hoses.

75—2293R— ... 1-Kit $4.95

Radiator Back Flush Kit (not shown). Consists of brass plug with back flush valve and splash tube. Instructions.

74—8040R— ... 1-Kit $2.49

RADIATOR PETCOCK SOCKET

3/4" hex allows use of open end, box end, or socket wrench.

14—7818B— Each ... $2.49

Hi-performance • Air-to-Air INTERCOOLER SYSTEM for Turbocharged 2.3-liter 4-cyl. Capri, Cougar, Mustang & Thunderbird

- Increases performance of turbocharged engines
- Minimizes detonation ... improves overall engine efficiency

Aerospace-grade aluminum heat exchanger core mounts to engine. Electronically controlled fan supplies cold, fresh ambient air to core to reduce temperature of air charge (at 80°F, system yields approx. 120° reduction of charge temperature.) This allows increased boost pressure for improved horsepower and performance, especially at low end of acceleration scale. Engine can operate with more ignition timing because detonation sensor won't retard spark. Fan goes on for approx. 20 seconds when engine is started to pre-cool the core and prepare it for the cooling function; also operates whenever a 4 psi boost is reached to maximize cooling. Special design of system minimizes piping length to assure quick boost build-up. Includes instructions. Installation time approx. 4-1/2 hours. For Ford Mustang, Thunderbird & Mercury Capri, Cougar with factory turbocharged 2.3 liter 4-cyl. engine. Shpd. from factory. No C.O.D. orders.

97—2767WF— ... 1-Kit $799.95

Solid Brass Engine FREEZE PLUG SET

- Solid brass water plugs resist corrosion

Complete set of replacement freeze plugs. Solid brass water plugs, all steel oil galley (pipe plugs). Number of oil plugs for entire engine varies by application.

Machined Aluminum THERMOSTAT HOUSINGS for Chevrolet V6 & V8 Engines

- Choice of clamp-on or screw-on housings

Adds a custom, street-rod look. Solid 6061-T6 billet aluminum alloy, machined within ±.005" tolerances to prevent coolant leaks during competition or street use. Vertical neck design. Includes countersunk stainless steel Allen bolts. Fits Chevrolet V6 (200, 229) and all V8 (262 thru 454) engines. Accepts all Chevrolet-style thermostats (not included).

Clamp-on Housing (shown). Attaches to radiator hose with hose clamps (not incl.—see Index).
38—0834Y—Milled finish ... Each $49.95
38—0835N—Polished finish ... Each 59.95

Screw-on Housing (not shown). Provides extra protection against coolant loss in high-rev or competition situations. Attaches to stainless steel braided radiator hose using Size 20 AN threaded fittings (not included). 37° seat angle.
38—0836T—Milled finish ... Each $59.95
38—0837A—Polished finish ... Each 69.95

Molded RADIATOR HOSE for 70-84 General Motors Cars

- Replaces original perfectly
- Custom tailored to fit your individual car
- Choice of upper and lower hose

Provides full flow even through tight bends to assure proper cooling. Reinforced EPDM compound resists heat, ozone, chemical coolants ... exceeds SAE burst limits. For the following cars:

Buick: 73-75 Apollo; 73-84 Century, Regal; 70-84 Centurion, Electra, Electra Estate, LeSabre, Skylark, Special; 75-77 Skyhawk
Chevrolet: 70-81 Camaro♦; 70-84 Caprice, Chevelle, Corvette, Impala, Malibu♦, Monte Carlo; 76-84 Chevette; 80-82 Citation; 75-80 Monza; 70-79 Nova; 71-77 Vega
Oldsmobile: 70-84 88, 98, Custom Cruiser, Cutlass, Vista Cruiser; 73-83 Omega; 75-80 Starfire
Pontiac: 75-77 Astre; 70-84 Bonneville, Catalina, Grandville, Grand Prix, LeMans, Tempest; 70-81 Firebird, Trans Am; 71-84 Phoenix, Ventura; 76-80 Sunbird; 81-84 T1000

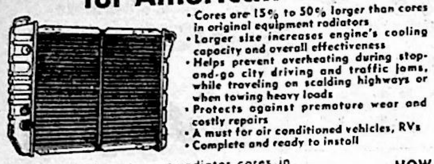

When Ordering, State Make, Year, Model, Engine Size, With or Without Air Conditioning, With or Without Diesel Engine & Stk. No. For 77-80 cars with 350 engines, Also State Fifth Digit of Vehicle Serial Number (C, L, P, R, X). ♦For 70-75 models with V8 engine, Also State Width of Radiator (26", 32" or 36"). Note: The stock number you ordered may carry a different identification number on your package. Some applications may require cutting hose to exact length needed.

55—3459R—Upper hose ... Each $5.98
55—3460X—Lower hose ... Each 5.98

ORDER BY PHONE 312-431-6102 CHARGE YOUR ORDER ON YOUR VISA OR MASTER CARD

Oversized RADIATORS for American Cars and Trucks

- Cores are 15% to 50% larger than cores in original equipment radiators
- Larger size increases engine's cooling capacity and overall effectiveness
- Helps prevent overheating during stop-and-go city driving and traffic jams, while traveling on scalding highways or when towing heavy loads
- Protects against premature wear and costly repairs
- A must for air conditioned vehicles, RVs
- Complete and ready to install

Small original equipment radiator cores in cramped frontal areas often let engines run too hot. These new oversized radiators are needed to cool your engine safely, efficiently. Designed with a 15% to 50% larger core to help your engine run cooler under all driving conditions. Radiators are made of long-lasting copper and brass and are complete, ready to install. Have same brackets as original equipment.

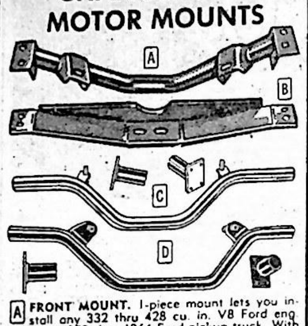

w/AC=with air conditioning
w/o AC=without air conditioning

HOW TO ORDER
Your order MUST include the following information: Vehicle Make, Year, Model, Cubic Inch Displacement, Manual or Automatic Transmission, Carb Type (2-bbl., 4-bbl.), with or without Air Conditioning and Stk. No. For GM vehicles with 350 engine, also state fifth digit of vehicle identification number (C, L, P, R, X). For trucks, state model number (C10, F150, B200, etc.) and 2WD or 4WD. Note: The stock number you ordered may carry a different identification number on your package. Shipped from factory. No C.O.D. orders.

CHANGE-OVER MOTOR MOUNTS

[A] **FRONT MOUNT.** 1-piece mount lets you install any 332 thru 428 cu. in. V8 Ford eng. into any 1952 thru 1964 Ford pickup truck. With bolt-to-frame cross bar, hardware & instructions.
37—8024R— Each $39.95

[B] **REAR MOUNT.** Lets you mount C4 or C6 Ford automatic transmission into any 1952 thru 1964 Ford pickup when installing any 332 thru 428 cu. in. V8 Ford eng. Mounts in channel of frame or under frame—no welding required.
37—8025W— Each $25.98

Motor Mount (not shown). Allows you to install big-block Ford 429-460 engines into any 1952 thru 1964 Ford pickup. Bolt-in ... no welding required. Kit includes right and left-side engine adapter plates, 2 mount-to-frame plates, 2 rubber/steel motor mount pads and all necessary hardware.
37—7379Y— 1-Kit $49.98

Adjustable Motor Mount (not shown). Rear crossmember kit adapts standard or automatic transmission to any car or truck with open channel frame (32-1/2" to 36-1/2" width between frame rails). Uses stock transmission mounts. With mounting hardware & instr.
37—7403W— 1-Kit $41.98

Universal Frame Motor Mounts. For installing popular Chevrolet and Ford small block V8 engines into many earlier frames. Adjusts to frame widths of 24" to 33", like Roadsters, early Ford and Chevy pickups. Some welding required. Motor mount includes brackets. Order pads below.

[C] **For Chevrolet 265-350 small block V8 engines.**
37—7898X— Each $37.99

[D] **For Ford 221-351 Windsor small block V8 engines.**
37—7859R— Each $37.99

For Ford 351-400 Cleveland V8 engines (not shown).
37—8608R— Each $37.98

Frame-mount PADS for Chevrolet & Ford Engines

Not shown. Complete installation of universal frame motor mounts above.

For installation of small block CHEVROLET 265-350 engine into many earlier frames. (See Change-over Mount 37—7898X above.) Replace GM #3840749 (left hand) and GM #3840750 (right hand).
37—8603P—Left-hand mount Ea. $5.99
37—8604Y—Right-hand mount Ea. 5.99

For installation of 221-351 FORD WINDSOR engine. (See Change-over Mount 37—7859R above). Replace Ford Motor Co. #D0OZ-6038-G. 2 required.
37—8605N— Each $12.99

For installation of 351-400 FORD CLEVELAND engine. (See Change-over Mount 37—8608R above.) Replace Borg-Warner #312968 (right hand) and #312969 (left hand).
37—8606T—Left-hand mount Ea. $14.99
37—8607A—Right-hand mount Ea. 14.99

High-performance RADIATOR HOSE & HOSE ENDS

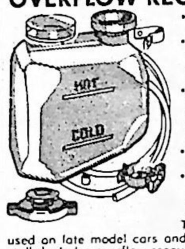

[A] **Stainless Steel Braided Radiator Hose.** 4-layer construction (see drawing above) for maximum strength, protection. Available in 2 diameters. **Note:** The outer steel braiding of these hoses does not allow 90° bends, unless the radius of bend is 10" or more for No. 24 hose, or 12-1/2" or more for size 32 hose.

Hose Size	Inside Diameter	Hose Length	Stk. No.	Each
24	1-1/2"	1-1/2 ft.	74—7265T	$24.95
24	1-1/2"	2-1/2 ft.	74—7266A	39.95
32	1-3/4"	1-1/2 ft.	74—7267R	25.95
32	1-3/4"	2-1/2 ft.	74—7268X	41.95

[B] **Clamp-on Ends** for radiator hose. Anodized aluminum.

Color	Hose Size 24	Each	Hose Size 32	Each
Red	74—7269N	$12.95	74—7270T	$12.95
Blue	74—7828Y	12.95	74—7831B	12.95
Chrome	74—7829W	13.95	74—7832P	13.95
Gold	74—7830U	13.95	74—7833Y	13.95

Keep your car running cooler OVERFLOW RECOVERY KIT

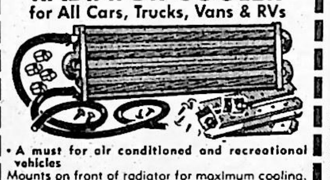

- Completely seals cooling system
- Keeps out air ... engine runs cooler, overheating is prevented
- Keeps coolant level constant ... no need to remove radiator cap to check coolant level
- Increases life of radiator
- Prolongs life of water hose—prevents oxidation and rust

The same system used on late model cars and trucks. Easy to install. Includes overflow recovery reservoir, plastic tubing, self-sealing pressure cap with spring for extra-tight seal, instructions. Custom fit for all 52-85 cars and trucks.
75—2900R—7-lb. test cap 1-Kit
75—2899T—14-lb. test cap $4.95

Economy Overflow Recovery Kit. An overflow kit that also permits coolant to flow back into radiator when cool. As above but with rubber gasket to fit existing radiator cap. For all cars.
75—2901X— 1-Kit $3.49

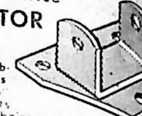

RADIATOR COOLER for All Cars, Trucks, Vans & RVs

- **A must for air conditioned and recreational vehicles**

Mounts on front of radiator for maximum cooling. Increases cooling system capacity, provides greater cooling area. Engine runs cooler under all driving conditions. Easy to install. Core size of cooler is 5" x 10-1/2" x 3/4". Includes cooler unit, hoses, hardware, instructions.
73—4713W— 1-Kit $39.98

High-performance SOLID MOTOR MOUNTS

- Replace stock rubber cushion mounts

Super-strong 3/16" thick steel mounts eliminate need for chains or torque straps.
37—6691X—For 58-68 Chevy V8
37—6692N—For 69-85 Chevy V8
37—6693T—For 68-73 Dodge, Plymouth 273, 318, 340 1-Pair $12.98

FRONT MOTOR MOUNTS for American Cars and Trucks

Replace original equipment perfectly. When Ordering, State Make, Year, Model, Engine Displacement, No. Cylinders, Right or Left Side and Stk. No. NOTE: The stock number you ordered may carry a different identification number on your package.

For American Motors product cars. Fit all 65-83
55—3464R— Each $9.95

For Chrysler product cars. Fit all 37-83. For vehicles equipped with special insert insulators—insert only provided.
55—3360R— Each $9.95

For Dodge trucks. Fit 63-81 1/2-ton, 3/4-ton, 1-ton and Ramcharger
55—3465W— Each $9.95

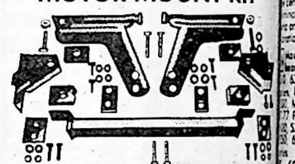

For Ford, Mercury product cars. Fit all 54-83 cars except: convertibles, 79-83 LTD & Marquis, 74-80 Pinto & Bobcat, 74-78 Mustang, 69-76 Thunderbird.
55—3466U— Each $9.95

For Ford product trucks. Fit all 53-79 Bronco, pickup, van except 65-78 6-cyl. pickup.
55—3466U— Each $9.95

For General Motors product cars. Fit 61-83 Buick, 57-83 Cadillac, 35-83 Chevrolet; 61-83 Oldsmobile and Pontiac products.
55—2886U— Each $9.95

For General Motors product trucks. Fit 64-83 GMC 1/2-ton, 3/4-ton, 1-ton, Cabellero, Jimmy, Sprint; 60-83 Chevrolet 1/2-ton, 3/4-ton, 1-ton, Blazer, El Camino. **When Ordering, State Type Transmission (Auto. or Std.) and Transmission Serial Number (350, 400 etc.).**
55—3467B— Each $9.95

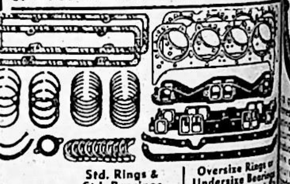

Chevrolet V8 to Vega MOTOR MOUNT KIT

Front and rear motor mount kit lets you mount small block Chevrolet V8 engine into Chevy Vega. Most automatic or standard transmissions may be used. Standard transmission installations require clutch cable bracket (order below). With all motor mount and side mount brackets, front and rear bushings, plates and hardware.
37—7860X— 1-Kit $79.95

Clutch Cable Bracket for Chevy V8 to Vega. Necessary for above motor mount kit when standard transmission is used.
37—7861N— Each $5.[illegible]

ENGINE RE-RING KITS with MOLY RINGS for 57-83 American Cars and Trucks

All-in-one kits are designed to extend engine life and improve engine performance. Include:
- **Molybdenum compression rings** seat quickly for a positive seal ... resist higher temperatures, last longer, are stronger than ordinary rings.
- **Non-retorquing gaskets** are superior to original equipment gaskets, last longer.
- **Heavy-duty rod bearings** made of top quality materials to meet or exceed OEM specifications.

Kits available with standard rings and bearings or oversize rings and undersize bearings.

HOW TO ORDER
When Ordering, State Make, Year, Model, Cubic Inch Displacement of Engine. If std. size rings & bearings are desired, order stk. no. from first column. If either oversize rings or undersize bearings are desired, order stk. no. from second column and state std., .030, .040 or .060 rings AND std., .010 or .020 bearings. Orders can't be filled without ALL information. Nos. ending in "F" shipped from factory. No C.O.D. orders.

CERAMIC SEALER/COATING for Cooling Systems

Long-lasting ceramic coating seals leaks in radiators, coats porous surfaces, seals small cracks in engine head and block. Protects engine ... allows engine to run cooler ... helps restore lost power. Easy to use. Clean system, pour ceramic sealer into radiator, drive 5 to 7 days, drain radiator, let set for several hours or overnight and then refill. Your cooling system will be covered with a tough ceramic coating that will resist rust & salt water corrosion. 16 oz. net wt.
12—3960Y— Each $4.98

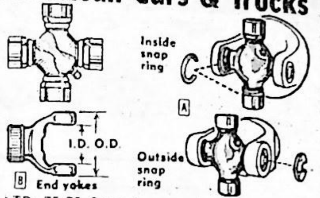

ENGINE TORQUE STRUT for General Motors "A" & "X" Cars

Replaces worn or cracked original torque strut perfectly ... eliminates engine vibration, shift and throttle linkage problems on the following 4-cyl. or V6 engine in the following: 80-85 Buick Skylark; 82-85 Buick Century; 80-85 Chevrolet Citation; 82-85 Chevrolet Celebrity; 80-84 Pontiac Phoenix; 82-85 Olds Ciera; 80-84 Omega; 82-85 Pontiac 6000.
38—0581N— Each $9.[illegible]

UNIVERSAL JOINTS for American Cars & Trucks

[Equal] or exceed OEM specifications

[HOW] TO ORDER: State make, year, model of vehicle; position of joint (front, center or rear); type transmission (automatic or manual, 3-speed or [4-speed]); engine size and number of cylinders, [carburetor] (1, 2 or 4-bbl.), if U-joint has inside or [outside] snap rings (see fig. A).
[Also] state the inside diameter of end yokes (see [fig. B]) for these vehicles:
[For] 1976 Ambassador, Matador, Rebel, state [1"] I.D. or 2-5/8" I.D. end yokes; for 60-64 [American], AMX, Javelin, state 1-1/2" I.D. or [1"] I.D. end yokes
For 61-71 Chrysler station wagons, 71-76 and [7?] Newport, New Yorker, 75-78 Cordoba, state [2"] I.D. or 2-5/8" I.D. end yokes.
For 65-66 Mercury (full-size), 70-74 Elite, Fair[lane], Ranchero, Torino, 73-78 Custom, Galaxie, LTD, 75-78 Granada, state 2-3/8" I.D. or 2-25/32" I.D. end yokes.
Note: The stock number you ordered may carry a different identification number on your package.

Universal DRIVE SHAFT SAFETY LOOP

- **Required by all racing associations**

Holds drive shaft securely in place in the event of a broken universal joint. 360° loop. Fits all cars. Easy **bolt-on** installation without removing drive shaft. With Grade 5 bolts, hardware.
85—6442W— 1-Kit $19.95

DRIVE CHAIN & SNUBBER for GM Turbo-125, C & 440-T4 Automatic Transmissions

[A] **Transmission Drive Chain.** Prevents costly damage to sprockets ... eliminates clatter, whine when stretched chain comes in contact with transmission case.

Chain for all 80-82 T-125 transmissions. Improved design for longer life, more flexibility, greater resistance to heat than original.
38—0710P— Each $44.95

Replacement Chain for 83-84 T-125C & 440-T4 automatic front-wheel-drive transmissions.
38—0712W— Each $57.99

[B] **Drive Chain Snubber.** Kevlar® polymer is 5 times stronger than steel, resists abrasion and high heat. Adds miles to your transmission chain—keeps chain from slapping case, acts as a tensioner to prevent premature chain wear caused by uneven contact with sprockets. No alterations necessary.
38—0711Y— Each $22.98

FILTER KIT for Auto. Transmissions

Prevents premature wear, assures smoother operation. Helps you maintain proper shifting, cooling and lubrication at all times. **When Ordering, State Make, Year, Model, Engine Size, Transmission Type and Stk. No. Note: The stock number you ordered may carry a different identification number on your package.**

Fits these transmissions: AMC Torque-Command 6 or 8; GM TH250, TH350, TH375, TH375B, Powerglide; Ford C-4, C-6, FMX, MX; Chrysler A-904, A727
55—2692W— 1-Kit $3.99

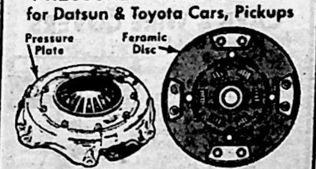

Fits GM TH200, TH400, Ford C-3, Chrysler A-404
55—3119R— 1-Kit $4.99

Fits GM TH125
85—6864A— 1-Kit $8.99

Fits 79-81 GM TH325
85—6865Y— 1-Kit $11.99

DRAIN PLUG KIT for Automatic Transmissions. Simplifies the messy job of changing fluid and filter. With instructions.
85—3811N— Each $3.89

High-performance CLUTCH PRESSURE PLATES & DISCS for Datsun & Toyota Cars, Pickups

Positive action of racing clutch plus sure control of street clutch. Impervious to oil ... non-slip to provide "extra-load" pull, better transfer of horsepower on or off-road.

74-83 Datsun Pickup (all 2 or 4WD), 70-74 240Z, 260Z.
85—7350P—Pressure Plate Each $59.95
85—6458B—Feramic Disc Each 49.95

75-83 Datsun 280Z, 280ZX (exc. 2+2).
85—7351Y—Pressure Plate Each $59.95
85—6458B—Feramic Disc Each 49.95

72-83 Toyota Pickup (all 2 or 4WD).
85—7352W—Pressure Plate Each $59.95
85—6459P—Feramic Disc Each 49.95

72-82 Toyota Celica & Corona w/2000, 2200, 2600cc eng. (8-7/8").
85—7352W—Pressure Plate Each $59.95
85—6069X—Hi-Perf. Disc (not feramic) 54.95

70-78 Toyota Corolla 1600 (solid hub).
85—6863T—Feramic Disc Each $42.95

WHEEL & TRANSMISSION SEAL PULLER

Quickly pops seals ... every time

Eliminate pounding and digging when removing seals—avoid damage to sensitive bearings and axles. Simply insert tip of seal puller behind rubber seal and pop seal out. Puller has 2 sizes of tips to fit most seal applications.
15—3217P— Ea. $4.98

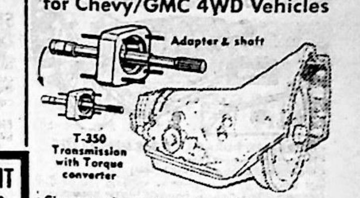

Performance FLOOR SHIFT KIT for 67-85 Ford, Chevy, GMC & Dodge 3-speed Pickups

- **Straight-line shift pattern for fast, sure gear changing**
- **Eliminates exaggerated shifter throw**
- **Spring-loaded reverse lock-out prevents accidental shifting into reverse**

Adjustable shock-absorbing gear stops protect transmission synchronizers even under the most rugged conditions. Indestructible, heat-treated steel selector pin. Full-length, chrome-plated seamless welded handle, black knob. Includes all hardware, heavy-duty shift rods, non-slip pivots, chromed heavy-gauge floor plate, vinyl boot, instructions. Fits all 67-85 Ford, Chevrolet, GMC & Dodge pickups with fully synchronized 3-speed manual transmissions. Will not fit pickups with consoles or front wheel drive.
85—8546B— Each $47.95

Replace Your 700R4 Transmission with a Strong Turbo 350 Transmission! CONVERSION KIT for Chevy/GMC 4WD Vehicles

- **Gives smoother, more positive shifting**
- **More durable for handling 4WD requirements**
- **No drive line or cross member modifications**
- **No exchange necessary**
- **Warranted 6 months (see below)**

Turbo 350 transmission is remanufactured to the highest standards of workmanship. All individual parts are tolerance checked and completely reconditioned or replaced. All clutch plates, bands, bushings, seals and gaskets are replaced with new parts that meet or exceed OEM specifications. Dynamometer tested at factory. Includes quality rebuilt torque converter, spacing adapter, output shaft, seals, hardware and instructions.
HOW TO ORDER. State Make, Year, Model, Engine Displacement, Column or Floor Shift, Serial No. of Vehicle & Stk. No. Shipped from factory. No C.O.D. orders. Shpg. wt. 180 lbs. **Not Mailable—See How to Order Page (Truck Shipments).**
76—0013BFE— 1-Kit $569.95

LIMITED (6-Month) WARRANTY
Transmissions are warranted for 6 months against defects in materials or workmanship. Factory should be notified in event warranty service is required. You will be advised by the factory regarding proper handling of warranty claim. Warranty service will be available only through the factory from which transmission was shipped.

Gas Saving TORQUE CONVERTERS for American Cars, Trucks, Vans

Stock converter allows engine to turn at 1200 to 1400 RPM before it begins to transmit power to driveline. Economy torque converter lowers this speed to 800 or 900 RPM. At 55 MPH, engine will turn approximately 200 RPM slower. Helps save gas and cut down on heat, reduces chances of transmission failure. Shpd. from factory. No C.O.D. orders. Will not work on lock-up or factory overdrive transmissions. Fits the following automatic transmissions:

For 69-84 GM turbo-hydro 350 and 65-81 GM turbo-hydro 400.
96—3525YF— Each $164.95

For 66-83 Ford C-6 with 289, 302, 351 and 460 cu. in. engines.
96—3526WF— Each $164.95

For 66-78 Ford C-6 with 332, 360, 390, 427 and 428 cu. in. engines.
96—3527UF— Each $164.95

For 65-84 Ford C-4. State exact trans. year and if trans. fluid filler tube enters case or pan.
78—2974AF— Each $164.95

For 67-84 Chrysler torque-flite 727. State exact engine year, cu. in. and 2 or 4-bbl. carburetor.
78—1761TF— Each $164.95

Dual Pattern FLOOR SHIFT CONVERSION KITS for 3 Speed Transmissions

For American Cars & Trucks with Standard or Overdrive Transmissions

Select lightning-fast straight-line or conventional H-pattern in one adjustment.

One easy adjustment changes the shift feel, spring tension, width of the neutral gate and shift pattern to suit your particular driving needs. Adjustable shock-absorbing gear stops protect transmission synchros even under the severest conditions. The heat-treated heavy-duty selector pin allows lightning speed shifting—won't break under severest strain. Rugged and handsomely styled, the shifter has walnut barrel knob and spring-loaded reverse lock-out to prevent shifting into reverse by error. Special low profile 3-point mounting bracket allows maximum floorboard clearance and eliminates vibrations. Kit includes shifter, all hardware, heavy-duty transmission arms, non-slip adjusting pivots, pre-formed heavy-duty shift rods, chrome floor plate, soft vinyl boot and instructions. Easy to install with ordinary tools. **NOTE:** Will not fit cars with consoles. **Fits the following cars with 3-speed standard transmissions:**

68-82 Amer. Mot. (6 cyl. only)
73-79 Apollo
74-77 Astre
68-82 Buick Spec., Century
68-82 Camaro (see Deluxe II kit)
70-81 Challenger
64-81 Chevy full size, Chevelle & Malibu
68-77 Comet (see Deluxe II kit)
68-82 Dodge full-size, Charger
68-81 El Camino
78-82 Fairmont
68-81 Firebird (see Deluxe II kit)
55-82 Ford full-size
74-80 Granada, Monarch
68-77 Maverick (see Deluxe II kit)
75-80 Monza
67-73 Mustang (see Deluxe II kit)
74-79 Nova
74-79 Omega
68-80 Pontiac Lemans, GTO, Ventura
75-80 Skyhawk, Starfire, Sunbird
74-77 Vega
78-82 Zephyr

LIMITED (Ownership Duration) WARRANTY
This is how confident we are of its unsurpassed quality. If any part ever wears out while you own the car in which it is installed, we will replace that part FREE (labor not included). **This warranty applies to Deluxe and Deluxe II Kits only.**

[A] **Deluxe Kit with Warranty.** Triple-chrome-plated heavy duty racing-style flat shift lever. Satin finished walnut knob with recessed spun aluminum discs. For cars listed above.
85—4586B— 1-Kit $29.98

Deluxe II Kit with Warranty. For 68-82 Camaro, 68-77 Comet & Maverick, 68-81 Firebird and 67-73 Mustang.
85—4587P— 1-Kit $33.98

[B] **Quality Kit.** Triple chromed round steel shift lever w/bakelite knob. Fits same cars as Deluxe Kit. Also fits 67-81 Ford, Chevy, GMC, Dodge 6 & 8-cyl. pickups when extension is used (order below)
85—4588Y— 1-Kit $25.98
85—4589W—Pickup truck handle extension Each $4.99

ECONOMY FLOOR SHIFT CONVERSION KIT for Chevrolet and Ford Cars & Trucks with 3-speed Standard or Overdrive Transmission

- **Narrow H-Pattern for faster get away, better control**
- **Spring-loaded shift mechanism gives fast, positive shifting thru gears**
- **Heavy steel plate**

3/8" control rods won't bend or flex under toughest use. 3/8" spring steel shift pin for fast, sure shifting without wear. Heavy mounting brackets for solid, flex-resistant installation. Easily installed. Consists of shifter unit with mounting brackets, gear shift lever and knob plus instructions. Order gear shift boot below. Fits 49-77 Chevrolet cars (exc. Camaro), 1/2-ton Pickup 2WD and 40-80 Ford cars (exc. Maverick & Mustang), 1/2 ton Pickup 2WD.
87—7910R— 1-Kit $21.95

Black Rubber Boots.
87—1842P—Oval Each $2.79
87—1841B—Round Each 2.59

Replace Your Turbo 200 Transmission with a Heavy-Duty Turbo 350!

- INCREASED DURABILITY FOR LONGER LIFE
- No exchange necessary
- Warranted 6 months (see below)

Get smoother, more positive shifting. Turbo 350 transmission kit easily handles higher horsepower engines. Bolt-in installation—no cutting or welding. Kit includes highest-quality remanufactured Turbo 350 transmission, torque converter, filler tube, detent cables, adapter kit, mounts, hardware and instructions. Not for 82-85 Camaro/Firebird.

HOW TO ORDER. State Make, Year, Model, Engine Displacement, Column or Floor Shift, Serial No. of Vehicle & Stk. No. Shipped from factory. No C.O.D. orders. Shpg. wt. 175 lbs. Not Mailable—See How to Order Page (Truck Shipments).

76—0012UFE— 1-Kit **$399.98**

LIMITED (6-Month) WARRANTY

Transmissions are warranted for 6 months against defects in materials or workmanship. Factory should be notified in event warranty service is required. You will be advised by the factory regarding proper handling of warranty claim. Warranty service will be available only through the factory, from which transmission was shipped.

Performance TRANSMISSION REPROGRAMMING KIT
for Cars, Trucks and RVs

Get maximum performance from your automatic transmission! Program it to one of three performance levels—Street, Competition or RV/Heavy-duty. Kit includes all the parts you'll need ... plus do-it-yourself instructions. Reprogramming will improve shifting response and feel, eliminate slippage and lag and permit downshifting at much higher speeds than stock. You'll hold transmission in any gear as long as you want. Economy will improve, and clutch and band life will be extended. For the following transmissions:

	Stk. No.	1-Kit

STOPS TRANSMISSION TROUBLES!
Greatest Lubrication Advance Since the Discovery of Oil

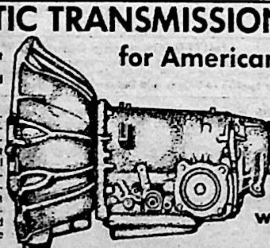

Contains Molybdenum-PLUS SUPROL to: eliminate slippage ... eliminate gear whine ... smooth rough shifts ... correct sluggish action ... reduce "creeping" ... reduce wear and leakage ... prevent hardening of seals

- **Puts new life into all automatic transmissions**

Add Transmission Overhaul to your automatic transmission—a "plating" action takes place, and it "welds" itself to the metal surface of gears, bearings, valves to create a super-tough slippery film. Reduces friction. Will not drain off, squeeze off or burn off frictional surfaces. Miracle 30,000-mile Lubricant contains molybdenum-plus SUPROL which maintains suspension and promotes plating action. Molybdenum is tough, indestructible, greasy metal—millions of molybdenum "roller bearings" to the square inch reduce friction. Stops Slippage—by releasing sticky clutches, freeing stuck accumulator valves and levers, cone clutch pistons, regulator valves and torque check valves. Corrects ... Smooths Action—eliminates gear whine by reducing friction. Speeds and smooths transmission performance in cold weather, and its action is unaffected by extremely high or low temperatures. Prevents Trouble—reduces heat, wear and leakage. 8-oz. bottle.

16—0249N— 1-Bottle **$4.99**

AUTOMATIC TRANSMISSIONS
for American Cars

Complete with torque converter!

- NO EXCHANGE NECESSARY
- Remanufactured to the highest standards of quality
- Dynamometer tested for leaks and malfunctions before shipping
- Warranted 6 months

Extend the life of your car with a rebuilt transmission. Every core is disassembled and all components are separated and tolerance checked. Any part that fails the check is replaced. All other parts are completely reconditioned. The following parts are replaced on all transmissions and meet or exceed OEM specifications: bushings, seals, gaskets, clutch plates and bands. All transmissions complete with quality rebuilt torque converter.

THIRD GEAR PERMANENT RETAINER
for 68-82 GM Trucks with Muncie 4-speed Trans.

- Replaces original snap ring without disassembling transmission

Broken snap ring can cause your truck to jump out of third gear, make odd noises in third or P.T.O. Replace fragile snap ring with this precision-machined collar that locks around cluster shaft to prevent movement of third gear. Installs through P.T.O. opening in transmission. Instructions. Note: 68-72 Muncie has P.T.O. opening on both sides; all 73-82 Chevrolet & GMC 4-speed trucks have Muncie trans.

38—0220P— Each **$34.95**

Chromed-plated Steel Louvered RADIATOR GRILLES
for Honda V45 Magna

- With raised emblem to match your model

Replaces ordinary OEM plastic grille perfectly ... customizes bike. Built-in louvers maximize air flow for better cooling. Easy to install using original hardware.

06—1520P—82-83 VF 750C ... Each **$29.98**
06—2569W—84-85 VF 700C ... Each 29.98

Deluxe Custom-fit BACKREST
for Honda V45 Magna Motorcycles

Rich-look 32-oz. black vinyl with resilient high-density foam padding. Triple chrome-plated heavy-gauge steel frame quickly mounts on OE side rail with original hardware. 6 decorative acorn-style nuts. Approx. 10" high, 5" wide top, 6-1/2" wide bottom, 2-1/2" thick. Extends about 12-1/2" above seat. Fits 82-83 Honda V45 Magna only.

06—2253X— ... Each **$39.98**

Chromed RADIATOR GRILLE
for 82-85 Honda VF750 & VF700 Magna & Sabre Motorcycles

Dress-up replacement for plastic OEM radiator grille. Chrome-plated steel with sleek "V4" emblem designed into the grille. Fits perfectly. Protects radiator while adding bright custom styling. Easy to install using original hardware.

06—2643R— ... Each **$14.98**

Chrome-plated Steel AIR CLEANER COVER SET
for Honda Magna

- Complete with 3-dimensional emblems

Replace originals perfectly ... customize and dress up your bike. Use original mounting hardware. Will not fit 84-85 California models. Set of 2.

Chromed AIR FILTER BRACKET
for Harley-Davidson Motorcycles

Lets you mount your air filter directly to engine cylinder (not to the carburetor flange) to virtually eliminate vibrations. Steel. Fits all Harley-Davidson XL & XLS Sportsters thru 1984.

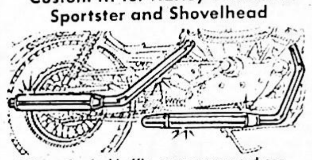

06—2483P— ... Each **$7.98**

Triple-chrome-plated GENERATOR COVER PLATE
for 82-84 Harley-Davidson XLX/XLH Motorcycles

Dresses up and adds show sparkle to your dull generator end cover. Easy slip-on installation. Steel.

06—2481U— ... Each **$6.95**

CHROMED HEADERS
Custom fit for Harley-Davidson Sportster and Shovelhead

- Fully mechanical baffle, reverse cone end-cap
- Better ground clearance than most other headers

16-gauge, cold-rolled carbon steel with brilliant chrome plating. Computer-controlled, multi-radius bends assure perfect fit. Won't interfere with kickstand, oil drain or oil filter.

For 57-78 & 80-82 Sportster XLH, XLCH, XLS.
02—9748T— ... 1-Set **$99.95**

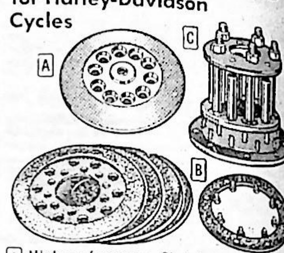

For 70-82 Shovelhead FX, FXE, FXS.
02—9749A— ... 1-Set **$99.95**

HEADLIGHT VISOR
for Harley-Davidson Motorcycles (incl. 49-84 FLH) with 7" Headlights

Hand-polished chrome plated steel. Wing emblem included for optional use. Installs under top retaining rim of original round headlamp.

06—2443U— ... Each **$9.98**

CLUTCH PARTS
for Harley-Davidson Cycles

[A] **High-performance Clutch Release Plate.** Heavy-duty cast aluminum alloy won't warp like steel OEM plates. Recesses keep springs perpendicular for the best possible contact. For all 41-83 "61", "74" and "80" cycles.
06—1533T— ... Each **$13.98**

[B] **Clutch Disc Sets.** Use wet or dry. Includes clutch plates, friction disc, rivets. For all high performance or standard "61", "74" and "80" cycles.
06—1531X—For 41-67 ... 1-Set **$19.98**
06—1532N—For 68-83 ... 1-Set 24.98

[C] **High-performance Clutch Hub Assembly.** 5 adjustable studs are more accurate than standard 3 OEM studs—permit more precise fine tuning for smoother clutch action. Includes hub, studs, friction disc, rivets, bearing retainer, bearings, retainer plate, springs. For all 41-83 "61", "74" and "80" cycles.
06—1529A— ... 1-Set **$69.98**

Standard Clutch Hub Assembly (not shown). Similar to [C] except with 3 adjustable studs. Springs included. Top plate not included (use original).
06—1530R— ... 1-Set **$54.98**

EXHAUST PIPE SHIELDS
for Harley-Davidson Cycles

Chrome-plated shield clamps securely over exhaust pipe ... adds custom styling, protects feet and boots against heat. Hardware included.

Type	Fits	Stk. No.	Each

07—0164X—Light smoke tint ... Each 64.50

Fork-mounted SUPERBIKE SPORT FAIRING

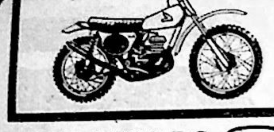

- **Aerodynamic design reduces wind resistance for maximum power and performance**
- **Transfers downward force of wind directly to front forks ... improves stability and rigidity over handlebar fairings**
- **Choice of 3 colors**

Sleek, sporty fairing body weighs only 5 lbs., yet is made of the same super-tough ABS plastic as the best full-frame fairings. Resists cracking, shattering and warping. Aircraft-grade polyurethane paint finish is scratch, chip and fade resistant. Clear acrylic windshield meets or exceeds D.O.T. standards. Fairing mounts easily to forks with black plated steel hardware (included)—no drilling, cutting or welding. Hardware adjusts to change height and angle of fairing. Dimensions: Overall Height—approx. 24". Width—approx. 23" at widest point, tapers to approx. 13" at bottom. Fits the following motorcycles with 7" diam. round headlights:

HONDA: All CB1000C, CB900; 1982 VF750 Magna; All CB750, CB550, CB500, CB450, CM450

55-watt H-4 HALOGEN HEADLIGHTS for MOTORCYCLES

★ 55 and 60-watt low and high beams
★ 2½ times more powerful than stock headlights
★ Choice of 4 sizes: 5¾" or 7" round and 4" x 6" or 200mm (5½" x 7¾") rectangular

- **Converts standard headlight to halogen for safer, brighter lighting**

See far ahead of your motorcycle! Halogen element produces a piercing, thin-line, high-intensity beam for better vision and added safety. Designed to withstand the extra shock and road vibration that your motorcycle takes. Easy to install. Fits all 12-volt headlights . . . also replaces fairing headlights. Always carry an easy-to-install spare bulb (order below) with you in case of emergency, so you can continue safely, legally. **Note:** Does not fit Honda requiring mounting tabs in headlight.

	Each
81—1263N—5-3/4" round (Fits fairing mounts only; will not fit in OEM headlight case.)	$13.95
81—1264T—7" round	14.95
81—1265P—4" x 6" rectangular	15.95
81—1266Y—200mm rectangular	18.95

Replacement H-4 Bulbs for above.
02—3244R—55/60 watt Each $7.98
14—2879R—Powerful 80/100 W Each 8.95

SPORT-STYLE FAIRINGS for Motorcycles with 5¾" & 7" Diam. Headlights

- **Shields rider . . . reduces wind resistance to forward motion of bike**
- **Universal mount**

Bubble windshield is molded from easy-to-see-through, smoke-tinted, high-impact acrylic with chamfered edges . . . meets or exceeds D.O.T. standards. Strong, lightweight high-impact plastic fairing with cutout sides (to allow use with original handlebars) and recessed headlight opening (to accept original lights). Hardware included.
For 7" diam. headlights (shown). Gloss black fairing is approx. 15" wide, 21" high, 14-1/2" front to rear.
02—9585R— Each $39.98
For 5-3/4" diam. headlights (not shown). Flat black fairing is approx. 14" wide, 20-5/8" high, 9-3/4" front to rear.
02—8838T— Each $34.99

MOTORCYCLE PLAQUES

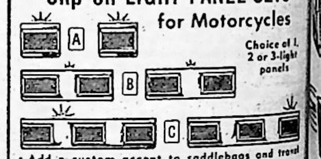

1) **"Owned & Driven By" heading on chrome-plated plaque (shown)**
2) **"Restored By" heading on brass plaque**

Eye-catching 1" x 4" plaques are beautifully engraved with your name in choice of block or graceful script letters (no limit on number of letters). Plaques mount securely, easily with pressure-sensitive tape backing. Multi-colored ceramic motorcycle emblems add an extra custom touch. Available with the following emblems:

BSA	Harley (No. 1)	Indian	Norton
BMW			
Ducati	Honda	Kawasaki	Suzuki
Harley-Davidson	Honda Gold Wing	Moto Guzzi	Triumph
			Yamaha

Plaques cannot be returned for credit or refund. Replacement only for defective merchandise. Shipped from factory. No C.O.D. orders.
HOW TO ORDER: State Stk. No., Bike Emblem Desired & Name You Want Engraved (PRINT name clearly in description column of order form).
"Owned & Driven By" Plaque. Each
78—4080NF—Name in block letters $7.88
78—4081TF—Name in script letters 8.88
"Restored By" Plaque. Each
78—4082AF—Name in block letters $7.88
78—4083RF—Name in script letters 8.88

Clip-on LIGHT PANEL SETS for Motorcycles

- **Add a custom accent to saddlebags and travel trunks equipped with dual side rails**

Panels have 5/8" radius bend on top for hanging on any 1/2" or 5/8" diam. side rails that are 1-3/4" to 2-3/4" (center to center) apart. Triple-chrome-plated steel. Special mounting hardware gives a factory-installed appearance. **Lights** have combination red lens with reflector optics to allow use as light or class "A" reflector. Single filament 12-volt bulb. Chrome-plated housing. Heavy molded vinyl boots seal back of light sockets. Pigtail wire. Lights measure 2-1/4" x 3-3/4". Meet or exceed D.O.T. standards. **Set includes 2 panels with lights/reflectors,** mounting hardware and instructions.
[A] **1-light Panels (2 lights total).** 3-3/4" long
06—1478A— 1-Set $29.98

55-Watt Quartz Halogen Motorcycle FOG & DRIVING LIGHT KITS

The kit gives you everything you need for increased visibility and greater safety

Make sure you've got the best night-time and bad weather visibility. H3 Quartz-Halogen bulbs make the difference between just driving and safe driving. They let you see up to 3 times farther than with ordinary sealed beams . . . last up to 2-1/2 times longer. Easy-to-install kits include:
- **Super slim chrome-plated steel lamps that mount in as little as 2-5/8" rear clearance . . . fit quickly in narrow space**
- **Adjustable pedestal base for variable mounting positions**
- **Toggle switch (2 switches in combination kit) with mounting panel, wire, connectors and instructions**
- **Your choice of 2 DRIVING LIGHTS or 2 FOG LIGHTS or COMBINATION OF 1 FOG & 1 DRIVING LIGHT**

Choose the lights that best suit your needs. **FOG LIGHTS** greatly increase driving safety in sleet, rain, fog, haze, other bad weather. Amber fluted lenses produce a wide, flat-topped beam with minimum reflection. **DRIVING LIGHTS** provide a powerful concentrated pencil beam of light for extra long-range illumination. Crystal-clear lenses produce a tight, glare-free pre-focused beam of over 1/2 mile. Perfect for unlighted rural or poorly-lit roadways. Gives increased bike and pedestrian visibility. Lamps are 3-1/2" high and 6-1/2" wide. For all 12-volt motorcycles.
88—9259Y—Comb. Fog/Driving Light Kit
88—9253A—Fog Light Kit
88—9254R—Driving Light Kit
Above Numbers . . . 1-Kit $22.88

Deluxe FIBERGLASS TOURING TRAILER for Cycles

[A] **Touring Trailer for 400cc and larger cycles and small cars.** Approx. 17 cu. ft. cargo area holds up to 500 lbs. of luggage, camping gear, etc. Steel-reinforced, hand-laminated fiberglass with low-profile, aerodynamic styling. High-gloss black gelcoat finish with gold-tone accents. Hinged lid (with built-in support and lockable spring-loaded latch) forms a water and dust-resistant seal to keep gear dry, clean. Two demountable 5-bolt steel wheels (on automotive roller bearings) with 4.80x8" tubeless tires (load range "B"). Computer-designed suspension reduces wheel hop and softens ride. Body: approx. 54" long, 40" wide, 18" high. Tongue height: 10". Unloaded tongue weight: 5 lbs. Includes chrome-plated bumper, tongue and moulding. With safety chain, coupler for 1-7/8" ball (ball not included—see Index), hub caps, trailer-to-bike wiring harness, two 12-volt lights that work as running/brake lights and turn signals. Lights meet D.O.T. standards. Instructions for bolt-together assembly. Order luggage rack below. Information for license and title application included. **When Ordering, State Name and Address to be used on statement of origin.** Shipped from factory nearest to you to save on shipping charges. No C.O.D. orders. Shpg. wt. 120 lbs. **Not Mailable—See How to Order Page (Truck Shipments).**
97—2877TFE— Each $689.98

[B] **Luggage Rack.** Adds even more storage space to trailer above. Polished 1" diam. aluminum tubing. Approx. 27" x 23" x 4" high. Easy bolt-on installation—drilling required. Shipped from factory. No C.O.D. orders.
97—2878AF— Each $34.98

TRAILER HITCHES for Motorcycles

- **Choice of chrome-plated or black powder coat**

Bolts securely to cycle frame. Complete with chrome-plated 1-7/8" ball, 5-pole wiring harness with male/female connectors (eliminates need to buy light converter), quick-link for safety chain plus instructions. **When Ordering, State Make, Year, Model & Stk. No.** Shipped from factory. No C.O.D. orders.
Custom-fit Hitch. For the following cycles: **Harley-Davidson**—all FLH, FLT; **Honda**—all GL500, 650; 75-85 CB750; 83-85 V65 Magna, Sabre; 75-85 GL1000, 1100, 1200 Gold Wing®, Interstate®, Aspencade®; **Kawasaki**—82-85 KZ1100; 79-82 KZ1300; 83-85 ZN1300 Voyager; **Yamaha**—83-85 XVZ12 Venture & Royale. If your cycle is not listed, see below.
78—4401TF—Chrome-plated . . Each $79.98
78—4402AF—Black finished . . . Each 49.98
Universal-fit Hitch. Fits all 400cc to 1100cc BMW, Honda, Suzuki & Yamaha cycles, except those listed above.
78—4403RF—Chrome-plated . . Each $79.98
78—4404XF—Black finished . . . Each 49.98

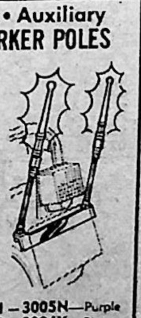

Genuine SHEEPSKIN SEAT COVERS for All Cycles

- **Elegant, comfortable, super soft**

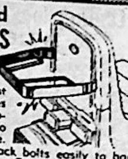

Circulating air between thick wool fibers insulates you from cycle's seat . . . you'll stay cool, dry even on the hottest days. Install easily—secure with detachable strap, adjust for snug fit on any saddle (including moped and bike seats). Remove quickly for storage. Machine washable, non-shedding. Front (solo) section is 16" long, 15" wide; rear (passenger) section is 12" long, 17" wide. With instructions.
Front and Rear Set.
02—4434N—Natural (Cream)
02—4433X—Honey Beige

TURN SIGNAL ALARM for Motorcycles

Solid-state alarm beeps until turn signal is cancelled . . . audible at high speeds, even through a helmet. Attaches anywhere on cycle with simple one-bolt mounting. Rust and weather-proof. Extremely low current drain. Fits all 6 or 12-volt systems.
12—1396X— Each $9.98
Economy Alarm. Sounds continuously once turn signal is activated—sounds until turn signal is cancelled. Low current drain.
01—2223N—6-volt
01—2224T—12-volt . . . Each $3.98

Convert your motorcycle turn signals into 3-way lights . . .

1. TURN SIGNALS
2. BRAKE LIGHTS
3. RUNNING LIGHTS

Easy-to-connect coupler (links turn signals to tail light) adds extra functions to your bike's turn signals. Gives you 3 brake lights, 3 tail lights . . . but does not interfere with functioning of turn signals. 3/4" x 2-1/8" x 2-1/4" unit has solid-state circuit, works in all 6V and 12V negative-ground systems.
02—2710P— Each $19.98

Chrome-plated BACKREST & CARRIER for All Motorcycles

For custom beauty, comfort, extra storage. 5/8" O.D. tubular steel sissy bar is 24" high with 3/4" O.D. side mounting rails. 16" long black vinyl-covered back pad, 7" wide x 10-1/2" long carrier. Includes instructions, universal mounting bracket.
01—1580R—
Each . . . $44.98
Heavy-duty Backrest & Carrier. Similar to above. 3/4" O.D. tubular steel sissy bar is 25" high with 13/16" O.D. side mounting rails. 16-1/2" long x 8" wide x 2" thick black vinyl-covered back pad. 7-1/2" wide x 11" long carrier.
01—7525Y— Each $49.98

LUGGAGE RACKS & BACKRESTS Custom Fit for Motorcycles

[A] & [B] **Square or Round Tube Luggage Racks.** Designed with low center of gravity to carry heavy loads safely. Approx. 12-1/2" x 14" platform. Rugged welded steel tubing is double nickel-chrome-plated for lasting beauty. Hardware, instructions included. Use with backrests below (not included). Custom fit for motorcycles listed below. **When Ordering, State Make, Year, Model and Stk. No. Note: The stock number you ordered may carry a different identification number on your package.**
[A] 55—3456N—Square Tube Rack
[B] 55—3457T—Round Tube Rack
Above Numbers . . . Each $67.98

[C]—[E] **Adjustable Backrests.** Mount on luggage racks [A] or [B] above only—cannot be used alone or with any other racks. Adjust 14" from front to back to provide support for either the passenger or driver. Choice of high (18"), medium (10") or low (6") back pads. Each pad is 2-1/2" thick and has a hand-stitched black vinyl covering. Nickel-chrome-plated 5/8" tubular steel frame.
[C] 02—8896A—With 18" pad
[D] 02—8897R—With 10" pad
[E] 07—0205Y—With 6" pad

Frame-mount 55-watt Quartz-Halogen Motorcycle DRIVING & FOG LIGHT KITS

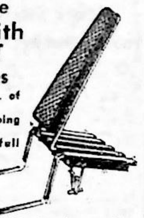

- **Easy to mount on frame, engine guard, crash bar, etc.**
- **Chrome-plated housing, mounting bars & hardware**
- **Overload fuse in lead**
- **Choice of amber-lens fog light or clear-lens driving light kit**

Heavy-gauge steel mounting bars install on any tube up to 1" diam. H3 quartz-halogen bulbs let you see up to 3 times farther, last up to 2-1/2 times longer than conventional sealed beams. Clear-lens driving lights bore into darkness with piercing long-range intensity. Amber-lens fog lights deliver low-glare beam for safer riding in foul weather. Replaceable fuse in switch lead for electrical-overload protection. Lights are 6" W. x 3-1/2" H. x 2-5/8" D. Kit includes 2 lights, 2 mounting bars, hardware, wiring, toggle switch, instructions. For all 12-volt negative-ground systems.
81—1457T—Driving Light Kit . . . 1-Kit $39.95
81—1458A—Fog Light Kit . . . 39.95
Replacement Lenses and Bulb for above.
81—1459R—Clear Driving Lens . . . Each $2.98
81—1460X—Amber Fog Lens . . . Each 2.98
88—6043R—H3 55-watt 12-volt Bulb . Each 3.98

Complete Line of Motorcycle Parts and Accessories at Exciting Savings

Square-tube CARRIER with BACKREST for All Cycles

- Adds over 150 sq. in. of carrying space
- Heavy-duty square tubing is triple chrome plated
- Backrest bar rises a full 20" above carrier
- Black vinyl foam filled pad has concealed zip pocket for small items

Complete with universal sliding brackets and instructions. Fits all cycles.
01—7281Y— Each **$49.98**

Deluxe LARGER MODEL with Adjustable Back Rest. Has all features of above, plus: (1) **Extra Large Carrier.** Measures 13" wide x 15" long for 195 sq. in. of carrying space or extra support for larger travel trunks. (2) **Adjustable Back Rest.** Adjusts a full 9" from the forward to the back position for your riding comfort. (3) **Solid Square Steel Supports.** Side supports are made of 9/16" square steel to support the extra, larger and heavier loads possible with large size carrier.
01—7429T— Each **$59.98**

Genuine Leather Motorcycle SADDLEBAGS

Hand-crafted of thick, hand-rubbed and buffed leather that's strong & good looking. Wide leather straps connect the two oval bags ... secure with strong leather laces (included) and adjust to fit all cycles. Straps also can be used to carry bags over your shoulder. Steel front rivets and leather closing straps add the beautiful finishing touch. Nylon web tie-down straps with "D" rings assure easy mounting/removal of bags. Black bags have chrome-plated rivets and buckles, brown bags have brass-colored rivets and buckles. Approx. size: 5" deep x 9" high x 12" wide.
02—4382W—Black
02—4383U—Brown 1-Pair **$94.98**

Leather-look SADDLEBAGS for MOTORCYCLES

- Choice of standard or touring size bags

The classic look and feel of fine leather—at a fraction of the cost! Black simulated leather bags won't stiffen or crack even after exposure to sun, rain, cold. Wide strap connects the 2 bags, has chrome-plated tie-down grommets for secure attachment to bike. (Tie-downs not included.) Snap-down outer pocket on each flap holds maps, gloves, glasses, etc. Two chrome-plated buckles on each bag.

[A] **Standard Saddlebags.** Each bag approx. 10" x 11" x 3-1/2".
02—9279R— 1-Pair **$49.98**

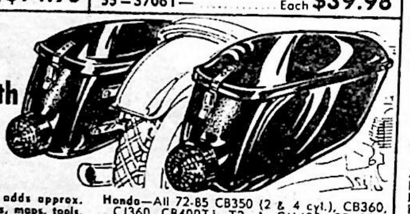

[B] **Touring Saddlebags.** Each bag approx. 14" x 11" x 5-1/2".
02—9280X— 1-Pair **$79.98**

Custom-styled SPORT RACK for Motorcycles

One-piece tubular steel rack (heli-arc welded for strength) blends beautifully with your bike's contours. Platform is approx. 9" x 9" (size & style vary for different applications) and adds extra carrying capacity. Frame, rails, cross brace protected by black epoxy paint. Includes hardware, instructions. **Custom fit for the following motorcycles ONLY:**
Honda—83-84 CB650SC; 79-82 CB750F; 82-83 VF750S; 83-84 VF750F; 81-82 CB900F; 1983 CB1100F
Kawasaki—83-84 KZ305GPZ; 82-84 KZ550GPZ; 1984 KZ700; 83-84 XZ750GPZ & Turbo; 83-84 XZ1100GPZ
Suzuki—83-84 GS550E, ES; 82-83 GS750E, ES; 82-83 GS1100E
Yamaha—81-83 XJ550; 1984 FJ600, 1983 XJ900RK; 1984 FJ1100
When Ordering, State Make, Year, Model & Stk. No. Note: The stock number you ordered may carry a different indentification number on your package.
55—3706T— Each **$39.98**

Custom-styled Motorcycle SADDLEBAGS with TURN SIGNALS for Honda, Kawasaki, Suzuki and Yamaha

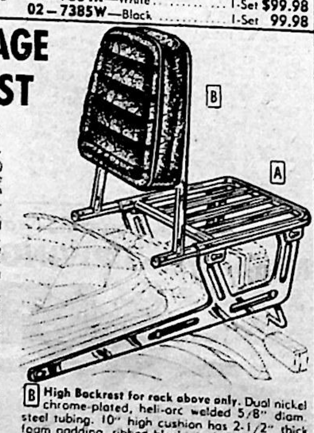

- **LARGE-CAPACITY**—each bag adds approx. 1 cu. ft. storage space for books, maps, tools, clothing and more
- **STRONG**—tough, lightweight ABS plastic is scratch, chip and peel-resistant
- **SECURE**—rear latch locks (keys included) to prevent theft
- **Choice of paintable black or white finish**

Bags weigh only about 15 lbs.—won't interfere with cycle's movement or handling. Lids remove for easy loading and unloading. Weather-tight gasket keeps contents dry, dust-free. Built-in rear lights have deluxe sockets to protect bulbs from shock, vibration. 3-3/8" diam. x 1" high red plastic lens. Double-filament 12-volt bulbs work as running lights, brake lights and turn signals. Lights meet or exceed D.O.T. standards. Easy to install—no special tools required. Set includes 2 saddlebags, mounting brackets, hardware and instructions. For the following motorcycles:

Honda—All 72-85 CB350 (2 & 4 cyl.), CB360, CJ360, CB400T1, T2, A; CM400, CB400F, CB450, CM450, CB500 (2 & 4 cyl.), CX500, CB550, CB550F, CB550K, CB650, CX650, CB750, CB750A, CB750F, CB750K, CB900, GL1000, CB1000C, CBX1000, GL1100, CB1100F, GL1200
Kawasaki—All 72-85 S2 & S3 (350cc-400cc), KH400, KZ400, KZ440, 500H1, KZ550, GPZ550, KZ650, 750H2, KZ750, KZ900, 900Z1, KZ1000, GPZ1100, KZ1300
Suzuki—All 72-85 GT380, GT550, GT750, GS400, GS425, GS450, GS550, GS750, GS850, GS1000, GS1100
Yamaha—All 72-85 RD350 & 400, SR500, TX500, TX650, TX750, XS360, XS400, XS500, XS650, XS750, XV750, XS850, XV920, XS1100

When Ordering, State Yr., Make, Model, Stk. No.
02—7384R—White 1-Set **$99.98**

Suzuki: 77-78 GS400; 80-82 GN400T, GS450E; 81-82 GS550L; 81-83 GS650G, 1980 GS850L; 80-81 GS1000 GL
Yamaha: 1981 XS400H, SH; 80-81 XS650H, SH; 81-82 XJ750 Seca
When Ordering, State Make, Year, Model & Stk. No. Note: The stock number you ordered may carry a different identification number on your package.
55—3255A— Each **$54.98**

[B] **High Backrest for rack above only.** Dual nickel chrome-plated, heli-arc welded 5/8" diam. steel tubing. 10" high cushion has 2-1/2" thick foam padding, ribbed black vinyl cover. Stitched with heavy-duty thread and pre-drilled with threaded metal inserts for secure mounting to tubing. Concealed mounts within tubing eliminate unsightly bracketry. Travels 8" fore/aft... can be removed completely. Locking mechanism. 16" high overall. Tie-down loop on back. With hardware, instructions.
02—8576R— Each **$47.98**

Utility LUGGAGE RACK for Motorcycle Travel Trunks, Saddlebags or Sidecar

- Strong, lightweight chrome-plated steel
- Bolts easily to top of cycle travel trunks

Big, approx. 9-3/4" wide x 12" long rack adds extra carrying space. 2" rear upsweep support prevents cargo from shifting. Bolts on to surface that will accept 6-1/2" wide x 4-1/2" long mounting points, some drilling required. With brackets, instructions.
01—2715P— Each **$14.98**

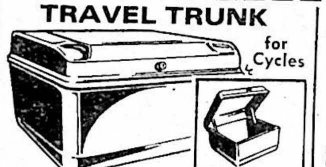

High-impact TRAVEL TRUNK for Motorcycles

4 strap loops

Tough, lightweight ABS trunk holds 2 helmets, plus maps, clothing, tools and other small items. Front opening design allows lid to be opened easily when mounted on rack with sissy bar or backrest. Piano hinged; lid will stay up for packing or unpacking. Side-locking with 2 suitcase-type latches and 2 keys. Seals out water and dust. 4 strap loops let you attach additional load (sleeping bag, etc.) to trunk top. Approx. 22-1/2" long x 16-3/4" wide x 12" high. Includes hardware and instructions for mounting trunk on any flat motorcycle luggage rack. Choice of chip and peel-resistant hi-gloss White or Black. Paintable.
02—7183N—White
02—7184T—Black Each **$54.98**
Same as above except overall size is 16-1/2" long x 12" wide x 11" high.
02—8201U—White
02—8202B—Black Each **$49.98**

TRAVEL TRUNK for Cycles

- **Choice of high-gloss black or white, each with chromed accent moulding around lid**

Add storage space, custom styling without needless bulk and weight. High-impact plastic trunk is lightweight, compact, yet strong enough to hold helmets, maps, tools, more. Locking lid (with piano hinge) has overlapping lip to keep out water, dust. 2 interior latches hold lid open, prevent lid from opening too far. Approx. 17" long, 18-1/2" wide, 11" high. Mounts on any flat luggage rack. Paintable to match or contrast with cycle. With mounting straps, hardware, 2 keys and instructions.
02—9519Y—Black finish Each **$59.98**
02—9518P—White finish Each **59.98**

MOTORCYCLE TRAVEL TRUNKS

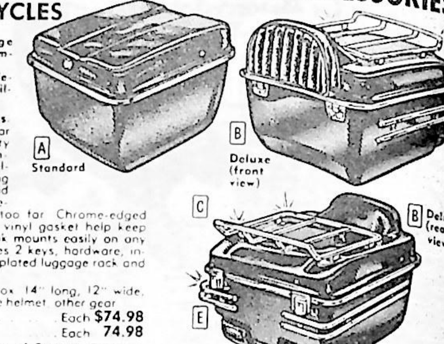

Add needed storage space without adding bulk. Lightweight and compact trunk is made of high-impact plastic for strength. High-gloss finish in black or white. Paintable. Room for a full-face helmet, maps, clothes, tools and other items. Approx. 16-1/2" long, 15-1/2" wide, 11" high. Locking hinged lid has overlapping lip to protect contents. Interior latches hold lid open for easy access, prevent from opening too far. Mounts to any flat luggage rack. Mounting straps, hardware, 2 keys and instructions included.
02—9517B—Black Each **$49.98**
02—9516U—White Each **49.98**

Deluxe Heavy-Duty LUGGAGE RACK for ALL Motorcycles

Adjusts to fit perfectly on any motorcycle ... transfers quickly and easily from one bike to another. Made of heavy-duty 5/8" steel tubing for heavy loads. Chrome plated for gleaming beauty and rust resistance. Large 10-1/2" wide x 12-1/2" long carrying space with cross slats and 4" high upright support to help keep packages from shifting.
01—0118R— Each **$19.98**

Custom-look TRAVEL TRUNKS & ACCESSORIES for MOTORCYCLES

[A] Standard — [B] Deluxe (front view) — [B] Deluxe (rear view) — [C] [D] [E]

02—7389Y—Black Bags **$54.98**

EXTRA-LOUD BLAST HORNS for Cycles

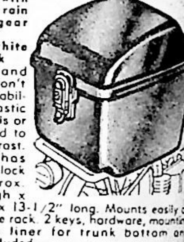

- **Twin horns—each with a 105 decibel rating—combine a high and a low tone into a loud, piercing blast that can't be ignored!**

Most bikes have horns rated 80-90 decibels, with the 90 decibel sound considered "extra loud". Each added 10 decibels makes a horn twice as loud. Imagine, then, how loud these twin 105 decibel horns are! Chrome-plated steel domes, black metal bodies. With universal mounting brackets for you to replace or supplement original horns. Easy to install, complete with wire and connector. Uses original horn button. Low current draw.
01—2721Y—6 volt
01—2722W—12 volt 1-Pair **$14.98**
SINGLE HORN. 1/2 of above twin unit.
01—2723U—6 volt
01—2724B—12 volt Each **$7.98**

SATISFACTION GUARANTEED or MONEY BACK

High-impact Plastic TRAVEL TRUNKS for Cycles

- **Locking lid with overlapping rain lip keeps gear safe and dry**
- **Choice of white or matte black**

Compact and lightweight—won't affect bike's stability. Strong plastic looks good as is or may be painted to match or contrast. Hinged lid has chrome-plated lock on rear. Approx. size: 10" high x 10-1/2" wide x 13-1/2" long. Mounts easily on any flat luggage rack. 2 keys, hardware, mounting straps, foam liner for trunk bottom and instructions included.
02—8536T—Black
02—8537A—White Each **$29.98**

MOTORCYCLE TANK BAG

- **Strong, lightweight, water repellent black nylon**

Durable tank bag has extra-large 13" long x 9" wide x 10-1/2" high main compartment plus two 9-1/2" long x 2" wide x 6-1/2" high side pockets. Map pocket (12" long x 8" wide) on top has clear vinyl window for map reading. Full zipper closures with overlapping flaps. Fleece-lined bottom. 1" wide nylon straps secure bag to cycle. Nylon-webbed tote handle.
06—0302U— Each **$39.98**

ALL-FOAM SOFT GRIPS for Motorcycles and ATVs

- For all 7/8" diam. handlebars
- **Choice of 3 colors**

High-density foam deadens vibration, prevents "tingling". Contour curved to fit hand. Stays soft, pliable—won't disintegrate or crack. Resists tears, sun damage ... impervious to oil, gas, moisture. 4-7/8" long, 1-3/4" diam., 1-7/8" diam. thumb guard. Includes molded bar end covers.
06—0055Y—Black
06—0056W—Red
06—0057U—Blue 1-Pair **$3.9**[illegible]

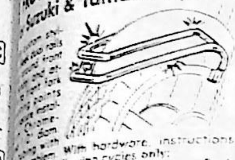

Super-loud BLAST HORNS for Motorcycles

- **Our highest decibel rated (125db) horn!**
- **Choice of dual high/low notes or single low note**
- **Attractive—chrome-plated rim with red or black center and black backing**

Be heard even when you can't be seen! Replace or supplement original horn using original horn button. Easy to install. With mounting bracket, wire, connector, instructions. 12 volts.
Dual Horn with high and low notes
01—3194X—Red 1-Pair **$34.**[illegible]
01—3195U—Black 1-Pair **34.**[illegible]
Single Horn with low note only
01—3197P—Black Each **$17.**[illegible]

[illegible]RONT FENDER RAILS [illegible] Suzuki & Yamaha Cycles

[illegible] With hardware, instructions. [illegible] following cycles only:

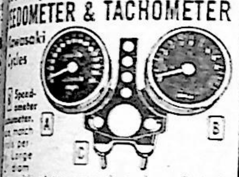

Year Model	Stk. No.	Each
[illegible]	06—2617T	$29.98
[illegible] GL, GK	06—2617T	29.98

[E]NGINE THERMOMETER [for] Motorcycles

[illegible] of dangerous and [illegible] overheating [illegible] high-performance [illegible] cycle engines [illegible] securely on [illegible] engine head or [illegible] with special [illegible] resistant tape. Accurately measures [illegible] temperature of engine from 100° F to [illegible] increments. Mini 1" diam. stainless [illegible] (with black face, white numerals) [illegible] engine vibration, heat.
[illegible]585B— Each **$7.49**

[Chro]me-plated • Illuminated [SP]EEDOMETER & TACHOMETER [for] Kawasaki Cycles

[illegible] with white numerals and needle indicator. Approx. 4" diam. x 4-1/2" deep steel [illegible] Easy to install using original mounting [illegible] and drive cables. Fit the following [illegible] cycles: all 77-80 KZ650, all 76-77 [illegible] 77-80 KZ1000 A, B, G. Order mounting [illegible]

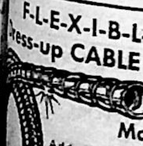

[Speed]ometer with Odometer. Measures 0-160 [illegible] km/h in yellow).
[illegible]213B— Each **$34.98**
[Tachom]eter. Measures 0-12,000 RPM.
[illegible]214P— Each **$34.98**
[Repl]acement Mounting Bracket for above. [illegible] with matte black finish.
[illegible]215X— Each **$12.98**
[illegible] as Speedometer, Tachometer and [illegible] Separately $82.94
[illegible]216N— 1-Set **$74.98**

[To]uring CRUISE CONTROL [for] Honda, Kawasaki, Suzuki, [Yam]aha

[illegible] keep bike at a steady, gas-saving speed [illegible] fatigue of long-distance highway touring [illegible] easy to operate and install. [illegible] Simply twist throttle grip to reach desired speed and then flip lever. Control will maintain throttle position until lever is released. [illegible] safety feature ... throttle can still [be contro]lled by twisting action. **Throttle is not [illegible] merely held in position.** Black [illegible] control installs quickly. With instructions.
[For] Honda, Kawasaki & Yamaha cycles with [illegible] throttle cables.
[illegible]46P— Each **$7.49**
[For] Honda, Kawasaki & Yamaha cycles with [illegible] throttle cables.
[illegible]47Y— Each **$7.49**
[For] Suzuki.
[illegible]61Y— Each **$7.49**

F-L-E-X-I-B-L-E [Dr]ess-up CABLE TRIM for Motorcycles

Add custom styling to dull looking control cables. Permanently pre-coiled, stretchable, flexible plastic. Helps keep cables firm for less bending! Self adhering by coil tension. 3/16" wide x 60" long.
[illegible]—Chromed | 02—3267P—Blue Each
[illegible]—Red | 02—3268Y—Gold **$1.49**

[Pre]ssurized CABLE OILER [for] Motorcycles

[Eli]minate hard-pulling controls—prolongs [illegible] Lubricates (using oil) and cleans (using [illegible]) No need to remove cables from bike.
[illegible]583N— **$3.98**

Shock-absorbing MIRROR MOUNT for Motorcycles

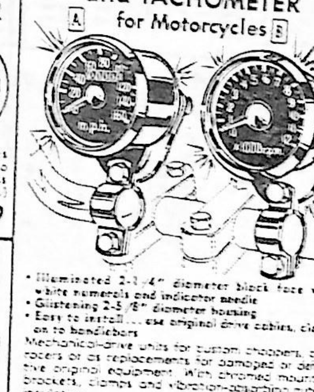

- Eliminates mirror vibration for better visibility and safer driving

Installs easily between your mirror and mirror mounting perch. Rubber inner ring absorbs vibration. Right hand thread. Fits all Honda, Kawasaki and Suzuki motorcycles with 10mm thread, right and left sides; Yamaha left side only.
06—0517X— Each **$1.98**

Adapter Mount (not shown). Same features as above, but allows 10mm mirrors to screw into 8mm perch.
06—2375Y— Each **$2.49**

Chromed SPEEDOMETER and TACHOMETER for Motorcycles

[A] [B]

- Illuminated 2-1/4" diameter black face with white numerals and indicator needle
- Glistening 2-5/8" diameter housing
- Easy to install ... use original drive cables, clamp on to handlebars

Mechanical-drive units for custom choppers, cafe racers or as replacements for damaged or defective original equipment. With chromed mounting brackets, clamps and vibration-absorbing rubber insulation.

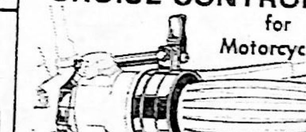

[A] **SPEEDOMETER (0 to 160 MPH) WITH ODOMETER** for all Honda, Kawasaki, Suzuki and Yamaha.
01—2666N— Each **$19.98**

[B] **TACHOMETER (0 to 12,000 RPM)** for the following motorcycles only:

Year, Model	Stk. No.	Year, Model	Stk. No.
HONDA		HONDA (Cont'd.)	
All thru 500cc	01—2669R	All CB750 and GL1000	01—2667T
All 550cc (exc. those with large CB750 style tach)	01—2669R	KAWASAKI All models	01—2668A
550cc with large CB750 style tach	01—2667T	SUZUKI All models	01—2667T
		YAMAHA All models	01—2668A

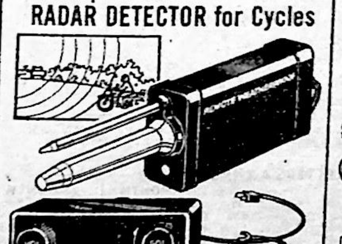

Above Numbers Each **$19.98**

Deluxe • Chrome-plated CRUISE CONTROL for Motorcycles

Take the strain out of highway driving. Simply twist throttle grip to attain desired speed, flip lever and cruise control will maintain speed until lever is released. Non-locking and easy release safety features—throttle can still be controlled by twisting action, as control does not lock throttle but merely holds it in position. Easy to attach to handlebar and grip. Custom fits all motorcycles with 7/8" diam. handlebars.
06—0610P— Each **$27.98**

Compact • Remote-mount RADAR DETECTOR for Cycles

- **Detects all police radar including X & K band**
- **Warns with light & loud horn you can hear even at road speed with your helmet on**
- **Sensitivity control helps eliminate false alarms**
- **Withstands weather extremes, vibration, shock**
- **Removes easily to prevent theft**

Detects signals at 3 to 5 times the range of police radar. Separate detector (2" x 1" x 8"), remote sensor unit (1" x 3" x 3-1/2") & external speaker mount on handlebars or can be hidden inside plastic, urethane or fiberglass fairing (will not work through metal). Plugs into cigarette lighter. Microwave filters & integrated circuits suppress unwanted signals. Steel detector case reduces external noise interference. Solid-state amplifiers. Includes quick-release mounting brackets, Velcro® fasteners, wiring harness with quick-disconnect jacks, lighter plug, instructions. For 12-volt systems.
14—8797X— 1-Kit **$179.95**

Automatic Pop-out Cigarette Lighter (not shown). Required if motorcycle does not have cigarette lighter. Mounts on handlebar. Chromed. 12V.
88—7334A— 1-Kit **$2.98**

Adjustable MOTORCYCLE MIRRORS

[A] **Black Case Mirror.** 4-1/8" diam. mirror with matte black enamel finish. Heavy-duty 2/8" diam. steel stem is 8" long, has vibration-stop lock to hold adjustable mirror in place. Housing extends slightly beyond mirror surface. Custom fits right or left side of all Honda, Kawasaki, Suzuki and Yamaha cycles with 10mm thread screw-in mirrors.
02—3130P— Each **$2.98**

[B] **Maltese Cross Mirror.** 4" wide plain mirror. Black wrinkle finished metal backplate, 8" extension arm with adjustable bracket. Fits right or left side of all 7/8" and 1" handlebars.
01—1031T— Each **$3.45**

[C] **Oversized Black Case Mirrors.** Large 5-1/8" x 3-5/16" mirror surface. Heavy-duty 1/2" diam. steel stem with vibration-stop lock. Housing extends slightly beyond mirror surface. Matte black enamel finish. Custom fits right and left sides of all cycles below with 10mm thread screw-in mirror mounts.

Fits these cycles	Mirror with 8" stem	Mirror with 4" stem
Honda, Kawasaki & Suzuki	06—0449T	06—0450A
Yamaha	06—0451R	06—0452X
Above Numbers		1-Pair $9.98

Black Case Mirrors (not shown). Similar to above. Smoked, non-glare, distortion-free glass is 4-1/2" wide, 3-1/2" high. 3/8" diam. steel stem is 5" long, has stop lock. Shock-absorbing bushing. Matte black enamel finish. Fits right and left sides of all motorcycles with 10mm thread mirror mounts.
06—8258Y— 1-Pair **$5.98**

Passenger FLOOR BOARDS for Cycles

- Allow passenger to ride in comfort without foot fatigue
- Mount easily to stock foot peg brackets

Triple-chrome-plated 12-gauge steel floor boards have approx. 8" x 4-1/2" surface area with slip-resistant black rubber insert. Fit all clevis-mounted foot pegs on BMW, Harley-Davidson, Honda, Kawasaki, Suzuki and Yamaha motorcycles.
05—1452W— 1-Pr. **$44.98**

ENGINE AIR SCOOP for Motorcycles

- **Provides additional cooling for engine and oil cooler ... adds modern styling**

Durable, paintable gloss black ABS plastic. Universal mounting system fits all Japanese cycles with double down-tube frames.
07—0095T— Each **$59.98**

ANTI-THEFT ALARM & REMOTE POCKET PAGER for Cycles

[A] **Automatic Alarm** works through bike's ignition switch. Arms itself 40 seconds after you turn off ignition—no keys, buttons or switches required. Single audible "chirp" from system's horn confirms that it's armed. Motion sensor detects any motion, causes loud (115dB) horn to sound for a pre-set length of time. Instant disable feature lets you quickly shut down the alarm system. Compact system is easily hidden under seat. Simple 4-wire installation. Fits all motorcycles with 12-volt systems. **Qualifies for insurance discount.** With instructions.
02—4404Y— Each **$59.50**

[B] **Remote Pocket Pager.** Works only with alarm system above to receive a beep and flash signal that alerts you when your bike is disturbed. Effective range of approx. one mile depending on conditions and terrain. Transmitter power is supplied directly from the alarm—no battery drain. 12" rubber-coated antenna and clamp for easy mounting of antenna on cycle. 2-wire installation. With instructions. For 12 volt systems.
02—4405N— Each **$149.98**
Save $14.98 on Complete System! Alarm and Pager.
02—4406T— 1-Set **$194.50**

Custom-fit • Low-priced Replacement SIDE PANELS for Motorcycles

1/8" thick high-density ABS plastic panels, molded to original specifications. Can be painted. Mount permanently to cycle—hardware, special Molly fasteners and screws included. Custom fit:

	For Left Side	For Right Side

Above Numbers Each [illegible]

Front ENGINE GUARD for MOTORCYCLES

[illegible] protect engine and frame components. Triple-chrome-plated [illegible] diam. steel. Tubular bends assure extra strength. Brackets are [illegible] welded (not spot welded) for additional protection. Easy bolt-on installation. Includes chrome mounting brackets, hardware, instructions. Fits all Honda, Kawasaki, Suzuki and Yamaha [illegible] to 1000cc street bikes with single or double-down tube frame.
01—7527[illegible]— Each **$24.98**

Chrome-plated Steel Finned ENGINE GUARDS for Cycles

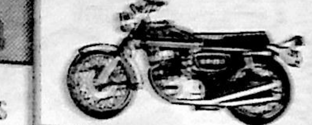

Add custom look while improving engine efficiency and performance. Allow air to flow freely through fins to keep engine and engine oil cooler ... help increase oil pressure. Strong enough to protect engine head against damage. Easy bolt-on installation. With instructions. Custom fit the following:
Honda—72-74 CB350F 4 cyl., 75-77 CB400F 4 cyl.; 78-81 CB/CM 400T; 71-75 CB500 4 cyl.; 74-78 CB550, F, K, K1; 79-82 CB 650, C; 69-78 CB750 A, F, K, 80-82 CB750C, F, C, 80-82 CB900 C, F, 75-79 GL1000
Kawasaki—74-79 KZ400 2 cyl., 77-80 KZ650 4 cyl.; 73-75 900Z1; 76-77 KZ900, 77-79 KZ1000
Suzuki—77-78 GS400; 1979 GS425, 77-79 GS750
Yamaha—75-83 XS650S 2 cyl., 76-79 XS750 3 cyl.
When Ordering, State Make, Year, Model & Stk. No. Note: The stk. no. you ordered may carry a different identification number on your pkg.
55—2603T— 1-Pair **$22.98**

1½" EXTRA-HEAVY-DUTY FRONT HIGHWAY BAR/ ENGINE GUARD COMBINATION

Folding foot pegs allow the comfortable, forward and upward riding position of a highway bar. Rubber foot rest covers help eliminate vibration, provide sure grip. All mounting hardware included for easy bolt-on installation. **State Year, Make and Model When Ordering. Note: The stock no. you ordered may carry a different identification number on your package. Custom fit for the following only.** (If your year, make and model is not listed do not order.)
Honda—CB/CL250, CB/CL350 (2-cyl.), CB/CL450, CB500 (2 & 4 cyl.), CB550 (exc. "F"), CB750F
Kawasaki—All KZ650
Suzuki—GS400 B, C, N & E
55—2283U— Each **$34.98**

HEAVY-DUTY 1-1/4" Steel Tubing. Same as above but 1-1/4" steel tubing. **Custom fit for the following only.** (If your year, make and model is not listed do not order.)
Honda—CB, CL250, CB, CL350 (2-cyl.), CB360T, CB400T1, T2 & A; CB, CL450, 77-79 CB750K & CB750A

02—1576W—Chrome 1-Kit 20.98

INDEX AND ORDER BLANKS—SEE BACK PAGES

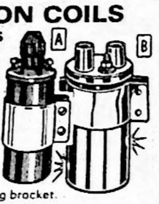

1/2-amp MOTORCYCLE BATTERY CHARGER

- Small 2" x 2-1/2" x 1-1/2" module stores under seat
- Special leads permanently attach to battery
- Recharge or trickle charge without removing battery
- Plugs into any 110-120 volt outlet

Ends struggling with hard-to-get-at batteries. 6-ft quick connect/disconnect cable included. UL listed.

02—4336B—All 12-volt
02—4337P—All 6-volt ..... Each $9.98

IGNITION COILS for Motorcycles

Replaces damaged or faulty coils perfectly. Delivers a hot, smooth spark at all speeds for better all 'round performance and increased plug and point life. Special construction and windings reduce vibration damage—the prime cause of motorcycle coil failure. With metal mounting bracket.

[A] Coil for all motorcycles with one coil per cylinder. Seamless bakelite case.
02—4255U—6 volt ..... Each $9.98
02—4256B—12 volt ..... Each 9.98

[B] Coil for all 2-cylinder 12-volt motorcycles requiring a double ignition lead. Steel case.
01—3085X—Chrome-plated body ..... Each $19.98
01—3086N—Black painted body ..... Each 16.98

Copper Core NIPPONDENSO SPARK PLUGS for Motorcycles

- Copper-nickel center electrode helps prevent fouling, burning
- U-grooved ground electrode (A) assures larger spark for improved throttle response and smoother idle

Choice of regular or resistor plugs. **When Ordering, State Make, Year, Model, Engine Size (cc) & Stk. No. Note: The stock number you ordered may carry a different identification number on your package.** LIMIT: 6 plugs per customer.

REGULAR PLUGS for the following cycles: 66-81 Honda, 68-85 Kawasaki, 68-85 Suzuki, 71-85 Yamaha.
55—3670A— ..... Each 69¢

RESISTOR PLUGS for the following cycles with resistor plugs as original equipment: 81-85 Honda, 84-85 Kawasaki 1100-1300cc, 83-85 Yamaha 1200cc.
55—3671R— ..... Each 89¢

GEAR/CLUTCH/FLYWHEEL TOOL with Adjustable & Locking Jaws

- Lets you adjust or remove gears, clutches, flywheels, sprockets quickly, easily

Jaws open to 4-1/2", have bent beveled ends to get between teeth for a no-slip grip. Steel pins on jaws fit into holes on flywheels or bolt-on sprockets. Heat-treated alloy steel, nickel plated to resist rust. Approx. 12" long.
06—2492A— ..... Each $14.98

MOTOCROSS FENDERS for Off-road Cycles

Extra-wide for maximum protection! Heavy-duty, injection-molded plastic. Universal mounting to allow any clearance between fender and wheel! Uses original fender mounting brackets.

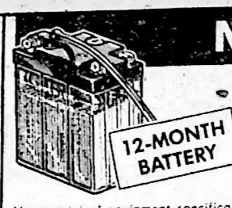

[1] **Front Fender.** Fits all (thru 100cc) Honda, Kawasaki, Suzuki and Yamaha off-road motorcycles. Weighs 12 oz. Size (see drawing above): A=32"; B=5-1/4"; C=25-1/2"; D=8".
02—9774R—Blue | 02—9777B—White
02—9775W—Green | 02—9778P—Yellow
02—9776U—Red

MOTORCYCLE BATTERIES

Meets original equipment specifications, delivers dependable service. Plastic case with indicator markings to check acid level. Sealed case cover.

12-MO. BATTERY (LIMITED) WARRANTY
3-month free replacement. We will replace this battery at no cost to original owner if battery fails to hold a charge during the free replacement period. After 3 months we will replace the battery, charging a pro-rated amount since purchase, based on the current regular selling price. Batteries should not be returned without writing to us in advance for instructions. Labor not included.

24-MONTH BATTERY

- For long life, extra reserve power

Exceeds original equipment specifications for your bike. Powerful—gives dependable service under all conditions . . . easily handles extra electrical equipment and still has plenty of reserve power for quick starts every time. Tough plastic case protects against vibration, shock, has indicator markings for easy check of acid level. Permanently sealed, leakproof case cover.

24-MO. BATTERY (LIMITED) WARRANTY
6-month free replacement. We will replace this battery at no cost to original owner if battery fails to hold a charge during the free replacement period. After 6 months we will replace the battery, charging a pro-rated amount since purchase, based on the current regular selling price. Batteries should not be returned without writing to us in advance for instructions. Labor not included.

36-MONTH BATTERY

- Our highest power motorcycle battery!
- For faster, easier starts in all weather, all temperatures

Meets the heavy power demands of cycles with optional electrical accessories or electric starters. Special microporous plates & plate separators assure faster current flow between plates . . . you get extra cranking power needed without draining battery and battery recovers charge much faster! Strong plastic case withstands shocks, vibrations. Case, cover are permanently sealed, leakproof. Plates stay dry until you add electrolyte—no oxidation or deterioration. Semi-transparent case has markings for quick check of acid level.

36-MO. BATTERY (LIMITED) WARRANTY
9-month free replacement. We will replace this battery at no cost to original owner if battery fails to hold a charge during the free replacement period. After 9 months we will replace the battery, charging a pro-rated amount since purchase, based on current regular selling price. Batteries should not be returned without writing to us in advance for instructions. Labor not included.

NOTE: Batteries are shipped dry and must be filled and charged before using (electrolyte not included). Instructions included for installing, filling, charging and maintaining your battery. See Index for battery chargers.
HOW TO ORDER. Check TABLE I to find your cycle's make, year, model and its battery code letter; then order the corresponding battery from TABLE II or TABLE III. **OR,** check your current battery or owner's manual for manufacturer's (OEM) number, find that number in TABLE II or TABLE III and order the corresponding stock number and price. If manufacturer's number is unknown or in doubt, order by the battery dimensions (length, width, height) in TABLE II or TABLE III. ♦Extra-power 36-month battery recommended.

Chrome-plated Steel 16" CHOPPER WHEEL for MOTORCYCLES

For all bikes which require 40 spokes. 16" diameter triple-chrome-plated steel rim lowers bike and allows use of wider tire for that low chopper look. 3.50 x 16" rim takes 5.10 x 16" or 5.00 x 16" wide tires. (See Index for tires.)
01—7282W— Each ..... $24.9[illegible]

40-Piece Chromed SPOKE SET for Honda, Kawasaki, Triumph and Yamaha Motorcycles. Allows conversion from 18" or over stock narrow rim to lower chopper style 16" rim. Simply lace spokes to existing wheel hub and a 16" chrome rim. Complete set consists of 40 chromed spokes and 40 chromed nipples. Custom fit for the following only:
Honda—CB350 Twin & 4 cyl., CB360, CB450, CB500 Twin & 4 cyl., CB550 & 550F, CB750, CB750K1-5, CB750K, CB750A, CB750F, GL1000
Norton—All 650cc, 750cc & 850cc w/drum brakes
Kawasaki—KZ400, KZ650, KZ750, 750H, KZ900, 900Z1
When Ordering State Year, Make and Model. Note: The stock no. you ordered may carry a different identification no. on your pkg.
55—2181P— ..... 1-Set $14.9[illegible]

MOTORCYCLE TIRE CHANGER for All Sizes of Rims & Tires

Eliminates tube pinching and scratched rims. Helps separate tire bead from the rim quickly and effortlessly. Aluminum body, sure-grip vinyl handle. 9" long.
15—4085P— ..... Each $8.9[illegible]

NGK Copper Core SPARK PLUGS for Motorcycles

Deep-seated copper core gives a much wider heat range to eliminate fouling and burning better than conventional iron-core plugs. **When Ordering, State Make, Year, Model, Engine Size (cc) and Stk. No. Note: The stock number you ordered may carry a different identification number on your package.** LIMIT: 6 plugs per customer.

Regular (not resistor) **Spark Plugs** for these motorcycles: **Honda**—62-81 all; **Kawasaki**—66-85 all; **Suzuki**—68-85 all, **Yamaha**—68-85 all.
55—3040X— Each ..... 69¢
Resistor Spark Plugs for 82-85 Honda all.
55—3355R— ..... Each 89[illegible]

ELECTRONIC REGULATOR RECTIFIER for Motorcycles

- Replaces existing selenium rectifier/zener diode or silicon rectifiers and regulators
- Solid state . . . easy to install

Helps maintain a fully charged battery while making complete alternator output available to the electrical system. If battery is removed or disconnected, regulator-rectifier maintains system voltage over the full range of engine RPM and electrical load. Provides complete control over current delivered from less than 1 amp to more than 10 amps. Will not drain battery when engine is off. For the following: **BSA**—All models; **HONDA**—C70M, C/CL/CT/DC/S/SL/ST, CB/CL/SL/XL100 & 125, CB/CL72 & 77, CL/SL175, XL175K1 and K2, CB/CL200 & [illegible], CL/SL350, CB360, CB/CL450; **KAWASAKI**—[illegible]; **NORTON**—All models; **SUZUKI**—T20, T[illegible], T250, T350, T500, TS400, GT185, GT[illegible]; **TRIUMPH**—All models; **YAMAHA**—AS2C, [illegible] & B, LS-2, YAS1, YAS1-C.
02—1384N—All 6-volt
02—1383X—All 12-volt ..... Each $21.[illegible]
Battery Eliminator. For use with above Electronic Regulator-Rectifier on motorcycles that have battery excited ignitions only.
02—1646X— ..... Each $9.[illegible]

High-output PERFORMANCE COILS for Motorcycles

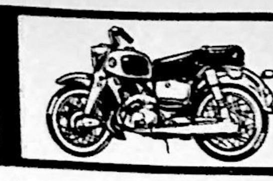

- Produce 30,000 volts—2 to 3 times the spark voltage produced by original equipment and most replacement coils!
- High-voltage output allows plugs to fire better . . . smoother under all conditions
- Assures faster starts, better performance, reduced plug fouling, increased mileage, reduced . . .
- Available for 2 or 4-cylinder motorcycles

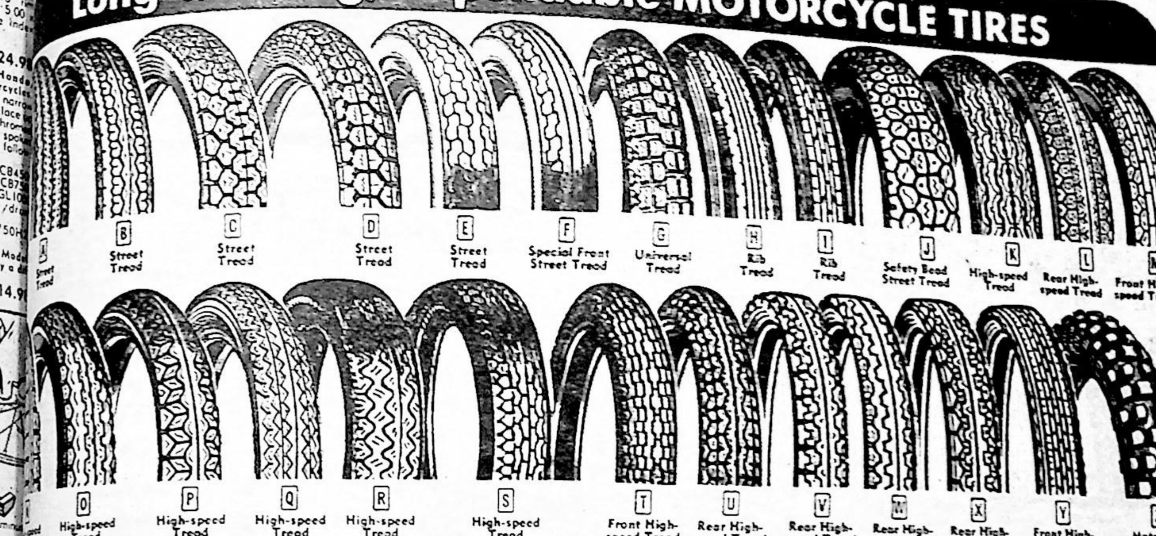

Coil mounts in stock coil mounting location. Kit includes: coil(s), 7mm diam. silicon spark plug wire, mounting hardware, instructions. Coil fits ALL 2 and 4-cylinder motorcycles except 78-84 Honda CB750, CB900, CBX.
Single Coil Kit for 2-cyl. single point ignition cycles.
06—2036W— ..... 1-Kit $39.[illegible]
Twin Coil Kit for 2 & 4-cyl. twin point ignition cycles.
06—2037U— ..... 1-Kit $74.[illegible]

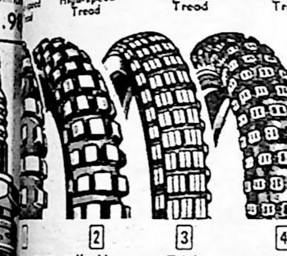

Complete Line of Motorcycle Parts and Accessories at Exciting Savings

Long-wearing, Dependable MOTORCYCLE TIRES

- **Choice of 2-ply nylon cord construction with a 4-ply (load range B) rating or 4-ply construction with a 6-ply (load range C) rating**
- **High-speed rated tires also available**
- **All tires are tube-type except where specified as tubeless**

Enjoy safe, trouble-free riding with these high-quality motorcycle tires. Durable, long wearing treads are designed for great traction and mileage. Tires [A] thru [Y] meet or exceed D.O.T. highway specifications. Tires [Z] thru [4] are designed for off-road use only.

STREET TREAD for front or rear. Low-profile, high-speed, high-confidence . . . deep, surface-hugging tread designs . . . over-the-road performance. Feature . . . contour tread.

Size	Rating	Stk. No.	Each

Slip-on • Brushed Aluminum CANISTER MUFFLER SETS Custom Fit for Motorcycles

- Converts stock exhaust system into a canister system for that superbike look and sound
- Strong aircraft aluminum canisters slip on in place of stock mufflers . . . weigh up to 45% less
- Helps reduce back pressure for improved engine performance

Seamless brushed aluminum canisters (approx. 12" long x 3-1/2" diam.) have special fiberglass AND louvered baffle core to give the deep, quiet tone of a superbike. Canisters are mounted to 16-gauge carbon steel pipes that have high-gloss, high-heat-resistant black coating. Easy to install—slip off stock mufflers and slip on canister system (stock mufflers on Kawasaki GPZ550, 1100 and all Suzuki must be cut off). Sets include 2 canisters with steel pipes, hardware, instructions. Custom fit for the following cycles only:
HONDA—84-85 VF500 Interceptor (for FT500 & VT500—see below); 84-85 VF700 Interceptor, 83-84 VF750 Interceptor; 81-84 VF750 Sabre, 1984 VF1000 Interceptor; 84-85 VF1100 Sabre
KAWASAKI—82-83 GPZ550 Uni-Trak; 81-85 GPZ750 Uni-Trak; All GPZ750 Turbo; 84-85 GPZ900 Ninja; 81-82 & 84-85 GPZ1100 Uni-Trak
SUZUKI—84-85 GS550ES & ESD, 84-85 GS750ES & ESD, 84-85 GS1150ES
YAMAHA—84-85 FJ1100
When Ordering, State Year, Make, Model & Stk. No. Note: The stock number you ordered may carry a different identification number on your package.
55—3716B— ..... 1 Set $119.98
Single Aluminum Canister & Pipe for Honda FT500 & VT500.
02—9884W—For all FT500 ..... Each $59.98
02—9885T—For all VT500 ..... Each 59.98

Long-wearing • Dependable MOTORCYCLE TIRES

Enjoy safe, trouble-free riding with these high-quality motorcycle tires. Durable, long-wearing treads are designed for great traction and mileage. Tires [A] and [B] meet or exceed D.O.T. highway specifications. Tire [C] is designed for off-road use only. Tires have either 2-ply nylon cord construction with 4-ply rating or 4-ply nylon cord construction with 6-ply rating. See Index for inner tubes and additional tires.

[A] & [B] **Tubeless/Tube High-speed Tread.** Specially designed for use as a tubeless tire on mag wheels, or a tube-type tire on spoked wheels. High-speed rated "H" (withstands speeds up to 130 mph). Specially shaped micro-slots provide extra stability, positive grip and sure response. Rear tread [A] has slot & groove design for superior traction and braking in dry or wet conditions. Front tread [B] assures positive steering and stability at highway speeds. Special side block design assures excellent cornering and braking. Center groove channels water out of your way.

Size	Rating	Stk. No.	Each
[A] Rear 4.75 x 18"	4-ply	62—1615R	$44.99
[B] Front 4.00 x 19"	4-ply	62—1616X	29.99

[C] **Safety Bead Tube-type Knobby Tread.** Special safety bead helps keep tire on wheel even if you have a blowout at high speeds. Offset 5-knob tread design gives positive grip and control on any terrain. Reinforced shoulder with strong sidewall allows faster, safer handling on corners. 4-ply rated tire has load range "B" rating, 6-ply rated tires have load range "C" rating.

Size	Rating	Stk. No.	Each
4.25 x 14"	4-ply	62—1617N	$22.99
5.10 x 17"	6-ply	62—1618T	37.99
5.90 x 17"	6-ply	62—1619A	49.99
4.75 x 18"	6-ply	62—1620R	32.99
5.10 x 18"	6-ply	62—1621X	34.99
5.50 x 18"	6-ply	62—1622N	39.99
5.90 x 18"	6-ply	62—1623T	49.99

COOLANT, SEALANT and BALANCER for Motorcycle Tires

- Lowers operating temperature up to 30°F for extended tire life
- Balances continuously for better ride and longer tread wear
- Seals rim leaks and most punctures up to 1/4"

Get a smoother, safer ride! Dense liquid preserves and lubricates tire & rubber, prevents rusting on rims and metal tire cords. Won't harm rubber or rims. Easy to inject through valve. Pkg. of two 8-oz. bottles is enough for 2 tires.
15—9805W— 1-Pkg.-of-2 $4.99

Tire Sealant. Instantly flows into puncture as you drive to help prevent flats. Injects easily through valve. 16-oz. bottle seals 2 to 4 tires.
10—4323P— ..... Each $2.49

Long-wearing, Dependable MOTORCYCLE TIRES

- **Choice of 2-ply nylon cord construction with a 4-ply (load range B) rating or 4-ply construction with a 6-ply (load range C) rating**
- **Tires with high-speed rating "H" available**
- **All tires are tube-type except where specified as tubeless (see Index for inner tubes)**

Enjoy safe, trouble-free riding with these high-quality motorcycle tires. Durable, long-wearing treads are designed for great traction and mileage. Tires meet or exceed D.O.T. highway specifications.

[A]-[F] **UNIVERSAL TREAD.** Designed for all 'round on and off-road use. Angled tread digs the dirt, grabs the road ... resists side-slip on loose, muddy or potholed surfaces. 4-ply rating.

Custom-fit • Chrome Plated or Hi-heat Resistant Coated UPSWEPT MEGAPHONE-STYLE HEADERS for MOTORCYCLES

Increase horsepower up to 20% ...help improve fuel economy

- **Dyno tested and performance-tuned**
- **Choice of 4-into-1 and 2-into-1 systems**
- **Include quiet steel-baffled mufflers**
- **Easy bolt-on installation—no drilling, cutting or welding required**
- **Available with brilliant triple chrome plating or the NEW high-heat-resistant slate black coating**

These header systems let your engine breathe better and operate more efficiently to give improved acceleration, better fuel economy, a cooler running engine and a 20% increase in horsepower. Removable steel-baffled mufflers deliver a deep, mellow tone ... never need replacing, because there's no fiberglass to burn out. Made of 16-gauge cold-rolled carbon steel tubing. Smooth-flow mandrel bends allow for superior scavenging. Systems complete from cylinder head to megaphone. Instructions included. Custom fit the makes and models listed at right ONLY. **If your make and model is not listed, do not order; headers cannot be altered to fit other motorcycles. When Ordering, State Make, Year, Model, Number of Cylinders and Stk. No. ♦For Suzuki GS750, Also State 2 or 4 Valves per Cylinder. Note: The stock number you ordered may carry a different identification number on your package.**

2-into-1 Header Systems. All exit on right side. Custom fit the following 2-cyl. cycles:
Honda—68-74 CB350 (2 cyl.); 74-76 CB360 (2 cyl.); 78-81 CM400T & Hawk II
Kawasaki—74-79 KZ400; 80-82 KZ440, 76-81 KZ750T, LTD (2 cyl.)
Yamaha—74-82 XS650, Special
55—3231B—Slate black coating 1-Set $89.98
55—3232P—Chrome plated 1-Set 109.98

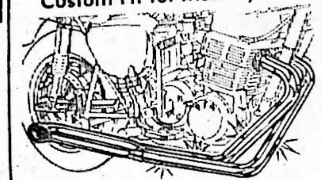

4-into-1 Header Systems. All exit on right side. Custom fit the following 4-cyl. cycles:
Honda—71-77 CB500 (4 cyl.); 71-77 CB550, F (4 cyl.); 79-82 CB650, 69-82 CB750 A, K, K1-5, F; 79-82 CB900
Kawasaki—79-82 GPZ550, KZ550, All KZ650, KZ750 (4-cyl.), KZ900, KZ1000, KZ1100

Deluxe Chrome-plated 4-into-2 TURNOUT HEADERS Custom Fit for Motorcycles

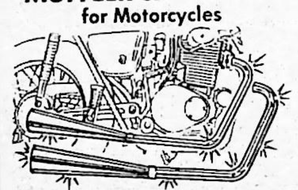

- **Two single-piece muffler/headpipe units help restore or improve power, acceleration, economy**
- **Dyno tested, tuned for maximum performance**
- **Special reverse core baffle**
- **Easy bolt-on installation... no drilling, welding**

16-gauge cold-rolled carbon steel seamless mufflers and 18-gauge headpipes are welded together to form a no-leak, one-piece system for each side of cycle. Headpipes have smooth mandrel bends for superior scavenging ... help engine breathe better and operate more efficiently. 2-1/2" diam. turnout mufflers feature a special all-steel reverse core baffle system that won't burn out or blow out. High-lustre triple-chrome-plated finish won't pit, peel or bubble. Systems provide great ground clearance when installed ... allow center stand retention and easy access to service points. Complete from cylinder head to muffler tip. Mounting hardware included. Custom fit for the following motorcycles only:

Make, Year, Model	Stk. No.

Mini AIR PUMP KITS for Cycles

Includes pump, flex hose, connector for all motorcycle valve stems plus needle for inflating air mattresses, basketballs, etc.

Kit with 75 psi pump. Delivers enough pressure to fill the largest cycle tire. 4.05 cu. in. (Big 60cc) volume per stroke. 5" long overall.
02—4849U— 1-Kit $8.98

Kit with 150 psi pump. Enough pressure to fill air shocks and air forks. Volume: 1.35 cu. in. (20cc) per stroke. 4" long overall.
02—4853W— 1-Kit $6.98

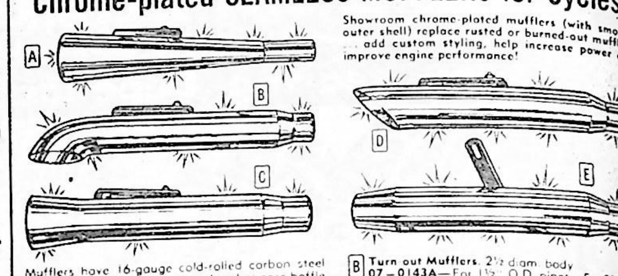

SPARE TIRE IN A CAN for Motorcycles

- **Seals leaks, inflates tire in seconds**
- **Excellent for emergency repairs**
- **Won't harm tires or tubes**

Fix flats fast without tools or tire patches! Applies through valve using tube attachment. Net wt. 12 oz. aerosol.
15—9208T— .... Each $1.99

Chrome-plated SEAMLESS MUFFLERS for Cycles

Showroom chrome-plated mufflers (with smooth outer shell) replace rusted or burned-out mufflers ... add custom styling, help increase power and improve engine performance!

Mufflers have 16-gauge cold-rolled carbon steel body and an all-steel reverse-chamber core baffle system that won't burn out or blow out. Approx. 19" long. Easy to install—muffler slips over original headpipe. (Order by **outside** diameter of original headpipe.) Includes adjustable sliding-track mounting bracket. Use original mounting clamps ... or see Index. All are straight-back style except (A) and (E) which are available in straight-back and upsweep styles.

[A] **Megaphone Mufflers.** Approx. 3½" diam. flare at tip. **Sold in pairs.**

High-performance • Triple Chrome-plated Complete HEADER EXHAUST SYSTEMS Custom Fit for Motorcycles

- **Increases horsepower up to 20%**
- **Dyno tested and performance tuned**
- **Easy bolt-on installation—no drilling, welding**

18-gauge steel header with muffler has double wall flange to help prevent cracking or heat discoloration. Triple chrome plating won't pit, peel or bubble. Removable louvered steel muffler inserts with ceramic wool element give quiet, long-lasting service. Bolt-on installation lets you retain center stand, side stand, stock oil cooler and radiator (if applicable). Allows full access to oil filter and drain plug without removing header. Hardware, instructions included. 4-to-1, 3-to-1 and 2-to-1 systems exit on right side of motorcycle; 4-to-2 systems exit on both sides. All systems end approximately at center of rear axle to allow adequate clearance for cornering and saddlebag mounting.

HIGH-PERFORMANCE HEADERS for Motorcycles

CHOICE OF THREE TIPS

[illegible] to 20% more horsepower
[illegible] chromed-plated for gleaming beauty
[illegible] fit—no drilling or welding
[illegible] tubing has smooth mandrel bends for [illegible] scavenging. 4-into-1 and 2-into-1 header systems complete from cylinder head to exhaust tip. Include 16-ga. steel muffler—never needs replacing ... no fiberglass to burn out. All systems end at rear axle. 4-into-2 exit on both sides; 4-into-1 exit on right side; 2-into-1 exit on right side, except Honda CB500T and Kawasaki 400cc which exit on left side.
♦ Indicates matte black finish—all others are chromed.
• Indicates headers will NOT fit CB550F or CB750F models.
■ Indicates removal of center stand required.
NOTE: Do **NOT** order if your make and model is not listed, as pipes fit only those listed and cannot be altered to fit other models.

SATISFACTION GUARANTEED or MONEY BACK

Custom-fit • High-performance TURNED-OUT STYLE HEADERS for Motorcycles

- **Up to 20% increase over present horsepower**
- **Dyno tested and tuned for maximum operation**
- **Restores lost power and performance**
- **Super-quiet baffled mufflers don't burn out**
- **Choice of triple-chromed or flat-black finish**
- **Easy bolt-on installation—no drilling or welding**

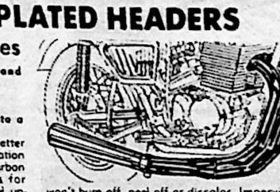

Let your engine "breathe" better, operate more efficiently. Get better acceleration and fuel economy ... cooler operation too. Resonant tone. No fiberglass to burn out; mufflers never need replacing. Thick 16-ga. carbon-steel mufflers, collectors. Heavy-gauge cold-rolled carbon-steel tubes with smooth mandrel bends for superior scavenging. Complete from cylinder head to exhaust tip at rear axle. Instructions. Custom-fit for cycles listed only. **Note:** Headers fit makes and models listed at right only. If your make and model is not listed, do not order. **When Ordering, State Make, Year, Model, Number of Cylinders and Stk. No. Note: The stk. no. you ordered may carry a different identification no. on your pkg.**

2-INTO-1 HEADERS for the following 2-cylinder motorcycles. All exit on right, except Honda CB500T and Kawasaki 400cc, which exit on left. Center stand must be removed on Honda CB350 and CB450 and all Norton, Triumph and Yamaha.
HONDA. CB350, CB360, CB450 and CB500T
KAWASAKI. All KZ400.
NORTON. All 750 and 850cc models thru 1982.
TRIUMPH. All 500cc T100C Trophy, T100R Daytona and TR5T Trophy; 650cc T120R Bonneville, TR6C Trophy and TR6R Tiger.
YAMAHA. All XS650 2-cyl. models thru 1982.
55—2343W—Chromed 1-Set $69.98

Hi-performance GLOSS BLACK CERAMIC or CHROME-PLATED HEADERS

Custom Fit for Motorcycles

- **Choice of 6-into-2, 4-into-1, 3-into-1 and 2-into-1 systems**
- **Dyno tested and performance tuned**
- **Easy bolt-on installation**
- **4-into-1 system can be converted easily into a competition header**

Adds style while allowing engine to breathe better to help restore and increase power, acceleration and fuel economy! 18-gauge cold-rolled carbon steel pipes have smooth mandrel bends for superior scavenging. 16-gauge carbon steel upsweep megaphone muffler flares to approx. 4" diam. Muffler has removable, quiet, reverse-core metal baffle system that won't burn out or blow out. (Order baffle below to convert any 4-into-1 system into a competition header.) Choice of 2 quality finishes:

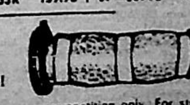

★**gloss black ceramic finish.** More deep luster than black chrome, black paint or any high-heat-resistant black finish! Not a paint, but a unique combination of space-age components that actually bonds itself to the surface it is applied to and forms a rock-hard coating. Cured at 1800° F, it withstands intense heat from exhaust pipes—won't burn off, peel off or discolor. Impervious to battery acid, road grime. Cleans with damp cloth.

★**chrome-plated finish.** Adds showroom brilliance to any cycle.

All systems complete from cylinder head to muffler. Install easily ... allow retention of center stand, permit easy access to all service points. End approximately at center of rear axle and allow adequate clearance for cornering and saddlebag mounting. 4-into-1, 3-into-1 and 2-into-1 systems exit on right side except Honda CB350 2-into-1 system which exits on left side. With mounting hardware. Custom for the cycles below **only.**

COMPETITION BAFFLE

Convert any 4-into-1 header above into a true competion header...add up to 12% MORE POWER!

Easy to install. Just remove the core from your muffler and replace it with this competition louvered steel core (with special fiberglass packing). Rejetting and timing required. Designed for off-road, closed-course competition only. For street use, simply re-insert the core included with the header system.
07—0072B— .... Each $17.98

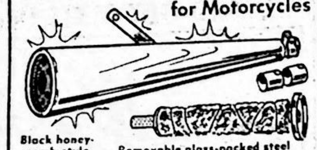

Chrome-plated Megaphone SPORTS MUFFLERS for Honda & Kawasaki Twins

Help lower back pressure, baffle sound, yet give a mellow tone. Best for maximum performance. Mounting bracket included. 3" diameter body. Some drilling of bracket required. Custom-fit the following 2-cyl. motorcycles only:

Model	Lgth.	Stk. No.	1-Pair

MERCURY CARBURETOR SYNCHRONIZERS for Motorcycles

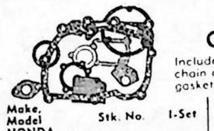

• Accurately synchronizes 2, 3 & 4-cyl. cycles
• Helps detect engine problems
A must for proper tuning and top performance! Measures the vacuum in the intake manifold for synchronization of each carburetor plate. Never needs calibrating, no valves to adjust. Approx. 19" (50cm) high with large scale. Columns of mercury are protected by impact-resistant molded case. With instructions.

Standard Synchronizer for all BMW, Kawasaki and Yamaha motorcycles.
06—1306U— Each $37.99

Deluxe Synchronizer for all BMW, Kawasaki and Yamaha motorcycles—plus adapters for use on Honda & Suzuki.
06—1307B— Each $42.99

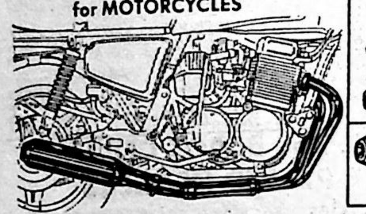

COMPLETE ENGINE OVERHAUL GASKET SETS FOR MOTORCYCLES

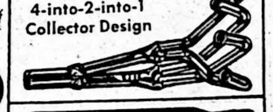

Include all gaskets necessary for complete engine overhaul. With cam chain chamber gasket, cylinder gasket, cylinder head gaskets, rocker arm gaskets, oil pump cover gasket, etc.

Custom-fit • High-performance • Gloss Black Ceramic 4-into-2-into-1 COMPETITION CANISTER HEADERS for MOTORCYCLES

Special 4-into-2-into-1 Collector Design

Special Muffler Core Design

• Dyno tested and performance tuned
• Increases power over ENTIRE power band
• Adds style—gloss black ceramic finish is more lustrous than any other black finish available
• Bolts on easily for a custom fit—no drilling or welding

Specially designed for competition! Dramatically increase performance and horsepower over the entire power band—not just the low or high end. All systems come with recommendations for rejetting, timing, air filter and proper spark plug and gap settings to assure maximum increase in performance. 18-gauge cold-rolled carbon steel pipes and collectors have smooth mandrel bends for superior scavenging. Seamless 16-gauge carbon steel canister muffler (approx. 19" long, 3-1/2" diam. with tapered end) resists denting, metal fatigue, corrosion. Removable competition-design, metal louvered baffle has special fiberglass packing. Headers feature a unique gloss black coating (made of space-age compounds) that bonds to both the inside and outside of the system. Coating is cured at a much higher temperature than the normal operating exhaust temperature of your cycle—it won't burn or peel off like paint or discolor like chrome. Impervious to battery acid and road grime ... cleans easily with a damp cloth. All systems install easily—provide great ground clearance when mounted. Allow access to all service points. Complete with hardware, instructions. Custom fit for the following motorcycles only:

Chrome-plated SLIP-ON MUFFLER SETS Custom Fit for Motorcycles

• Restore performance, acceleration and economy lost due to old, faulty mufflers
• Chromed 16-gauge cold-rolled carbon steel
• Easy bolt-on installation—just slip on in place of original mufflers

Seamless mufflers have quiet reverse-core baffle system that won't burn or blow out. All mufflers are approx. 2-1/2" in body diam. (except those indicated by ♦, which are 3") and 20" long, not including length of collector or slip-on pipe. Megaphone and Flared Tip mufflers flare out to 3" (except that indicated by ■, which flares out to 3-1/2"). Sets include 2 mufflers and welded-on mounting brackets; sets for 4-cylinder cycles also include built-in "Y" collector that fits over pipes & converts old exhaust system into a new 4-into-2 system. Note: For use only with stock pipes

Deluxe • 3½" Diam. Gauge CARBURETOR SYNCHRONIZER for Cycles with Multi-carb Engines

• Accurately synchronizes each carburetor throttle plate for top performance
Kit includes four large 3-1/2" diam. gauges, each calibrated at 0 to 30" Hg & 0 to 760mm Hg for vacuum, 0 to 9 psi & 0 to .62 kg/cm² for pressure. 4 controllable dampening valves. For motorcycles with 2, 3 or 4 carburetors. Note: This item will be repaired or replaced at our option. Cannot be returned for refund or credit. No replacement or repair if unit is altered, abused or damaged by customer.
81—1752X— Kit $34.95

Motorcycle CARBURETOR SYNCHRONIZER for Multi-Carburetor Engines

Accurately synchronizes each carburetor throttle plate on multi-carburetor engines—a "must" adjustment for top performance. Includes 4 vacuum gauges, 2-1/2" diam. calibrated 0-28" of mercury and 0-700mm Hg for vacuum; 4 controllable dampening valves. For motorcycles with 2, 3 or 4 carbs. Note: This item will be repaired or replaced at our option. Cannot be returned for refund or credit. No replacement or repair if unit is altered, abused or damaged by customer.
88—8813T— 1-Kit $24.98

Chromed • Glass-packed Flared, Seamless MUFFLERS for Motorcycles

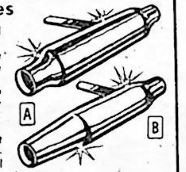

• Smooth-as-glass outer shell—no welded seams
• Free-flowing fiberglass-packed inserts for a mellow, throaty sound
Help reduce back pressure for increased horsepower and improved engine performance. Rust-resistant plated steel. Complete with reducers for easy mounting on 1-1/2", 1-5/8" or 1-3/4" O.D. exhaust pipes, clamp and 7-1/2" reversible, adjustable hang-mount bracket for left or right-side installation.

[A] STRAIGHT-TYPE muffler measures 21" long. 3" diameter flared end.
01—7430A— Each $27.98

[B] UP-SWEEP SLASH-CUT muffler measures 24-1/2" long, 3-1/2" diameter flared end. About 30° upsweep
01—7431R— Each $29.98

Chrome-plated SPORTS MUFFLERS for Motorcycles

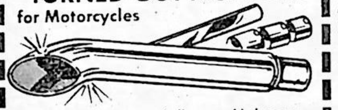

• Adds bright good looks & high styling
• Lowers back pressure for improved engine performance
• Fiberglass packed to produce a low, mellow and throaty sound
Complete with 7" hang-mount bracket for left or right-side installation. Fits all 1-1/2" or 1-3/4" O.D. pipes.

[A] 12" long Shorty Muffler. 1-1/2" and 1-3/4" I.D. inlet. 2-3/8" diam. body.
02—8538R— Each $7.98

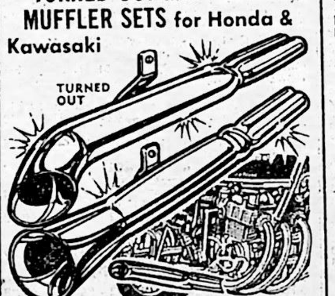

[B] 16" long Muffler w/tapered end. With reducer to fit 1-1/2" or 1-3/4" O.D. pipes. 2-3/8" diam. body tapers to 2" at end.
02—8539X— Each $14.98

Seamless TURNED-OUT MUFFLERS for Motorcycles

• Smooth-as-glass outer shell—no welded seams
• Gleaming, stylish chromed-plated steel
• Designed to produce a low, mellow sound
• Available in 16" and 20" lengths
Add style while helping to lower back pressure for better engine performance. Steel baffle never has to be replaced ... no fiberglass to burn or blow out. With 7-1/2" reversible and adjustable hang-mount bracket for left or right side installation and special reducers to fit all 1-3/8", 1-1/2", 1-5/8" or 1-3/4" O.D. pipes. 2-3/8" diam. body.
01—7499W—16" long body ... Each $18.98
01—7500A—20" long body ... Each 19.98

Chrome-plated • Custom-fit TURNED-OUT and FLARED MUFFLER SETS for Honda & Kawasaki

• Replaces all 4 mufflers—converts your old exhaust system into new 4-into-2 style
• Choice of 2 styles—turned-out or flared
• Choice of 2 cores—fiberglass or baffled
Bright, corrosion-resistant plated 16-gauge tubular steel mufflers slip on quickly, easily. Built-in "Y" collectors fit perfectly over stock pipes and bolt into place. Welded-on mounting brackets. Turned-out style has 3" diam. body; flared style has 2-1/2" diam. body; 3-1/2" flared end. Both measure 26" long. Choice of 2 cores—fiberglass-packed core or super-quiet chamberized-baffle core which has no fiberglass to burn out, does not require rebuilding. With hardware, instructions. NOTE: Do not order if your make and model are not listed, as sets fit only those listed and cannot be altered to fit other models. Custom fit the following 4 cyl. cycles:
Honda—All CB350 4-cyl.; 69-76 CB500 4-cyl., CB550, CB550K1; 69-76 CB750K1 thru K5; 77-82 CB750K; 76-78 CB750A
Kawasaki—77-80 KZ650; All 900Z1 and KZ900; 77-80 KZ1000
When Ordering, State Make, Year, Model and Stk. No. Note: The stock no. you ordered may carry a different identification number on your pkg.

Turned-out	Baffled	55—2315U	69.98

Semi-metallic MOTORCYCLE DISC BRAKE PADS

• Available for front and rear
Hi-performance disc brake pads use a semi-metallic lining that resists fade and heat far better than conventional organic pads ... last much longer, too. Brake material is integrally molded and bonded to metal backing for strength ... can't shear or separate. Set of 2 pads—enough to do one caliper. Order the correct number of sets for your motorcycle. When Ordering, State Year, Make, Model, Front or Rear and Stk. No. Note: The stock number you ordered may carry a different identification number on your package. Available for all the following motorcycles only; if your motorcycle is not listed, do not order—pads will not fit.

FRONT PADS. For the following:

55—3014B— 1-Set $10.9[illegible]

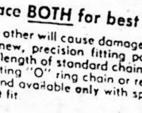

REAR PADS. For above cycles with ♦ only. If your motorcycle is not listed do not order—pads will not fit.
55—3015R— 1-Set $10.9[illegible]

SPRING COMPRESSOR TOOL for Motorcycle Shock Springs

Removes old springs, installs new ones quickly, easily and safely! Tool steel. For cycle shock absorbers with or without covers.
01—3272A— Each $9.9[illegible]

Complete CHAIN & SPROCKET KIT • Replace BOTH for best performance

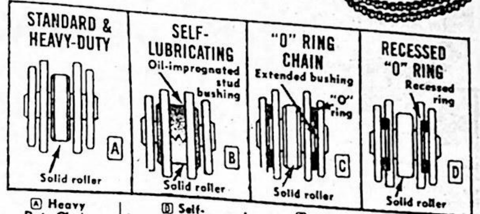

Chain and sprockets should be replaced at the same time—replacing one and not the other will cause damage to both parts as well as premature loss of horsepower. Complete kit consists of the following all new, precision fitting parts: one bolt-on rear wheel sprocket, one heat-treated steel counter-shaft sprocket, correct length of standard chain, and one master link. Also available with heavy-duty chain, self-lubricating chain and self-lubricating "O" ring chain or recessed "O" ring chain described below. Custom fit for the year, make and models listed below only and available only with sprocket sizes and chain sizes listed. If your year, make and model is not listed, do not order, as it will not fit.

Standard and Heavy-duty Chain. Solid 1-pc. rollers last much longer than cheaper 2-pc. welded rollers.

Self-lubricating Chain. Specially compressed sintered bushings are impregnated with oil which "flows" when chain is operating ... provides all the oil and lubrication chain will ever need!

"O" Ring Chain. Super-strong, self-sealing "O" rings assure long service and extra smooth, quiet operation. Like chain [B], "O" ring never needs oil—internal pin and bushing bearing surfaces are lubricated before assembly, then tightly sealed.

Self-lubricating Recessed "O" Ring Chain. Ultimate chain for street use. Same as "O" ring chain [C], plus it has increased strength and reduced weight and friction. Recessed rings also permit "close tolerance" plate construction (approx. .008" clearance between side plates) to reduce dirt penetration and side bowing.

CHAIN BREAKERS and VISE

[A] Heavy-duty Chain Breaker. For all chain sizes 420 through 630. Drives chain pin entirely through roller (not just part way). Heat-treated chrome-moly steel body. Replaceable heat-treated steel tip withstands up to 50,000 lbs. pressure. Fold-up carbon steel handle. Use with 9/16" wrench or socket (not included). With instructions.
06—2493R— Each $11.98
06—2494X—Replacement Tip Each $1.29

[B] Chain Breaker. Adjusts to all chains from 3/8" to 1-1/8". Heat-treated tip.
01—1553W— Each $8.98

[C] Mini Chain Breaker. For all chain sizes 420 through 530. 13/16" x 13/16" x 5/8" steel body.
02—3264X— Each $2.79

[D] Heavy-duty Chain Vise. Thumb-nut tension adjuster. Holds chain together for easy master-link installation.
01—1830Y— Each $9.98

Universal DRIVE CHAINS for Cycles

All have 126 links including the master link and require breaking for custom fitting to your cycle. (See Index for chain breaker.) Order by chain number (usually found on the master link). To find chain number if not known, see diagram above and link sizes below.

Chain No.	Link Size A	Link Size B	Stk. No.	Each
420	1/2"	1/4"	02—4095U	$6.98

Complete Line of Motorcycle Parts and Accessories at Exciting Savings

Deluxe • Vented FULL-FACE HELMETS with Ratchet Face Shields

In Black or White

Safety designed, comfortable, stylish! Helmets cover your head, ears and neck to provide excellent protection even during bad spills, yet are light enough to prevent fatigue. Full-face design adds strength, covers lower part of face, cheeks, neck and chin while allowing full 120° peripheral vision. Sleek chin bar (see illus. A at left) has adjustable front vents to maximize cool air flow and to prevent shield fog-up, inner mesh screen keeps out dirt, dust. Special 2-pc. inner neck roll (see illus. B) and unique wraparound ear padding help seal out fatiguing wind, irritating noise. Brushed nylon interior lining resists perspiration absorption, cleans easily. Helmets available with high-gloss black or white finish. Wraparound pinstriping (gray, white, silver) adds a sleek, sporty look. Black base and window trim. Ratchet face shield (see illus. at left) is made of scratch-resistant clear acrylic, has 3 fingertip locking positions, closes tight for a quiet ride. Helmet meets or exceeds D.O.T. standards. **IMPORTANT: See How to Measure below, then order at right.**

DELUXE FEATURES

1. **Molded 1-pc. high-impact polycarbonate outer shell.** Tough, scratch resistant ... resists punctures.
2. **Expanded polystyrene inner shell.** Absorbs shocks, impacts contoured for a great fit.
3. **Thick foam padding with nylon lining.** Assures a snug, comfortable fit without pressure points.
4. **Wraparound foam-padded ear panels.** Help eliminate wind noise.
5. **Nylon chin strap.** Strong, triple stitched, wide. With sure-hold double D-ring buckle.
6. **Ratchet face shield.** Described at left.
7. **Vented chin bar.** Described at left

HOW TO MEASURE

Measure around the largest part of head with tape measure. **If head measures (figure in row A), your head size is (figure in row B).** If between sizes, order next larger head size. **Note:** helmets must fit snugly

A	21¼	21⅝	22	22⅜	22¾	23⅛	23½	23⅞	24¼
B	6¾	6⅞	7	7⅛	7¼	7⅜	7½	7⅝	7¾

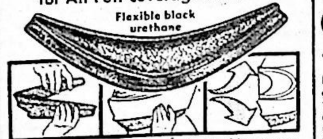

Deluxe full-face helmets with vented chin bar.

Head Size	Black	White
6⅞ to 7 (S)	82—1826Y	82—1830P
7 to 7⅛ (M)	82—1827W	82—1831Y
7¼ to 7⅜ (L)	82—1828U	82—1832W
7½ to 7¾ (XL)	82—1829B	82—1833U

Above Numbers .... Each **$39.95**

Replacement Ratchet Shield for above. 82—1834B— .... Each $4.49

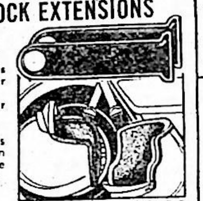

WIND DEFLECTOR for All Full-coverage Helmets

- **Keeps your neck warm in winter, cool in summer**
- **Won't restrict freedom of movement**

Redirects wind down and away from neck. Space behind deflector's overhang lets air circulate around neck to prevent overheating. Can be mounted temporarily or permanently (adhesive included) to helmet. 15" long, tapers from 2-3/4" to 1" wide.
06—2548P— 1-Kit **$7.98**

HELMET LOCK EXTENSIONS for Cycles

- **Lock 2 helmets easily to your bike—without scratching bike or helmet!**

Chrome-plated steel extensions slip thru D-rings on helmet and secure to lock on bike. Approximately 4" long.
06—2619R— 1-Pair **$3.98**

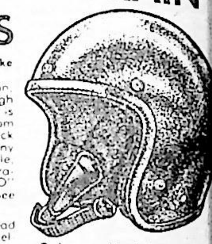

Full Duplex • Cycle-to-Cycle Communicators with Intercoms

- **Communicators allow hands-free duplex (simultaneous) 2 or 4-way conversation between drivers and passengers on 2 motorcycles**
- **No buttons to push, not voice activated ... it's like using a standard telephone!**
- **Intercom function permits hands-free simultaneous 2-way conversation between driver and passenger on same motorcycle**

Transmission range of up to 1/2 mile. Noise-cancelling microphones allow optimum clarity at high speeds or in high-noise areas. Set includes 2 communicators, each with matched driver and passenger headsets for 2 or 4-user capability. Compact communicators clip to belt or fit in pocket. Passenger headsets mount easily inside open or full-face helmets ... snap-apart driver headsets can be used with or without helmets. No cutting or drilling required. No special license required for operation. Includes two 9-volt batteries.
03—9725P— 1-Pair **$179.95**

Deluxe BLACK LEATHER-GRAIN OPEN-FACE HELMETS

- **Molded-in black textured finished plus tomorrow's styling take this helmet out of the traditional, look-alike class!**

Everything you want in a helmet—great looks, great protection, great fit. Molded 1-pc. polycarbonate outer shell is tough enough to resist punctures even in severe impacts. Polystyrene inner shell is designed to help absorb shocks and jolts during spills. Soft foam underlining adds comfort. Both the polystyrene shell and its thick padding are comfort-contoured for a snug, secure fit without any pressure points. Plush brushed black trylon lining is breathable, resists perspiration absorption, is strong and easy to clean. Extra-long chin strap has swivel fasteners and 1-pc. chrome-plated "D" rings. Matching black leather-grain trim. 5 built-in visor snaps. See How to Measure below, then order at right.

HOW TO MEASURE. Measure around largest part of your head with a tape measure. If head measures (figure in row A), your helmet size is (figure in row B). If between sizes, order next larger size. Note: Helmets must fit snugly.

A	20⅞	21¼	21⅝	22	22⅜	22¾	23⅛	23½	23⅞	24¼
B	6⅝	6¾	6⅞	7	7⅛	7¼	7⅜	7½	7⅝	7¾

Order your black leather-grained helmet here.
82—1923T—6¾-6⅞ head size
82—1924A—7-7⅛ head size
82—1925Y—7¼-7⅜ head size
82—1926W—7½-7¾ head size
Above Numbers .... Each **$29.95**

NIGHT DRIVING GLASSES

Enjoy safer driving at night, in fog, rain or snow!

- Helps you see in the dark!
- Sharpens images, improves visibility
- Yellow impact-resistant lenses reduce eyestrain, filter out glare from oncoming headlights
- All glasses come with carry case

[A] **Glasses with side shields.** Penetration-resistant polycarbonate plastic frame and lenses exceed industrial standards. Fit over regular glasses.
15—8416T— .... Each $4.99

[B] **Aviator Glasses** with gold-tone metal frame and straight temple.
14—3411P— .... Each $9.9[illegible]

[C] **Aviator Glasses** with gold-tone metal frame, flex cable temple and seat bar.
14—3412Y— .... Each $9.9[illegible]

Helmet-adaptable 2-WAY RADIO COMMUNICATOR with Intercom & FM Receiver for Motorcyclists

- **Intercom allows clear, safe driver-passenger communication**
- **Voice-operated or manually-operated transmissions**
- **Dual conversion superheterodyne FM broadcast receiver**
- **Convertible headset can be used with or without almost any open-face or full-coverage helmet—installs quickly, easily without cutting or drilling**

Transmits up to 1/2 mile, depending on weather conditions and terrain. Voice-operated, noise-canceling microphones assure optimum clarity ... prevent accidental transmissions from background noise. Push-to-talk button lets you transmit manually. Powerful FM radio receives music and news for on-the-road entertainment. Lightweight power pack is only 5" high x 3-3/8" wide x 1" deep. Spring-loaded clip secures unit to belt. Operates on one 9-volt battery (not included). Complete with power pack and two headsets. No special FCC license required.
03—9828B— .... Each **$79.95**

Similar to communicator at left, but without FM radio. Power pack is 4-1/2" high x 2-1/2" wide x 1-1/4" deep.
03—9829P— .... Each **$69.95**

HELMET LOCK

Locks your helmet securely to motorcycle! Strong chrome-plated steel. Attaches easily to all 7/8" diam. handlebars, crash bars, sissy bars and backrests. With mounting hardware and 2 keys.
01—2971R— Each **$3.99**

TWO-WAY INTERCOM for Motorcycle Riders

A comfortable, low-cost communication system between cyclist and passenger. Consists of two 2-oz. adjustable headsets which fit under helmets. Sets are connected by lightweight, virtually indestructible acoustical tubing. Provides distortion-free conversation; disconnects instantaneously. All plastic and non-electric—no maintenance required.
17—9233R— 1-Set **$6.98**

PILOT-STYLE GOGGLES

- **Shock-resistant molded rubber housings**
- **Distortion-free optical-quality lenses**

For maximum visibility, comfort. Can be worn with or without a helmet. Soft rubber lining for a close fit around eyes. Adjustable 1" wide rubber strap. Built-in anti-fog vents. Split design shatter and scratch-resistant optical-quality plastic lenses.
02—4265T— .... Each **$9.98**

Seat Belt Style HELMET BUCKLE

- **Choice of black or chrome-plated finish**
- **For either 3/4" or 1" wide straps**

Gets helmet on fast ... keeps it on safely. Comes off in a snap! No lace-type strap-ups. Can't be released accidentally. Easy installation on helmet straps—replaces "D" rings. Steel.

Finish	For 3/4" Straps	For 1" Straps	Each
Black	15—7109N	82—1679A	$3.49
Chromed	15—8669X	82—1680R	3.98

NYLON 2-pc. RAINSUITS

- **Waterproof to keep you dry**

Strong, lightweight. Jacket has a drawstring hood, elastic cuffs, underarm eyelets for ventilation, and 3 roomy flap pockets with snaps. Heavy-duty zipper and drawstring waist for snug, comfortable fit. Full cut trousers have drawstring waistband, snap-closure cuffs.

Deluxe FULL-FACE HELMETS with VENTED CHIN BAR

Sizes for adults & children

Choice of 6 colors

For safety, comfort and good looks! These stylish helmets cover and provide excellent protection for your head and ears during even bad spills, yet are light enough to prevent fatigue. Full-face design covers lower part of face, cheeks, neck and chin while allowing full peripheral vision. Wide eyeport accepts all goggles. Sleek chin bar (see illustration above) has front vents to maximize cool air flow. Inner mesh screen keeps out dirt and dust ... interior part of chin bar is cloth lined for a finished look. Special wraparound ear padding helps seal out fatiguing wind, irritating noise. Black nylon interior lining resists perspiration absorption, cleans easily. Black base and window trim. Custom pinstriping and bold color-coordinated graphics add to overall good looks. Choice of styles for ATV riders or off-road cyclists. Available in adults' or childrens' sizes (see note below) in the following high-gloss solid colors. **Red, White, Yellow, Orange, Blue, Black.** All helmets meet or exceed D.O.T. standards. **IMPORTANT: See How To Measure below, then order from listings underneath.**

DELUXE FEATURES

1. **Molded 1-pc. high-impact polycarbonate outer shell.** Super-tough ... resists punctures and scratches.
2. **Expanded polystyrene inner shell.** Absorbs shocks, impacts contoured for a great fit
3. **Thick foam padding with nylon lining.** Assures a snug, comfortable fit without pressure points.
4. **Wraparound foam-padded ear panels.** Help eliminate wind noise.
5. **Nylon chin strap.** Strong, triple stitched, wide. With sure-hold double D-ring buckle
6. **Vented chin bar.** Described at left
7. **Detachable black peak visor.**

HOW TO MEASURE FOR CORRECT HELMET SIZE. If head measures (figures in row A), order size (figures in row B). Measure around largest part of head with tape measure. If between sizes, order next larger size. Use the chart above to determine head size (helmets must fit snugly). **IMPORTANT NOTE:** For head sizes smaller than listed, order Child's helmet. Children's helmets are not toys. They meet or exceed D.O.T. and Z90.1 standards and have the same construction as our adult helmets, but they are scaled down to fit a 6 to 12-year old child and any adult with a smaller head size. Special instructions and extra sizing pads included.

FULL-FACE HELMETS with SHIELDS

Deluxe Helmet with pinstriping

[C] & [D] **Full-face Helmets.** Wraparound 1-pc. helmets have all features at top of page and more! Cheeks, neck, crown and chin protector are covered with polyfoam padding for added protection. Chin bar adds strength, protects lower part of face. Polystyrene inner shell assures a snug, comfortable fit. Flip-up clear plastic ratchet shield can be operated easily, allows 120° peripheral vision. Built-in spoiler airfoil prevents high-speed airlift. Black leather-grained trim seals edges around base and window. In 6 solid colors. Before ordering, see "How to Measure" below at right.

[C] **Deluxe Helmets.** Custom 3-tone pinstriping (brown, red, gold) completely encircles helmet and chin bar. Chin bar is padded and lined with soft, leather-look black vinyl. Plush, soft light gray trylon helmet lining is easy to clean, breathable, perspiration resistant.

TV & MOVIE POLICE-STYLE HELMETS

[F] **Police-style Helmets.** Similar to helmets seen on popular TV shows and movies! Lightweight, comfortable and strong. Include all the exceptional features above. Plus foam-padded, nylon-lined inner liner to absorb impacts, tensile-woven polyamide chin strap with "D" ring buckle and black snap-on visor that acts as a sun shade. Open ear harness eliminates that "enclosed" feeling, keeps ears cooler and does not impede hearing. Edged in black embossed trim. Before ordering, see "How to Measure" below

HOW TO MEASURE FOR CORRECT HELMET SIZE

IF HEAD MEASURES (FIGURES IN ROW A), ORDER SIZE (FIGURES IN ROW B). Measure around largest part of head with tape measure. If between sizes, order next larger size. Use the chart below to determine head size. **NOTE:** Helmets must fit snugly. **IMPORTANT NOTE:** For head sizes smaller than listed, order Child's Helmet. Children's helmets are not toys. They meet or exceed D.O.T. and Z90.1 Standards and have the identical construction features as our adult's helmets, but they are scaled down to fit any 6 to 12-year old child and any adult with a smaller head size. Special instructions and extra sizing pads included.

ULTRA-STRONG NYLON MOTORCYCLE COVER

Available with Lock

For Cycles With or Without Fairing & Sissy Bar

Water-repellent reinforced nylon

- Parachute-type nylon—tough, yet lightweight
- Compact storage—folds to about 7" x 9" x 4"
- Resists heat damage to 400°F; cold to -40°F

Protect your machine from bad weather with our best heavy-duty cycle cover! High tensile-strength nylon is treated with silicon for water repellency ... yet its micro-porous weave "breathes" to reduce moisture condensation on your bike.

Cover with LOCK

Padlock with elongated hasp reaches through stainless steel wire reinforced grommets (located near bottom edges of cover on both sides) and fastens to secure cover against theft.

Nylon is lightweight and will not fade, shrink, crack or peel under normal use and conditions. Rip-stop nylon will not run if punctured. Easy on/off contoured cover fits snugly with strong elastic cord invisibly sewn in front and rear. Comes with web strap and buckle tie-down. Choice of cover only or cover with lock. Covers with locks shipped from factory, no C.O.D. orders.

CYCLE COVER ALARM TRIGGER

- Ties into your motorcycle's alarm if your cycle cover is disturbed
- Works with any system with accessory capability

Installs easily—sensor harness attaches to cycle cover with pressure-sensitive tape; receptacle harness hooks up to your alarm system with 2 wires. Once system is armed, any attempt to remove cover will activate alarm. Dummy plug permits use of alarm system without cover on. Includes 2 sensors, 6-1/2 ft. of self-adhesive tape, wiring, instructions.
12—3806T— ..... Each $22.95

Heavy & Standard-duty LOADING RAMPS for Cycles

- 1000 & 600-lb. load capacities

Heavy-gauge steel—much stronger than similar aluminum ramps. 15 grated holes improve traction ... 2-1/4" high sides prevent cycle from slipping off. 76-1/2" long x 7" wide overall. Tough black epoxy finish. Not mailable—shipped UPS.
Heavy-duty Ramp. Supports any cycle up to 1000 lbs., no matter how many accessories have been added on.
02—9282T— ..... Each $29.98
Standard-duty Ramp. Supports any cycle up to 600 lbs.
07—0256A— ..... Each $23.98

Custom-fit SNOW PLOWS for 3 & 4-wheel ATVs

- Large blade clears path 4 feet wide

Heavy-duty steel plate bolts easily to ATV frame (can be left on permanently if desired). Heavy-duty square tubular steel subframe bolts to plate, allows easy installation, removal of plow blade—no drilling, welding required. Steel blade (with replaceable wear bar) is 14" high, 3-3/4" deep, 48" wide. Easy-adjust blade mounts for right, left or straight-ahead plowing and is designed to tilt forward and ride over any obstacle. Easy-reach handle lets you raise blade up to 6" off ground. Blade, subframe and plate have weather-resistant baked-on glossy black polyester coating. With case-hardened hardware and pivot areas for long wear, hard use. With instructions. Shpd. in 2 ctns.

BEAD BREAKER for ATVs

• **For ALL sizes of ATV and trailer tires**
• **Economical ... easy to use**

Removes tire from rim quickly without damage to tire, rim or tube. Cadmium-plated steel.
06—2398P— Each $16.98

INNER TUBES for ATVs

Durable heavy-duty synthetic rubber tubes help prevent flat tires caused by tire bead and rim separation due to low recommended ATV tire air pressure. Sizes listed below are diameter x width x rim size respectively.

Tire Sizes	Stk. No.	Each
18x9.50x8"; 21x12x8"	02—3994R	$8.99
22x11x8"	02—3994R	8.99
25x12x9"; 25x13x9"	06—2446X	9.99

RADIAL-PLY KNOBBY TIRES for ATVs

Knobby radial construction provides excellent sidewall flex and stability. High flotation and tall knobs give excellent traction on any terrain. Durable carcass absorbs shocks of off-road riding. Tubeless.

62—1572B—20"x7"x8" Each $38.99
62—1290A—22"x11"x8" Each 38.99
62—1508W—25"x12"x9" Each 58.99

Tubeless TIRE for ATVs

• **A must for mud, sand, snow, any rough terrain**

Combines the features of knobby and chevron tread designs for superior off-road riding. Sand-throwing paddles and shoulder knobs with recessed dimples provide maximum traction in any terrain. Specially engineered carcass and tire compound absorbs shocks. 2-ply nylon cord construction with 4-ply rating. Size: 22" x 12". For use with 8" wide, 8" diam. rims.
62—1575N— Each $49.98

Tubeless TIRES and TIRE/WHEEL ASSEMBLIES for ATVs

Knobby & Chevron-tread Tires. Replace sizes 22" x 11"-8" and 21" x 12"-8". Tough 2-ply nylon cord construction. Long-lasting tread designs allow safe, trouble-free driving and greatest traction on wet or dry surfaces. Knobby tread A provides all-around traction; Chevron tread B is best suited for use on sand, mud and turf. Order tire/wheel assemblies below. 25" x 12"-9" tires and assemblies also available below.

62—1196P—Knobby tread A
62—1197Y—Chevron tread B Each $37.50

Tire/Wheel Assemblies. Includes tires described above on tubeless, multi-bolt pattern, heavy-duty steel 8" diam. x 8.5" wide rims. Wire valve stem. Drop center for easier tire mounting ... bead lock helps prevent blowout at low pressures. Silver painted finish with red pinstriping.

For these bolt patterns: 3-hole on 100mm bolt circle and 4-hole on 110mm bolt circle.
62—1629P—Knobby tread A
62—1630Y—Chevron tread B Each $54.98

For these bolt patterns: 4-hole on 110mm bolt circle and 4-hole on 130mm bolt circle.
62—1631W—Knobby tread A
62—1632U—Chevron tread B Each $54.98

25" x 12"-9" Knobby-tread Tire. Same construction as knobby tread A above.
62—1633B— Each $49.98

Tire/Wheel Assembly. Includes above tire on same style wheel as assemblies above, but with 9" diam. x 10" wide rim. Fits these bolt patterns: 4-hole on 130mm bolt circle and 4-hole on 150mm bolt circle.
62—1634P— Each $74.98

WHEEL ADAPTER for Honda ATC® 90

Adapts your 1974 and earlier ATC 90 3-bolt hub to accept 75-81 3-bolt on 100mm bolt circle.
06—0171T— Each $4.98

High-performance • Lightweight Brushed Aluminum MUFFLERS & SPARK ARRESTOR for ATVs

A Mufflers. Inside diameter and length are the same as stock muffler for maximum horsepower. Hand-rolled, welded baffle is wrapped in fiberglass cloth and body is filled with fiberglass packing to minimize noise and assure packing durability. Includes mounting hardware. Order spark arrestor & repacking material below. Custom fit for the following ATVs only:

Make Year, Model	Stk. No.	Each
HONDA		
81-85 ATC 200X	02—9856U	$44.98
81-82 ATC 250R	02—9857B	44.98
83-84 ATC 250R	02—9858P	44.98
1985 ATC 250R	02—9859Y	44.98
KAWASAKI		
1984 KXT 250	02—9860W	44.98
YAMAHA		
84-85 Tri-Z 250	02—9861U	44.98

B Spark Arrestor. Mounts easily to all mufflers above. Special discs allow muffler to be tuned. U.S.F.S. approved.
02—9862B— Each $19.98

Repacking Material for above mufflers. Repacks one muffler.
06—2739N— Each $6.98

Deluxe • Fleece-lined GUN SCABBARD for All 3 & 4-wheel ATVs

• **Heavy-duty black ABS plastic case, reinforced with steel for extra strength**
• **Soft fleece lining protects your gun against mars**
• **Includes both vinyl AND ABS stock covers**

Carry any rifle (with or without scope) or single-barrel shotgun safely, without fear of damage. Scabbard case locks securely to ATV, resists vibration. Comes with 2 stock covers: adjustable fast-draw black vinyl cover with elasticized closure for snug fit; fleece-lined black ABS plastic cover that locks in place with elastic cord—provides greater protection against rifle damage or theft. Molded-in handle lets you carry scabbard, rifle easily anywhere. Approx. 3-7/8" wide, 10-3/4" high, 34" long without stock cover, 48" long with cover.
07—9999X— Each $79.98

Scabbard with vinyl cover only. Same as above, but does not include ABS stock cover.
07—0179N— Each $59.98

Economy Scabbard with vinyl stock cover (not shown). Similar to above, but does not have fleece lining or ABS stock cover.
07—0181A— Each $39.98

TUBELESS MUD TIRE for ATVs

• **For farm use or anywhere mud is a problem**
• **Wide-spaced knobby treads reduce mud accumulation and packing to assure better traction**

Strong nylon carcass absorbs shocks, resists blowouts. 2-ply nylon cord sidewall construction and 3-ply tread construction. Special compound minimizes deterioration caused by ozone. Size: 22" x 11" x 8". Use with 8" to 8.25" x 8" diam. rim. For off road use only.
62—1576T— Each $44.98

1-pc. STEEL WHEELS for ATVs

• **Choice of 8" or 9" diameter**

12-gauge steel wheels are precision stamped and welded to prevent leaks and breaks—**either tube OR tubeless tires can be mounted.** Race-proven beadlock design helps hold tire bead in place, even with flat or low-pressure, high-flotation tires ... helps increase tire dependability, simplifies and speeds up tire repairs. Specially-formed wheel edge helps reduce stress on tire bead during mounting. Painted finish. Check your bolt pattern **before** ordering. Order valve stem below ♦ Wheel has 2 bolt patterns.

Bolt Pattern	Stk. No.	Each
8" DIAM. WHEELS (8-1/2" WIDE)		
3-hole on 100mm bolt circle AND 4-hole on 130mm bolt circle	♦06—2632B	$14.98
4-hole on 110mm bolt circle AND 4-hole on 130mm bolt circle	♦06—2633P	14.98
4-hole on 130mm bolt circle	06—2634Y	14.98
9" DIAM. WHEELS (10" WIDE)		
3-hole on 100mm bolt circle	06—2635N	23.98
4-hole on 110mm bolt circle	06—2636T	23.98
4-hole on 130mm bolt circle	06—2637A	23.98
4-hole on 150mm bolt circle	06—2638R	23.98

06—2639X—Valve Stem for above Each 49¢

Dipstick-style ENGINE OIL HEATER for All 4-stroke ATVs

• **Warms crankcase oil for faster and easier cold-weather starts**

110-volt, 25-watt heater inserts into crankcase, maintains proper oil viscosity. Specially designed—oil won't overheat, causing premature breakdown. Approx. 10" long heating element is enclosed in a stainless steel housing. With 14" long, 2-wire cord. UL listed.
06—2622T— Each $24.98

Custom-fit • Hi-performance CANISTER EXHAUST SYSTEM for ATVs

• **Quiet canister-style, steel-baffled muffler delivers a deep, mellow tone ... never needs replacing, has no fiberglass to burn out**
• **Bolts on easily—no cutting, drilling, welding**

Designed to help your engine breathe better and run cooler for improved acceleration, better fuel economy and up to 20% increased horsepower. 16-gauge cold-rolled carbon steel tubing with smooth-flow mandrel bends for superior scavenging. Aluminum ceramic coating throughout withstands peak operating temperatures up to 2000° without burning off—won't chip or peel, resists corrosion, cleans easily. System is complete from cylinder head to 12" long x 3-1/2" diam. canister muffler. Exits to rear under seat. Custom fits the following ATVs only:

Make, Year, Model	Stk. No.
Honda	
ATC 90 & ATC 110 thru 1984	02—9820P
84-85 ATC 125	02—9821Y

Above Numbers	Each $64.98

Tubeless Tires & Tire/Wheel Assemblies for ATVs

A - C Tubeless Tires in choice of 3 new generation tread designs. Special 3-ply belted fabric construction at the tread for maximum puncture resistance. Tough 2-ply nylon cord (true tire) construction. Shock-absorbing carcass for smoother riding. Built-in rim guards prevent stones from wedging between tire and rim—tires maintain pressure longer.

A Knobby Tread. Offset dimpled knobs (in various shapes) bite deep for extra gripping power. Ideal for everything from hard recreational use to tough farm chores.
62—1559R—22" x 11"-8" Each $49.99
62—1573P—22" x 11"-10" Each 52.99

B Wedged Chevron Tread. Deep treads for excellent traction in mud or sand.
62—1560X—22" x 11"-8" Each $49.99
62—1574Y—22" x 11"-10" Each 52.99

C Workhorse Knobby Tread. Ground-grabbing offset dimpled knobs (in different shapes) make this the ideal tire for work or recreation. **Size: 25x12-9".** Fits all 9" diam. x 10" wide rims.
62—1558A— Each $59.98

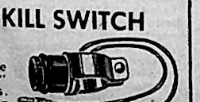

Tire/Wheel Assemblies (not shown). Above tires completely mounted on multi-bolt pattern heavy-duty tubeless design 8" diam. x 8.5" wide steel rims with valve stems, except C which has 9" diam. x 10" wide rim. Drop centers for easier tire mounting and bead lock to help prevent tire blowout at low pressures. Silver painted finish with red pinstriping.

For bolt patterns: 3-hole on 100mm bolt circle and 4-hole on 110mm bolt circle. Tire: 22" x 11"-8".
62—1624A—Knobby tread (A) Each $69.99
62—1625Y—Wedged chevron (B) Each 69.99

For bolt patterns: 4-hole on 110mm bolt circle and 4-hole on 130mm bolt circle. Tire: 22" x 11"-8".
62—1626W—Knobby tread (A) Each $69.99
62—1627U—Wedged chevron (B) Each 69.99

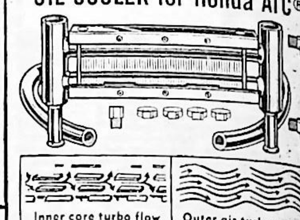

For bolt patterns: 4-hole on 130mm bolt circle and 4-hole on 150mm bolt circle. Tire size: 25" x 12"-9".
62—1628B—Workhorse knobby (C) Each $84.99

ENGINE KILL SWITCH for ATVs

Competition-style switch fits all 7/8" diam. handlebars. With two 5" long wire pigtails.
06—2578X— Each $2.99

Deluxe Custom-fit • Front-mount DUAL-ACTION TURBO-FLOW OIL COOLER for Honda ATC®

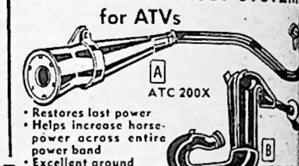

• **Double cooling action reduces oil temperature as much as 15° to 25° ... prevents premature oil breakdown that can cause engine to wear & fail**
• **Increases oil capacity for improved lubrication**
• **Built-in thermostat automatically controls hot oil flow for proper oil temperature**
• **Race track tested and proven**

A must for high-speed driving, climbing hills or prolonged stop-and-go driving (when oil temperatures can rise to 240° to 280°). Cooler has specially engineered louvered aluminum fins that create a cooling air swirl around the oil-carrying tubes. Strong, oil-carrying copper tubes are designed to create a turbulent flow that assures double exposure to the external cooling surface. Keeps oil temperature down, extends oil life (every 20° drop in temperature doubles oil life). Approx. 2-1/2" x 8" x 3/4". Mounts easily on frame down tubes—won't interfere with air flow over engine. Some drilling required. Includes all hardware, instructions.

06—2574W—For 83-85 ATC 200X
06—2575T—For 81-85 ATC 185S, 200S, 200M, 200E Big Red
06—2576A—For 81-85 ATC 90, 110, 125M
Above Numbers Each $39.95

Performance EXHAUST SYSTEMS for ATVs

• **Restores lost power**
• **Helps increase horsepower across entire power band**
• **Excellent ground clearance**
• **Lightweight**
• **Includes quiet brushed aluminum muffler with removable fiberglass-packed core**

A Custom-fit Exhaust System for 83-84 HONDA ATC 200X. Includes cold-rolled 18-gauge carbon steel headpipes with smooth-flow mandrel bends for superior scavenging and high-heat resistant black coating for lasting good looks. 3-1/2" flared muffler exits on right side.
02—9558W— Each $64.[illegible]

B Custom-fit Exhaust Systems for 83-84 HONDA ATC 250R & 1984 KAWASAKI KXT 250. Includes 18-guage stamped headpipe [illegible] 20-gauge stamped steel body (with high-heat resistant black coating) and tapered diffuser. 3-1/2" diam. muffler exits on left side. Each
02—9559U—83-84 Honda ATC 250R $124.[illegible]
02—9560B—1984 Kawasaki KXT 250 124.[illegible]

Custom-fit EXHAUST SYSTEM for ATVs

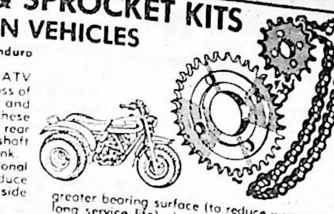

• **Performance tuned to help increase horsepower across power band**
• **Precision built for easy bolt-on installation**
• **Choice of corrosion-resistant chrome plating or high-heat-resistant slate black coating**

Cold-rolled carbon steel tubing is mandrel bent for smooth flow, superior scavenging. Removable steel-baffled sound-dampening muffler never needs replacing—no fiberglass packing to burn or blow out. Megaphone muffler flares to 3-1/2" diam., exits to rear under seat. ATC 90/110 muffler has bullet-shaped end; all others have [illegible] end. Set includes headpipe, muffler, hardware, instructions. Custom fit the following ATVs:

[Com]plete CHAIN & SPROCKET KITS for ALL-TERRAIN VEHICLES

[Avail]able with standard, heavy-duty Enduro [or O-]ring chain

[For] maximum performance out of your ATV [and to prevent] damage to parts and premature loss of [pow]er. Always replace both chain and [sprock]ets at the same time. Kits include these [...] fitting parts: 1 bolt-on aluminum rear [spr]ocket, 1 heat-treated steel countershaft [spr]ocket, correct length of chain & 1 master link.

[Enduro] Chain. Lasts far longer than conventional [chain. Ex]clusive "close-tolerance" plates reduce [...] and prevent unnecessary side [...] operation and [...]

[O-Ri]ng Chain. Ideal multi-purpose chain. Never [needs oil]ing! Custom-engineered neoprene "O" [rings per]manently seal in special bearing pre-lube [...] keep side plates perfectly aligned to [...] efficiency and performance and maximum life. Special extended bushings mean greater bearing surface (to reduce wear and prolong service life) plus the best possible external lubrication and dirt wash out (so vital for efficient operation when chain is used off road).

Kits available for year, make and models listed below **only** and only with sprocket and chain sizes listed. If your year, make and model is not listed, **do NOT order.**

5-INCH REAR AXLE EXTENDERS for ATVs

• **Help increase safety and performance ... improve stability**
• **Easy bolt-on installation—no drilling or cutting, no alterations to hub**

Heavy-duty but lightweight die-cast aluminum extenders add 2-1/2" to each side of ATV for a 5" wider rear axle base. Use with original wheel. Include extra-strong grade 5 mounting hardware. With 3 or 4-hole bolt pattern, depending on your make, year, model.

UNIVERSAL JOINTS for Imported Cars

• **Eliminate excessive vibration**

Complete and ready to install. A worn joint causes excessive vibration that can ruin the rear end and transmission. Replace original perfectly. All bearings, pins and balls are of special heat-treated bearing steel for dependable service. Fit front or rear.

When Ordering, State Make, Year, Model and Stk. No. ♦Converts all cars to the newer, stronger Delrin U-Joint. Kit services right or left side. Complete, nothing else needed. ■Soft metal caps on old joint must be punch-driven or pressed out, yoke inside diam. filed round and new joint staked back in. Note: The stk. no. you ordered may carry a different identification no. on your pkg.

Heavy-duty, Front & Rear STABILIZER/EQUALIZER BARS

• **Improve handling, cornering**

Replaces lightweight original equipment bar or can be added to vehicles not originally equipped. Stops wheel hop, spinning, tire squeal and uneven tread wear. Prevents under-steer and rear wheel breakaway. Equalizes traction to keep both rear wheels on the ground for faster acceleration. Eliminates roll and sway, improves stability in crosswinds. This is the same type axle attachment as those on Ferrari, Avanti, Corvette and Jaguar sports cars. Easy installation. Instructions.

All Alfa-Romeo; All Audi; All Austin Marina, America, Mini-Cooper; All Austin-Healey; All BMW; Capri (see American cars); All Courier; All Datsun; All Dodge Challenger, Colt, Mini truck, Omni; All Fiat; All Ford Cortina, GT & Fiesta; All Honda; Jaguar XKE; 73-77 Jensen Healey; All Lotus Europa; All LUV Pickup; All Mazda; All MG; All Opel; All Plymouth Arrow, Sapporo, Horizon; All Porsche 911, 912, 914, 924; Renault Le Car; All Saab; 75-84 Subaru; All Sunbeam; All Toyota; All Triumph; Volkswagen (see below); 65-84 Volvo (exc. 120 sta. wgn.)

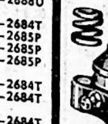

Custom Fit. State Make, Year, Model, If Vehicle has a Sway Bar as Original Equipment, If Vehicle has a Traction Bar and Stock No. On Alfa-Romeo state if for coil or leaf springs. On Triumph TR4A state if for solid or independent rear suspension. On Subaru state automatic or manual transmission. On Volkswagen Super Beetle state chassis number. Note: The stock number you ordered may carry a different identification number on your package.

MacPHERSON STRUT RECHARGE & SUSPENSION TUNING KITS for Imports

- Recharge and repair 2 or 4 MacPherson struts
- Custom tune your suspension & ride
- Save time and save money

This easy-to-install Strut Recharge & Tuning Kit can repair and rejuvenate your MacPherson strut assembly right on your car. Average time for complete installation is less than an hour; no special tools or spring compressors needed. Dismantling the strut assembly is not necessary. Once kit is installed, you can custom tune your car's suspension and ride. Most strut failures are caused by lack of lubrication that occurs when the strut has pumped itself dry. The specially-engineered fluid in this kit contains agents that will stop or reduce seal seepage, plus a metal-conditioning agent to coat and lubricate internal parts of strut. **You get improved handling and a more comfortable ride.** Choice of 3 fluids to let you custom-tune your suspension: **Normal**, duplicates factory suspension stiffness; **Firm**, increases suspension stiffness for improved overall handling; **Extra firm**, greatly increases suspension stiffness for competition. Field-tested kits contain enough fluid for 2 or 4 struts, special magnetic drill, anodized self-tapping sealing plugs, washers. **Kit works only on original equipment MacPherson struts.** Available for the following cars with 2 struts only. ♦ For 4 struts—see below

Arrow	Datsun♦	MG	Sapporo
Audi	Fiat	Mitsubishi	Subaru
Capri	Honda♦	Nissan	Sunbeam
Challenger	Horizon	Omni	Toyota
Champ	Isuzu	Peugeot	Volkswagen

85—5234Y—Normal
85—5235N—Firm
85—5236T—Extra Firm ... 1-Kit **$19.98**

Suspension Tuning Kit—same as above, except for 4 struts.
85—6246A—Normal
85—6247R—Firm
85—6248X—Extra Firm ... 1-Kit **$24.98**

Equal Length PERFORMANCE HEADERS for Datsun and Toyota

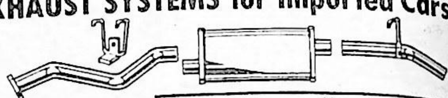

Provides more torque, better gas mileage

- Less gas flow restriction than original manifolds ... even conventional headers!
- Reduces back pressure ... increases horsepower. Installs easily on present exhaust system. Includes header gaskets, collector bolts and nuts. Numbers ending in "F" shipped from factory. No C.O.D. orders.

Make, Model	Stk. No.	Each
Datsun		
All 240Z, 260Z, 280Z w/o smog control	21—3361Y	$99.98

74-78 260Z, 280Z w/smog control	96—4451WF	99.98
Toyota		
82-83 Supra 6-cyl. (bolts directly to front of converter)	97—0614BF	149.98

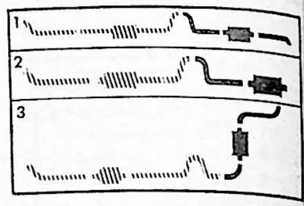

See Index for Additional SUSPENSION PARTS for Imported Cars and Trucks

COMPLETE EXHAUST SYSTEMS for Imported Cars

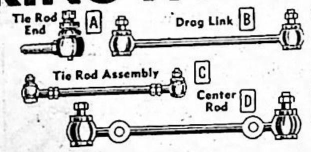

- Double-wrapped galvanized steel muffler shell with overlapped lock-seams for extra strength
- Double-locked end caps prevent leaks, blowouts
- Minimizes noise without sacrificing performance
- Heavy-gauge galvanized steel pipes are compatible with all original systems ... fit exactly, hook up easily to converters, other connections
- Designed for exact fit with factory or replacement parts
- Installs easily with basic tools—no cutting

All kits (except where noted) include ALL NECESSARY EXHAUST SYSTEM PARTS after the catalytic converter/front muffler to the rear of vehicle. ♦Kit includes rear muffler with tailpipe. ■Kit includes components shown in illus. 1. ▲Kit includes components shown in illus. 2. •Kit includes components shown in illus. 3. With mounting hardware, instructions. conv. = catalytic converter; S.W. = station wagon

Free-flow Exhaust SYSTEMS for Imported Sports Cars

Reduces back pressure to give you more power — faster acceleration — better gas mileage — a better performing, longer lasting engine!

- **Custom engineered for your car**

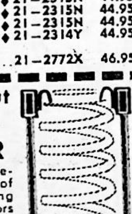

Adds that crisp, powerful sports car tone. Gives your engine back the power that inefficient stock exhaust systems steal away. Heavy gauge steel tubing with bullet-type mufflers. Mandrel bends give smooth exhaust flow. Beautiful, heavy chrome-plated outlets add to custom sports car appearance. Complete with hardware, brackets. ♦Connects to rear of front resonator. All others connect to rear of front headpipe.

Limited (Ownership Duration) Warranty
These exhaust systems are warranted for the life of the car as long as original purchaser owns car upon which exhaust was installed. Should exhaust system fail, it will be replaced free of charge excluding labor cost.

MacPherson Strut COIL SPRING COMPRESSOR

Permit quicker, safer removal and installation of springs when repairing struts. Set of 2 compressors maintain spring curvature, which is necessary to seat springs. Adjust to fit any size MacPherson strut spring except General Motors X, J and A-body cars.
88—7517A— ... 1-Set **$14.98**

TURBO MUFFLERS for Imported Cars, Trucks

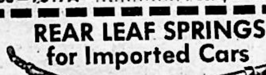

- **Designed for free-flow, low-restriction of exhaust gases without excessive noise**
- **Improve overall performance and increase fuel economy**

Double-wrapped (26-gauge inner, 24-gauge outer) steel casing is galvanized for rust resistance and long life. Lock-seamed casing and spot-welded end caps provide a gas-tight seal. Designed louvered baffles eliminate vibration. Designed reverse flow so mufflers can be inverted.

HEADER ASSEMBLIES for Mazda RX7

- **Reduces back pressure for more efficient engine operation and improved performance**
- **Easy bolt-on installation to stock exhaust—no cutting or welding**

Headers and collectors made of heavy gauge 2" diam. x 120" wall tubular steel, mandrel bent for superior scavenging. Kits include all hardware, instructions. Shipped from factory. No C.O.D. orders.

For 78-80 RX7 with manual trans. Includes 2-tube header and collector (A) which bolts to stock pre-silencer.
97—2732PF— ... 1-Kit **$99.95**

For 81-83 RX7 with manual trans. (exc. with 13B engine). Includes 2-tube header and collector/pre-silencer (B) which bolts to stock tailpipe. No need for an additional muffler.
97—2733YF— ... 1-Kit **$99.95**

See Index for Other Items

Hi-performance • Stainless Steel EXHAUST SYSTEM for Porsche 924 & 944

- **One of the most technologically advanced systems available!**
- **Delivers unsurpassed performance**
- **Dramatically increases horsepower and torque**
- **Precision crafted from pure T304 stainless steel**

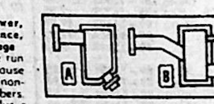

Free-flowing muffler minimizes back pressure to assure top performance through entire RPM range. Tube diameter is matched with bending geometry to increase gas velocity. Inter-cooled extractor tailpipe condenses exhaust gases, virtually sucks them out of engine. System mounts to rear of converter or front muffler. Includes stainless steel clamps and brackets. **When Ordering, State Make, Year, Model & Stk. No.** Shipped from factory. No C.O.D. orders.
78—4381XF—For 924 (shown) ... 1-Kit $399.95
78—4382NF—For 944 ... 1-Kit 449.95

Big-bore "MONZA" EXHAUST SYSTEMS

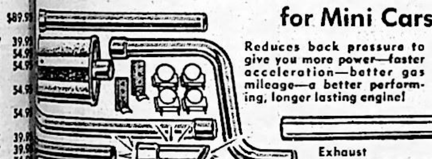

- **2-1/2" fiberglass-packed chromed outlets**
- **Custom engineered to increase horsepower, reduce back pressure, improve performance, insure faster acceleration, increase gas mileage**

High-performance systems help your engine run smoother, cooler and more efficiently, because they properly combine pipe diameters and non-restrictive, sound-absorbing expansion chambers. Designed for maximum exhaust efficiency plus a mellow sound and a stylish look. Heavy 16-gauge tubing, handsomely finished in black wrinkle paint. Chromed tips. Includes all mounting brackets, flanges and instructions for easy installation. Attach to original muffler system or catalytic converter. Some installations require the use of parts of your stock exhaust system. **When Ordering, State Year, Make, Model, Body Style, Eng. Size, With or Without Converter and Stk. No. Note: The Stk. No. you ordered may carry a different identification no. on your pkg.** Nos. ending in "F" shipped from factory, no C.O.D. orders.

MUFFLERS, TAILPIPES and HEADPIPES for IMPORTED CARS, TRUCKS, VANS & SPORTSCARS

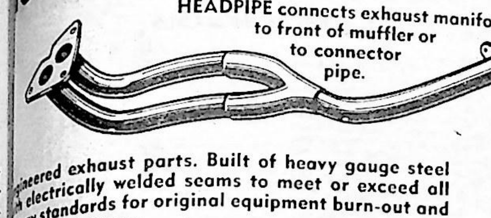

Install a new muffler for better performance.

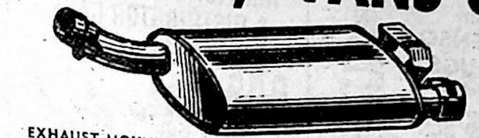

TAILPIPE fits behind muffler and extends to rear of car.

CONNECTOR PIPE connects headpipe to muffler or front muffler to rear muffler.

HEADPIPE connects exhaust manifold to front of muffler or to connector pipe.

- Exact OEM Replacement

Insufficient exhaust systems can rob your car of power, efficiency, and be a safety hazard, filling your car with deadly fumes. Restore the original performance and safety of your car with custom made, custom engineered exhaust parts. Built of heavy gauge steel with electrically welded seams to meet or exceed all factory standards for original equipment burn-out and corrosion resistance.

EXHAUST MOUNTING KITS contain all gaskets, clamps and hangers needed to replace entire system. Makes installation easier. Recommended only when listed. Not available or necessary for all applications.

SHORT BLOCK ENGINE ASSEMBLIES for Imported Cars & Trucks

NO TRADE-IN NECESSARY

Remanufactured to highest standards of quality and workmanship. Block is chemically cleaned, then checked for excessive wear and Rockwell hardness. Engine case is bored, honed, line bored, magnifluxed and surfaced. With these NEW components: oversize pistons, rings, pins; freeze plugs; cam bearings or jackshaft bearings (where applicable). Short block assemblies do **not** include cylinder heads, crankshaft, connecting rods, main or rod bearings, oil pump, gaskets or camshaft ... see Index. Note: Always replace oil pump when replacing engine. **Nos. ending in "E" Not Mailable—See How to Order Page (Truck Shipments).** Avg. shpg. wt. 125 lbs. Shipped from factory. No C.O.D. orders.
HOW TO ORDER: State Make, Year, Model, Engine Size & Serial Number, Engine Designation (A-13, L20B, 18RC, etc.), With or Without Air Conditioning, With Carburetor or Fuel Injection, Automatic or Manual Transmission, With or Without Air Pump & Stk. No. The following information is also required for the vehicles indicated: ♦State Location of Vent Tube (Side or Top) and Dipstick & Oil Filter (Front or Rear). ■State Location of Dipstick (Oil Pan or Block) & Size of Oil Pan Bolts (6mm or 8mm). •State Location of Oil Pump Pickup Tube (Front Timing Case Cover or Engine Block); State Casting Number, One Keyway or Two & Size of Pilot Bushing Hole. ★State Exhaust Position in Cylinder Head (Side or Bottom). †State Oil Pump Pickup Tube Size (0.470" or 0.550"). ‡State Water Pump Mounting (Cast into block or bolted onto block). ▲State No. of Keyways & Flywheel Bolt Holes. *State Type of Connecting Rod (Press Fit, Bushing Type or Offset Type). □State Distributor Location (Head or Block) & if Dipstick is on Oil Filter Side of Block.

Limited (6-month or 6,000-mile) Warranty
Remanufactured engines are warranted for six months or 6,000 miles, whichever occurs first, against defects in materials or workmanship. Factory should be notified in the event warranty service is required. You will be advised by the factory regarding proper handling of warranty claim. Warranty service is available only through the factory from which the engine has been shipped.

ALTERNATORS, GENERATORS & STARTERS for IMPORTED CARS

SOLD OUTRIGHT—NO EXCHANGE NECESSARY
For maximum output and easier starting in all weather. Starters include starter drive and solenoid. Factory rebuilt and tested. Nos. ending in "F" shpd. from factory; no C.O.D. orders. **When Ordering, State Make, Year, Model, Automatic or Manual Transmission, With or Without AC, Original Equipment No. (located on casing of unit) and Stock No. Note: The stock number you ordered may carry a different identification number on your package.** For the following imported cars except diesels:

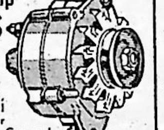

69-81 Alfa Romeo; 72-81 Audi; 63-76 Austin & Austin-Healey; 56-81 BMW; 69-79 Capri; 55-82 Fiat; 48-81 Jaguar; 75-81 Lancia; 50-80 MG; 61-80 M'cedes; 59-79 Opel; 59-82 Peugeot; 52-82 Porsche; 59-82 Renault; 57-82 Saab; 54-80 Triumph; 58-82 Volvo

Alternators.
For all vehicles listed above exc. BMW, 78-82 Fiat, Jaguar, Lancia, Mercedes, Peugeot, 911 and 914 Porsche, 77-80 Triumph and 75-82 Volvo.
55—3522UF— Each **$99.95**
For BMW, 78-82 Fiat, Jaguar, Lancia, Mercedes, Peugeot, 911 and 914 Porsche, 77-80 Triumph, 74-82 Volvo.
55—3523BF— Each **$149.95**
Heavy-duty Alternator for Volvo. Specially wired to prevent voltage drop. Fits all 69-77 Volvo with OEM alternator up to 55 amps.
97—1231UF— Each **$99.95**

Generators.
For all except Austin and Triumph products.
55—3524PF— Each **$99.95**
For Austin and Triumph products with original equipment nos. 22258, 22700, or 22715.
88—7551P— Each **$39.95**
For 56-69 Jaguar.
55—3549XF— Each **$149.95**

Starters.
For all vehicles listed above exc. Austin, MG and Triumph products with original equipment nos. 25022, 25079, 25149, 25083, 25147 and Jaguar.
55—3526NF— Each **$99.95**
For Austin, MG and Triumph products with original equipment nos. 25022, 25079, or 25149.
88—7554U— Each **$44.95**
For Austin, MG and Triumph products with original equipment nos. 25083 or 25147.
88—7555A— Each **$44.95**
For Jaguar.
55—3525XF— Each **$149.95**

Powerful 55/60 Amp ALTERNATORS for Imported Cars & Trucks

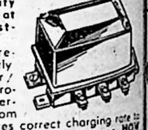

- Upgrade your weak 35, 40 or 50-amp original equipment alternator with an American-made General Motors-type alternator
- Conversion kit allows maximum charging
- Helps extend the life of your battery
- Sold outright—no trade-in required

American-made 55/60-amp (depending on application) alternators deliver sure, consistent charging and peak electrical output. Higher output assures efficient operation of electrical system, even when all accessories are turned on. Easy bolt-on and plug-in installation—no cutting, fabricating or wiring necessary. Works with present voltage regulator. Uses existing wiring and, in most cases, existing fan belt. Includes: alternator that has been fully rebuilt with many NEW parts (including brushes, bearings, rectifier insulators), then tested; pulley; plug-in wiring adapter; brackets & hardware; instructions. For the following cars and trucks:

…IL FILTER CARTRIDGES for Imported Cars, Trucks

Super Clean—LIMITED (7000 MILE/7 MONTH) WARRANTY

…ed to meet all normal filtering requirements of the engine for the specified mileage or time period (whichever occurs first). …covers replacement of filter or refund (labor not included)

…ive Features Protect Your Engine and Warranty at Every Oil Change!

…able resin impregnated paper filter—withstands surges and extreme …pressure—will not split.
…porosity filter element gives maximum filtering efficiency. Traps microscopic particles as small as 1/1,000,000 of an inch, along with sludge and … can penetrate poor seals, broken gaskets and other openings.
…and seals prevent high-pressure oil from by-passing the element. Every … of oil gets cleaned—no contamination can return to your engine.
…collapsible steel inner case withstands high pressure surges, holds filter … and safe for maximum oil flow.
…by-pass valve protects engine against oil stoppage, should filter become …ged.
6 **Anti-drain valve** will not let dirty oil back up into crankcase.
7 **Spin-on filter bottom plate** withstands up to 300 PSI pressure. Gives you a built-in safety margin.
8 **Individually pressure tested.** Each Super Clean Filter is tested at 120 lbs. pressure to safeguard against possible seam leaks.

…**Pleated Filter** (not Super Clean Filter). Micron pleated has a limited 5000 mile/5 month warranty. Pleated paper filters have high absorbency to … clean oil and engine of harmful sludge, dirt, and foreign particles.
…**Explanation of filter types: (1) Insert type of filter; (2) Spin-on type filter.**

FAST START GLOW PLUG SYSTEM for 68-79 Mercedes-Benz DIESELS

…rade your older car with the same system …on the latest diesels. Enjoy faster starts in …weather … reduce battery drain. These …plugs replace originals easily, heat to operat…temperature in just 5 to 8 seconds (unlike the …to 60 seconds for original glow plugs). For …73 Mercedes 220D and 74-79 240D. Set of 4 …plugs and special wiring.
…3885B— 1-Set **$59.95**

NGK Copper Core SPARK PLUGS for Japanese Vehicles

- **Deep-seated copper core gives a much wider heat range to eliminate fouling and burning better than conventional iron-core plugs**

Copper dissipates heat more quickly... cools electrode tip and insulator tip. Prevents hot spots on firing tip that may cause pre-ignition. Choice of regular or resistor plugs. **When Ordering, State Make, Year, Model, Engine Size and Stk. No. Note: The stock number you ordered may carry a different identification number on your package. LIMIT: 8 plugs per customer.**

REGULAR PLUGS for the following vehicles: 72-75 Chevy LUV; 71-75 Colt; 72-76 Courier; 71-75 Cricket; 65-81 Datsun exc. 210 GFU & B210 GFU (see below); 71-81 Honda; 81-84 Isuzu; 71-83 Mazda exc Cosmo, RX7, RX4, RX3, RX2, R100 & Rotary pickup (see below); 83-84 Mitsubishi; 69-81 Subaru; 68-80 Toyota exc. 1980 Tercel (see below).
55—2754U— Each **69¢**

REGULAR PLUGS for the following vehicles: 77-81 Datsun 210GFU, B210GFU; 70-79 Mazda Cosmo, RX7, RX4, RX3, RX2, R100, Rotary pickup; 1980 Toyota Tercel
55—2831P— Each **$1.88**

RESISTOR PLUGS for the following vehicles: 76-85 Arrow; 76-85 Challenger; 79-85 Champ; 72-85 Chevy LUV; 71-85 Colt; 72-84 Courier; 71-75 Cricket; 65-85 Datsun; 71-85 Honda; 70-85 Mazda exc. Cosmo, RX7, RX4, RX3, RX2, R100 & Rotary pickup (see below); 76-79 Opel Isuzu; 78-85 Sapporo; 69-85 Subaru, 68-85 Toyota exc. 1980 Tercel (see below).
55—2755A— Each **89¢**

RESISTOR PLUGS for the following vehicles: 70-78 Mazda Cosmo, RX4, RX3, RX2, R100, Rotary pickup; 79-84 Mazda RX7; 1980 Toyota Tercel.
55—2832Y— Each **$2.39**

ROCKER ARMS & LIFTERS for Imported Cars

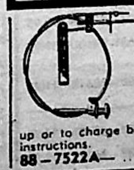

- Replace original equipment perfectly

When Ordering, State Make, Year, Model, Engine Size and Stock Number. ♦Also state engine code (20RC, A13, etc.) Note: The stock number you ordered may carry a different identification number on your package.

ROCKER ARMS
BMW 68-80 All; **Datsun** 68-81 All♦; **Honda** 73-80 Civic, Accord; **Toyota** 75-80 w. 20RC eng.♦
55—3744U— Each **$7.99**

LIFTERS (CAM FOLLOWERS)
Audi 70-81 Fox, 100LS, 4000, 5000; **Datsun** 67-80 B110, B210, 310, 1200♦; **Fiat** 66-73 124 series; **MG** 62-79 MGB (specify 1-1/2", 1-3/4" or 2-3/8" long); **Opel** 71-75 1.9L eng.; **Porsche** 70-76 914 1700cc; **Subaru** 72-76 1300, 1400, 1600 eng.; **Toyota** 67-79 Corolla, Corona♦; **Triumph** 67-79 Spitfire (specify 1-1/2", 1-3/4" or 2-3/8" long), 76-79 TR7; **Volkswagen** 71-82 All air-cooled & water-cooled eng.; **Volvo** 57-81 All
55—3745A— Each **$6.99**

HAND THROTTLE KIT

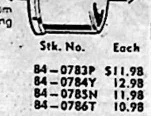

- **Complete remote control of RPM from dash**
- **Prevents flooding, stalling engine on cold mornings**

Set idle speed for fast warm up or to charge battery. Easy to install. With instructions.
88—7522A— Each **$3.98**

CHARGE YOUR ORDER ON YOUR VISA OR MASTERCARD

All Purpose GEAR MOLY

Special compound for transmissions, differentials, steering wheel gear boxes, etc. Gear-Moly has millions of molybdenum "roller bearings" per sq. in., reduces engine heat, friction. Increases power, speed, oil and gas mileage. 8 oz. plastic container. Not for use in automatic transmissions.

16—0070N— Each $3.99

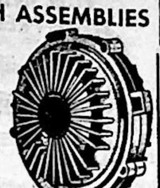

Radiators for 67-84 Imported Cars & Trucks

Complete, ready to install. Same brackets as original equipment, no alterations necessary. New. Long-lasting copper and brass ... include pressure cap and petcock. **State Year, Make, Model, Engine Size (cc's), Vehicle Chassis No. and Manual or Automatic Trans. On Datsun and Toyota products, also state month of manufacture (located on plate on driver's side door frame). On Volvo, also state engine type (B20A, B20B, etc.). On MG products, also state chassis number. Note: The stock number you ordered may carry a different identification no. on your package.** Nos. ending in "F" shipped from factory; no C.O.D. orders. Note: AT = Automatic Transmission, MT = Manual Transmission.

Flame-hardened CAMSHAFTS for Imported Cars and Trucks

• Outlast and outperform "soft" original equipment camshafts — eliminate the need for frequent and costly replacements. Made of process ferrous alloy castings with flame-hardened cam lobes for long life and trouble-free service. Fit perfectly—no modifications to valves, springs or tappets required. Standard grind. Nos. ending in "F" shipped from factory, no C.O.D. orders.

Make, Year, Model	Stk. No.	Each
[illegible]		

FUEL INJECTION PRESSURE TESTER

Lets you adjust fuel pump pressure quickly and accurately. Prevents hose rupture by maintaining correct pressure, indicates if fuel pump is defective or inconsistent in pressure flow. Scale reads 0 to 100 psi and 0 to 7 kg/cm2. For use with AFC, MPC, EFI, DEFI and Bendix type systems. Includes pressure gauge, hose and fittings to hook up to any fuel injection system, instructions.

15—5045T— 1-Kit $19.99

Heavy-duty • 12-volt ELECTRONIC FUEL PUMP for DIESEL or Gas Imported Cars & Trucks

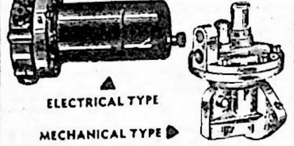

• Gives smooth, quiet operation and precise fuel delivery under all conditions
• Replaces any electric or mechanical pump

Maximum fuel pressure 4 psi. Maximum output: 25-1/2 gallons per hour. Run tested to 400,000 miles. Fully insulated—cannot be damaged by reversed polarity. 5/16" fuel hose nozzles can be adjusted 220°. Heavy-duty non-corroding casing. Includes universal mounting bracket, installation kit and instructions. Fits 12-volt gas & diesel imported cars, and imported trucks up to 4 liters (250 cu. in.). Won't fit Jaguar, MGB or vehicles with fuel injection.

73—6981X— Each $27.95

FUEL PUMPS for IMPORTED CARS

ELECTRICAL TYPE

MECHANICAL TYPE

New fuel pumps replace originals perfectly. Engineered to give longer, more trouble-free service than originals. 50,000-mile diaphragms are treated to resist deterioration from fuel, cold or heat. Heavy, leak-proof castings are tested for correct pressure. When Ordering, State Make, Year, Model, Eng. Size & Type (BRC, BIB, etc.) Manufactured (located on door jamb on driver's side). Note: The stock no. you ordered may carry a different identification number on your package. For vehicles with fuel injection, see Index for fuel injection pumps.

Year, Model	Stk. No.	Each
[illegible]		

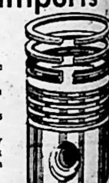

PISTON RING SETS for IMPORTED CARS

Perfect fitting rings with positive control oil rings. Stop excessive oil pumping, loss of compression. Specially treated for quick seating, positive oil control. Restore power and performance. Custom engineered for each make and model. In standard size only. Supplied in sets to service complete engine. NOTE: Standard size fits worn cylinders up to .019 oversize provided engine has not been reboered or honed. HOW TO ORDER: State Make, Year, Model, Stock No.

Year, Make	Bore Diam.	Stk. No.	1-Set
[illegible]			

PISTONS with RINGS & PINS for Imports

Piston complete with matched rings and fitted pins. Tin coated for quick seating ... precision machined to factory specifications. All are available in standard size only, except as noted. Also available in standard & .020 (.5mm), .030 (.75mm) & .040 (1.0mm) oversizes.

IMPORTANT: All prices shown are in eaches; all oversized pistons are sold in full engine sets only.

HOW TO ORDER PISTONS

State Make, Year, Model of Vehicle, Size Desired & Stk. No.
1. If cylinder wear or taper is not more than .005, order standard size.
2. If cylinder wear or taper is more .005, it is best to rebore or hone to next oversize.
3. If cylinders previously have been rebored or honed, do not order standard size. Check size of current pistons (usually stamped on head of pistons).

Make, Model	Bore Diam.	Stk. No.	Each

Diesel Engine FUEL FILTER

Year, Model	Stk. No.	Each
[illegible]	73—3455N	$6.99

FUEL INJECTION PUMPS for Imported Cars

• Rotary vane-type motor
• Outlasts conventional pumps—no bellows, piston or points to wear out
• Draws less amps than OEM pumps

Mounts easily in-tank or in-line and produces a steady, non-pulsating fuel flow ... helps restore fuel injection system to peak operating condition. Features built-in pressure-relief valve, wear-resistant armature bearing and long-life brushes, 12 pole armature, balanced for reduced vibration and noise. Can be used with gasohol. Approx. 6-1/2" long x 1-7/8" diam. Weighs only 1-1/2 lbs. Includes instructions. For all 12-volt systems.

Make, Year, Model	Stk. No.
[illegible]	

Each $69.95

METRIC BOLT, NUT and WASHER KITS

Assorted heavy-duty hex head bolts, nuts and washers.

580-pc. Kit. Bolt sizes from 10mm to 70mm long, with nut and washer diameters from 4mm to 10mm.
14—8147N— 1-Kit $29.98

475-pc. Kit. Same sizes as above.
14—8148T— 1-Kit $24.98

367-pc. Kit. Bolt sizes from 12mm to 70mm long, with nut and washer diameters from 5mm to 12mm.
14—4600X— 1-Kit $19.98

230-pc. Kit. Bolt sizes from 15mm to 55mm long, with nut and washer diameters from 5mm to 12mm.
14—4601N— 1-Kit $17.98

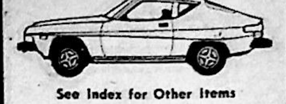

150-pc. Kit. Bolt sizes from 10mm to 30mm with nut and washer diameters from 6mm to 8mm.
14—8149A— 1-Kit $9.98

WATER PUMPS for Imported Cars

- Top quality ... replace original perfectly

Keep the cooling system of your car in top operating condition. Replace or repair worn water pumps with a new (not rebuilt) water pump before expensive damage occurs. Stop pump leaks, save anti-freeze. Pumps listed for cars with auto fan do not include fan clutch mechanism. AC=Air Conditioning. For the following cars:

AUTO MOLY

Contains the miracle "liquid-metal" known as Molybdenum Disulfide (MoS_2) plus amazing acid-barrier magnesium. It's an economical "one-shot" treatment—just add AUTO-MOLY to your crankcase oil. This finest of all lubricants literally plates the vital moving parts of your engine, crankshaft, cylinder walls, pistons, etc., with a microscopic coating of millions of molybdenum "roller bearings." Molecular attraction bonds the molybdenum to metal surfaces. This super-lubricant reduces friction heat and wear .. triples oil efficiency and increases power and gas mileage. Bearings, cylinder walls, pistons, lifters, etc. STAY LUBRICATED to prevent damaging "dry starts" caused by oil draining off after your car has been sitting, even for a few minutes.

ACCESSORIES AND PARTS FOR IMPORTED CARS

DISC BRAKE ROTORS for Imported Cars

- Replace worn, faulty disc brake rotors to restore brake efficiency and safety
- Brake safety experts recommend changing disc rotors every second disc pad replacement or every 25,000 miles

Brake rotors with rough surfaces or with lateral run out result in faulty, chattering brake operation. Restore brake performance by installing a disc brake rotor—custom made to replace original perfectly, and with no alterations. Top quality cast iron construction. Fits left or right side.

Fits front wheels except where otherwise noted. F=Front. R=Rear.

SEMI-METALLIC DISC BRAKE PADS for Imported Cars & Trucks

Resist fade and heat for better than conventional organic pads ... last much longer, too. Provide faster, surer stops in shorter distances for added safety. Prevent loss of braking power due to extremely wet conditions. F=front; R=rear.

Note: The stk. no. you ordered may carry a different identification number on your package.

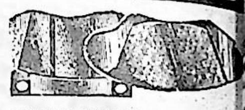

Above Numbers 1-Set **$12.95**

LIMITED (Ownership Duration) WARRANTY

An exchange of disc brake pads will be made (not including installation costs) if disc brake pads wear out while the original purchaser owns the vehicle on which the disc pads were originally installed.

DISC BRAKE PADS for 58-83 Imported Cars

Meet or exceed SAE standards

BIG BRUTE BRAKE PADS

Fine quality pads assure smooth stops, positive pedal action without fade ... will not grab or swerve. Heat-resistant resin base for long life. Top-quality brake material is integrally riveted or bonded to shoe for maximum shear strength. Oil, grease and water resistant. Set of 4 for 2 front or rear wheels. See warranty below. For our best pads, see KAR-LIFE pads at right.

LIMITED (3 YEAR/30,000 MILE) WARRANTY
Full refund or exchange of BIG BRUTE disc brake pads (not including installation costs) if disc brake pads wear out within 3 years or 30,000 miles—whichever occurs first

KAR-LIFE BRAKE PADS

Our best pads—warranted for as long as you own your car. Metal-impregnated base helps eliminate brake squeal and gives greater oil, grease and moisture resistance ... also dissipates heat faster for less brake fade. Linings have more aging material for longer wear. Integrally riveted or fully bonded ... won't shear or separate from metal. Set of 4 for 2 front or rear wheels. See warranty below.

LIMITED (OWNERSHIP DURATION) WARRANTY
An exchange of KAR-LIFE disc brake pads will be made (not including labor costs) if disc brake pads wear out while the original purchaser owns the car on which the pads were originally installed

55—3575B—KAR-LIFE .... 1-Set 6.[illegible]

For 75-83 cars w/semi-metallic disc brake pads as original equipment—see semi-metallic pads in Index.

BRAKE CALIPERS for Imported Cars

- Exact replacement for original equipment
- Precision machined castings and pistons
- Pressure tested at factory.

New calipers include pistons, seals, bleeder screw and dust covers. All are front calipers except those indicated by ♦, which are rear calipers.

When Ordering, State Make, Year, Model Name, Number, Body Style, Front or Rear, 9-1/2" or 12-1/2" High Guard and Stk. No. For Subaru also state if bumper does or does not include impact strip. Note: The stock number you ordered may carry a different identification number on your package.

55—1999W— .... 1-Pair $22.9[illegible]

HEADLIGHT LOUVERS for 84-85 Datsun 300ZX

- Four slats on each louver

Complement and accent the smooth lines on your car and headlights. Black polystyrene slats and frame (secured with no-rust nylon fasteners) can be painted to match car. Easy to install—won't affect functioning of headlights. Remove quickly for headlight cleanups. With mounting screws, instructions. Drilling required.

12—4109A— 1-Pair **$34.98**

Performance HOOD DUCTS for 79-83 Datsun 280ZX

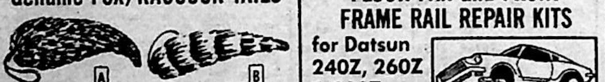

- Similar to scoops on Formula I and Canam racing cars
- Replace original grilles

Add custom styling ... pull more air into engine than standard grilles for better cooling. Black ABS plastic collar with black anodized aluminum vent, satin black accents. Duct for driver's side has cork gasket that acts as heat shield. Easy to install. Note: Not for Turbo models.

12—3374B— 1-Pair **$36.95**

Genuine FOX/RACCOON TAILS

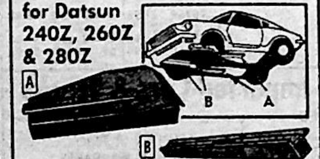

Hang from mirror, antenna, anywhere inside or outside vehicle. Elastic loop.

[A] **Fox Tails.** Lengths vary from 13" to 17".
14—7959U—White
14—7960B—Natural .... Each **$7.99**

[B] **Raccoon Tail.** Natural color only. Approx. 10" to 11" long
14—8279W— .... Each **$4.99**

FLOOR PAN and FRONT FRAME RAIL REPAIR KITS for Datsun 240Z, 260Z & 280Z

Affordable way to repair damaged body parts and to restore structural integrity to your Datsun. Instructions included—welding required. Shipped from factory. No C.O.D. orders.

[A] **Floor Pan Repair Kit for all 240Z.** Includes right and left floor pans, spot-welded floor ribs. Approx. 43-1/2" long, 20" wide at back, 15" wide at top. 18-ga. steel.
97—2367NF— 1-Kit **$129.95**

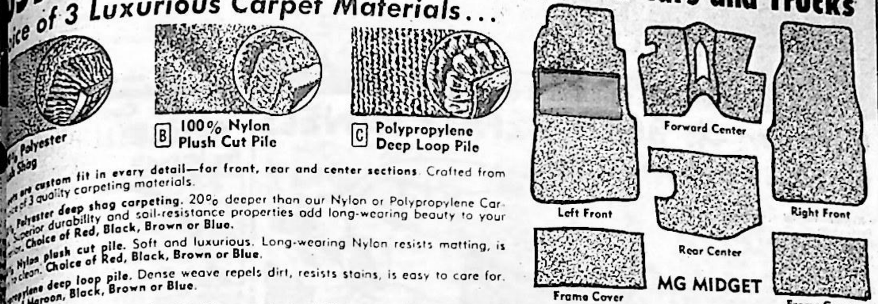

[B] **Front Frame Rail Repair Kit for all 240Z, 260Z & 280Z.** Includes welded 16-gauge steel right and left frame rails and two 18-gauge steel reinforcement plates. Approx. 42" long x 2-1/4" wide rails are pre-drilled for crossmember and sway bar mounting—no need to remove engine to install.
97—2368TF— 1-Kit **$169.95**

[CU]STOM FIT CARPETS for Imported Cars and Trucks

[Cho]ice of 3 Luxurious Carpet Materials...

[A] Polyester Shag — [B] 100% Nylon Plush Cut Pile — [C] Polypropylene Deep Loop Pile

Left Front — Forward Center — Right Front — Rear Center — Frame Cover — MG MIDGET — Frame Cover

[Carpets] are custom fit in every detail—for front, rear and center sections. Crafted from [choi]ce of 3 quality carpeting materials.

[A] Polyester deep shag carpeting. 20% deeper than our Nylon or Polypropylene Car[pets]. Superior durability and soil-resistance properties add long-wearing beauty to your [interi]or. Choice of Red, Black, Brown or Blue.

[B] Nylon plush cut pile. Soft and luxurious. Long-wearing Nylon resists matting, is [easy] to clean. Choice of Red, Black, Brown or Blue.

[C] Polypropylene deep loop pile. Dense weave repels dirt, resists stains, is easy to care for. [Choice] of Maroon, Black, Brown or Blue.

[T]ailored throughout, for perfect fit. All exposed edges fully protected with reinforced [bind]ing. Thick, sound deadening 1/4" polyfoam underpadding is laminated to the front [car]pets, not packed loose. Driver's heel protector pad in matching color. Front means [left and r]ight sides only (does not fit center trans. tunnel section). Center means center trans. [tunnel se]ction only. Rear means left and right sides only (does not fit center trans. tunnel [section]). Complete set means all floor coverage as originally equipped.

ORDERING INFORMATION: State Make, Year, Model; whether Coupe, Hardtop, Convertible, Sedan, Number of Doors, Automatic or Standard Transmission, Stk. No. and Color. Note: The stock number you ordered may carry a different identification number on your package. Nos. ending in "F" shipped from factory, no C.O.D. orders.

Dual SLIDING SIDE WINDOWS Custom Fit for Imported Convertible & Hardtop Sports Cars

Mount on original bracket location. Windows (set on individual tracks) slide open or closed easily with plastic knobs. Heavy-duty, high-impact clear Plexiglas windows are approved in all states. Heavy aluminum frames with chrome-like finish. Flexible vinyl weatherstripping around frames plus tailored-to-fit construction keep interior dry in the worst weather—no leaks, no wind whistles. Include fittings, illustrated instructions. Windows for Triumph also include weather-resistant, heavy-duty black vinyl flaps (see illustration above). **When Ordering, State Make, Year, Model & Stk. No. For Triumph, Also State Regular Spring Side Curtains or Wedge Side Curtains.** (Some 56-58 Triumphs have wedge side curtains—2 metal retaining plates attached to each door permit side curtain brackets to be **wedged** into plates without bolts.) Shpd. from factory. No C.O.D. orders. For the following hardtops & convertibles:

Year, Model	Stk. No.	1-Pair
50-56 Austin-Healey	79—5608AF	$139.95

Custom-fit WHEEL WELL PROTECTORS for Imports

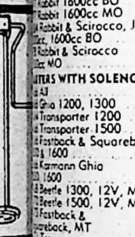

Flexible black vinyl moulding fits around outer and inner surfaces of wheel well arch ... acts as tough extra layer to protect wheel wells. Kit contains enough moulding for all 4 wheel wells plus press-on attaching clips and instructions. For the following imported vehicles:

Alfa Romeo—Alfetta 2.0, GTV, GTV 6/2.5, Spider
AMC—Gremlin, Hornet, Spirit
Aston Martin—Lagonda, Vantage, Volante
Audi—4000, 5000, Coupe, Fox
BMW—2002, 318i, 320i, 325e, 528, 633, 733, M1
Datsun/Nissan—B110, B210, 200SX, 210, 240, 260/280Z, 510, 610, 620, 710, 720, F10, 810, 2000 Roadster, Sentra
DeLorean—All
Dodge—Colt Hatchback
Ferrari—Mondiale
Fiat—124, 126, 127, 128, 131, Strada, X1/9
Honda—Accord, Civic, Prelude
Isuzu—I-Mark, Impulse, Pickup
Maserati—Bi-Turbo
Mazda—RX2, 3, 4, 7, 626, GLC, Cosmo, Mizer, 808
Mercedes-Benz—230, 240, 250, 280, 300, 380, 450, 500
Mercury—LN 7, Lynx
MG—Midget Sprite
Opel—Manta
Peugeot—504, 505, 604
Porsche—911 (state if Turbo), 914
Plymouth—Arrow (exc. pickup), Champ
Renault—Le Car, R14, 15, 17, 18, Encore, Fuego
Subaru—GL, DL (4WD), Brat
Triumph—Spitfire/GT6, TR6, TR7/8
Volkswagen—Bus, Dasher, Fastback, Jetta, Quantum, Rabbit (w/o plastic fender arch covers), Rabbit Pickup, Scirocco, Squareback, Vanagon
Volvo—144/145/164 Series 1800E

When Ordering, State Make, Year, Model & Stk. No. Note: The stock number you ordered may carry a different identification number on your package.

55—3190P— 1-Kit $34.95

Replacement JACK for Volkswagen

• **For all Volkswagen Beetles, Squarebacks, Fastbacks, buses & Porsche 914**

Duplicates factory equipment. Extra-strong steel construction. Lift range: 0 to 15-1/2". Complete with crank handle and rubber stop to protect car's body.

14—4031N— Each $19.95

Chrome-plated or Stainless Steel Generator Cover for 47-74 Volkswagen

Snaps securely over existing cover ... dresses up engine compartment. Vents prevent generator burn-up.

72—0920B—Chromed steel Each $6.[illegible]
72—0919U—Polished stainless steel 7.[illegible]

Waterproof DISTRIBUTOR and COIL COVER KIT for Volkswagen

Great for Baja Bugs with exposed engines or for off-road use. Helps prevent shorting due to moisture. Fits all mechanical Bosch distributors and coils for Volkswagens. Includes 1 distributor cover and 1 coil cover.

73—5316X— 1-Kit $2.49

Hi-performance ELECTRONIC IGNITION SYSTEM for VOLKSWAGEN

• **Total system includes brushless solid state electronic ignition plus high-performance centrifugal advance distributor!**

Centrifugal-advance distributor with cap and rotor replaces original perfectly. Delivers faster power curve advance to assure consistent peak power ... than original for quicker, smoother acceleration than original distributor. Eliminates vacuum chamber and possible diaphragm failure. Complete instructions included for easy installation. Works with popular tachometers. Complete system—fits all stock or modified 55-79 Beetle, Super Beetle, Bus, Transporter; 56-74 Karmann Ghia; 63-74 Fastback, Squareback; 73-74 Thing with 12-volt negative ground ignition systems.

73—5472Y— 1-Kit $69.95

Replacement FUSE BOXES for 75-84 Volkswagen

Replace original perfectly. Complete for easy installation. All terminals are marked like original units. Order fuses below.

73—5282A—For 75-77 Each $44.95
73—5283R—For 78-83 Rabbit, Dasher, Scirocco, Jetta, Audi Fox and 4000 Each $39.95
74—8035R—For 1984 Rabbit, Dasher, Scirocco, Jetta, Audi Fox and 4000 Each $49.95

10-pc. Fuse Kit. Includes 7 of style GBC-8-amp fuses and 3 of style GBC-16-amp fuses.
74—6957W— 1-Kit 89¢

Transparent PULLEY COVERS for Air-cooled Volkswagen

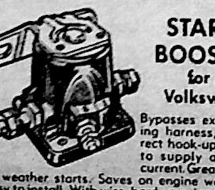

• **Dresses up 12-volt generator or alternator**

Finned "turbo" design for strength. Tough molded plastic won't fade or discolor. Easy bolt-on installation. For a complete custom look, use with transparent distributor cap (see Index).

74—8078R—Yellow
74—8079X—Blue
74—8080N—Red
74—8081T—Clear Each $3.49

STARTER BOOSTERS for All Volkswagen

Bypasses existing wiring harness, gives direct hook-up to starter to supply a stronger current. Great for quick, all weather starts. Saves on engine wear & gas. Easy to install. With wire, hardware, instructions.

73—2892P—For 6-volt
73—2893Y—For 12-volt Each $9.99

ALTERNATOR CONVERSION KIT for 67-73 Volkswagen Sedan & Transporter with 1600cc Engine

• **Converts 30-amp generator system to 51-amp alternator**

Includes new alternator, stand, strap, backing plate, spacer ring and fan backing plate. For 12-volt upright engines only. With instructions.

74—7818R— 1-Kit $87.95

SATISFACTION GUARANTEED or MONEY BACK

Dress-up • Chrome-plated HIGH-OUTPUT IGNITION COIL for 67-78 Volkswagen

• Delivers up to 40,000 volts ... assures faster starting, better overall performance
• Provides a hotter, more consistent spark ... reduces misfire and spark plug fouling

Tough alkyd resin shell (with brilliant chromed outer cover) is oil filled to keep windings cool and provide peak performance at all engine speeds. Built-in resistor. Includes chromed bracket. For all 67-78 12-volt Volkswagen with air-cooled engines.

73—9153P— Each $17.95

Fiberglass WIRING COVER for Volkswagen Beetle

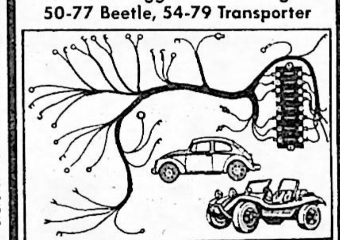

• **Tough fiberglass won't rot or corrode**
• **Replaces original cardboard wiring cover BEFORE trouble starts—avoids costly repairs**

Easily installed on all Volkswagen Beetles except Super Beetle. Some drilling required.

18—6020B—For Beetles thru 1967
18—6021P—For 68-78 Beetles
Above Numbers Each $21.95

WIRING HARNESS KITS for Dune Buggies & Volkswagen 50-77 Beetle, 54-79 Transporter

Contains everything needed for a complete bumper-to-bumper wiring job except battery and spark plug cables. Helps assure proper operation of headlights, ignition switch, horn and other electrical equipment. Quality copper wire with plastic-covered looming. Color-coded for easy identification. Includes all terminals, loom fasteners and instructions.

WIRING HARNESS KITS FOR DUNE BUGGIES. Include 8 or 6-pole fuse block, fuse block cover and fuses. Fit all dune buggies using Volkswagen, Porsche or Corvair frames and engines. 1-Kit
88—8938Y—w/8-pole block (shown) $49.95
88—4289P—w/6-pole block 39.95

WIRING HARNESS KITS FOR VOLKSWAGEN. Fuse block not included—order below.

For the following 1200 Beetles:
81—1115X—50-52
81—1116N—1953

IGNITION PARTS & SWITCHES for All Volkswagen

Distributor Caps for the following: ♦55-74 Karmann Ghia; ♦55-79 Beetle, Super Beetle; ♦55-82 Bus, Transporter, Vanagon; 65-74 Fastback, Squareback, 411, 412; 73-74 Thing; ■73-83 Dasher, Rabbit, Scirocco, Jetta; 73-82 Quantum. **See how to order below.**
55—2839T— Each $2.98

Distributor Cap and Rotor Kits. For the following vehicles with electronic ignition: 80-81 Dasher; 80-83 Rabbit, pickup, Scirocco; 81-83 Jetta, Vanagon; 1982 Quantum.
73—9145W— Each $3.99

Tune-up Kits. Include points, condenser and rotor (except where noted). For the following air-cooled vehicles: ♦55-70 Bus, Transporter; ♦55-74 Karmann Ghia; ♦55-79 Beetle, Super Beetle; 65-74 Fastback, Squareback, 411, 412; 71-80 Bus, Vanagon (rotor not included); 73-74 Thing. **See how to order below.**
55—2840A— 1-Kit $3.98

Tune-up Kits as above for the following air-cooled vehicles: 73-80 Dasher; 75-80 Rabbit, Scirocco. **See How to Order below.**
55—2841R— 1-Kit $3.98

Heavy-duty Ignition Coil	Stk. No.	Each
49-66 all 6-volt	73—9146U	$7.98
67-78 all air-cooled 12-volt	73—3813N	5.95
74-82 Dasher, Rabbit, Scirocco, Jetta (w/o electronic ign.)	73—3598B	5.95

Electronic Ignition Module. For 80-82 Volkswagen & Audi products. Replaces OEM #211-905-351.
73—4746W— Each $44.98

Electronic Ignition Coil. For 80-82 Volkswagen products. Replaces OEM #211-905-115B.
74—7957N— Each $7.98

Combination Ignition Switch & Lock. For 59-7/66 Beetle, Ghia. For 6-volt. With 2 keys.
73—5645R— Each $9.95

Ignition Switch with pigtail. Does not include key and tumbler. For 12-volt only. Not for Super.
73—5650R—8/66-70 Beetle, Ghia Ea. $9.95
73—5650R—1970 Type III Fastback Ea. 9.95
73—5647N—1971 Beetle, Ghia Ea. 11.95

Stop Light Switches. Exact replacements.
2-prong Switch for 63-69 Beetle, Bus, Karmann Ghia, Transporter Each $1.99
74—7319Y—
3-prong Switch for 70-78 Beetle, Super Beetle, Bus, Fastback, Karmann Ghia, Squareback, Thing, Transporter, 411, 412. Each $2.98
74—7320W—

Alternator Bushing Kit (not shown). For all Audi and Volkswagen water-cooled engines.
72—0878B— 1-Kit $2.29

HOW TO ORDER: State Year, Model, Engine Size, Std. or Automatic Transmission and Stock Number. ♦On 61-65 Models, also state Bosch or Volkswagen distributor (check identification plate on your distributor). ■On 75-80 Dasher, Rabbit and Scirocco, also state with or without screw-on type distributor cap terminals. Note: The stock number you ordered may carry a different identification number on your package.

Fast Start GLOW PLUG SYSTEM for 77-81 Volkswagen and Audi Diesels

Upgrade your older car with a system similar to the one used as original equipment in the newest diesel cars! Enjoy faster starts, especially in colder weather. These special glow plugs heat to operating temperature in 3 to 7 seconds—not the 30 to 60 seconds required for original equipment glow plugs! Easier on your battery and on you. Control unit and glow plugs (4 for Volkswagen, 5 for Audi) install easily ... replace original equipment components. Changing glow plugs is as easy as changing spark plugs in a gasoline car. For the following diesels:

For Audi 79-80 5000.
90—3874W— 1-Kit $69.95

For Volkswagen 79-80 Dasher and 77-81 Rabbit including pickups.
90—3873Y— 1-Kit $59.95

SPARK PLUG AIR SEALS for Volkswagen

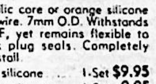

Increases heater and defroster efficiency. Includes 4 neoprene air seals, spark plug terminals, and wire terminal ends. For all Volkswagen air-cooled engines.
74—6846A— 1-Kit $2.19

SPARK PLUG CABLE SETS for 55-84 VOLKSWAGEN

Restore hot spark, fast starting, top performance and economy. Include pre-cut cables, coil wire, distributor nipples and air seals.

High Performance—our best

For all 55-78 Volkswagen exc. 411, 412 (Type IV). Choice of yellow silicone with metallic core or orange silicone with radio-suppressed wire. 7mm O.D. Withstands temperatures to 450°F, yet remains flexible to -65°F. Snap-in spark plug seals. Completely assembled, ready to install.
74—8030P—Yellow silicone 1-Set $9.95
74—8031Y—Orange silicone 1-Set 9.95

For 74-81 Dasher & 75-84 Rabbit, Scirocco, Quantum (4-cyl.), Jetta. Yellow silicone with radio-suppressed wire. 7mm O.D.
74—8032W— 1-Set $9.95

Resistor Type

• **Eliminates radio interference without voltage loss**

Copper wire for hot spark to plugs. Insulation resists heat, cold, gas, oil—stays flexible. Built-in heat-resistant bakelite resistors, brass connectors.

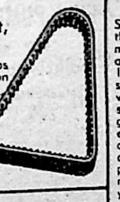

For 55-78 Beetle, Super Beetle, Bus, Transporter.
88—3338W— 1-Set $5.98
For Dasher & Audi Fox.
88—7879N— 1-Set $6.98

Hypalon Insulated

Stand up longer than ordinary cables. Hypalon stays flexible, won't harden and crack—gas, oil, grease, air & moisture resistant. For 55-78 Beetle, Super Beetle, Bus and Transporter.
74—6547N— 1-Set $4.29

TIMING BELT for Volkswagen Rabbit, Dasher and Scirocco

Replaces original perfectly. Helps restore proper valve and ignition timing.

For gasoline engines.
38—0333A— Each $7.95
For diesel engines.
88—9874U— Each $14.95

Air Conditioner Compressor Mounting Bushing Kit for Audi, Porsche, Volkswagen

A must when installing a new air conditioner compressor. Replaces original bushings ... helps prevent rattles, vibration and fan belt damage caused by worn or faulty originals. Includes 2 rubber bushings, metal insert and washer. For all 79-84 Audi, Porsche and Volkswagen with air conditioners. Note: Depending on application, 3 to 6 kits are required to mount compressor.
38—0839X— 1-Kit $2.99

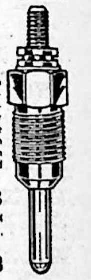

ADJUSTABLE MAIN JET for SOLEX CARBURETORS to fit VOLKSWAGEN

A must when engine or exhaust modifications are made for correction of fuel mixture. Allows ignition advance of approx. 5°.

	Stk. No.	Each
50-67 w/PICT-28, 30, 30-1	73—1851X	$5.98
66-74 w/PICT-30-2, 30-3, 32	73—1852N	5.98
71-74 w/PICT-34	73—1849A	5.98

GLOW PLUGS for Volkswagen Diesels

• **For more reliable winter performance**

Reach operating temperature up to 25% faster than OEM plugs. Tip begins to glow and reaches a temperature of 1500°F a few seconds after you turn the switch. This heats the air/fuel mixture in the combustion chamber to help assure fast starts in cold weather. Fit 78-80 Dasher and 77-81 Rabbit 1500cc, 1600cc diesels.
90—3586W— Each $5.98

Replacement Glow Plugs. Fit 81-84 Dasher, Quantum 1600cc diesel, 82-84 Rabbit, Jetta 1600cc diesel.
90—3663T— Each $7.98

REPLACEMENT CARBURETORS for Volkswagen

• **Improve gas mileage**
• **Help restore operating efficiency**

For automatic or standard transmission. With electromagnetic or automatic choke and gaskets. For 12-volt systems only.

Carburetor with electromagnetic choke for 67-69 Beetle 1500. Replaces 30 PICT-1, 2, 3
73—7034U— Each $119.95

Carburetor with electromagnetic choke for 71-74 Beetle and Super Beetle. Replaces 34 PICT-3, 4. With idle cut-off switch.
73—5804B— Each $139.95

Carburetor with automatic choke for 67-74 Beetle, Super Beetle, Ghia, Thing and 68-70 Type II Bus & Transporter. Replaces all Solex-type PICT 30/34. With idle cut-off valve, adapter kit and hardware.
73—6744R— Each $69.95

2-stage • 2-bbl. • Progressive Carburetor Conversion Kits for All Volkswagen incl. Rabbit

Get 1-bbl. economy...2-bbl. performance!

Specially designed carburetor has a primary throttle bore of 26mm (for better drivability and gas mileage over stock 28mm single-bbl carburetor) and a **secondary** throttle of 27mm. Gives you 1-1/2 times the volume of original carb for high-speed operation ... ends over-carburetion of conventional carbs at low speeds. Increases top speed in every gear ... improves acceleration and gas savings in lower ranges. Includes carburetor, electric choke (on air-cooled models) or water choke (on water-cooled models), cast aluminum carburetor adapter, chromed air cleaner with replaceable paper element (except where noted), all new large-diameter fuel line and hardware—all you need are a screwdriver and 2 open end wrenches (1/2" and 13mm). Easy to install—no need to replace intake manifold. Air cleaner gives adequate clearance for deck lid to close.

For 54-70 Beetle, Karmann Ghia, Transporter and Bus.
73—6233T— 1-Kit $139.98

For 71-74 Type I, Beetle, & 1971 Type II, Bus, Transporter (exc. fuel inj.).
73—6985Y— 1-Kit $139.98

For 72-74 Type II, Bus, Transporter w/411 eng. (Fuel injection to carb. conversion, includes manifold & runners.)
73—9148P— 1-Kit $189.98

For all Rabbit and Scirocco (exc. w/auto. trans. & fuel injected). For stock water choke vehicles. Air cleaner not included.
73—6268R— 1-Kit $149.98

For all Rabbit and Scirocco (exc. w/auto. trans. & fuel injected). With electric choke conversion. Air cleaner not included.
73—6939N— 1-Kit $149.98

Replacement Air Filter Element for above.
73—3872A— Each $2.98

Manual Choke for above Models. Includes all parts and instructions.
74—7159Y— 1-Kit $6.49

FOR PARTS AND ACCESSORIES NOT SHOWN—SEE INDEX

See Index for Other Items

2-stage • 2-bbl. Fuel Injection to Carburetion CONVERSION KITS

for Volkswagen Type III, Type IV and Porsche 914/4

High-performance carburetor kits provide:
- 1-bbl. economy with 2-bbl. performance
- Increase top speed in every gear
- Improved acceleration
- Gas savings in lower speed ranges
- A great cure for your troublesome and costly stock fuel injection

For all 64-73 Volkswagen Type III Fastback and Squareback.

73—5405Y 1-Kit $169.95

For all 70-74 Volkswagen Type IV 411, 412 and all 70-75 Porsche 914/4.

73—5406W 1-Kit $189.95

CARBURETOR PRE-HEATING PIPE

for 60-74 Volkswagen Cars & Trucks

For all 60-74 Volkswagen. 89—2695R .... Each 79¢

For all 61-74 Volkswagen. 73—6060P .... Each $2.49

Replacement CARBURETOR

for 78-83 Volkswagen Rabbit

- Complete with electric choke & cut-off valve

73—7083A .... Each $169.98

FUEL INJECTION PUMP RELAY

for Audi & Volkswagen

Replaces original perfectly

- N & P Transaxle Drain & Fill Plug Hex Socket and Key. 14—4216B .... Each $2.99
- Q 17mm Hex Key. 14—3010X .... Each $2.99
- R 1/2" Drive 36mm Socket. .... Each $5.99
- S Axle Nut Installer/Remover. 15—8846A—36mm .... Each $8.89; 15—8847R—46mm .... Each 8.89

SWIVEL BASE VALVE ADJUSTING SCREWS

for Volkswagen

37—8589A 1-Set $14.95

Stainless Steel VALVES

for Volkswagen

37—8703Y .... 1-Set of 4 $17.95

38—0260W .... 1-Set of 4 $17.95

Lightweight Nylon PUSH ROD TUBES

for Volkswagen

37—6690R .... Each $2.49

Aluminum Alloy Push Rod Tubes

38—0472X .... Each $5.69

VALVE COVER GASKETS

for Audi and Volkswagen

- 38—0840N—1975 Rabbit, Scirocco
- 38—0841T—76-84 Dasher, Fox, Jetta, Rabbit, Scirocco (with 6mm holes)
- 38—0842A—76-84 Dasher, Fox, Jetta, Rabbit, Scirocco (with 8mm holes)

Above Numbers .... Each $1.69

Chromed PUSHROD TUBES

for 66-78 Volkswagen

38—0838R 1-Set $13.99

Electric FUEL PUMPS with Block-off Plate

for Volkswagen

FUEL INJECTORS

for Volkswagen

COMPLETE OVERHAUL GASKET SET

for 54-83 Volkswagen Engines

"Bolt-on" increased horsepower and displacement!

87mm BIG BORE CYLINDERS & PISTONS

for VOLKSWAGEN 1300 & 1600 Series

$84.98

88—6093U 1-Set $84.98

Replacement Piston Rings for above. 81—0653Y 1-Set $13.49

GET MORE POWER WITH HIGH COMPRESSION! BIG-BORE CYLINDERS & PISTONS

for 60-79 Volkswagen

LOW AS $57.95 Set

HIGH-PERFORMANCE CAMSHAFTS & KITS

for Volkswagen Types I, II, III and IV

CRANKSHAFT KITS

for Volkswagen

No exchange necessary

Camshafts, Connecting Rods, Rod & Main Bearings

for 59-78 VOLKSWAGEN

"Round Port" • High-performance Dual Port CYLINDER HEAD ASSEMBLIES for Volkswagen

96—5065TF 1-Pair $179.00

96—5066AF 1-Pair $179.00

Big Bore BORING TOOL

for Volkswagen

Remanufactured CYLINDER HEAD ASSEMBLIES

for Volkswagen and Audi

96mm BIG-BORE CYLINDERS and PISTONS for Volkswagen Transporter, 411, 412 and Porsche 914

88—8699W 1-Set $179.98

Power CRANK PULLEY

with DEGREE RING for Volkswagen

37—4323R .... Each $12.98

37—2599P .... Each $29.98

88mm BIG-BORE CYLINDERS & PISTONS

for Volkswagen 1500 and 1600 Series

38—0789U $109.98

81—0654W 1-Set $13.49

CYLINDER HEAD ASSEMBLIES

for Volkswagen Gas & Diesel Water-cooled Engines

Chrome-plated Steel CYLINDER SHROUDS

for Volkswagen

CYLINDER HEAD TEMPERATURE GAUGE

for All Volkswagen Air-cooled Engines

14—7493U 1-Kit $64.98

Dual Oil Cooler Adapter Kit

for All Air-cooled Volkswagen thru 1969

73—7075X 1-Kit $16.98

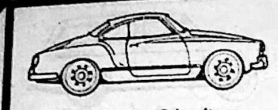

Increase oil pressure & volume up to 45%

Extra-heavy-duty OIL PUMPS for Volkswagen

OIL COOLERS

for Volkswagen & Porsche Engines

CHARGE YOUR ORDER ON YOUR VISA OR MASTERCARD

MOST COMPLETE SELECTION OF ACCESSORIES and PARTS TO FIT

OIL PRESSURE SWITCH for 54-85 Volkswagen

Replacement switch installs easily.
For 54-79 Air-cooled engines.
74—7427R— .... Each 99¢
For 74-85 Water-cooled engines.
74—8036X— .... Each $1.79

Chromed OIL FILLER TUBE for Volkswagen

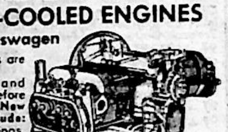

Replaces unsightly stock oil filler perfectly ... dresses up engine. A must for that "performance" look. For all Beetle, Ghia, Fastback, Squareback, Transporter.
38—0780T— .... Each $5.98

Complete OIL CHANGE KIT with STRAINERS for Volkswagen

Complete with everything needed to guard against leaks when changing oil. Kit includes enough parts to service 2 oil changes: oil drain plug, bottom plate, 2 gasket sets, 2 washers and 2 strainers. For all 61-78 Volkswagen with air-cooled engines.
73—4763A— 1-Kit $6.98
Same as above except without strainers. For these Volkswagen:
88—5926W—54-60 36HP
88—5927U—61-78 w/air-cooled eng (exc. 411, 412 & 72-75 Transporter)
Above Numbers 1-Kit $2.98

Remanufactured AIR-COOLED ENGINES for Volkswagen

All engines are pressure checked and test run before shipping. **New parts include:** pistons, rings, main, rod and cam bearings, intake and exhaust valves, valve guides, push-rods, pushrod tubes, shims, gaskets, oil pump, spark plugs. **Remanufactured parts include:** engine case, crankshaft, connecting rods, camshaft, cam followers, timing gear, cylinder heads, rocker arm assemblies, flywheel. **When ordering, give all information requested in the listing below and stock no.** Shipped from factory. No C.O.D. orders. Avg. shpg. wt. approx. 200 lbs. **Not Mailable—See How To Order Page (Truck Shipments). Note: The stk. no. you ordered may carry a different identification no. on your pkg.**

For 60-65 Type I and Type II 1200cc 40 HP Sedan, Karmann Ghia and Transporter.
97—2131NFE— .... Each $729.00

For 66-70 Type I 1500 and 1600cc Sedan and Karmann Ghia. 12 volt.
97—2132TFE—Std. trans .... Each $749.00
97—2133AFE—Auto. trans. .... Each 749.00

For 70-78 Type I Sedan only. Dual port engine. **State std. or auto. transmission, carburetor or fuel injection.**
55—3606NFE— .... Each $799.00

For 64-67 Type II 1200/1600 Transporter. (Note. This engine has been modified to replace the 1300, 1500, 1600cc Type II engines.) Standard transmission. 12 volt.
97—2138PFE— .... Each $749.00

For 68-71 Type II 1600cc Transporter. Standard transmission. Carburetor engine. **State single or dual ports in engine.**
55—3606NFE— .... Each $799.00

For 72-73 Type II 1700cc Transporter. Carburetor engine. Standard transmission.
97—2141UFE— .... Each $1299.00

For 67-73 Type III 1600cc Fastback, Squareback. Fuel injection. **For 1968 state engine number found on crankcase at oil pump.**
55—3606NFE— .... Each $799.00

1600cc Remanufactured Engines

Extra power for your 66-70 1300cc or 1500cc Beetle, Karmann Ghia or Transporter! Single or dual-port engines available (order conversion kit below for dual-port engines). For 12-volt systems. Shpd. from factory. No C.O.D. orders. Avg. shpg. wt. approx. 200 lbs. **Not Mailable—See How to Order Page (Truck Shipments).**

Fits	Single Port	Dual Port
66-70 Beetle, Karmann Ghia	96—8119NFE	96—8120TFE
66-70 Transporter	96—8121AFE	96—8122RFE

Above Numbers .... Each $829.00

Dual-port Engine Conversion Kits. Includes everything needed (3-pc. intake manifold, cylinder head shrouds, boots, clamps, etc.) to install a dual-port 1600cc engine in 66-70 12-volt Beetle, Karmann Ghia or Transporter.
For use with original Solex 30 carb.
37—9363P— 1-Kit $74.95
For use with series 34 carb (original equipment on dual-port engines).
37—9364Y— 1-Kit $74.95

Limited (12 Month or 12,000 Mile) Warranty
Remanufactured engines are warranted for TWELVE months or 12,000 miles, whichever occurs first, against defects in materials or workmanship. Factory should be notified in the event warranty service is required. Warranty service is available only through the factory from which the engine has been shipped.

OVERSIZE OIL (Sump) PAN for Volkswagen

Helps keep oil temperature down by increasing oil capacity up to 2 quarts. Increases bearing life. Prevents oil starvation during hard cornering, high speeds, heavy hauling or hot weather. For street or competition. Deep-finned cast aluminum. With gaskets, hardware, instructions. For all Beetles, Super Beetles, Karmann Ghia, Transporter, Fastback, Squareback (exc 411 & 412)
37—7181Y—1-1/2 qt. .... Each $49.95
37—6842W—2 qt. .... Each 54.95

Oil & Grease Seals for Volkswagen

Wheel Seals. For 49-79 Beetle, Super Beetle (front or rear); 68-74 Fastback, Squareback (front); 75-84 68-84 Transporter, Vanagon (front or rear), 75-84 Rabbit, Scirocco, Dasher (rear).
Crankshaft Seals. For 53-76 all Beetle, Super Beetle
Transaxle Mainshaft Seals. For 53-79 Beetle, Super Beetle, Fastback, Squareback.
When Ordering, State Year, Model, Seal Type (wheel front, wheel rear, crankshaft, or mainshaft seal) and Stk. No. Note: The stk. no. you ordered may carry a different identification number on your package.
55—3656P— .... Each 99¢

Chromed OIL BREATHER CAPS for Air-cooled Volkswagen

[A] **Smooth-dome Cap.** Replaces original breather cap on Beetle, Super Beetle, Karmann Ghia Transporter, Fastback and Squareback.
37—6996P— .... Each $1.95
[B] **Cap with finned cover.**
37—8919P— .... Each $2.49

Extra-long & Standard DIPSTICKS for Volkswagen Air-cooled Engines

Chromed Extra-long Dipstick. Handle is 8" longer than stock handle, lets you check oil without getting burned on custom exhaust.
85—9350Y— .... Each $3.99
Chromed Standard-length Dipstick.
85—9351W— .... Each $3.59
85—9394W—Stock Dipstick .... Each $3.29

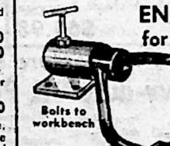

ENGINE CASE INSERTS for VOLKSWAGEN

- **Replace worn or stripped threads in Volkswagen air-cooled engine cases**

81—0577R—8mm I.D. x 14mm—2.0 O.D.

For 75-83 Rabbit & Pickup including diesel and turbo diesel. 339 pages. A detailed comprehensive service manual. Everything from periodic maintenance to major repair covered in depth. Hundreds of photos, drawings, charts.
16—6855T— .... Each $7.99

For 75-83 Scirocco. 326 pages. Complete information on maintenance, repair and overhaul. Hundreds of photos and drawings.
16—6856A— .... Each $7.99

For 49-71 Beetle, Karmann Ghia, Bus, Fastback and Squareback. 223 pages.
16—6618N— .... Each $7.99

For 70-81 Volkswagen. 291 pages. Covers 70-79 Beetle, Super Beetle & Transporter; 70-74 Karmann Ghia, Fastback & Squareback; 80-81 Vanagon; 71-72 411 and 73-74 412
16—6619T— .... Each $7.99

For 74-80 Dasher & Rabbit, 75-80 Scirocco, 1980 Jetta all models, incl. diesel. 288 pages. Repair and Tune-up Guide.
16—6551Y— .... Each $7.99

COOLING SHROUD AIR INTAKE SCREEN for All 1970 & Earlier Air-cooled Volkswagen Eng.

- **Won't restrict air intake**

Increases air inlet surface area. Clamps securely to shroud lip. Heavy wire mesh screen, extruded rubber base and stainless steel clamp.
84—0629N—Chrome finish .... Each $5.98
84—0628X—Black painted finish .... Each 5.49

SHIFTER COUPLING for Volkswagen

Replaces worn or damaged original perfectly ... helps assure positive gear shift operation.
For 54-64 Beetle and Karmann with manual transmission. Not shown.
38—0879T—
Each $3.99
For 65-78 Beetle, Super Beetle, Karmann Ghia, Thing and 68-79 Transporter with manual trans.
38—0880A—Shown .... Each $8.99

Heavy-duty • Ball Bearing-type CLUTCH RELEASE BEARING for 47-78 Volkswagen Cars & Transporter

Replaces original carbon-type bearing perfectly with no alterations. Assures smoother operation with reduced effort, extends life of clutch assembly. With retainer spring clips.
89—2046N—For 47-70 .... Each $8.98
88—6401R—For 71-78 .... Each 8.98

Porsche-type Heavy-Duty DIAPHRAGM PRESSURE PLATE for 47-78 Volkswagen

Improve your stock or modified Volkswagen's performance. Diaphragm design increases holding power ... minimizes slippage and chatter to provide longer life and improved acceleration. Smoother, more efficient clutch operation, with less wear and tear on drive train components. Bolts in without modification.
Fits 47-66 Beetle, Ghia and 54-61 Transporter, 180mm.
85—6050X— .... Each $24.98
Fits 67-70 Beetle, Ghia and 62-70 Transporter, Fastback, Squareback, 200mm.
85—6051N— .... Each $26.98
Fits 71-78 Beetle, Super Beetle, Ghia and 71-73 Transporter, F'back & Squ'back, 200mm.
85—6052T—
Each $34.98

Replacement MUFFLER for 66-73 Volkswagen Type I Beetle & Karmann Ghia

- Easy to Install—no alterations

Quality engineered to exact factory standards. Special louver design breaks up noisy sound waves. The result: a super-quiet muffler with minimal back pressure. **Note:** location of heat riser tube (see arrow) may be different on muffler you receive; this will not affect installation or operation of muffler and heat riser. For all 66-73 Type I Beetle and Ghia (exc. 72-73 with automatic transmission) See Index for tailpipes and installation kits.
89—8995X—
Each $16.98

Fiberglass-packed Tapered MUFFLER TIPS for 55-74 Volkswagen & Ghia

Change annoying exhaust whistle to a low pleasant sound. Tips measure over 2" in diameter at large end, taper to about 1-3/8". Easily installed. Fit 55-74 Type I Beetle and Ghia.
89—2138P— 1-Pair $19.98

Chromed • Fiberglass Packed TAILPIPES for Volkswagen

Heat-resistant fiberglass effectively silences exhaust noise. Easily installed—replaces original perfectly on 55-74 Volkswagen passenger cars except Fastback and Squareback.
81—1294P— .... Each 99¢

Heavy-duty PRESSURE & CLUTCH PLATE for Volkswagen & Dune Buggy

For Positive Getaway—Rapid Acceleration
Pressure plate is stronger than stock plate to give you more torque from clutch for positive getaway, rapid acceleration. For racing, rallying or heavy duty on-or-off road use. Ferile iron throwout bearing collar is steel backed to prevent pressure plate fingers from eroding the cast iron material. Gives trouble-free operation and longer service under the most rugged driving conditions. Heavy-duty spring center clutch plate stops clutch chatter and jerky starts. Increases transmission life. Ready to install. Replace original perfectly. (See below for clutch release bearing.)
PRESSURE PLATE.
81—0243Y—Fits 67-70 Beetle, 62-70 Transporter, Fastback & Squareback .... Each $24.95
81—0244W—Fits 71-78 Beetle .... Each 29.95
CLUTCH PLATE. Fits 67-78 Beetle, 62-70 Transporter, Fastback & Squareback.
81—0245T— .... Each $9.98
CLUTCH RELEASE BEARING. Heavy-duty ball bearing type.
81—0246A—Fits 67-70 Beetle, 62-70 Transporter, Fastback & Squareback .... Each $8.98
81—0247R—Fits 71-78 Beetle .... Each 8.98

Heavy-duty • Spring-center CLUTCH PLATES for Volkswagen & Karmann Ghia

- **Better than original**

STOPS clutch chatter and jerky starts ... assures fast get-away, smooth clutch action. Replaces original rigid-type clutch plate perfectly. Long lasting full molded lining riveted to spring steel disc. Spring-loaded hub cushions shock to eliminate harsh, chattering shifting. Helps increase life of transmission, gears and other drive line parts.
Fits 54-66 1200, 1300 series Beetles, Ghia and 54-62 Transporters.
89—6172N— .... Each $9.98
Fits 67-78 1500, 1600 series Beetles, Ghia and 63-70 Transporters.
89—6173T— .... Each $9.98

CIS Throttle Body Conversion for Fuel-injected Audi, Porsche & Volkswagen Cars

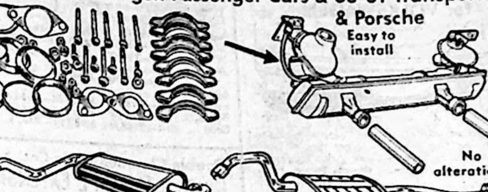

- **Replaces stock throttle body ... dramatically improves throttle response, torque, horsepower**

Oversized 70mm throttle plate is 35% larger than stock for increased air intake. Precision machined with sealed throttle bearing shafts and a vacuum port for stock vacuum advance distributor. Bolts on easily without hood modifications ... retains use of stock air cleaner. Kit includes throttle body, special T/B adapter, gaskets and hardware. For fuel-injected Audi 5000 & Fox, Porsche 924 and Volkswagen Rabbit, Scirocco, Dasher
73—7020T— 1-Kit $89.95

"GT" Style MUFFLER with Built-in HEATER BOXES for Volkswagen

- Provides the classic European "GT" look without sacrificing heat
- Heavy-duty quiet muffler with minimum restriction, low back pressure
- 4 chromed, glass-packed exhaust tips

Looks especially great on kit cars. Built-in rear heater boxes improve heating efficiency. For all 1300 1600cc Type I Beetle, Ghia and Type II Bus, Transporter.
21—3358U— 1-Kit $34.88

Stainless Steel EXHAUST EXTENSION PIPE with Spring-loaded Ball Joint Flange for Volkswagen

- Prevents cracking of exhaust components due to movement of transverse-mounted engine
- Strong 304 grade stainless steel resists rust, corrosion

Precision-formed ball and socket assures gas-tight seal. Installs easily—no modifications necessary. Fits 75-82 Volkswagen Rabbit, Scirocco, Jetta & pickup with gasoline engine.
For above vehicles without catalytic converter (shown).
24—1912X— Each $39.95
For above vehicles with catalytic converter.
24—1913N— Each $39.95

Heat Your Dune Buggy Plus INCREASE Horsepower Split Header DUAL EXHAUST for DUNE BUGGIES using 63-73 Engine with Fresh Air Heater

Custom lightweight system works with existing heater box. Smooth, 1-1/2" diam. free-flow mandrel bent tubing. Joints heli-arc welded. Raised pipes give maximum ground clearance. Straight-thru fiberglass packed mufflers have 2" louvered inner core. Easy to install, no cutting or welding. Heat riser flanges are retained. With split-header exhaust pipes, two 15" long mufflers with flared CHROMED TIPS, heater hoses, gaskets and instructions. Fits all dune buggies with 63-73 Beetle or Karmann Ghia engines equipped with fresh air heater systems.
21—1772Y— 1-Set $42.95

Dual Megaphone HEADER EXHAUST for Dune Buggies with 54-73 Volkswagen Engines

Competition styled to give you all the performance advantages of a dual exhaust system: increased gas mileage and horsepower, longer engine life, improved acceleration. You also get substantially increased ground clearance and easier accessibility to other engine components. Chrome-plated, mandrel-bent, heavy-duty 18-gauge tubing.
21—3074X— 1-Kit $49.95
Muffler Inserts for above. 4 required.
22—5206B— Each $7.98

HEADER EXHAUST SYSTEM to fit 63-73 Volkswagen

A good, low-cost exhaust system engineered to reduce back pressure for increased horsepower and mileage. Includes a non-detachable, 12" long chambered, quiet muffler. Equipped with chrome tailpipe. Fits all 63-73 Beetles, Karmann Ghias and all 63-71 buses.
21—3034A— 1-Kit $34.95

HEADER EXHAUST SYSTEM for 52-74 Volkswagen and Porsche

An exhaust system tuned for maximum performance with a detachable muffler. System is accurately tuned and is of equal-length design, popular in today's hi-performance cars. All tubing is heavy-duty 18-gauge steel, 1-1/2" O.D. and wrinkle-free mandrel bent. Equipped with a DEEPTONE FIBERGLASS PACKED BULLET MUFFLER AND 9" FLARED CHROME TAILPIPE. Muffler has 14-gauge seamless steel case and will not rust or blow out. Perforated, straight-through core gives deep mellow tone. Muffler can be detached from system for wide-open sports car sound, easily re-installed at any time. Custom fabricated for perfect fit without alteration. Allows use of stock heat exchangers. All headers below have 3-bolt flanges. With gaskets, instr.

For 62-74 Type III, Fastback, Squareback.
24—1803Y— 1-Pair $16.98

Hi-rise HEADER EXHAUST for Volkswagen Dune Buggies

CHROMED TIP

UNIQUE TEE-PEE STYLE

Equal-length tubes mount above engine ... give maximum ground clearance, assure extra horsepower due to extractor effect. Hi-performance exhausts with chromed 11-1/2" long (2-7/8" diam. maximum) megaphone stinger. Mandrel-bent 1-1/2" tubing for free scavenging. Flange is 32" above exhaust ports. Competition tuned to give lowest ET's. Bolts to head. With hardware, instructions. Order muffler below for street use. Fit exposed body dune buggies with 61-73 1200, 1300, 1500, 1600 Beetle & Ghia eng. Does not fit 411.
21—2334W— 1-Kit $32.95
Deep-tone Fiberglass Muffler. For use with above. Necessary for street use. Chromed tip.
22—5218X— Each $11.98

Tuned DUAL EXHAUST SYSTEM with Chromed Zoom Mufflers for Dune Buggies & Kit Cars with Volkswagen Engines

GET MORE HORSEPOWER AT THE WHEELS!

Split header exhausts give an independent exhaust for each bank of the engine. Pipes are tuned for high performance. Heavy-duty 18-ga. tubing is mandrel bent for free scavenging. Large 3" diam. all chromed muffler is packed with chopped fiberglass. Powerful-looking 20" long muffler is streamlined bullet shape and has slant cut end for deep-throated sound. 14-ga. seamless steel case will not rust or blow out. Heat riser flanges are retained. Easily installed—no cutting or welding. Includes gaskets, instructions. Fits all 54-76 upright Volkswagen engines.
21—1839N— 1-Kit $57.95
Exhaust System. Same as above but zoom mufflers exit below bumper for all covered engine compartments. Allows full use of stock heat boxes. For all 1963 & later upright Volkswagen engines.
21—3359B— 1-Kit $99.95

DYNO-TUNED DUAL-HEADER EXHAUST for VOLKSWAGEN

GLASS-PACKED DETACHABLE MUFFLERS

GET MORE HORSEPOWER

- Dyno-tuned and of equal-length design for high performance
- Choice of all chrome-plated system or black finished system with chrome-plated mufflers

Four individual free-flowing tubes form 4 precision chambers and merge into dual outlets for a super-scavenging effect that will give precise exhaust tuning. Heavyweight 18-gauge tube is mandrel bent, wrinkle free. Triple chrome-plated 14-gauge seamless steel mufflers are packed with chopped fiberglass and have bullet shape and slant cut for pleasant, deep-throated sound. Large 3" mufflers won't rust or blow out, detach for strip or off-road travel. Choice of triple nickel/copper/chrome-plated system or black painted system with chromed muffler. With gaskets, instructions. Custom fit the Volkswagen Beetles & Ghias (exc. 411) at right without alterations:

Year, Engine	All Chromed	Black/Chromed
61-63 All to eng. #7336420	21—1783N	21—1782X
63-65 All from eng. #7336421	21—1781R	21—1780A

Above Nos. 1-Kit	$69.95	$49.95

Chromed Replacement Muffler for above, 2-bolt flange. Fits right or left side.
22—4514P— Each $16.95
Dyno-tuned Header above with single chromed zoom muffler. For 66-73 Type I Beetle, Ghia, 63-71 Type II Bus, Transporter.
21—3360P— 1-Kit $49.95
Chromed Replacement Muffler for above.
22—5712R— Each $24.95

High-performance • Stainless Steel EXHAUST SYSTEM for Volkswagen Jetta, Rabbit, Scirocco & Pickup

Designed with these quality features to assure exceptionally high horsepower and high torque:
- Matching diameter tubes (with geometric bends) to increase gas velocity
- Free-flow muffler that minimizes back pressure for best performance over entire RPM range
- Extractor tailpipe with a unique inter-cooled device that condenses exhaust gases and virtually sucks exhaust out of your engine

All components made of rust and corrosion-proof T304 stainless steel. Includes exhaust extension pipe with spring-loaded ball-joint flange to prevent exhaust cracking or damage caused by movement of transverse-mounted engine. Easy bolt-on installation to stock headpipe of all 75-82 Volkswagen Rabbit, Scirocco, Jetta & pickups (with or without converter) with gas engine. Includes stainless steel clamps, brackets. Shipped from factory. No C.O.D. orders. When Ordering, State Make, Year, Model & Stk. No.
78—4383TF— 1-Kit $289.95

Upper Front STRUT MOUNT for 75-84 Rabbit, Scirocco & Jetta

- A must when installing new strut cartridges

Replaces original perfectly ... stops rattles, bumping caused by a worn original mount.
85—8916X— Each $19.98

SPLIT HEADER DUAL EXHAUST SYSTEM for DUNE BUGGY

Fits all dune buggies with Volkswagen or Karmann Ghia engines

Get more horsepower with this lightweight custom system. Raised pipes for maximum ground clearance for on-or-off the road use. Smooth wrinkle-free 1-1/2" diameter mandrel-bent tubing for maximum free flow of exhaust and increased scavenger action. All joints heli-arc welded for long, trouble-free service. Straight-thru fiberglass-packed mufflers have 2" louvered inner core to reduce back pressure. Have a low, deep pleasant sound. Heat riser flanges are retained. Easily installed—no welding necessary. Set includes two 15" long glass-packed mufflers with chromed tips flared to 2-1/2", split header exhaust pipes, gaskets and installation instructions. Fit all Dune Buggies with 54-73 upright fan Volkswagen or Karmann Ghia engine.
Chromed Headers (shown).
21—1621X— 1-Kit $56.95
Painted Headers w/chromed tips (not shown).
21—2331B— 1-Kit $39.95

DO-IT-YOURSELF & SAVE

FRONT COIL SPRINGS for 74-84 Rabbit & Scirocco

- Replace originals perfectly

Restore car level to original ... help stop bottoming ... assure smoother, safer, more comfortable ride. Order damping hose below.
For 74-79 Rabbit, Scirocco (exc. diesels) with round headlights.
85—8694P— 1-Pair $29.95
For all 79-84 Rabbit and Scirocco (exc. diesels) with rectangular headlights.
85—8695X— 1-Pair $29.95
Damping Hose. Stops noise. Simply slip over springs wherever coils touch. 28" long.
85—8285X— Each $3.49

Big Bore "Monza" EXHAUST SYSTEMS for 63-83 Volkswagen

- Increases horsepower, acceleration and top speed
- Custom engineered with 2-1/2" fiberglass-packed chromed outlets

Eliminate back pressure and exhaust restriction by replacing your original exhaust system with this finely engineered and tuned free-flow system. Allows engine to breathe more efficiently. Heavy 16-gauge steel with non-restrictive sound-absorbing expansion chambers. Black, heat-resistant wrinkle finish. Designed to meet specific car and engine requirements. Replaces original perfectly—no alterations.

Deluxe SEAT UPHOLSTERY KITS
CUSTOM TAILORED for 1928 thru 1960 EARLY AMERICAN CARS—2 or 4-door Sedans, Touring Cars, Coupes or Roadsters

Your Choice of Deluxe Materials
[A] Wool Blend Mohair Weave — [B] Brown Weave Fabric — [C] Channeled Leather Grain

Custom-made upholstery kits renew and enhance car interior. Matching materials available at additional cost (see below) to recover doors, quarter panels and headliners. All seat upholstery kits have channel pleats over vinyl foam padding for extra comfort and classic beauty. Trimmed with leather-grain piping. Complete, easy instructions. Choice of 3 materials. For the cars listed. See ordering information below. IMPORTANT NOTE: THESE UPHOLSTERY KITS ARE MADE TO ORDER AND ARE NOT SUBJECT TO RETURN FOR REFUND EXCEPT WHERE DEFECTIVE.

[A] Wool Blend Mohair Weave. Long fibers and 1/8" high pile in a smooth, velvet-like texture. Not 100% mohair. 54" wide with 3" wide channel. Choice of Gray or Taupe.
[B] Brown Weave Fabric. Like original fabric of some Model A's. 3" wide channel.
[C] Channeled Leather Grain. Heavy-duty vinyl looks and feels like genuine leather. Waterproof ... resistant to abrasion, scuffing, oil and gasoline. Wipes clean with a damp cloth. 2-3/4" wide channel. Choice of Brown, Black, Red, Gray and Ivory White.

TOP MATERIAL & PADDING for Early Model Cars

[A] **Long-grained Black Top Material.** Tough, durable. Looks just like original. Heavyweight 40-oz. per yard. 64" wide.
91—0101W—1-1/2 yards ... Each $12.95
91—0102U—2-1/2 yards ... Each 21.95

[B] **Short-grained Black Top Material.** Similar to material used in early model convertibles & hard tops. Durable, 40-oz. per yard. 54" wide. **State No. of Yards Desired.** Minimum order—2 yards. Shpd. from factory. No C.O.D. orders.
78—3585UF— ... 1-Yard $12.95

Top Padding. Essential for proper retopping of cloth-topped cars. Provides support and shape. 1/4" thick cotton felt pad with white glazed sizing on both sides. 32" wide x 6 yards long—cut to size. Also for insulating door, side panels. **For 28-31 Ford "A" and other antique & classic cars.**
91—0165A— ... Each $4.79

Retopping Kits. For installing top materials above on flat-top Model "A" Fords and other classic cars. Includes sufficient wire-bend hiding welt with 4 plated ends and screws, caulking strips, drive and screw nails, instructions.
15—2650T—For coupes ... 1-Kit $11.49
15—2651A—For 2 or 4-dr. sed. ... 1-Kit 13.99

COILS for Ford T or Tractor

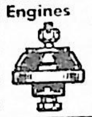

Genuine K.W. vibrator button type. Complete with coil, points.
16—0195P— ... Each $31.95

POINTS for Model T Coil.
45—0754R— ... 1-Pair $4.49

SPARK PLUG (Champion "X"). Duplicate of original with brass top.
90—3352T— ... Each $6.99

Replacement MOTOR MOUNTS for Fords with Flat-head Engines

Set of 2 mounts fits 32-41 Ford cars and trucks (rear mount), 32-48 Ford cars and trucks (front mount) and 49-51 Ford trucks (front mount)
37—4192Y— ... 1-Set $9.95

CHAMPION SPARK PLUGS for Ford Model "T", "A", "B" with 4-cyl. Engine

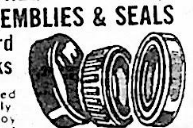

- DUPLICATE OF ORIGINAL!
- Complete with authentic brass top

Preserves or restores the authentic look of your car ... assures faster starts, smoother running.

Champion X Plug for Model "T".
90—9506Y— ... Each $6.99

Champion 3X Plug for Model "A" and "B".
90—9505P— ... Each $6.99

FRONT WHEEL BEARINGS, RACE ASSEMBLIES & SEALS for 28-48 Ford Cars & Trucks

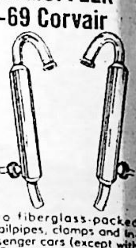

Replace damaged originals perfectly. High-grade alloy steel. Fit front wheels of these vehicles: 28-31 Ford Model A, AA, B, 32-48 Ford V8; 28-48 1/2, 3/4-ton trucks.

Wheel Bearings. Tapered roller bearing design.
38—0695T—Inner ... Each $6.49
38—0697R—Outer ... Each 6.49

Race Assembly.
38—0696A—Inner ... Each $3.99
38—0698X—Outer ... Each 3.99

Wheel Grease Seal.
38—9990R— ... 1-Pair $3.79

HEADERS & DUAL MUFFLER System for 60-69 Corvair

- Reduces back-pressure — increases horsepower and top speed—improves gas mileage!

Economical way to get improved, sports car performance from your Corvair! Dual muffler system eliminates congestion of crossover pipe and stock mufflers—allows exhaust to flow freely. Kit includes two fiberglass-packed mufflers, exhaust pipes, tailpipes, clamps and instructions. Fits 60-69 passenger cars (except with Supercharger) and 61-65 station wagons and trucks.
21—1697X— ... 1-Kit $29.95

Exhaust Header Kit. Complete with U-pipes, clamp, instructions (mufflers not included). For all 60-69 Corvair (exc. station wagon, Vans, Corsa and Spider).
21—3135W— ... 1-Kit $39.95

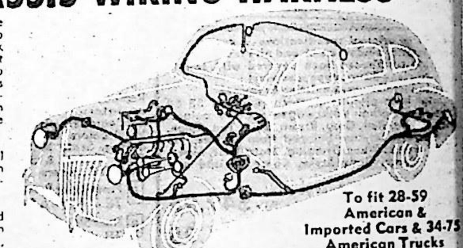

Squeal-resistant BRAKE LINING for Cars and Trucks

Ideal for older cars. Tough, long-wearing asbestos and brass combined with special resins. Brass eliminates glaze on drum to stop squeal. Linings must be cut, drilled and counter-sunk. Woven brake linings. See Index for rivets. 25-ft. roll.

COMPLETE BODY & CHASSIS WIRING HARNESS

To fit 28-59 American & Imported Cars & 34-75 American Trucks

Rewire Your Vehicle From Bumper to Bumper. Replace worn, frayed, defective wiring with this complete wiring harness set. Contains everything needed to completely rewire your vehicle from bumper to bumper (except battery and spark plug cables). Electrical equipment, such as starter, solenoid, ignition switch, light switch, lights and other electrical components will operate at peak efficiency to insure driving safety and prevent premature breakdown. These deluxe harness sets are made of top-quality copper wire with plastic covered looming and include all terminals and loom fasteners. Easy-to-read color-coded wiring diagram insures fast accurate installation. Harness is factory tested to insure positive circuitry and quality.

IMPORTANT
These harness sets are designed to service vehicles equipped with directional signals and sealed beam headlights (either original equipment or conversion sealed beam kits). If installed on vehicles without sealed beamlights, old headlight connectors and terminals must be used.

NOTE:
On 34-39 Ford cars and trucks, harness is designed for use with dash mounted universal headlight switch. Will not service original bottom of steering column cup design. ♦ Dash & engine compartment wiring only. AT = Automatic Trans., MT = Manual Trans.

ORDER BY PHONE

(312)431-6102

Charge-It On Your Visa or MasterCard

ORDER BY PHONE
24 HOURS A DAY
7 Days a Week!

It's Fast & Easy to Order by Phone. Here's how...

1. Please write your order on one of the order blanks bound in this catalog and have the filled-in order blank before you when you phone. This will let us handle your order faster.
   This is the information we need to fill your order:
   (A) The number of the catalog from which you are ordering (printed on top of front cover and on the backbone of the catalog).
   (B) Stock Number, description and page number for each item you are ordering.
   (C) Make, Year and Model of the vehicle for which you are ordering the merchandise.
   (D) Any additional size, color or vehicle information requested in the catalog copy for the item(s) being ordered.
   (E) And, of course, your name and address.
2. CHARGE IT on your credit card! Just give us your VISA or MasterCard account number.
3. That's all there is to it. Our trained order taker will rush your order into processing for prompt shipment to you by the fastest method.

CUSTOMER ORDER INFORMATION: PLEASE WRITE should you have any questions regarding an order already placed. Our **TELEPHONE OPERATORS DO NOT HAVE THE INFORMATION** at hand to answer your inquiries, check stock, or answer questions about merchandise in the catalog. You will receive a complete response when you write to this address:

J. C. Whitney & Co. • P.O. Box 8410 • Chicago, IL 60680

It's Easy and Convenient to Order by Mail

Fill out one of the easy-to-use self-mailing order blanks bound in the back of this catalog. **Please give all of the following information when ordering:**

(1) **Give catalog number.** You will find it on our front cover or on the bound side of the catalog from which you are ordering.

(2) **Your name and complete address including your Zip Code.** If this is a new address, please also give us your old address and zip code. If you want your order shipped to a different person or address, write this in the space below your own address.

(3) **Vehicle information.** Give year, make, model of your car, truck, motorcycle or other vehicle and any additional information we requested to supply you with the correct item.

(4) **HOW TO ORDER MERCHANDISE:** Give page no., stock no., quantity, description and price of each item. Give size or color if required to fill your order.

(5) Add up amounts in the Total Price column and enter total in the Total for Goods space.

(6) **Add E-Z Rate Amounts** for shipping, handling and assured safe delivery. **See E-Z Rate instructions and Chart and Zip Code Table on this page.**

(7) Illinois Residents add 7% Sales Tax.

(8) Add any amount you owe from a previous order (enclose due bill).

(9) Total all above items and remit this total with your order.

HOW TO SEND MONEY: The best way to send money is your own personal check, post office money order, express money order or by bank draft or check. The mail carrier will buy a post office money order for you if you live on a Rural Route. Do **NOT** SEND CURRENCY OR STAMPS.

C.O.D. ORDERS

We do not recommend ordering by C.O.D. because of the high extra C.O.D. charges and delays of 1 to 3 days that you will incur. If you specify C.O.D. shipment, send a 25% deposit with your order. **Items having stock numbers beginning with 76-, 78-, 79-, 96-, 97- or 99- cannot be ordered C.O.D.**

C.O.D. CHARGES

Value of Order	C.O.D. Fee	Money Order Fee	Total Add'l Cost for C.O.D.
$ 0.01 Up To $ 10.00	$1.20	$0.75	$1.95
10.01 Up To 25.00	1.50	0.75	2.25
25.01 Up To 50.00	1.80	1.10	2.90
50.01 Up To 100.00	2.15	1.55	3.70
100.01 Up To 200.00	2.55	1.55	4.10
200.01 Up To 300.00	3.00	1.55	4.55
300.01 Up To 400.00	3.60	1.55	5.15

COMMERCIAL ACCOUNT TERMS of net 10 days are available to well-rated firms upon approval of our Credit Dept. Minimum commercial account order must be $150.00 or more.

PRICING POLICY—It is our policy to maintain catalog prices for the life of the catalog to the best of our ability. However, owing to changing market conditions beyond our control, prices are subject to change without notice.

COUNTER SERVICE

STORE HOURS: Daily 8:30 A.M. to 6:00 P.M. (Monday & Thursdays to 8:00 P.M.). Sundays 8:30 A.M. to 4:30 P.M. Closed on holidays

TRUCK SHIPMENTS

Items with stock numbers followed by "E" or "FE" are too heavy or too bulky to be shipped Parcel Post or United Parcel Service (UPS) and we ship these items by truck. In addition, some items not suffixed "E" cannot be shipped by Parcel Post to some Post Offices or by UPS to some destinations. We also ship such items by truck. **FOR PROMPT DELIVERY, GIVE YOUR FULL STREET ADDRESS. TRUCK SHIPMENT ITEMS CANNOT BE SHIPPED TO A POST OFFICE BOX.**

All truck shipments, except those shipped from factory or C.O.D., are shipped freight prepaid. See Estimated E-Z Rate Charges for Truck Shipments below and **include the amount for your order with your remittance.** Because truck rates are affected by class of merchandise, size, weight, distance and routing factors, the actual rate for your shipment may vary. If more or less than your remittance is used, we will send you a due-bill or a refund.

Factory Ship orders (stock numbers followed by "FE") and C.O.D. orders are shipped truck charges collect to you.

ESTIMATED CHARGES FOR TRUCK SHIPMENT ITEMS
(Based on distance to your home from shipping point).

For Truck Shipment Weighing up to 100 lbs.			
	100-400 miles $27.00	500 miles $29.00	600 miles $31.00
	750 miles $33.00	1000 miles $34.00	1500 miles & beyond $36.00

SATISFACTION GUARANTEED

Buy With Complete Confidence. When you buy from us, you're sure of receiving high quality merchandise ... and you deal with a company whose reputation for dependability and fairness has helped it to become the largest and oldest firm of its kind. Our years of leadership in the automotive mail order field have been based on our guarantee of full satisfaction or your money back. IF FOR ANY REASON A REFUND IS DUE YOU A DRAFT WILL BE ISSUED THAT IS VALID FOR 5 YEARS FROM DATE OF ISSUE.

WARRANTY INFORMATION

J. C. WHITNEY & COMPANY offers a limited 180-day warranty on all replacement parts purchased from us, except as specified in catalog copy. Where the cost of the item is more than $15.00, the full text of this warranty, and any other warranties, where provided, can be obtained by written request directed to:

WARRANTY INFORMATION
J. C. WHITNEY & COMPANY
P.O. BOX 8410
CHICAGO, ILLINOIS 60680

Please enclose a self-addressed envelope with your request for a warranty text. Include in your request the catalog number, page number, stock number and description of the item.

The J. C. WHITNEY & COMPANY warranty does not apply to Speed and Racing Equipment. It does not include rebuilt articles or other used parts for which the warranty period is 30 days from date of sale. The warranty period is 30 days from date of sale. The warranty period for reconditioned motors is 90 days from date of sale. NO warranty is available for merchandise that is altered or painted.

HOW TO ORDER FROM THIS CATALOG

E-Z RATE — Shipping, Handling and Assured Safe Delivery

BE SURE TO CHECK THE E-Z RATE CHART THAT APPLIES TO YOUR ORDER

For orders which can be shipped via Parcel Post or United Parcel Service. (For stock numbers not mailable, or followed by "E," see **Truck Shipments**). Using the chart below, you can figure your shipping charges quickly and easily.

1. Find your zone in the **Zip Code Chart** below.
2. In **E-Z Rate Chart** below, find the total dollar value of your order (the figure in "Total for Merchandise" space on the Order Blank). Read across to your parcel post zone. This is your E-Z Rate amount.
3. Enter this amount in the E-Z Rate space on your order blank. This amount is your total cost of shipping—we pay any additional shipping costs. With E-Z Rate your order is fully protected against loss or damage—and our policy of **Satisfaction Guaranteed or Your Money Back** always applies!

TOTAL DOLLAR VALUE OF YOUR ORDER	PARCEL POST ZONES: LOCAL	1 & 2	3	4	5	6	7	8

HOW TO RETURN MERCHANDISE

The following instructions do not apply to trade-in items, or items with special warranties, where specific instructions are given, nor does it apply to merchandise purchased from our Retail Store, which must be returned directly to the store.

(a) Always refer to an item by both stock number and description when writing, to avoid delay and additional correspondence.

(b) Merchandise will not be accepted for credit or repair or replacement if altered or painted.

(c) Damaged items—if damaged via shipment by truck, notify trucking company at once so that you do not lose your right to file claim with the carrier. Do not return broken or damaged merchandise to us until you have received instructions from us.

(d) Do not return merchandise that has been used by you until you have received instructions from us. State reasons why you wish to return merchandise and include original order papers.

(e) Any merchandise returned to us that has not been used by you must be complete with all parts and instructions and must be accompanied by a letter giving detailed reasons for return—plus original order papers.

(f) Return all merchandise prepaid to:

J.C. WHITNEY & COMPANY
2233 S. Throop St.
Chicago, Illinois 60608

(g) Wrap and tie package securely. Whenever possible, return merchandise in original carton. Your letter of instructions to us should be enclosed with the merchandise. Inform us whether you want a replacement, a different item, a repair or a refund, unless otherwise stated in the catalog description of the respective item. If a different item is desired, always state Make, Year, Model of Car it is for. If returned by Parcel Post, add 20 cents additional postage for return letter enclosed. Insure Parcel Post shipments.

J.C. WHITNEY & CO.

Custom-fit Sporty Breathable Vinyl NOSE PROTECTORS

for American & Imported Cars & Pickups

- ★ Protects the front end of your vehicle against damage caused by rocks, road debris, flying bugs
- ★ Heavy-gauge breathable Vinyl has soft, non-woven cotton flannel backing... won't scratch
- ★ Logo silk-screened on front center of nose protector (except for those vehicles with ♦)
- ★ Custom tailored to fit your car or truck beautifully
- ★ Installs in minutes—no special fittings, no drilling, no cutting, no tailoring

Black Vinyl cover protects nose and front portion of fenders. Cover is held securely in place by elastic shock cords and no-mar contoured aluminum plates ... won't flap even at high speeds. Custom tailored to fit perfectly—cut outs for headlights, driving lights, bumper guard and supports for models requiring them. No alteration of vehicle required! Includes instructions. **When Ordering, State Make, Year, Model Name or Number, Body Style, Optional Accessories (fog lights, bumper guards, etc.) and Stock Number.** Shipped from factory. No C.O.D. orders.
